QUEENSLAND TERTIARY ADMISSIONS CENTRE LIMITED (QTAC) ABN 28 050 542 633

USE OF THIS PUBLICATION AND DISCLAIMER

The objective of the 2024 *QTAC Guide to Further Study* is to provide prospective applicants to tertiary courses covered by the *Guide* with details of how to apply for each course. It also contains general information regarding course curricula and other course information. The *Guide* should not be used for any other purpose.

The *Guide* has been compiled by QTAC based on information available as of May 2023.
The information contained in this *Guide* is subject to change. Where QTAC is advised by participating institutions or institutions with direct applications of material changes to course or other information contained in this *Guide*, and if any changes to QTAC's timetable or procedures are required as a result of changes of which QTAC is aware, this information will be published on QTAC's website at qtac.edu.au.

Prospective applicants should therefore check QTAC's website prior to lodging an application for any course. For detailed course information, prospective applicants should check QTAC's website at qtac.edu.au/course-search or contact the relevant institution and should not rely on this publication when making decisions or taking any action.

The *Guide* has been compiled and published by QTAC on behalf of participating institutions and institutions with direct applications and contains information provided by them and many other bodies. QTAC has not verified, and does not represent or warrant, that such information is accurate, complete or up to date.

The preparation and publication of the *Guide* is not, and should not be taken as, an endorsement by QTAC of any particular institution or course. QTAC disclaims, on behalf of itself, its officers, employees and agents, any liability for any decision made, or action taken, in reliance on the information in this publication.

ADVERTISING DISCLAIMER

QTAC does not necessarily endorse any product or service that may be advertised in this publication.

TIMES AND DATES

Times and dates listed in this *Guide* are based on Queensland local time (GMT+10).

AUSTRALIAN TERTIARY ADMISSION RANK

WHAT IS THE ATAR?

The Australian Tertiary Admission Rank (ATAR) is the standard measure of a student's overall academic achievement in relation to that of other students. It is intended to help tertiary institutions select applicants into their courses.

The ATAR is a percentile rank, not a mark. This rank indicates a student's position relative to other students in their age group in any given year.

An ATAR is expressed as a number on a 2000-point scale from 99.95 down to 0.00 in steps of 0.05. The highest ATAR is 99.95, then 99.90, then 99.85, and so on, down to 0.00.

An ATAR below 30 is reported as '30.00 or less'.

ATAR ELIGIBILITY

To be eligible for a Queensland ATAR, you must:

- Satisfactorily complete (i.e. achieve a minimum grade of C or higher) an English subject (Unit 3, Unit 4); English, English as an Additional Language, English and Literature Extension, Literature, or Essential English
- Complete one of the three combinations:
  - five General subjects (Unit 3, Unit 4), OR
  - four General subjects (Unit 3, Unit 4) AND one Applied subject (Unit 3, Unit 4), OR
  - four General subjects (Unit 3, Unit 4) AND a complete VET qualification at Certificate III level or above
- Accumulate your results within a five-year period.

ENGLISH SUBJECT REQUIREMENT

While you must satisfactorily complete an English subject to be eligible for an ATAR, your English result will only be included in your ATAR calculation if it is one of your best five scaled results.

To satisfactorily complete a subject, you must attain a letter grade of 'C' or higher.

ACCUMULATED AND ACCELERATED RESULTS

Your ATAR is based on the aggregate of scaled results in your best five eligible subjects, irrespective of the year in which the subjects are completed.

Most students are expected to follow a traditional pattern of accumulating their results over two years of study in Years 11 and 12, with results at Units 3 and 4 achieved over the one year (Year 12).

To cater for students who are unable to undertake five subjects in one year, an ATAR can be calculated based on results achieved over five consecutive years. Completing one eligible subject each year over a five-year period should qualify you for an ATAR.

HOW IS THE ATAR CALCULATED?

Your ATAR will be calculated in three steps:

1. The Queensland Curriculum and Assessment Authority (QCAA) provides your Unit 3 and 4 subject results in General and Applied subjects and completed VET qualifications to QTAC.
2. QTAC scales these subject results and VET qualifications. This produces scaled results.
3. ATARs are then allocated to students based on the total (aggregate) of their best five scaled results.

Note: Only completed VET qualifications listed in your QCAA student learning account will be sent to QTAC. To check your account, visit myqce.qcaa.qld.edu.au.

For more information on calculating the ATAR, visit qtac.edu.au/atar.

ATAR CONTINUED

ATAR AND ADJUSTMENT FACTORS

When your QTAC application is assessed, adjustment factors are added to the selection rank after ATARs are calculated, according to individual tertiary institution rules. **Adjustments do not change your ATAR**, and will not be displayed in your ATAR Portal, but change your selection rank for a particular course at a particular institution on your QTAC application only.

Adjustments may be applied for factors such as performance in certain Year 12 and university subjects, living or attending school in a certain location, and consideration through QTAC's Educational Access Scheme (EAS). Refer to page 12 for information on adjustment factors and EAS. Adjustment factors are applied differently from institution to institution and from course to course. Visit each institution's website for more details.

VET QUALIFICATIONS FOR TERTIARY ENTRY

Completed Vocational Education and Training (VET) courses can be used for tertiary entry in two ways:

- VET included in the ATAR; **and/or**
- VET as a standalone basis of admission.

HOW VET IS INCORPORATED INTO THE ATAR CALCULATION

The VET qualifications that count towards ATAR eligibility are completed Certificate III, Certificate IV, Diploma and Advanced Diploma qualifications.

Each VET qualification level will have a single scaled result that can be included in your ATAR calculation.

That scaled result in any one year is the same regardless of the field of study, duration or content of the VET qualification (for example, a Certificate III in Hospitality and a Certificate III in Lab Skills = same scaled result).

VET AS A STANDALONE BASIS OF ADMISSION

Institutions may consider completed VET qualifications at Certificate III level and higher as a standalone basis of tertiary admission.

PERFORMING ARTS QUALIFICATIONS FOR TERTIARY ENTRY

Performing Arts qualifications such as AMEB awards are not eligible inputs into the ATAR calculation. However, some institutions may consider these qualifications as a standalone basis of tertiary study.

Visit qtac.edu.au/applications for institution-specific schedules.

HOW TO GET YOUR ATAR

ATARs will be released via the online ATAR Portal on 15 December 2023. To receive your ATAR, **you must register** for access to the ATAR Portal. Registrations open Tuesday, 1 August 2023. Visit qtac.edu.au/atar for information.

QTAC applications for courses starting 2024 also open Tuesday, 1 August 2023. Applying for courses through QTAC is separate to registering for access to the ATAR Portal, refer to page 9 for details on how to apply for courses through QTAC.

If you are applying for tertiary study interstate, you should register for QTAC's ATAR Portal and in doing so, will provide the necessary consent for QTAC to share your ATAR with interstate Tertiary Admission Centres.

For specific questions about the ATAR, call the ATAR hotline on 1300 193 173 or email atar@qtac.edu.au.

TIPS:

- Check all VET qualifications are recorded as 'completed' in your QCAA learning account by the end of November 2023.
- Contact the QCAA directly for issues related to the inclusion of VET qualifications.
- Completed VET qualifications that may not have been recorded in your QCAA learning account prior to the December ATAR calculation are processed by the QCAA and passed onto QTAC as amendments. QTAC will notify students if there is a change in their ATAR.

Visit myqce.qcaa.qld.edu.au for information.

COURSE ENTRY REQUIREMENTS

ELIGIBILITY

Institution admission criteria apply to every applicant for every course. The criteria can be different for each institution. These include:

- Prerequisites, and
- Institution admission rules.

PREREQUISITES

Prerequisites are entry requirements you must meet before you are considered for entry.

Subject prerequisites

Subject prerequisites are subjects you must complete and achieve a specified result before you are considered for entry. The most common subject prerequisite is English (Units 3 and 4, C), which means you must study English and achieve a minimum grade of C or higher in Units 3 and 4. General English subjects to meet this requirement are: English, English as an Additional Language, Literature, English and Literature Extension.

Not all courses have subject prerequisites. Some courses have assumed knowledge and/or recommended study. If your course has assumed knowledge or recommended study, you can get in without having studied the particular assumed knowledge/ recommended study subject. However, you'll probably find you're better off if you have studied it, because the institution will assume, or recommend, that you have the subject knowledge.

Other prerequisites

Some courses have other prerequisites (i.e. creative and performing arts have interviews, portfolios or auditions that you must pass first). Other courses may have a prior tertiary study prerequisite, meaning you need to have already completed another course, like a diploma or bachelor's degree, to gain entry.

You can find prerequisites for courses starting in 2024 in the Courses section of this *Guide*.

INSTITUTION ADMISSION RULES

English language proficiency

If English is not your first language, you must demonstrate you can speak, write, read and comprehend English to a standard set by the institution.

For nursing and midwifery courses, you must demonstrate your English language proficiency regardless of your country of birth or first language. Refer to page 7 for more information.

Visit qtac.edu.au/english-language-proficiency for institution-specific requirements and accepted tests, if required.

Minimum Age Requirements

Australian Catholic University	Age 17 or completed Year 12
Bond University	Contact Bond
Christian Heritage College	Completed Year 12 or turned age 17 by 31 January 2024 for Semester 1 or 30 June 2024 for Semester 2.
CQUniversity Australia	Completed Year 12 or turned age 17 by 31 January 2024 for Semester 1, 2024 entry, 1 July 2024 for Semester 2, 2024 entry, 1 November 2024 for Semester 3 2024. Applicants under the age of 17 who have not successfully completed Year 12, may only be considered for admission if their qualifications and level of attainment are acceptable.
Griffith College	Completion of Year 12 attained or attained age 18 years with additional study/work experience.
Griffith University	Completed Year 12 or turned age 17 by 1 November 2023 for trimester 3, 2023, 1 March 2024 for trimester 1, 2024, 1 July 2024 for trimester 2, 2024 or 1 November 2024 for trimester 3, 2024. Domestic applicants under age 17 will not be considered for entry to Griffith programs unless they have completed Year 12 or an AQF Certificate III (or higher) qualification, and all admission requirements. Applicants under age 16 should contact Griffith for further details.
James Cook University	Age 18 or completed Year 12
Queensland University of Technology	16 years old at the first census date of QUT study, plus obtained an ATAR or completed Year 12. If you have not obtained an ATAR or completed Year 12, you won't be considered for entry until you are either 19 years old at the first census date of QUT study, or as an 18-year-old, you've achieved one of the following: • Completed Certificate III (or higher qualification) • Studied at least 0.25 year of degree (or higher study) • Have at least 0.50 year full-time (or equivalent part-time) work experience.
SAE Creative Media Institute	Age 17 or completed Year 12
Southern Cross University	Applicants who are under 18 years of age as at 1 March 2024 for semester 1 and 2, 2024 and who do not have a completed Year 12 qualification may only be considered for admission if their qualifications and level of attainment are acceptable to the relevant head of school.
TAFE Queensland	Year 12 or attained Year 12 leaving age
The University of Queensland	No minimum age however students who will be under 16 years of age by the term start date must have their enrolment approved by the faculty and the Academic Registrar. Students who do not receive this approval may be offered a deferred place.
University of New England	Age 17
UniSQ	Contact UniSQ
UniSC	Age 17 or completed Year 12

COURSE ENTRY REQUIREMENTS

NURSING AND MIDWIFERY

Before you can be considered for a place in a nursing or midwifery course, the Australian Nursing and Midwifery Accreditation Council (ANMAC) requires that all applicants must demonstrate their English language proficiency.

Once you have submitted your application for a nursing or midwifery course through QTAC, you will be sent a request via email for more information about your English language proficiency. You will need to complete the request by filling out the option that applies to you, and uploading the document to your application.

This requirement applies to **all applicants**, regardless of their country of birth or language background. For more information, visit qtac.edu.au/nursing-and-midwifery-courses-entry.

INITIAL TEACHER EDUCATION COURSES

For entry to initial teacher education courses, you will need to meet both academic and non-academic entry requirements.

Academic entry requirements can include subject prerequisites and selection rank thresholds.

To meet the non-academic entry requirements, applicants must complete an online questionnaire. A link to the questionnarie will be sent via email after the QTAC application has been submitted. Check your inbox and junk folder for the email. If you have not received an email a few weeks after applying, call us on 1300 467 822 for assistance.

The questionnaire will assess your motivation and suitability to become a teacher, and your involvement in personal learning and leadership activities.

For more information, visit qtac.edu.au/teacher-entry.

MERIT

If you meet the course eligibility requirements, you will be considered for an offer based on merit (i.e. based on your selection rank). For some courses, achieving a minimum ATAR (selection rank) is enough to get an offer.

For other courses, you'll need a better ATAR than other applicants to successfully compete for a place ahead of them. For a small number of competitive courses, like medicine or dentistry, you may need even more, such as results in certain subjects, or a minimum score in the University Clinical Aptitude Test (UCAT), for example.

Check QTAC's Course Search for requirements, or visit each institution's website for further details.

If the course you want to get in to doesn't need an ATAR for entry, and you meet the institution admission rules, you don't need to compete for a place and will simply receive an offer for the course when offers are made.

If you meet the entry requirements for your chosen course, you will be considered for an offer. If you get an offer, it means you've been given a place in a course. Refer to page 13 for more information about offers.

DOCUMENTING YOUR STUDIES

In some cases, you may need to provide copies of your qualifications to us, so we can assess them as part of your application. We'll let you know after you apply if you need to provide documentation. You can submit your documents online, by logging in to your application at applications.qtac.edu.au.

If you have extra qualifications, such as a Certificate III or AMEB award, you should include them in your QTAC application, because some institutions accept them for entry and the qualification could help you get an offer.

Any qualifications already in your QCAA learning account will automatically appear in your QTAC application when you apply; you won't have to add them. If your qualifications are meant to be included on your QCAA Senior Education Profile (SEP) and you can't see them in your QTAC application, speak to your school guidance officer to get them added to your QCAA learning account.

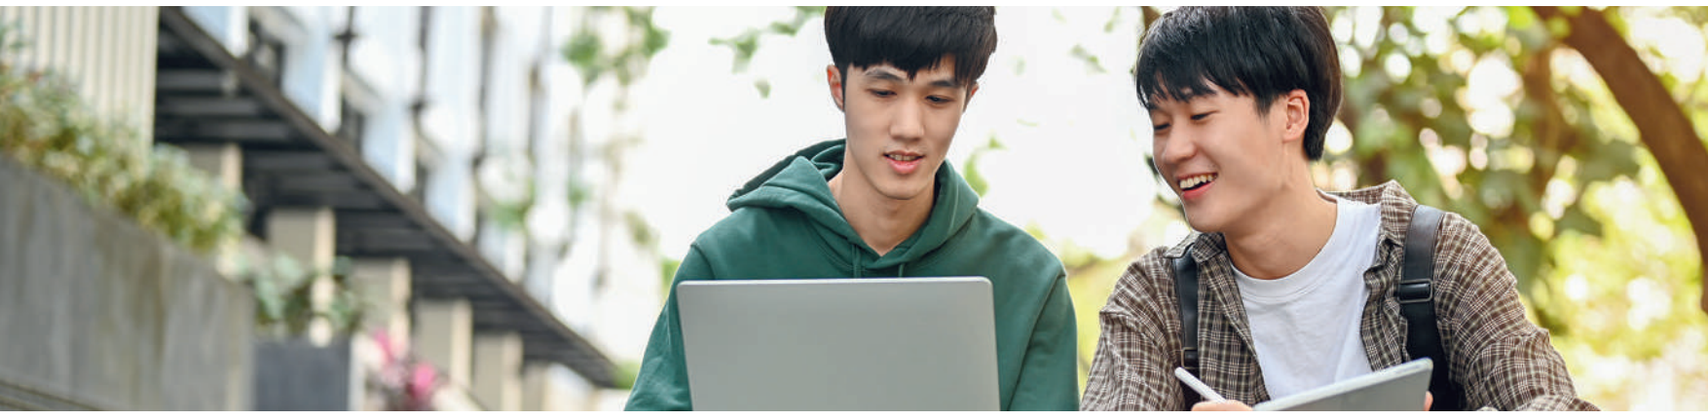
If you have qualifications that won't be included on your Senior Statement, add them to your QTAC application so we can consider them along with your Year 12 studies.

TIPS FOR SUBMITTING YOUR DOCUMENTS

- Check the key dates on our website to ensure you submit your documents on time.
- Make sure each document is clear, easy to read and no parts have been cut off in the uploading process.
- If you can't upload your documents, email your files to documents@qtac.edu.au with your full name, date of birth and application number in the subject line to assist with accurate processing.
- If your documents are in a foreign language other than English, submit a copy of the original document as well as a full, official English translation (extract translations are not accepted).
- Resubmit any documents you provided to us in previous years, because we do not keep them.
- Visit qtac.edu.au/documentation for detailed information on what documents to provide for different types of studies.

We reserve the right to request original documents and/or certified copies of documents, if required.

HOW TO APPLY



BEFORE YOU START

If you have the following information on hand, you'll find the application process much easier.
To apply, you'll need:

- A personal email account you check regularly (not your school email)
- Details of the courses you're applying for
- Details of your qualifications and experience
- If you're in Year 12 in Queensland, you must also enter your Learner Unique Identifier (LUI) number to complete your application.

Visit studentconnect.qcaa.qld.edu.au/login_lui.html to find your LUI if you have forgotten. We'll let you know after you apply if you need to provide copies of your qualifications. Visit qtac.edu.au/documentation for information on documentation.

HOW TO APPLY

1. Visit applications.qtac.edu.au.
2. Create a QTAC account or log in to your existing account.
3. Fill out your details and lodge your application.
4. Submit copies of your qualifications (if required).

AFTER YOU APPLY

After you apply, you can track your application online at applications.qtac.edu.au. Here, you can:

- Check if you meet the entry requirements
- Pay your application fee
- Change your preferences
- Update your contact details
- View correspondence from QTAC
- Check if you need to submit documentation
- View and respond to an offer.

CHANGE TO APPLICATION DETAILS

Call QTAC if you need to change the following details on your application:

- Name
- Date of birth
- Citizenship status
- Aboriginal, Torres Strait Islander, Maori, Pasifika or Australian South Sea Islander status
- Gender
- Qualification details.

APPLYING INTERSTATE

If you want to study outside of Queensland, contact the tertiary admissions centre in the state or territory of your choice for information on applying.

NSW and ACT: Universities Admissions Centre (UAC)
T (02) 9752 0200
W uac.edu.au

VIC: Victorian Tertiary Admissions Centre (VTAC)

W tisc.edu.au

TAS: University of Tasmania
T 1300 363 864
W utas.edu.au

PREFERENCES

You can select up to six course preferences, and ordering them correctly is crucial to the outcome of your application. Using all six preferences maximises your chances of getting an offer.

Before you apply, find the courses you want in the Courses section of this *Guide*, or in Course Search at qtac.edu.au/course-search. Take note of the QTAC course code for each (knowing the course code makes it quick and easy to add preferences to your application) then order your preferences like this:

1st 2nd	Desired courses	Courses you most want to study
3rd 4th	Back-up courses	Less competitive courses that you want to study
5th 6th	Admission pathway courses	Courses that will help you upgrade into a course you really want

If you're applying for courses that have different offer rounds, you'll then need to reorder your preferences according to the offer round date.

You can find the offer round for each course in the Courses section of this *Guide*, or in Course Search at qtac.edu.au/course-search.

As per the example below, if January is the offer round for your first preference, and December is the offer round for your second preference, you will miss out on your second preference because offers are made before your application is considered for your first preference:

PREFERENCE	COURSE	START MONTH	OFFER ROUND
1	Brisbane University B Commerce	Mar 2024	13 Jan 2024
2	Metro University B Acting	Feb 2024	23 Dec 2023
3	Brisbane University B Business	Mar 2024	13 Jan 2024
4	Metro University B Commerce	Feb 2024	13 Jan 2024
5	Accounting Institute D Accounting	Mar 2024	13 Jan 2024
6	Accounting Institute D Accounting	Jul 2024	9 Jun 2024

By placing your second preference first, you can now be considered in the December offer round:

PREFERENCE	COURSE	START MONTH	OFFER ROUND
1	Metro University B Acting	Feb 2024	23 Dec 2023
2	Brisbane University B Commerce	Mar 2024	13 Jan 2024
3	Brisbane University B Business	Mar 2024	13 Jan 2024
4	Metro University B Commerce	Feb 2024	13 Jan 2024
5	Accounting Institute D Accounting	Mar 2024	13 Jan 2024
6	Accounting Institute D Accounting	Jul 2024	9 Jun 2024

If you get an offer in December and still want to be considered for courses being offered in January, you can conditionally accept your offer and reorder your preferences again, this time moving the course you were offered to the bottom, so it becomes preference six.

CHANGING PREFERENCES

You can change your preferences after you apply by logging in to your application online. Here you can add, delete, edit or reorder your preferences, but don't save your changes until you've got your preferences exactly as you want them — the first three preference changes you save are free, but you're charged a fee each time after this.

Note: You cannot delete a preference you have been offered.

Visit qtac.edu.au/preferences for more information on changing preferences.

ADJUSTMENT FACTORS

TYPES OF ADJUSTMENT FACTORS

Below are some common types of adjustment factors that can apply extra points to your selection rank. Contact the institution you're interested in for more information on the types of adjustments they offer.

SUBJECT ADJUSTMENTS

Subject adjustments are made for passing specific Year 12 subjects. These may include: Specialist Mathematics, a language other than English (LOTE), or a university-level subject studied during your senior education. To receive subject adjustments, you must be a current Year 12 student. Subject adjustments are made to your QTAC application automatically, after we've received your Year 12 results.

ELITE ATHLETE AND PERFORMER ADJUSTMENTS

Elite athlete and performer adjustments recognise sporting or artistic skills, expertise. To be eligible for elite athlete adjustments, you must be competing in an Australian Sports Commission (ASC) sport recognised at a state, national or international level.

To be eligible for performer adjustments, you must be a member of, or had significant success in a major artistic performing arts or production company at a state, national or international level; however, eligibility requirements may differ between institutions.

EQUITY ADJUSTMENTS

Equity adjustments are made based on characteristics associated with disadvantage, such as financial hardship, illness or disability, educational disruption, home environment and more. We take such types of disadvantage into account through the Educational Access Scheme (EAS). Refer to page 12 for EAS information.

LOCATION ADJUSTMENTS

Location adjustments are made based on your proximity to the institution you're applying for. For example, some institutions give you additional points for being a local resident, or for living in a regional or remote area. Location adjustments are made to your QTAC application automatically, after you apply.

How far you go begins with where you go

Graduate career-ready with industry opportunities, hands-on learning and global partnerships.

*Good Universities Guide, 2022, ^ Terms and conditions apply. CRICOS: QLD 00244B, NSW 02225M | TEQSA: PRV12081

EDUCATIONAL ACCESS SCHEME

The Educational Access Scheme (EAS) can help you if your most recent studies were negatively affected by circumstances beyond your control.

There are five EAS categories:

- Financial hardship
- Home environment and responsibilities
- English language difficulty
- Personal illness or disability
- School environment.

If you're eligible for EAS, you may receive adjustments that increase your chances of getting an offer. If you're assessed as eligible in the financial hardship category, you may automatically be entitled to financial assistance, such as scholarships or bursaries, from some institutions.

WHO CAN APPLY

You can apply for the EAS if you are applying for tertiary study through QTAC. You don't have to be currently studying to apply for the EAS, but most EAS categories relate to circumstances that affected your most recent studies.

The financial hardship category relates to your current and recent financial circumstances.

The EAS cannot compensate for circumstances such as:

- Not completing secondary school
- Changing school subjects by choice, resulting in you not meeting entry requirements
- Missed time from school for activities that are a personal choice (for example, sport, musical or cultural activities).

HOW TO APPLY

You can apply for the EAS in your QTAC application by selecting the category or categories you want. If you want to apply for the EAS after you've lodged your QTAC application, download and complete all the required supporting documents from the EAS website, then upload them to your application or email them to QTAC.

SUPPORTING DOCUMENTATION

The EAS is an evidence-based scheme. You must provide documentation as evidence of the disadvantage you have experienced. You will receive an email invitation to complete an online EAS application and submit supporting documents. The supporting documentation needed for each EAS category is outlined on the relevant cover sheet.

If you're in Year 12 and are applying for personal illness or disability, school environment or English language difficulty, you must ask your school to complete the school statement section of the online EAS application.

If you can't provide the documentation, you should submit a statement explaining why. You should also include any alternative documents that may support your case.

You can upload your documents by logging in to your application at applications.qtac.edu.au.

Alternatively, you can email your documents to: documents@qtac.edu.au.

For more information on the EAS, visit qtac.edu.au/educational-access-scheme.

OFFERS

OFFER ROUNDS

Institutions make offers throughout the year on set dates called offer rounds. To find out what dates your chosen institution is making offers, visit qtac.edu.au/course-offer-dates-and-vacancy-information.

The offer rounds stated for each course in the Courses section of this *Guide* are the dates most applicants can expect to find out if they've been made an offer. However, you could find out sooner or later than this, depending on when you apply and the course you apply for. You can only get one offer in an offer round, and this will be for your highest eligible preference.

If you get an offer, we'll notify you by SMS and email. You can then log in to your application at applications.qtac.edu.au to view and respond to your offer.

OFFER RESPONSE OPTIONS

ACCEPT

I'm happy and I'm ready to enrol

Check with the institution for enrolment details and dates

REJECT

I no longer wish to study this course

If you want to be considered for other courses, conditionally respond

DEFER

I'm happy, but I'm not ready to enrol yet

Check with the institution for deferment details

CONDITIONALLY RESPOND

I'd like to be considered for my higher preferences

If you receive another offer, you lose the right to your original offer

Top 5 reasons for not getting an offer

- Your ATAR or selection rank is lower than the ATAR or selection rank needed for entry
- You don't meet the prerequisites for your chosen courses
- You ordered your preferences incorrectly
- You applied after the due date, and we couldn't assess your application in time
- You didn't pay your application fee.

DEFERMENT

Deferment allows you to delay starting your course if you receive an offer but aren't ready to start studying. Usually, you can defer for up to a year, but some institutions allow you to defer for longer. Others don't allow deferment, or don't allow deferment for certain courses. Check with individual institutions for their deferment policies.

AUSTRALIAN CATHOLIC UNIVERSITY

You can defer your undergraduate course for up to one year.

BOND UNIVERSITY

You cannot defer the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD).

CHRISTIAN HERITAGE COLLEGE

Deferment may be granted for a period of 6 to 12 months. You must defer when responding to your offer through QTAC as well as submit to CHC a request for deferment by emailing admissions@chc.edu.au. For more information, contact CHC Admissions on 3347 7915.

CQUNIVERSITY AUSTRALIA

You cannot defer a course offer with CQUniversity. Once you have formally accepted an offer, some courses may allow you to commence by enrolling into a later term of study. However, this is only available for limited courses and is dependent on unit availability. The following courses do not permit you to commence at a later date: Bachelor of Medical Science (Pathway to Medicine), Bachelor of Medical Sonography/ Graduate Diploma of Medical Sonography, Bachelor of Echocardiography and Cardiac Physiology/Graduate Diploma of Echocardiography, Bachelor of Medical Imaging, Bachelor of Oral Health, Bachelor of Physiotherapy (Honours), Bachelor of Occupational Therapy (Honours), Bachelor of Paramedic Science, Bachelor of Paramedic Science/Graduate Certificate in Emergency and Disaster Management or Diploma of Nursing.

FEDERATION UNIVERSITY AUSTRALIA

Deferment of up to 12 months is available for successful applicants once they have accepted their offer through QTAC. Deferment of six months is possible in some cases. Please note that not all programs allow deferment, refer to federation.edu.au/defer for more information or contact us.

GRIFFITH COLLEGE

In most cases, you can defer your course for one year. You may lose your deferred place if you apply for other courses. Deferment is not possible for the Diploma of Health Care and Diploma of Health Care/Bachelor of Nursing. For more information and conditions, contact Griffith College.

GRIFFITH UNIVERSITY

Griffith allows applicants who receive an offer to most of the university's undergraduate programs, to defer the commencement of their study in that program. Applicants are placed on a one year deferment initially.

Applicants who wish to extend or shorten their deferment, provided their program allows, should email deferred@griffith.edu.au. Deferral must not exceed one year. Deferment is not available for all programs.

Applicants who defer an offer outright are not eligible to be considered for any other preferences. If an applicant wishes to apply for other programs, including Griffith University programs, then they must conditionally defer and reorder their QTAC preferences. An applicant's deferred place may be withdrawn if they subsequently receive an additional offer or are excluded from another tertiary institution; or apply for other programs through QTAC. For more information on Griffith deferment processes, including exclusions, please visit griffith.edu.au/taking-break-from-study.

JAMES COOK UNIVERSITY

You can defer your course for up to 12 months.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

Applicants are eligible for deferment except for courses with audition, interview, portfolio and/or questionnaire additional entry requirements; some courses with prior study requirements (e.g. graduate teaching); and courses that are not offered in the following year or for which entry requirements are changing.

SAE CREATIVE MEDIA INSTITUTE

You may apply directly to SAE to be considered for deferment; conditions apply.

SOUTHERN CROSS UNIVERSITY

You must defer when responding to your offer through QTAC, and also submit a request for deferment to Southern Cross University. Deferment may be granted for a period of 12 months.

TAFE QUEENSLAND

TAFE Queensland allows deferment once for up to one year in the following courses: Associate Degree in Civil Engineering (555948 and 555037), Bachelor of Dental Prosthetics (555145). Applicants do not need to re-apply through QTAC the following year. To apply for deferral an applicant must choose the deferment option when responding to their QTAC offer. Deferment may also be available for degree courses offered by TAFE Queensland in partnership with Federation University and University of Canberra. For more information contact TAFE Queensland on (07) 3215 1447.

THE UNIVERSITY OF QUEENSLAND

You can defer undergraduate programs for up to one year if you are offered a place in semester 1. Offers for semester 2 entry can't be deferred. Contact UQ for more information.

TORRENS UNIVERSITY AUSTRALIA

Deferment is available for successful applicants once they have accepted their offer through QTAC and Torrens University Australia student system. Successful applicants are encouraged to contact the Future Student Advisors at 1300 575 803 or email futurestudents@torrens.edu.au for further advice as some programs do not permit deferment or have special conditions.

UNIVERSITY OF NEW ENGLAND

UNE may allow successful applicants to defer for up to two years for most UNE courses (with students need to request to defer for one year at a time). To apply for deferment all applicants must respond to their QTAC offer and send in a request for deferment to UNE via AskUNE. Applicants approved to defer their course by UNE do not need to re-apply through QTAC the following year. Enrolment information will be emailed to deferred students advising them that they can enrol as their deferred intake start date approaches. The Bachelor of Nursing cannot be deferred.

UNIVERSITY OF SOUTHERN QUEENSLAND

Applicants who are offered a place may defer their study for one year. Deferral is not permitted in the following UniSQ Programs:

- Tertiary Preparation Program
- B Midwifery (Graduate Entry)
- B Nursing
- B Nursing (Enrolled Nurse Entry)
- B Speech Pathology (Honours)
- B Occupational Therapy (Honours)
- B Biomedical Science (Medicine Pathway)
- B Paramedicine
- B Social Work (Honours)

To defer your QTAC offer, contact QTAC by responding to your offer. Applicants do not need to re-apply through QTAC the following year as enrolment information is automatically forwarded to deferred applicants. For more information, visit the UniSQ website or call 1800 269 500.

UNIVERSITY OF THE SUNSHINE COAST

UniSC allows deferment for up to one year in most undergraduate programs, the Master of Teaching programs and the Tertiary Preparation Program. Exceptions apply.

Successful applicants who have accepted their offer through the QTAC system may defer the commencement of their program by selecting deferment when registering their offer response direct with UniSC.

Please note:

- Deferment is not automatically approved for the Bachelor of Medical Science (Griffith MD Provisional Entry for School Leavers) (013231). Applicants made an offer for this program must request deferment by emailing information@usc.edu.au outlining the reasons for the request.
- Deferment is not permitted for undergraduate certificate programs.

Applicants holding a deferred place will be notified by UniSC on the process to commence their program. If the deferment period is still valid, these applicants will not be required to re-apply through QTAC. Contact UniSC for more information.

Thinking about further study?

You'll need a USI.

Your Unique Student Identifier (USI) is your education number for life. You'll need it to:

- access HECS-HELP
- enrol in a Commonwealth Supported Place
- enrol in Vocational Education and Training (VET)
- graduate from your degree.

Find or create your USI at usi.gov.au

Australian Government

USI Unique Student Identifier

FEES AND COSTS

COURSE COSTS

Course fees are different for every course and vary between institutions. You can find information on course fees on institution websites.

PUBLIC UNIVERSITIES

Public universities and some private providers offer Commonwealth supported places (CSPs), whereby the Australian Government subsidies part of the cost of your course fees, and you pay the remainder (i.e. the 'student contribution amount'). The amount you pay varies between providers and courses.

CSPs are only available to domestic students. Visit studyassist.gov.au for more information.

TAFE QUEENSLAND

TAFE Queensland course costs depend on several factors, including the type and length of the course you choose, whether you are studying full-time, part-time or online, whether you are eligible for recognition of prior learning, and whether you are entitled to Fee-Free TAFE, concessions, fee exemptions or government subsidies.

TAFE Queensland offers a range of payment options and concessions to eligible students. Visit tafeqld.edu.au/courses/apply-and-enrol/what-it-costs for more information on course fees.

DIRECT APPLICATION INSTITUTIONS

Direct application institutions include registered training organisations (RTOs) and private colleges. Usually, you pay a full fee for studying through a direct application institution. Contact the institution you're interested in for information on their course fees.

MATERIAL COSTS

Material costs include textbooks, stationery, and, depending on your course, equipment like calculators, lab coats, or uniforms.

It's worth shopping around to compare prices on material costs. For example, textbooks are sometimes cheaper online, and you can often buy discounted second-hand textbooks and equipment from campus bookshops.

LIVING EXPENSES

Living expenses include meals, groceries, electricity, internet and phone bills, clothing, medical expenses, and entertainment. You can save money on groceries by buying generic or home brand products, shopping at low-cost supermarkets and buying items on special.

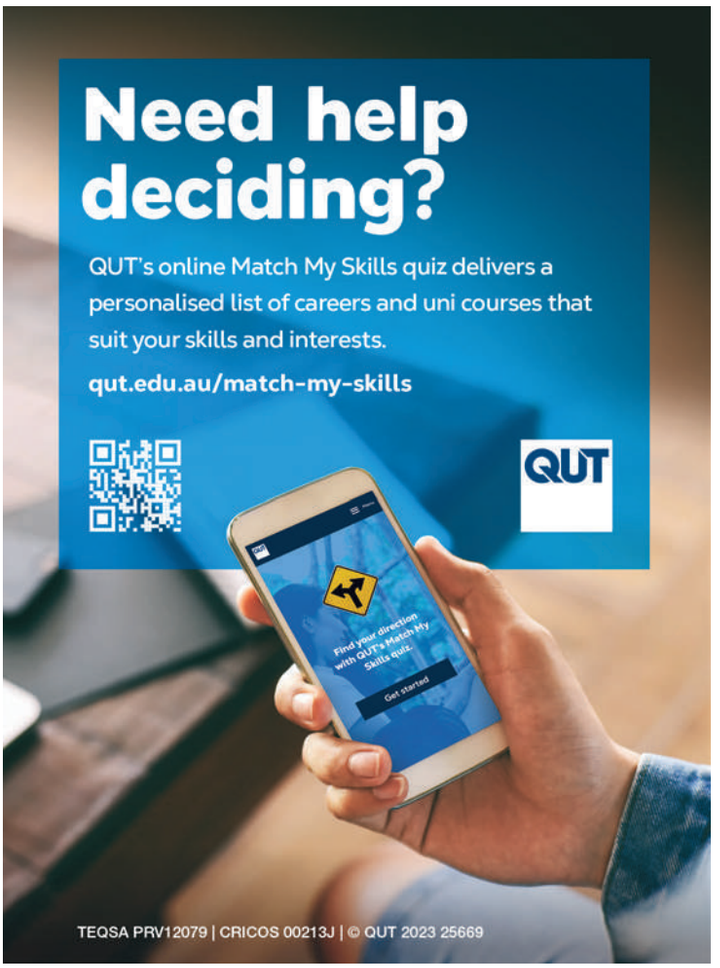
Some retailers and websites offer student discounts on fashion, technology, food, entertainment and more.

TRAVEL

Travel costs can include fuel, vehicle maintenance and public transport fares. If you plan to study full-time, you can take advantage of student discounts on public transport. Students in South East Queensland can visit translink.com.au for information on student fares.

Some courses have field trips or professional placements that require you to travel to complete the practical component of your course. In these cases, you may need to pay for fuel or fares, meals and accommodation.

FEES AND COSTS



ACCOMMODATION

If you have to live away from home to study, you'll need to budget for accommodation. Many institutions have on-campus accommodation and services to help students find suitable off-campus accommodation. Accommodation types include residential colleges, student villages, townhouses, apartments, share houses, and homestay. Fees vary depending on the accommodation type. Visit institution websites for information on accommodation options and fees.

BUDGETING

One way to help manage your study costs is by budgeting. Some institutions' student support services offer budgeting advice, and you can find lots of free budget templates online. For example, the Australian Government's MoneySmart website has a budget planner to help track spending and saving, and tips for living on a student budget. Visit moneysmart.gov.au for more information.

FINANCIAL HELP

Financial help is available to students through the Australian Government and institutions to assist with the costs of study.

HIGHER EDUCATION LOAN PROGRAM (HELP)

The Australian Government's Higher Education Loan Program (HELP) comprises four HELP loan schemes and the VET Student Loans program, which allows students to defer payment of their course fees. To be eligible for a HELP loan, you must be an Australian citizen, New Zealand Special Category Visa holder or permanent humanitarian visa holder. Visit studyassist.gov.au for more information.

INCOME SUPPORT

A variety of Australian Government income support schemes are available to students, including Youth Allowance, Austudy, ABSTUDY, and student start-up loans and scholarships. For more information, visit humanservices.gov.au.

INSTITUTION SCHOLARSHIPS

Most institutions offer scholarships that recognise merit, including academic excellence and sporting achievement, and equity scholarships, which assist regional and rural students, Aboriginal and Torres Strait Islander students, and students from low income backgrounds to access study.

Scholarships can cover a range of costs, from course fees to living and accommodation expenses. Contact the institution you're interested in for information on scholarships.

QTAC FEES 2023/2024 (INC GST)

Application Fees	
Year 12 on-time applications	$55
Non-Year 12 on-time applications	$98
Non-Year 12 late applications	$150
Change of preference	
First three changes	Free
Fourth and subsequent changes	$55

Visit qtac.edu.au/fees for more information on fees.

KEY DATES

OFFER ROUNDS

Offer rounds for individual courses are listed in the Courses section of this *Guide*. Institutions may participate in additional offer rounds before and after the dates listed. For a comprehensive list of offer round dates by institution, visit qtac.edu.au/course-offer-dates-and-vacancy-information.

OFFER DATE	DUE DATE TO APPLY AND SUBMIT DOCUMENTS	DUE DATE TO CHANGE PREFERENCES
Friday, 17 November 2023	Friday, 10 November 2023	Not applicable
Thursday, 21 December 2023	Thursday, 7 December 2023	12:00pm Monday, 18 December 2023
Thursday, 11 January 2024	Friday, 8 December 2023	11:59pm Wednesday, 3 January 2024
Thursday, 6 June 2024	Thursday, 23 May 2024	11:59pm Friday, 31 May 2024

Offer round information is subject to change. Please check qtac.edu.au/key-dates for up-to-date information.

COURSES WITH FIXED CLOSING DATES

The courses below have different closing dates to most courses. If you want to apply for any of these courses, you must do so by the relevant closing date to avoid missing out on being considered for entry.

BOND UNIVERSITY	
B Medical Studies (BMedSt) and the Doctor of Medicine (MD)	Not available at the time of print. Please refer to bond.edu.au for the latest information.
CQUNIVERSITY AUSTRALIA	
B Medical Science (Pathway to Medicine) B Medical Science (Pathway to Medicine) – Aboriginal and/or Torres Strait Islander Admission Pathway B Medical Science (Pathway to Medicine) – Bonded Medical Program	Applications close 29 September 2023.
B Medical Sonography and Grad Dip Medical Sonography B Echocardiography and Cardiac Physiology/Grad Dip Echocardiography B Oral Health B Occupational Therapy (Honours) B Medical Imaging B Physiotherapy (Honours) B Paramedic Science B Paramedic Science/Grad Cert in Emergency & Disaster Management B Nursing Diploma of Nursing	Applications close 8 December 2023.
GRIFFITH UNIVERSITY	
B Dental Health Science	QTAC applications for this program close 29 September 2023. After this date, no new applicants can apply, but existing applicants can reorder this preference.
B Clinical Exercise Physiology B Dental Hygiene B Medical Science B Midwifery B Occupational Therapy (Honours) B Paramedicine B Physiotherapy	New applications lodged after 8 December 2023 may not be assessed in time for the January offer round. Applications for this program close 29 December 2023, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 29 December 2023, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.
B Nursing (Advanced Standing) B Nursing/GC in Paediatric Nursing (Advanced Standing)	Applications for Trimester 1 close 29 September 2023. Applications for Trimester 2 close 26 April 2024.
B Animation B Games Design B Film and Screen Media Production	Applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 1 September 2023. Applicants who wish to apply after this date may be considered in subsequent offer rounds should places still be available.
B Acting B Musical Theatre	Applicants must apply to QTAC, pay their audition fee and submit their phase one video recorded audition and performance CV to Griffith University by 31 August 2023 to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.
B Design B Design/B Business B Visual Arts B Visual Arts/B Business	To be considered for portfolio admission, applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 6 September 2023. Applicants will still be able to apply after this date and be considered for ATAR/Rank admission.

KEY DATES CONTINUED

B Music D Music/B Music	Applicants must apply to QTAC, pay their audition fee and submit their phase one video recorded audition or Folio and Artistic Statement to Griffith University by 31 August 2023 to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.
B Education D Education/B Education	Applications for the March intake close 31 January 2024. Applications for the July intake close 17 June 2024.
JAMES COOK UNIVERSITY	
B Dental Surgery B Medicine, B Surgery B Veterinary Science (Honours)	QTAC applications and JCU Online Application submissions close 30 September 2023.
B Nursing Science/B Midwifery B Physiotherapy	QTAC applications close on 8 December 2023.
QUEENSLAND UNIVERSITY OF TECHNOLOGY	
B Fine Arts (Acting)	Apply to QTAC plus register for an audition with QUT by 5pm Monday, 25 September 2023 (Brisbane time).
SOUTHERN CROSS UNIVERSITY	
B Art and Design	Applicants who have not been contacted by mid-January 2024 must contact the University on 1800 626 481 to arrange a date for their interview.
TAFE QUEENSLAND	
B Creative Industries (Acting and Performance) B Creative Industries (Applied Fashion) B Creative Industries (Contemporary Music Practice) B Creative Industries (Visual Arts) D Graphic Design D Graphic Design/B Digital Design (Visual Communication Design) D Graphic Design/B Digital Media D Music (Performance specialisation) D Music (Performance specialisation)/B Contemporary Music D Music (Performance specialisation)/B Creative Industries (Contemporary Music Practice) D Photography and Digital Imaging D Visual Arts D Visual Arts/B Creative Industries (Visual Arts)	QTAC applications close 1 December 2023 for semester 1, 2024 entry. If the course is offered for semester 2, 2024 the closing date will be 13 May 2024. To be considered after these dates, interested applicants should contact TAFE Queensland directly on 1300 308 233.
UNIVERSITY OF NEW ENGLAND	
B Nursing	QTAC applications close 8 December 2023. Contact the UNE Future Students Team on 1800 818 865 for more information.
THE UNIVERSITY OF QUEENSLAND	
B Music (Honours) B Music (Honours)/B Arts B Music (Honours)/B Education (Secondary) B Music (Honours)/B Science	Audition applications close 21 August 2023. QTAC applications close 29 September 2023.
Doctor of Medicine (MD) Provisional Entry for School-Leavers Doctor of Medicine (MD) Provisional Entry for School-Leavers (Bonded Medical Program)	QTAC applications close 29 September 2023.
B Veterinary Science (Honours)	QTAC applications close 29 November 2023.
UNIVERSITY OF THE SUNSHINE COAST	
B Medical Science (Griffith MD Provisional Entry for School-Leavers)	Applications lodged after 8 December 2023 may not be considered in time for the mid-January offer round. Applications for this program close 29 December 2023. After this date, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.
B Music	31 January 2024 for February 2024 intake. 30 June 2024 for July 2024 intake.
UNIVERSITY OF SOUTHERN QUEENSLAND	
Bachelor of Biomedical Sciences (Medicine Pathway) Bachelor of Biomedical Sciences (Medicine Pathway) - Aboriginal and/or Torres Strait Islander Admission Pathway Bachelor of Biomedical Sciences (Medicine Pathway) - Bonded Medical Program	Applications close 30 September 2023.

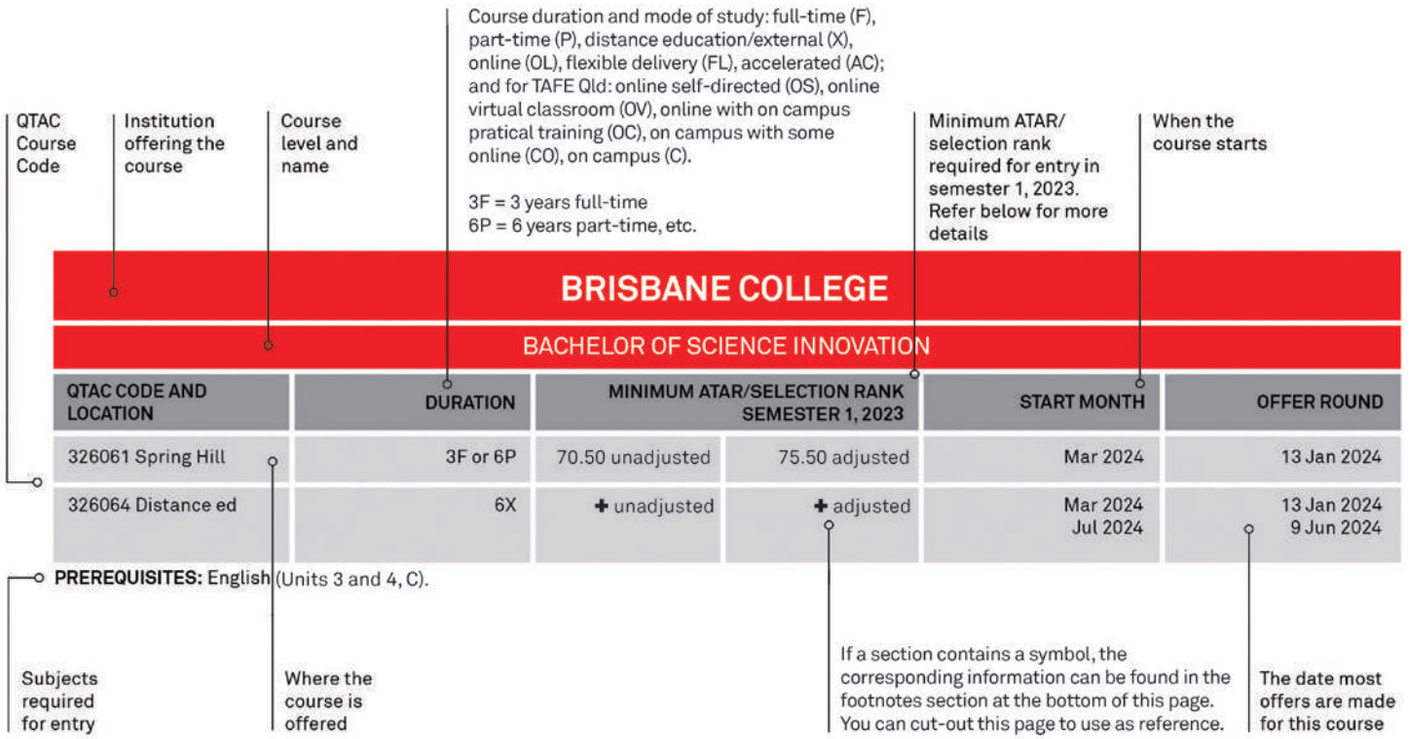
COURSES

UNDERSTANDING COURSE INFORMATION



MINIMUM ATAR/SELECTION RANK

The minimum ATAR/selection rank column shows the ATAR/selection rank of recent school-leavers who had not previously started a university or VET course (except as part of secondary school) and who got into the course based on their ATAR/selection rank and not based on any other qualification.

The minimum ATAR/selection rank represents the point (at or above) applicants were made an offer for a particular course, subject to meeting all other entry requirements. This was previously referred to as a 'cutoff'. If your ATAR/selection rank is lower than this, you can still list the course in your preferences. These ranks are to be used as a guide only as they can change year-to-year.

COURSE ADMISSIONS INFORMATION

The Courses section of this *Guide* shows the ATAR/selection rank profile for each course, except where the institution has not provided this information.

Full course admissions information is published in Course Search at qtac.edu.au/course-search for every domestic-entry undergraduate course that uses the ATAR/selection rank on its own or as part of the selection process. This provides statistical data for prospective applicants, including the ATAR/selection rank profile and student profile for students previously admitted to the course.

Course Search also includes any course changes made after the *Guide* is published, and additional course details such as fees and professional membership and registration opportunities available to graduates.

MINIMUM SELECTION THRESHOLD

The minimum selection threshold that appears in online Course Search (where applicable) is the minimum (adjusted) score that was considered for an offer of a place to all applicants in QTAC offer rounds (i.e. not only recent school-leavers selected on ATAR/selection rank).

Visit qtac.edu.au/the-atar-selection-rank-profile for more information.

Additional entry information: Must be at least 18 years of age or must turn 18 years of age within the first semester of study.

Course outline: This course is ideal for people who have been away from formal education for several years who are looking to learn and develop essential study skills. Whether you are looking to gain entry to university via an alternate pathway or increase your Queensland Tertiary Admissions Centre (QTAC) ranking, this course will equip you with life-long learning skills specific to tertiary education. This course is recognised by Queensland universities as a high-quality academic pathway and is facilitated by industry recognised, expert teaching staff. Students will develop a broad range of skills relevant to tertiary education including advanced literacy, numeracy and digital literacy skills, time management, problem solving, mathematics, research and assignment writing skills, exam strategies and seminar presentation skills. Subject electives may include biology, chemistry, computing, mathematics, legal or physics. Recognised as a Year 12 alternative, graduates will be able to apply to the Queensland Tertiary Admissions Centre (QTAC) for a ranking on completion, gaining potential access to university or other tertiary education institutions. **Note:** To successfully complete this course within the specified time frame, it is recommended that students have sound literacy and numeracy skills, excellent time management and a high level of commitment. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Prospective students should visit tafeqld.edu.au/courses for more information.

Career opportunities: Further study pathway, university admission pathway.

UNIVERSITY OF THE SUNSHINE COAST

Tertiary Preparation Pathway

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
019901 Sunshine Coast	1/2F or 1P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

019961 Moreton Bay	1/2F or 1P	❖ unadjusted	❖ adjusted	Feb, May & Jul 2024	11 Jan, 24 April & 6 Jun 2024

Additional entry information: Applicants must be a minimum of 17 years of age at the time of entry (international students must be 18 years of age).

Course outline: Tertiary Preparation Pathway (TPP) is a bridging program that allows you to experience university life before jumping into a full degree. If you haven't studied in a while, TPP helps you brush up on essential study skills like critical reading, assignment writing and referencing. It can also build your knowledge and confidence in the subject areas you'll need for your degree, like science, business or maths. In this program you will study skills and knowledge to succeed at university, providing a pathway to a UniSC degree. You'll gain direct entry into most UniSC degrees on successful TPP completion. **Note:** Study up to four TPP courses (subjects) from a range of options. Courses are offered in Semester 1 (February), Semester 2 (July) and Session 8 (intensive summer session, in November) and up to three courses in Session 4 (intensive Autumn session). TPP courses are FREE for domestic students (Australian citizens, permanent residents and Australian Permanent Humanitarian visa holders, and New Zealand citizens). TPP courses are Austudy approved.

Career opportunities: Refer to the undergraduate program that you want to transition into.

UNIVERSITY OF SOUTHERN QUEENSLAND

Diploma of University Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
902999 Online	1F or 2P	✚ unadjusted	✚ adjusted	Jan 2024 May 2024	11 Jan 2024 25 Apr 2024

Additional entry information: All applicants are also required to complete online diagnostic tests in Mathematics, e-literacy, and English Communication Skills. Applicants will then be given advice detailing whether the Diploma of University Studies is the most appropriate pathway for them to undertake.

Course outline: The Diploma of University Studies provides a quality foundation to set you up for university success. If you are new to study, haven't studied in a while, or haven't completed Year 12, and would like an introduction to your chosen study area at university, this can be an ideal degree. Choose one of eight specialisations to sample study areas you are interested in. The core courses are offered online which enables you to balance work and life commitments. Graduate with a degree qualification or, provided you meet all the entry requirements, you can transfer directly into a USQ undergraduate degree. **Note:** The first four courses are compulsory and are only available online. **Specialisations:** Business and commerce; construction; creative arts; engineering; Indigenous community development; science; social studies; spatial science.

Career opportunities: As a diploma graduate, you will be provided with introductory knowledge in preparation for a career, or further study, in your area of interest.

Tertiary Preparation Pathway

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

922001 Springfield	1/2F or 1P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
902001 Toowoomba	1/2F or 1P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
902005 Online	1/2F or 1P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Additional entry information: All applicants are required strongly encouraged to complete Tertiary Preparation Program placement tests in mathematics and English communication skills. Applicants will then be directed into the most appropriate available starting level in these components of the courses in TPP. Students who do not undertake these tests will be enrolled in TPP7111 Communicating at University A and/or TPP7180 Preparatory Mathematics during their first semester of study. For students who did not complete schooling in Australia these tests are mandatory.

Course outline: If you have not completed year 12 or it has been some time since you studied, USQ Tertiary Preparation Program (TPP) is the perfect way to start studying at university. You will study courses (subjects) to develop your writing, computing and general study skills and build your confidence for further studies. You may also study some specialised courses to prepare you for the degree you wish to study. When you successfully complete TPP you are guaranteed entry into selected USQ degrees, if you meet the English proficiency requirements. Now is the time to start your pathway to a career that you want.

CQUNIVERSITY AUSTRALIA

Associate Degree of Building Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851375 Online	4P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Through this course, students will build the perfect career foundation to plan and design buildings, ranging from residential homes to medium-rise commercial buildings up to three stories. This includes restoration, renovation, unit development and extension work. Students develop the skills to become confident in design and documentation, construction, structures, building materials and services, professional practice and communication and the key principles of sustainability. Recognised by industry, students will develop practical skills through completion of design-based projects and authentic assessments that reflect real practices. This course is offered part-time, allowing students to work in industry while studying. Students have the option to continue their studies and complete the Bachelor of Building Design at CQUniversity.

Career opportunities: Building designer; design architectural; planning; building or engineering firms; government departments; corporations with large building portfolios.

Associate Degree of Building Surveying

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850375 Online	4P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course equips students with practical skills and prepares them to assess and inspect staged works for domestic and residential buildings. Training focuses on developing skills that are highly desired by employers, across areas such as building legislation and auditing, fire safety design and inspection procedures, construction and building materials. Students develop professional practice and communication skills and explore the principles of sustainability. Students have the option to continue their studies and complete CQUniversity's Bachelor of Building Surveying and Certification (Honours).

Career opportunities: Assistant Building Surveyor; licensing and code board; private certifier.

Bachelor of Building Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851345 Online	5P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course provides the perfect career foundation for students who enjoy building and planning, drawing and design. Students will learn from an experienced teaching team and gain skills and knowledge in designing, documenting and providing contract administration for residential and commercial buildings. Through design-based projects and authentic assessments, students will develop their skills in planning and designing residential homes and commercial buildings, satisfying the Building Design - Open licence issued by the Building Services Authority, Queensland. Students will build an understanding of construction structures, building materials and services, sustainability, professional practice and communication. **Other requirements:** For more information about course requirements, visit cqu.edu.au/courses.

Career opportunities: Building designer working in design; architectural planning; building and engineering firms; government departments; corporations with large building portfolios.

Bachelor of Building Surveying and Certification (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851365 Online	6P	67.45 unadjusted	67.45 unadjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course prepares students to become building surveyors and certify buildings of all classes in the residential and commercial sectors. Students learn to evaluate and assess plans, conduct inspections, issue building permits such as occupancy permits, and interpret building and construction regulations. Students develop skills in building legislation and auditing, fire safety design and inspection procedures, construction, building materials, services, professional practice and communication, and principles of sustainability. **Note:** Students benefit from the flexibility to study this course part-time and via online study. This allows students to work in the industry while they study, and gain practical experience that further enhances their employability.

Career opportunities: Building surveyor; private certification practices; building industry licensing boards.

Bachelor of Construction Management (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850355 Online	6P	68.05 unadjusted	66.45 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Become a qualified Construction Manager and develop expertise in planning and communication to enter the diverse construction industry. This course has a strong focus on construction management and planning, services, building maintenance and materials, and structures, ensuring students graduate work-ready and capable of managing and coordinating complex construction projects including residential, commercial and industrial structures, roads, bridges, power plants, schools and hospitals. **Other requirements:** For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Construction manager; Building Project Manager; government departments; construction; building and sub-contracting companies; corporations with large building portfolios.

GRIFFITH COLLEGE

Diploma of Design/Bachelor of Architectural Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
083331 Gold Coast/ Griffith University - Gold Coast	4F or 9P	✚ unadjusted	✚ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: While undertaking this higher education diploma, students develop an understanding of core concepts and technical skills required for a career in design. Developing their design and creative problem-solving skills, students learn how to develop designs that meet aesthetic, functional and user needs. On successful completion of the diploma, students progress into the Bachelor of Architectural Design with some credit. This is a stepping-stone to Griffith University's Master of Architecture which provides the qualifications needed for registration as an architect.

Career opportunities: Architect; architectural technician.

Diploma of Design/Bachelor of Design/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
083511 Mt Gravatt/ Griffith University - Queensland College of Art, South Bank	4½F or 9P	✚ unadjusted	✚ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024
083611 Gold Coast/ Griffith University - Gold Coast	4½F or 9P	✚ unadjusted	✚ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: In the higher education diploma year, students develop an understanding of the core concepts and technical skills needed for a career in design. Combining design creativity with business skills allows students to take advantage of the commercialization of graphic and communication design, interior and spatial design, product and 3D design, and visualisation and immersive design. On successful completion of the diploma, students progress into the Griffith University dual degree with credit. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor. **Majors:** Bachelor of Design: Immersive Design; Interaction Design; Interior and Spatial Design; Product Design; Visual Communication Design. Bachelor of Business: Accounting; Asian Business; Behavioural Science; Economics, Employment Relations; Innovation and Entrepreneurship; Finance; Financial Planning; Human Resource Management; International Business; Logistics and Supply Chain Management; Marketing; Politics and Public Policy; Real Estate and Property

Development Management; Sport Management; Sustainable Business; Tourism Management.

Career opportunities: Design educator; design manager; digital media specialist; digital web designer; furniture designer; graphic designer; interior designer; product designer.

GRIFFITH UNIVERSITY

Bachelor of Architectural Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234472 Gold Coast	3F or 6P	63.75 unadjusted	70.55 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree will set you on the path to a career as an architect. It's a stepping stone to Griffith's Master of Architecture degree, the qualification needed for registration as an architect. In this degree, you'll combine classroom studies, studio work, fieldwork and practical experience to learn about urban systems, public places and all aspects of the built environment. A focus on sustainable design in tropical and subtropical climates will prepare you for work in Australia and the Asia Pacific.

Career opportunities: With your design, technical and creative skills, you'll be qualified to assist architects and other built environment professionals in the design, documentation and procurement of buildings. You'll be prepared for work in a broad spectrum of creative roles in government agencies, statutory bodies, design practices and studios (urban design, architecture, interior design, virtual environments, graphic design and the film and games industries), commercial development companies, building product manufacturing and distribution companies, and research organisations. With further study, you could go on to become an accredited architect.

Bachelor of Construction Management (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234891 Gold Coast	4F or 8P	64.30 unadjusted	70.00 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Develop an in-depth knowledge and the practical skills required to manage and direct complex construction projects with this degree. You'll learn about sustainable construction, project development and management, construction economics, and site and safety operations in a global context. You'll study core construction areas including construction measurements and estimating, tendering, planning and procurement, with a strong focus on IT applications in the built environment. In your final year, you'll develop your professional skills through an industry placement.

Career opportunities: Building consultant; construction economist; construction estimator; construction manager; construction project manager; contract administrator; facility manager; property developer; site manager; site supervisor.

Bachelor of Urban Planning (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

234761 Gold Coast	4F or 8P	66.95 unadjusted	72.95 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this degree, you'll learn how to manage the social and spatial conditions of urban life, helping to create a more sustainable future. With a strong focus on practical, hands-on teaching, you'll learn state-of-the-art drawing studios and work on real industry projects. You'll be taught by academics who have a strong footing in the industry and have the opportunity to network and connect with industry professionals throughout your degree. What's more, you'll get the chance to undertake an industry placement, allowing you to put your skills into practice and make valuable industry contacts before you graduate. In your final year you will complete an independent research project under the supervision of an academic staff member. The Honours program is a critical element for students seeking a direct pathway into research, academia and employment in many consulting and government organisations that prioritise the employment of honours graduates. **Majors:** Environmental planning; transport planning.

Career opportunities: Urban planner; strategic planner; land development designer; environmental planner or traffic and transport; work on implementing proposals for new housing estates, tourism complexes, transport networks, shopping centres, commercial projects; or prepare regional or strategic plans for communities.

Combined degrees: Refer to entry for: B Urban Planning (Hons)/B Science.

419412 Gardens Point	5½F	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: As a graduate of the double degree Bachelor of Built Environment (Honours) (Interior Design)/Bachelor of Business you will have the skills and knowledge to enhance your career capabilities in the design, construction, and development industry. The course will provide you with real life exposure to many aspects of the construction and design industries so you can develop the knowledge and practical skills that will prepare you for a rewarding career in the built environment. You will develop in depth knowledge of interior design and the foundations of business practices to allow you to become an interior designer and/or design practice administrator. This course will equip you to meet future interior design challenges such as adapting to climate change and building resilient, healthy sustainable, inclusive, and just communities. You will learn to design and plan interior environments and manage, plan, and implement business practices and processes. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Refer to Bachelor of Business.

Career opportunities: Refer to Bachelor of Built Environment (Honours) (Interior Design) and Bachelor of Business.

Bachelor of Design - International

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
401392 Kelvin Grove	4F or 8P	81.00 unadjusted	87.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This four-year program is designed to enhance your nominated design major with one year of international knowledge and intercultural skills obtained by living and studying in an international setting. The program allows you to select from one of four Design majors Fashion Design, Industrial Design, Interaction Design or Visual Communication and undertake one year of international design cultural immersion in year three of the program. In a context where designers work in increasingly globalised contexts requiring adaptable skills and mind-sets to effectively engage and connect with people from a range of diverse cultural backgrounds. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Fashion design; visual communication; interaction design; industrial design.

Career opportunities: Career outcomes are specific to the discipline chosen. Your career is further enhanced through intensive cultural immersion to help accelerate your design career.

TAFE QUEENSLAND

Bachelor of the Built Environment (Interior Architecture)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555309 South Bank	3C	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 18 Jun 2024

Course outline: Create inspirational spaces and interiors with this specialised course in interior spatial design. During this course, students will explore a mixture of urban environments and public spaces and analyse their context in modern society. Students will also develop a robust series of creative and critical-thinking skills which will allow for them to visualise the potential of interior environments, communicate ideas using digital design software, and shape the way humans experience and interact with interior spaces. Students will graduate with the skills and knowledge required to practice as a dynamic, agile and creative interior design professional. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Career opportunities: Interior designer (commercial, residential, heritage/ adaptive reuse), film and television designer, set designer, furniture designer, visual and spatial branding designer.

Diploma of Building and Construction (Building)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
597452 Eagle Farm	1 OC	✰ unadjusted	✰ adjusted	Jan 2024	11 Jan 2024

Course outline: This course will teach students building and construction theory and practices related to low and medium-rise buildings. Students will extend their knowledge to building surveying, job supervision and safety management. TAFE Queensland's industry-expert teachers will help students develop project management skills in contract administration, project planning and costing, and resource and financial management. Successful completion of this qualification meets the requirements for both a Builder - Medium Rise and Builder - Low Rise licence and will equip graduates with the skills needed to successfully manage a construction business for residential, commercial or industrial buildings. **Note:** Construction Skills Queensland (CSQ) funding and VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for information.

Career opportunities: Construction contract manager, builder, construction project manager, site supervisor.

Diploma of Building and Construction (Management)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
597446 Eagle Farm	1 OC	✰ unadjusted	✰ adjusted	Jan 2024	11 Jan 2024

Course outline: Develop your skills and knowledge of building and construction management with this diploma qualification. In this course students will gain the skills and confidence to manage advanced construction planning, operational, evaluation, and problem-solving challenges. Learn how to manage budgets, human resources, OHS, and team effectiveness. Enhance your skills further with elective units where you will learn to apply building codes, structural principles, and quality standards to medium rise construction projects. **Note:** Construction Skills Queensland (CSQ) funding and VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for information.

Career opportunities: Office manager (building and construction), sales manager (building and construction), project manager (building and construction), estimating manager, construction manager, site manager, construction project manager.

555302 South Bank	1-1½C	✰ unadjusted	✰ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✲.

Additional entry information: Successful applicants must complete CPP40115 Certificate IV in Building Design Drafting or CPP40121 Certificate IV in Residential Drafting or 52757WA Certificate IV in Residential Building Drafting or demonstrate relevant vocational experience, skills and knowledge commensurate with the scope of work covered in the core units of CPP40121 Certificate IV in Residential Drafting before progressing to the Diploma of Building Design.

Course outline: Progress your career as a building designer or draftsperson with this diploma qualification from TAFE Queensland. This course meets the technical requirements for you to apply for a Building Design - Low Rise or Building Design - Medium Rise licence. In this course students will learn specialist skills in building design for residential and small-scale commercial projects. Students will learn to understand client needs to develop building design concepts and create sustainable design solutions. Utilising a suite of software programs for computer-aided drafting (CAD) and presentation, students will produce and present drawings and models. TAFE Queensland's industry-expert teachers will ensure students develop the theoretical and practical skills to produce high quality work that complies with occupational health and safety and building code requirements. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Building designer, draftsperson.

Course outline: Interior Design today is an evolving industry, focused on creating unique environments both in residential and commercial applications. In this course students will learn how to interpret project briefs and formulate creative design concepts. Students will explore colour theory and colour psychology, implement design elements and principles, propose lighting and create 2D and 3D design solutions using the latest technology in drafting and digital presentation. Product knowledge with reference to furniture, fixtures and decorative elements will be gained to ensure that every design outcome meets the functional and aesthetic project requirements. Manual and electronic presentation skills will be developed and an understanding of interior construction elements and materials will be attained to ensure workable outcomes for a range of project types are achieved. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Interior decorator, interior designer, interior stylist, colour consultant, residential interior designer, showroom sales consultant.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Architectural Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
711202 St Lucia	3F	84.00 unadjusted	86.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course is the first step to becoming a professional, registered architect in Australia. Students learn how to design in response to climate and context from lecturers who have strong, local industry links and international perspectives, and have opportunities to develop special areas of interest. Study design principles, sustainability, emerging technologies, the history of buildings and culture, and more. Upon graduation students can progress to the professional Master of Architecture. For more information, visit study.uq.edu.au. **Other requirements:** To progress to the Master of Architecture students must achieve a minimum GPA of 4.5 in the Bachelor of Architectural Design. Students with a GPA between 4.0 and 4.5 must undertake six months (or equivalent) of professional experience as approved by the Faculty of Engineering, Architecture and Information Technology before progressing to the Master of Architecture.

Career opportunities: Architect and allied professional in private offices, government departments, statutory bodies, local authorities, commercial development companies, research organisations.

Bachelor of Design

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Bachelor of Design graduates who possess the ability to think on their feet are in demand as cities and societies expand at a rapid pace. This degree teaches students how to interrogate a brief, challenge assumptions, prototype innovative and sustainable solutions, and generally think outside the box. The complexity and speed of innovation means that their expertise will be needed to address the issues and needs of a contemporary world. For more information, visit study.uq.edu.au. **Majors:** Anthropology; buildings and environments; environment and society; information environments; innovation and entrepreneurship; media and digital cultures.

Career opportunities: Business entrepreneur; change manager; design manager; environmental graphic designer; furniture designer; interior designer; magazine editor; product designer; wayfinding designer. Dual degrees: Refer to entries for: Bachelor of Business Management/Bachelor of Design, Bachelor of Engineering (Honours)/ Bachelor of Design.

Bachelor of Regional and Town Planning

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
702002 St Lucia	4F or 8P	78.70 unadjusted	80.10 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Assist communities, companies and governments to integrate the environmental, economic and social aspects of development, from site selection to regional considerations. Study land-use planning, urban design, transport and infrastructure planning, use and extension of information technology, heritage and conservation. Learn the principles of resource management, environmental monitoring, planning law and practice, commercial and industrial development, and policy making and implementation. Students apply their knowledge each year through a planning project with developments in South East Queensland. They work with industry, government and community partners to build their professional networks. For more information, visit study.uq.edu.au.

Career opportunities: Urban design; planning law; regional; commercial and residential development; environmental and resource management; transport and infrastructure.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Urban Design and Town Planning (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
011091 Sunshine Coast	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014092 Moreton Bay	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Plan better neighbourhoods and communities of all kinds for our next generation. A career in urban design and town planning enables you to plan, design and shape good places for people to live, work, learn and play. This is not just a planning degree. In this program you will manage urban growth and plan for sustainable development, infrastructure and services. You can choose a specialisation such as environmental management or geospatial analysis where you'll get hands-on experience through practical projects each year and learn how to use data for better urban design and town planning decision-making. You will put theory into practice, make connections in the industry and impress potential employers. You'll also undertake a five-week industry placement in local government, state government, planning consultancies, non-government or environmental organisations. You'll graduate with a degree qualification that is accredited by the Planning Institute of Australia and recognised Australia-wide. **Note:** First year courses only at Moreton Bay in 2024. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar .

Career opportunities: Strategic planning and policy, urban designer, place maker, planning consultancy, community development, development assessment, land/infrastructure development, social planner, transport planner, property development.

UNIVERSITY OF NEW ENGLAND

FEDERATION UNIVERSITY AUSTRALIA

Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041123 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Business is a contemporary degree developed in collaboration with industry and designed to meet the needs of businesses now and in the future. Businesses are facing an unprecedented number of challenges and opportunities stemming from digital disruption and the rapid adoption of new technologies. There has never been a more exciting time to start your career in business, whether you are looking for a career in the corporate world or aspiring to be an entrepreneur. With close ties to industry and a strong focus on real-world work experience, Federation Business School is renowned for producing job-ready graduates by providing students with industry placements, internships, and real-life projects during their

studies. Our graduates gain a solid foundation in business management, entrepreneurship, critical thinking, teamwork, leadership, creativity and innovation, and interpersonal skills. These skills are in high demand from employers and central to succeeding in the rapidly changing business world. Federation Business School undergraduates complete a common first year by studying foundation business courses in Management, Marketing, Creativity and Innovation, Accounting and Finance, Economics, Statistics, and Law. After the first year, you will have the flexibility to switch to any undergraduate degree at Federation Business School. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Federation University Australia website. **Specialisations:** From the second year, you will choose a major stream of study (specialisation) in Management, Marketing or Banking and Finance. You will also select interdisciplinary electives such as Information Technology, Psychology, Sociology, Environmental Science and/or Outdoor Studies, depending on your interests.

Career opportunities: Marketing manager, Business manager, Business analyst, Corporate finance, Human resource management, Entrepreneur, Strategic planner.

Bachelor of Professional Accounting

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041119 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This comprehensive course is designed for people with an aptitude for numbers and desire to forge a career in professional accounting. Whether you see yourself working for the government, a company or even your own business, this degree will teach you the ins and outs of the systems and financial strategies that will prepare you for a rewarding career. Your core subjects will include accounting, taxation, law, auditing, finance and economics. In addition, you'll be future-proofing your career by developing skills in creativity, innovation, marketing and digital business. You will have the opportunity to undertake a practical placement, internship or project. Many of our graduates secure employment directly from Federation University work integrated learning and placement programs. Our strong links with industry and real-world experience gained throughout your degree ensure you start your career when you start studying with Federation. The career opportunities for accounting graduates are vast. According to the Australian Government Job Outlook projections, demand for accountants is forecast to grow. Our Bachelor of Professional Accounting course gives you the flexibility to choose a career in any industry. You could become a financial accountant, management accountant, auditor, business manager, financial consultant or CFO, just to name a few. Accountancy is also considered a great launching pad to become a CEO. **Note:** Depending on numbers will determine how 2nd and 3rd year will be delivered. It may be through a virtual platform, or attending another campus. To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Minimum IT requirements for studying online federation.edu.au.

Career opportunities: Banker, Public accountant, Taxation Accountant, Accountant, Auditor, Commercial manager, Business manager, Business consultant, Business director, Corporate finance, Financial Analyst, Professional accountant.

Prerequisites: Any general or applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree will set you apart with specialist knowledge of tourism and service industries combined with leadership and solutions-focused thinking of business and commerce. Plus, you be studying with a university that is ranked #1 in Australia for Hospitality and Tourism Management by the 2022 Shanghai Global Rankings of Academic Subjects. You'll develop an adaptability of thought and ability to problem solve through a range of perspectives with Griffith,s Bachelor of Business. You'll also cover core skills, including business communication, management, accounting and marketing, complemented by a variety of majors. A key aspect of the international tourism degree is learning how to apply these business concepts in culturally diverse contexts. **Note:** Fast-track options are available by studying over three trimesters. **Majors:** Business: accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation. International tourism and hotel management: events; hotel and hospitality; tourism and travel. Minor: Tourism data analytics.

Career opportunities: As a graduate, you will have the fundamental business skills and industry knowledge required to meet the demands of Australia's international tourism and hotel management industries and the marketing and economic development organisations that operate at state, national and international levels. You'll be prepared for work in a range of international tourism and hotel management roles, including in hotel and resort groups and the accommodation sector; in independent restaurants and internationally recognised chains; with entertainment and leisure providers such as theme parks; with suppliers of goods and services to the hospitality industry; in airlines; and with local, state and federal tourism and regional planning authorities. Depending on your major, you could find opportunities in advertising and marketing; business management; human resources and people management; market research; event management; international hotel and resort groups; campaign management; real estate and property management. You'll have the business and entrepreneurial acumen to run your own business, as well as find opportunities in a range of sport management and sports tourism arenas.

Diploma of International Tourism and Hotel Management/ Bachelor of International Tourism and Hotel Management

272135 Online	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C).

Course outline: The Diploma of International Tourism and Hotel Management is a pathway program designed to help you transition into the Bachelor of International Tourism and Hotel Management. You'll develop foundational knowledge and skills in a supportive learning environment, setting you up for success in your further studies. You'll be exposed to the fundamentals of hospitality, global tourism systems, interpreting tourism management information and business decision making. Completion of the Diploma of International Tourism and Hotel Management provides a head start for continuation into the Bachelor of International Tourism and Hotel Management which enables you to further expand upon this knowledge in developing core business skills with an understanding of managing employment relations in a culturally diverse context.

Career opportunities: The Diploma of International Tourism and Hotel Management will give you foundational business knowledge and skills for working in the new economy, especially in the tourism and hospitality sectors. Your transferable business skills will prepare you for work in suppliers of goods and services to the tourism and hospitality industry, in airlines, and with local, state and federal tourism and regional planning authorities. You will also be prepared for further studies in the Bachelor of International Tourism and Hotel Management.

Combined diplomas/degrees: Upon successful completion of this diploma, you will be offered guaranteed entry into the second year of the Bachelor of International Tourism and Hotel Management.

Course outline: The Diploma of Business is a pathway program designed to help you transition into the Bachelor of Business. You'll develop foundational knowledge and skills in a supportive learning environment, setting you up for success in your further studies. The world of business is evolving, with a shift away from outdated practises clearly underway. Griffith University offers an alternative to traditional business education, with a focus on the skills, values, and opportunities that future business leaders will need to succeed in the new economy. Modern business practises, such as adaptability, creativity, diversity, and sustainability, along with foundational business and commerce theory form the Diploma of Business. Completion of the Diploma of Business provides a head start for continuation into the Bachelor of Business, which offers a wealth of variety and choice with more than 20 majors on offer to pursue a specialisation or a unique combination of specialisations for your career in business.

Career opportunities: Completion of the Diploma of Business provides a head start for continuation into the Bachelor of Business.

Combined diplomas/degrees: Upon successful completion of this diploma, you will be offered guaranteed entry into the second year of the Bachelor of Business where you can choose from more than 20 majors to pursue a specialisation, or a unique combination of specialisations, for your career in business.

420101 Kelvin Grove	1F or 1½P	58.65 unadjusted	60.40 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The Diploma in Business is a pathway program designed to help you successfully progress to the second year of the Bachelor of Business. It provides you with the opportunity to develop core business capabilities including critical thinking, professional communication, digital and technical fluency, teamwork and global citizenship. Beyond providing a broad grounding in business disciplines, you will also develop their academic skills for future success. A highly supportive learning environment with smaller class sizes ensures a more personalised learning journey. This course is covered by the QUT Offer Guarantee.

Career opportunities: Graduates of this course may seek entry to a broad range of general business fields or continue their studies and develop a specialisation.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the Bachelor of Business. Each of your diploma units will be credited to the degree.

Diploma in Entrepreneurship

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
420001 Kelvin Grove	1F or 1½-2P	58.45 unadjusted	62.90 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The Diploma in Entrepreneurship aims to provide you with the opportunity to develop your entrepreneurial talent and capability while also providing a pathway into Business, Creative Industries and IT undergraduate degrees at QUT. With a strong focus on developing your entrepreneurial mindset, you will develop the the necessary capabilities to identify and grow entrepreneurial opportunities as well as how to plan, establish, lead and influence others while engaging with the broader entrepreneurship eco-system.

Career opportunities: This course is designed as a pathway to further study. Students who complete the diploma may take the opportunity to start their own venture or pursue an entrepreneurial opportunity.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the single degrees of Bachelor of Business, Bachelor of Communication, Bachelor of Creative Industries, and the Bachelor of Information Technology. Each of your diploma units will be credited to each degree.

Diploma in Esports

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
420321 Kelvin Grove	1F or 1½-2P	57.05 unadjusted	64.55 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The Diploma in Esports provides you with foundational knowledge and skills related to esports and how esports as an industry interrelates with the broad fields of Information Technology, Creative Industries and Business. This Diploma will cover concepts in relation to esports as an emerging billion-dollar industry worldwide and how you can be involved in the coming esports revolution. Covering both practical and theoretical realms, physical and mental health, pro-athlete attitudes and values, business strategies and a range of digital technologies, this qualification will prepare you for a variety of esports career pathways. As a blended education model, you gain skills online and on-campus in a highly supportive environment. You will have access to a suite of services designed to help achieve your study goals and advance your career. This course is covered by the QUT Offer Guarantee.

Career opportunities: Students who complete the diploma may seek entry to a broad range of bachelor level courses including IT, Business and Creative Industries, and subsequently, develop a specialisation which may lead to career opportunities in such areas as public relations, marketing, event management, game development or esports athleticism.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the single degrees of Bachelor of Business, Bachelor of Communication, Bachelor of Creative Industries, Bachelor of Games and Interactive Environments, and the Bachelor of Information Technology. Each of your diploma units will be credited to each degree.

Prerequisites: ⁎.

Course outline: Start a career that is always in demand. Have the option to graduate in 2 years full-time with UniSQ Bachelor of Accounting, by studying over 6 consecutive trimesters. Learn to evaluate the use of digital technologies to support current and future business processes, and build technical and professional skills in financial and management accounting, auditing, taxation, business law, and ethics. You'll develop confident communication skills, enabling you to deliver specialist advice and decisions to diverse stakeholders. Work alongside industry partners on real-world issues through case studies, as well as a capstone project in your final year. **Note:** Accelerated delivery is available. With a study load of 4 subjects per trimester and studying in every trimester, the 24 unit Bachelor can be completed in 2 years. **Majors:** Professional accounting.

Career opportunities: You will graduate as a qualified accountant able to pursue a career as a as a financial accountant, auditor, business advisor, CFO, management accountant, forensic accountant, tax advisor. These careers can be found in a wide range of organisations and industries such as public and private practise, financial institutions, and government.

Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
924771 Springfield	3F or 6P	62.05 unadjusted	65.95 adjusted	Jan 2024	11 Jan 2024
904771 Toowoomba	3F or 6P	63.45 unadjusted	65.45 adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This professional program provides an in-depth understanding of the principles and concepts of the aviation system, its components, aircraft operations, and support and enabling processes. In addition, the program equips graduates with a broad and coherent understanding of human performance issues within the aviation system. Graduates in the flight operations major are provided with the requisite flying skills and knowledge to meet the Civil Aviation Safety Authority requirements of the Australian Commercial Pilot Licence. **Note:** Students undertake their flight training with a flight school that is a Registered Training Organisation (RTO), offering the applicable VET diploma: Diploma of Aviation (commercial Pilot Licence Aeroplane or Helicopter). Eligible students may be able to access VET Student Loans. **Other requirements:** While this is not an admission requirement to the program, students planning to undertake the Flight Operations Major will have to hold a Class 1 Medical Certificate issued by the Civil Aviation Safety Authority, as this is one of the regulatory requirements to hold a Commercial Pilot Licence. It is highly recommended that students investigate their ability to hold an Aviation Security Identification Card (ASIC) and/or pass all required security checks as some organisations such as airports require employees to satisfy security clearances as a condition of employment. Appropriate advice will be provided to students during their first academic year. **Majors:** Aviation management; flight operations.

Career opportunities: Graduates from the Flight Operations major are qualified to enter the aviation industry as a commercial pilot. Subject to additional flying experience, graduates will find employment opportunities in airlines, general aviation (e.g., charter and flight instruction), or in other supporting roles. Graduates from the Aviation Management major will be equipped to undertake a variety of operational, support and leadership roles in the aviation industry.

860971 Mackay	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Audition. **Additional entry information:** Following your QTAC application, applicants must apply to the Central Queensland Conservatorium of Music for an audition. To submit an audition request, visit cqu.edu.au/auditions.

Course outline: This course offers a state-of-the-art, performance-integrated structure that will help you pursue your professional and personal interests. The course provides specialist training in one of three major areas where students will develop technical, creative and performance skills that enhance their career opportunities. The drama and music theatre majors offer intensive technical training in performing arts areas such as singing, dancing and acting. The technical theatre major allows students to explore the production process and develop skills in stagecraft, stage and production management, lighting, sound and technical direction. Within a creative and supportive environment of performance-based training, students will have the opportunity to work in a number of full-scale productions in technical and creative roles. On completion, graduates will be a highly skilled and motivated creative performer that is ready for the workplace. **Other requirements:** Students may study units where they will be involved in the production of a staged theatre performance on campus, in a range of theatrical styles. Students work with industry mentors and staff in a simulated theatre company environment. **Specialisations:** Drama; music theatre; technical theatre.

Career opportunities: Actor, musical theatre performer, performer, director, designer, theatre technician, theatre manager.

251782 South Bank	3F	✱ unadjusted	✱ adjusted	Mar 2024	21 Dec 2023

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details; Audition ✲. **Additional entry information:** Admission to this program requires applicants to submit a video recorded audition and performance CV as the first phase, of a two phase process. If you are invited to phase two, you will be required to attend an audition workshop. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for the $90 non-refundable audition fee, submit your video recorded audition and performance CV to the Queensland Conservatorium by 31 August 2023. Applicants should refer to the Auditions website for the most up to date advice and messaging. Phase two auditions will take place at the Queensland Conservatorium's Burke Street Studios at Woolloongabba 25 - 29 September 2023. Interstate applicants should refer to the Conservatorium Auditions website for details on interstate auditions. Griffith University will commence making offers on 17 November 2023, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order preferences accordingly; refer to qtac.edu.au/preferences. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC, pay their audition fee and submit their phase one video recorded audition and performance CV to Griffith University by 31 August 2023 to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.

Course outline: This highly practical and skill-intensive degree prepares you for a life-long career across stage and screen. Designed around four key pillars core craft, context, repertoire and industry engagement the degree focuses on developing both the individual and the actor through ensemble building, collaborative laboratories, industry-led workshops and public performances. Under the direction of renowned teachers and performers, you will undertake intensive training in acting, voice and speech, singing, movement and dance.

Note: Griffith University will commence making offers on 17 November 2023, however additional auditions and offers may be considered in subsequent rounds should places still be available. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

Career opportunities: You'll be equipped for a career in performing arts companies, highly skilled in acting and performance, on stage or on screen, including, but not limited to, theatre, television and film.

Bachelor of Animation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
241212 South Bank	3F or 6P	68.35 unadjusted	73.10 adjusted	Mar 2024	21 Dec 2023

Prerequisites: Portfolio and Interview; Applicants must meet the minimum age requirements for admission, see the QTAC website for details ✲. **Additional entry information:** Admission to this program requires applicants to submit a portfolio and attend an interview. Portfolios are submitted directly to Griffith University via an online submission portal by the 1 September 2023 closing date. A shortlist of candidates will be invited to interview following portfolio assessment. Interviews will take place at the Griffith Film School, South Bank from 25-29 September 2023. Find out more about portfolio admission for the Bachelor of Animation: griffith.edu.au/qca-portfolios. Griffith University will commence making offers on 17 November 2023, and additional offers may be considered in subsequent rounds should places still be available. Applicants must pay the $55 non-refundable portfolio submission fee to Griffith University. Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 1 September 2023.

Course outline: This degree is the ideal launching pad for you to play a significant role in the animation and visual effects industries in Australia and abroad. Using top-of-the-line hardware and premium industry-recognised software, you'll produce original animated projects from concept to delivery. You'll learn skills in concept development, storyboarding, 2D, 3D and stop-motion character animation, editing, sound recording, visual effects, virtual production, post-production and motion capture. Client work and internships that are part of this degree will help you sketch out your future career. **Note:** Griffith University will commence making offers on 17 November 2023, and additional offers may be considered in subsequent rounds should places still be available. **Majors:** Animating; art direction; technical direction.

Career opportunities: Depending on your areas of specialisation, you may find roles in 2D, 3D/CGI and stop-motion character animation; visual effects for film, television, computer games and interactive media; scriptwriting; storyboarding and pre-visualisation; illustration; graphic art; compositing; and matte painting.

Bachelor of Contemporary Australian Indigenous Art

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
241252 South Bank	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Interview; Portfolio ✲. **Additional entry information:** Admission to this program requires a portfolio of images and interview. Griffith University will contact applicants with information on how to upload the portfolio. Admission to this degree is open to those who identify as Aboriginal and/or Torres Strait Islander. Griffith Guaranteed Admission Schemes do not apply to this program.

Course outline: This degree is designed to prepare Aboriginal and Torres Strait Islander people to become professional artists. You'll focus on Aboriginal and Torres Strait Islander art media, styles and forms, together with strategies for working as an artist in a highly urbanised society. As you research your own family history and traditions, you'll also undertake field trips to Aboriginal and Torres Strait Islander communities and study contemporary culture and politics. You will graduate with the knowledge and skills to forge a career in the arts. **Majors:** Studio practice major: Indigenous studio practice. Visual arts majors: painting; photography; sculpture.

Career opportunities: Depending on your areas of specialisation, you may have opportunities as a public artist, installation artist, gallerist, curator, sculptor, or arts critic/writer. Graduate with a portfolio of work that demonstrates your competence in Indigenous and non-Indigenous knowledge, skills and media, and in contemporary technologies.

Bachelor of Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
241292 South Bank	3F or 6P	58.35 unadjusted	63.60 adjusted	Mar, Jul, & Nov 2024	21 Dec 2023 6 Jun 2024, ✧
236142 Gold Coast	3F or 6P	58.30 unadjusted	63.85 adjusted	Mar, Jul, & Nov 2024	21 Dec 2023 6 Jun 2024, ✧

Prerequisites: Portfolio and Interview (optional); Applicants must meet the minimum age requirements for admission, see the QTAC website for details ✲. **Additional entry information:** From 2024 there will be two admission pathways to the Bachelor of Design. Applicants may be considered via one of the following: Guaranteed ATAR/Rank of 70.00 or above, or via portfolio and interview (optional). Portfolios are submitted directly to Griffith University via an online submission portal by the 6 September 2023 closing date. Portfolio applicants will be invited to attend an interview at Queensland College of Art, South Bank or the Gold Coast campus or via Teams from 25 - 29 September 2023. Find out more about portfolio admission for the Bachelor of Design: griffith.edu.au/qca-portfolios. Griffith University will commence making offers on 17 November 2023, and continue to make offers to applicants via both portfolio and ATAR/Rank in subsequent offer rounds. However, applicants are encouraged to submit a portfolio and attend an interview even if confident they will meet the ATAR/Rank Guarantee. Applicants must nominate if they wish to be considered via ATAR/Rank and/or portfolio and interview admission on their QTAC application and pay the $55 non-refundable portfolio submission fee to Griffith University. Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission. **Closing date:** To be considered for portfolio admission for Trimester 1 2024, applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 6 September 2023. Applicants will still be able to apply after this date and be considered for ATAR/Rank admission. Portfolio closing dates for future intakes will be published closer to the time.

Course outline: This degree will equip you with the creative and technical skills and insights to rise to future design challenges. It will prepare you for designing future products, services, systems and experiences in a creative and critical way. In partnership with leading experts and industry, you will tackle real design challenges and devise leading-edge strategies and solutions, gaining new perspectives on sustainability while advancing your critical and strategic thinking so you can present your ideas clearly and powerfully. **Note:** Griffith University will commence making offers on 17 November 2023. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor. **Majors:** Immersive design, interaction design, interior and spatial design, product design, visual communication design.

Career opportunities: Depending on your areas of specialisation, you may find roles in strategic design; product design; interior and furniture design; graphics; design management; communications; UX and service design; digital design; branding and advertising; e-commerce; curating and cultural planning; design research.

Combined degrees: Refer to entry for: B Design/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Design/B Design.

241341 South Bank/Nathan	4F or 8P	59.55 unadjusted	67.55 adjusted	Mar, Jul, & Nov 2024	21 Dec 2023 6 Jun 2024, ✧
236131 Gold Coast	4F or 8P	59.15 unadjusted	67.05 adjusted	Mar, Jul, & Nov 2024	21 Dec 2023 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C). Portfolio and interview (optional); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** From 2024 there will be two admission pathways to the Bachelor of Design/Bachelor of Business. Applicants may be considered via one of the following: Guaranteed ATAR/Rank of 70.00 or above, or via portfolio and interview (optional). Portfolios are submitted directly to Griffith University via an online submission portal by the 6 September 2023 closing date. Portfolio applicants will be invited to attend an interview at Queensland College of Art, South Bank or the Gold Coast campus or via Teams from 25 - 29 September 2023. Find out more about portfolio admission for the Bachelor of Design/Bachelor of Business: griffith.edu.au/qca-portfolios. Griffith University will commence making offers on 17 November 2023, and continue to make offers to applicants via both portfolio and ATAR/Rank in subsequent offer rounds. However, applicants are encouraged to submit a portfolio and attend an interview even if confident they will meet the ATAR/Rank Guarantee. Applicants must nominate if they wish to be considered via ATAR/Rank and/or portfolio and interview admission on their QTAC application and pay the $55 non-refundable portfolio submission fee to Griffith University. Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission. Please note: Double degree admission requires English as a prerequisite, as opposed to assumed knowledge in the single-degree programs. **Closing date:** To be considered for portfolio admission for Trimester 1 2024, applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 6 September 2023. Applicants will still be able to apply after this date and be considered for ATAR/Rank admission. Portfolio closing dates for future intakes will be published closer to the time.

Course outline: In this double degree you'll combine design creativity with business skills to allow you to take advantage of the commercialisation of visual communication design, interior and spatial design, product and 3D design, interaction design and immersive design. You will have a unique range of skills and abilities to bridge the creative-business divide. **Note:** Griffith University will commence making offers on 17 November 2023. Students studying at South Bank are required to attend business courses at Nathan. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor. **Majors:** Design: immersive design, interaction design, interior and spatial design, product design, visual communication design. Business: accounting; Asian business; Asian engagement; behavioural

science; business analytics; economics; employment relations; events; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation; tourism and travel.

Career opportunities: Depending on your areas of specialisation, you may find roles in graphic design; interior design; product design; digital web design; design management; design education; film and television; theatre; furniture design; digital media; or a variety of design-related roles in not-for-profit, government and corporate organisations, as well as in start-ups and entrepreneurial enterprises.

Bachelor of Film and Screen Media Production

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
241302 South Bank	3F or 6P	68.30 unadjusted	75.00 adjusted	Mar 2024	21 Dec 2023

Prerequisites: Portfolio and Interview; Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Admission to this program requires applicants to submit a portfolio and attend an interview. Portfolios are submitted directly to Griffith University via an online submission portal by the 1 September 2023 closing date. A shortlist of candidates will be invited to interview following portfolio assessment. Interviews will take place at the Griffith Film School, South Bank from 25 - 29 September 2023. Find out more about portfolio admission for the Bachelor of Film and Screen Media: griffith.edu.au/film-portfolios. Griffith University will commence making offers on 17 November 2023, and additional offers may be considered in subsequent rounds should places still be available. Applicants must pay the $55 non-refundable portfolio submission fee to Griffith University. Guaranteed Admission Schemes do not apply to this program.

Closing date: Applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 1 September 2023 to be guaranteed their portfolio will be assessed for the initial round of offers. Applicants who wish to apply after this date may be considered in subsequent offer rounds should places still be available. Late applicants should refer to the Griffith Film School Portfolio Admission website for information.

Course outline: This degree focuses on developing your skills as an innovative content creator across popular and emerging screen technologies. You'll have regular exposure to national and international artists-in-residence, as well as opportunities for placements and practical experience, including at LiveLab, the commercial production facility operated by Griffith Film School, where you'll be engaged to produce work for clients and industry. Take part in a major production project in your third year, working with an industry-sized crew to produce a short drama, documentary or other screen media content. **Note**: Griffith University will commence making offers on 17 November 2023, and additional offers may be considered in subsequent rounds should places still be available.

Career opportunities: With on-demand and content streaming services increasing in popularity and emerging technology on the rise, we ensure our students graduate with a broad view of the industry. There are opportunities across film, TV, subscription TV and online content. Our students find opportunities across all facets of the industry, including production, post-production, screen distribution and exhibition.

Bachelor of Games Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
241312 South Bank	3F or 6P	60.65 unadjusted	67.25 adjusted	Mar 2024	21 Dec 2023

Prerequisites: Portfolio and Interview; Applicants must meet the minimum age requirements for admission, see the QTAC website for details ⁎. **Additional entry information:** Admission to this program requires applicants to submit a portfolio and attend an interview. Portfolios are submitted directly to Griffith University via an online submission portal by the 1 September 2023 closing date. A shortlist of candidates will be invited to interview following portfolio assessment. Interviews will take place at the Griffith Film School, South Bank from 25 - 29 September 2023. Find out more about portfolio admission for the Bachelor of Games Design: griffith.edu.au/film-portfolios. Griffith University will commence making offers on 17 November 2023, and additional offers may be considered in subsequent rounds should places still be available. Applicants must pay the $55 non-refundable portfolio submission fee to Griffith University. Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC, pay the portfolio fee and submit their portfolio to Griffith University by 1 September 2023.

Course outline: Fusing the artistic and technical, this degree explores techniques to engage and excite traditional gamers and broader audiences alike. You'll learn the fundamentals of games design and related production disciplines before developing your focus of specialisation. You'll have the freedom to explore contemporary developments in the practice of interactive game design and related disciplines. In your third year, you'll embark on a major team-based capstone project where you'll create a production to commercial standards, which will be the cornerstone of your early-career portfolio. **Note:** Griffith University will commence making offers on 17 November 2023, and additional offers may be considered in subsequent rounds should places still be available. **Majors:** Animating; art direction; computer generated imagery (CGI); player experience.

Career opportunities: Graduates may find opportunities as prop, environment, character or technical artist; gameplay, level, system or combat designer; gameplay programmer; 3D modeller; 2D or 3D animator; or motion capture animator; mining and medical simulation and training; educational software development; or form your own independent game development studio.

Bachelor of Music

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

Diploma of Music/Bachelor of Music

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
251801 South Bank	3F	✚ unadjusted	✚ adjusted	Mar 2024	21 Dec 2023

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details; Audition/Folio (Folio is required for Composition and Creative Music Technology only) ✲. **Additional entry information:** Admission to this program requires applicants to submit a video recorded audition and Artistic Statement as the first phase of a two-phase process. For performance specialisations, phase two will require you to attend an audition and interview. The phase one component for composition and creative music technology specialisations requires the submission of a Folio and Artistic Statement, and for phase two you will be required to attend an interview. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for audition fees, submit your video recorded audition or Folio and Artistic Statement to the Queensland Conservatorium by 31 August 2023. Applicants should also refer to the Auditions website for the most up to date advice and messaging. Phase two auditions will take place at the Queensland Conservatorium, South Bank from 25 - 29 September 2023. Griffith University will commence making offers on 17 November 2023, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order their preferences accordingly; refer to qtac.edu.au/preferences. Applicants must nominate their specialisation/s on their QTAC application and pay the $50 non-refundable audition fee to Griffith University. **Audition specialisations are:** Classical specialisations: Strings: violin, viola, cello, double bass, guitar, harp, viola da gamba. Woodwind: flute, oboe, clarinet, bass clarinet, bassoon, saxophone, recorder, pan pipe. Brass: french horn, trumpet, trombone, bass trombone, tuba, soprano cornet, cornet, flugel horn, tenor horn, baritone horn, euphonium. Keyboard: piano, pipe organ, harpsichord. Percussion: Classical percussion and timpani. Classical voice. Jazz specialisations: instrumental: jazz saxophone, jazz clarinet, jazz flute, jazz trumpet, jazz trombone, jazz violin, jazz piano, jazz guitar, jazz bass, jazz drums, jazz vibraphone. Jazz Voice. Popular Music specialisations: Instrumental: Piano/keyboard, drums, electric bass guitar, guitar. Popular Voice Composition Creative Music Technology Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC, pay their audition fee and submit their phase one video recorded audition or Folio and Artistic Statement to Griffith University by 31 August 2023 to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and offer rounds should places still be available. Late applicants should refer to the Auditions website for information.

Course outline: The Diploma of Music is a pathway program designed to help you transition into the Bachelor of Music. You'll develop foundational knowledge and skills in a supportive learning environment. Study with a community of like-minded peers as you learn from award-winning music educators and benefit from the Queensland Conservatorium's strong partnerships with local cultural institutions. You'll study academic foundations courses, as well as studio courses, and where relevant,

Conservatorium Ensemble Studies, with additional support from a First Year Coordinator and Peer-Assisted Study Sessions. **Note:** Griffith University will commence making offers on 17 November 2023, however additional auditions and offers may be considered in subsequent rounds should places still be available. **Other requirements:** Applicants must nominate an audition specialisation on their QTAC application. Refer to Admissions Criteria for details. **Majors:** When you commence the Bachelor of Music in second year, you will be able to choose from the following majors: composition; creative music technology; education preparation (classroom); education preparation (instrumental); music studies; performance; popular music.

Career opportunities: Gain the skills to transition from student to professional life. While in the supportive Conservatorium environment, you will have opportunities to refine your skills, focus and target your professional options and gain first-hand experience. You'll have a greater understanding of what's required to succeed in the entertainment industry, community arts and relevant ensembles.

Combined diplomas/degrees: Upon successful completion of this diploma, you will be offered guaranteed entry into the second year of the Bachelor of Music.

QUT

Bachelor of Communication

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
421351 Kelvin Grove	3F or 6P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✲.

Course outline: The Bachelor of Communication prepares you for a dynamic career in the rapidly evolving digital media, entertainment, communication, and news landscape. The course integrates professional skills with critical and creative thinking, authentic industry experiences, and digital media literacy skills with core disciplinary theories and research methodologies. Drawing from the latest scholarship in the field and a global network of industry leaders, the program offers you research-led, on-campus learning environments as well as opportunities to expand those learning experiences to include real-world settings from around Australia and the world. As a graduate, you will have a well-developed sense of professional identity and practice and will be equipped with the expert communication, media, and digital literacy skills that are in demand across range of careers in the creative industries, corporate sector, and public service. You will have the ability to analyse digital media, entertainment, communication, and news platforms as economic, cultural, and technological phenomena. You will gain the critical thinking skills to develop ethical and socially responsible strategies that shape industries, communities, and cultures for a more just and inclusive world. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Other requirements:** A Suitability Card is required; refer to institution. **Majors:** Advertising and public relations; digital media; entertainment industries; journalism; professional communication.

Career opportunities: Account specialist, advertising, booking agent, communication, copywriter, digital content designer/producer, editor, entertainment producer, events and festival coordinator, journalist, media adviser/planner/producer, promoter, public relations, sales and distribution agent, talent manager, writer.

Combined degrees: Refer to entries for: B Business/B Communication; B Communication/B Data Science; B Communication/B Information Technology; B Communication/B Justice; B Communication/B Nutrition Science; B Communication/B Public Health; B Communication/B Science.

Bachelor of Communication/Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419962 Gardens Point & Kelvin Grove	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✲.

Course outline: Understand the function and influence of communication and develop comprehensive knowledge of data science tools and techniques to apply and clearly convey the insights gained from extracting knowledge from data. The communication component develops expertise in written, spoken, visual and digital formats across local and international communication platforms. The data science component covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation. Ethical considerations, communication, collaboration and critical thinking skills are all given first-class coverage. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Refer to Bachelor of Communication.

Career opportunities: Data science communicator in roles across, but not limited to, advertising, finance, investment, data analytics, defence and national security, research, information technology, engineering modelling and simulation, environmental science, health, management, marketing, logistics, media, and education.

Bachelor of Communication/Bachelor of Information Technology

SOUTHERN CROSS UNIVERSITY

Southern Cross University

Bachelor of Art and Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
053361 Lismore	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Additional entry information: Entry to this course is by portfolio/interview. Details are available on the Southern Cross University website. Applicants must present a portfolio or e-portfolio at the interview or for phone interview. The University will contact applicants after the first QTAC on-time application closing date at the end of September with information about portfolio requirements and interview dates. **Closing date:** Applicants who have not been contacted by mid-January 2024 must contact the University on 1800 626 481 to arrange a date for their interview.

Course outline: This course provides a comprehensive grounding in the practical and theoretical aspects of contemporary art and design. Theory units provide a strong conceptual component for developing an art practice, curatorial practice and scholarly analysis. Students develop practical skills in purpose-built studios for painting, printmaking, ceramics and sculpture, digital arts and design, and drawing. Internships with arts industries can be undertaken or students can study for a session at universities overseas.

Career opportunities: Practising artist, fine art researcher and other design-related fields.

Bachelor of Contemporary Music

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
053011 Lismore	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024
053131 Coomera	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Prerequisites: ⁎. **Additional entry information:** Application includes an audition/interview process. For information, visit scu.edu.au/music.

Course outline: This degree prepares graduates for a portfolio career in music, the multifaceted career pathway that is now most common for contemporary musicians. Students learn in a professional music industry environment, using state-of-the-art facilities and working with lecturers who are all practising musicians with strong industry links. Students participate in collaborative practical music-making activities throughout the degree and the APRA AMCOS songwriters workshops featuring visiting artists. Situated in a region with vibrant creative industries, students benefit from numerous high profile music events such as Splendour in the Grass, Byron Bay Bluesfest and the Falls Festival.

Career opportunities: Performer, songwriter, producer, sound engineer, music educator, session musician, musical director, arranger, music event promoter, band and venue manager.

Bachelor of Digital Media

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
053041 Lismore	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024
053032 Coomera	3F or 6P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Course outline: This degree prepares graduates for a career in today's fast-paced media environments. Student gain skills in writing, production, visual and research skills, and have access to work experience opportunities and networks of industry professionals across the media and communications spectrum. Facilities include digital workstations and labs, radio and television studios and location recording equipment. This degree has strong links to the vibrant creative industries of the North Coast of NSW and beyond. Southern Cross University is proud to partner with Australia's premier regional industry association Screenworks to provide mentoring and internship opportunities for our creative arts students. This course is also available online with some residential workshops.

Career opportunities: Digital media specialists work in fields such as film, television and radio, newspapers and magazines, online media, graphic design, marketing, advertising and public relations.

TAFE QUEENSLAND

tafe Queensland

Bachelor of Arts and Design (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555110 South Bank	1C	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 18 Jun 2024

Prerequisites: Prior study. **Additional entry information:** This course is open to University of Canberra students who have completed a degree in the Faculty of Arts and Design with at least a grade point average of 5.0 or better (equivalent to a credit average), or students from a three-year degree in a cognate discipline with a relevant major in which they received a grade point average of 5.0 or better. Pass degree graduates in similar disciplinary fields from other universities, with comparable results, may also be eligible to undertake this honours degree. Students are to undertake the thesis component of their degree in a subject area related to their disciplinary competence. They must show evidence of having performed in some subjects relevant to the proposed study at Distinction level or above. Contact TAFE Queensland, South Bank for more information.

Course outline: This honours program, delivered in partnership with the University of Canberra, will take your studies in the creative industries to the next level. Students have two options for how to complete the program. The first option is to develop a project to work on throughout your honours year and write an accompanying dissertation. The second option is to write a longer dissertation as the sole focus of your research. The units in this honours program have been specially designed to guide students on their research journey. Students will also have a supervisor who will act as a mentor throughout the academic journey of your honours studies. Working closely with expert supervisors, students will develop the high-level skills required for research or project-based employment. This qualification will significantly broaden your future career prospects and also provides a direct pathway into masters or PhD studies. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Career opportunities: Actor, theatre producer, fashion designer, visual artist, graphic designer, interior architecture, game designer, composer musician, museum curator, policy advisor, researcher.

Bachelor of Creative Industries (Acting and Performance)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555999 South Bank	3C	✱ unadjusted	✱ adjusted	Feb 2024	11 Jan 2024

Prerequisites: Audition. **Additional entry information:** Audition/portfolio submission is required separate to the QTAC application. TAFE Queensland, South Bank will send out official correspondence inviting audition/portfolio submission once the QTAC application has been submitted. Applicants will be contacted to arrange a date and time of audition and details regarding audition pieces. Contact TAFE Queensland, South Bank on 1300 308 233 for audition/portfolio requirements. **Closing date:** QTAC applications for this course close: 1 December 2023 for semester 1, 2024 entry. To be considered after this date, interested applicants should contact TAFE Queensland, South Bank on 1300 308 233.

Course outline: Take centre stage and establish your acting and performance career with this degree. Students will develop a range of highly advanced practical skills and specialised knowledge. This program focuses on the craft and art of acting and performance. The course offers lively, detailed and focused training in acting, voice and body skills and gives students regular performance opportunities to perform for live audiences. Students will unleash their creative voice as an independent performance maker and develop as an actor and performer who thinks for themselves and respects their own ideas and ideals. During the course students will be exposed to plays, readings, online resources and academic materials that have been designed to inspire, challenge and motivate the training actor. The program is tailored for those students who want to engage in a professional career as a stage or film actor, performing artist or performance maker. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Course outline: The diploma course will give you the specialised skills and knowledge to flourish within the design, manufacturing, wholesale or retail areas of the fashion industry. This course gives you the advanced skills to work independently or collaboratively within a constantly evolving sector. You will also develop advanced understanding of design processes and product development, as well as technical production skills to support management and fashion businesses. TAFE Queensland's fashion training centres are the ideal place for you to launch your fashion career. The degree course offers students a unique opportunity to study fashion. A major strength of this course is its position within a specialist design, visual arts, and multi-media institution with the potential for students to work alongside other cultural and creative disciplines. The course prepares students for a career in the highly competitive fashion industry by ensuring that graduates have the vocabulary and industry knowledge they need to succeed. Students in this course are expected to be autonomous and have a strong work ethic, focused and highly motivated. The course is located in a dynamic and creative studio environment. Individual development is supported and nurtured through experimentation, exploration and innovation. The course aims to initially develop student's key skill sets covering research, design, manufacturing and pattern cutting, which will underpin a personal design philosophy. **Note:** This combined qualification leads to the awards of the Diploma of Applied Fashion Design and Merchandising and Bachelor of Creative Industries (Applied Fashion). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in the diploma course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses for information. The degree is a Commonwealth supported place.

Career opportunities: Fashion designer, fashion coordinator, production manager, fashion stylist, dressmaker, machinist, tailor, fashion accessories designer, CAD operator, fashion retailer.

Course outline: Activate your career in screen and media with this diploma qualification. This course is ideal for creative people seeking employment in post-production, including video editing, animation and visual effects within the interactive media industries. This course will provide students with the advanced skills required to work within this creatively challenging sector. Enhance your skills and job prospects by choosing to specialise in post-production and learn how to edit video, develop concept art and create, texture and animate 3D models. Students will also learn how to composite green screen footage, create titles, make set extensions and create visual effects. The Bachelor of Digital Design (Digital Media) is a specialist course that focuses on the essential practical knowledge needed to create complex interactive media. Students will gain up-to-date skills using industry-standard technologies in virtual and augmented reality, digital photography, digital audio, interactive fiction, video and animation to create digital media stories and experiences for the 21st century. Students will graduate with the expertise needed to find work in this flourishing creative industry and, more importantly, the knowledge to adapt to whatever the future holds. **Note:** This combined qualification leads to the awards of Diploma of Screen and Media (Post-production specialisation) and Bachelor of Digital Design (Digital Media). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in the diploma who are not eligible for a subsidised enrolment will pay full fee. Fee subsidies and VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information. The degree is a Commonwealth supported place.

Career opportunities: Editor, storyboard artist, rotoscoping artist, title designer, motion graphic artist, 3D animator, 3D modeller, compositor, visual effects artist, digital media designer, multimedia artist, animator, digital photographer, videographer, virtual and augmented reality designer, creative director.

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Fashion Marketing and Enterprise prepares students to be next-generation leaders in the fashion industry. Co-developed with industry, this degree provides the theoretical and practical skills required for a variety of fashion roles, including enterprise management, product management, marketing, production, merchandising and distribution. This course teaches you how to create, market and manage commercial fashion enterprises in an ever-changing landscape. You will explore various business models, digital communication strategies, fashion buying and merchandise planning, brand development, consumer research, entrepreneurship and fashion retail and operations practices. Elective options allow you to further develop your skills in sales and negotiation as well as entrepreneurial finance. Throughout the course, you will work with fashion and graphic design students as well as industry leaders, providing networking opportunities and preparing

you to launch or manage a fashion enterprise of your own. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Career opportunities: Career paths: Fashion Buyer; Merchandise Planner; Brand Manager; Fashion Marketer Digital Manager.

Bachelor of Game Design and Development

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
032219 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun, & Sep 2024	11 Jan & 6 Jun 2024, ✧

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Game Design and Development expands on design, artistic and technical skills for creating modern games and interactive projects. It covers the creation of elements such as environments, characters and stories for immersive experiences, and provides hands-on experience with industry-standard software under the guidance of experts. Throughout the course you will work alongside lecturers who'll offer practical industry insights while you develop enhanced skills in 2D, 3D, animation, environment art, character art and an understanding of user experience in games. Working in teams, you'll develop electronic games across multi-platforms, including online, mobile and console in a similar environment to a real-world studio. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world. Work placement: Approximately 90 hours.

Career opportunities: As well as giving you practical skills, knowledge and design capability, this course encourages you to enhance soft skills such as communication, commercial approaches and an understanding of business realities. Everything you create here can go towards a high-quality portfolio of games-related assets to impress future employers. Plus, you can show you have published a professional-level game before you graduated. Career paths: Character Artist; Game Designer; Environment Designer; 2D, 3D, 4D Animator; Texture Artist.

Bachelor of Interior Design (Commercial)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
031221 Fortitude Valley	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun, & Sep 2024	11 Jan & 6 Jun 2024, ✧
032221 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun, & Sep 2024	11 Jan & 6 Jun 2024, ✧

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Interior Design (Commercial) provides the knowledge required to design the ever-changing features of our commercial environments, such as retail channels, hotels, restaurants, nightclubs and workspaces. It anticipates online virtual commercial environments, engages with contemporary theory and represents spatial environments with computer 3D modelling. Throughout the course, you will explore the theoretical and practical elements of designing and making commercial interiors branding, lighting, sustainability and materiality to create environments that meet your client, needs. You will discover how commercial interior-design strategies are developed and assessed, as well as practical industry-based management skills, such as documentation, contract management, professional design practice and cross-disciplinary interaction. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that You'll start working in the design industry from day one gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world. Work placement: Approximately 90 hours.

Career opportunities: You'll engage with contemporary theory, gaining an overview of the interior-design trends of the past that still have a powerful influence today, as well as today, movements and what, around the corner. Our graduates have the creativity, skills and experience to create state-of-the art, attractive and appropriate commercial interiors, so they,re in high demand with the world, best interior-design firms. Career paths: Interior Designer; Virtual Environment Designer; Retail Design Consultant; 3D Computer Modelling Consultant.

Bachelor of Interior Design (Residential)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
031222 Fortitude Valley	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun, & Sep 2024	11 Jan & 6 Jun 2024, ✧

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: This course offers a range of technical subjects with a focus on the major areas of AI, from Natural Language Processing to Robotics. You'll identify and solve complex artificial intelligence software engineering problems and develop skills that are increasingly the mainstay of software engineering. The course is founded on strong traditional and cutting-edge software engineering know-how, such as programming, maths and statistical knowledge, as well as ethics, social responsibility and cognitive psychology. Working in teams, you'll develop collaboration, negotiation and research skills that you'll take with you to the professional environment. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one, gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world. Work placement: Approximately 90 hours

Career opportunities: Machine learning engineer; Software engineer; Systems architect.

Bachelor of UX and Web Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
032220 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun, & Sep 2024	11 Jan & 6 Jun 2024, ✧

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: In the Bachelor of UX and Web Design, human senses and emotions meet the digital interface. It's one of the fastest growing sectors of the global economy. The UX and Web Design degree gives you cutting-edge

research in UX and web design and front-end design. You'll graduate able to craft compelling interactive experiences for web, mobile, social or completely custom platforms, across sectors as diverse as advertising, education and entertainment. The course connects practical coding and digital media skills with the study of human-computer interaction, user behaviour, user experience and user psychology, along with information and media theory, and the study of professional practice in UX and web design workplaces. The course structure incorporates industry-informed briefs, industry mentors, client projects, internship opportunities and study of emerging areas of interaction design practice. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that You'll start working in the design industry from day one gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world. Work placement: Approximately 90 hours.

Career opportunities: In your final year you can apply for an internship in a professional interaction design studio, working in professional teams on live projects for real clients. You will graduate with state-of-the-art technical skills and a thorough understanding of user-centred interactive design. You'll bring the most effective and appropriate solutions to every brief and be in demand by studios worldwide. Career paths: UI Designer; Digital Producer; UX and Web Designer; Front-end Developer; Mobile Interface/App Designer.

Diploma of 3D Design and Animation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
032236 Online	1-1½F or 2-3P	✚ unadjusted	✚ adjusted	Feb, Jun, & Sep 2024	11 Jan & 6 Jun 2024, ✧

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of 3D Design and Animation provides you with a theoretical and technical base of knowledge of general 3D principles and practice, along with an introduction to specialist areas within the 3D design and animation field. Throughout the course, you'll learn how to tell stories, bring characters and digital worlds to life, and how to respond to client briefs. Develop a portfolio to show off your creative potential to gain employment in the design sector. The diploma consists of shared subjects with cross-discipline diplomas and bachelors providing both on-boarding support, exposure to bachelor programs for pathway opportunities as well as a genuine exit qualification if you wish to directly enter the field upon graduation. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world. Work placement: Approximately 90 hours.

Career opportunities: The course is a perfect stepping stone towards an exciting career in 3D design and animation as well as an entry point into one of our Bachelor degrees. Graduates You can find opportunities as permanent or freelance employees, either within a dedicated film or broadcast postproduction, animation, visual effects or game studio environment, or alternatively as an in-house specialist working for organisations. Career paths: 2D/3D concept artist; 3D animator; 3D concept artist; 3D games artist; 3D generalist; 3D modeller; Digital matte artist.

Bachelor of 3D Design and Animation

Course outline: Discover your creativity and develop your critical thinking through experimentation in an inclusive, exploratory environment. Design plays an increasingly important role in the world, with opportunities to specialise in interactive media, digital culture, game design or visual communication. Become equipped with theory, creative skills, cultural awareness and critical thinking to shape a rapidly changing future. In this program you will learn about the latest interdisciplinary design practices and new technologies and work with industry experts and organisations to deliver projects for diverse audiences. You'll apply design thinking, ethical practice, and inclusive design to innovate in diverse contexts, and develop cultural sensitivity, embrace sustainability, acknowledge Indigenous protocols and perspectives. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar. **Majors:** Digital culture, Interactive media, Game design, Visual communication. Not all majors available at Moreton Bay.

Career opportunities: Artist, designer, digital strategist, producer, photographer, visualisation designer, media specialist and more.

Bachelor of Music

Course outline: Take the controls and spawn a career in the fast-growing game industry with this specialised undergraduate certificate, which introduces you to the design, programming and production of games. In this program you will learn the fundamentals of gameplay design and game production using the latest game engine technology and digital design software. You'll build and apply skills in game design and development to address a range of real-world problems, including emerging opportunities in entertainment, education, healthcare, marketing and more. You'll become equipped to pursue an entry-level role in a professional game studio or progress towards further study in the Bachelor of Design with a major in Game Design. **Note:** The Undergraduate Certificate in Game Design provides a pathway into the Bachelor of Design. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Career opportunities in educational games, entertainment, entry-level software roles, graphic design and marketing

Undergraduate Certificate in Interactive Media

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
014704 Moreton Bay	1P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
015704 Online	1P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
013704 Sunshine Coast	1P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: We are surrounded by design in the modern world. Interactive media designers shape the digital platforms, apps and products we use every day, while user experience considers how people interact with technology and how it makes them feel. This specialised certificate builds the technical and creative ability you need to enter this dynamic field of design. In this program you will learn to think creatively, analytically and sustainably to solve design-related problems and effectively communicate your concepts. You'll study in small classes facilitated by academics with extensive industry experience, and have the opportunity to progress with full credit into UniSC's Bachelor of Design. **Note:** Upon completion of the Undergraduate Certificate in Interactive Media you will have the opportunity to progress with full credit into UniSC - University of the Sunshine Coast's Bachelor of Design. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: This program is your first step towards becoming a professional designer, artist or programmer, content creator, creative producer, design strategist, fashion designer, game designer, interactive media specialist. Have the opportunity to progress with full credit into the Bachelor of Design and extend your career opportunities.

Undergraduate Certificate in Social Media

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
015109 Online	1/2P	✱ unadjusted	✱ adjusted	Feb 2024	11 Jan 2024
013009 Sunshine Coast	1/2P	✱ unadjusted	✱ adjusted	Feb 2024	11 Jan 2024

Course outline: Want to work in social media? Kickstart your career with a four-course undergraduate certificate that teaches the foundations of marketing and public relations, and provides practical experience working with a real client (or your own business) to develop a social media strategy. This program will teach you how to produce high-quality blogs, video and a wide range of strategic content for mainstream social media. In this program you will develop the skills for content curation and creation and learn how to research and develop a social media strategy. You'll gain a solid grounding in public relations and marketing, and learn how to critically analyse social media and identify differences between accurate content and mis/disinformation. **Note:** Must be studied full time. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Social media manager, digital marketing manager, online community manager, content creation executive, digital strategist.

UNIVERSITY OF NEW ENGLAND

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Arts/Master of Teaching (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113601 Brisbane	4F or 8P	60.45 unadjusted	60.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Arts/Master of Teaching (Secondary) is a Teacher Education course. This fast-tracked course will see you graduate with two degrees in just four years. This course provides students with an innovative pathway into becoming a secondary school teacher with two specialist teaching areas. You will have the flexibility to study this course fully online or on campus. A challenging and rewarding career in secondary education is a unique opportunity for you to inspire and positively influence the lives of all young people who enter your classroom. Become the teacher who is confident, adaptable, and able to design and implement engaging and flexible learning experiences to meet the needs of your students. This course will enable you to adopt a research-based approach to reflective practice. You'll able to consider the implications and applications of this approach to your own professional development and its contribution to your students' learning and wellbeing. **Other requirements:** students must pass all professional experience components, including professional experience embedded within units. Students are required to follow the pattern of unit enrolment set out in the relevant Course Enrolment Guide unless otherwise approved by the Course Coordinator. Applicants seeking teacher registration in Australia should check with state registration bodies to confirm English Language Proficiency requirements for teacher registration. **Majors:** Archaeology, Business Studies, Drama, Economics, English, Geography, Environment and Society, History, Math, Media, Music, Study of Religions, Theological Studies, Visual Arts.

Career opportunities: Secondary school education, community center education, private colleges, advocacy, policy development.

Bachelor of Early Childhood Education (Birth to Five Years)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113531 Brisbane	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024
113535 Distance ed	4FL or 8FL	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C) ✲.

Course outline: This course is for students interested in teaching children from birth to five years, who see themselves as future educational leaders in the field, with units that address individual teacher identity and professional development. Students gain a strong grounding in curriculum and are well equipped with the knowledge and skills to respond to the diversity within the sector. **Note:** In addition to on-campus study, this course is available by flexible delivery, which means students have the opportunity to study the entire degree fully online or in a blended mode and can choose between online and on-campus units according to individual preference. This course does not lead to primary or secondary teacher registration. **Other requirements:** Students must complete professional and volunteer experience in line with the requirements of the Australian Children's Education and Care Quality Authority, as continuous, full-time blocks. This consists of prior-to-school based learning experiences, structured observational tasks, community engagement, and Professional Experience Program in prior-to-school settings. A Suitability Card is required; refer to institution.

Career opportunities: Four-year trained early childhood teacher, early childhood leadership, management and advocacy, kindergarten teacher, policy developer. This course does not lead to registration with the Queensland College of Teachers.

Bachelor of Education (Early Childhood and Primary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113541 Brisbane	4F or 8P	61.20 unadjusted	66.20 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** To apply for all initial teacher education courses you will need to complete a suitability for teaching assessment as part of your application. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This course provides the professional and academic education for graduates to become teachers in primary schools and early childhood settings. By selecting religious education and/or theology units, graduates will be eligible to teach in Catholic and other faith-based schools. Students not seeking such accreditation take alternative studies. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. For successful completion of all initial teacher education courses, students are required to demonstrate they have met mandatory approved benchmarks in both literacy and numeracy, evidenced through LANTITE (Literacy and Numeracy Test for Initial Teacher Education). Transferring into an ITE course from another institution, does not reset your LANTITE sitting allowance. If you have not met the standard for either component after your first attempt, it is very important that you contact the Course Coordinator immediately to discuss your options.

Career opportunities: Early childhood teacher, primary school teacher, educator, policy developer.

The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This course provides professional and academic education for graduates to teach in primary and secondary school years from early years to year 12. Students will develop knowledge and skills in primary curriculum and one specialist secondary teaching area. By selecting religious education and/or theology units, you will be eligible to teach in Catholic and other faith-based schools. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. For successful completion of all initial teacher education courses, students are required to demonstrate they have met mandatory approved benchmarks in both literacy and numeracy, evidenced through LANTITE (Literacy and Numeracy Test for Initial Teacher Education). Transferring into an ITE course from another institution does not reset your LANTITE sitting allowance. If you have not met the standard for either component after your first attempt, it is very important that you contact the Course Coordinator immediately to discuss your options.

Career opportunities: Primary and secondary school teacher, educator in community education centres, private colleges and policy development.

Bachelor of Education (Primary and Special Education)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113413 Brisbane	4F or 8P	62.65 unadjusted	70.65 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** To apply for all initial teacher education courses you will need to complete a suitability for teaching assessment as part of your application. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This course provides professional and academic education for graduates to teach in primary schools with a specialisation in special education, so you can nurture the development of those with a disability or learning and behavioural difficulties. By selecting religious education and/or theology units, graduates will be eligible to teach in Catholic and other faith-based schools. Bachelor of Education (Secondary)/Bachelor of Arts (Visual Arts)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113671 Brisbane	4½F or 8P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** To apply for all initial teacher education courses you will need to complete a suitability for teaching assessment as part of your application. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: The Bachelor of Education (Secondary)/Bachelor of Arts (Visual Arts) is a double degree for students who want to teach visual arts in secondary schools, such as high schools, and build their skills in visual media. More than just a teaching degree, this is also a visual arts course where the subjects cover: two-dimensional media areas such as drawing, painting, printmaking and photography three- and four-dimensional areas such as sculpture and object design. Students also gain substantial professional practical experience during the course, such as preparing and curating exhibitions or preparing and developing a commissioned artistic project. The inclusion of units in theology and religious education will support accreditation to teach religious education. Students study Visual Arts as a major and will also choose to study another specialisation from the Arts Disciplines. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. For successful completion of all initial teacher education courses, students are required to demonstrate they have met mandatory approved benchmarks in both literacy and numeracy, evidenced through LANTITE (Literacy and Numeracy Test for Initial Teacher Education). Transferring into an ITE course from another institution, does not reset your LANTITE sitting allowance. Career opportunities: Secondary school teacher, government departments.

Bachelor of Education (Secondary)/Bachelor of Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113481 Brisbane	4F or 8P	64.65 unadjusted	68.65 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This double degree is designed for students wishing to pursue a career in education, specialising in physical education, personal development or health education. The double degree combines compulsory education, curriculum and teaching units. Students select units in an exercise science major and in a minor of choice to qualify to teach in two core discipline areas. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. All students in initial teacher education courses must meet the LANTITE test standard prior to graduation. You need to demonstrate once that you have met the standard for each test component (literacy and numeracy) before you undertake your final teaching placement. Test results are transferrable and do not expire. Transferring into an ITE course from another institution does not reset your LANTITE sitting allowance. If you have not met the standard for either component after your first attempt, it is very important that you contact the Course Coordinator immediately to discuss your options.

Career opportunities: Secondary school teacher, government departments.

Bachelor of Educational Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
113311 Brisbane	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This degree is aimed at students who aspire to develop their careers in schools and educational settings but in fields other than teaching. The course offers also offers a pathway into an initial teacher education degree such as the Bachelor of Education (Primary) or the Bachelor of Education (Early Childhood and Primary) degrees. The focus of this course is contemporary education. Graduates have opportunities to develop their knowledge and skills in areas such as learning theory, educational technology and curriculum studies, in addition to good foundations in disciplinary knowledge.

Career opportunities: Corporate trainer, educational designer, curriculum writer, educational consultant, vocational educator, adult learning adviser. Further study enables students to become an early childhood, primary or secondary school teacher.

Bachelor of Human Rights

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
112071 Brisbane	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

CQUniversity Australia *(continued)*

Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: Launch a rewarding career in the education sector with a course that features embedded pathways, real-world opportunities, and extensive practical placements. This is an initial teacher education course usually studied over a period of four years. On successful completion of the course, students will be eligible for employment in primary schools from Prep to Year 6 and in early childhood settings (long day care settings and kindergartens/pre-prep) throughout Australia. In addition to building the professional knowledge and skills required to teach effectively, the course is designed to foster dispositions for engaging in and contributing to the teaching profession through a commitment to ongoing professional learning. A unique feature of this course is the opportunity to gain a nationally recognised Diploma of Early Childhood Education and Care after completing the first year of full-time study. **Note:** To be eligible for teacher registration, students in this course are required to undertake and pass the National Literacy and Numeracy Test for Initial Teacher Education Students (ITE) prior to graduation. This test, referred to as LANTITE, is administered Nationally by the Australian Council of Education Research (ACER). **Other requirements:** Students must be in possession of a current Positive Notice Blue Card (or equivalent Working with Children check issued in other Australian states or territories) to be eligible for placement in a school site. To be eligible to complete placements in early childhood settings, pre-service teachers may be required to show proof of immunisation against measles, mumps and rubella and influenza. In addition, some states and territories are requiring vaccination against COVID-19 for all school staff. Please be aware that these regulations would apply to preservice teachers. Regulations may be introduced in any state prior to, or at the time of, scheduled placement/s and all students must adhere to these requirements. Students must meet the inherent requirements for teaching and must ensure they adhere to any requirements within the scope of teaching across the curriculum learning areas. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: As a graduate, students will be qualified to teach in primary school settings from Prep to Year 6 and in specialist early childhood contexts, including childcare and kindergartens throughout Australia.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: Launch a rewarding career in the education sector with a course that features embedded pathways, real-world opportunities, and extensive practical placements. This is an initial teacher education course usually studied over a period of four years. On successful completion, students will be eligible for employment in primary school contexts throughout Australia. In addition to building the professional knowledge and skills required to teach effectively, the course is designed to foster dispositions for engaging in and contributing to the teaching profession through a commitment to ongoing professional learning. **Note:** To be eligible to graduate and therefore acquire provisional teacher registration, students will be required to undertake and pass the National Literacy and Numeracy Test for Initial Teacher Education. This test, referred to as LANTITE, is administered nationally by the Australian Council of Education Research (ACER). **Other requirements:** Students must be in possession of a current Positive Notice Blue Card (or equivalent Working with Children check issued in other Australian states or territories) to be eligible for placement in a school site. Some states and territories are requiring vaccination against COVID-19 for all school staff. Please be aware that these regulations would apply to preservice teachers. Regulations may be introduced in any state prior to, or at the time of, scheduled placement/s and all students must adhere to these requirements. Students must meet the inherent requirements for teaching and must ensure they adhere to any requirements within the scope of teaching across the curriculum learning areas. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: As a graduate, students will be qualified to teach in primary schools from foundation year (Preparatory) to Year 6.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This course produces well-rounded graduates who qualify for professional registration as a secondary school teacher within Australia. Students will benefit from frequent and meaningful opportunities for work experience and professional practice in authentic educational settings. Students choose two teaching disciplines to focus on, such as agricultural science (including year 7-10 science), biology (including year 7-10 science), business, chemistry (including year 7-0 science), English, geography, health and physical education (including year 7 - 10 HPE and year 11-12 physical education), history, home economics and hospitality, industrial technology and design, mathematics and psychology (including year 7-10 science). **Other requirements:** Students must be in possession of a current Positive Notice Blue Card (or equivalent Working with Children check issued in other Australian states or territories) to be eligible for placement in a school site. Some states and territories are requiring vaccination against COVID-19 for all school staff. Please be aware that these regulations would apply to preservice teachers. Regulations may be introduced in all states prior to, or at the time of, scheduled placement/s and students must adhere to these requirements. Students must meet the inherent requirements for the chosen teaching area (minor) pathway selected and must ensure they adhere to any requirements within the scope of teaching these subjects within schools. For full course requirements, visit cqu.edu.au/courses. **Specialisations:** Agricultural science; biology; business; chemistry; English; geography; health and physical education; history; home economics and hospitality; industrial technology and design; mathematics; psychology.

Career opportunities: On completion of the Bachelor of Education (Secondary), students will be qualified to teach two specialist areas within secondary schools to Year 12.

FEDERATION UNIVERSITY AUSTRALIA

Associate Degree of Vocational Education and Training

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041154 Online	$1^{1/2}$-2P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Employment requirements; Prior study. **Additional entry information:** Completion of Certificate IV in Training and Assessment (TAE); and four years industry experience; and an industry qualification at Certificate III or above.

Course outline: This qualification is for teachers and trainers within the vocational education and training sector, in TAFE, Registered Training Organisations, industry or adult education settings; or for people wishing to work in such settings. The qualification equips VET teachers and trainers with high-level skills and knowledge to handle the challenges of industry engagement, new modes of learning and a changing VET environment. You will acquire: an understanding of the principles and practice of competency based education and assessment relevant to a range of settings; insight into the broad social, economic and political context for VET; an understanding of learning theories and how to apply them; knowledge and techniques to address literacy and numeracy needs of learners; an ability to analyse, and think critically and constructively about, issues and developments in the VET sector; advanced skills in teaching practice; skills and knowledge to liaise with industry at local and national levels; skills and knowledge in reflective practice and applied research; confidence to pursue higher-level university studies; This part time course is delivered over 2 years, or 1.5 years if you have already completed a Diploma of VET or Diploma of VET Practice.

Career opportunities: TAFE teacher, Vocational education teacher, Registered training organisation trainer, Training consultant, Vocational education and training (VET) teacher Students will enjoy enhanced career opportunities as teachers and trainers within the vocational education and training sector, in TAFE, Registered Training Organisations, industry or adult education settings. This qualification meets the requirements for an AQF level 6 or above teaching qualification in the Victorian TAFE Teaching Staff Agreement. This enables teachers to proceed beyond the fifth incremental salary point.

232272 Gold Coast	3½F or 8P	62.40 unadjusted	70.05 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website. Primary education: Students selecting primary education from year 2 also need to have completed a General science subject (Units 3 and 4, C). Secondary education: It is recommended that students select teaching areas that they have successfully studied in their senior schooling. In particular, for the mathematics teaching area Mathematical Methods or Specialist Mathematics and for chemistry, physics or biology teaching areas Chemistry, Physics or Biology respectively. English Language Proficiency requirements: Apply to all applicants whose previous studies were completed in a country other than Australia, Canada, New Zealand, Republic of Ireland, United Kingdom or the United States of America or undertaken in a language other than English. Applicants must attain an IELTS academic (or equivalent) of 7.5 overall (with a minimum score of 8 in

speaking and listening, and minimum score of 7 in each of the other subtests), obtained within two years prior to the start of the program, or the successful completion of one year of full-time bachelor level study where the language of instruction is English completed in Australia, Canada, New Zealand, Republic of Ireland, UK or USA. Previous Education studies: If you have achieved a 'satisfactory' result for one or more component of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) at another institution, the 'satisfactory' result can be carried across with your program application. You are not eligible to apply for a place in the program if one or more components of LANTITE remains at 'unsatisfactory' after two test attempts for that component. Griffith University does not support reset of LANTITE test attempts. **Closing date:** Applications for the March intake close 31 January 2024. Applications for the July intake close 17 June 2024.

Course outline: By studying this innovative degree, you will be equipped to teach in either primary or secondary settings. You can complete this degree in just three and a half years, giving you a head start in your teaching career. In your foundation year, you'll be equipped with a thorough understanding of fundamental teaching principles from a global perspective, with a focus on digital learning. You'll then select a major in either primary or secondary education, with the option to study a double major. You'll also undertake professional practice in every year of your studies. **Note:** Students study over three trimesters each year, completing the program in 3.5 years. Students from any campus can travel between campuses to undertake their selected major or minors. All courses in the Primary Health and Physical Education major except 4082EDN Specialist Planning in Health and Physical Education are also offered online. **Other requirements:** A Suitability Card is required; refer to institution. Students undertaking an initial teacher education program will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) to graduate from the program. Students are permitted three test attempts in total for each component. If students fail three test attempts for each component, they will not be able to graduate. **Majors:** Primary majors: early childhood education (Logan, Online); health and physical education (Gold Coast); special needs education (Mt Gravatt, Online). Primary minors: English education (Mt Gravatt, Gold Coast, Logan, Online); mathematics education (Mt Gravatt, Gold Coast, Online); science education (Mt Gravatt, Gold Coast). Secondary majors: learning support (Mt Gravatt, Online).

Career opportunities: You may find employment in teaching, head of curriculum, central school administration, policy adviser, curriculum officer, principal, training settings in industry and government, outdoor education, adult literacy, libraries, educational research, education policy, or consultancy. Griffith University has one of the highest education graduate success rates in Australia. Our graduates are in demand and find employment in the independent, Catholic and State education systems in Queensland as well as nationally and overseas.

Combined diplomas/degrees: Refer to entry for D Education/B Education.

313319 Online	5½X	✦ unadjusted	✦ adjusted	Jan, Mar, Jul, Aug & Oct 2024	21 Dec 2023 15 Feb & 6 Jun 2024, ✧

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** All applicants for initial teacher education courses must satisfy both academic and non-academic entry criteria. QTAC assesses applicants' non-academic capabilities. Students must meet English language proficiency requirements for teacher registration in Australia, either on entry to or on graduation from the program.

Course outline: The course prepares teachers to work with children from birth to eight years, with specific emphasis on kindergarten, Preparatory year and Years 1-3. It includes professional experience commencing in the first year of the course. Students undertake practical work in a variety of educational sites, including rural and remote locations, and wider community settings. This course is nationally accredited through the Australian Children's Education & Care Quality Authority (ACECQA) and Australian Institute for Teaching and School Leadership (AITSL) in association with the Queensland College of Teachers (QCT). Graduates of this course are eligible for teacher registration in Australia. The JCU Offer Guarantee does not apply to this course. **Note:** All education students must participate in a three-day intensive Professional Orientation Program in the final year of their program. Online education students can study six subjects consecutively per year (one eight-week subject for six study periods a year), with the exception of professional experience placement in Australian educational institutions as required for professional accreditation. Students studying at Cairns and Townsville campus' must study some subjects online. Students without a General Science subject can study the ED0195:03 Bridging Science for Teachers subject prior to commencing. **Other requirements:** A Queensland Working with Children Card (Blue Card) is required; refer to institution. All students must meet the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) standard prior to their final placement and Graduate Teacher Performance Assessment (GTPA). Refer to teacheredtest.acer.edu.au Literacy and Numeracy Test for Initial Teacher Education Students. Applicants from non-English speaking backgrounds must meet the minimum English language requirements; refer to institution.

Career opportunities: Early childhood teacher; child care administrator.

Combined diplomas/degrees: This course can be combined with the following course at TAFE Qld: D Early Childhood Education and Care. Refer to entry for the diploma under TAFE Qld.

Bachelor of Education (Primary)

Students considering teaching Food Technologies and Design must have a Certificate III in Commercial Cookery; plus three years recent and relevant post-training industry experience. All applicants must satisfy both academic and non-academic entry criteria. QTAC assesses applicants' non-academic capabilities.

Course outline: This course prepares graduates for a career in teaching and related fields. It examines learners and learning theories, curriculum studies, and approaches to teaching and assessment. Students undertake practical work in schools and a variety of other educational sites in rural and remote locations from first year. The course has a special focus on education for sustainability and improving outcomes for Indigenous students. This course is nationally accredited through the Australian Institute for Teaching and School Leadership (AITSL) in association with the Queensland College of Teachers (QCT). Graduates of this course are eligible for teacher registration in Australia. The JCU Offer Guarantee does not apply to this course. **Note:** All education students must participate in a three-day intensive Professional Orientation Program in the final year of their program. Not all teaching areas are available at Cairns. **Other requirements:** A Queensland Working with Children Card (Blue Card) is required; refer to institution. All students must meet the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) standard prior to their final placement and Graduate Teacher Performance Assessment (GTPA). Refer to teacheredtest.acer.edu.au Literacy and Numeracy Test for Initial Teacher Education Students. Applicants from non-English speaking backgrounds must meet the minimum English language requirements; refer to institution.

Career opportunities: Secondary teacher, physical education teacher, administrator in education, community development roles.

Bachelor of Education Primary - RATEP

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
313099 Distance ed	4X or 8X	62.90 unadjusted	62.90 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** Please note that RATEP is only available to people who identify as an Australian Aboriginal person and/or a Torres Strait Islander person. Proof of identity documentation is required. Applicants must also be located near RATEP sites in Queensland visit the JCU website for more information. Sites may change.

Course outline: The course allows Indigenous people in remote and regional Queensland communities to undertake a Bachelor of Education (Primary). It examines learners and learning theories, curriculum studies, and approaches to teaching and assessment. Professional experience involves practical work in schools and other educational settings. Teacher coordinators at RATEP centres support students who study using web and print-based materials and interactive communication technologies. Students attend on-campus and professional experience activities throughout the course. This course is nationally accredited through the Australian Institute for Teaching and School Leadership (AITSL) in association with the Queensland College of Teachers (QCT). Graduates of this course are eligible for teacher registration in Australia. The JCU Offer Guarantee does not apply to this course. **Other requirements:** A Queensland Working with Children Card (Blue Card) is required; refer to institution. Additional entry information: Successful applicants must successfully complete CHC30113 Certificate III in Early Childhood Education and Care or CHC30121 Certificate III in Early Childhood Education and Care before progressing to the Diploma of Early Childhood Education and Care.

Course outline: This course is perfect for people who are already working in early childhood education and care, and want to progress their career as an educator or centre director. This course will provide students with the skills and practical knowledge to design and implement early childhood programs, by understanding the emotional, physical, cognitive and social needs of young children. TAFE Queensland's highly-experienced team of industry professionals will provide students with the support needed to succeed throughout your studies. Successful completion of this course will qualify graduates to design and implement early childhood education and care programs. Students will be equipped with the skills needed to plan, implement and evaluate programs in line with approved learning frameworks and regulatory requirements. Graduates will also have a solid foundation to continue with further study. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Fee subsidies and VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses for more information. **Other requirements:** A Suitability Card may be required. Students studying this course externally may be required to undertake a workplace observation. Contact the relevant TAFE Queensland campus for more information regarding Vocational Placement requirements.

Career opportunities: Early childhood educator, early childhood centre director.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Arts/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
707202 St Lucia	4F or 8P	71.85 unadjusted	75.40 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This dual degree allows students to take two degrees and gain a teaching qualification underpinned by strong disciplinary knowledge in selected teaching areas. The arts component provides content knowledge in a wide choice of majors. The secondary education component provides the skills, knowledge and practical experience required for teacher registration and employment. For more information, visit study.uq.edu.au. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA). **Majors:** Ancient history/history; Chinese or Chinese translation and interpreting; drama; economics; English; film and television studies; French or French advanced; geography; German; Japanese or Japanese advanced; legal education studies; mathematics; media and digital cultures; music or popular music and technology; psychology; Spanish. Specialisations: Music.

Career opportunities: Secondary school teacher. With further study, principal; curriculum adviser; guidance or career officer; department head.

Bachelor of Business Management/Bachelor of Education (Secondary)

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching

Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: In this dual degree, students gain a teaching qualification underpinned by strong disciplinary knowledge in their selected teaching areas. The business management component provides content knowledge to teach business and economics while the secondary education component provides the skills, knowledge and practical experience required for teacher registration and employment. For more information, visit study.uq.edu.au. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA). **Majors:** Business economics.

Career opportunities: Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, graduates can work as a secondary school teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, or a guidance or career officer or head of department. Other career opportunities outside schooling include trainer for industry or business where knowledge of teaching skills and processes is in demand.

Bachelor of Education (Primary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
742401 St Lucia	4F	72.25 unadjusted	75.45 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This four-year program provides students with the high-level academic knowledge and professional skills necessary to foster children's learning and development from Prep (the first year of school) through to Year 6. Students cover all aspects of the Australian curriculum, while developing vital knowledge about teaching and learning, child development, diversity and inclusion, and Indigenous education. Graduates are ready to enter the classroom after a minimum of 80 days of supervised professional experience across the program, where they demonstrate their competence to meet the Australian Professional Standards for Teachers. For more information, visit study.uq.edu.au. Other requirements: A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA). **Majors:** English and literacy; humanities and social sciences; mathematics and numeracy; science.

Career opportunities: Primary school teacher. With further study, principal; curriculum adviser; guidance or career officer; department head.

Bachelor of Music (Honours)/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
723202 St Lucia	5F	80.95 unadjusted	80.95 adjusted	Feb 2024	21 Dec 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement; Audition. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website. Refer to Bachelor of Music (Hons) for audition information. Most offers will be made for Bachelor of Music (Hons) in the 21 December 2023 offer round, however for music dual degrees (Bachelor of Music (Hons)/Bachelor of Education (Secondary), the offer round is 11 January 2024. Applicants must ensure they order their preferences accordingly. Refer to qtac.edu.au/applications/apply-here/preferences. **Closing date:** All applications for audition must be received by the School of Music by 21 August 2023. QTAC applications for this program close 29 September 2023.

Course outline: Complete two degrees and gain a teaching qualification underpinned by strong disciplinary knowledge in classroom music and choral or instrumental music. This course is tailored specifically for students who want to pursue a career in music education. It offers two years of intensive training in a chosen instrument (including voice) and three years of combined music and education courses. Graduates are prepared for the variety of teaching expected of music teachers throughout primary and secondary schools. For more information, visit study.uq.edu.au. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, graduates can work as a secondary or primary school music teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, or a guidance or career officer or head of department. Other career opportunities outside schooling include trainer for industry or business where knowledge of teaching skills and processes is in demand.

Bachelor of Science/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731302 St Lucia	4F or 8P	79.30 unadjusted	81.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: Students can combine their interest in science with the necessary skills, knowledge and practical experiences required for teacher registration. They receive a thorough preparation to teach in their nominated teaching areas through professional studies in education. In their science specialisations, they can choose from one of the broadest ranges of scientific disciplines in Australia. Develop interdisciplinary scientific knowledge and put teaching skills into practice with placements available from the first year. Secondary teaching is a rewarding career with mathematics and science teachers increasingly in demand worldwide and throughout Australia. For more information, visit study.uq.edu.au. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA). **Majors:** Applied mathematics; biochemistry and molecular biology; biomedical science; cell biology; chemistry; coastal and ocean science; earth science; ecology and conservation biology; genetics; geographical sciences; mathematics; microbiology; physics; plant science; psychology; zoology.

Career opportunities: Secondary school teacher. With further study, principal; curriculum adviser; guidance or career officer; department head.

UNIVERSITY OF THE SUNSHINE COAST

UniSC

Bachelor of Education (Early Childhood)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
017401 Sunshine Coast	4F or 8P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding non-academic entry requirements, refer to the QTAC website. Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.5 with a minimum of 8.0 in speaking and listening and 7.0 in all other subtests, obtained within two years prior to the commencement of the program.

Course outline: The early years of children's lives are incredibly important. This nationally accredited program focuses on children aged 0-8 years. Develop competence and expertise to contribute to young children's sense of agency, wellbeing and learning capabilities. In this program you will learn the importance of wellbeing, play and supportive environments in early learning. You'll qualify to work and lead in childcare, kindergarten and primary school (focusing on Prep to Year 3) and connect knowledge and practice through Supervised Professional Experiences in a range of early childhood and school settings. You will also engage with community projects and work with children and their families to gain valuable professional experience. **Note:** Some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** Students must have a valid Suitability Card (Blue Card) before commencing professional experience; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Early childhood teacher, primary school teacher, early childhood centre leader/director, private tutor, education consultant, youth support worker, overseas teacher, children's advocate.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C).

Course outline: Students specialise in educating and caring for children from birth to 5 years of age. Emphasis is placed on child-centred learning, leadership advocacy, and the administrative and management skills required to run a childcare centre. Professional experience placements help students to gain teaching and caring experience in a variety of early learning environments. Additional engagement activities are available throughout the program, allowing students to network with current teachers and industry specialists. Graduates have teaching expertise and are positioned to work with children and families in the early childhood and childcare sector. **Note:** The Bachelor of Early Childhood program includes at least 80 days of supervised placement. **Other requirements:** A Blue Card or Exemption Card is required, refer to institution.

Career opportunities: Kindergartens, childcare centres, community-based children's organisations, director of children's activities on cruise ships/in holiday resorts, after school care, nanny.

With regards to teaching areas, it is highly desirable that applicants select teaching areas that they have successfully studied in their Senior schooling, or equivalent, to satisfy teaching area prerequisites.

Course outline: This program gives students the skills, knowledge and experience for a stimulating and rewarding career as a Secondary school teacher. Students study discipline content in two teaching areas with experts in the subjects while learning in a flexible, engaging and dynamic environment. Core courses help to deliver graduates who are prepared and confident in their teaching ability for a diverse range of learners. Students learn to design and deliver effective teaching programs from Year 7 to Year 12 with professional experience placements which are guided by, but not limited to two teaching areas. **Other requirements:** A Blue Card or Exemption Card is required, visit the University of the Southern Queensland website for Blue Cards and Working with Children Check. While this is not a requirement for admission, all students will need to organise and demonstrate a pass result in all components of the LANTITE prior to the final supervised Professional Experience and to graduate from this program. **Specialisations:** Discipline teaching areas: accounting; biology; business studies; chemistry; design and technology; digital technology; drama; earth and environmental science; economics; engineering; English; film, television and new media; food and nutrition; geography; health and physical education (HPE); history; legal studies; mathematics; music; physics; psychology; religion and ethics; visual art.

Career opportunities: Secondary schools, opportunities to work in metropolitan, rural and remote and international schools. Teaching skills are also in demand in other areas, including roles with human services, community-based government organisations and recreation and tourism industries.

CQUNIVERSITY AUSTRALIA

Associate Degree of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850385 Online	4P	71.05 unadjusted	73.05 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course allows students to develop the skills required to become an engineering associate and gain knowledge of engineering principles relevant to the testing, inspection, drawing, adaptation, commissioning, management or operation of on-site equipment, plant and systems. There is the opportunity to tailor studies to areas of interest by selecting from majors in civil, electrical, mechanical or resources engineering or engineering geology. This course is based on the project-based learning philosophy which offers the opportunity to learn in context. This approach is designed to produce work-ready graduates with industry-relevant skills. **Other requirements:** Students are required to complete 240 hours of Engineering Professional Practice prior to graduation. For full course requirements, visit cqu.edu.au/courses. **Majors:** Civil Engineering; Electrical Engineering; Engineering Geology; Mechanical Engineering; Resources Engineering.

Career opportunities: Engineering associate in public and private industry sectors including the energy; transportation; manufacturing; process; construction; mining and education industries.

Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
822241 Cairns	3F or 6P	66.20 unadjusted	68.20 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
852245 Online	3F or 6P	77.30 unadjusted	77.30 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This exciting course prepares students for a career in the aviation industry, either as a professional airline pilot, managing a multi-crew environment, or an aviation professional. The airline and airport operations major is structured to develop industry-relevant professional knowledge in airline and airport management and operations. This major includes aviation-specific and industry-relevant studies in airline and airport economics, finance, marketing, operations, resource management, strategic leadership and risk assessment. The flight operations major, when studied alongside CQU's Graduate Diploma of Aviation, allows students to satisfy the knowledge requirements to apply for an Air Transport Pilot Licence. With a national network of flight partners, benefit from CQUniversity industry partnerships that not only broaden students' career opportunities, but builds valuable connections and networks within the aviation industry. **Other requirements:** Students will be required to gain a "Class 1" medical certificate at their own expense during the first term of studies. Students will also be required to obtain a CASA Aviation Reference Number (ARN) and Aviation Security Identification Card (ASIC) at their own expense. To gain the flight training required to become a commercial pilot, students must complete the Graduate Diploma of Aviation (Flight Operations). All practical flight training components after students' first solo flight are delivered in the Graduate Diploma of Aviation (Flight Operations). Applications for the Graduate Diploma are direct to the University. Compulsory Residential Schools are required for the laboratory and presentation components in certain units. **Majors:** Airline and Airport Operations; Flight Operations.

Career opportunities: This course in conjunction with the Graduate Diploma of Aviation prepares graduates for aviation careers in the air transportation industry as a professional airline pilot. The Airline and Airport Operations major will prepare you for a career as an airline and airport professional.

Bachelor of Engineering (Honours)

850315 Online	4F or 8P	70.80 unadjusted	72.80 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course prepares students for a diverse career as a professional engineer. Students have a choice of majors in traditional engineering disciplines as well as dual major options that will prepare them for emerging specialist fields of engineering including civil and humanitarian engineering, electrical and data analytics, electrical and information processing , electrical with industrial automation, and mechanical with industrial automation. This course develops students' problem-solving, teamwork and communication skills and incorporates project-based learning so they can graduate work ready. The first year of study allows students to experience engineering projects from different disciplines which will assist them in deciding which engineering discipline and course major they wish to pursue. **Note:** Some units will have a compulsory residential schools for students who study online. These residential schools give students an opportunity to develop and demonstrate practical skills. The Engineers Australia accreditation guidelines recommend minimum of 40 days of on-campus experience for a professional engineering course offered in distance mode. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses to see Bachelor of Engineering (Honours). **Majors:** Civil; Civil with Humanitarian; Electrical; Electrical with Data Analytics; Electrical with Information Processing; Mechanical; Electrical with Industrial Automation; Mechanical with Industrial Automation; Resource Systems.

Career opportunities: Upon completion of the course, graduates will be qualified to work as a professional engineer in either the civil, electrical, mechanical, or mining engineering fields depending on chosen major.

Bachelor of Engineering (Honours) (Civil Construction) and Diploma of Construction Management

850502 Online	4½F or 9P	75.75 unadjusted	77.75 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course equips students with skills and knowledge in building design factors such as codes and statutes, building sustainability, and contracts together with foundational technical content in civil engineering. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout their course including industry projects. During the course, students will complete a major individual project that integrates both civil engineering skills and building design skills to confirm their ability to work as a civil engineer and a building design specialist. **Note:** Most units in this course are offered in online mode. Some units will have compulsory residential schools for online students. These Residential Schools give students an opportunity to develop and demonstrate practical skills. The Engineers Australia accreditation guidelines recommend a minimum of 40 days of on-campus experience for a professional engineering course offered in online mode. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Design; architecture; planning; building or engineering firms; government departments and corporations with a large building portfolio.

Bachelor of Engineering (Honours) (Control and Instrumentation) and Bachelor of Information Technology (Application Development)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

850503 Online	5F or 10P	84.30 unadjusted	86.30 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: Become a control and instrumentation engineer skilled in both high-level engineering design, and software and hardware implementation of engineering systems. Throughout the course, students will develop skills in problem solving, teamwork and professional practice together with learning foundational technical content. Students will complete a major individual project that integrates both control and instrumentation knowledge and information and communication technology knowledge to confirm their ability to work as a control and instrumentation, and software engineer. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout the course. **Note:** Most units in this course are offered in online mode. Some units will have compulsory residential schools for online students. These residential schools give students an opportunity to develop and demonstrate practical skills. The Engineers Australia accreditation guidelines recommend a minimum of 40 days of on-campus experience for a professional engineering course offered in online mode. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once the students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Control and instrumentation engineer; Instrumentation and control engineer; control systems designer; electrical power; resource technician; telecommunications; agriculture; automation industries.

Bachelor of Engineering (Honours) (Major) and Diploma of Project Management

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course aims to produce an engineer skilled in both high-level engineering designs and managing engineering projects including project planning, stakeholder management, risk management, strategy, resource management, project control, procurement management and execution. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout the course. In your first year, you will develop skills in problem solving, teamwork and professional practice together with learning foundational technical content. In the second year, you will gain in-depth discipline-specific technical knowledge and skills and build on your project management skills. In the third, fourth and fifth years of your course, you will develop a deeper understanding of the foundation knowledge that you gained in the first and second years. **Note:** Some units will have compulsory Residential Schools for online students. These Residential Schools give students an opportunity to develop and demonstrate practical skills. The Engineers Australia accreditation guidelines expect on-campus practical activities for a professional engineering course offered in online mode. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. **Majors:** Civil; Electrical; Mechanical.

Career opportunities: This course provides a unique opportunity to become an engineer with high-level engineering planning and design skills complemented by project management skills including project planning, stakeholder management, risk management, strategy, resource management, project control and execution as well as procurement management.

Bachelor of Engineering (Honours) and Diploma of Professional Practice (Co-op Engineering)

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: With extensive work-integrated learning opportunities and featuring 48 weeks of paid industry placement, this course provides students with vast opportunities to gain real-world experience to prepare for a career as a professional engineer. The education and training of this course focuses on developing skills desired by employers, including effective teamwork and problem-solving. The first year allows students to experience many engineering projects which helps them decide which engineering discipline and course major to pursue. Students can choose to major in traditional engineering disciplines as well as dual major options that will prepare them for emerging specialist fields of engineering including electrical and information processing, electrical and data analytics, electrical with industrial automation, mechanical with industrial automation, and civil and humanitarian engineering. **Note:** All units in this course are offered in online mode. Some units will have a compulsory Residential School for distance students. These Residential Schools give students an opportunity to develop and demonstrate practical skills. **Other requirements:** Students undertake 48 weeks of paid industry placement organised by the university. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses. **Majors:** Civil; Civil with Humanitarian; Electrical; Electrical with Data Analytics; Electrical with Information Processing; Mechanical; Electrical with Industrial Automation; Mechanical with Industrial Automation; Resource Systems.

Career opportunities: Professional engineer in the civil, civil and humanitarian, electrical, mechanical, mechatronic engineering or resources systems fields depending on chosen major.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Additional entry information:** Applicants who hold a completed Diploma of Aircraft Maintenance Engineering Avionics (10600NAT), or Diploma of Aircraft Maintenance Engineering - Mechanical (10599NAT) will have the Mathematical Methods (Units 3 and 4, C) prerequisite waived. Applicants should supply a copy of their completed qualification with their application.

Course outline: This course prepares students for a versatile career in engineering as a specialist in technology. It equips students with skills in problem-solving, teamwork and communications and develops their technical capabilities in their chosen field of civil, electrical, mechanical or aircraft maintenance engineering. This course incorporates project-based Learning, and provides students with the opportunity to learn in context, in formal and informal learning environments such as workshops, classes and project studios. Students also gain teamwork and problem-solving skills alongside technical content in exciting real-world engineering contexts. Students will select a major in either civil engineering (structural or municipal transportation), electrical engineering (electrical control or electrical power), mechanical engineering (design or energy), aircraft maintenance engineering (avionics or mechanical). **Note:** Online students of this course will be required to attend a CQUniversity location or other designated location for compulsory residential schools in some units. **Other requirements:** Students must complete 360 hours of Professional Engineering Practice, including a minimum of 240 hours of industry experience. Once the students have completed the professional practice requirements, they must enrol in this unit and provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses. **Majors:** Aircraft Maintenance - Avionics; Aircraft Mainenance - Mechanical; Civil; Electrical; Mechanical.

Career opportunities: Engineering technologists, having specialised in one of the disciplines of civil (structural), civil (municipal/transportation), mechanical (process), mechanical (energy), mechanical (design), electrical (electrical power) or electrical (control), find employment in national and international public and private industry sectors including the aviation, energy, transportation, manufacturing, process, construction, mining and education industries.

086291 Mt Gravatt	1F or 2P	✰ unadjusted	✰ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✲.

Course outline: This diploma equips students with the key skills and central concepts of engineering before they progress to university and specialise. Students learn from experienced lecturers with global industry experience in courses including mathematics, engineering science, engineering fundamentals, computing and programming. This diploma kickstarts the journey to a career in civil, electrical, environmental, mechanical or software engineering. Upon successful completion, students move into the Griffith University Bachelor of Engineering with credit.

Career opportunities: Civil engineer; electrical engineer; environmental engineer; mechanical engineer; software engineer.

Combined diplomas/degrees: Refer to entries for: D Engineering/B Engineering (Hons); D Engineering/B Aviation; D Engineering/B Industrial Design.

Diploma of Engineering/Bachelor of Engineering (Honours)

Prerequisites: ✲.

Course outline: This program is designed to provide students with core skills and knowledge in engineering, avionics and aviation. Starting with the diploma, students are prepared by learning the fundamentals to cement their knowledge in foundation engineering subjects. Upon successful completion of the diploma, students progress into the Griffith University Bachelor of Engineering with credit. Graduates are qualified as electronics engineers and have an understanding of the theory and practice of aviation.

Career opportunities: Commercial pilot; electronic-related industries; pilot engineer.

Diploma of Engineering/Bachelor of Industrial Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
086051 Mt Gravatt/ Griffith University - Gold Coast	3½F or 7P	✰ unadjusted	✰ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✲.

Course outline: This program combines a creative engineering approach with industrial design innovation. It is designed to help students develop technical and academic skills before progressing into the bachelor with 30 credit points. Students graduate with an ability for innovation and creativity in industrial design, while working within the principles of engineering. They learn through project-based design and technical learning studios. Students are provided

with the opportunity to develop their engineering knowledge, professional practice and design skills.

Career opportunities: Creative designer-maker; designer for medical applications; entrepreneur; industrial designer; product designer; specialist designer (e.g. automotive or digital fashion).

Diploma of Engineering/Bachelor of Software Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

Prerequisites: ⁎. **Additional entry information:** Applicants must nominate their preferred (one) specialisation on their QTAC application.

Course outline: This program prepares students with fundamental academic skills and cements their knowledge in foundation engineering subjects. On successful completion of the diploma, students progress into the bachelor degree with 60 credit points. The degree builds vital skills and knowledge in fields such as mobile app development, network security and project management. Students address the key social and professional issues facing software engineers as the 21st century - and humanity's complex relationship with devices - continues to develop.

Career opportunities: Civil engineer; electrical engineer; electronic engineer; mechanical engineer; software engineer.

GRIFFITH UNIVERSITY

GRIFFITH UNIVERSITY QUEENSLAND AUSTRALIA

Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228182 Nathan	2F	57.25 unadjusted	65.20 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this highly-recognised degree, you will be equipped with the skills needed for lifelong learning in the evolving aviation environment. This degree is the first step to gaining your commercial pilot licence and has strong ties to major airlines across Australia. You will be introduced to the skills underpinning the theory and practice of flight training and study courses in areas such as human factors, aerodynamics, aviation law, atmospheric science, navigation and flight planning. **Note:** Students study over three trimesters each year, completing the three year program in two years. The Bachelor of Aviation standard entry pathway (applications through QTAC) is ONLY offered on-campus (Nathan) and ONLY offered as a Trimester 1 intake. Students must attend the Nathan campus to undertake this pathway and must commence in Trimester 1. Professional entry students apply online directly to Griffith University.

Career opportunities: The Bachelor of Aviation, together with the Graduate Diploma of Flight Management, will allow graduates to be ready to work in the aviation industry as a commercial pilot. Graduates of these programs will find employment opportunities in charter work, regional airlines, flight instruction (theory and practice), aerial services (agricultural spraying, aerial surveying and photography), and in government organisations such as Civil Aviation Safety Authority (CASA).

Combined degrees: Refer to entries for: B Aviation/B Information Technology; B Engineering (Hons)/B Aviation.

Bachelor of Aviation Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

278045 Online	2F	✱ unadjusted	✱ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: It takes specialist management skills to keep the aviation industry flying, in operational business roles and in the public sector. In recognition of the unique demands of aviation, this degree has been designed alongside industry to ensure we produce graduates with the core competencies that employers demand. This includes knowledge in airport planning, operations and management, human factors for aviation managers, security and risk management, government-business relations, business data analysis and more. **Note:** Students study over three trimesters each year, completing the three-year program in two years.

Career opportunities: You'll be prepared for employment in aviation management. You will also be able to apply your management skills to many areas of the aviation industry including airlines, airports, air traffic service providers, maintenance and repair organisations, and government organisations, such as the Civil Aviation Safety Authority (CASA) and the Australian Transport Safety Bureau (ATSB).

Combined diplomas/degrees: Refer to entry under Griffith College for: D Commerce/B Aviation Management.

Bachelor of Aviation/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228901 Nathan	4F or 8P	70.00 unadjusted	72.00 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree combines Australia most highly awarded aviation program with practical skills in information technology, providing a pathway to a range of careers in aviation outside of flight-crew roles. Core courses introduce you to navigation, human factors, planning, information systems and programming, as well as the sciences underpinning the theory and practice of aviation. You'll also develop skills in collecting, storing and analysing large volumes of data. Training and learning resources include our flight procedures lab and technology systems and a practical work placement. **Note:** Students can study over three trimesters each year, completing the five year program in four years. **Majors:** Information technology: information systems; networks and security; software development.

Career opportunities: As a graduate, you will be ready to work in the field of general aviation, including opportunities in charter work, flight instruction (theory and practice), aerial services such as agricultural spraying, aerial surveying and photography, first officer positions with regional airlines and in the Australian Defence Force, management, research and human resource management, and in government organisations such as the Civil Aviation Safety Authority (CASA). Depending on your IT area of specialisation, you will be prepared for a career in commerce, industry, corporate IT, government or private consulting. You may find a job as a systems analyst, software developer, IT support and client services officer, database and systems administrator, technical writer, web developer, sales representative for IT vendors, educator or researcher.

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229231 Nathan	4F or 8P	65.75 unadjusted	72.25 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
234861 Gold Coast	4F or 8P	64.05 unadjusted	72.05 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This is your chance to make an impact on the way the world works. You could have the opportunity to make your mark on major global systems and infrastructure or be at the forefront of localised urban projects. This degree has a major focus on learning by doing, with hands-on projects from first year, so you'll be engineering from day one. Choose from nine major areas of engineering to hone-in on an area that interests you and distinguish you from other graduates. You'll learn from experts conducting cutting-edge research with government and leading industry partners. **Note:** Griffith offers a number of admission pathways to your preferred degree. If you don't meet the minimum ATAR/selection rank for this degree, you will automatically be considered for a place in the Diploma of Engineering/Bachelor of Engineering (Hons). This means you may receive an offer into the Bachelor of Engineering (Hons) which is conditional on successful completion of the Diploma of Engineering at Griffith University. Upon successful completion of the Diploma of Engineering you will be transferred into the second year of the Bachelor of Engineering (Hons) program. Visit griffith.edu.au/undergraduate-diplomas for more information. **Majors:** Civil engineering (Gold Coast, Nathan); electrical and electronic engineering (Gold Coast); electrical and renewable energy engineering (Gold Coast); electronic engineering (Nathan); electronic and energy engineering (Nathan); electronic and UAV engineering (Nathan); environmental engineering (Nathan); mechanical engineering (Gold Coast, Nathan); mechatronics (Nathan). For software engineering, refer to Bachelor of Software Engineering (Honours).

Career opportunities: You may find employment in private and government organisations across sectors including renewable energy, manufacturing, aerospace, mining, telecommunications, transport, defence, entertainment, information technology, utilities, the automotive industry, waste management and more.

Combined degrees: Refer to entries for: B Engineering (Hons)/B Aviation; B Engineering (Hons)/B Business; B Engineering (Hons)/B Computer Science; B Engineering (Hons)/B Data Science; B Engineering (Hons)/B Environmental Science; B Engineering (Hons)/B Industrial Design; B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Engineering (Hons).

Bachelor of Engineering (Honours)/Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229251 Nathan	4F	66.05 unadjusted	72.85 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree gives you two clear career pathways. As a graduate, you may choose to be a qualified commercial pilot with engineering qualifications, knowing that airlines prefer their pilots to have an engineering qualification. Or, you could choose to be an engineer with flight qualifications, recognising that engineering companies building aircraft or aviation systems prefer flight qualified engineers. It, all achievable through this unique degree. **Note:** Students study over three trimesters each year, completing the five-year program in four years. **Majors:** Engineering: electronic engineering; mechanical engineering.

Career opportunities: As a graduate, you'll be qualified as an electronics or mechanical engineer and will have completed the full theory component for your commercial pilot, licence. Students wishing to obtain their pilots licence will also need to enrol in the Graduate Diploma in Flight Management to complete the flight training practical component of their licence.

Bachelor of Engineering (Honours)/Bachelor of Business

Course outline: This combined degree produces professional engineers with a solid foundation in engineering principles and the managerial skills to run complex projects. You'll develop knowledge and skills in your preferred engineering major combined with key business competencies such as organisational behaviour, communication, economics, and quality control. Skills are enhanced through an industry-based project or placement to prepare students for entry to the workforce. **Majors:** Engineering: civil engineering; electrical and electronic engineering; electronic engineering; environmental engineering; mechanical engineering. Business: Asian engagement; behavioural science; business analytics; economics; employment relations; events; finance; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation; tourism and travel.

Career opportunities: You'll be prepared to work in a variety of engineering-related roles relevant to your chosen specialisation(s) in engineering firms, not-for-profit, government and corporate organisations. By combining these two fields, you can apply your specialised knowledge of business and engineering to roles such as project manager, business manager, chief engineer, supply chain manager and consulting engineer in private and public sectors.

Bachelor of Engineering (Honours)/Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234871 Gold Coast	5F or 10P	73.50 unadjusted	79.50 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree is focused on the future, combining a cutting-edge blend of computer science and engineering. For a more specialised career path, this dual degree allows you to complement your engineering knowledge with a range of supporting computer science skills and understanding. You'll develop knowledge and practical skills in planning, management, design and build of engineering projects as well as communication, research and critical analysis skills. **Majors:** Engineering: electrical and electronic engineering; mechanical engineering. Computer science: data science and artificial intelligence; software development.

Career opportunities: Engineering technologist, computer scientist, computer network and systems engineer, software developer, electrical engineer, mechanical engineer.

Bachelor of Engineering (Honours)/Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234801 Gold Coast	5F or 10P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
229271 Nathan	5F or 10P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will enable you to provide data-based insights based on your specific expertise in engineering, to improve decision-making, reduce costs and increase efficiencies. You'll gain knowledge in your chosen engineering major and skills to access the insights data provides and lead the way in translating data into actionable information, including manipulation, modelling, interpretation and visualisation. In your final year you can enhance your employability through an industry placement to gain practical experience and valuable industry networks. **Majors:** Engineering: civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering; software engineering.

Career opportunities: Depending on your major, you may find opportunities in aviation, construction, manufacturing, natural resources, telecommunications, transport or software development as well as opportunities as a business analyst, data scientist, or insights analyst across a range of industries.

Bachelor of Engineering (Honours)/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
224701 Nathan	5F or 10P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
234821 Gold Coast	5F or 10P	68.30 unadjusted	74.30 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: With this double degree, you can tackle environmental issues armed with knowledge across both engineering and science. With specialist skills in engineering paired with insights into social, applied and natural sciences, you'll be well prepared to find practical solutions to pressing environmental issues. In final year, you'll complete industry experience, preparing you for entry to the workforce. **Majors:** Engineering: civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. Environmental science: ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: As a graduate, you'll be prepared for careers as engineers or environmental scientists, equipped to bring engineering together with social and natural sciences to find solutions for complex environmental issues such as climate change. You'll find employment in government departments, environmental agencies, civil construction projects, consultancies, waste management, mining, oil, smelting and manufacturing industries.

Bachelor of Engineering (Honours)/Bachelor of Industrial Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234881 Gold Coast	5F or 10P	71.55 unadjusted	75.55 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Now you can combine the creative skills of industrial design with the practical solutions of mechanical engineering. This double degree will arm you with the techniques and technical skills you need to excel in this vibrant industry. You'll study a combination of in-depth theoretical mechanical engineering frameworks and industrial design principles and concepts like development, problem-solving and model making. This degree gets you hands-on learning from year one, and delivers you a qualification that employers find hard to ignore. **Majors:** Engineering: mechanical engineering.

Career opportunities: You'll be at the forefront of a number of rapidly growing career paths. You can choose to design consumer products, putting your skills into play to make every day more user-friendly. Or you can choose to specialise in the design and manufacture of products for a range of industries including mining, transportation, health care, aerospace and building services.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229211 Nathan	5F or 10P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
234841 Gold Coast	5F or 10P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the

Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Two of the fastest growing sectors for jobs growth are engineering and IT, and this double degree has these two disciplines at its core. You'll develop the knowledge and practical skills in planning, management, design and build of engineering projects, with your choice of major allowing you to specialise in the area you're most interested in. You'll also achieve a high level of core IT technical knowledge and a specialisation in either information systems or networks and security. **Majors:** Engineering: civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. Information technology: information systems; networks and security; software development (Gold Coast).

Career opportunities: Depending on your major, you can choose to pursue a career in electronics design and fabrication, systems engineering, embedded systems engineering, computer systems engineering, corporate IT, construction engineering or with government authorities.

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229201 Nathan	5F or 10P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
234831 Gold Coast	5F or 10P	66.75 unadjusted	74.75 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Engineering is a precise practice, and this double degree will arm you with the science disciplines to help you excel. You'll study applied mathematics or physics and learn to balance the numbers with the art of creative and critical thinking. You'll also gain highly useful skills in mathematical modelling. In final year, you can enhance your employability through an industry placement. With an internationally recognised qualification, you'll be prepared for work on complex projects in Australia and overseas. **Majors:** Engineering: civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. Science: applied mathematics; physics.

Career opportunities: With highly sought after qualifications in engineering and science, you'll find inspiring career opportunities in government, construction companies, telecommunications, mining, oil, smelting and manufacturing industries, and research organisations.

Bachelor of Industrial Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234522 Gold Coast	3F or 6P	60.45 unadjusted	68.45 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this degree, you'll apply your passion for creative design and production through the lens of advanced manufacturing. Under the guidance of our industry experienced teaching staff, you'll gain insight and expertise in design, materials, process technology and practice within a global context. You'll use cutting-edge advanced manufacturing technologies combined with traditional and sustainable manufacturing processes. Through a range of practical experiences, craft-based approaches, and the latest developments in 3D printing, digital modelling, electronics, programming and more, you'll graduate ready to create and innovate across healthcare, aerospace, automotive, consumer goods, and fashion - among other industries.

Career opportunities: You'll be prepared for work as an industrial designer, innovator, product designer, entrepreneur, creative designer-maker, designer for medical applications, or in automotive or digital fashion.

Combined degrees: Refer to entry for: B Engineering (Hons)/B Industrial Design.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Industrial Design.

Bachelor of Software Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229281 Nathan	4F or 8P	67.85 unadjusted	72.10 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
234901 Gold Coast	4F or 8P	70.05 unadjusted	78.05 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: If you want a hand in designing and implementing the software systems our society depends on, this degree is the ideal path for you. You'll begin with a solid foundation in mathematics, computer systems, engineering principles and information systems. In your second year, you'll explore computer algorithms, object-oriented programming, business analysis, computer network essentials and more. As you progress, you'll gain vital exposure to fields such as mobile app development, network security and project management. In your final year, you'll spend more than half your time engaging in work-integrated learning. **Note:** An option exists to exit with a Bachelor of Engineering Science on completion of three years of study. **Majors:** For other disciplines, refer to Bachelor of Engineering (Honours).

Career opportunities: You'll be equipped for roles such as software architect, software developer, software engineer, software tester, IT project manager, systems analyst, security specialist, computational scientist, programmer, and networking and communications specialist, or in research and development.

Diploma of Engineering/Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229291 Nathan	4F	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024
234791 Gold Coast	4F	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎.

Course outline: The Diploma of Engineering is a pathway program designed to help you transition into the Bachelor of Engineering (Honours). You'll develop foundational knowledge and skills in a supportive learning environment, setting you up for success in your future studies. This is your chance to have an impact on the way the world works. You could have the opportunity to make your mark on major global systems and infrastructure or be at the forefront of localised urban projects. When you choose this degree, you'll be engineering from day one. We're strong believers in learning by doing', so this degree has a strong practical focus. You'll learn from teachers who are passionate about engineering and the difference it makes in the world, so you'll get to experience their energy in your studies. You'll study academic foundations courses to develop a strong foundation in basic science and engineering principles, with additional support and access to a dedicated First Year Coordinator and Peer-Assisted Study Sessions (PASS) run by high-achieving students.

Career opportunities: As a graduate you'll have the hands-on skills that employers tell us they're after. Plus, once you have finished the accredited Bachelor of Engineering (Honours) degree, you will have met Engineers Australia stage one competencies. The Bachelor of Engineering (Honours) degree is also internationally recognised, which means you can put your skills into practice right around the world.

Combined diplomas/degrees: Once you've successfully completed this diploma, you'll be offered guaranteed entry into the second year of the Bachelor of Engineering (Honours).

JAMES COOK UNIVERSITY

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
314021 Townsville	4F or 8P	69.30 unadjusted	75.30 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
324021 Cairns	4F or 8P	69.80 unadjusted	75.80 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: A common first year of study provides a broad skills base, and students develop sound theoretical knowledge and gain opportunities for hands-on practical experience. Engineering design, communication and project management are central to the course. Students undertake a full-year thesis in the final year, completing a significant research project. Students choose one major and one of several minors such as maths, physics, software or sustainability. This course is accredited by Engineers Australia. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Note:** Not all majors are available at both campuses or for mid-year entry. **Other requirements:** Students must complete at least 60 days of professional engineering practice prior to graduation and hold a Senior First Aid certificate at time of graduation. **Majors:** Townsville: Chemical engineering; civil engineering; electrical and electronic engineering; mechanical engineering. Cairns: Electrical and electronic engineering; electronic systems and internet of things engineering.

Career opportunities: Depending on specialisation: consultancies, construction firms, mining and minerals processing, transportation agencies, microelectronic and telecommunication designers, process engineering, manufacturers and suppliers, computer hardware designers, software developers, designers and manufacturers of industrial products, environmental management agencies, government departments.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
314071 Townsville	5F or 10P	79.50 unadjusted	85.50 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
324071 Cairns	5F or 10P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Students take common first year engineering subjects to develop a broad skills base and then choose a preferred engineering major. Engineering design is a central theme of the course. This five-year program allows students to combine their engineering degree with information technology subjects for individual interest or a specialist career goal. This course is accredited by Engineers Australia. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Note:** Not all Bachelor of Engineering (Honours) majors are available at both campuses or for mid-year entry. **Other requirements:** Students must complete at least 60 days of engineering professional practice prior to graduation and hold a Senior First Aid certificate at time of graduation. **Majors:** Refer to Bachelor of Engineering (Honours).

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology.

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

324051 Cairns	5F or 10P	77.90 unadjusted	83.90 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C) ⁎.

Course outline: Students take common first year engineering subjects to develop a broad skills base in order to choose a preferred engineering major. Engineering design is a central theme of the course. This five-year program enables students to combine their engineering degree with a science major. This course is accredited by Engineers Australia. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Note:** For Bachelor of Engineering (Honours), not all majors are available at all campuses and no engineering majors are available for mid-year entry. **Other requirements:** Students must complete at least 60 days of engineering professional practice prior to graduation and hold a Senior First Aid certificate at time of graduation. **Majors:** Refer to separate entries for Bachelor of Engineering (Honours) and Bachelor of Science.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Science.

Diploma of Higher Education (Engineering and Applied Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
310041 Townsville	1F or 2P	⁎ unadjusted	⁎ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
320041 Cairns	1F or 2P	⁎ unadjusted	⁎ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course is for students who do not qualify for entry to bachelor degrees or are seeking additional skills development before undertaking a bachelor's degree. It can also be used as a pathway for students lacking prerequisite subjects. In the engineering and applied science stream, students study two core subjects plus a mix of introductory and first-year subjects within the engineering and applied science fields. Successful completion of the diploma allows entry to a range of degree programs with credit for some subjects successfully completed. The JCU Offer Guarantee does not apply to this course.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
412502 Gardens Point	4F or 8P	71.20 unadjusted	79.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: You enter a common first semester of foundation study that provides a broad grounding in engineering disciplines, prior to selecting your desired stream of study. Primary study areas include chemical and sustainable process, civil, computer and software systems, electrical, electrical and aerospace, electrical and renewable power, mechanical, mechatronics and medical engineering. Other specialisations are available from second year, allowing you to further tailor your course. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Chemical and sustainable process; civil; computer and software systems; electrical and aerospace; electrical and renewable power; electrical; mechanical; mechatronics; medical.

Career opportunities: Depending on specialisation: consulting engineer, governments, construction companies, environmental specialist, computer manufacturers, communications and digital signal processing products manufacturers, cable and network equipment manufacturers, defence agencies, electricity utilities, mining industry, telecommunications companies, automated systems and robotics, project manager, designer, instrumentation engineer, civil aviation safety authority, power generation and supply.

Combined degrees: Refer to entries for: B Engineering (Honours)/B Business; B Design/B Engineering (Honours); B Engineering (Honours)/B Information Technology; B Engineering (Honours)/B Mathematics; B Engineering (Honours)/B Science.

Combined diplomas/degrees: You can combine this course with the QUT Diploma in Engineering.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419512 Gardens Point	5F or 9P	71.20 unadjusted	79.20 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course integrates engineering and information technology to give you a wide and advanced study of engineering and modern computing systems. You gain the skills to become technically competent in the fundamentals of mathematics, science and engineering, with advanced knowledge in at least one specialist area of engineering, and equipped to build and apply creative, innovative information technology solutions across diverse industries. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology.

Bachelor of Engineering (Honours)/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419572 Gardens Point	5F or 9P	79.65 unadjusted	87.95 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This course integrates engineering and mathematics to give you a wide and advanced study of engineering and well-developed analytical and problem-solving skills, and the ability to use mathematics and statistics in a range of applications. You gain the skills to become technically competent in the fundamentals of mathematics, science and engineering, with advanced knowledge in at least one specialist area of engineering. This integrates with the mathematics component, which provides study in modelling, analysis and design. This course is covered by the QUT Offer Guarantee. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Mathematics.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Mathematics.

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419402 Gardens Point	5F or 9P	69.15 unadjusted	79.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: As a graduate in engineering, you're technically competent in the fundamentals of mathematics, science and engineering, with advanced knowledge in at least one specialist area of engineering. As a science graduate, you are skilled in many aspects of scientific study, allowing for specialisation in one study area, including biological sciences, chemistry, earth science, environmental science, and physics. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Science.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Science.

Bachelor of Engineering (Honours)/Master of Robotics and AI

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
412912 Gardens Point	5F or 10P	81.85 unadjusted	90.05 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: You enter a common first semester of foundation study that provides a broad grounding in engineering disciplines, prior to selecting your desired stream of study. Primary study areas include Computer and Software Systems, Electrical, Electrical and Aerospace, and Mechatronics. You then continue to a Master of Robotics and AI where you will develop advanced knowledge and skills in automation, robotics, and artificial intelligence. You graduate with both a Bachelor of Engineering (Honours) and a Master of Engineering. The QUT Offer Guarantee does not apply to this course. **Majors:** Computer and software systems; electrical and aerospace; electrical; mechatronics.

Career opportunities: Consulting engineer, governments, manufacturing industry, defence industry, drone industry, agricultural industry, mining industry, project manager, designer, instrumentation engineer, automated systems and robotics, civil aviation safety authority, power generation and supply, drone applications, robotics development and applications, infrastructure inspection and servicing.

Diploma in Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
420201 Kelvin Grove	1F or 1 1/2P	57.00 unadjusted	61.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The Diploma in Engineering is a pathway program designed to help you successfully progress to the second year of the Bachelor of Engineering (Honours). It provides you with the opportunity to study core foundational engineering units in a highly supportive learning environment with smaller class sizes and a more personalised learning journey. Beyond providing a broad grounding in engineering disciplines, you will also develop your academic skills for future study success. This course is covered by the QUT Offer Guarantee.

Career opportunities: Graduates of this course may seek entry level work in engineering related fields or continue their studies to pursue a career in Engineering.

Combined diplomas/degrees: Upon completion of the diploma, you will be automatically offered a place in the Bachelor of Engineering (Honours). Each of your diploma units will be credited to the degree.

SOUTHERN CROSS UNIVERSITY

Southern Cross University

Associate Degree of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
054312 Lismore	2F or 4P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024
054362 Gold Coast	2F or 4P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Course outline: The Associate Degree of Engineering is designed to meet the requirements for accreditation at the level of Engineering Associate by Engineers Australia. The course is structured around 16 key competencies identified by Engineers Australia as being essential to the graduating engineer, which are broadly grouped into knowledge and skills, application, personal and professional skills. The course is suited to school leavers or those with a trade qualification who are looking to enter the civil construction or manufacturing and production industries in a supervisory, project management or technical role, or progress their careers in these industries to the next level. **Other requirements:** Students complete 30 days of compulsory industry experience typically with an organisation conducting work related to engineering practice. **Specialisations:** Civil engineering; intelligent machines.

Career opportunities: Graduates from the civil construction specialisation will be able to work at the level of engineering associate in a range of roles in the civil construction industry related to the design, construction and maintenance of infrastructure, including as site superintendents, site supervisors, site engineers. Graduates from the intelligent machines specialisation will be able to work at the level of engineering associate in a range of roles in manufacturing and production industries related to building, installing and commissioning, operating, maintaining and repairing control systems, smart machines, and robotic systems.

Bachelor of Engineering Systems (Honours) (Civil Engineering)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
054391 Lismore	4F or 8P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024
054371 Gold Coast	4F or 8P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Course outline: This degree equips students with the skills and knowledge to provide a range of professional civil engineering services in regional, national and international environments. It prepares graduates for work in the planning, design, construction and maintenance of civil engineering infrastructure such as buildings, roads, bridges, dams, pipelines, transport systems, and water supply and waste water treatment facilities. Students have access to specialist civil engineering software and state-of-the-art laboratories. In final year, students undertake industry experience. This course is also available online, contact Southern Cross University. **Other requirements:** Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers. **Specialisations:** Civil engineering.

Career opportunities: Civil engineers in settings that include municipal and government road authorities, water supply and management agencies, construction companies, railway departments and companies, natural resource management organisations, consulting engineering companies, airport authorities, mining companies, irrigation authorities, research organisations, and in tertiary education (with further study).

Bachelor of Engineering Systems (Honours) (Mechanical Engineering)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
054381 Lismore	4F or 8P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024
054661 Gold Coast	4F or 8P	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Course outline: This degree equips students with the relevant skills and knowledge to provide a range of professional mechanical engineering services in regional, national and international environments. The course prepares graduates for work involving the design of machinery, computer-aided design and manufacturing, water supply, vibration, acoustics and noise control, robotics, heat transfer and refrigeration, energy technology, consumer product design, pollution control, and production planning. Study streams in design and production system engineering, thermo-fluid mechanics and energy systems, and mechatronics and control systems cover all aspects of mechanical engineering. This course is also available online, contact Southern Cross University. **Other requirements:** Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers. **Specialisation:** Mechanical engineering.

Career opportunities: Mechanical engineer in regional, national and international environments in diverse industries including heavy machinery, power generation, mining, manufacturing, production planning, automotive, aerospace, medical, environment, building industries, consumer product design and building services, consulting engineering, ship building, railroads and robotics industries.

Bachelor of Engineering Systems (Honours) (Mechanical Engineering), Bachelor of Business and Enterprise (subject to final approval)

054961 Gold Coast	1F or 2P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: This pathway course will prepare you to work in the infrastructure, manufacturing, and production industries at a paraprofessional level. The course is designed for school leavers or those with a trade qualification who are seeking to upskill and move into supervisory, project management, or technical roles. It has a focus on developing technical and practical skills needed by industry. Graduate opportunities exist as site supervisors and project managers in civil construction or manufacturing and production industries. This course is also a pathway to Engineering studies at the Associate Degree or Bachelor level.

Career opportunities: Field assistant, laboratory assistant, revegetation officer, environmental monitor.

TAFE QUEENSLAND

Advanced Diploma of Electronics and Communications Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
597292 Eagle Farm	2C	✱ unadjusted	✱ adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Redefine your career in electronics and communications with this advanced diploma course and develop the specialised skills and knowledge required to become a senior technical officer. In this course students will develop expert skills to design and validate electronics and communication equipment and systems, manage risk, provide technical advice and estimate and manage projects. TAFE Queensland's industry experienced teachers will provide students with the one-on-one guidance and support needed to succeed. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for information.

Career opportunities: Senior technical officer - electronics and communications engineering.

Advanced Diploma of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
596942 Acacia Ridge	2C	✱ unadjusted	✱ adjusted	Jan 2024	11 Jan 2024

Course outline: Redefine your engineering career with this high-level course and develop the specialised skills and knowledge required to become a mechanical engineering technician or engineering associate. In this course students will gain detailed drafting and design skills, and learn how to oversee the installation and maintenance of machinery. Students will also develop knowledge of engineering processes and principles, project management, quality systems, and team building. TAFE Queensland's supportive, industry experienced teachers will give students all the support needed for success. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Engineering associate, mechanical engineering technician.

Advanced Diploma of Engineering Technology - Electrical

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
597952 Eagle Farm	2C	✱ unadjusted	✱ adjusted	Jan 2024	11 Jan 2024

Course outline: Take control of your career with this high-level course and develop the highly specialised skills and knowledge required to become an electrical engineering technician. In this course students will develop the expert skills needed to design and validate electrical equipment and systems. Students will be able to work in areas including electrical design, project management, process control, variable speed drives and programmable logic controllers. TAFE Queensland's industry experienced teachers will provide students with all the support needed to succeed. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Electronic engineering draftsperson, electronic engineering technician.

Associate Degree in Civil Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555948 South Bank	2C	✦ unadjusted	✦ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024
555037 South Bank	4C	✦ unadjusted	✦ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Successful applicants who do not have the assumed knowledge and are at risk of non-completion of the program may be required to undertake bridging studies prior to or during first semester. For more information about admission criteria, refer to the TAFE Queensland website.

Course outline: This course allows graduates to progress their career as an engineering professional and become a technical consultant or engineering associate in a range of industries. In this associate degree, students develop skills in the application of civil and structural engineering technology. Students develop specialised knowledge of drafting and modelling structural, municipal and environmental engineering, project management and estimating skills. Teaching staff ensure students can synthesise elements of their theoretical and practical understanding through designing and implementing an engineering project to standards applicable to a modern civil or structural engineering practice. Successful completion of this course will qualify graduates to work on infrastructure projects as a civil or structural engineering associate or technical consultant in a variety of industries including engineering, construction, mining and transportation companies, or local and state government agencies. **Note:** FEE-HELP may be available to eligible applicants, refer to tafeqld.edu.au/courses for information.

Career opportunities: BIM coordinator/collaborator, engineering associate, estimator, design drafter, project manager, civil/structural designer and modeller.

Diploma of Aviation (Commercial Pilot Licence - Aeroplane)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
503004 Townsville (Bohle)	3/4C	✚ unadjusted	✚ adjusted	Nov 2023, Jan, May, & Jul 2024	5 Oct 2023, 11 Jan, 24 Apr & 20 Jun 2024
503008 Townsville (Bohle)	3/4C	✚ unadjusted	✚ adjusted	Sep 2023 Apr 2024	24 Aug 2023 15 Mar 2024

Prerequisites: CASA requirements ⁎. **Additional entry information:** Commercial or military pilot entrants to this qualification should check requirements with Civil Aviation Safety Authority (CASA) or Defence Aviation for specific pilot entry standards. To be eligible for an offer in this course applicants must supply documentary evidence of the following to TAFE Queensland, Townsville (Bohle) by the nominated date: current Aviation Security Identification Card (ASIC) for flight crew by the students first census date, an Aviation Reference Number (ARN), current Aviation Class 1 Medical Certificate carried out by a Designated Aviation Medical Examiner (DAME) by the students first census date and be able to demonstrate English language proficiency with Townsville Flight Training to meet the minimum requirements set by CASA. TAFE Queensland will contact applicants directly regarding document submission. Participants must be a minimum of 18 years of age prior to the completion of this qualification.

Course outline: TAFE Queensland, in partnership with Townsville Flight Training, will give students the skills and experience needed to take your career to new heights. Successful completion of this course will allow graduates to take to the skies as a commercial aeroplane pilot. In this course students will learn how to perform normal and emergency commercial pilot duties including passenger, charter and cargo operations. As a commercial aeroplane pilot graduates will discover a variety of options to hone their skills and open up a range of career opportunities including rural operations, joy-flights, air transport charter operations, and search and rescue. Successful completion of this course will provide graduates with the knowledge and practical skills required to embark upon an exciting career as a commercial aeroplane pilot. **Note:** VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses for information.

Career opportunities: Commercial aeroplane pilot, aviation manager.

Diploma of Aviation (Commercial Pilot Licence - Helicopter)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
503009 Townsville (Bohle)	1/2C	✚ unadjusted	✚ adjusted	Nov 2023, Jan, May & Jul 2024	5 Oct 2023, 11 Jan, 24 Apr, & 20 Jun 2024, ✧
503357 Townsville (Bohle)	1/2C	✚ unadjusted	✚ adjusted	Sep 2023 Apr 2024	24 Aug 2023 15 Mar 2024

Prerequisites: CASA requirements ⁎. **Additional entry information:** Commercial or military pilot entrants to this qualification should check requirements with Civil Aviation Safety Authority (CASA) or Defence Aviation for specific pilot entry standards. To be eligible for an offer in this course applicants must supply documentary evidence of the following to TAFE Queensland, Townsville (Bohle) by the nominated date: current Aviation Security Identification Card (ASIC) for flight crew, an Aviation Reference Number (ARN), current Aviation Class 1 Medical Certificate carried out by a Designated Aviation Medical Examiner (DAME), be able to demonstrate English language proficiency with Townsville Helicopters to meet the minimum requirements set by CASA and hold or be eligible to hold an Aeronautical Radio Operator Certificate. TAFE Queensland will contact applicants directly regarding document requirements and submission. Participants must be a minimum of 18 years of age prior to the completion of this qualification.

Course outline: This course will provide students with the specialised knowledge and skills required to work as a commercial helicopter pilot. As a qualified pilot graduates can find themselves working in a range of different areas. Graduates may pilot scenic flights in the tourism industry, work in rural operations mustering livestock, conduct transport charter operations, or work with State Police or the Australian Maritime Safety Authority (AMSA) operating search and rescue missions. TAFE Queensland has partnered with leading aviation training provider Townsville Helicopters to deliver this course. The course provides all the theoretical and practical skills required to be issued with a Civil Aviation Safety Authority (CASA) licence to operate as a commercial pilot. Students learn about aerodynamics, meteorology, navigation, radio communications, and operating in controlled and non-controlled airspace. Students will also get to execute advanced helicopter manoeuvres and learn how to implement threat management strategies. Applicants to this course will have the option of choosing R22, R22-R44, R22 Turbine. **Note:** VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses for information.

Career opportunities: Commercial helicopter pilot.

Diploma of Aviation (Instrument Rating)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

503366 Townsville (Bohle)	1/4C	✚ unadjusted	✚ adjusted	Sep 2023 Apr 2024	24 Aug 2023, 15 Mar 2024

Prerequisites: Applicant must be 18; CASA requirements. **Additional entry information:** Commercial or military pilot entrants to this qualification should check requirements with Civil Aviation Safety Authority (CASA) or Defence Aviation for certification and/or flight hour requirements. To be eligible for an offer in this course applicants must supply documentary evidence of the following to TAFE Queensland, Townsville (Bohle) by the nominated date: current Aviation Security Identification Card (ASIC) for flight crew, an Aviation Reference Number (ARN), current Aviation Class 1 Medical Certificate carried out by a Designated Aviation Medical Examiner (DAME), be able to demonstrate English language proficiency with Townsville Flight Training to meet the minimum requirements set by CASA, hold a Civil Aviation Safety Regulations (CASR) part 61 Flight Crew Licence - Commercial Pilot Licence - Aeroplane and show evidence of a Single engine class rating. TAFE Queensland will contact applicants directly regarding document submission.

Course outline: This course is designed for experienced commercial aeroplane pilots looking to enhance their skills and knowledge and earn their instrumentation and multi-engine class ratings. TAFE Queensland has partnered with Townsville Flight Training to provide students with technical and non-technical skills to fly a multi-engine aircraft under instrument flight rules. In this course students will learn how to plan and navigate a flight under instrument flight rules, perform published and non-published instrument departure procedures, operate aircraft using aircraft flight instruments, and perform instrument arrival and standard arrival route procedures. This course will allow graduates to advance their existing aviation skills and enable the graduate to earn their Civil Aviation Safety Authority (CASA) instrumentation and multi engine class ratings. Completion of this course will open up a range of career options as a commercial aeroplane pilot working in border surveillance, emergency services, airlines, or corporate charters. Applicants to this course will have the option of choosing Job Ready, Performance or High Performance. **Note:** VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses for information.

Career opportunities: Commercial pilot flight instructor, commercial pilot - aeroplane, aviation manager.

Diploma of Electronics and Communications Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
597293 Eagle Farm	1 1/2C	✱ unadjusted	✱ adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Progress your career in electronics and communications with this diploma level course and develop the advanced skills and knowledge to become a technical officer. In this course students will develop extensive skills in configuring computer networks as well as programming and fault-finding micro-controller equipped devices. Learn about electronic engineering redesign, commissioning electronic systems, risk assessment, and technical documentation. Students will also gain soldering, cabling and termination skills. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Technical officer - electronics and communications engineering.

Diploma of Engineering - Technical

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
596941 Acacia Ridge	1C	✱ unadjusted	✱ adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This course covers a comprehensive theoretical and semi-technical base for working in the mechanical, mechatronic, manufacturing and maintenance fields at a para-professional level. Students will advance their skills in mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies. This course emphasises the transfer of theoretical concepts to practical real-world applications. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Engineering technician, engineering technologist, mechanical engineering technician.

Undergraduate Certificate in Civil Engineering Fundamentals

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555949 South Bank	1/2C	✦ unadjusted	✦ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** If you have not passed General Mathematics or its equivalent, it is strongly recommended that you complete a 20 hour intensive Maths Workshop with TAFE Queensland prior to the commencement of this course. For more information refer to the TAFE Queensland website.

Course outline: This course will provide students with an understanding of the fundamentals of civil engineering and prepare graduates for entry into the Associate Degree of Civil Engineering (HED001). In this course students receive an introduction to engineering mathematics, 2D CAD modelling, as well as civil design and drafting. Students will learn how to use mathematical operations to solve engineering problems, develop an understanding of one of the most commonly used drafting packages in the civil design industry, and be introduced to the fundamental elements of a broad range of engineering disciplines including civil, structural, mechanical, electrical and hydraulic. **Note:** For fee information refer to tafeqld.edu.au/courses for more information.

Career opportunities: Entry level draftsperson.

THE UNIVERSITY OF QUEENSLAND

THE UNIVERSITY OF QUEENSLAND AUSTRALIA

Bachelor of Business Management/Bachelor of Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
709511 St Lucia	4F or 8P	82.65 unadjusted	84.65 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: In this dual degree students learn to challenge conventional thinking and bring a different mindset to business and societal problems. The business management component is designed to equip students with the skills needed for a future in business. Students study topics including entrepreneurship, human resources, marketing, management and business technologies. Business knowledge is complemented by specialist capabilities in problem identification, critical thinking and designing for purpose through the design component. Students explore design through practical studio-based projects, working in teams to collaborate, challenge assumptions, prototype innovative and sustainable solutions, and systematically solve problems in creative and novel ways. Join a new breed of business professionals who possess the expertise and creativity to respond to the complex needs of a contemporary world. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Business Management and Bachelor of Design.

Career opportunities: Refer to Bachelor of Business Management and Bachelor of Design.

Bachelor of Computer Science/Bachelor of Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
709105 St Lucia	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: In this dual degree students gain a strong foundation in economics principles, theories and tools, along with the in-depth knowledge of a computer science degree. The computer science component combines the theoretical studies of algorithms and data structures with the practical challenges of implementing them in hardware and software systems. Graduates with the skills and knowledge from a degree in computer science are sought after across the breadth and depth of the computing industry, where there is an on-going shortage of people who can participate in shaping the future of the society. In the economics component, students study human behaviour related to the production, distribution and consumption of goods and services, by means of markets, businesses or other institutions. The conceptual and data analytical toolkits gained from the economics degree will open vast career opportunities in both the public and private sectors. For more information, visit study.uq.edu.au. **Majors:** Refer to the Bachelor of Computer Science and Bachelor of Economics.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Economics.

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717001 St Lucia	4F or 8P	79.55 unadjusted	84.10 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: The Bachelor of Engineering (Honours) prepares students for a career addressing some of the key challenges of the 21st century, such as water resourcing, infrastructure and communication, food and health services supply, and sustainable energy development. We've crafted a new curriculum with industry experiences throughout the degree and more study options for greater career opportunities, so students are prepared for the jobs of the future. For more information, visit study.uq.edu.au. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering; software engineering. Majors: aerospace engineering; biomedical engineering; bioprocess engineering; computer engineering; environmental engineering; geotechnical engineering; materials engineering; mining engineering; metallurgical engineering; structural engineering; transport engineering; water and marine engineering. Minors: computing, data science, design

Career opportunities: Graduates work as engineers and consultants in government, business and industry within Australia and overseas.

Bachelor of Engineering (Honours)/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717401 St Lucia	5½F or 11P	87.15 unadjusted	87.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree combines studies in engineering with a wide range of arts majors. In the engineering component, students develop their understanding by applying science and engineering principles to engineering problems of commercial importance. This course emphasises essential workplace skills such as communication, teamwork, project management, problem-solving and lifelong learning. The arts component provides skills in written communication, problem-solving, critical thinking and interpersonal understanding that expand students employment opportunities. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Refer to the Bachelor of Engineering (Honours) and the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Arts.

Bachelor of Engineering (Honours)/Bachelor of Biotechnology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717501 St Lucia	5F or 10P	85.15 unadjusted	85.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree combines the practical and theoretical requirements for a professional engineering qualification with the innovation and commercialisation aspects of the biotechnology industry. Through the biotechnology component students deepen their understanding of the key issues within biotechnology such as intellectual property, regulatory compliance, quality assurance and quality control, and learn how to assess the market potential and financial viability of new products or technical services such as vaccines, diagnostics, biopharmaceutical drugs, transgenic plants or innovations in stem cell therapy. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Engineering (Hons): chemical engineering. Biotechnology: agricultural biotechnology, chemical and nano biotechnology, medical biotechnology, molecular and and microbial biotechnology, synthetic biology and industrial biotechnology

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Biotechnology.

Bachelor of Engineering (Honours)/Bachelor of Business Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717301 St Lucia	5½F or 11P	82.40 unadjusted	85.35 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: In this dual degree students develop a high level of proficiency in their chosen engineering discipline and the skills to be successful in a business or entrepreneurial setting. The engineering component develops specialised skills and knowledge to deliver practical solutions to some of society's most complex problems. In the business management component students study topics including innovation and entrepreneurship, economics, marketing, business information systems, strategy and management, and open up pathways to use their engineering prowess in a broad range of business applications. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Engineering (Hons) Specialisations: chemical engineering; civil engineering; electrical engineering; mechanical engineering; mechatronic engineering; software engineering. Business management: Refer to Bachelor of Business Management.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Business Management.

Bachelor of Engineering (Honours)/Bachelor of Commerce

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717201 St Lucia	5½F or 11P	81.30 unadjusted	84.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: In this dual degree students combine exceptional financial acumen and commerce expertise with specific practical and theoretical understanding in engineering, and graduate with a valued skill set that will place them in high demand with employers. In the engineering component, students develop technical skills through a core specialisation, which will form the basis of their career. Commerce studies equip students with the fundamental principles of commerce and the business environment. Students complete a range of compulsory courses that cover concepts relevant across the financial services sector, including topics such as accounting, information systems, economics, business law and management. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Engineering (Hons) Specialisations: chemical engineering; civil engineering; electrical engineering; mechanical engineering; mechatronic engineering; software engineering. Commerce: Refer to Bachelor of Commerce.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Commerce.

Bachelor of Engineering (Honours)/Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717721 St Lucia	5½F or 11P	84.90 unadjusted	85.90 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree allows students to combine studies in engineering with emerging computer science technologies. Students develop the strong analytical, logical and development skills necessary to advance computing and its applications, alongside specialised engineering knowledge to meet the needs of the high-tech industries of the future. The computer science program combines theoretical studies of algorithms and data structures with the practical challenges of implementing them in hardware and software systems. Through the engineering program, students benefit from hands-on experiences across all aspects of engineering and more study options for greater career opportunities. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Computer Science. Software Engineering is not available in the Bachelor of Engineering (Honours)/Bachelor of Computer Science dual program.

Career opportunities: Refer to the Bachelor of Engineering (Honours) and the Bachelor of Computer Science.

Bachelor of Engineering (Honours)/Bachelor of Design

Course outline: Prepare to meet tomorrow challenges in new and novel ways combining engineering skills with design thinking in this unique dual program. Through the Bachelor of Design, students learn to challenge conventional thinking and bring a different mindset to problems. With a focus on solutions-based thinking, students practical skills in hands-on studio-based courses to expand their career options. Complement design studies with technical knowledge through the Bachelor of Engineering (Honours), where students will benefit from hands-on experiences across all aspects of engineering, more study options for greater career opportunities, and direct contact with industry. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake

preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Engineering (Hons) Specialisations: chemical engineering; civil engineering; electrical engineering; mechanical engineering; mechatronic engineering; software engineering. Design: Refer to Bachelor of Design.

Career opportunities: Refer to entries for Bachelor of Engineering (Honours) and Bachelor of Design.

Bachelor of Engineering (Honours)/Bachelor of Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717601 St Lucia	5½F or 11P	87.50 unadjusted	87.50 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree equips students with expertise in economics to enhance their engineering abilities, providing them with skills in investment decision-making and managing complex environmental and social priorities. In the economics component students undertake a variety of courses that will build knowledge about key economic principles, theories and tools, as they learn how to question, analyse, model and predict human behaviour. Combined with specialised engineering skills and knowledge, the unique skillset developed will unlock career opportunities across a broad array of industries and organisations. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Engineering (Hons) Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering; software engineering. Economics: Refer to Bachelor of Economics.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Economics.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717701 St Lucia	5½F or 11P	84.35 unadjusted	86.35 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree combines the practical and theoretical requirements of a professional engineering qualification with the skills to effectively manage a wide range of business and technology environments. Topics covered include accounting, economics, law, marketing, business and strategy. Students will learn about software engineering, design, mathematics, information systems and more. Through the information technology component, students benefit from a hands-on, project-focused program, based on international standards for computer science and information systems. Students are prepared for a career where they'll be able to apply technical skills to solve problems, support innovation and improve communication between people. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Engineering (Hons) Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering. Information technology: Refer to Bachelor of Information Technology.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Information Technology.

Bachelor of Engineering (Honours)/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717901 St Lucia	5F or 10P	89.95 unadjusted	92.20 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: Combine an interest in mathematics with an accredited qualification in engineering. This dual degree provides students with the skills to apply advanced mathematics to engineering fields. They graduate with technical engineering expertise as well as essential workplace skills in communication, teamwork, project management, and problem-solving. Studying the mathematics program in parallel will boost students' engineering expertise and also open pathways to further higher study, such as honours in mathematics. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Refer to Bachelor of Engineering (Hons) and Bachelor of Mathematics.

Career opportunities: Professional engineer; business analyst; business risk and governance consultant; statistician; quantitative analyst; research scientist; clinical data manager.

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717101 St Lucia	5F or 10P	82.00 unadjusted	84.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree combines engineering at an honours level with complementary areas of science, to gain interdisciplinary skills and create career choices across multiple sectors. Students select from an array of science majors that will teach them how to work independently, perform critical experiments, analyse data and communicate results. In the engineering component students develop their technical skills through a core specialisation and have the option to complement the specialisation with a major or minor in one of the new and emerging areas of engineering. Students graduate with highly developed knowledge in a specialist area, superior technical abilities, and advanced independent thinking and communication skills. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation. **Majors:** Refer to Bachelor of Engineering (Hons) and Bachelor of Science.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Science.

Bachelor of Engineering (Honours)/Master of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
717111 St Lucia	5F or 10P	92.55 unadjusted	97.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: In the Bachelor of Engineering (Honours) and Master of Engineering degree, students are challenged to push the boundaries of the discipline while developing high-level skills in critical and analytical thinking, research design and project management. Students graduate fully prepared for the workforce through this specialised undergraduate and postgraduate program. Students undertake a full-time placement with an industry or research institution, either in Australia or overseas, and complete advanced coursework and project work in the final year of the degree. Students may also undertake a supervised master's thesis on a relevant topic and be involved with all aspects of research, including defining a research question, establishing a methodology and reporting on findings. This integrated program provides a professional engineering qualifications to set graduates apart in the job market, and provides a pathway to future research or learning. For more information, visit study.uq.edu.au. **Other requirements:** Students complete 450 hours of engineering professional practice prior to graduation. Some or all of this may be satisfied by the placement semester. **Majors:** Chemical engineering; chemical and biomedical engineering; chemical and bioprocess engineering; chemical and environmental engineering; chemical and materials engineering; chemical and metallurgical engineering; civil engineering; civil and environmental engineering; electrical engineering; electrical and biomedical engineering; electrical and computer engineering; mechanical engineering; mechanical and aerospace engineering; mechanical and materials engineering; mechatronic engineering; software engineering.

Career opportunities: Graduates are often employed as leaders on issues like climate change, diminishing supplies of water, mineral resources, poverty and disease. Others extend their research ambitions and enrol in a Master of Philosophy or PhD program, where they make significant discoveries and contribute to knowledge.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Engineering (Civil) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013731 Sunshine Coast	4F or 8P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014731 Moreton Bay	4F or 8P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Design and build the future. Civil engineers plan, design, build and maintain the infrastructure we rely on as a civilisation including buildings, roads, and water systems. This program develops practical skills in engineering design, project management and sustainability, qualifying you to work as a civil engineer in Australia and overseas. In this program you will learn to use mathematical and scientific principles to solve a range of technical problems and get hands-on experience through 12 weeks of work experience. You can choose from a wide range of minors including climate change and coastal zone studies, management for engineers, mechatronic engineering and electrical and electronic engineering. You'll complete a major final-year research project on a topic of your choice and recreate interactive real-life scenarios in UniSC's state-of-the-art visualisation studio and dedicated engineering laboratories. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information regarding Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Government agencies, construction companies, engineering consultancies, building industry, water supply authorities, mining industry, research organisations.

Bachelor of Engineering (Civil) (Honours)/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013751 Sunshine Coast	5F or 10P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014751 Moreton Bay	5F or 10P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Manage human interaction with the environment. Gain a broad foundation in civil engineering and environmental sciences, and learn how to design systems that anticipate and manage the way humans interact with the environment. During the program, you'll build expertise in areas including environmental management, planning and restoration, managed ecosystems and marine science. In this program you will learn about the creative nature of engineering and develop skills in problem-solving, teamwork and communication. You'll gain technical, business management and scientific environmental knowledge and graduate with the scientific skills needed to make judgements on the conservation and use of Australia's natural ecosystems and resources. You will also complete more than 60 days of work experience. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information regarding Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Government agencies, construction companies, engineering and environmental consultancies, mining industry, research, parks and wildlife, resource management.

Bachelor of Engineering (Electrical and Electronic) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
014711 Moreton Bay	4F or 8P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Harness the power of a changing world. Electrical and electronic engineers play a role in almost every aspect of modern life, from smartphones to energy systems powering cities. Learn to design, develop and maintain systems of all shapes and sizes. In this program you will study fundamentals of engineering, including applied maths, physics, statics and systems design and develop in-depth skills in electrical and electronic engineering theory, standards and practice. You'll complete specialist courses in circuit design and analysis, electrical power systems (including renewable energy), robotics and automation, computer programming and more. You'll understand social, economic and environmental dimensions of engineering, and the importance of sustainable development as you develop advanced problem solving, communication and project management skills. **Note:** Not all minors are available from Moreton Bay campus. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information regarding Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Working in automation, automotive, aviation, data communications, design, manufacture, testing and maintenance of electrical and electrical systems, domestic appliances.

Bachelor of Engineering (Mechanical) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013741 Sunshine Coast	4F or 8P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014741 Moreton Bay	4F or 8P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Make things happen. Mechanical engineers design, build and maintain complex machines and mechanical systems from the very small to the very large scale. Learn the finer points of engineering and machine design, fluid mechanics, and production engineering which will enable you to make systems and machinery for diverse industries from transport to medical devices. In this program you will study fundamentals of engineering, including applied maths, physics, statics, and systems design and develop in-depth skills in electrical and electronic engineering theory, standards, and practice. You will also complete specialist courses in circuit design and analysis, electrical power systems (including renewable energy), robotics and automation, computer programming and more. **Note:** Not all minors are available from Moreton Bay campus. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information regarding Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Mining, chemical processing, pharmaceutical, manufacturing, oil and gas, automotive, aviation, electrical power, transport, defence, agriculture.

Bachelor of Engineering (Mechatronic) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
014721 Moreton Bay	4F or 8P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Help engineer the future. Forget about robots coming to take your job instead, make it your job to design the robots and automated systems of the future! Mechatronics is an exciting field that combines the best of mechanical, electrical and electronic and computer engineering to create new technologies and constantly improve the systems around us. In this program you will study the fundamentals of engineering, including applied maths, physics, statistics and system design and learn about robotics and autonomous systems, communication engineering, digital logic and computer programming, machine vision and more. You can choose the area you want to specialise in, including electrical and electronic or mechanical engineering, management or entrepreneurship. **Note:** Not all minors are available from Moreton Bay campus. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information regarding Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Automation, robotics, automotive, manufacturing, food processing industries, power generation, agriculture, pharmaceutical companies, aerospace, mining, defence.

Undergraduate Certificate in Engineering Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013710 Sunshine Coast	1/2F or 1P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014710 Moreton Bay	1/2F or 1P	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: We live in a world of technological change, driven by increasing demands for better, more efficient, sustainable products. Engineering is at the forefront of this change, providing the knowledge, technology and skills to meet the requirements of the community. In this program you will learn the fundamentals of engineering and machine design as well as the basics of mechatronics and electrical engineering. You'll receive up to 48 units of credit towards the Bachelor of Engineering (Civil) (Honours), Bachelor of Engineering (Electrical and Electronic) (Honours), Bachelor of Engineering (Mechanical)

(Honours), or Bachelor of Engineering (Mechatronic) (Honours), upon successful completion of the program. **Note:** On successful completion of the Undergraduate Certificate in Engineering Design, and subject to meeting all other entry criteria, you may receive up to 48 units of credit towards one of UniSC - University of the Sunshine Coast's four Bachelor of Engineering programs: Bachelor of Engineering (Mechanical) (Honours), Bachelor of Engineering (Civil) (Honours), Bachelor of Engineering (Mechatronic) (Honours), or Bachelor of Engineering (Electrical and Electronic)(Honours). **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information regarding Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Subject to completion of one of the four- year Bachelor of Engineering (Honours) programs career opportunities exist in: Government agencies, Engineering consultancies, Research organisations; Mining industry; Chemical processing; Construction; Manufacturing; Oil and gas; Automotive; Aviation; Transport; Defence; Agriculture.

UNIVERSITY OF SOUTHERN QUEENSLAND

University of Southern Queensland

Associate Degree of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
907051 Toowoomba	2F or 4P	68.00 unadjusted	73.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024
927051 Springfield	2F or 4P	62.25 unadjusted	67.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024
907055 External	2F or 4P	67.00 unadjusted	67.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: ⁎. **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: Students gain industry-driven knowledge and the skills to apply practical analysis and technical principles to their chosen specialisation. This program prepares students for employment as associate engineers or can be used as a pathway to a bachelor's degree. This program expands students' knowledge in a range of technologies and equipment to assist in the design, management and construction of engineering projects. Students develop the basic problem-solving skills that can be applied to engineering problems, while gaining an understanding of the principles of sustainability. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Other requirements:** All students must complete 30 days of work experience in an engineering workplace. **Majors:** Toowoomba: agricultural engineering; civil engineering; electrical and electronic engineering; mechanical engineering; mining engineering. External: agricultural engineering; civil engineering; electrical and electronic engineering; instrumental control and automation engineering; mechanical engineering; mining engineering. Springfield: civil engineering; electrical and electronic engineering; mechanical engineering.

Career opportunities: Depending on specialisation: with engineering consultants, government agencies, companies associated with mining, resources, farming, agricultural products, construction, research and development, manufacturing, processing, materials testing.

Associate Degree of Spatial Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
907061 Toowoomba	2F or 4P	✦ unadjusted	✦ adjusted	Jan 2024 May 2024	11 Jan 2024 6 Jun 2024
927061 Springfield	2F or 4P	63.25 unadjusted	64.50 adjusted	Jan 2024 May 2024	11 Jan 2024 6 Jun 2024
907065 External	2F or 4P	62.20 unadjusted	66.00 adjusted	Jan 2024 May 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: This program arms students with the technical and analytical skills for a career in one of Australia's high demanding and most rapidly changing industries. Students acquire knowledge of innovative technologies including robotic total stations, drones satellite imagery and laser measurement systems. Students develop critical insights into spatial science through study of surveying, mapping, engineering systems, land development, town planning, environmental management, land law, and sustainable development. **Note:** Students are required to undertake practical and professional activities relevant to their program through enrolment in a series of Practice courses in the program. External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Other requirements:** Attendance at field excursions and practice courses in the form of residential schools is compulsory. **Majors:** Toowoomba and external: geographic information systems (GIS); surveying; urban and regional planning. Springfield: surveying.

Career opportunities: Land and property development, mining, engineering surveying, land surveying, geographic information systems (GIS), drone photogrammetry, town planning, mapping.

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
907331 Toowoomba	4F or 8P	73.85 unadjusted	75.85 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

907335 External	4F or 8P	76.00 unadjusted	76.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: This program helps students to develop the skills, knowledge and experience of an engineer to enable them to deliver practical solutions to real-world problems. Students can apply their knowledge through practical experience in engineering. Students have the choice of a range of specialties in addition to acquiring skills in problem-solving, analysis, design, construction and management. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Other requirements:** Students must complete 60 days of work experience in an engineering workplace. **Majors:** External: agricultural engineering; civil engineering; computer systems engineering; electrical and electronic engineering; environmental engineering; instrumentation control and automation engineering; mechanical engineering; mechatronic engineering; power engineering. Toowoomba: agricultural engineering; civil engineering; computer systems engineering; electrical and electronic engineering; environmental engineering; mechanical engineering; mechatronic engineering; power engineering. Springfield: civil engineering; electrical and electronic engineering; mechanical engineering; mechatronic engineering.

Career opportunities: Depending on major: professional engineering (civil), agricultural hydrology, soil conservation, machinery manufacture, environmental management, urban development, computer hardware design, networking, communications, food processing, power stations, telecommunications, manufacturing industries, transport industries, robotics, port authorities.

Bachelor of Engineering Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
907901 Toowoomba	3F or 6P	56.65 unadjusted	66.65 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115941 Brisbane	3F or 6P	53.80 unadjusted	58.80 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: The Bachelor of Biomedical Science will prepare graduates with an understanding of the cause, nature, progression, consequences, and diagnosis of disease, and will explore research aimed at disease prevention and treatment. Students will gain hands-on laboratory experience in anatomy, biochemistry, cell biology, chemistry, genetics, immunology and microbiology whilst developing a thorough understanding of the natural sciences from biology/physiology through to clinical medicine. Students can choose from a major in physiological pharmacology or minor in pharmacology. Students will gain entry level skills in data management and analysis. In the age of big data graduates with the ability to make sense of large data sets, to find and present patterns to others in an intelligible way, will be highly sought after in a range of industries. **Other requirements:** Students must undertake one unit of workplace learning with an external organisation of their choice, and one unit focusing on community engagement. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply. **Majors:** Physiological pharmacology.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal research and quality assurance, science communication, research in universities, hospitals or the public health sector.

Combined degrees: Refer to entry for: B Biomedical Science/B Business Administration, and B Biomedical Science/B Laws.

Bachelor of Biomedical Science/Bachelor of Business Administration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115961 Brisbane	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: The Bachelor of Biomedical Science/Bachelor of Business Administration double degree is ideal for students who are interested in learning about both science and the commercialisation of science, and wish to work as part of a multi-disciplinary team in this space. The Bachelor of Biomedical Science program enables students to develop an understanding of the natural sciences from biology/physiology to clinical medicine by learning how the human body functions, what causes disease and how disease is treated. The addition of the Bachelor of Business Administration provides students with the skills and ability to apply commercial knowledge and understanding - including accounting, finance, marketing and business law - to a science/research environment, with only one additional year of study. Students will develop broad knowledge, yet specific skills, for a strong foundation to work in an environment where business and health connect. **Other requirements:** Students must undertake one unit of workplace learning with an external organisation of their choice. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal, research and quality assurance working in hospitals, universities or the public health sector.

Bachelor of Exercise and Sports Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115711 Brisbane	3F or 6P	59.30 unadjusted	65.85 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Exercise and Sports Science provides students with the skills and knowledge to improve the health, performance and participation of individuals, teams and athletes. Within this course students will be exposed to the principles and evidence-based research of human movement, and learn how to apply this to both the improvement of sports performance, and within the broader community in the healthcare system. Meeting the professional membership requirements of ESSA, this program provides graduates with a thorough grounding in the scientific bases of exercise and of key principles, concepts and theories related to exercise for health and sports performance. Graduates will gain skills such as leadership, advanced problem-solving, technical proficiency, the capacity to communicate effectively, an ability to be reflective and ethical in their practice, underpinned by justice, equity and respect for the individual. Opportunities for industry-relevant experience are embedded in the course through community engagement and practicum. **Note:** This course is fully accredited by Exercise and Sports Science Australia (ESSA) for graduates of the program from 2019 to 2023.The course is undergoing scheduled re-accreditation for 2024 onwards. **Other requirements:** Students undertake 140 hours of professional experience. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Exercise scientist, sports scientist, sports coach, exercise physiologist, health and fitness consultant.

Combined degrees: Refer to entries for: B Education (Secondary)/B Exercise Science; B Exercise Science/B Business Administration.

Bachelor of Exercise Science/Bachelor of Business Administration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115921 Brisbane	4F or 8P	54.25 unadjusted	62.25 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Exercise Science/Bachelor of Business Administration double degree is ideal for the student interested in the role of exercise in health, wellbeing and performance, and who would also like to gain business knowledge to start or grow a business in the future. Within the Bachelor of Exercise Science students will gain extensive knowledge of how the human body works, with a specific focus on the role of exercise in health, wellbeing and performance. The addition of the Bachelor of Business Administration provides students with commercial knowledge and understanding - including accounting, finance, marketing and business law - with only one additional year of study. **Other requirements:** Students must complete a structured community engagement experience as a volunteer in a not-for-profit organisation. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Corporate health and fitness, family and community services, health and fitness industry, government agencies, state sporting associations, rehabilitation clinics, personal training.

Bachelor of High Performance Sport

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115981 Brisbane	$2^{1/2}$F or 3F or 6P	59.10 unadjusted	59.65 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of High Performance Sport provides an extensive knowledge and skills base relevant to human performance from the physiological, psychological, bio-mechanical and nutritional perspectives. Students will gain the skills to optimize sports performance through analysis, exercise programming, and the strength and conditioning of athletes. Students will also learn to design and deliver programs to enhance athletic performance and reduce the likelihood of injury and illness. **Note:** This course has full accreditation with Exercise and Sports Science Australia (ESSA) on the Exercise Science' level from 2021 2025. **Other requirements:** Students must complete 200 hours of appropriate professional experience as part of course accreditation requirements. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Sport and recreation departments, high performance sport organisations, corporate fitness, strength and conditioning coach, sports or rehabilitation scientist/coach.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115512 Brisbane	3F or 6P	71.35 unadjusted	82.70 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Midwifery prepares students for registration as an entry-level midwife and work in maternity settings such as hospitals, birth centres, and other community agencies. Students will acquire the skills and knowledge to manage normal pregnancy and childbirth and provide effective postnatal maternal and newborn care in any maternity setting. They will learn how to provide safe and reliable care that meets the individual psychological, emotional, physical, social and spiritual needs of women and their families. Students will undertake a variety of clinical units throughout the course in maternity hospitals and community facilities. Graduates can apply for registration with the Australian Health Practitioner Regulation Agency (Ahpra). **Note:** This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). **Other requirements:** Students undertake approximately 1000 hours of professional experience. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Midwife, consultant midwife, clinical specialist, prenatal educator, researcher, family care unit or child health centre professional.

Bachelor of Midwifery (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115111 Brisbane	2F or 4P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: Employment requirements; Previous registered nurse qualification; Prior study. **Additional entry information:** Students must hold a Bachelor of Nursing, with a GPA equivalent to an ACU GPA of at least 4.0, and be a registered nurse with the Australian Health Practitioner Regulation Agency with a minimum of one year of post-registration clinical practice; or hold a Bachelor of Paramedicine, with a GPA equivalent to an ACU GPA of at least 4.0, and be a registered paramedic with a minimum of one year of field experience. To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Midwifery (Graduate Entry) provides the opportunity for bachelor-qualified, currently practising registered nurses and registered paramedics to qualify with a Bachelor of Midwifery. Students acquire the skills and knowledge to manage normal pregnancy and childbirth and provide effective postnatal, maternal and newborn care in any maternity setting. They will learn how to provide safe and reliable care that meets the individual psychological, emotional, physical, social and spiritual needs of women and their families. Students will undertake a variety of clinical units throughout the course in maternity hospitals and community facilities. Graduates can apply for registration with the Australian Health Practitioner Regulation Agency (Ahpra). **Note:** Full-time students have the opportunity to apply for a paid clinical placement with the Mater Mothers' Hospital. Interviews for these positions are held late January. Paid clinical placement positions are limited and are conditional on successful completion of an interview. Contact the ACU Course Administrator for more information. This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). **Other requirements:** A compulsory two-week intensive, scheduled for early February prior to commencement of semester 1 classes, is a curriculum requirement for this course. Students must attend the full two weeks of the intensive. For this reason, no offers will be made after the main offer round in January 2024. Students undertake approximately 1000 hours of professional experience. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Midwife, consultant midwife, clinical specialist, prenatal educator, researcher, family care unit or child health centre professional.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115412 Brisbane	3F or 6P	53.80 unadjusted	61.95 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Nursing develops caring professional nurses who are proactive and adaptable, competent and ethical clinicians, and creative and critical thinkers. Across the course, theory is consistently embedded in clinical practice through the inclusion of one Integrating Practice unit every semester. Students will undertake clinical placements in a variety of areas including aged care, community nursing, high dependency nursing, medical/surgical nursing, mental health, paediatrics, palliative care, and perioperative nursing. Students may also choose to engage with communities overseas and gain unique educational and cultural experiences working in care facilities in developing countries. **Note:** This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). **Other requirements:** Students undertake at least 800 hours of professional experience. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Registered nurse in a range of private, public and community environments.

Combined degrees: Refer to entries for: B Nursing/B Business Administration; B Nursing/B Paramedicine.

Bachelor of Nursing (for Enrolled Nurses - Diploma of Nursing Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115431 Brisbane	2F or 4P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: Australian Health Practitioner Regulation Agency (Ahpra) registration; prior study. **Additional entry information:** To be eligible for admission to the course, an applicant must have completed an approved and accredited Diploma of Nursing (Enrolled Nursing) and hold current registration as an enrolled nurse with Ahpra. To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Nursing (Enrolled Nurses) develops caring professional nurses who are proactive and adaptable, competent and ethical clinicians, and creative and critical thinkers. Across the course, theory is consistently embedded in clinical practice through the inclusion of one Integrating Practice unit every semester. Students will undertake clinical placements in a variety of areas including aged care, community nursing, high dependency nursing, medical/surgical nursing, mental health, paediatrics, palliative care, and perioperative nursing. Students may also choose to engage with communities overseas and gain unique educational and cultural experiences working in care facilities in developing countries. Applicants who have completed an approved and accredited Diploma of Nursing (Enrolled – Division 2 Nursing) and hold current registration as an Enrolled Nurse with Ahpra can apply for this Bachelor of Nursing (Enrolled Nurses – Diploma of

Nursing Entry). Applicants with any other related qualification should apply for the Bachelor of Nursing and seek credit approval. **Note:** This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). **Other requirements:** Students undertake at least 720 hours of professional experience. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see the Australia Catholic University website.

Career opportunities: Registered nurse in a range of private, public and community environments.

Bachelor of Nursing/Bachelor of Business Administration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115312 Brisbane	4F or 8P	58.75 unadjusted	69.35 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Nursing/Bachelor of Business Administration double degree develops caring professional nurses able to meet the evolving business management expectations of our health services. Registered nurses are increasingly moving into management roles early in their careers and are expected to take leadership roles in multidisciplinary teams. In the wide range of practice settings, from hospitals to aged care, general practice, private practice and the community, health is increasingly seen as a business, and nurses are required to contribute to the success of that business through effective management of staff and financial resources. The addition of the Bachelor of Business Administration provides students with commercial knowledge and understanding - including accounting, finance, marketing and business law - with only one additional year of study. **Note:** This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). **Other requirements:** Students undertake at least 800 hours of professional experience in nursing. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Private, public and community nursing environments that require an understanding of business processes.

Bachelor of Nursing/Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115611 Brisbane	4F or 8P	83.15 unadjusted	93.15 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Nursing/Bachelor of Paramedicine double degree develops proactive and adaptable graduates who will be competent and ethical clinicians, creative and critical thinkers, independent lifelong learners, and professional nurses and paramedics. The course uses learner-centred approaches including situation-based learning to enhance students' experiences during the course as well as their readiness for the workplace to deliver compassionate primary, urgent and or emergency health care. As the course incorporates extensive clinical placements and innovative simulation activities, graduates will be well prepared to meet the health needs of the community in varied nursing and paramedicine settings. **Note:** This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). **Other requirements:** Students must take a medical and physical capacity test prior to commencing clinical placement with an Australian ambulance service. This is an ambulance service mandatory requirement. Students undertake five nursing clinical placements and five paramedicine clinical placements in a variety of healthcare environments. In addition, innovative simulation activities provide a rounded and robust learning experience to prepare for real-world clinical and professional challenges. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Registered nurse, paramedic, medical dispatcher, medical/surgical nurse, accident and emergency nurse. On graduation, and subsequent to an internship year with an ambulance service, students can become qualified/registered paramedics. They are also eligible for postgraduate training to become intensive/critical care paramedics.

Bachelor of Occupational Therapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115821 Brisbane	4F or 8P	82.30 unadjusted	90.10 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: Occupational therapists play an important role in the lives of individuals and communities to enable participation in occupations of self-care, productivity and leisure. Students in the Bachelor of Occupational Therapy will gain the skills and knowledge to enhance the ability of people with impairments to body structure or function, or who experience physical, emotional or social disability, to adapt to and cope with the demands, tasks and activities of their daily lives. Students will develop the ability to analyse and assess occupational performance, apply and evaluate interventions to enable occupational performance and collaborate and communicate effectively with clients, their families and colleagues. Up to 1000 hours of fieldwork and clinical placements are undertaken throughout the course. An embedded honours program is available from third year for high-achieving students. **Note:** This course is accredited by the Occupational Therapy Council of Australia. **Other requirements:** Students undertake approximately 1000 hours of professional experience across four years. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see the Australia Catholic University website.

Career opportunities: Public and private hospitals, community health centres, rehabilitation centres, private practice, nursing homes, aged-care facilities.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115461 Brisbane	3F or 6P	72.05 unadjusted	82.40 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: With paramedicine being one of the fastest evolving health professions, the Bachelor of Paramedicine aims to train paramedics for the future. By developing professional paramedics who are emotionally intelligent and motivated to improve communities, we provide the foundations for students to deliver compassionate primary, urgent and/or emergency health care in challenging and dynamic environments. Through authentic learning and diverse clinical experiences, students will develop critical thinking skills, robust health care assessment and analysis techniques and the ability to make ethically and culturally informed decisions preparing them for real-world clinical and professional challenges. **Other requirements:** Students must undertake a medical and physical capacity test prior to commencing clinical placement with an Australian ambulance service. This is an ambulance service mandatory requirement. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students undertake five clinical practice units in a variety of healthcare settings. Innovative simulation activities also prepare for real-world challenges. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Paramedic with an Australian ambulance service and in some international ambulance or health organisations. Graduates are also eligible for postgraduate training to become intensive/critical care paramedics.

Combined degrees: Refer to entry for: B Nursing/B Paramedicine.

Bachelor of Physiotherapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115811 Brisbane	4F	85.40 unadjusted	97.40 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** Applicants who have

undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: Physiotherapists work to prevent injury and disability and to rehabilitate those already injured; they work with people experiencing problems with their cardiorespiratory, musculoskeletal or neurological systems. The Bachelor of Physiotherapy will equip students with the necessary skills to optimise movement and function, helping people overcome movement disorders, either present at birth or associated with ageing or life-changing events. Students undertake clinical placements throughout the program, starting in year one. Fourth-year students undertake four to six placements of five weeks' duration, encompassing a range of clinical physiotherapy areas including musculoskeletal outpatients, neurology and cardiorespiratory plus a selection of specialised and/or elective areas. An embedded honours program is available from third year for high-achieving students. **Other requirements:** Students undertake at least 1000 hours of professional experience across four years. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Physiotherapist specialising in rehabilitation, paediatrics, women's health, sports physiotherapy, cardiorespiratory, orthopaedics, gerontology and ergonomics.

Bachelor of Speech Pathology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115631 Brisbane	4F	72.75 unadjusted	81.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: Speech pathologists are trained to assess and diagnose swallowing and communication difficulties, and to provide intervention and support for individuals who experience them to enable successful participation in life activities, including social interactions, education and employment. The Bachelor of Speech Pathology encompasses theory and practice, preparing students to identify causes of impairments to communication (i.e., speech, literacy, language, voice, fluency), feeding and swallowing and to determine the most effective, wholistic and person-centred approaches to management. This course is designed to expose students to speech pathology practice from the first year of the degree. An embedded honours program is available from third year for high-achieving students. **Note:** The course is currently accredited with Speech Pathology Australia in Brisbane, Melbourne, and North Sydney. Accreditation means that all graduates are eligible to apply for membership of Speech Pathology Australia. **Other requirements:** Students undertake approximately 750 hours of professional experience across four years. Before students can begin professional experience for this course, students should review the mandatory State or Territory legal and industry policy requirements. An overview of these requirements can be found at acu.edu.au/WILsearch. Students must meet the inherent requirements essential components of this course (capabilities, knowledge and skills) to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply.

Career opportunities: Public and private hospitals, acute care and outpatient facilities, schools, community health centres, early childhood clinics, private practice.

Diploma in Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115943 Brisbane	1F	46.10 unadjusted	50.60 adjusted	Feb 2024	11 Jan 2024

Course outline: The Diploma in Biomedical Science is an important stepping-stone toward achieving your career and study goals. You'll graduate with a formal standalone qualification plus gain credit for first year entry to the Bachelor of Biomedical Science and potentially other health science bachelor degree to transition straight into second year with credit. Undertaking the ACU Diploma in Biomedical Science will help you to develop the academic skills and university experience needed to succeed in more advanced tertiary study. Whether you have just finished Year 12 or finished years ago, our Diploma in Biomedical Science is a Commonwealth supported place (CSP-funded) and will help you achieve your goals. We are here to support you from start to finish. We ensure smaller class sizes, offer tailored support as you transition to university study, and provide a range of student services to help you succeed.

Career opportunities: Pharmaceutical and medical technology industries, health regulation, health education, patient advocacy, consumer health program development, hospitals and public health, science communication, academic research, medical marketing and sales.

Diploma in Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
115971 Brisbane	1F	45.70 unadjusted	50.70 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: The Diploma in Exercise Science is an important stepping-stone toward achieving your career and study goals. You'll graduate with a formal standalone qualification plus gain credit for first year entry to a range of Exercise Science degrees and potentially other discipline bachelor degree to transition straight into second year with credit. Undertaking the ACU Diploma in Exercise Science will help you to develop the academic skills and university experience needed to succeed in more advanced tertiary study. Whether you have just finished Year 12 or finished years ago, our Diploma in Exercise Science is a Commonwealth supported place (CSP-funded) and will help you achieve your goals. We are here to support you from start to finish. We ensure smaller class sizes, offer tailored support as you transition to university study, and provide a range of student services to help you succeed.

Career opportunities: Professional sporting organisations, national sporting organisations, national institutes of sport, state institutes or academies of sport, state sporting organisations, in the health, fitness and recreation industries, including community health settings, corporate health and wellness and injury prevention or as small business owners.

BOND UNIVERSITY

Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
020712 Gold Coast	4 2/3F	* unadjusted	* adjusted	May 2024 Sep 2024	15 Mar 2024 15 Mar 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); No prior tertiary study; Bond University Medicine Test; Interview. **Additional entry information:** Entry to this course is highly competitive and limited to Australian citizens, Australian permanent residents, holders of an Australian Humanitarian visa and New Zealand citizens (but not New Zealand permanent residents). Applicants will be selected initially on their academic rank, followed by their psychometric test outcome and finally, their interview rank. Progression to each stage of the selection process is not automatic and Bond will invite selected applicants to each stage. For additional application and assessment information, including prerequisite information, visit bond.edu.au/medical-program. This program is for applicants who have completed Year 12 and who have not previously completed tertiary studies at a bachelor degree level or higher. **Closing date:** QTAC will accept applications and changes of preference from 12 January 2023 to 27 January 2023. Note: Late and incomplete applications will not be considered.

Course outline: The Bond Medical Program comprises two sequential degrees: the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of year 5. Learning and teaching in the BMedSt occurs in small group sessions comprised of interactive cases through problem-based learning, as well as clinical skills laboratories, simulation activities, community and clinical placements and a cultural immersion experience. This is followed, in the MD, by clinical rotations in hospital and community healthcare settings, as well as face-to-face teaching at timetabled education sessions. During this time, students undertake a research or professional project, or a capstone experience and prepare a portfolio of their work. For more information about the Bond Medical Program, visit bond.edu.au/medical-program.

Career opportunities: With further study, general practitioner or medical specialist in private practice, the public health system, community health centres, corporations, and in medical research.

Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
020741 Gold Coast	4 2/3F	* unadjusted	* adjusted	May 2024 Sep 2024	15 Mar 2024 15 Mar 2024

Prerequisites: Prior study; Bond University Medicine Test; Interview. **Additional entry information:** This program is for applicants who have successfully completed bachelor's degree, graduate diploma, or coursework master program of at least one academic year duration, with a distinction average, within the last nine years. Entry to this program is highly competitive and is limited to Australian citizens, Australian permanent residents, holders of an Australian Humanitarian visa and New Zealand citizens (but not New Zealand permanent residents). Applicants will be selected initially on their academic rank, followed by their psychometric test outcome and finally, their interview rank. Progression to each stage of the selection process is not automatic and Bond will invite selected applicants to each stage. For additional application and assessment information, visit bond.edu.au/medical-program. **Closing date:** QTAC will accept applications and changes of preference from 12 January 2023 to 27 January 2023. Note: Late and incomplete applications will not be considered.

851445 Online	2F or 4P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This is an ideal course for community-minded individuals with an interest in making a difference in the community. It will develop students' broad skills and knowledge in public health, while developing specialised expertise in health promotion and environmental health. Students will be prepared for a diverse career in emerging public health paraprofessions. Public health refers to a collection of disciplines that share a common aim to prevent disease, promote health and improve wellbeing among the population as a whole, rather than focusing on individuals. The major in health promotion covers topics such as drugs in society, health promotion strategies, indigenous studies and community needs assessment. The environmental health major focuses learning on microbiology, food safety, environmental science, law and communicable disease control. Students have the option to continue their studies and complete the Bachelor of Public Health (Specialisation), allowing them to further enhance their future career prospects. **Other requirements:** Students enrolled in the unit HLTH12031 undertake 25 hours of volunteer work in a community organisation. Some students may choose to make this voluntary work profession-related. Some students are also required to complete compulsory residential schools for some units. For full course requirements, visit cqu.edu.au/courses. **Majors:** Environmental Health; Health Promotion; Public Health Nutrition.

Career opportunities: Environmental Health Officer; Environmental Health Worker; Health Promotion Officer.

Associate Degree of Occupational Health and Safety

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850495 Online	2F or 4P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course is designed to prepare students for occupational health and safety roles at a paraprofessional level. The course equips students with knowledge and skills in ergonomics and human factors, and occupational health and safety management and is constantly updated in consultation with industry, ensuring students graduate with up-to-date skills and are work ready. **Note:** Choose to study full-time or part-time.

Career opportunities: Industrial Safety Officer; Occupational Hygienist

Bachelor of Allied Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850511 Rockhampton	3F or 6P	56.80 unadjusted	60.80 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
850515 Online	3F or 6P	60.40 unadjusted	60.40 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This is a practical course designed to develop well-rounded skills and provide students with a foundation learning opportunity. In this course, students will develop their knowledge in a broad range of topics including anatomy and physiology, health psychology, evidence-based practice and rural and remote health. This course will provide students with opportunities to apply their knowledge and skills in rich and authentic learning environments through laboratory activities, research projects and work-integrated learning where they will be engaged in genuine, real life professional experiences. Completing the Bachelor of Allied Health is the ideal pathway for progression into specialised postgraduate or graduate-entry courses in areas such as physiotherapy, occupational therapy, speech pathology, podiatry or public health. **Note:** Students studying online must attend compulsory on-campus residential schools for some units. **Other requirements:** Students are required to undertake professional placement in an Allied Health setting. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Roles within aged care, Indigenous heath, community health project management, health promotion, public health, health research

Bachelor of Echocardiography and Cardiac Physiology/Graduate Diploma of Echocardiography

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
881851 Brisbane	4F	75.95 unadjusted	77.95 adjusted	Mar 2024	11 Jan 2024

Closing date: QTAC applications for this course close 8 December 2023.

Course outline: Enjoy the opportunity to join a niche medical profession with no prior degree in health sciences. This course is the first Australian course allowing undergraduate entry to this growing field within diagnostic medical imaging. Graduates will be able to apply knowledge of cardiac physiology, measurement science and practical echocardiographic scanning skills in the diagnostic setting. This is a high demand course and places are limited. **Other requirements:** Students must meet specific pre-clinical health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. Students undertake a total of over 2000 hours of full-time clinical study. Student learning is supported by clinical supervisors on-site and CQUniversity academics. Clinical facilities can often only host one student at a time so the placement locations are spread over a large geographical area. As a result prospective students are advised that they should prepare personally and financially to relocate for some or all of their placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: This course prepares graduates to practise as an Echocardiographer in public and private hospitals and community health care services.

Bachelor of Exercise and Sport Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

858621 Rockhampton	3F or 6P	68.25 unadjusted	70.25 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
858625 Online	3F or 6P	67.80 unadjusted	69.80 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course equips students with practical skills in the various disciplines relevant to exercise and sport sciences such as anatomy and physiology, nutrition, exercise physiology, biomechanics, exercise and sport psychology, motor control and learning, and exercise prescription and delivery. Students gain a comprehensive understanding of the processes and mechanisms of the human body as they relate to exercise and sport science and have the flexibility to pursue an area of interest, with a choice of minor in biomedical sciences, secondary teaching, or management and business. **Note:** Students studying online will be required to attend compulsory residential schools for some units. **Other requirements:** Across the three-year course, students will complete up to 240 hours of work-integrated learning through voluntary experience and observation in professional practice placements, working with the general population, sporting populations, and rehabilitation or special populations. Additional practical experience is provided through laboratory activities and research projects conducted throughout the course units. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Regional and state sporting organisations; sports institutes and academies; professional sports training; coaching and development; strength and conditioning; rehabilitation clinics and hospitals; universities and colleges with involvement in education and research.

Bachelor of Medical Imaging

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
841681 Mackay	4F	69.35 unadjusted	75.00 adjusted	Mar 2024	11 Jan 2024

Closing date: QTAC applications for this course close 8 December 2023.

Course outline: This course prepares students to work as radiographers and enables them to provide safe and accurate imaging examinations in a

wide range of clinical environments. Students are trained in a purpose-built environment and use the latest technology to ensure they graduate work ready. Education and training focuses on developing key competencies so students are confident in digital technology, community engagement and remote and rural innovation. By completing extensive work placements, students gain practical experience and apply their skills and knowledge in a real-world setting. **Other requirements:** Students must provide evidence of completion of vaccinations as stipulated prior to placement attendance, in accordance with the state Department of Health requirements for clinical students. The COVID-19 vaccination is mandatory to be eligible to attend a WIL placement for this course. Students must also maintain a current CPR certificate and complete an annual occupational health and safety induction. Students must also complete a fitness to practice declaration prior to each clinical placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Diagnostic Radiographer.

Bachelor of Medical Laboratory Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851681 Rockhampton	4F or 8P	77.40 unadjusted	79.40 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
851685 Online	4F or 8P	77.50 unadjusted	81.50 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course allows students to build technical and evaluative skills to assess and implement recommendations for best practice in patient testing, monitoring and education. Students will develop an advanced level of communication skill to ensure positive interactions with both patients and other health professionals. Through opportunities in professional practice, case-based studies and research projects, students will develop clinical decision-making and problem-solving abilities to enable students to successfully perform duties as a medical laboratory scientist upon graduation. **Note:** Many units in the course have compulsory residential schools in Rockhampton to ensure students acquire the technical skills of the Medical Laboratory Scientist. **Other requirements:** Students must undertake compulsory clinical placement during their studies for some units. Prior to commencement of work-integrated learning students must provide evidence of completion of mandatory checks, including evidence of Immunisations as per the CQUniversity Policy for Vaccination of Students in Health Courses. The COVID-19 vaccination is mandatory to be eligible to attend a WIL placement for this course.

Career opportunities: Medical laboratory scientist.

Bachelor of Medical Science (Pathway to Medicine)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
888000 Rockhampton	3F	92.70 unadjusted	95.45 adjusted	Mar 2024	11 Jan 2024
888001 Bundaberg	3F	93.10 unadjusted	96.10 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Applicant must be a Current Year 12 student; Interview. **Additional entry information:** This course is designed for recent school leavers. To be eligible to apply for entry to this course, applicants must be graduating high school in the year of application. Applicants will need to sit the UCAT ANZ before applying for this course. Applicants must have a competitive University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) aggregate score. The minimum UCAT ANZ score the University requires will vary each year, determined by the performance of all applicants competing for a place in the Pathway to Medicine course. Applicants must have a minimum adjusted ATAR of 95.00 (or equivalent), or higher. Shortlisted applicants must attend a multiple mini interview (MMI). Entry is competitive with limited places available. Meeting the minimum entry requirements does not guarantee admission. A detailed summary of the admission pathway including the process to be selected for an interview and selection for an offer into the course can be found on the CQUniversity website. **Closing date:** QTAC applications for this course close 29 September 2023.

Course outline: Designed for school leavers, this course will provide a contextualised curriculum to prepare students for a future medical career. Students will benefit from authentic, and real-world learning experiences that provide relevant skills and knowledge in science, biomedical science and health to ensure students are well prepared for further medical study. Upon successful completion of the course within three years and with a Grade Point Average of 5.0 or more, students will gain direct entry into The University of Queensland's regionally-based Doctor of Medicine Program. Throughout the course, students will build knowledge in the structure and function of the human body and develop a conceptual understanding of what happens when diseases, infections and clinical disorders occur. In the first year, students will study the foundations of medical science in the subjects of anatomy, physiology, chemistry, and biochemistry. In the second and third year, students will apply the knowledge of first-year subjects to medically focused subjects of cell biology, microbiology, immunology, pathophysiology, pharmacology, and medical imaging. Community placements, clinical immersion experiences and work-integrated learning opportunities with health service providers in Central Queensland and Wide Bay are offered throughout the course to prepare students for their career in medicine. **Note:** Available in Rockhampton and Bundaberg this innovative course is designed for school leavers and provides a limited number of places as a provisional entry pathway into The University of Queensland's regionally based Doctor of Medicine program. Aboriginal and/or Torres Strait Islander applicants may choose to apply for this course via the Aboriginal and/or Torres Strait Islander Admission pathway. **Other requirements:** The course includes work placement. Students must satisfy specific pre-clinical safety and security requirements prior to each placement, including a clear criminal record check, valid Blue Card, and must disclose any condition that may put themselves or the public, at significant risk whilst on placement. Students are required to ensure that all immunisations as per requirements of the placement provider are completed before they proceed on work placement. Students are required to meet all mandatory requirements to attend work placements. For full course requirements, visit cqu.edu.au/courses to see Bachelor of Medical Science (Pathway to Medicine).

Career opportunities: On successful completion of the Bachelor of Medical Science (Pathway to Medicine) course within three years, and with a Grade Point Average of 5.0 or more, students will gain direct entry into The University of Queensland's regionally-delivered Doctor of Medicine Program. This course provides a provisional pathway for graduate entry into the UQ MD and facilitates the opportunity for students to study medicine in regional Queensland.

Bachelor of Medical Science (Specialisation)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851701 Rockhampton	3F or 6P	80.65 unadjusted	82.65 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
851705 Online	3F or 6P	70.30 unadjusted	72.30 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
812701 Bundaberg	3F or 6P	83.00 unadjusted	83.00 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course aims to develop student's skills to apply knowledge of clinical measurement, nutrition, or pathology to clinical practice in a health professional role, or biotechnology in support industries and medical research. The course is designed to build a high level of technical and evaluative skill so students can assess and implement recommendations for best practice in patient testing, monitoring, education or to develop therapeutics in the cutting-edge medical biotechnology or pharmaceutical industry. The course also aims to develop high level communication skills so that students can interact positively with patients/clients, other health professionals or industry leaders and are ready for the clinical or scientific work environment. **Note:** For students studying online, there are several compulsory residential schools to attend. **Other requirements:** This course requires approximately 360 hours of compulsory work experience. Students must satisfy specific pre-placement health and safety checks prior to each placement. For full course requirements, visit cqu.edu.au/courses. **Majors:** Biotechnology; clinical physiology; nutrition. All majors are available to study on campus in Rockhampton or via online study. In Bundaberg, only the Clinical Physiology major is available to study on campus.

Career opportunities: Graduates can seek employment as health professionals in clinical measurement, biotechnology or nutritional areas.

Bachelor of Medical Sonography and Graduate Diploma of Medical Sonography

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
881691 Brisbane	4F	94.80 unadjusted	97.25 adjusted	Mar 2024	11 Jan 2024
841691 Mackay	4F	83.50 unadjusted	87.30 adjusted	Mar 2024	11 Jan 2024

Closing date: QTAC applications for this course close 8 December 2023.

Course outline: A first of its kind in Australia, and allows students to enter a niche medical profession with no prior degree in health sciences. This course will enable students to apply sonographic knowledge and practical scanning skills in the diagnostic imaging setting. Medical Sonographers take diagnostic images using ultrasonic equipment to create still, video or 3D studies of anatomy and diagnostic data. They scan, analyse and modify images to optimise the information and require highly developed patient care and communication skills. This is a high demand course and places are limited. **Note:** The course is structured so that Year One is delivered online, with two compulsory two-day residential schools. These residential schools must be attended at your campus of admission. **Other requirements:** Students undertake a total of 2000 hours of full-time clinical study. As placements are located throughout Australia and availability is limited in each community, students may be placed at locations that are not of their choosing. Students must prepare financially and personally to relocate for placements, and are responsible for the associated costs. Students must meet specific pre-clinical health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Sonographer in public or private hospitals, clinics and community health care services.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850426 Rockhampton	3F or 6P	68.10 unadjusted	70.10 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
851525 Online	3F or 6P	68.00 unadjusted	68.00 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Additional entry information: To be considered for this course, all applicants must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students do not meet these educational requirements, they will be required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website. **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: This course will prepare students for a rewarding and diverse career as a competent and effective Registered Nurse (Division 1) General. Clinical learning is a key element of this course and students will be required to undertake 800 hours of professional experience placement in a variety of settings with different health organisations. Students will develop their skills and knowledge through a combination of theoretical and extensive clinical learning experiences including simulated training across the University's nationally located Clinical Learning Centres which simulates a real-world setting for students to safely practice in. Through this course students will acquire skills to provide person-centred care and collaborate with other members of the interdisciplinary healthcare team. Students will seek evidence to ensure safe quality practice and act in a professional, ethical and compassionate manner. In addition, students will learn to nurture the development of nursing as a practice discipline and demonstrate leadership in healthcare. **Note:** Clinical learning is a key element of the Bachelor of Nursing and students will be required to undertake 800 hours of professional experience placement in a variety of settings with different health organisations. Students must meet specific mandatory health, safety and security requirements to be eligible to attend each professional experience placement. Professional experience placements may be limited in specific locations. This means that students may be placed in other locations and may be required to relocate to complete placements. **Other requirements:** On accepting an offer for this course, it is strongly recommended that students start gathering evidence to complete the mandatory checks required to attend clinical placement. For more information, visit the University website to see CQUniversity's Clinical Placement Information. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: The broad nature of nursing and healthcare allows opportunities for employment and/or specialisation in environments such as acute hospital services, community health, mental health, residential and aged care, indigenous health, and rural and remote health.

Bachelor of Occupational Health and Safety

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850465 Online	3F or 6P	63.60 unadjusted	67.60 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course develops expertise in identifying occupational health and safety (OHS) hazards in the workplace. Studies equip students with knowledge, skills and initiatives in occupational hygiene, workplace rehabilitation, ergonomics, safety, and occupational health and safety management. Training will include decision making, problem-solving and management skills that are highly desired by employers. The course provides students with a variety of hands-on experiences, including participation in worksite visits and 120 hours of work placement, ensuring graduates are work ready. **Note:** This course requires attendance at compulsory residential schools. **Other requirements:** Students complete 120 hours of work placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates will be qualified to work in areas such as ergonomics, industrial safety, occupational hygiene and risk management.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
811431 Bundaberg	4F	67.00 unadjusted	71.00 adjusted	Mar 2024	11 Jan 2024
851431 Rockhampton	4F	70.70 unadjusted	74.70 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: Become a leader in occupational therapy and help others maximise their physical and mental health and wellbeing. The course provides students with an underpinning knowledge in professional practice, human body systems, psychology and contemporary health care. Education and training includes occupational therapy units covering a wide range of practice contexts, and develops skills in areas such as assessment, service development, evaluation and critical thinking, enabling students to graduate work ready. The course has a strong focus on practical learning experiences and students benefit from industry placements across a range of practice areas, including the purpose-built Allied Health Clinic at CQUniversity Rockhampton. **Note:** Students who select to study some units via online study may be required to attend compulsory residential schools. **Other requirements:** Students are required to complete a minimum of 1000 hours of professional practice. Some of this is integrated within earlier units of the course, and there are two additional full-time professional education (WIL) blocks. The COVID-19 vaccination is mandatory to be eligible to attend a WIL placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Occupational therapist, mental health worker, rehabilitation consultant, policy maker in local and federal government.

Bachelor of Oral Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
858701 Rockhampton	3F	81.45 unadjusted	83.45 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: This course equips students with the skills and knowledge to practise as an Oral Health Therapist. Students will develop skills to effectively perform preventive and operative dentistry for patients and provide specialist dental practices. In addition, the education and training will provide students with underpinning industry knowledge so they can educate and promote oral health in small group and community settings. The course has a strong focus on work-integrated learning in pre-clinical and clinical settings such as the purpose-fit oral health laboratory and dental clinic at CQUniversity Rockhampton. During the course, students will benefit from learning alongside students in other health courses in facilities such as CQUniversity's Allied Health Clinic. **Other requirements:** Students are required to undertake a minimum of 1000 hours of clinical placement. The Bachelor of Oral Health course involves extensive training in a clinical environment, initially using simulator technologies before progressing to full-time clinical placements in an oral health environment. Students should be prepared in their final year of study to spend four days per week in full-time clinical placements as part of the course requirements. Students must comply with and meet the Inherent Requirements for the Bachelor of Oral Health course. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Oral health therapist in general and specialist dental practices within Australia.

Bachelor of Paramedic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
821719 Cairns	3F or 6P	86.80 unadjusted	88.80 adjusted	Mar 2024	11 Jan 2024
851711 Rockhampton	3F or 6P	69.80 unadjusted	71.80 adjusted	Mar 2024	11 Jan 2024
801719 Townsville	3F or 6P	87.85 unadjusted	91.85 adjusted	Mar 2024	11 Jan 2024
851715 Online	3F or 6P	72.00 unadjusted	76.00 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: Fully accredited by the Council of Ambulance Authorities, the Bachelor of Paramedic Science qualifies students as a paramedic. Students learn from experienced lecturers and build their capability in emergency treatment and paramedic care through exceptional learning experiences. These experiences include practical laboratory exercises, high-fidelity simulations, case-based learning, and enhanced work-integrated learning opportunities. Students complete three clinical placements, totalling a minimum of 600 hours of clinical experience. Students develop foundation knowledge in sciences, human body systems, study and research skills and paramedic practice. Study focuses on disease processes and emergency treatment, and includes practical placements in paramedic care, enabling students to graduate work ready and highly sought after by employers. **Note:** Some units throughout this course may be delivered by a combination of on-campus study, workshops, residential schools and online study. **Other requirements:** Throughout this course, students are required to undertake a minimum of 15 weeks (600 hours) of compulsory off-campus clinical placements with a state or territory ambulance service. Students will be required to meet security and health requirements prior to undertaking clinical placements. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates can pursue a role as a health professional in emergency medicine and retrieval. They may also find employment opportunities in private paramedic services supporting mines, industry and the resource sector.

Bachelor of Paramedic Science/Graduate Certificate in Emergency and Disaster Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
821720 Cairns	3½F or 7P	88.00 unadjusted	90.00 adjusted	Mar 2024	11 Jan 2024
851720 Rockhampton	3½F or 7P	58.90 unadjusted	68.90 adjusted	Mar 2024	11 Jan 2024
801720 Townsville	3½F or 7P	85.30 unadjusted	87.30 adjusted	Mar 2024	11 Jan 2024
851725 Online	3½F or 7P	71.40 unadjusted	77.40 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: The Bachelor of Paramedic Science/Graduate Certificate in Emergency and Disaster Management recognises the rapidly changing nature of paramedicine. It is critical that paramedicine expand its scope and role nationally and internationally. Students within this course will draw upon the interdisciplinary nature of paramedicine and emergency and disaster management to explore current and emerging trends and national and international approaches, as well as the key concepts and perspectives that underpin contemporary practice in these fields. Students will study with other students from a broad range of disciplines, expand their knowledge and skills and learn to apply this to the various phases of managing prehospital patients and expand on their role to encompass emergency and disaster management. **Other requirements:** All students will be required to attend compulsory residential schools for several units throughout the course. Residential schools may be held in Cairns, Townsville or Rockhampton. Students are also required to undertake compulsory work-integrated-learning placements with an approved placement provider. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Employment options after the course include government ambulance services, hospitals, private, government, non-government and community organisations supporting mines, local and regional councils.

Bachelor of Physiotherapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
821422 Cairns	4F	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024
811422 Bundaberg	4F	71.60 unadjusted	74.15 adjusted	Mar 2024	11 Jan 2024
851422 Rockhampton	4F	70.55 unadjusted	72.55 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Health or Physical Education (Units 3 and 4, C). **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: Study the Bachelor of Physiotherapy (Honours) and gain the skills, knowledge, and experience to assess, diagnose, manage, and treat a wide range of health conditions and movement disorders. Accredited by the Australian Physiotherapy Council (APC), graduates will be eligible for registration with the Physiotherapy Board of Australia. For individual campus accreditation information, please visit cqu.edu.au/courses. The Bachelor of Physiotherapy (Honours) involves extensive professional practice experiences where students will gain practical and relevant experience and opportunities to apply their discipline knowledge and skills to real clients. Education and training will focus on ways to prevent injuries and promote health and well being - skills that are highly valued within the industry. **Note:** This course is not offered via distance education, however, students will undertake some units via distance education and will be required to attend compulsory residential schools. **Other requirements:** This course involves extensive practical experience, both through university-based units and clinical education placements that are embedded into the course. In the third and fourth years students are expected to undertake five clinical education placements, each of five weeks duration. To participate in clinical placements, students must meet the security and health requirements. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Physiotherapist in a variety of healthcare settings such as hospitals, community health centres, rehabilitation units, private practice, schools, research, occupational health, sport clinics and teams.

Bachelor of Podiatry Practice (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851401 Rockhampton	4F	78.70 unadjusted	78.70 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Podiatry Practice (Honours) prepares students for a career as a podiatrist. The course provides opportunities for students to learn from experienced practitioners while gaining exposure to extensive practical experiences in a variety of clinical settings. Students will develop the necessary skills to assess, diagnose and treat disorders of the foot and lower limb in people of all ages. Education and training explores human anatomy, physiology, pathology, wound care, podiatric therapeutics. Practical learning experiences are integral to the course and students will acquire hands-on practical experience treating real patients in the internal CQUniversity Health Clinics and at various external clinical settings. **Other requirements:** This course involves extensive training in a clinical environment. Practical learning experiences are central to the course and students will need to complete approximately 1000 hours of clinical placement in order to complete the degree. Students will undertake internal placement at the on-site allied health clinic and external placement will occur in a variety of settings. Students must comply with the mandatory pre-clinical placement requirements prior to undertaking placement. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Podiatrist across a diverse range of rural and urban settings such as hospitals, multi disciplinary health clinics, community health centres, and private practice.

Bachelor of Public Health (Specialisation)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
811791 Bundaberg	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

851795 Online	3F or 6P	68.60 unadjusted	68.60 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Become a leader in improving the health of communities and the wider population with the Bachelor of Public Health and open the door to diverse careers across Australia and internationally. Be supported by experienced public health lecturers who are invested in providing students with authentic, work-based learning opportunities so that they graduate work ready. Students will gain real-world experiences through completion of a 240-hour work placement in their final year. This course is designed to develop broad skills and knowledge in public health, while developing specialised expertise in health promotion, environmental health, and nutrition. Public health refers to a collection of disciplines that share a common aim to prevent disease, promote health and improve wellbeing among the population as a whole, rather than focusing on individuals. **Note:** Students studying the Environmental Health Major are required to attend residential school for a number of units in the course. **Other requirements:** Students undertake placement in a professional environment relevant to their chosen major. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses. **Majors:** Environmental health; health promotion; public health nutrition.

Career opportunities: Health promotion officer; public health nutritionist; environmental manager; occupational health and safety roles (upon selection of appropriate minor).

Bachelor of Science (Chiropractic)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
880501 Brisbane	3F or 6P	69.00 unadjusted	71.00 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This industry-relevant Bachelor of Science (Chiropractic) course will develop students' capabilities in range of spinal and patient assessment procedures, along with basic therapeutic approaches to common musculoskeletal presentations. On successful completion, students will have knowledge and an appreciation of basic techniques enabling them to pursue employment opportunities as an assistant in chiropractic practice. This course is an evidence-based degree designed to provide graduates with the qualification needed to apply to enter the professional qualification, the Master of Clinical Chiropractic. Graduation from the Master of Clinical Chiropractic course renders students eligible to apply for registration as a chiropractor in Australia and overseas. Throughout this course, students will develop clinical skills to become confident in the diagnosis and management of patients presenting for care. Students will learn the history, philosophy and principles and theories of chiropractic from a contemporary perspective. **Note:** Students who select to study some units via online study may be required to attend compulsory residential schools. **Other requirements:** Students are required to undertake work-integrated learning in a range of forms including activities in chiropractic clinics and other health clinics. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates will be able to pursue employment opportunities as an assistant in chiropractic practice. This course is the ideal pathway into the Master of Clinical Chiropractic. Upon completion of the masters course, students will be eligible to apply for registration to practise as a Chiropractor.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851411 Rockhampton	4F or 8P	69.10 unadjusted	71.10 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Speech Pathology (Honours) equips students with valuable skills to enable them to work with people of all ages who have communication and/or swallowing difficulties. Education and training includes a broad range of disciplines such as psychology, allied health, and linguistics and phonetics, designed to ensure students graduate work ready. Students will complete extensive work-integrated learning opportunities at CQUniversity's Health Clinic, and off-campus at community and clinical sites in and outside of Queensland, where they will observe and work directly with children and adults with communication and/or swallowing difficulties. This allows students to consolidate the content and theory they learn in class with their developing clinical skills and gain valuable practical experience before entering the workforce. **Other requirements:** As a part of this course, students will undertake clinical placements. To participate in clinical placements students require a range of immunisations, vaccinations, and screenings (e.g., Hepatitis B; tuberculosis screening). The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. Additional vaccinations and/or may also be required. Students are also required to hold a current First Aid / CPR certificate. This will depend on the type of placement site and the site location, as different states have different vaccinations regulations and requirements. Students must complete a number of clinical placements hours. There are no minimum requirements in terms of the number of hours of placement but these occur throughout the course and will require attendance on both a daily and block placement basis. Block placements may be in a remote or rural setting. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Career as a speech pathologist in a variety of settings such as public and private hospitals, community centres, rehabilitation centres, kindergartens, schools, aged care facilities, private practice.

Additional entry information: To be considered for this course, all applicants must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students do not meet these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website. **Closing date:** QTAC applications for this course close 8 December 2023.

Course outline: Enrolled nurses provide nursing care for people across the health care continuum and at all stages of life. This qualification will allow students to work as an enrolled nurse working under the direct or indirect supervision of a registered nurse. On successful completion, students will be able to apply to the Nursing and Midwifery Board of Australia in accordance with the Australian Health Practitioner Regulation Agency (AHPRA) for registration as an Enrolled Nurse. **Note:** This course has mandatory on and off the job training components. The off the job training is conducted as the theoretical component of the course. The on-the-job training is known as Clinical Placement and is unpaid work experience that is undertaken at a set time at the end of each term at a relevant health facility. Students are required to successfully complete a minimum of 400 hours of Clinical Placement. Throughout the duration of this course, students studying by Mixed Mode will also be required to attend compulsory Residential Schools. **Other requirements:** On accepting an offer for this course, it is strongly recommended that students start gathering evidence to complete the mandatory checks required to attend clinical placement. The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. For more information, visit the CQUniversity website to see CQUniversity's Clinical Placement Information.

Career opportunities: Graduates will be eligible to apply to the Australian Health Practitioners Registration Agency to become an Enrolled Nurse. Students may find employment in health care settings in roles such as enrolled nurse, personal care worker and aged care supervisor.

228212 Nathan	3F or 6P	67.00 unadjusted	74.00 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
233412 Gold Coast	3F or 6P	73.35 unadjusted	81.35 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲.
Additional entry information: Griffith ATAR Guarantee and VET Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this future-focused degree, you'll gain an understanding of health and the methods for researching, diagnosing and treating disease. The knowledge and skills developed during this degree can be applied to medicine, biomedical research and other healthcare professions such as pharmacy, speech pathology, and rehabilitation counselling. It is also excellent preparation for entry into postgraduate study, including the Doctor of Medicine and Master of Public Health.

Career opportunities: You will be prepared for work in hospitals, health departments, medical research institutes, university and government research organisations, and in the pharmaceutical, diagnostic, biotechnology and other health-related industries. You'll receive excellent training to support your application for Griffith, graduate-entry medical degree program, the Doctor of Medicine, or may also choose to continue with postgraduate research or coursework study.

Combined diplomas/degrees: Refer to entries under Griffith College for: D Health Sciences/B Biomedical Science; D Science/B Biomedical Science.

Bachelor of Child, Youth and Family Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
263131 Logan	3F or 6P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
276105 Distance ed	3F or 6P	✦ unadjusted	✦ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree will provide you with a deeper understanding of how to help the community. You'll learn in a personal atmosphere through practical experience from experts with strong links to the health sector, government and community. You'll study processes and structures related to providing services in specialist areas such as childcare, education, welfare, development and learning, family studies and child protection, and learn about ethics in child, youth and family services. **Note:** Distance education students must be available to attend three compulsory five-day, face-to-face intensive courses at the Gold Coast campus. **Other requirements:** This program requires students to undertake placements. A Griffith University placement officer will help find suitable local placements, however specific placement cannot always be guaranteed. Some placements may be outside the Brisbane metropolitan/ Gold Coast area including northern New South Wales and (by negotiation) interstate. Distance education students should be aware that if they live in remote or rural areas, they may be expected to travel to professional placements that may incur accommodation and living expenses. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You'll be qualified to lead child and family programs in the early years, health and community services sector. You'll also be qualified for positions in Aboriginal and Torres Strait Islander services, child and family welfare, child protection and child safety services, community-based organisations, community development, family support services, foster care services, services for women, welfare organisations, and policy and research.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Child, Youth and Family Practice.

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233732 Gold Coast	4F or 7P	86.55 unadjusted	94.55 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲.
Additional entry information: Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 8 December 2023 may not be assessed in time for the January offer round. Applications for this program close 29 December 2023, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 29 December 2023, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: This degree features foundational and advanced coursework in exercise science, applied through a minimum of 500 hours of supervised clinical placement in exercise science and exercise physiology. With a deeper knowledge of the human body and how exercise affects it, an Accredited Exercise Physiologist (AEP) designs and delivers safe and effective exercise interventions that focus on clients with chronic and complex medical conditions, injuries and disabilities. These interventions include health and physical activity education, advice and support, and lifestyle medication. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au/upgrading-university-studies. This program currently only has a Trimester 1, 2024 intake. The University will consider opening a Trimester 2, 2024 intake after enrolment numbers are finalised for Trimester 1. Applicants who are interested in studying this program are encouraged to apply for the Trimester 1 intake as Trimester 2 is not guaranteed. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must

meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: Accredited Exercise Physiologists are allied health professionals and can work in areas such as chronic disease management, fitness and sports, respiratory and sleep medicine, rehabilitation, recreation management, strength and conditioning, and occupational health and safety. AEPs work in areas such as return-to-work assessment, chronic disease management, exercise prescription for special populations, weight-loss management, and musculoskeletal and cardiopulmonary rehabilitation. As an AEP, you may find work in the public health system, in hospitals and outpatient clinics as well as in private practice as sole traders, multidisciplinary practices, private hospitals or corporate health.

Bachelor of Counselling

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
225131 Mt Gravatt	3F or 6P	65.10 unadjusted	68.05 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧
233591 Gold Coast	3F or 6P	71.20 unadjusted	76.45 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: You will gain skills in providing professional counselling to assist others in resolving personal or professional problems. Working in the counselling profession involves guiding and empowering people to develop self-understanding and to make changes in their lives in order to accomplish mental health, wellness, education, and career goals. Counsellors assist people by offering them a structured and focused way of addressing their problems, and work with clients on developing strategies to overcome obstacles and personal challenges that they are facing. **Other requirements:** Students are required to undertake three placements. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: Graduates will be skilled in a range of counselling approaches with their clients and can develop careers in specific areas, including family and relationship counselling, career counselling, and telephone/internet counselling, correctional counselling, addiction counselling, domestic violence counselling, and student advising.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Counselling.

Bachelor of Dental Health Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233812 Gold Coast	3F	✱ unadjusted	✱ adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Interview ✲. **Additional entry information:** Applicants for this program must sit the University Clinical Aptitude Test ANZ (UCAT ANZ). Registration for the UCAT ANZ opens in March 2023 and closes mid-May 2023. Applicants will be invited to a Griffith University Dental Admissions Process Interview (GUDAP) on the basis of their UCAT ANZ score. The GUDAP interview will require students to attend a multi station interview on 23 or 24 November 2023. Applicants who identify as Aboriginal and/or Torres Strait Islander should visit griffith.edu.au/gumurrii/apply-to-study#health for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** QTAC applications for this program close 29 September 2023. After this date, no new applicants can apply, but existing applicants can reorder this preference.

Course outline: This degree is the first step towards a career in dentistry. You'll learn through extensive practical training from the first year of your studies. You'll study and work alongside registered dentists and dental specialists in our modern dental clinic and in specialised pre-clinical simulation laboratories in the Griffith Health Centre. On completion of this degree and upon application, you'll gain entry into the Master of Dentistry to complete training as a dentist. **Other requirements:** To gain entry to this degree, you will be required to sit the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ). Applicants will be invited to an interview based on their UCAT ANZ score. Visit ucat.edu.au. Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. This program requires students to undertake clinical placements. Prior to professional placement, students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: As a graduate of this degree and our Master of Dentistry, you'll be qualified to work as a registered dentist, with opportunities in private practice, hospitals, community dental clinics and the armed services. Further study and research can lead to a career in academic teaching and research or specialty practice.

Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: As a graduate of this degree, you will be qualified to work as a registered dental hygienist with opportunities in general dental practice, specialist dental practice and community dental clinics.

Bachelor of Dental Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233832 Gold Coast	3F	82.90 unadjusted	90.20 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). ✲ **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Course outline: This degree is ideal for students who like to work behind the scenes creating and manufacturing dentures, crowns, bridges and orthodontic appliances. It suits students who enjoy working with their hands, with an attention to detail, who prefer not to work directly with a patient. This is the only internationally benchmarked dental technology degree in Australia. In the first year, you'll learn foundational skills in health science, be introduced to prosthetics and develop skills in the dental laboratory. Second year applies knowledge of dental materials to dental laboratory practice. Laboratory experience is continued through all years with an emphasis on work-integrated learning in your third year. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: As a dental technologist (or dental technician as they are often referred to) you will find employment with dental technicians, dentists, dental prosthetists, prosthodontists, orthodontists, periodontists, and oral surgeons in the public or private health sectors. Working to referring dental practitioners and specialists prescriptions. You will be able to design and construct appliances according to international standards that meet individual patients needs. You will work with a wide range of materials and techniques such as: gold, porcelain, plastic and lost wax technique and CAD-CAM (Computer Aided Design/Manufacturing). You may see patients to record the colour, shape and characteristics of existing teeth. With this qualification, you can apply your scientific knowledge, artistic skills and compassionate nature across three distinct specialist areas - prosthodontic, conservative and orthodontic - or you may eventually choose self-employment.

Combined degrees: Refer to entry for: B Dental Technology/B Dental Prosthetics

Bachelor of Dental Technology/Bachelor of Dental Prosthetics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233792 Gold Coast	4F	82.55 unadjusted	90.55 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C) ✲. **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Course outline: This double degree is ideal for students interested in developing hands-on practical skills in designing and making dentures, crowns and bridges combined with diagnosing, designing and fitting removable dentures directly to patients. In this degree, you'll graduate with two qualifications and be able to work as both a dental technician and a dental prosthetist. Because the two degrees share the same subjects in their first two years, this double degree can be finished in just four years full-time study. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@ Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: With this qualification graduates may find employment opportunities in the public and private health sectors through government health department clinics and private practice as a dental technician/dental prosthetist or clinical dental technician.

Bachelor of Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233322 Gold Coast	3-4F or 6P	60.95 unadjusted	68.95 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Griffith is one of Australia foremost universities in the delivery of exercise science and sport degrees. Learn to apply the science of exercise to develop interventions that improve human health, fitness wellbeing and performance by studying this degree. Exercise scientists apply their knowledge at the individual, community and population levels to build healthier, happier societies. Graduates of the program are eligible for accreditation through Exercise and Sports Science Australia (ESSA), as an accredited exercise scientist. **Note:** Students who commence in Trimester 3 will complete the program over four calendar years. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You will be prepared for work as an exercise specialist for community or sports organisations as a clinical scientist specialising in cardiac; respiratory and sleep medicine; as a rehabilitation, sports or recreation manager; as a strength and conditioning coach; or as an occupational health and safety officer.

Combined degrees: Refer to entries for: B Exercise Science/B Business; B Exercise Science/B Psychological Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Exercise Science.

Bachelor of Exercise Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
231342 Gold Coast	4½F or 9P	64.50 unadjusted	68.10 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you'll gain a strong foundation in the physical and biomedical sciences, as well as practical business and management skills and knowledge. You'll develop an understanding of how both our bodies and the sports industry work and will undertake a professional practice placement as part of your degree that will give you an opportunity to put your skills and knowledge into practice. **Other requirements:** Students must meet all professional practice requirements. For more information, visit. griffith.edu.au/health-placement-support-hub **Majors:** Business: sport management.

Career opportunities: You may find opportunities in sports and recreation management, sports science and high-performance management, events management and recreational club management, and in both the public and private sectors. A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in health-related businesses, not-for-profit, government and corporate organisations.

Bachelor of Exercise Science/Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
231642 Gold Coast	4½F or 9P	69.15 unadjusted	72.70 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree provides a pathway to practise as a sports psychologist, following further study in psychology. In this double degree, you'll learn how to apply psychological theories to topics such as motivation, stress and health. You will also study the basic and clinical sciences and learn about the exercise response when working in the areas of health, rehabilitation and sport. You will also undertake a professional practice placement to enhance your skills. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You may find opportunities as a consultant in sport and exercise behaviour, exercise specialist, rehabilitation adviser or manager, cardiac technician or respiratory scientist. You will also be qualified to work in guidance and health management.

Bachelor of Health Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233312 Gold Coast	3F or 6P	59.65 unadjusted	67.25 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree is one of the most flexible and innovative within the field of health and an ideal introduction into the health sector. You will learn from internationally renowned experts through hands-on, laboratory-based experience in state-of-the-art facilities. You can select a major in environmental health, environmental toxicology, information technology, or communication and media, or choose from a wide range of electives to customise your degree to suit your interests and goals. You will explore health through a combination of disciplines to understand how different areas of human biology and environmental factors relate to health and disease. An ideal introduction to the future of health. **Majors:** Communication and media; environmental health; environmental toxicology, information technology. Non-major options also available.

Career opportunities: Depending on your major, you may work as an environmental health professional; managing information technology in health setting; or in health communication and media. Our diverse electives will also help equip you for careers in a range of scientific and allied professions, including working as a scientific advisor; pathology technician; industry representative; technical sales specialist; laboratory technician or research assistant. As a graduate, you'll be well placed to apply for our graduate-entry medical degree, the Doctor of Medicine, or medical research programs.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Health Science.

Prerequisites: Any General or Applied English subject (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Human services professionals help improve people, social, economic, personal and communal wellbeing. This degree will equip you to work with individuals, families, and communities. You will learn from experts with links to health and community sectors, and government and non-government organisations. You will learn about human services in Australia and develop the knowledge and skills needed to build a better future for individuals and families in need, younger and older people, and people living with a disability. You'll develop a clear understanding of the principles of social justice and empowerment in the sector. You'll complete a four-day-a-week, trimester-long practice placement in your final year. Placements will be sourced in your area of choice where possible, depending on organisation availability. **Note:** Students can enrol in the Distance Education offering of

the program and will be able to complete the program off-campus by distance learning via our online learning management system online with the exception of three compulsory five-day face-to-face intensive on-campus courses. **Other requirements:** In this program, you will spend 400 hours (four days per week) in the work/professional environment during trimester six of the full-time program or equivalent. Placements may be outside of the Brisbane metropolitan/Gold Coast area including Northern New South Wales and (by negotiation) interstate or overseas. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: Our Bachelor of Human Services prepares you for a career in community planning and development, welfare services, family support, mental health services, correctional services, policy development and research, rehabilitation services, women, services, working with older people, and youth work.

Combined degrees: Refer to entry for: B Human Services/B Criminology and Criminal Justice.

Combined diplomas/degrees: This program can be combined with the following course at TAFE Qld: D Community Services. Refer to entry for the diploma under TAFE Qld. Refer to entry under Griffith College for: D Social and Psychological Science/B Human Services.

Prerequisites: Any General or Applied English subject (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you'll develop an understanding of the vital importance of human services within Australia legal and social systems. You'll be prepared for work in areas such as community development, welfare services and correctional services. You'll learn from the latest research and from experts with strong links to the health sector, government and community. You'll receive plenty of hands-on experience in your final year of study. Within a genuine human services environment, you'll put theory into practice in a supervised setting. This experience will enhance your skills in the workplace and get you ready to graduate job-ready. **Note:** Human services courses are conducted at Logan and Gold Coast, criminal justice courses are conducted at Mt Gravatt and Gold Coast, and all courses are also available online. Distance education students must be available to attend 10 days of compulsory face-to-face intensive study at the Gold Coast campus, and up to five days of additional face-to-face intensive study throughout the program. **Other requirements:** In this program, you will spend 400 hours (four days per week) in the work/professional environment during trimester six of the full-time program or equivalent. Placements may be outside of the Brisbane metropolitan/Gold Coast area including Northern New South Wales and (by negotiation) interstate or overseas. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You may find opportunities in policing and security, intelligence, probation and parole, child protection, crime analysis, courts and justice services, crime prevention and regulatory agencies.

Bachelor of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233862 Gold Coast	4F	71.05 unadjusted	79.05 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith ATAR Guarantee and VET Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this degree, you'll develop the knowledge and skills to work as a medical scientist. Medical scientists perform diagnostic tests of blood, tissues, and other bodily fluids to help doctors diagnose diseases such as glandular fever, diabetes, swine flu, cancer and COVID-19. Pathology-based results often form the basis for decisions on an individual diagnosis, treatment and subsequent therapeutic monitoring. As a graduate, you will also be equipped to apply techniques used in forensic investigation and research in the food, animal and cosmetic industries. **Other requirements:** Students must undertake clinical placements. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You may find opportunities in hospital laboratories, private pathology laboratories, state health laboratories, universities, veterinary sciences, forensic laboratories, food and cosmetic industry with specialisation in haematology, transfusion science, histopathology, clinical microbiology, clinical biochemistry and molecular diagnostics.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Medical Laboratory Science.

Bachelor of Medical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

233422 Gold Coast	2F	99.85 unadjusted	99.85 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Current or Recent Year 12 with no previous attempt at tertiary study ⁎. **Additional entry information:** This program is for 2023 Year 12 applicants or applicants who completed Year 12 no more than three years prior to application and who have not previously attempted tertiary study at diploma level or higher. Applicants who identify as Aboriginal and/or Torres Strait Islander should visit griffith.edu.au/gumurrii/apply-to-study#health for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 8 December 2023 may not be assessed in time for the January offer round. Applications for this program close 29 December 2023, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 29 December 2023, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: This degree puts high-achieving high school leavers on a fast track to a Doctor of Medicine. You'll learn about the sciences underpinning medicine chemistry, anatomy, physiology, biochemistry, microbiology, molecular genetics, genes and disease, interpersonal skills and the legal and ethical principles of healthcare. In your second year, you'll take courses in immunology, infectious disease, pharmacology, metabolism and structural biochemistry and epidemiology, as well as an opportunity to undertake a research project. With a minimum GPA of 5.0, you'll gain a provisional place in the Doctor of Medicine. **Note:** In this degree, students study over three trimesters each year, completing the program in two years. The Doctor of Medicine is an extended Masters program (AQF level 9). **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

Career opportunities: If you progress to the Doctor of Medicine, you will be preparing for a career in specialist clinical practice, primary care medicine, medical, translational and clinical research and healthcare services.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
263392 Logan	3F or 2P & 2F	83.15 unadjusted	89.15 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application their hospital preferences from the following list: Logan, Redlands, Toowoomba, Gold Coast and Sunshine Coast University Hospitals. While the university endeavours to provide placement preferences, this is not guaranteed. On rare occasions students may need to either relocate to undertake a placement, or enrol part time until their preferred site becomes available. Griffith Guaranteed Admission Schemes do not apply to this program. English Language Proficiency Requirements: To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test or evidence that you are currently registered as an Enrolled Nurse with the Australian Health Practitioner Regulation Agency. For more information, visit qtac.edu.au/english-language-proficiency. Applicants who identify as Aboriginal and/or Torres Strait Islander should visit griffith.edu.au/gumurrii/apply-to-study#health for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. **Closing date:** New applications lodged after 8 December 2023 may not be assessed in time for the January offer round. Applications for this program close on the 29 December 2023, so applicants may add this to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 29 December 2023, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: In this degree, you'll follow 20 women throughout their pregnancy to six weeks after birth, requiring you to be on-call to attend the labour and birth an immersive, highly valued learning experience. Our blended learning approach includes clinical practice and theory, face-to-face

in workshops, via simulated practice, active online learning and extensive compulsory midwifery practice in a range of settings. You'll learn from by expert clinicians, researchers and award-winning teachers who lead the field in midwifery education, research and practice. **Note:** All on campus teaching sessions are offered on Logan campus, with some midwifery laboratory sessions also available at Gold Coast and Toowoomba. The program duration is three years. Eligible students may complete the first year part-time over two years. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students are allocated to a partner hospital for their whole program. Note: Students start clinical experiences in Trimester 1, so all mandatory requirements must be undertaken before (or as soon as) offers are received. A health check, including immunisation status (especially hepatitis B immunity), a Suitability Card and an Australian National Police Check (at own expense) are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) before the first placement. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You may find opportunities as a midwife in public and private healthcare settings including midwifery private practice, maternity and neonatal care settings, academia, teaching, research, rural remote health, and international aid organisations.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
225312 Nathan	3F or 6P	70.05 unadjusted	78.05 adjusted	Mar 2024	11 Jan 2024

233112 Gold Coast	3F or 6P	71.45 unadjusted	78.00 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); No prior study. **Additional entry information:** This admission pathway is not for applicants who are eligible for admission into Year 2 with credit transfer, ie hold an AQF Diploma of Nursing from an accredited Australian Provider and are registered as an Enrolled Nurse with AHPRA, or a Diploma of Health Care from Griffith College. These applicants must apply for the B Nursing Advanced Standing. This program is not available to applicants who hold a qualification in nursing acceptable for registration with the Australian Health Practitioner Regulation Agency/Nursing and Midwifery Board of Australia. Internationally Qualified Nurses (IQNs) will be assessed on a case-by case basis. Internationally Qualified Nurses must demonstrate recency of practice (within a period of five years) and have unconditional registration where they are working as a Registered Nurse. Note: We follow Nursing and Midwifery Board of Australia (NMBA) guidelines regarding recency of practice. Applicants must have a minimum of 450 hours accumulated over the past five years. The hours do not need to be continuous. English Language Proficiency Requirements: To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information, visit qtac.edu.au/english-language-proficiency.

Course outline: Nursing is the science of professional caring, and offers opportunities to promote and restore health, prevent illness and alleviate suffering. You'll develop the key knowledge and skills required to provide excellent nursing care. You'll develop your skills through clinical placements across the health sector and you may have the opportunity to undertake rural, remote and overseas placements. You'll learn from leading experts, with Griffith ranked No. 1 in Australia and No. 2 in the world for Nursing and Midwifery in the 2021 Shanghai Ranking Global Ranking of Academic Subjects. **Note:** Students can take this program part-time but attendance at day classes is generally required. Part-time students must be available full-time for professional placements. **Other requirements:** Students must undertake placements. A health check, including immunisation status, a Working with Children check and Australian Federal Police check are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) by the end of the first trimester. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: As a nursing graduate, You'll be prepared to help fill the demand for nurses, with career opportunities in hospitals, the community, and in urban, rural and remote settings. You'll be equipped for a career in professional nursing in any healthcare setting.

Combined degrees: Refer to entry for: B Nursing/Grad Cert Paediatric Nursing.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Care/B Nursing.

Bachelor of Nursing (Advanced Standing)

Career opportunities: You may find opportunities in hospitals, in the community, and in urban, rural and remote settings. Nursing graduates are employed in a range of occupations and industries. As well as hospitals, medical centres, community health clinics and aged care centres, you will be prepared for work in schools, the travel industry, with drug and alcohol service providers, in sporting clubs or in research organisations. You will have clinical specialist skills in the area of paediatric nursing and will be able to expect increased professional recognition, mobility and an enhanced ability to remain in employment.

Bachelor of Nursing/Graduate Certificate in Paediatric Nursing (Advanced Standing)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
225362 Nathan	2F & 1P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Prerequisites: AHPRA Registration; Prior study; Questionnaire. **Additional entry information:** This admission pathway is not for applicants who are eligible for admission into Year 2 with credit transfer, ie hold a Diploma of Nursing and are an Enrolled Nurse with AHPRA. These applicants must apply for the B Nursing/Graduate Certificate in Paediatric Nursing (Advanced Standing). This program is not available to applicants who hold a qualification in nursing acceptable for registration with the Australian Health Practitioner Regulation Agency or Nursing and Midwifery Board of Australia. English Language Proficiency Requirements: To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency. **Closing date:** Applications for Trimester 1 close 29 September 2023.

Course outline: Responding to a shortage of paediatric nurses and growing opportunities in Australia and overseas, Griffith has designed this unique combined degree to provide advanced knowledge and specialist skills in paediatric nursing. This is Australia's first Commonwealth-supported pathway to paediatric nursing and includes a guaranteed placement opportunity with potential for fixed-term employment. You'll will graduate with two qualifications: Bachelor of Nursing (three years full-time at the Nathan campus) and the Graduate Certificate in Paediatric Nursing (one year part-time, online). Together, these qualifications provide a sound theoretical and practical background in nursing for children. **Note:** Students can take the Bachelor of Nursing part-time but attendance at day classes is generally required. Parttime students must be available full-time for professional placements. The Graduate Certificate in Paediatric Nursing is part-time and online only. Students can spread their graduate certificate studies across three trimesters. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must undertake placements for the Bachelor of Nursing. A health check, including immunisation status, a Working with Children check and Australian Federal Police check are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) by the end of the first trimester. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You may find opportunities in hospitals, in the community, and in urban, rural and remote settings. Nursing graduates are employed in a range of occupations and industries. As well as hospitals, medical centres, community health clinics and aged care centres, you will be prepared for work in schools, the travel industry, with drug and alcohol service providers, in sporting clubs or in research organisations. You will have clinical specialist skills in the area of paediatric nursing and will be able to expect increased professional recognition, mobility and an enhanced ability to remain in employment.

Bachelor of Nutrition and Dietetics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233852 Gold Coast	4F or 4P & 2F	77.00 unadjusted	85.00 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: If you have an interest in health, a passion to understand and educate how the science of how food affects our lives, and good communication skills, an exciting career in nutrition and dietetics is for you. You'll develop knowledge and skills to work as a dietitian and learn how to help improve the health of individuals and the community. You'll develop an understanding of chemistry, anatomy, physiology and biochemistry before taking advanced study in human nutrition and dietetics. In the final phase of your degree, you'll complete a minimum of 20 consecutive weeks of full-time professional placement in a variety of sites across Queensland and interstate. **Note:** This program currently only has a Trimester 1, 2024 intake. The University will consider opening a Trimester 2, 2024 intake after enrolment numbers are finalised for Trimester 1. Applicants who are interested in studying this program are encouraged to apply for the Trimester 1 intake as Trimester 2 is not guaranteed. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: As a nutrition and dietetics professional, you'll be qualified to work in traditional roles in the health industry as a dietitian/nutritionist in private and public hospitals, community health services, health promotion and public health units, and in the emerging areas of private practice, and the food and pharmaceutical industries.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Nutrition and Dietetics.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
225441 Nathan	4F or 4P & 2F	84.25 unadjusted	92.25 adjusted	Mar 2024	11 Jan 2024
233751 Gold Coast	4F or 4P & 2F	83.00 unadjusted	91.00 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics or Psychology (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 8 December 2023 may not be assessed in time for the January offer round. Applications for this program close 29 December 2023, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 29 December 2023, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: You'll develop the skills needed to work as an occupational therapist, delivering life-changing outcomes to people of all ages. You'll learn how to enable people to do the activities occupations they need or want to do in order to live a meaningful life, but have difficulty doing so. You'll learn occupational therapy theory and practice, occupational science, psychology, sociology and anatomy, and apply your knowledge during practical placements from the first year of your degree, preparing you to be job ready for the wide range of opportunities available to occupational therapists. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You'll be prepared for a career in a variety of workplaces, including in hospitals, schools, disability services, private practices and support organisations, universities, and government departments. You'll also have the professional and entrepreneurial skills to create your own opportunities.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233912 Gold Coast	3F	89.55 unadjusted	97.55 adjusted	Mar 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants who identify as Aboriginal and/or Torres Strait Islander should visit griffith.edu.au/gumurrii/apply-to-study#health for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 8 December 2023 may not be assessed in time for the January offer round. Applications for this program close on the 29 December 2023, so applicants may add this to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 29 December 2023, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: This degree will prepare you to work as a paramedic in a range of settings. You'll gain clinical decision-making, problem-solving and critical thinking skills and learn about human body systems, paramedic practice in emergency and non-emergency situations, legal and ethical aspects of healthcare while developing your communication and interpersonal skills. You'll also develop strong practical skills through clinical simulations delivered in Griffith extensive range of simulation facilities and apply your new range of knowledge, skills, and processes during a range of clinical placements. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information, visit griffith.edu.au/upgrading-university-studies. **Other requirements:** Important offer advice: Should you receive an offer into this program you will be required to enrol into classes within a short timeframe (enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.) This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students are required to undertake supervised clinical practice placements. Before they enrol, students must meet all professional practice requirements including a criminal history check, first aid certificate and CPR certificates, immunisation and health record, manual drivers' licence (desirable), Queensland Ambulance Service (QAS) medical assessment, and Working with Children (Blue Card) check. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: Graduates of this degree will be able to apply for employment as a graduate level paramedic within Australia (following registration) and a number of other countries. Other careers areas may also include the military, mining and other commercial paramedic opportunities.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Paramedicine.

Bachelor of Pharmacology and Toxicology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233921 Gold Coast	3F or 6P	63.45 unadjusted	71.05 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Lapsed offers are not automatically reinstated and reinstatement is subject to available places. Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You may find work in various settings such as hospitals, private practices, community health centres, schools, sporting teams and the armed forces. Physiotherapists may also be employed at universities to teach and conduct research including consulting for industry and government bodies.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Physiotherapy.

Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
231612 Gold Coast	3F or 6P	64.40 unadjusted	71.15 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧
225521 Mt Gravatt	3F or 6P	60.35 unadjusted	68.35 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree will give you a thorough grounding in the application of clinical, developmental, biological, cognitive, social and organisational psychology. You'll learn how to apply psychological theories and use skills to work with people with personal, health, vocational and social difficulties, assisting them to reach their full potential. You'll also learn about thinking and perceiving, motivation, stress, health and group behaviour. Evaluating and understanding psychological tests and using interpersonal, counselling, coaching and group facilitation skills are also a key part of the degree. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You will be prepared for a career in counselling, guidance, health management, social research, rehabilitation and other related fields including health and organisational workplaces. As a graduate, you may also be eligible for entry into a wide range of postgraduate degrees in areas like social work, speech pathology, teacher preparation, rehabilitation counselling, forensic mental health, criminology and criminal justice. You will need to complete further study to work as a registered psychologist.

Combined degrees: Refer to entries for: B Exercise Science/B Psychological Science; B Laws (Hons)/B Psychological Science; B Psychological Science/B Business; B Psychological Science/B Criminology and Criminal Justice; B Psychological Science/M Mental Health Practice; B Psychological Science/M Rehabilitation Counselling.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Psychological Science.

Bachelor of Psychological Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
231552 Gold Coast	4F or 8P	68.20 unadjusted	72.20 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧
225531 Nathan/ Mt Gravatt	4F or 8P	63.25 unadjusted	69.25 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Combining business with psychological science can give you the skills and knowledge needed to work as a specialist providing advice to organisations on management and personnel issues, and helping them develop training programs, set policies, or manage organisational change. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.
Majors: Business: accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; events; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation; tourism and travel.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in psychology-related businesses, not-for-profit, government and corporate organisations. You'll be ideally placed to directly enter a wide range of management positions in business, counselling, and training and development.

Bachelor of Psychological Science/Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
226521 Mt Gravatt	4F or 8P	60.65 unadjusted	68.65 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
232521 Gold Coast	4F or 8P	62.40 unadjusted	70.00 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will give you insights into crime and the criminal justice system. In the psychological science component, you'll develop an understanding of human behaviour and the variables that affect it, which will help you understand how people can get caught up in the criminal justice system. In the criminology and criminal justice component, you'll study crime trends and learn how crime can be analysed and prevented. You'll have the option to complete a professional practice placement one day a week in your final year to gain experience in a justice-related workplace.

Career opportunities: You may find opportunities in probation and parole, community corrections, guidance, health management, family services, counselling, child protection, program and policy development, research and administration.

Bachelor of Psychological Science/Master of Mental Health Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233611 Gold Coast	4F	67.00 unadjusted	73.00 adjusted	Mar 2024	11 Jan 2024
225532 Mt Gravatt	4F	60.05 unadjusted	68.05 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this integrated vertical degree, you'll gain a thorough grounding in the application of clinical, development, biological, cognitive, social, and organisational psychology. You'll then build on this broad knowledge base with studies in the growing specialist area of mental health practice, extending your knowledge of psychological services as they apply to mental illness. You'll undertake a professional practice placement within the field of mental health as part of this degree and will be prepared for a profession in the various settings where mental health knowledge is essential. **Note:** Bachelor of Psychological Science courses are conducted at the Gold Coast and Mt Gravatt and Master of Mental Health Practice courses are conducted online (with in-field professional placement).

Career opportunities: You'll be ready for a range of opportunities in the health workforce such as community support worker, peer support worker, disability worker, housing officer, police liaison officer, and other mental health support roles.

Bachelor of Psychological Science/Master of Rehabilitation Counselling

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233601 Gold Coast	4F	❖ unadjusted	❖ adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧
225522 Mt Gravatt	4F	✦ unadjusted	✦ adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this integrated vertical degree, you will gain a thorough grounding in the application of clinical, development, biological, cognitive, social and organisational psychology. You will then build on this broad knowledge base with studies in the specialist area of rehabilitation counselling. To acquire the advanced knowledge and skills to work as a rehabilitation counsellor, you will learn about vocational evaluation, job placement, injury management, disability studies, applied counselling and research methods. You will put this all into practice through a supervised practicum placement in a rehabilitation counselling setting. **Note:** Bachelor of Psychological Science courses are conducted at the Gold Coast and Mt Gravatt and Master

of Rehabilitation courses are conducted online (with in-field professional placement). **Other requirements:** Students must undertake a placement.

Career opportunities: Bachelor of Psychological Science: You will be prepared for a career in counselling; guidance; health management; social research; rehabilitation and other related fields including health and organisational workplaces. You may also be eligible for entry into a wide range of postgraduate degrees in areas such as social work, speech pathology, teacher preparation, forensic mental health, criminology and criminal justice. You will need to complete further study to work as a registered psychologist. Master of Rehabilitation Counselling: You will be prepared to work as an accredited rehabilitation counsellor in government; insurance; workers compensation and motor accident rehabilitation; disability employment services; the National Injury Insurance Scheme (NIIS); the National Disability Insurance Scheme (NDIS) (or equivalent internationally); and private and not-for-profit rehabilitation services providing vocational assessment; counselling; case management; life skills training and social support for clients with disability; injury and vocational disadvantage.

Bachelor of Psychology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
231632 Gold Coast	4F or 8P	72.05 unadjusted	79.70 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧
225511 Mt Gravatt	4F or 8P	72.35 unadjusted	80.35 adjusted	Mar, Jul, Nov 2024	11 Jan, 6 Jun 2024, ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith ATAR Guarantee and VET Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: You will gain an understanding of the key fields of psychology and acquire research experience by completing an independent research project during an additional year of study. Under supervision, you'll design, administer and interpret tests to understand intellectual, behavioural and emotional states, counsel people about personal, health, vocational and social difficulties, learn how to apply psychological theories, and provide follow-up support services. Honours is a fourth year within the Bachelor of Psychology, and eligibility to progress to year 4 (honours) is subject to academic achievement. **Other requirements:** Students must meet the required level of academic achievement to progress into the fourth year. Students must undertake a placement in fourth year and meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub. **Majors:** Minors: clinical and counselling; development and community; health and sport/exercise; organisational; psychological science.

Career opportunities: You will be qualified for professional employment as a probationary psychologist in areas such as job placement, clinical or organisational psychology, counselling, guidance, health management and social research. Psychology graduates are employed in a wide range of occupations and industries including in human resource management, aged care services, the police service and defence forces, marketing, welfare and community services, children's services and family support, correctional services, and mental health services. You can also pursue further studies to work in specialist fields, including becoming a clinical psychologist, organisational psychologist, or other specialist psychologist.

Bachelor of Public Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
234152 Gold Coast	3F or 6P	61.15 unadjusted	67.15 adjusted	Mar 2024 Nov 2024	11 Jan 2024 ✧

Prerequisites: Any General or Applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: The World Health Organization defines public health as the art and science of preventing disease, prolonging life and promoting health through the organised efforts of society. You'll develop the knowledge and skills needed to make a valuable contribution to society in this high demand area. You'll learn how to address major health issues including chronic disease, sexual health, under- and over-nutrition, HIV/AIDs, physical inactivity, and drug and alcohol abuse, in settings such as workplaces, hospitals and schools. In the final year, you'll put your studies into practice through professional placements in public health organisations. **Other requirements:** Students must undertake placements. A health check including immunisation status, a Suitability Card and national police records check are required. For further information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: As a graduate you will be qualified to find work as a public health officer or a health promotion officer tackling our most pressing health issues. You could work on intervention programs or policies in teams at an international level with organisations such as the World Health Organization, the United Nations or UNICEF or with federal, state or local governments or at the community level. You will be prepared for a range of contemporary issues such as mental health, women's and men's health, epidemics and pandemics, alcohol and drugs, and child and adolescent health.

Bachelor of Sport Development

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233562 Gold Coast	3F or 6P	57.20 unadjusted	65.20 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This is your opportunity to turn your passion for sport into your profession - one with strong employment prospects. Taught on the Gold Coast in world-class facilities, this degree lets you learn the ins and outs of sport development and how to design, deliver and manage recreation activities for the broader community. Four main areas of study make up this degree: sport science, sport management and marketing, health promotion and sports coaching. You'll also study the specialist field of community development through sport which is all about increasing participation in sport through the design of sport systems and pathways to attract, retain and nurture participants. **Note:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub.

Career opportunities: You'll be prepared for a career in a wide range of community sport and recreation areas, including health promotion and sport development in amateur and professional sporting organisations, as well as elite athlete development. You'll also be qualified to work in sport and recreation centres and resorts, national and state sporting organisations, event management and sport marketing media.

Combined degrees: Refer to entry for: B Sport Development/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Sport Development.

Bachelor of Sport Development/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
233741 Gold Coast	4F or 8P	59.75 unadjusted	67.10 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Any General or Applied English subject (Units 3 and 4, C) ✲.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you'll learn about sport development, business management and delivering recreation activities in the community. This degree explores four main streams of study: sport and exercise science; business, sport management and marketing; health promotion; and sports coaching. You'll gain comprehensive knowledge of the academic and applied aspects of sport, health and fitness while developing business management skills to prepare you for a wide range of career opportunities. **Note:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/health-placement-support-hub. **Majors:** Business: sport management.

Career opportunities: This program will prepare graduates for employment in community sport and recreation including health promotion officers, development officers within amateur and professional sporting organisations, program staff and managers at sport and recreation centres and resorts, executive officers with national and state sporting organisations, event managers/coordinators, and sport marketing and media officers. A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in health-related businesses, not-for-profit, government and corporate organisations.

JAMES COOK UNIVERSITY

Bachelor of Biomedical Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316071 Townsville	3F or 6P	67.60 unadjusted	75.60 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Course outline: Students develop an understanding of the normal structure, biochemistry, and physiology of the mammalian body and the processes leading to disease. They work in well-equipped laboratories with scientists involved in cutting-edge medical research, are exposed to current technologies, and develop widely transferable skills. The course is multidisciplinary, drawing from fields of study including anatomy and physiology, pharmacology and biochemistry, microbiology and parasitology, immunology and epidemiology, and pathology and pathobiology. **Note:** Students commencing studies mid-year will complete the course in 3.5 years full-time or 7 years part-time. **Other requirements:** Students undertake clinical placements at health facilities across

northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. **Majors:** Microbiology and immunology; molecular and cell biology; physiology and pharmacology.

Career opportunities: Medical research institutes, biotechnology companies, diagnostic services, government positions related to health policy.

Bachelor of Dental Surgery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
327091 Cairns	5F or 7P	87.95 unadjusted	87.95 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Application Form. **Additional entry information:** In addition to applying through QTAC, applicants must submit a JCU Online Application. The JCU Online Application Portal is available on the JCU website. **Closing date:** Domestic applicants: QTAC applications and JCU Online Application submissions close 30 September 2023. International applicants: QTAC applications and JCU Online Application submissions close 31 August 2023.

Course outline: This five-year course is a broad-based program encompassing all aspects of existing dental practice, with a special focus on tropical, rural and Indigenous practice. The curriculum integrates basic sciences with dental clinical sciences and preventative oral health strategies. There is early exposure to clinical practice, with a curriculum dedicated to acquiring clinical skills. The final year is dedicated entirely to clinical experience with students undertaking placement in Queensland Health dental facilities across northern Queensland. For more information, visit the JCU website. **Note:** Part-time study not permitted in Year 2 - Semester 2, and Years 3, 4 and 5. **Other requirements:** Students must undertake clinical placement at dental facilities across northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students enrolled in dental courses must undergo testing for blood-borne viruses (BBVs) including hepatitis B, hepatitis C and human immunodeficiency virus (HIV) before, or on entry to the course. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Dentists in private practice, public sector clinics, defence forces.

Bachelor of Medical Laboratory Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316121 Townsville	4F or 8P	75.45 unadjusted	80.10 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Course outline: This course has a strong clinical focus and provides students with a comprehensive grounding through the study of the normal functions of the human body and the mechanisms of disease. Students study a combination of foundation subjects and subjects to develop the skills to make independent, evidence-based decisions that inform other health practitioners. In final year, students undertake clinical placements throughout Australia or internationally. The course is accredited by the Australian Institute of Medical Scientists. For more information, visit the JCU website. **Other requirements:** Students in fourth year participate in three months of clinical placement in a regional medical laboratory, which may include laboratories in Papua New Guinea. Students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card and Australian Federal Police check may be required; refer to institution.

Career opportunities: Laboratory scientist in public hospitals, private medical pathology laboratories or veterinary diagnostic laboratories, food and water microbiology, pharmaceutical industry.

Bachelor of Medicine, Bachelor of Surgery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
317012 Townsville	6F	91.65 unadjusted	91.65 adjusted	Feb 2024	11 Jan 2024
327012 Cairns	6F	91.85 unadjusted	91.85 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Application Form. **Additional entry information:** Selection is based on a combination of online application, academic results and interview. In addition to applying through QTAC, applicants must submit a JCU Online Application. The JCU Online application portal is available on the JCU website Current domestic Year 12 applicants must request their school submit a Prediction of Academic Achievement form to JCU. This form is available on the JCU website. Students will be invited for an interview based on their academic results and the evaluation of the JCU Online Application. Interview panels use specific criteria to assess applicants and identify attributes suited to a career in medicine. Interviews will be held in early December 2023 and early January 2024 via Zoom. This degree is primarily for Year 12 applicants. A limited number of places may be available for graduates or non-Year 12 applicants. **Closing date:** Domestic applicants: QTAC applications and JCU Online Application submissions close 30 September 2023. International applicants: QTAC applications and JCU Application Form submissions close 31 August 2023.

Course outline: This comprehensive six-year course covers the essential requirements of an Australian medical degree with special emphasis on tropical medicine and the health of rural and remote communities and Indigenous Australians. Graduates can work as interns in Australian or New Zealand hospitals and take further training in any branch of medicine. Solid clinical experience begins early with placement in rural locations and regional cities. Students in fifth and sixth year are placed in clinical school sites such as Cairns, Mackay and Townsville. For more information, visit the JCU website. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: With further study, general practitioners or medical specialists working in community settings, private practice, public or private hospitals, in medical research.

Bachelor of Nursing Science - Pre-Registration

316139 Flexible delivery	3ML or 6ML	65.80 unadjusted	66.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, English must be your primary language and you must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one or more of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you do not meet this criteria, you will be required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: Students develop skills in communication, assessment of clients, planning and implementing nursing interventions, and managing and evaluating nursing care. In addition, the course offers scientific, biophysical and humanistic behavioural knowledge. Clinical education is an integral part of the course. Students participate in supervised clinical practice in a variety of hospitals, health agencies and community settings. Students are required to attend clinical placement away from their base during their studies. For more information, visit the JCU website. **Note:** Applicants for mid-year may have to undertake part-time study in semester 2. This mixed-mode delivery course is offered part-time and involves a combination of distance education and approximately one week per teaching period of residential school on-campus study at Townsville or Cairns for some subjects. **Other requirements:** Students must participate in prescribed professional and clinical placements at their own expense. Prior to taking clinical placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private health systems, in schools, with corporations, the defence forces, aid organisations.

Bachelor of Nursing Science/Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
317122 Townsville	4F or 5P	76.15 unadjusted	85.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, English must be your primary language and you must

have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one or more of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you do not meet this criteria, you will be required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website. **Closing date:** QTAC applications for this program close 8 December 2023.

Course outline: The course provides a strong academic foundation focusing on competent, culturally appropriate, evidence-based midwifery and nursing practice. The practice-based curriculum blends basic and applied sciences with the art of nursing and woman-centred midwifery care. It prepares practitioners with skills across both nursing and midwifery. Clinical placements ensure that students apply theory to practice in a range of settings, with a focus on practice in rural, remote and tropical contexts. For more information, visit the JCU website **Note:** The part-time option is only available for Level 1. For Level 2 onwards, students must be enrolled full-time. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private health sectors across a range of health areas.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316101 Townsville	4F or 6P or $4^{1/2}$F	64.10 unadjusted	65.25 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C).

Course outline: Occupational therapists assist people to overcome challenges caused by injury, illness, psycho-emotional difficulties, developmental delay, or the effects of ageing. Graduates are prepared to work with people in a range of health and community settings through fieldwork placements throughout north Queensland, with some interstate and international placements. In their final two years of study, students engage in either a research or professional honours project relevant to contemporary occupational therapy practice. For more information, visit the JCU website. **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be completed full-time. Students commencing studies mid-year will complete the course in 4.5 years. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. **Majors:** Professional honours (full-time only); research honours (full-time only). Students must achieve a minimum GPA of 5.5 across levels one and two to be offered a position in the research honours major.

Career opportunities: Public and private hospitals, medical rehabilitation units, retirement homes, psychiatric clinics, hospitals, workplace health and safety.

Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316151 Townsville	4F or 6P	68.00 unadjusted	70.00 adjusted	Feb 2024	11 Jan 2024
336151 Mackay	4F or 6P	72.80 unadjusted	80.80 adjusted	Feb 2024	11 Jan 2024
326151 Cairns	4F or 6P	68.00 unadjusted	76.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Course outline: Students gain the communication, legal, ethical, management, and research skills required for modern pharmacy practice in hospitals, the community, industry, research, or educational settings. The course covers chemistry and biochemistry, drug and dosage form design, anatomy and physiology, disease states, pharmacology, pharmacokinetics, pharmacodynamics, therapeutics, public health and health promotion, and rural and remote practice. This course is accredited by the Australian Pharmacy Council. For more information, visit the JCU website. **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be competed full-time. **Other requirements:** A 600-hour placement program requires students to undertake experiential learning in both hospital and community practice, with a period in a rural area. Overseas placement opportunities and multi-disciplinary placement experiences are also available. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. **Majors:** Professional honours (full-time only); research honours (full-time only). Students must achieve a minimum GPA of 5.5 across levels one and two to be offered a position in the research honours major.

Career opportunities: Community, hospital and industrial pharmacies, pharmacy administration, research and education, government, the military.

Bachelor of Physiotherapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
317031 Townsville	4F	70.40 unadjusted	76.40 adjusted	Feb 2024	21 Dec 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C). **Closing date:** QTAC applications close on 8 December 2023.

Course outline: Physiotherapists are health professionals who assess and diagnose problems with human movement, then plan and administer treatment to restore function or minimise dysfunction after disease or injury. Studies include health science subjects, anatomy/physiology, and specialised areas such as movement analysis, manual techniques, exercise prescription and therapeutic massage. Clinical placements ensure students apply theory to practice in various settings, including rural, remote, tropical, national and international contexts. For more information, visit the JCU website. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Private practice, hospitals, health centres, schools, aged care, sporting organisations.

Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
311081 Townsville	3F or 6P	63.75 unadjusted	63.75 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: First year consists of introductory subjects in psychology and sociology. Second and third-year studies include a range of psychology subjects - social, abnormal, intercultural, environmental and forensic, lifespan development, brain and behaviour, memory and cognition, psychological assessment, statistical and research methods, and cognitive neuroscience. High achieving students who successfully complete the Bachelor of Psychological Science can study a Bachelor of Psychological Science (Honours) or the Graduate Diploma of Psychology. For more information, visit the JCU website

Career opportunities: Human service organisations including the health sector, educational facilities, consumer research, marketing, human resource management.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
317041 Townsville	4F or 6P	68.00 unadjusted	70.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Health or Psychology (Units 3 and 4, C).

Course outline: Speech pathologists diagnose and treat people with communication and/or swallowing disabilities. The course develops knowledge in anatomy, linguistics and health science, as well as skills for assessing and treating speech, language, voice, fluency, and swallowing disorders. The focus is on rural and remote practice, issues relevant to Indigenous people, and interdisciplinary learning. Clinical placements start in second year with final-year placements outside Townsville. This course is accredited by Speech Pathology Australia. For more information, visit the JCU website. **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be competed full-time. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. **Majors:** Professional honours (full-time); research honours (full-time). Students must achieve a minimum GPA of 5.0 across levels 1 and 2 to be offered a position in the research honours major.

Career opportunities: Education departments, community health centres, hospitals, rehabilitation centres, disability agencies, mental health, private practice, university teaching, research.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316111 Townsville	3F or 6P or 3 1/2F	64.05 unadjusted	69.75 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course produces graduates with an understanding of the processes and mechanisms of human physical activity. Students focus on how physical activity enhances human performance in occupational, sport, exercise, and leisure settings. Foundation studies include anatomy, physiology and psychology, followed by applied and advanced studies in exercise physiology, sports medicine, functional anatomy, biomechanics, health promotion, sport and exercise nutrition, and sport and exercise psychology. Students have access to world-class technical, training and testing facilities, including our new state of the art JCU Sport Performance Hub. This course is accredited by Exercise and Sports Science Australia. For more information, visit the JCU website. **Note:** Students commencing studies mid-year will complete the course in 3.5 years. **Other requirements:** Students must complete 140 hours of practical experience with sporting, professional and community bodies including institutes/academies of sport, hospitals, professional sporting clubs, defence forces, fitness centres, and other allied health services. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community and corporate health and fitness, government agencies associated with sport, physical activity and health, sports academies, research.

Bachelor of Sport and Exercise Science/Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
317161 Townsville	5F or 10P	74.05 unadjusted	80.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course combines two fields of study highly sought after in the jobs market. The Sport and Exercise Science degree provides students with a comprehensive understanding of how the human body responds to physical activity while the Psychological Science degree exposes students to the study of the human mind and develops a strong foundation of psychological theory, practice, and research skills. Students have access to world-class technical, training and testing facilities, including our new state of the art JCU Sport Performance Hub. Students undertake supervised, practical placements to develop professional and work-ready skills. For more information, visit the JCU website. **Other requirements:** Students must complete 140 hours of practical experience with sporting, professional and community bodies including institutes/academies of sport, hospitals, professional sporting clubs, defence forces, fitness centres, and other allied health services. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community and corporate health and fitness, government agencies associated with sport, physical activity and health, sports academies, research.

Diploma of Higher Education (Dentistry)(Indigenous Pathway)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
320092 Cairns	1F or 2P	✚ unadjusted	✚ adjusted	Feb 2024	11 Jan 2024

Prerequisites: Indigenous/ First peoples check status; Application Form.
Additional entry information: In addition to applying through QTAC, applicants must submit a JCU Application Form for the Bachelor of Dental Surgery to the Division of Tropical Health and Medicine and documentation confirming eligibility for the Indigenous Pathway. The JCU Application Form and details of the Indigenous Pathway are available at jcu.edu.au/dthm/forms. **Closing date:** 30 Sep 2023.

Course outline: This course is for students who identify as Australian Aboriginal and/or Torres Strait Islander and who do not qualify for entry to the Bachelor of Dental Surgery. Students will study two core health subjects plus a mix of core introductory and first year subjects, and an elective subject. Successful completion of the diploma allows entry to the JCU Bachelor of Dental Surgery with credit transfer for some successfully completed subjects. For more information, visit the JCU website.

Diploma of Higher Education (Health)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
310061 Townsville	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course is for students who do not qualify for entry to bachelor degrees or students seeking additional skills development before undertaking a bachelor's degree. In the health stream, students study two core subjects plus a mix of introductory and first-year subjects in a wide range of health-related fields including nursing, exercise nutrition, psychology, allied health and pharmacy. Successful completion of the diploma allows entry to JCU degree programs with credit transfer for some subjects successfully completed. For more information, visit the JCU website.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418401 Gardens Point	3F or 6P	61.45 unadjusted	70.15 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: First-year studies in biological chemistry, biomedical physics, anatomy, physiology, and human cell and molecular biology form the foundation for the study of clinical areas. In second and third years, you choose one major and two minor study areas to build knowledge in areas of emerging priority and employment. You can choose from anatomical sciences, cell and molecular biotechnology, human biochemistry, human physiology, or infection and immunity. Elective units can be completed in law, business and engineering. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Anatomical sciences; cell and molecular biotechnology; human biochemistry; human physiology; infection and immunity.

Career opportunities: Biochemist, biomedical laboratory officer, biomedical science researcher, biotechnology scientist, cardiac and vascular scientist, health researcher, laboratory assistant, laboratory technician, medical equipment sales, medicine (after further study), neurophysiologist, reproductive technician, respiratory scientist, scientist, sleep scientist.

Combined degrees: Refer to entries for: B Biomedical Science/B Business; B Biomedical Science/M Data Analytics (Biomedical Science); B Biomedical Science/B Laws (Honours); B Biomedical Science/B Mathematics.

Bachelor of Biomedical Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419432 Gardens Point	4F	66.10 unadjusted	72.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Biomedical research and the development of new biomedical products contribute to improving health outcomes worldwide. You gain the knowledge and skills to work as part of multidisciplinary teams in biomedical research, development and commercialisation. The Bachelor of Business is uniquely designed to inspire you to realise your full potential, to think entrepreneurially and to ethically and sustainably shape the future of 21st century business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline, engaging with the real world of business to your professional career. As a graduate, you can work for governments in regulation, compliance, or policy development and implementation roles; for venture capital and investment banks as an analyst; for innovation commercialisation companies as a consultant; or in the research sector. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Refer to Bachelor of Biomedical Science and Bachelor of Business.

Career opportunities: Refer to Bachelor of Biomedical Science and Bachelor of Business.

Bachelor of Biomedical Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419462 Gardens Point	5 1/2F	80.70 unadjusted	88.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This double degree combining biomedical science with law prepares you as a graduate to work as part of multidisciplinary teams in biomedical research, development and commercialisation. The demand

for specialists who have knowledge and skills across a number of these disciplines is increasing across local and international markets. You complete core science units before selecting a major. In the law component, you develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Refer to Bachelor of Biomedical Science.

Career opportunities: Refer to Bachelor of Biomedical Science and Bachelor of Laws (Honours).

Bachelor of Biomedical Science/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419112 Gardens Point	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This double degree enables you to develop life-long learning skills and mathematical inquisitiveness while understanding emerging medical complexities. Biomedical research and the development of new biomedical products contribute to improving health outcomes worldwide. You will gain knowledge and skills to work as part of multidisciplinary teams in biomedical research, development and commercialisation. The Bachelor of Mathematics component of the double degree will provide opportunities to develop skills and knowledge in mathematics and the ability to apply mathematics, statistics, computational methods and operations research to real world problems. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Refer to B Biomedical Science and B Mathematics.

Career opportunities: Medical research institutes and universities, hospitals and biotechnology companies, science journalism.

Bachelor of Biomedical Science/Master of Data Analytics (Biomedical Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419732 Gardens Point	4F	84.20 unadjusted	84.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This innovative double degree will enable you to complete a Bachelor of Biomedical Science in the Faculty of Health and a Master of Data Analytics offered by the Faculty of Science in four years (full-time). The degree is designed to produce biomedical science graduates with advanced skills in data analytics and will enable you to fast-track your qualifications. The complexity of the human body, modern lifestyle diseases and emerging medical treatments call for graduates with diverse skill sets. The application of bioinformatics, computer science and mathematical statistical modelling continues to have a major impact on research in the biomedical sciences. The combination of these two separate but complementary study areas will be at the forefront of developments in our understanding of public health, the causes of disease and the development of new approaches to treatment. This course is covered by the QUT Offer Guarantee. **Note:** The Master of Data Analytics (Biomedical Science) (which you start in fourth year and for study for 1F) is charged as a domestic tuition fee-paying course. FEE-HELP is available to eligible students. **Other requirements:** A Suitability Card may be required; refer to institution. **Majors:** Refer to Bachelor of Biomedical Science.

Career opportunities: There is a clear demand for biomedical science graduates with advanced skills in data analytics. The application of these quantitative approaches is at the forefront of developments in our understanding of public health, the aetiology of disease and the development of new approaches to treatment. With increased demands upon the health system, a digital transformation is underway to provide better quality and efficiency of healthcare, better population health and an improved overall patient experience. Graduates of the Bachelor of Biomedical Science will have multiple career opportunities depending on their chosen areas of specialisation. These include biomedical research; clinical science positions such as neurophysiologist or cardiac scientist; health organisations employing laboratory, administrative and/or management professionals; commercial and business entities that employ agents for biobusiness development, investment analysis, medical and biotechnology sales and marketing representatives, contract research, clinical trials; consultants in regulatory affairs and matters of compliance; government agencies in Science and Health; educational fields such as laboratory technician/technical officer, tertiary educator, medical illustrator or writer; postgraduate study in Medicine, Veterinary Science, Allied Health and Education.

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425422 Kelvin Grove	4F	74.40 unadjusted	78.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Upon graduation, you can work in hospitals and clinical settings as specialists in rehabilitation, injury prevention, clinical diagnostics and exercise programming. You complete 500 hours of professional placement to develop knowledge and skills for the assessment, prescription and delivery of exercise programs to help patients with chronic disease and injury. You undertake units in anatomy, psychology, nutrition, biomechanics, and motor control. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Cardiac scientist, exercise physiologist, exercise scientist, rehabilitation professionals

Bachelor of Health Information Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425391 Kelvin Grove & Online	3F or 6P or 3-6OL	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate, you are skilled in information systems and data analysis that support health care, planning, public health and medical research. You develop skills in new technology, people and project management, clinical coding, and data and information management within health and medicine. Studies in the disciplines of business, health, and information technology prepare you for a role in this emerging area. Studies are complemented with placements and visits to professionals in hospitals, government agencies, and not-for-profit organisations. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Health information services manager, clinical data manager, health data and casemix analyst, clinical coder/coding, auditor/coding educator, ehealth project officer.

Bachelor of Medical Imaging (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418182 Gardens Point	4F	91.85 unadjusted	99.50 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate, you'll be able to use techniques such as x-ray to produce high-quality images that are then used to diagnose, manage and treat an injury or disease. Following foundation studies, you build skills using specialist equipment for digital radiography, general x-ray, mobile x-ray, mammography and dental. You also develop competency in computer systems and software that is used throughout industry. You complete extensive professional placement in hospital and private imaging facilities. The honours component is embedded in the course and provides a strong foundation in research skills and critical thinking. The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Imaging technologist or diagnostic radiographer in hospitals and radiology practices, medical equipment sales.

Bachelor of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418201 Gardens Point	4F or 8P	68.45 unadjusted	72.40 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate, you perform tests on human and veterinary specimens such as blood, bodily fluids, stool, urine, and tissue biopsies, and can interpret and analyse results to identify blood diseases, viruses and parasites, immunity disorders, and genetic mutations. Graduates are skilled in all areas of clinical pathology including immunology, haematology, cytogenetic and transfusion science. Final year includes a 12-week professional placement. You can choose an elective that supports your career aspirations, such as pharmacology, business, Indigenous health, or research techniques. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Medical laboratory scientist in the pathology industry in private laboratories or hospitals, medical research, postgraduate studies in medicine or medical science.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425231 Kelvin Grove	3F or 6P	76.05 unadjusted	84.05 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information on acceptable English Language tests please check the QUT website.

Course outline: As a graduate, you are highly-skilled nurse with an understanding of contemporary nursing practice and innovative nursing care. Course content focuses on the importance of patient-centred care

and nursing practice that is culturally safe, evidence based, and respectful. You have the opportunity to undertake up to 840 hours of professional placement (with a minimum of 800hrs required for registration) undertaken in block periods . Placements are available in public and private hospitals and community centres in Brisbane and regional and rural Queensland. This course is covered by the QUT Offer Guarantee. Deferment is not available. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Public and private hospitals and nursing homes, community health, armed services, school health, Indigenous health, pathology laboratories, alcohol and drug dependence.

Combined degrees: Refer to entries for: B Nursing/B Behavioural Science (Psychology); B Nursing/B Public Health.

Combined diplomas/degrees: You can combine this course with the QUT Undergraduate Certificate (Nursing).

Bachelor of Nursing/Bachelor of Behavioural Science (Psychology)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425112 Kelvin Grove	4F or 8P	81.45 unadjusted	84.40 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎. **Additional entry information:** You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information on acceptable English Language tests please check the QUT website.

Course outline: This course prepares you as a graduate to meet the requirements for a nursing career and also provides the skills to deal with situations where knowledge of human behaviour, advanced communication, and expert interpersonal skills would be an advantage, such as when working as a nurse in a mental health, emergency, palliative care, or cancer unit. You complete 840 hours of professional placement in hospital and healthcare settings. Registration as a psychologist requires further study. This course is covered by the QUT Offer Guarantee. Deferment is not available. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Community health, public and private hospitals, registered nurse, registered psychologist (with further study).

Bachelor of Nursing/Bachelor of Public Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425282 Kelvin Grove	4F	79.75 unadjusted	85.75 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎. **Additional entry information:** You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information on acceptable English Language tests please check the QUT website.

Course outline: As a graduate, you can apply nursing knowledge and skills to public health areas such as Indigenous health, population health issues and risk factors for illness. Professionals skilled across these disciplines can choose to work as a nurse in the clinical environment or as a public health professional, developing new programs and initiatives that improve community health and prevent disease. This course is covered by the QUT Offer Guarantee. Deferment is not available. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Clinical healthcare settings, health promotion agencies, nursing.

Bachelor of Nutrition and Dietetics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425442 Kelvin Grove	4F	87.00 unadjusted	93.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate, you have advanced knowledge in the science of nutrition and can use this knowledge to advise on appropriate diet, food preparation, and menu planning to treat disease. After foundation studies in chemistry, anatomy and physiology, nutrition communication and food and nutrition, students advance to studies in biochemistry, medical physiology and nutrition science. You provide specialised advice to clients from many cultural and social backgrounds through placements at the QUT Health Clinics and external settings. The honours component is embedded within the course and provides you with a strong foundation in research and critical thinking. The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. Deferment is not available. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Dietitian in hospitals, medical nutrition therapy, food service consultant, community or public health nutritionist, researcher, private practice and community health.

Bachelor of Nutrition Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425332 Kelvin Grove	3F	67.65 unadjusted	71.65 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate you will focus on nutrition issues that affect the whole population. With scientific knowledge about how food and nutrition can impact diet and prevent chronic disease, graduates are employed in a number of industries to analyse food supply, eating behaviours, and government policy, and to promote healthy lifestyle choices. Professional placements provide an understanding of how nutrition can be applied in diverse environments. You can choose elective units in social media, exercise and sport, business, and biosciences. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Community health centres and public health areas, government agencies, educational institutions, food industry, corporate environments.

Combined degrees: Refer to entry for: B Communication/B Nutrition Science.

Bachelor of Paramedic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425592 Kelvin Grove	3F	78.00 unadjusted	87.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This course prepares you as an ambulance paramedics when you graduate. Foundation studies in the anatomy and physiology of the human body and an introduction to health and disease concepts and statistical methods in health are followed by advanced units with an increasing emphasis on clinical skills through supervised practice with the Queensland Ambulance Service. You complete placements in metro and regional areas of Queensland, or travel overseas and work on shift with paramedics in other services. The QUT Offer Guarantee does not apply to this course. **Other requirements:** A Suitability Card is required; refer to institution. Before undertaking clinical placements with the Queensland Ambulance Service (QAS), you must undertake a QAS medical assessment (including mandatory vaccination & immunisation requirements) and have a criminal history check.

Career opportunities: Ambulance paramedic with agencies such as the Queensland Ambulance Service and other clinical settings.

Bachelor of Paramedic Science - Graduate Entry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425582 Kelvin Grove	2F	✱ unadjusted	✱ adjusted	Feb 2024	11 Jan 2024

Prerequisites: Prior study ⁎. **Additional entry information:** You must have completed a degree (or equivalent) in a medical science or health science field in 2014 or more recently. If you completed your degree earlier than 2014 you must provide evidence with your QTAC application of your graduate work experience and/or completed further studies in a medical science or health science gained in 2014 or more recently. Completed graduate diplomas, masters and/or doctorates are the accepted equivalents with a minimum volume of learning of 1.00 year full-time (or equivalent).

Course outline: This course prepares you as an ambulance paramedic when you graduate. Foundation studies in the anatomy and physiology of the human body and an introduction to health and disease concepts and statistical methods in health are followed by advanced units with an increasing emphasis on clinical skills through supervised practice with the Queensland Ambulance Service. You complete placements in metro and regional areas of Queensland, or travel overseas and work on shift with paramedics in other services. The QUT Offer Guarantee does not apply to this course. **Note:** Selection ranks: You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course. **Other requirements:** A Suitability Card is required; refer to institution. Before undertaking clinical placements with the Queensland Ambulance Service (QAS), you must undertake a QAS medical assessment (including mandatory vaccination & immunisation requirements) and have a criminal history check.

Career opportunities: Ambulance paramedic with agencies such as the Queensland Ambulance Service and other clinical settings.

Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418512 Gardens Point	4F	72.25 unadjusted	76.75 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate, you have expert knowledge about how drugs interact with the body and how they can be used safely for therapeutic purposes.

You complete more than 500 hours of professional placement in hospitals and community pharmacies and in healthcare roles where pharmacists are increasingly being employed. Studies focus on priority health areas of patient care such as musculoskeletal, cardiovascular and mental health conditions. The honours component develops advanced skills for leadership in an evolving profession. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Community and hospital pharmacies, the pharmaceutical industry, government, research agencies, academic institutions.

Bachelor of Podiatry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425222 Kelvin Grove	4F	76.00 unadjusted	81.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate using physical therapy and surgical techniques, you can diagnose and treat heel pain, running injuries, footwear problems and corrections, skin problems, tendon and joint injuries. You develop knowledge in anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine before completing 1000 hours of professional placement at QUT Health Clinics and external facilities. You participate in biomechanics/musculoskeletal clinics, sports clinics, diabetes foot complication clinics, paediatric clinics, and general podiatric clinics. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Private practice, hospitals, community health centres.

Bachelor of Podiatry - Graduate Entry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425102 Kelvin Grove	2½F	✱ unadjusted	✱ adjusted	Jul 2024	24 Apr 2024

Prerequisites: Prior study; Prior study in a particular field of education ⁎. **Additional entry information:** You must have a completed recognised Australian biomedical, health, or medical science bachelor degree completed in 2014 or more recently with a minimum volume of learning of 1.50 year full-time (or equivalent). **Closing date:** QTAC applications for this program close 19 April 2024.

Note: A one-week mandatory orientation program is conducted in Orientation Week (the week before the start of semester). Selection ranks: You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course. **Other requirements:** A Suitability Card is required; refer to institution. Clinical activities begin during first semester and you are required to provide a serology report demonstrating successful hepatitis B vaccination. The full hepatitis B vaccination course and serology report test can take six to nine months and must be completed before commencing this course in July.

Career opportunities: Private practice, hospitals, community health centres.

Bachelor of Public Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425372 Kelvin Grove & Online	3F or 6P or 3-6OL	65.60 unadjusted	70.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: As a graduate, you understand how factors such as gender, socioeconomic status, and access to education can affect health. They apply this knowledge to develop and deliver health programs, services and policies that improve the health and wellbeing of whole populations. You complete studies in sociology, epidemiology, statistics and evaluation, before choosing electives in community nutrition, Indigenous studies, family and gender studies, science, general psychology, counselling, or health management. Local, rural and overseas placements are available. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Health policy and project management, community health, public health education and promotion, project officer, consultant for health organisations.

Combined degrees: Refer to entries for: B Communication/B Public Health; B Human Services/B Public Health; B Nursing/B Public Health.

Bachelor of Radiation Therapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418192 Gardens Point	4F	92.85 unadjusted	97.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: As a graduate, you plan and deliver highly accurate radiation treatment, and offer emotional support and care for cancer patients. Professional placement begins in first year and is completed in private and public radiation therapy facilities throughout Queensland and at some interstate sites. Studies cover interaction of radiation and body tissue and treatment planning using clinical software, and treatment delivery. The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Radiation therapist in public hospitals and cancer care centres.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425302 Kelvin Grove	3F	63.60 unadjusted	70.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Graduates can apply complex knowledge to the design, delivery and evaluation of exercise programs, interventions and assessments that meet the specific needs of their client in a non-clinical setting. Students complete 300 hours of professional placement with sporting associations, fitness centres, school coaching programs, strength and conditioning programs, and academies of sport. Students take units in exercise psychology, injury prevention and rehabilitation, resistance training and performance analysis. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Exercise scientist, sports scientist, strength and conditioning training, corporate health, community health, sport science research.

Bachelor of Vision Science/Master of Optometry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
425312 Kelvin Grove	5F	95.30 unadjusted	98.40 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Optometrists examine eyes and the visual system to protect and improve vision and to detect and diagnose eye disease. Optometrists may prescribe therapeutic medications for a range of eye conditions. The bachelor component provides a theoretical foundation in the life sciences, vision sciences and clinical science. On completion of the Bachelor of Vision Science with a GPA of 4.00 (or better), you enter the Master of Optometry to complete your clinical practice studies in the QUT Optometry Clinic and other healthcare settings. Practical studies include working with Indigenous patients and children with low vision. The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** A Suitability Card is required; refer to institution.

Career opportunities: Optometry practice, contact lens practice, paediatric vision, occupational and public health vision, low vision practice in private practice, vision science research.

Undergraduate Certificate (Nursing)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
420551 Kelvin Grove	½F or 1P	64.60 unadjusted	66.55 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information on acceptable English Language tests please check the QUT website.

Course outline: The Undergraduate Certificate (Nursing) provides you with foundational knowledge and skills related to the broad field of healthcare with a focus on nursing. Covering both practical and theoretical realms, in this course you will learn about: law and ethics as related to healthcare; anatomy and physiology of the human body; person-centred care and partnerships in nursing practice; and the key attributes of the registered nurse in contemporary practice. You will learn in a highly supportive environment and have access to a suite of services designed to help achieve your study goals and advance your career. The QUT Offer Guarantee does not apply to this course. Deferment is not available.

Combined diplomas/degrees: Upon completion of this undergraduate certificate, you will be automatically offered a place in the Bachelor of Nursing. Each of your undergraduate certificate units will be credited to the degree.

SOUTHERN CROSS UNIVERSITY

Southern Cross University

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
059661 Gold Coast	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Course outline: This course provides a scientific understanding of the structure and function of the human body and the interrelationships between health and disease. Students develop problem-solving and critical reasoning skills, and learn how to apply those skills to their chosen discipline. Students undertake approximately 90 hours of professional placements to gain workplace experience. Graduates may qualify for entry into a range of graduate health professional programs including postgraduate pharmacy and physiotherapy or choose to pursue medicine or other careers.

Career opportunities: Biomedical, health, university and government researcher, hospital, veterinary and pathology laboratories and scientific sales, quality assurance, health departments, pharmaceutical and cosmetic industries. Graduates may pursue postgraduate studies in the medical field.

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
059111 Lismore	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024
059121 Coffs Harbour	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Clinical Exercise Physiology is a four-year degree that develops expert knowledge about how exercise can improve health and well-being and manage chronic disease. It prepares graduates for an exciting career as an accredited exercise physiologist (AEP). Students complete more than 500 hours of clinical placement at the on-campus Health Clinic and external locations including hospitals, local government and private health providers. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites; refer to Southern Cross University for details.

Career opportunities: Clinical exercise physiologists are skilled in assessing, prescribing and delivering exercise programs to assist clients better manage their health and range of chronic disease conditions, such as diabetes, cancer, cardiac, respiratory, musculoskeletal, neurological disease and mental health conditions. Medicare and many private health insurers recognise and cover services supplied by accredited exercise physiologists.

Bachelor of Clinical Sciences (Osteopathic Studies)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
055111 Lismore	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
059761 Gold Coast	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Course outline: This course has a strong clinical focus and provides students with a comprehensive grounding in biomedical science and health. Graduates have the knowledge and skills to continue with postgraduate study with four units of credit towards the Master of Osteopathic Medicine, which is necessary for registration as an osteopath. Total full-time duration for both courses is four years, during which students undertake 800 hours of supervised professional placement. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Police and health record checks are required before undertaking placements; refer to Southern Cross University.

Career opportunities: This course plus our Master of Osteopathic Medicine provides a professional, entry-level program for graduates to be eligible to register as osteopathy practitioners.

Bachelor of Exercise Science and Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
055155 Coffs Harbour	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024
055112 Lismore	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024
055261 Gold Coast	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: This double degree provides understanding of the structure and function of the human body as it relates to movement, the interrelationships between health and disease, and the psychological bases of human behaviour. Graduates might pursue careers with therapeutic connections to sport and exercise such as professional athlete counselling and rehabilitation or choose to pursue postgraduate study to become a psychologist. Students complete a 140-hour exercise science professional placement in the third year of the course. Facilities include fully-equipped exercise physiology, biomechanics and biochemistry labs, multi-purpose sports hall and weight training gymnasium. **Note:** For students commencing in July, course duration is 4.5F or 9P.

Career opportunities: Psychologist (with additional postgraduate training) or careers that have therapeutic connections to sport and exercise, such as professional athlete counselling, rehabilitation, or counselling within schools and colleges.

Bachelor of Health Science (Health and Lifestyle)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
059101 Lismore	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
055571 Gold Coast	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Health Science (Health and Lifestyle) is a foundation degree for students who wish to pursue a career in health, naturopathic medicine, or lifestyle medicine. Students develop an understanding of health science, social science, lifestyle medicine, clinical science, scientific enquiry and naturopathic medicine. Students will also develop a theoretical and practical understanding of health promotion through undertaking a work-integrated health placement or professional engagement with Aboriginal communities. This degree provides graduates with a solid foundation in evidence-based practice and a deep understanding of naturopathic medicine's philosophical foundations of preventing ill-health, improving patient health outcomes, supporting a patient's innate ability to heal and addressing the underlying causes of illness. **Other requirements:** This course includes a professional placement, with the choice of either a work-integrated health placement or professional engagement with Aboriginal communities. There are regulatory requirements that students must meet before commencing professional placements. Please check the web page for details.

Career opportunities: This course provides a direct pathway into the Master of Naturopathic Medicine, which enables graduates to practice as a Clinical Naturopath. As a clinical naturopath, graduates will be qualified to work in private practice, as well as a range of integrative and acute healthcare settings, such as aged care, palliative care, an emergency department or an integrative health clinic. In addition to careers in clinical naturopathic medicine, students will be well-prepared for diverse roles working within health care teams (as an allied health assistant, health/lifestyle coach or care coordinator), community teams (as a health promotion officer, community development officer, or project officer), or independently (as a health/lifestyle consultant, or health communicator/writer).

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
055861 Gold Coast	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
055451 Coffs Harbour	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Prerequisites: ⁎. Additional entry information: Applicants must demonstrate English language proficiency to the current standards of registration as a midwife by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with minimum 6.5 in each of the four bands - Listening, Speaking, Writing, and Reading.

Course outline: This course develops graduates for entry to professional midwifery practice. It prepares graduates to provide high quality woman-centred care through safe and effective midwifery practice in accordance with the Australian Nursing and Midwifery Council Midwife standards for practice. Graduates are equipped to apply sound evidence-based reasoning skills to their midwifery practice and collaborate effectively in multidisciplinary teams to promote effective outcomes. Students undertake 1000 hours of supervised placements. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Registered midwife or clinical midwifery consultant in public and private hospitals, community maternity and neonatal healthcare settings; group practice midwife, clinical midwifery consultant, midwifery educator, midwifery unit manager, independent midwife (with further training); in Australia and in New Zealand.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
055471 Gold Coast	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
055011 Lismore	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
055151 Coffs Harbour	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Prerequisites: ⁎. Additional entry information: To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Nursing has a well-balanced curriculum that develops anatomical knowledge and understanding of the principles of nursing as well as the legal and ethical framework of nursing practice. Students learn in state-of-the-art facilities with interactive models and simulation laboratories developing critical thinking, leadership and clinical skills that may be applied in a wide range of clinical settings. Supervised clinical placements of approximately 840 hours provide students with nursing experience in a range of primary, secondary and tertiary facilities throughout Australia. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check

and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Registered nurse in surgical theatres, paediatrics, community health and education and primary care, practice nurse in GP clinics, mental health, aged care, Indigenous health.

Bachelor of Occupational Therapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
055961 Gold Coast	4F or 8P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
059151 Coffs Harbour	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Additional entry information: Applicants must demonstrate English language proficiency to the current standards of registration as an occupational therapist by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with 7.0 in each of the four bands - Listening, Speaking, Writing, and Reading.

Course outline: Occupational therapy assists people of all ages to participate in the everyday tasks and activities (occupations) that they need and want to do, whether at home, at work, at school or in the community. Occupational therapists transform and adapt environments, activities, equipment and enhance performance to support and promote meaningful engagement and participation. They may work with individuals, groups, government and non-government organisations, in private practice and communities. Students complete approximately 1000 hours of professional placement. **Note:** For students commencing in July, course duration is 4.5F or 9P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details. **Majors:** Optional major in Indigenous Health.

Career opportunities: Occupational therapist working with individuals, groups, government and non-government organisations, in private practice and communities, in aged care, hospitals, community health, mental health services, schools, industrial environments.

Bachelor of Speech Pathology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
059861 Gold Coast	4F or 8P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024
059051 Coffs Harbour	4F or 8P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Additional entry information: Applicants must demonstrate English language proficiency to a level required by the institution. Applicants from a non-English speaking background require a minimum IELTS of 7.5 overall with minimum 8.0 in Listening and Speaking and minimum 7.0 in Writing and Reading. Refer to institution for more information.

Course outline: This course prepares students for entry into professional speech pathology practice. Speech pathologists assess and treat adults and children exhibiting acquired or congenital disorders of speech, fluency, voice, language and swallowing and multimodal communication. Students become knowledgeable, skilled, empathetic, ethical and innovative professionals able to provide effective assessment and intervention for people of different ages. Students complete approximately 1000 hours of professional placement. **Note:** For students commencing in July, course duration is 4.5F or 9P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details. **Majors:** Optional major Indigenous Health.

Career opportunities: Speech pathologists work in diverse settings including private practice, the corporate sector, schools, community health centres, nursing homes and mental health services.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
056181 Gold Coast	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

TAFE QUEENSLAND

Bachelor of Dental Prosthetics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555145 South Bank	3C	39.75 unadjusted	39.75 adjusted	Jan 2024	11 Jan 2024

Additional entry information: A high degree of manual dexterity is required for success as a dental prosthetist. For more information about the course, selection criteria and clinical placement refer to the TAFE Queensland website. Successful applicants who do not have the recommended study and are at risk of non-completion of the program may be required to undertake bridging studies as part of first semester.

Course outline: Dental prosthetists work independently to provide complete and partial dentures, dental appliances, and mouth-guards to the public. This course is suitable for both students wanting to take their existing oral health qualification to the next level, and students with no prior dental experience wanting to forge a new career path with a clinical qualification. Students learn to issue, maintain and examine dental prosthetics, insert and try-in dentures, take impressions, and undertake production and technical work. This is a highly technical course, with units providing broad and coherent knowledge in pathophysiology, pharmacology, radiology, and clinical skills. **Note:** FEE-HELP may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information. **Other requirements:** Required immunisations prior to clinical practice: hepatitis B, tetanus and whooping cough (pertussis). Recommended immunisations prior to clinical practice: seasonal influenza, varicella-zoster virus (chicken pox) and MMR (measles, mumps, rubella) vaccines. While TAFE Queensland will make every effort to minimise disruption to study, the current COVID-19 pandemic situation and subsequent restriction of access to some health care facilities during this time, may cause delays with clinical practice requirements and completion of this course. Future students are advised that access to clinical practice may require evidence of commencement or full vaccination for COVID-19.

Career opportunities: Registered dental prosthetist, health practitioner.

Certificate IV in Fitness

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555825 South Bank Online	3/4 OV	✚ unadjusted	✚ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Prior study. **Additional entry information:** To be eligible for and offer in this course applicants must have successfully completed the following units of competency or their equivalent : HLTAID011 Provide First Aid (or a unit that supersedes this unit), HLTWHS001 Participate in workplace health and safety, SISFFIT032 Complete pre-exercise screening and service orientation, SISFFIT033 Complete client fitness assessments, SISFFIT035 Plan group exercise sessions, SISFFIT036 Instruct group exercise sessions, SISFFIT040 Develop and instruct gym-based exercise programs for individual clients, SISFFIT047 Use anatomy and physiology knowledge to support safe and effective exercise and SISFFIT052 Provide healthy eating information. Applicants who hold SIS30315 Certificate III in Fitness, will need to have completed the two group exercise elective units SISFFIT007 and SISFFIT011 to meet the entry requirements for this qualification. If your qualification does not contain these units, you will need to complete the following two units prior to enrolling in the Certificate IV program, SISFFIT035 and SISFFIT036.

Course outline: Students will gain the specialised skills and knowledge needed to start a career in personal training. In addition to learning specialised skills and knowledge to instruct personal training programs, group personal training, and exercise for older clients, students may also learn the fundamentals of operating their own small personal training business. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Personal trainer.

Certificate IV in Fitness (incorporating Certificate III in Fitness)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555824 South Bank	1CO	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Additional entry information: Successful applicants will be required to successfully complete SIS30321 Certificate III in Fitness before progressing to SIS40221 Certificate IV in Fitness. Students who hold SIS30315 Certificate III in Fitness, will need to have completed the two group exercise elective units SISFFIT007 Instruct group exercise sessions and SISFFIT011 Instruct approved community fitness programs to meet the entry requirements for SIS40221 Certificate IV in Fitness.

Course outline: Students will learn how to instruct personal training programs, group personal training, and exercise for older clients. Students will also get the hands-on skills and knowledge needed to operate a small personal training business. Note: The South Bank Certificate IV incorporates the Certificate III in Fitness which has a fee subsidy for eligible applicants. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Personal trainer.

Diploma of Anaesthetic Technology and Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555536 South Bank	2C	☆ unadjusted	☆ adjusted	Jan 2024	11 Jan 2024

Course outline: Students will learn how to confidently assist the anaesthetist in preparing the client for their anaesthetic, this will include checking and maintaining the anaesthetic machine, preparing anaesthetic medications, monitoring clinical measurements, assisting with airway management techniques and anticipating and responding to any anaesthetic emergency. Industry health professionals will guide students to ensure their transition into the health sector is a success. TAFE Queensland's designated learning space with state-of-the-art anaesthetic machines, vital signs monitors, difficult intubation equipment, and simulator mannequins, will prepare graduates for real-world situations while under the supervision of industry professionals. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information. **Other requirements:** Prior to commencing clinical placement, students may be required to satisfy requirements relating to a criminal history check, Suitability Card, vaccinations and Senior First Aid certificate. While TAFE Queensland will make every effort to minimise disruption to study, the current COVID-19 pandemic situation and subsequent restriction of access to some health care facilities during this time, may cause delays with vocational placement and completion of this course. Future students are advised that access to public and private health facilities or organisations in your State for vocational placement assessment may require evidence of commencement or full vaccination for COVID-19. For the latest health advice please refer to tafeqld.edu.au/health-advice for information.

Career opportunities: Anaesthetic technician.

Additional entry information: To practice safely in Australia, health practitioners, including nurses, must have strong English language skills. This includes being able to communicate effectively with patients and their relatives, collaborate with other health care professionals and keep clear and accurate health records. The English language skills registration standard is one of the five core standards required under National Law. In preparation for registration, and required by the Nursing and Midwifery Board of Australia, all new applicants to study the Diploma of Nursing at TAFE Queensland are to demonstrate English language proficiency, as well as literacy and numeracy skills prior to enrolment. Successful applicants will be required to complete the Basic Key Skills Builder (BKSB) assessment and attain competence at or above Exit Level 3 in the Australian Core Skills Framework (ACSF) in both reading and numeracy before enrolment can be finalised. This is a requirement in accordance with TAFE Queensland and the Australian Nursing and Midwifery Accreditation Council (ANMAC). The BKSB is a Commonwealth approved literacy and numeracy online assessment tool. Kingaroy (566775), Warwick (570775), Roma (565775) and Toowoomba (568775): for these campuses, preference is given to applicants who reside in these regions. Successful applicants must undertake a clinical placement; students will be notified of locations after commencement of study.

Course outline: This course is the essential minimum requirement to register as an enrolled nurse. This course will provide students with the advanced skills to perform clinical assessments, contribute to nursing care of people with complex needs, administer and monitor medications and IV therapy, research and apply evidence to practice. TAFE Queensland highly-experienced industry professionals will guide students every step of the way to ensure a smooth transition into the health sector. Successful completion of this course will qualify graduates to seek registration with the Nursing and Midwifery Board of Australia. Upon successful registration graduates may find work as an Enrolled Nurse within a diverse range of healthcare settings. **Note:** Applicants offered a place in this course who are not eligible for Fee-Free TAFE, subsidised or concession enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for eligibility requirements. Prospective applicants are encouraged to make early contact with the relevant campus regarding on campus attendance and clinical placement requirements. While TAFE Queensland will make every effort to minimise disruption to study, the current COVID-19 pandemic situation and subsequent restriction of access to some health care facilities during this time, may cause delays with vocational placement and completion of this course. Students will need to provide evidence of full COVID-19 vaccination to attend the mandatory vocational placement assessment components of this course. The vaccines received must be approved by the Therapeutic Goods Administration for use in Australia or endorsed by the WHO-COVAX if vaccinated overseas. For the latest health advice please refer to tafeqld.edu.au/health-advice for more information. 511772 Sunshine Coast Health Institute classes will be run during the day. 511775 Sunshine Coast Health Institute classes will be run in the evening. **Other requirements:** Prior to commencing vocational placement, students may be required to satisfy requirements relating to mandatory mask use and fit testing, criminal history check, Suitability Card, vaccinations, and Senior First Aid certificate.

Career opportunities: Eligible to apply for registration as an enrolled nurse.

Diploma of Practice Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
520365 Cairns Online	1 1/2OV	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Employment requirements. **Additional entry information:** Applicants must be actively employed in the medical practice sector to be eligible for an offer in this course.

Course outline: This course equips students with the frontline management and leadership skills to operate professional practices in the health industry. It reflects the role of business or practice managers who manage the operation of small to medium-sized health practices. A formal qualification in practice management equips students to manage budgets and financial plans, health billing and accounting systems, and legal and ethical compliance. In addition, students learn about the health industry, along with front line management and leadership skills. **Note:** In addition to the standard diploma eligibility requirements for a Fee subsidy, students will need to be an existing worker in the health industry. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Health and welfare services manager, medical administrator, practice manager, medical practice manager.

Diploma of Remedial Massage

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
505969 Ipswich	1C	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024
504969 Springfield	1C	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024
568969 Toowoomba	1C	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Take the next step in your career in massage with this advanced-level course that will qualify you to work as a remedial massage therapist or to specialise in other complementary therapies and sport massage treatments. Students will gain the advanced skills to adapt remedial massage treatments to meet the unique needs of clients, implement injury prevention strategies and injury specific home care. Other modalities of your training will include pregnancy massage, lymphatic drainage, joint mobilisation, trigger point therapies and Deep tissue massage. Successful completion of this course will qualify you to work as a remedial massage therapist as well as giving you the skills to pursue other specialised therapies. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Reflexologist, remedial massage therapist, shiatsu therapist, TCM remedial massage therapist.

Diploma of Sport

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
526839 Robina	1C	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024
555839 South Bank (Coaching)	1CO	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course will provide students with the skills to become a qualified sports development manager or coach. In this course students will cover coaching fundamentals including how to plan and deliver coaching programs for high-performing athletes. Learners will also be introduced to the area of sports development and discover how to design, deliver and manage a range of community sport and recreation activities for the general public. Students also develop essential industry skills including managing risk, leading and managing people, and maintaining workplace health and safety. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information. **Specialisations:** Contact TAFE Queensland on 1300 308 233 for available specialisations.

Career opportunities: Sport development manager, high performance coach, talent manager.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Clinical Exercise Physiology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
729801 St Lucia	4F or 8P	86.35 unadjusted	88.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: The Bachelor of Clinical Exercise Physiology (Honours) prepares students for an exciting career as an accredited exercise physiologist and accredited exercise scientist. Accredited exercise physiologists are recognised allied health professionals who design and deliver exercise interventions for the prevention and management of a range of musculoskeletal, cardiovascular, metabolic, neurological, cancer and mental health conditions. The degree is the only four-year undergraduate clinical exercise physiology program in Australia where students graduate with an honours qualification. For more information, visit study.uq.edu.au. **Note:** Students can undertake the first two years of the degree on a part-time basis, however the final two years must be full-time. **Other requirements:** At the end of year one, the following requirements must be met: first aid certificate (including CPR); Blue Card; safety modules; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Private practices; home health services; hospitals or clinical services, research centre; community health and fitness centres; biomechanist; cardiac scientist; respiratory technician; strength and conditioning specialist; rehabilitation professional; health promotion officer; corporate health and fitness adviser; health educator; fitness consultant; community recreation officer; exercise science researcher.

Bachelor of Dental Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
712002 Herston & St Lucia	5F	95.35 unadjusted	99.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Chemistry (Units 3 and 4, C). **Additional entry information:** Applicants must achieve a minimum (adjusted) ATAR of 99.0 (or equivalent) and must take the University Clinical Aptitude Test (UCAT). Information on the UCAT, including registration procedures, is available online at ucat.edu.au. Entry to this course is highly competitive. UCAT scores are used for selection. For more information visit the University of Queensland website.

Course outline: The Bachelor of Dental Science (Honours) educates the next generation of dental professionals in the most advanced oral health facility in Australia. With small cohorts and dedicated, specialist teachers, students will master the science and technical skills required to care for patients, and prevent, diagnose and treat oral diseases and abnormalities. Students will be workforce-ready when they graduate, with extensive clinical experience and in-depth knowledge of general practice in dentistry, orthodontics, paediatric dentistry, periodontics, prosthodontics, oral medicine, oral and maxillofacial surgery and public health. For more information, visit study.uq.edu.au. **Note:** Students attend the Herston and St Lucia campuses throughout the program and attend major external clinical placements in year 5. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details of these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Once registered with the Dental Board of Australia graduates may start private practice, work within an established practice, or join partnerships. Within the public sector, there are opportunities to work within hospitals, community health services, or school-based dental clinics across Australia. The Australian Defence Force also accepts dental officers on a short-service or permanent basis. Postgraduate study offers opportunities to develop specific interests and qualify as a specialist in a recognised field such as orthodontics, prosthodontics, oral medicine, dento-maxillofacial radiology, endodontics, periodontics, and special-needs dentistry.

Bachelor of Exercise and Nutrition Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
720102 St Lucia	3F or 6P	70.00 unadjusted	72.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: As part of the Bachelor of Exercise and Nutrition Sciences program, students will learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether students are interested in exercise and nutrition, or a broader career in health, this program will help them make a positive change in the wellbeing of others. For more information, visit study.uq.edu.au. Note: The Bachelor of Exercise and Nutrition Sciences program will be replaced with a new Bachelor of Human Movement and Nutrition Sciences in 2024 (pending University approval).

Career opportunities: Graduates frequently combine a Bachelor of Exercise and Nutrition Sciences with a postgraduate qualification to specialise in non-clinical or clinical areas such as dietetics, medical practice and physiotherapy. Other students use their skills to work in graduate entry roles such as nutrition assistant, fitness or weight loss consultant, or research assistant

Bachelor of Exercise and Nutrition Sciences/Master of Dietetics Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
729602 St Lucia	3F & 1 1/2F	95.30 unadjusted	96.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: As part of the Bachelor of Exercise and Nutrition Sciences, students learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether a student is interested in exercise and nutrition, or a broader career in health, this program helps them make a positive change in the wellbeing of others. For more information, visit study.uq.edu.au. **Note:** The undergraduate degree is delivered at St Lucia and must be completed in three years full-time. The master's degree is delivered with a combination of lectures at St Lucia and placements at healthcare facilities and must be completed on a full-time basis. **Other requirements:** Students must complete the Bachelor of Exercise and Nutrition Sciences at UQ within the minimum time specified with a minimum annual GPA of 5.0 before progressing to the Master of Dietetics Studies program. On admission to the masters program, requirements such as Blue Card, current status with respect to blood-borne transmissible viruses

and tuberculosis (TB) and a schedule of immunisations must be met. For more information, visit habs.uq.edu.au.

Career opportunities: Refer to Bachelor of Exercise and Nutrition Sciences. In addition, graduates of the Master of Dietetic Studies may pursue careers in public, private and not-for-profit sectors as clinical dietitians, community nutritionists, public health nutritionists, sports dietitians and food industry dietitians.

Bachelor of Exercise and Sport Sciences (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
729302 St Lucia	4F & 8P	79.95 unadjusted	84.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: This program allows students to make an essential contribution to wellbeing, rehabilitation and performance. This program focuses on understanding how to enhance human performance, how the body responds to exercise and physical activity, and how to conduct research that could help build healthier communities and stronger athletes. For more information, visit study.uq.edu.au. **Other requirements:** At the end of year 1, requirements such as first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations must be met. Details about these requirements are made available at the time of offer. This program may be completed part-time, however, semesters that include a placement must be studied full-time. For more information, visit habs.uq.edu.au.

Career opportunities: Prescribing and delivering exercise and physical activity programs in the fitness industry; developing strength and conditioning programs to assist elite athletes and sporting teams; delivering workplace health promotion and executive health management programs; conducting diagnostic measurements (cardiac, sleep, respiratory or neurophysiology) in hospitals or other clinical services.

Bachelor of Health Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
729002 St Lucia/ Herston	3F or 6P	76.20 unadjusted	80.10 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In this flexible three-year program, students gain a broad understanding of human health, studying fields including biomedicine, health behaviours, public health and evidence-based practice. Students specialise in clinical health, nutrition or public health, and get hands-on experience during their final semester of study with a minimum of 90 hours of supervised work experience. For more information, visit study.uq.edu.au. **Majors:** Clinical health; nutrition; public health.

Career opportunities: Health promotion or public health officers; health administration. Pursue clinical careers through further study.

Bachelor of Health Sciences (Nutrition)/Master of Dietetics Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In this three-year program, students will gain a broad understanding of healthcare, studying biomedicine, ethics, evidence-based practice, health behaviours and nutrition. Students will specialise in clinical health, nutrition, or public health, and get hands-on experience during their final semester of study with a minimum of 90 hours of supervised work experience. For more information, visit study.uq.edu.au. **Note:** The masters program is delivered through a clinical schools model with a combination of lectures on campus and at a healthcare facility and must be completed on a full-time basis. **Other requirements:** Students must complete the Bachelor of Health Sciences (Nutrition) at UQ within the minimum time specified with a minimum annual GPA of 5.0, before progressing to the Master of Dietetics Studies program. On admission to the masters program, requirements such as Blue Card, current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations must be met. For more information, visit habs.uq.edu.au. **Majors:** Clinical health; nutrition; public health.

Career opportunities: Nutritionists; health promotion or public health officers; health administration. Pursue clinical careers through further study.

Bachelor of Health, Sport and Physical Education (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
729402 St Lucia	4F or 6P & 1F	72.85 unadjusted	75.40 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: This program prepares students to be a specialist health, sports or physical education teacher in secondary schools, with junior science as a secondary teaching area, or in related areas such as sports education, outdoor recreation or health promotion. Students will help young people explore a range of sport and physical activities, develop self-esteem, and acquire social skills. As part of the program, students complete placements where they will work with young people in primary and secondary schools. For more information, visit study.uq.edu.au. **Note:** The degree can be undertaken part-time; however, semesters that include a placement must be undertaken full-time. **Other requirements:** Before commencing practical courses, the following requirements must be met: first aid certificate (including CPR) and Blue Card. For more information, visit habs.uq.edu.au.

Career opportunities: Specialist teacher of physical education, health education and junior science, health promotion officer; sports coach; corporate health officer; roles in sports academies, charities and institutes.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
728402 St Lucia	3F	86.35 unadjusted	89.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** To enrol in this program, applicants must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If an applicant has not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: This program prepares students for a career in safely guiding expectant parents through pregnancy, birth and the weeks that follow. Students undertake extensive supervised practical experience throughout the program, and during their final year they extend their clinical knowledge to ensure they meet the Nursing and Midwifery Board of Australia National Competency Standards. This program is delivered through a clinical schools' model; after four weeks' intensive training, students attend small group-based teaching sessions at a clinical school, and lectures at UQ St Lucia. For more information, visit study.uq.edu.au. **Note:** Within their home hospital group, students undertake extensive practical placements at Mater or a variety of other hospitals throughout South-East Queensland. For more information, visit nmsw.uq.edu.au/clinical-placements. Generally, students remain in the same home hospital group for the duration of their studies. Students in Mater home hospital groups attend lectures at St Lucia and small group teaching and clinical simulation at Mater South Brisbane. Students in other home hospital groups attend lectures and small group teaching at St Lucia and clinical skills simulation at a partner hospital site. **Other requirements:** On application, applicants will be required to demonstrate their English language proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Midwife in public or private health, maternity and neonatal care, teaching, research, rural and remote health, and aid organisations.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
728502 St Lucia	3F	75.15 unadjusted	78.45 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** To enrol in this program, applicants must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If an applicant has not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: The Bachelor of Nursing integrates lecture-based study with clinical placements in major teaching hospitals. Students undertake extensive supervised practical experience throughout the program, and during their final year, they can undertake a placement in a specialist area including acute care, aged care, mental health, Indigenous health, rural health, public health or community health. For more information, visit study.uq.edu.au. **Note:** Within their home hospital group, students undertake extensive practical placements at a variety of hospitals throughout South-East Queensland. For more

information, visit nmsw.uq.edu.au/clinical-placements. Generally, students remain in the same home hospital group for the duration of their studies. Students attend lectures and workshops at St Lucia and group-based clinical teaching sessions in clinical simulation centres. **Other requirements:** On application, applicants will be required to demonstrate their English language proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Registered nurse in various public, private or community healthcare settings; critical care and emergency; mental health; aged care; research; and academic and clinical teaching.

Bachelor of Nursing/Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
728602 St Lucia	4F	90.65 unadjusted	92.10 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. If an applicant has not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information, visit the QTAC website.

Course outline: This dual degree provides students with a broad set of skills that encompass the disciplines of nursing and midwifery. Midwives safely guide expectant parents through pregnancy, birth and the weeks that follow through effective midwifery practice. Nurses are able to work in a variety of areas, including acute care, aged care, mental health, Indigenous health, rural health, public health or community health. Students undertake extensive practical experience, starting in first year. For more information, visit study.uq.edu.au. **Note:** The clinical placements are delivered through a home hospital group model at Mater or other hospitals in South-East Queensland including Metro North, Metro South, West Moreton and Darling Downs. Generally, students remain at the same home hospital group for the duration of their studies. For more information, visit nmsw.uq.edu.au/clinical-placements. Students in Mater home hospital groups attend lectures at St Lucia and small group teaching and clinical skills simulation at Mater South Brisbane. Students in other home hospital groups attend lectures and small group teaching at St Lucia and clinical skills simulation at a partner hospital site. **Other requirements:** On application, applicants will be required to demonstrate their English language proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Refer to Bachelor of Midwifery and Bachelor of Nursing.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
724002 St Lucia	4F	91.65 unadjusted	94.75 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Occupational therapists help people of all ages overcome barriers that affect their ability to engage in the everyday activities that are meaningful and important to them. They use a range of treatment strategies designed to enhance the person ability, such as modifying the task or environment, developing their skills, and/or education. Through this program, students will gain a thorough understanding of the theory and practice of occupational therapy, including foundation knowledge from the anatomical, physiological, social behavioural, and psychological sciences. For more information, visit study.uq.edu.au. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Occupational therapists in public and private hospitals; country or community health centres; rehabilitation units (medical, vocational, psychiatric); regular and special schools; special centres providing development and training for persons with a social, intellectual or physical disability; independent living centres; workplace health and safety units; nursing homes; psychiatric clinics and hostels; residential and rehabilitation centres for people with an intellectual disability; centres of tertiary education; research institutions; or private practice.

Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
725002 St Lucia	4F or 8P	78.75 unadjusted	82.10 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Course outline: The Bachelor of Pharmacy (Honours) prepares students to be a patient-centred medicines expert, adaptable and ready to face new healthcare challenges in the changing pharmacy profession. Pharmacists can work in a community pharmacy, hospital pharmacy, industry, research or a range of other settings. At UQ, students will develop knowledge and skills in pharmacy practice and medicines management; consultation and dispensing skills; pharmaceutical sciences; and social pharmacy and the health system. Through UQ's integrated approach and extensive practical experience, with an 8-week final year placement, students will gain a strong understanding of how theory is applied to real cases across a wide range of settings. In dedicated laboratories and mock pharmacies at the Australian Pharmacy Centre of Excellence, UQ students learn about the properties of medicines, how medicines affect the body and develop the soft skills necessary to succeed in the pharmacy profession. For more information, visit study.uq.edu.au. **Note:** Students attend the St Lucia campus and the Pharmacy Australia Centre of Excellence, Woolloongabba. Students commencing the program in Semester 2 complete the program in 3.5 years by studying in compulsory summer semesters. **Other requirements:** On admission, the following requirements must be met: Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au. **Majors:** Clinical and experimental therapeutics.

Career opportunities: Community, hospital and industrial pharmacies; senior positions within both the pharmacy and healthcare industries; government. Graduates have also used pharmacy as a platform for further study in medicine, a career in academia, or a career in research and development.

Bachelor of Physiotherapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
726002 St Lucia	4F	95.55 unadjusted	99.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Physiotherapists help to get people moving, from office workers with stiff necks, to elite athletes, children with a disability and elderly people with degenerative conditions. Physiotherapy (Honours) students become skilled healthcare professionals who help people improve their mobility, function and reduce pain. From the first year, students will build a strong foundation of applied study in medical science, physiotherapy science, anatomy, professional ethics, psychology and therapeutic exercise, to prepare them to care for people with musculoskeletal, neurological, respiratory and other conditions. For more information, visit study.uq.edu.au. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Physiotherapists in hospitals, community health centres and agencies, rehabilitation units, preschool and school programs and private practice offering treatments to a full range of patients. Specialist in areas such as sports physiotherapy, musculoskeletal physiotherapy, paediatrics, neurology, cardiorespiratory, orthopaedics or other fields of particular interest, or work in research or consultancy roles in educational, industrial or government institutions.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
727002 St Lucia	4F	89.30 unadjusted	94.25 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: The Bachelor of Speech Pathology (Honours) prepares students to help people of all ages with speech, language, fluency and voice disorders, people who have feeding or swallowing difficulties, and people who want to modify their accents or voices. Students will learn about anatomy, linguistics, physiology, psychology, swallowing and communication disorders in the areas of voice, fluency, hearing, speech, and language function. For more information, visit study.uq.edu.au. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations.

Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Speech pathologists in general, paediatric and geriatric hospitals; community health centres; rehabilitation units; aged care facilities; mental health services; preschools, schools, kindergartens and childcare settings; centres for people with specific disabilities such as cerebral palsy, intellectual impairment, autism or hearing impairment; centres of tertiary learning; research institutions; and private practice.

Doctor of Medicine (MD) (Provisional Entry for School-Leavers)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
721302 St Lucia, and Clinical Units, Teaching Hospitals and Herston	7F	95.75 unadjusted	99.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be a Current Year 12 student; Interview. **Additional entry information:** Applicants must sit the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) in the year of application and undertake a Multiple Mini Interview (MMI). An adjusted ATAR 95 or equivalent is required. The Doctor of Medicine (MD) is a postgraduate medical training program. Provisional entry sets aside a future place in the program and is available to domestic and international students completing Year 12 (at their first attempt) in the year of application. To progress to the MD program, applicants must complete their first bachelor level degree in the minimum timeframe at UQ, achieve a minimum GPA of 5.0 and complete two subject prerequisites. Entry to this course is highly competitive, and not all applicants with an adjusted ATAR/selection rank 95 will be offered a place. Offers will be based on the following criteria: number of places available and the applicant's final ranking, based on the combined score of ATAR, MMI total score and aggregate UCAT ANZ score. Details of the UCAT ANZ, including registration procedures, are available at ucat.edu.au. **Rural Background Student Sub Quota:** To help address shortages of medical professionals in rural areas, 28% of the places available are designated to students from a rural background. Visit the University of Queensland website for more information regarding the Rural Background Student Sub Quota. **Closing date:** QTAC applications and changes of preferences close 29 September 2023.

Course outline: The Doctor of Medicine (MD) program aims is to nurture and educate future medical graduates who are clinically capable, team players, kind and compassionate, serve responsibly and are dedicated to the continual improvement of the health of people and communities. There are two entry pathways: Provisional Entry (for school leavers) or Direct Entry (for university graduates). Students gain a world-class, hands-on education that enables them to become an exceptional doctor capable of working in any global setting. **Other requirements:** Students who receive a provisional entry offer may choose any bachelor level program at UQ (minimum three year degree). Enrolment in the first degree is subject to meeting all additional entry requirements for that degree, such as subject prerequisites or auditions. Provisional entry students should note the recommended entry pathways; refer to medicine.uq.edu.au/future-students to see recommended entry pathways. All students must complete their first bachelor program at UQ within the minimum time specified for that program, achieve a minimum GPA of 5.0 and complete two subject prerequisites before progressing to the medical program. On admission to the medical program, further requirements must be met. For further details visit: medical-school.uq.edu.au/getting-started to see Program Requirements.

Career opportunities: Graduates are ready to embark on a host of different and complementary career pathways. They may become experts in patient care, public health, clinical academia and teaching, research or work for aid organisations, the defence forces or set up their own private practice.

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of Sport Development provides you with a solid foundation in the theoretical and practical skills necessary to work effectively in the sport and leisure sector. Taught by experienced industry professionals, who are leaders in the field, this course will enable you to develop essential skills required for gaining employment, securing career progression, or progressing to further qualifications and training required to achieve their goals in the industry. The course provides credit and pathway opportunities into a range of undergraduate courses. Industry partners and work placements: We offer the Diploma of Sport Development Elite program in conjunction with The Simon Black Academy. The Simon Black Academy provides student-athletes with the opportunity to gain a university qualification whilst training in an Australian rules football academy environment.

Career opportunities: The Diploma of Sport Development is designed to prepare you to confidently start a career in community sports. Upon graduation, You'll have the opportunity to begin an entry level role in the field or continue studies at the bachelor level. Career paths: Sports Development Officer; Competition Manager Talent Development Officer.

UNIVERSITY OF THE SUNSHINE COAST

UniSC

Associate Degree in Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013131 Sunshine Coast	2F or 4P or 2½F or 5P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: In just two years become an entry-level medical laboratory technician and gain employment in Australia expanding pathology industry, working in hospital and private pathology laboratories. Learn to perform tests on blood and other bodily fluids and tissues, assisting clinicians in the diagnosis, treatment and prevention of diseases and clinical disorders. Receive full credit towards the Bachelor of Biomedical Science which you can complete with one additional year of study. In this program you will conduct clinical investigations on human diseases, develop technical skills in haematology, histology, biochemistry, clinical chemistry, blood banking, and medical microbiology, and you'll receive training by laboratory scientists and technicians to handle human specimens. **Note:** Some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** Before undertaking industry placement courses, students must obtain and provide evidence of vaccination against hepatitis B, measles, mumps, rubella, pertussis and varicella (chickenpox) and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Medical laboratory technician in pathology services, laboratory technician in scientific and educational technical services.

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013051 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014051 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Gain a comprehensive understanding of how the human body works and what happens when diseases, infections and clinical disorders occur. In this program you will develop knowledge and skills for working in applied biomedical industries and medical research and study foundations in medical science, cell biology/introduction to bioscience, chemistry, human physiology and anatomy, and more. You'll link with industry and develop a specific interest in biomedical science by undertaking clinical work placements and special research projects. **Note:** This program includes placements in settings that may require COVID-19 vaccination with limited placements in settings that do not require full vaccination. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Biomedical researcher, clinical technician (cardiac, sleep, respiratory diagnostics), clinical trials manager, microbiologist.

Bachelor of Biomedical Science (Accelerated)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013221 Sunshine Coast	2F	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Prerequisites: Current or Recent Year 12 with no previous attempt at tertiary study. **Additional entry information:** The Bachelor of Biomedical Science (Accelerated) is restricted to high-achieving secondary school students who have completed Year 12 no more than two (2) years before admission. To be eligible for this program, you must not have previously attempted any post-secondary study at diploma level or higher since completing Year 12.

Course outline: This program is especially designed to prepare you for postgraduate studies in medicine. You will complete a full bachelor degree in just two years, including specialist courses in Medical Science, developing knowledge and skills you need to successfully sit the Graduate Medical School Admissions Test (GAMSAT). In this program you will gain a comprehensive understanding of the human body, and what happens when diseases, infections and clinical disorders occur. You'll study cell biology, biogenetics, chemistry, human physiology and anatomy, science research methods, and communication. You will develop practical skills through projects and placements with hospitals, clinical trial centres, pharmaceutical companies and research institutes. You'll also develop knowledge and skills to work in applied biomedical industries and medical research. **Note:** This program includes placements in settings that may require COVID-19 vaccination with limited placements in settings that do not require full vaccination. To complete the program you may need to enrol in courses in Session 8 (Summer Semester) of your second year of study. Grades for Session 8 are released in Februaury of the following year. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Biomedical researcher, clinical technician (cardiac, sleep, respiratory diagnostics), clinical trials manager, microbiologist.

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013251 Sunshine Coast	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Course outline: Exercise is a powerful tool to improve human performance and health outcomes. Become qualified to help people live healthier lives. Work with clients in healthcare settings and sports to prevent disease and injuries, and to manage health, lifestyle and behaviour changes. In this program you will learn how to use exercise to prevent and manage heart disease, diabetes, cancer, osteoporosis and mental health. You'll train to prevent and manage musculoskeletal injuries in sport and recreation as you study anatomy, physiology, biomechanics, assessment, programming, psychology and nutrition. You'll test and train athletes in UniSC's AIS-accredited sport science labs and qualify to work in hospitals, health clinics, rehabilitation facilities, gyms and more. **Note:** Please note that some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** Before undertaking clinical placements, students must provide evidence of hepatitis B immunisation, first aid and CPR training, undertake a criminal history check, and obtain or hold a current Suitability Card. Students must complete 500 hours of supervised placement. Students may be required to undertake some clinical placement hours outside the Sunshine Coast region in metropolitan and regional/rural areas. It is a Queensland Government requirement that students undertaking a placement within a clinical setting are fit tested annually for an approved respirator. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Accredited exercise physiologist, exercise therapist, health science officer, personal trainer, rehabilitation consultant, exercise scientist.

Bachelor of Dietetics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013123 Sunshine Coast	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Additional entry information: Applicants from a non-English speaking background must attain an IELTS score of at least 7.0 with a minimum of 6.5 in each subtest.

Course outline: The perfect degree for anyone wanting to improve lives through food. A hands-on degree teaching the science behind food and the

way human bodies use it. Learn public health nutrition, medical nutrition therapy and food service systems, and gain qualifications to work as an Accredited Practising Dietitian. In this program you will learn from experienced Accredited Practising Dietitians with expertise in public health, sports nutrition and more. You'll work with real clients to provide nutrition assessments and advice and get hands-on experience in UniSC's specialised teaching kitchen. You'll also develop your clinical, interpersonal and professional skills, including the skills you need to work in hospitals, private practice or as a self-employed practitioner. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Placements are undertaken on a full-time basis. Before undertaking placement, students must obtain a Blue Card, complete a National Criminal History check and a QLD Health orientation package. You may also be required to complete first aid and CPR training. You must also provide evidence of Hepatitis B immunisation, and evidence of vaccination for the diseases: measles, mumps, rubella, varicella and pertussis refer to institution. You will be required to undertake some placements outside the Sunshine Coast region in metropolitan and regional/rural centres. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Clinical dietitian, nutritionist, sports nutrition, private practice, community nutrition, public health nutrition, food service management, nutrition consultancy, research and education.

Bachelor of Health Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013321 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Help create healthier lives. Want to help shape the future of health? In this degree, you'll learn about the current and future health issues facing communities, both locally and globally. You'll also develop the practical skills you need to improve population health and wellbeing through your choice of one of four extended majors, including Applied Health Promotion, Health Communication, Applied Environmental Health, and Indigenous Health and Wellbeing. In this program you will gain a strong foundation in health science and understand the current and future health needs of the community. You'll develop the problem-solving skills you need to help tackle health issues and gain workplace experience in your area of specialisation. **Note:** For students enrolled in the Environmental Health extended major, this program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Before undertaking workplace learning, students must obtain a Blue Card and may be required to undergo a criminal history check or other discipline-specific mandatory checks; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that stutudents must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar. **Majors:** Applied environmental health; applied health promotion; health communication; Indigenous health and wellbeing.

Career opportunities: Health promotion officer, community development worker, public health officer, environmental health officer.

Bachelor of Medical Science (Griffith MD Provisional Entry for School-Leavers)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013231 Sunshine Coast	3F	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Current or Recent Year 12 with no previous attempt at tertiary study. **Additional entry information:** This program is for current Year 12 applicants or applicants who completed Year 12 no more than three years prior to application and who have not previously attempted tertiary study at diploma level or higher. **Closing date:** Applications lodged after 8 December 2023 may not be considered in time for the mid-January offer round. Applications for this program close 29 December 2023. After this date, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: Is your dream to become a doctor? Take your first steps on a challenging and fulfilling career path. This highly competitive program provides provisional direct entry (subject to entry requirements) to Griffith University's Doctor of Medicine program at Sunshine Coast University Hospital and to your future medical career. In this program you will understand how the human body works and what happens when diseases, infections and clinical disorders occur. You'll study the foundations of medical science, including pathophysiology, biochemistry, microbiology, molecular biology, immunology and pharmacology and gain provisional direct entry (subject to entry requirements) to Griffith University's Doctor of Medicine program at the Sunshine Coast University Hospital. You'll build hands-on clinical knowledge and skills in a small group of like-minded students. **Other requirements:** Before undertaking a clinical placement, students must provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: If you progress to the Doctor of Medicine, you will be preparing for a career in specialist clinical practice, primary care medicine, medical, translational and clinical research and healthcare services; medical educator.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013471 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Additional entry information: All applicants must either be able to declare that English is their primary language (ie they have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America.); or they must attain an Academic IELTS score of at least 7.0 with a minimum of 7.0 in each subtest (obtained within two years prior to the commencement of the program). For more information, refer to the UniSC website.

Course outline: Support the journey of pregnancy, birth and beyond. Prepare to work as a registered midwife, giving women necessary support and care during pregnancy, labour and the postpartum period. Gain a strong understanding of the social, cultural, spiritual, psychological and physical experiences of women to provide quality maternity care. In this program you will learn how to provide woman-centred, evidence-based care to women and their families. You'll understand midwifery care across the childbearing continuum, legal and ethical requirements, bioscience and anatomy and physiology, research and evidence-based practice. You'll learn midwifery skills in a simulated environment with state-of-the-art technology and gain practical experience through placements at clinics, maternity services, and private midwifery practices. **Note:** For Sippy Downs students some courses in this program will be taught at the Sunshine Coast Health Institute (SCHI). Some students may be required to take the 'Clinical Connections' module before they can commence in a clinical placement course in any given year of study. This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Before undertaking clinical placement, students must obtain and maintain a current first aid and CPR certificate, provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Registered midwife in hospital or community settings, metropolitan, rural and remote locations or private practice.

Additional entry information: All applicants must either be able to declare that English is their primary language (ie they have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America.); or they must attain an Academic IELTS score of at least 7.0 with a minimum of 7.0 in each subtest (obtained within two years prior to the commencement of the program). For more information, refer to the UniSC website.

Course outline: Pursue your passion for health care and helping people while developing scientific knowledge of anatomy and physiology, drug therapy, comprehensive health assessment and evidence-based practice. Receive hands-on experience, preparing for work in the healthcare industry upon graduation. After completing our program, apply for registration as a Registered Nurse with the Australian Health Practitioner Regulation Agency (AHPRA). In this program you will learn about anatomy and physiology and understand the different health requirements for people of all ages and backgrounds. You'll appreciate cultural differences in delivering health care and work with registered nurses, who will teach you latest techniques for nursing. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. You can receive credit transfer (of 8 courses) if you hold current AHPRA registration as an Enrolled Nursing (Division 2) (General) without restrictions/conditions and have completed a

Diploma of Nursing from an accredited Australian education provider within 10 years prior to admission: If you do not have current registration or hold current registration with restrictions etc, no credit transfer will be granted. If your diploma was completed more than 10 years ago, please contact our credit team for advice. **Other requirements:** Before undertaking a clinical placement, students must obtain and maintain a current first aid and CPR certificate, comply with QLD Health vaccination requirements, provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Nurse in acute care, community, regional and remote, mental health, Indigenous health or aged care.

Bachelor of Nursing Science (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013411 Sunshine Coast	2 1/3F or 4P	❖ unadjusted	❖ adjusted	Jul 2024	6 Jun 2024

Prerequisites: Prior study. **Additional entry information:** Completion of an Australian undergraduate degree or equivalent degree from an international university. All applicants must either be able to declare that English is their primary language (ie they have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America.); or they must attain an Academic IELTS score of at least 7.0 with a minimum of 7.0 in each subtest (obtained within two years prior to the commencement of the program). For more information, refer to the UniSC website.

Course outline: Switch to a rewarding career in nursing. Use credit from another undergraduate degree you've completed to make the career change. Learn about anatomy and physiology, drug therapy, comprehensive health assessment and care of people. Learn via placements in hospitals, aged-care facilities, health agencies and community settings. When you graduate from this program, apply for registration as a nurse with the Australian Health Practitioner Regulation Agency (AHPRA). In this program you will complete 800 hours of work placements in clinical settings where you'll assess and care for patients and learn about anatomy and physiology, comprehensive health assessment, and drug therapy. You can continue learning through an honours or Master's program to specialise in nursing. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Before undertaking clinical placement, students must obtain and maintain a current first aid and CPR certificate, comply with QLD Health vaccination requirements, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Nurse in acute care, armed forces, community, rural, mental health, Indigenous health, aged care and industry settings.

Bachelor of Nutrition

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013351 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
013551 Moreton Bay	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Get involved with food and a constantly evolving scientific field. This is a hands-on program specially designed for industry application, teaching the science behind food and the way the human body uses it. In this program you will learn how to make food for people with different dietary needs as you choose to specialise in a range of minors, including public health nutrition, health promotion, healthy public policy, sustainability, food science and safety, sport and exercise nutrition, agriculture and aquaculture, Indigenous studies, social media or journalism. You'll be eligible for enrolment in the Accredited Nutritionist Program of the Dietitians Association of Australia (with appropriate experience/further qualifications). **Note:** Please note: Second-year, third-year and fourth-year courses will be offered progressively at Moreton Bay from 2023 onwards. This program includes placements in settings that may require COVID-19 vaccination with limited placements in settings that do not require full vaccination. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Food service and menu support, community nutrition, nutrition policy development, public health nutrition, health promotion, nutrition journalism, nutrition marketing and support for food industry, corporate nutritionist, researcher, sport and exercise nutrition and public relations.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013421 Sunshine Coast	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C).

Course outline: Help people break down everyday barriers. Occupational therapists help people overcome limitations caused by injury or illness, psychological or emotional difficulties, developmental delay or the effects of ageing. In this program you will build foundational knowledge in physiology, functional anatomy, psychology and wellbeing, and public health. You'll complete 1000 hours of fieldwork to build your professional skills and clinical experience in a wide range of settings and age groups. You'll be eligible for registration with the Occupational Therapy Board of Australia. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Students may be required to undertake some clinical placements outside the Sunshine Coast region in metropolitan and regional/rural centres. Expenses for these and other placement requirements are incurred by the student. Placements in third and fourth years are undertaken on a full-time basis. Before undertaking clinical placements, students must obtain a Suitability Card, complete a criminal history check (from second year), hepatitis B immunisation and first aid and CPR training and purchase an occupational therapy student uniform; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Aged care worker, child and adolescent services, disability assessor, hand therapist, occupational therapist/rehabilitator, rehabilitation consultant.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013431 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Additional entry information: Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.0 with a minimum of 6.5 in all other subtests, obtained within two years prior to the commencement of the program.

Course outline: Confidently provide healthcare in a community-based setting. Paramedics are often the first contacts for people who require emergency primary healthcare. This program will provide you with a strong foundation in clinical sciences and paramedicine. In this program you will explore all areas of paramedic practice including human pathophysiology, behavioural health, pharmacology, clinical leadership, and legal and ethical practice. You'll learn from experienced paramedics and other professionals to provide you with clinical knowledge, skills and practice and gain hands-on experience through real-life simulations in our specialised paramedic labs and complete clinical placements. When you graduate, you'll be eligible to apply to AHPRA for registration as a Registered Paramedic and membership with the Australasian College of Paramedicine. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Prior to undertaking any clinical practicum, students must obtain a Blue Card, Apply First Aid (Senior) certificate, current Mental Health First Aid certificate, provide evidence of hepatitis B immunisation or failure to seroconvert, and undergo a criminal history check. In addition to these requirements, before undertaking clinical placements with the QAS, students must undergo a health and medical assessment and health-related fitness assessment. Clinical placement information is available on the QAS website. Students may be required to undertake some clinical placements outside the region or in a rural area. Students are also required to purchase the student paramedic uniform and personal equipment. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Ambulance paramedic, pre-hospital emergency carer, disaster and emergency worker, aeromedic, rescue and retrieval worker, remote and rural health carer, clinical educator.

Bachelor of Prosthetics and Orthotics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013055 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Course outline: If you are creatively or technically-minded and enjoy working with people, consider a career in prosthetics and orthotics. This program is the first and only program in Queensland that allows you to specialise in this area. Prosthetists and orthotists work with people who have amputations, musculoskeletal weaknesses, or neurological conditions, throughout the

varied process of treatment. In this program you will gain specialist training in an increasingly advanced and dynamic area of health. You'll learn to provide innovative, compassionate, and client-centred care to help address the functional limitations of people, resulting from illness, disease, or disability. You'll develop skills, through study and clinical placements, to enter the profession and help break down barriers for people living with disability. **Other requirements:** Before undertaking workplace learning, students must obtain a Blue Card, comply with the Vaccination Preventable Disease requirements and may be required to undergo a criminal history check or other discipline-specific mandatory checks; refer to institution. You are required to possess a current First Aid and CPR Certificate to be able to participate in placement. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Clinical prosthetist and/or orthotist. The profession is prominent within public and private hospital settings, community based organisations, aged care facilities, the private health sector and academic arena. Services that may include allied health, rehabilitation and assistive technology services, are delivered across the entire age spectrum; resulting in services within the primary, secondary and tertiary care sectors.

Bachelor of Recreation and Outdoor Environmental Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013261 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014261 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: The first of its kind in Queensland, this program teaches the skills to work with people, engaging them in active lifestyles and helping them appreciate nature. This program gives you a broad, versatile education in health and physical education, outdoor environmental studies, and sports coaching. In this program you will attend more than 25 outdoor environmental studies fieldwork days in the Sunshine Coast area, including K'gari (Fraser Island). You can select from areas including tourism, leisure and event management, restoration and conservation, Indigenous studies, marine science or sustainability. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Outdoor leader, outdoor guide, sports coach, outdoor recreation officer, environmental interpretation guide, adventure tourism guide, ecotourism guide.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013041 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
013541 Moreton Bay	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Train your mind to help others improve their health. Exercise scientists use the science of human movement to make life more enjoyable and prevent common lifestyle diseases. This program teaches the science and theories behind human movement and sporting performance and provides hands-on skills to work as a qualified exercise scientist. In this program you will gain in-depth knowledge in areas such as functional anatomy, motor control and learning, exercise physiology and biomechanics. You'll test and train athletes in UniSC's nationally accredited sports science labs as you learn about sports psychology, performance analysis, coaching and exercise rehabilitation. **Note:** First and second year courses only will be offered at Moreton Bay campus from Semester 1, 2024. Some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** Students must complete 270 hours of supervised practice to complete the degree (140 hours are required for ESSA accreditation). Before undertaking placements, students must provide evidence of immunisations, first aid training, satisfactory criminal history check, and hold a current Blue Card (Working with Children Check); refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Exercise scientist, strength and conditioning coach, sports laboratory technician, sports development officer, physical activity and health promotion officer, sports coach.

Bachelor of Sports Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

014471 Moreton Bay	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Turn your passion for sport into a career. Combine core sport science knowledge with complementary skills in areas like sports media, sports journalism, sports administration, event management, marketing, public relations and business management, to prepare you for a range of careers in the growing sport and fitness industries. In this program you will learn about the modern sports industry at local, national and international levels. You can tailor your studies with flexible pathways to suit your own interests and career goals as you gain the skills to be job-ready for a range of sport and fitness careers. **Note:** First and second year courses only offered at Moreton Bay campus from Semester 1, 2024. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar. **Majors:** Journalism; marketing; tourism, leisure and event management.

Career opportunities: Exercise scientist, sports coach, development officer, strength and conditioning coach and more.

Diploma in Allied Health Assistance

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
019703 Fraser Coast	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024
013132 Sunshine Coast	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024
018632 Caboolture	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Course outline: The Diploma in Allied Health Assistance is a one-year qualification that gives you the foundational skills to work as an allied health assistant or in related fields. Allied health assistants support allied health professionals such as occupational therapists, physiotherapists, speech pathologists, dietitians and podiatrists to implement programs and one-on-one supports for people with disabilities and health conditions. They also support the day-to-day running of the practice, managing aspects such as bookings and equipment. In this program you will study the role of allied health assistants in the context of the Australian health and social care system, and learn about the anatomical, physiological, psychological and sociological factors influencing human function. You will also develop your communication skills, skills in running groups, and learn how to set up and maintain equipment. **Note:** This program comprises of both online, on campus and blended courses. There is also one course in the Diploma that includes a fieldwork opportunity. Not all required courses available at Fraser Coast campus, online delivery mode is available for these courses. Some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Allied health assistant.

Undergraduate Certificate in Allied Health Assistance

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

014142 Moreton Bay	1/2F or 1P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Course outline: Ready to start your career in health? The Undergraduate Certificate in Health has been designed to provide an introductory-level study pathway into key areas of health. In this program you will learn about communication within the health sector and the professions and undertake introductory level human anatomy and physiology, bioscience and introductory health practice and knowledge. You'll also gain an understanding of patient safety, ethics, and legal roles when working in healthcare settings. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: This program allow students to have a 0.5 year immersion into health studies which will provide them with foundational knowledge and skills in areas such as communication and human anatomy and physiology to work within the sector.

Undergraduate Certificate in Health Promotion Foundations

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013521 Sunshine Coast	1/2F or 1P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Course outline: An introduction to a career in promoting the health and wellbeing of people at individual, community and whole-of-population levels. The Undergraduate Certificate in Health Promotion Foundations provides a direct pathway to the Bachelor of Health Science with an extended major in Applied Health Promotion, other Health Science extended majors, as well as other undergraduate degrees. In this program you will develop your knowledge and skills in the fundamentals of health promotion. You'll design, implement and evaluate evidence-based health promotion strategies and begin to understand and address health inequities and inequalities. You will prepare to undertake community health and wellbeing assessments, and plan health promotion action. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Government health departments, health educator, major non-government organisations, overseas aid agencies, private industry, project manager.

Undergraduate Certificate in Nutrition

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013651 Sunshine Coast	1P	❖ unadjusted	❖ adjusted	Feb 2024	11 Jan 2024

Course outline: Do you want to understand how food can be used to improve people's health and wellbeing? This program develops knowledge and skills in the fundamentals of nutrition science. It's designed for professionals working in the allied health, fitness or wellness industries, as school teachers, or in hospitality, community health or physical education, who want to upskill in the field of nutrition. It's also the perfect starting point for a career pathway in human nutrition and food science. In this program you will learn the science behind food and anatomical uses, paddock to plate, the science of eating to fight disease, food composition and nutritional needs across the lifecycle. You'll also develop skills to assess sources of nutrition information. **Note:** The certificate is offered as part time only i.e. two courses per semester. The Undergraduate Certificate in Nutrition provides a direct pathway to the Bachelor of Nutrition at UniSC - University of the Sunshine Coast. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Food industry, private practice, public health nutrition, sports nutrition, with further study: clinical dietetics.

UNIVERSITY OF NEW ENGLAND

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
666551 Armidale	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The course includes core studies in human structure, function and behaviour and further study on the acute and chronic physiological and psychological responses to exercise in healthy individuals and those with chronic and complex health conditions. In the first three years of study, students develop analytical, technical and professional skills in movement analysis, health and fitness assessment and exercise training for health and performance. The final year of study provides advanced training in chronic disease management, functional conditioning and clinical practice. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Other requirements:** Students complete 500 hours of workplace experience to practice exercise-based management of neurological, musculoskeletal, cardiopulmonary, metabolic and other health conditions.

Career opportunities: Exercise physiologist in a range of settings (hospital, private clinic, workplace health). Exercise physiologists are recognised allied health professionals with Medicare, the Department of Veteran Affairs and some private health insurers. Additional career opportunities are available in the clinical sciences (cardiac/respiratory/sleep technician), sports (strength and conditioning, sports science) and the health and wellbeing industry (personal trainer, health and wellbeing consultant/educator).

Bachelor of Exercise and Sports Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
666541 Armidale	3F or 6P	67.60 unadjusted	67.60 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This multidisciplinary program develops a comprehensive understanding of the scientific and applied aspects of sport, exercise and health. It includes core studies in human structure, function and behaviour and further study on the acute and chronic physiological and psychological responses to exercise. Students develop analytical, technical and professional skills in movement analysis, health and fitness assessment and exercise training for health and performance. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Other requirements:** Students complete 140 hours of workplace experience in the community.

Career opportunities: Health and physical activity promotion, sports science, health and fitness (personal trainer, strength and conditioning coach, health consultant/educator), clinical measurements (cardiac/respiratory/sleep technician) and postgraduate research/coursework in related disciplines.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
666652 Armidale	3F or 6P	69.10 unadjusted	74.10 adjusted	Feb 2024	21 Dec 2023

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements. **Closing date:** QTAC applications close 8 December 2023. Contact the UNE Future Students Team on 1800 818 865 for more information.

Course outline: The Bachelor of Nursing is a professional entry degree course that leads to eligibility for Registered Nurse status in Australia. The Bachelor of Nursing is delivered flexibly over six trimesters through blended learning modes, and you can study online or on-campus. There is a combination of weekly face-to-face teaching, mandatory intensive schools, online learning and clinical practice blocks offered. **Note:** The last offer round for this course will be on 23 December 2021. Contact the UNE Future Students Team on 1800 818 865 for more information. **Other requirements:** Students must meet the Inherent Requirements to complete this course. Professional experience placement is an essential part of the Bachelor of Nursing. There are several mandatory requirements must be completed as part of the clinical placement process. The mandatory NSW Health Verification Requirements and UNE requirements for professional experience placement must be completed by week 8 of the first trimester of study, including a record of vaccinations and/or serological confirmation of protection, and current National Criminal Record (Australian or Overseas if international student) and Working with Children checks. Students must pass Objective Structured Clinical Examination (OSCE) or any other relevant hurdle assessment, before attending placement, and must also have a nursing uniform and personal protective equipment. Candidates must complete 800 hours of professional experience placement (Rules (a), (c), (d) and (e)); 640 hours (Rule (b) EN); which is undertaken in each trimester in health facilities in NSW.

Career opportunities: Registered nurse in a range of health care areas.

Bachelor of Pharmacy with Honours

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
666561 Armidale	4F or 10P	✦ unadjusted	✦ adjusted	Jun 2024	6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this

course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: Students develop a strong foundation in essential core skills in relevant sciences, which is then integrated with contemporary knowledge and application to pharmaceutics, pharmacotherapeutics and pharmacy practice. This course aims to produce graduates with the knowledge, skills and attributes necessary to commence supervised practice in a preregistration training program and to achieve the recognised competency standards for practice of pharmacy in Australia and New Zealand. Graduates will also have an understanding of the place of research in furthering the theory and practice of pharmacy. This course has been granted accreditation by the Australian Pharmacy Council and is approved by the Pharmacy Board of Australia as a qualification leading to registration as a pharmacist in Australia. **Other requirements:** Students must meet the Inherent Requirements to complete this course. Additionally, the mandatory NSW Health Verification Requirements must be completed in the first eighteen months of commencing in the program.

Career opportunities: Community pharmacy, hospital pharmacy, drug production, marketing or drug development in the pharmaceutical industry, Health care policy adviser.

UNIVERSITY OF SOUTHERN QUEENSLAND

University of Southern Queensland

Associate Degree of Allied Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
936191 Ipswich	2F or 6P	✚ unadjusted	✚ adjusted	Jan 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics or Psychology (Units 3 and 4, C). **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information.

Course outline: With a strong focus on rural and regional health, UniSQ's Associate Degree of Allied Health will build your foundational knowledge in evidence-based practice, human communication, anatomy, physiology, culture, health, illness, and working with diverse populations. You'll study core allied health courses and choose a study stream in Occupational Therapy, Physiotherapy, Social Work, or Speech Pathology. Gain hands-on industry experience during 120 hours of clinical placement. Graduates will gain a UniSQ qualification, may be awarded a Certificate IV in Allied Health Assistance (assessed externally), and may receive credit for their study if choosing to go on to study a relevant bachelor degree in Allied Health. **Note:** Students will undertake up to 120 hours of clinical placement as part of the course HEA2200 Allied Health Clinical Practice. Applicants must be willing to adhere to the requirements of the UniSQ for practical placement including the purchase of a clinical uniform. Please refer to the applicable Clinical Placement Handbook for your specific stream's requirements.

Career opportunities: This degree prepares you for a career as an advanced allied health assistant or for further study in Occupational Therapy, Physiotherapy, Social Work or Speech Pathology. Graduates can find work as an advanced allied health assistant in various health and wellbeing settings, including disability and aged care, rehabilitation, palliative care, community health and early learning settings. You'll graduate with a uni qualification as well as a Certificate IV in Allied Health Assistance (assessed and awarded externally by Rural Medical Education Australia).

Associate Degree of Biomedical Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906931 Toowoomba	2F or 6P	✦ unadjusted	✦ adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024
906935 External	2F or 6P	67.60 unadjusted	72.60 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: ⁎.

Course outline: If you would like to work in a biomedical laboratory, our Associate Degree of Biomedical Sciences examines broad biomedical concepts and generates accurate scientific data. Explore areas such as human anatomy and physiology, microbiology, immunology, cell and molecular biology, nutrition and biochemistry to gain an understanding of what it is like to work in research and clinical laboratories. You experience hands-on learning in laboratory-based residential schools or fortnightly labs for most of the first-year courses and laboratory-based residential schools supported by online or on-campus learning in your second year. **Note:** External students have mandatory residential school requirements within the program.

Career opportunities: Graduates may have employment opportunities as a university and secondary school science laboratory technician or technical assistant in a public or private research laboratory. You will have contemporary laboratory skills to assist in roles in both research and teaching laboratories.

Associate Degree of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906921 Toowoomba	2F or 4P	✦ unadjusted	✦ adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024
906925 External	2F or 4P	56.75 unadjusted	66.75 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: ⁎.

Course outline: Gain the education and training necessary for a career as a medical technician or technical officer in the private and public pathology laboratory sectors with UniSQ Associate Degree of Medical Laboratory Science. This degree also provides you with training for a career as a biomedical scientist with a research capability and/or a biomedical science support role. You gain practical experience through structured placements in a pathology laboratory and/or by attendance at residential schools. **Note:** 48 days of professional clinical placement is required for the program. External students also have mandatory residential schools as part of the program. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a UniSQ Student Clinical Placement Policy Declaration.

Career opportunities: As a graduate, you have the opportunity for employment as a medical technician or technical officer in the medical pathology industry, a medical or clinical research technician in the university, health or biotechnology sectors, or health, medical and scientific product marketers.

Bachelor of Biomedical Sciences

906905 External	3F or 6P	64.05 unadjusted	66.05 adjusted	Jan 2024 May 2024	11 Jan 2024 15 Mar 2024

Prerequisites: ⁎.

Course outline: Discover the wonder of the human body with our Bachelor of Biomedical Sciences, one of only a few degrees in Australia that can be predominantly completed online, on-campus or in a combination of both modes to suit your needs. Our courses focus on human anatomy and physiology, microbiology, pharmacology, genetics, cell and molecular biology, nutrition and biochemistry. You study biomedical science laboratory techniques and investigate authentic medical problems, and produce scientific reports for biomedical experiments and mini research projects. The program also prepares students to undertake the Graduate Medical Schools Admissions Test (GAMSAT). **Note:** A minimum of 15 days professional placement is required in the Work Integrated Learning elective course. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and facilities for placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds.

Career opportunities: The Bachelor of Biomedical Sciences prepares students for a career in medical research institutes and universities, public and private research and development laboratories, and biotechnology, pharmaceutical and diagnostic companies. Graduates may also pursue further study in professional programs in the allied health sciences, medicine or higher degree research.

Bachelor of Biomedical Sciences (Medicine Pathway)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906941 Toowoomba	3F	95.20 unadjusted	97.20 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicant must be a Current Year 12 student; Interview. **Additional entry information:** Applicants must be completing year 12 (first year attempted) in the year of applying as well as complete the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ). Shortlisted applicants from UCAT scores will also be required to attend multiple mini-interviews (MMIs). UniSQ Early Offer scheme does not apply to this program. **Closing date:** 30 Sep 2023.

Course outline: Discover the wonder of the human body in health and disease and gain knowledge and skills for your post-graduate Doctor of Medicine degree with UniSQ Bachelor of Biomedical Sciences (Medicine Pathway), a provis. Your program of study will include courses in human anatomy and physiology, microbiology, pharmacology, genetics, cell and molecular biology, nutrition, biochemistry, psychology and Aboriginal and Torres Strait Islander studies. You will also be able to select eight courses of your choosing from a wide selection. You will learn biomedical science laboratory techniques and investigate authentic medical problems, as well as have the opportunity to undertake one or two work integrated learning placements and participate in undergraduate research experiences. Upon successful completion of the course within three years and with a minimum Grade Point Average of 5.0, you will gain direct entry into The University of Queensland Toowoomba-based Doctor of Medicine Program. The University of Queensland Doctor of Medicine is a program of four years duration. **Note:** Enrolment is for on campus study. Workplace experience is an integral component of the program and each student is required to undertake and satisfactorily complete 75 hours of workplace experience in a rural or regional community setting in Queensland. This will require travel outside of Toowoomba. Aboriginal and/or Torres Strait Islander applicants may choose to apply for this course via the Aboriginal and/or Torres Strait Islander Admission pathway. **Other requirements:** Students must satisfy the safety and security requirements of the University of Southern Queensland and Queensland Health for work placement. These include evidence of immunity to or vaccination against notifiable and contagious diseases, Queensland Health student checklist and placement,

privacy and consent deeds, and a University of Southern Queensland Student Clinical Placement Policy Declaration.

Career opportunities: Students enrolled in the Medicine Pathway major who have maintained a GPA of 5.0 or above and completed their program in three years will enter The University of Queensland Doctor of Medicine program (Rural Clinical School, Toowoomba) following completion of the Bachelor of Biomedical Sciences (Medicine Pathway).

Prerequisites: ⁎.

Course outline: Learn how to determine blood groups, identify malarial parasites and diagnose leukaemia and other human diseases through UniSQ Bachelor of Medical Laboratory Science. Graduates are workplace-ready with skills in transfusion science, microbiology, haematology, histopathology and cytology, molecular diagnostics, and clinical biochemistry for a career as a medical laboratory scientist. Medical laboratory scientists perform analyses on blood and other body fluids and tissues to provide information that is vital in the prevention, diagnosis and treatment of human disease. This degree can be studied online or on-campus, and includes 80 days of hands-on clinical experience in a range of different pathology laboratories. **Note:** External students must attend residential schools at the Toowoomba campus. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a UniSQ Student Clinical Placement Policy Declaration. All students must complete 80 days of clinical experience in Australia.

Career opportunities: Graduates pursue careers in the public and private pathology laboratory industry or research, technical, advisory and commercial roles in the biomedical field.

Bachelor of Midwifery (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906295 External	2F or 4P	✱ unadjusted	✱ adjusted	Jan 2024	11 Jan 2024

Prerequisites: Previous registered nurse qualification; Prior study. **Additional entry information:** Applicants must nominate on their QTAC application three clinical placement location preferences from the following list in order of preference: Queensland: Brisbane, Cairns, Charleville, Dalby, Gold Coast (must be Gold Coast Hospital and Health Service staff to be placed in this location), Goondiwindi, Ipswich, Kingaroy, Redcliffe, Roma, Stanthorpe, Sunshine Coast, Toowoomba, Warwick. Tasmania (must be resident of Tasmania and have minimum 6 months post-graduate nursing experience): Burnie, Hobart, Launceston. Bachelor's degree or equivalent qualification in nursing with current Australian Health Practitioner Regulation Agency (AHPRA) nursing registration. You must be able to declare English as your primary language. If you are unable to meet this requirement, you are required to submit a formal English Language test result that meets the NMBA's minimal requirements prior to program entry. For more information visit the QTAC website. Inherent requirements are applicable to the program please refer to the UniSQ website for more information. **Closing date:** Applications close on 7 December 2023.

Course outline: This course prepares midwives to meet current and future requirements of contemporary midwifery practice. The program is designed according to the Nursing and Midwifery Board of Australia's Midwife Standards for Practice (2018). Graduates possess a range of skills to work autonomously and, where appropriate, with other members of the inter-professional team in a variety of maternity settings or models of care. Graduates are eligible for registration with the Australian Health Practitioner Regulation Agency (AHPRA). **Note:** Residential schools are conducted in year 1 (Trimester 1 and 2) and year 2 (Trimester 1 and 2) at UniSQ Ipswich, Queensland and in Launceston, Tasmania. Tasmanian residential schools and professional placement is only available to Tasmanian Students. Attendance at each residential school is compulsory. Residential schools are conducted in the first week of Trimester, and again mid-year, and cover the practice experience that students are enrolled in during that year. **Other requirements:** Blue Card/WWC Card; NDIS Workers Screening Card, Australian Federal Police Certificate; hepatitis B immunisation; measles, mumps, rubella, pertussis (whooping cough), influenza, Covid and TB immunisation; CPR certificate; mask-fit testing, Queensland Health student orientation requirements and occupational health and safety certificates; clinical placement student declaration. Note: Students may not be allocated a placement if any of the above documents are not current.

Career opportunities: Midwife.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
936181 Ipswich	4F or 8P	72.40 unadjusted	77.00 adjusted	Jan 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); a General Science subject. **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information. UniSQ Early Offer scheme does not apply to this program.

Course outline: With UniSQ Bachelor of Occupational Therapy (Honours) you will learn to design and deliver high-quality occupational therapy (OT) assessment and interventions to people, their families and communities. You can become a leader in the delivery of digital health care to the many people who have difficulty accessing face to face health services. Gain comprehensive training in OT knowledge and skills and put theory into practice when completing 1000 hours of supervised clinical placement required for your occupational therapy registration. **Note:** The program involves regular skill development workshops throughout the 4 years of the program, in addition to the completion of 1000 hours of mandatory supervised clinical experiences. **Other requirements:** Applicants must be willing to undertake and submit to the requirements of the University of Southern Queensland and Queensland Health for practical placement. It is expected that students will complete a rural placement experience as part of their clinical education.

Career opportunities: Graduates can find work as an occupational therapist in hospitals, aged care services, child and adolescent services, community health and mental health, private practice, or vocational rehabilitation.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
936151 Ipswich	3F or 6P	60.75 unadjusted	68.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎. **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information.

Course outline: This program provides students with the skills and clinical knowledge needed to be a paramedic. Students are trained in the areas of patient assessment, decision-making and practical skill acquisition that is required for working in the challenging setting of paramedic practice. Students complete clinical placements with Queensland Ambulance Service and in other healthcare settings to gain hands-on experience. These experiences are enhanced by on campus training labs that include simulated ambulances to improve their practical skills and clinical decision-making. This program has been designed by leading medical and paramedic staff who understand paramedic practice. **Note:** Practical experience is an integral component of the program and each student is required to undertake and satisfactorily complete four clinical placements across the degree. **Other requirements:** Prior to undertaking clinical placements with Queensland Ambulance Service (QAS) students must meet the medical, physical and functional requirements of QAS for student paramedics and must have a current first aid certificate, Blue Card, evidence of hepatitis B status and have a current criminal history police check.

Career opportunities: Graduate ambulance paramedic. With further training: intensive care paramedic, flight paramedic, industrial paramedic, clinical education, management roles.

Bachelor of Physiotherapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
936232 Ipswich	4F	60.75 unadjusted	68.00 adjusted	Jan 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information. UniSQ Early Offer scheme does not apply to this program.

Course outline: Help improve people's quality of life by becoming a qualified physiotherapist with a degree from UniSQ. With the Bachelor of Physiotherapy (Honours), you will learn about anatomical systems and movement from experienced academics and industry professionals, whilst also completing industry placements to ensure you graduate job-ready. With an emphasis on gaining experience to support rural, First Nations and low-resource communities, UniSQ's Physiotherapy courses allow you to explore a vast range of chronic and lifestyle conditions. **Note:** Students will be required to undertake approximately five, five week full time clinical placements. **Other requirements:** Applicants must be willing to undertake and submit to the requirements of the University of Southern Queensland and Queensland Health for practical placement. It is expected that students will complete a rural placement experience as part of their clinical education.

Career opportunities: may include working as a physiotherapist in aged care, home-care, community health centres, private practice, public or private hospitals, paediatrics, or the educational sector. You could also work in NDIS, gender health, the sports sector, health promotion, mental health, rehabilitation, research, academia, management, or in government.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906111 Toowoomba	3F or 6P	61.25 unadjusted	67.25 adjusted	Jan 2024	11 Jan 2024
936111 Ipswich	3F or 6P	61.10 unadjusted	67.10 adjusted	Jan 2024	11 Jan 2024
906145 External	3F or 6P	66.00 unadjusted	66.00 adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: The Bachelor of Sport and Exercise Science will enhance your knowledge and skills to apply the science of sport and exercise. The degree will enable you to develop interventions that improve sport performance, health, and fitness, and assist in the prevention of chronic diseases. During your degree, studies will cover all aspects of sport and exercise science, including anatomy and physiology, psychology, strength and conditioning, exercise prescription, programming and delivery, alongside professional placement. **Note:** External students are required to attend mandatory residential schools at the Ipswich campus during most semesters. **Other requirements:** Students must complete a minimum of 140 hours exercise science placement during the degree. Placement will be undertaken at multiple sites. The student's place of residence will be taken into account when placement is allocated, however all students need to be aware that they may need to travel. **Majors:** Sport and exercise science.

Career opportunities: Sports coach, gym manager, recreation officer, sports development officer, sports performance director, medical company representative, exercise scientist, sport manager, sports tourism officer or activities officer in aged care.

Bachelor of Sport and Exercise Science (Honours) (Clinical Exercise Physiology)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
936211 Ipswich	4F or 8P	66.00 unadjusted	70.00 adjusted	Jan 2024	11 Jan 2024
906215 External	4F or 8P	68.00 unadjusted	69.40 adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: The Bachelor of Sport and Exercise (Honours) (Clinical Exercise Physiology) will provide you with the knowledge, skills and competencies to design, deliver and evaluate exercise interventions for people with medical conditions, injuries, or disabilities. This degree is the professional qualification you need to obtain accreditation as an exercise physiologist. During your degree, studies will cover all aspects of clinical exercise physiology, including anatomy and physiology, psychology, strength and conditioning, exercise prescription, programming and delivery, alongside professional placements. **Note:** External students are required to attend mandatory residential schools at the Ipswich campus during most semesters. **Other requirements:** In accordance with Exercise and Sport Science Australia (ESSA) accreditation requirements, all students must complete a minimum of 140 hours of placement in exercise science, and 360 hours of clinical placement. A student's place of residence will be taken into account when placement is allocated, however, all students need to be aware that they may need to travel. Some placements may be in rural or remote areas.

Career opportunities: Accredited exercise physiologist. Exercise physiologists work across the health care system, including in hospitals, community health centres, private practice, occupational rehabilitation services, and insurance companies.

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
112311 Brisbane	3F or 6P	60.25 unadjusted	62.10 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: As a Bachelor of Arts student, you will develop skills in understanding the world and its peoples, society and culture. Arts students develop key skills in interpersonal communication; creativity, research and problem solving. Subject diversity makes this course attractive to students seeking a liberal arts education in arts, humanities, creative or visual arts with flexibility to study the areas you enjoy while building skills as a foundation for employment or further specialised study. You can choose to undertake two majors, or a major and two minors plus a range of electives, tailoring the degree to suit your goals. Minors are available in each of the majors, and in the disciplines of communication, creative writing, and geography. Students are encouraged to take advantage of study opportunities at our campus in Rome or other overseas locations and to structure their individual academic programs to reflect their interests and career aspirations. **Other requirements:** Students must take a number of core and program units. **Majors:** Mathematics; Business studies; drama; Education studies; History; English; music; Philosophy; Sociology; Study of religions; Theological studies; Visual arts.

Career opportunities: Government and non-government organisations, media and communications, arts and cultural organisations, higher education, business sector, not-for-profit organisations, historian, social scientist, political analyst, teaching (with further study).

Combined degrees: Refer to entries for: B Arts/B Commerce; B Arts/B Global Studies; B Arts/B Laws; B Education (Secondary)/B Arts (Humanities).

Bachelor of Arts/Bachelor of Commerce

Prerequisites: ⁎. **Additional entry information:** Pastoral reference, Personal Statement, Statement of Faith.

Course outline: This course provides an initial professional award for Christian ministry and leadership. It is structured into three fields of study to provide an appropriate framework for professional ministry education - ministry foundations, ministry formation and ministry practice - and provides an understanding of ministry that prepares students to fulfil a variety of ministry roles in local churches and wider society. The course includes biblical, theological and ministry knowledge together with their fundamental principles and tenets, as well as developing academic skills for lifelong learning and equipping students with the practical skills to function effectively in a professional ministry context. Students engage in practical ministry experience through practicum placements in suitable and relevant ministry areas. **Note:** Modes of study can be combined. Contact CHC for information. **Other requirements:** A Blue Card or equivalent is required for practicum purposes; refer to institution.

Career opportunities: Pastoral and other leadership roles in the local church, charitable, non-profit or community organisations including church planters, missionaries, relief agency workers and chaplains.

Diploma of Liberal Arts - Foundations of Wisdom

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
094801 Carindale	1F or 2P or 1X or 2X	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The liberal arts help students to think critically, communicate effectively and understand the world in which they live. This course provides an introduction to the humanities, and develops cognitive and communication skills that are pivotal for further learning. **Note:** Modes of study can be combined. Contact CHC for information.

Career opportunities: A liberal arts education provides personal and academic preparation for, and facilitates success in, a broad range of careers.

Diploma of Ministry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
093001 Carindale	1F or 2P or 1X or 2X	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Pastoral Reference, Personal Statement, Statement of Faith.

Course outline: This course provides an initial preparation for further study or for evangelical and/or charismatic Christian ministry and leadership. It prepares students for ancillary ministry and vocational roles that integrate biblical and theological knowledge with the practice of ministry. The course also provides an avenue for students who want to meet the ordination requirements for particular denominations, including the International Network of Churches. Students can complete the diploma as a stand-alone qualification or use it to gain advanced standing into the Bachelor of Ministry. **Note:** Modes of study can be combined. Contact CHC for information.

Career opportunities: Ministry roles in the local church, parachurch or vocational situations including school and corporate chaplaincy.

Diploma of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
094001 Carindale	1F or 2P or 1FL or 2FL	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course allows students to develop a deeper awareness of themselves and others and gain useful people skills and knowledge that can be applied informally to a range of settings. The course equips students with a foundational understanding of interpersonal skills and applied social science in a range of contexts. Students can complete the diploma as a stand-alone qualification or use it to gain advanced standing in the Bachelor of Human Services or the Bachelor of Counselling. **Note:** Modes of study can be combined. Some units are only available on campus or in intensive mode. Contact CHC for information.

Career opportunities: Community worker, pastoral carer, youth worker, personal support worker.

Undergraduate Certificate of Biblical Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
093102 Carindale	1/2F or 1P or 1/2X or 1X	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Pastoral Reference, Personal Statement, Statement of Faith.

Course outline: The course is designed to provide students with a basic introduction to the Bible and an understanding of Christian spiritual transformation. It allows them to gain the foundational knowledge, skills and abilities required in the communication and presentation of sound biblical knowledge commensurate with entry level service in church and para church organisations in fields such as youth and children ministry, mission, social and pastoral care, preaching and teaching or church ministry engagement. Students can complete the course as a stand-alone qualification or use it to gain advanced standing into the Diploma of Ministry or the Bachelor of Ministry. Modes of study can be combined (contact CHC for more information).

Career opportunities: Ministry roles in the local church, parachurch or vocational situations including school and corporate chaplaincy.

Undergraduate Certificate of Ministry Leadership

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
093101 Carindale	1/2F or 1P or 1/2X or 1X	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Pastoral Reference, Personal Statement, Statement of Faith.

Course outline: The course is designed to develop students' foundational knowledge and skills in the fields of ministry and leadership by including a broad study into the importance of communication, self-leadership, project management and leadership generally. It also provides practical experience in ministry, teamwork and leadership with an experienced supervisor. Students can complete the course as a stand-alone qualification or use it to gain advanced standing into the Bachelor of Ministry. Modes of study can be combined (contact CHC for more information).

Career opportunities: Ministry roles in the local church, parachurch or vocational situations including school and corporate chaplaincy.

CQUNIVERSITY AUSTRALIA

Bachelor of Arts

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course provides students with a comprehensive overview of the scientific discipline of psychology and its applications. The course is delivered in accordance with the foundational (level one) competencies for three-year undergraduate psychology programs as specified by the Australian Psychology Accreditation Council (APAC). Students will acquire an understanding of the underlying principles, theories and concepts within the discipline. In addition, students will develop knowledge of the range of core research areas that make up the discipline, and an understanding of the methodologies and statistical techniques used by researchers for information gathering and analysis. There will be opportunities for students to explore applied and professional uses of psychology. In addition, students will be introduced to psychological theory, research, and applied and professional uses of psychology in an ethical and culturally responsive context. **Other requirements:** Students will have an option to complete a supervised project to address a real-world issue as presented by a representative from an existing organisation; or complete a 25-hour placement with an experienced researcher or with an appropriate external organisation. Students will draw upon their psychology and professional expertise to develop and present workable solutions to a professional client.

Career opportunities: Management; industry; child safety officer; clinical work; counselling; neuropsychology; child development; education; forensic; health; coaching; school guidance officer. In order to use the title Psychologist, students must first complete a 4-year honours level course, such as CQUniversity's Bachelor of Psychological Science (Honours) and then complete an accredited Psychology Board of Australia pathway.

Bachelor of Science (Criminology and Psychology)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850505 Online	3F or 6P	60.85 unadjusted	62.85 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Gain specialist skills in the disciplines of psychology and criminology with this unique course that also features an accredited psychology degree. Students will develop a broad knowledge of criminology and psychology and their application, including theoretical perspectives and an appreciation of the social and cultural contexts of criminological and psychological research and professional practice. A unique feature of this course is the option to complete a research project or work placement as part of a capstone unit. Upon completion of the course, graduates will have a comprehensive understanding of the methodologies and statistical techniques commonly used by researchers for information gathering and analysis, which they can apply when undertaking research activities. **Note:** Some elective units in this course contain compulsory residential schools and work placement opportunities. **Other requirements:** Students may study a criminology capstone unit that enables them to apply the theories, content knowledge and skills they have learned to a workplace environment. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Criminal justice; police; customs; correction services; law enforcement; human resource management; rehabilitation; teaching; guidance counselling; research.

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
851505 Online	4F or 8P	63.10 unadjusted	63.10 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course will allow students to become a professionally qualified social worker, eligible for membership with the Australian Association of Social Workers (AASW). Students will be supported by an experienced teaching team and be guided by practising social workers as they complete extensive field placements. Over the course of four years, students will develop an understanding of the practice methods, skills, knowledge and values of the social work profession. With an emphasis on problem-based learning, students will gain valuable experience in critical and reflective thinking and practice. Students will have the opportunity to complete 2 field education placements where they will begin to apply their developing knowledge and skills and see in-practice examples of theory. **Note:** Students are required to attend a minimum of 20 days residential school attendance throughout the course. **Other requirements:** Students complete up to 1000 hours of field education placements. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. The COVID-19 vaccination is mandatory to be eligible to attend a work integrated learning placement for this course. Students will be required to provide evidence of having completed a COVID-19 vaccination schedule by the closing date prior to a WIL placement. The vaccine received must be a vaccine approved by the Therapeutic Goods Administration (TGA) of Australia. For more information, visit cqu.edu.au/about-us/structure/schools to see CQUniversity's Clinical Placement Information.

Career opportunities: Social Worker; health; government administration; child protection; youth justice; prisons; disability; aged care; mental health.

Diploma of Arts

You also choose a major in one of:, History, Indigenous Studies, Literature, Media and Screen Studies, Sociology, Writing, Additional majors and minors include: Criminal Justice, Community Work, Education, Visual Arts (Arts Academy - Ballarat and Gippsland), Marketing, Entrepreneurship, Web Project Development, Behavioural Studies, Visual Culture (minor only). This will allow you to explore areas of personal interest in more depth and achieve the disciplinary knowledge required for further study/development in professional areas such as information management, education and communication. **Note:** We encourage you to view our recent webinar to find out more about the course. To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Minimum IT requirements for studying online federation.edu.au/current-students. **Majors:** The BA program includes a substantial core study of cultures and contemporary societies, with a focus on developing transferable skills for life and work. You also choose a major in one of: History, Indigenous Studies, Literature, Media and Screen Studies, Sociology, Writing. Additional majors and minors include: Behavioural Studies, Criminal Justice, Community Work, Education, Entrepreneurship, Marketing, Visual Arts (Arts Academy - Ballarat and Gippsland), Visual Culture (minor only), Web Project Development.

Career opportunities: Academic tutor, Advertising coordinator, Broadcast assistant, Business manager, Chief sub-editor, Community service agency worker, Community worker, Critic, Digital production manager, Film and DVD marketer, Heritage curator, Image curator, Lecturer, Media planner, Playwright, Policy writer, Production designer, Small business owner, Account manager, Archivist, Broadcast monitor, Case management officer, Communications officer, Community support manager, Copywriter, Curator, Editor, Film and television floor manager, Film curator, Film programmer, Human resources manager, International agency project worker, Marketing and communications assistant, Media coordinator, Media presenter, Policy advisor, Production manager, Project manager, Public relations officer, Social researcher, Tourism consultant, Associate editor, Broadcast operator, Case manager, Community development officer, Counsellor, Digital marketer, Film and DVD distributor, Film and television producer, Film educator, Government officer, Journalist, Marketing and sponsorship coordinator, Media officer, Museum curator, Policy officer, Production crew member, Professional writer, Project officer, Research officer, Sound collection curator, Writer After further study, you may become a teacher specialising in English, History, Humanities or SOSE (Studies of Society and Environment).

Bachelor of Criminal Justice Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041120 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Combine your passion for social and criminal justice, with people and project management skills and make a real difference to the people impacted by the criminal justice system. The criminal justice system is becoming increasingly complex and the systems related to criminal justice are expanding to include more community, government and non-government organisations than ever before. The increase in the breadth of organisations working in a criminal justice context has highlighted the importance of management skills for people considering a management career in criminal justice. This new degree is ideal for people who have a passion for and interest in developing and managing projects. You will develop an understanding of the criminal justice system, criminal justice agencies, victims and offenders and also the skills to undertake project and strategic management, communications, grant application writing, manage people and develop creative and innovative solutions to social and justice related problems. Our graduates are job-ready through a work integrated learning program undertaken in the third year of the degree. Students experience criminal justice in the real-world with a placement that responds to real world issues. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Federation University Australia website.

Career opportunities: Case management officer, Criminal intelligence analyst, Criminologist, Government officer, Industrial relations officer, Law reform campaign officer, Youth justice officer, Court officer, Policy analyst, Policy officer, Political advisor, Project officer, Youth worker. The career options for successful completion of the Bachelor of Criminal Justice Management include working in justice agencies, government departments and NGOs to design, develop, implement, and manage projects or lead small teams. Roles can include, grants officer, project officer, law reform and advocacy projects, Youth Justice, victims, support agencies.

Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041163 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This degree will prepare you for work in state and federal police, in courts and corrections, government departments and for work in community based agencies delivering criminal justice programs. You'll learn to understand crime data, why crime rates and types vary in different countries and across remote, regional and urban settings. You'll also learn to evaluate the effectiveness of different crime prevention strategies and policies, as well as develop a knowledge of criminal justice programs in international jurisdictions. You will engage with debates about the interaction between the criminal justice system and groups in society who are over represented as victims, offenders or both. Consider the influence of factors such as disadvantage, ethnicity, aboriginality, disability, age and gender and the effect of these factors on access to justice. In this degree, students develop the practical skills and knowledge to prepare them for work or further study. Assessments are informed by practical examples of the requirements of industry, practical experience in the field and presentations by those already in the field. This program also offers foundational research knowledge for students wanting to pursue post graduate studies or who would like to develop their research skills in industry. The degree was developed in consultation from students, justice and community based agencies. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Minimum IT requirements for studying online federation.edu.au. **Majors:** Major options: Community and Human Services, Behavioral Studies, Sociology, IT security. Minor options: Community and Human Services, Behavioral Studies, Sociology, IT security, Writing, Indigenous Studies.

Career opportunities: Case management officer, Communications officer, Corrections officer, Court officer, Criminal intelligence analyst, Criminal investigator, Criminologist, Family caseworker, Government officer, Industrial relations officer, Investigation officer, Juvenile caseworker, Law reform campaign officer, Media officer, Police officer, Policy analyst, Policy officer, Political advisor, Private investigator, Project officer, Public relations officer, Welfare officer, Youth worker

Prerequisites: Any general or applied English subject (Units 3 and 4, C).
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Griffith is a leader in this field, ranking in the world's top 100 for political and international studies for the past four years, boasting a world class staff of political experts. This degree provides highly motivated students the opportunity to gain a deeper understanding of government, political science and international relations in the modern world and the forces that shape these dynamics at global and domestic levels. You'll learn about international security, trade, international organisations and human rights, political institutions and processes, business-government relations and more. In your first three years, you'll explore the politics, policy making and international dynamics that have shaped the contemporary world. In your fourth year, you will acquire high level research skills and take a deep dive into the topic of your choice. You'll also have opportunities to study abroad or complete a global internship, all designed to enrich your skills and help prepare you for the future world of work. Plus, you'll have access to Business PLUS, which offers mentoring, networking and career mapping workshops. **Majors:** International relations; political science and public policy; security, conflict and human rights. Second majors: Asian engagement; Chinese language; economics; international business; Islam-West relations; Japanese language; Spanish language. Via cross-institutional study at The University of Queensland (Nathan campus only): French language; German language; Indonesian language; Korean language.

Career opportunities: An honours degree prepares you for the higher research degrees and a career in academic research. Equally, it is highly regarded by employers and well recognised as a step beyond a traditional undergraduate degree in the application of theory and practicum. Politics and public policy provide opportunities administering advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. As a graduate with strong analytical and critical thinking skills, you will be prepared for a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector. An international relations qualification gives you a huge range of employment options in Australia and internationally. You could find a job in foreign ministries, defence departments, intelligence and aid organisations. You could also work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies.

Diploma of Political Science and International Relations/Bachelor of Political Science and International Relations

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228061 Nathan	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C);
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will give you a better understanding of the causes and consequences of complex crime and criminal justice issues and how they are currently dealt with by government at local, national and global levels. It will combine the study of what makes criminals tick with an understanding of the justice system and policy making processes. With an appreciation of how policy is created and applied, plus an understanding of crime and criminal behaviour, you will be equipped to influence the policy underpinning the justice system to ultimately deter crime, rather than simply respond to criminal behaviour. **Majors:** Political Science and International Relations: International relations; political science and public policy; security, conflict and human rights.

Career opportunities: Studying criminology and justice provides you with a pathway to a wide variety of rapidly growing career opportunities. You will be suited to work in fields such as policing, corrections, government, education, policy development, security, intelligence, regulatory law enforcement, crime prevention, customs, crime analysis, youth justice, courts and justice services. A double degree with Political Science and International Relations will provide you with a variety of opportunities providing advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. You may also find a job in foreign ministries, defence departments, and intelligence and aid organisations, or work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies. With your strong analytical and critical thinking skills, you'll be able to pursue work in a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector.

Bachelor of Languages and Linguistics

Contact the relevant TAFE Queensland campus for more information relating to Vocational Placement.

Course outline: This course is perfect for those who want to work with young people in a diverse range of settings. This course provides learners with the practical knowledge needed to engage respectfully with young people and identify and respond to people in crisis. Students learn to conduct group activities, manage case loads, and to develop and implement procedures to help young people address their needs. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Child safety support officer, youth mental health and disability youth worker, youth justice youth worker, support worker, child and youth residential care worker, school based youth support officer, Indigenous support worker.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Advanced Humanities (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
757101 St Lucia	4F or 8P	87.40 unadjusted	90.50 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Aimed at high-achievers, this course exposes students to contemporary thinking in the humanities and prepares for a range of careers in leading academic or professional organisations. Students engage with leading humanities researchers from the first year of study and participate in the University research culture, applying and developing their analytical skills through practice-led learning. For more information, visit study.uq.edu.au. **Note:** This course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. A Global Experience option is also available in the second year. **Majors:** Ancient history; art history; drama; English literature; history; music; philosophy; studies in religion.

Career opportunities: This program prepares graduates for a range of careers in leading academic or professional organisations. Their research training and critical thinking will give graduates an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

Bachelor of Advanced Humanities (Western Civilisation) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
757201 St Lucia	4F or 8P	92.35 unadjusted	96.00 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Embedded in this degree, the extended major in Western Civilisation immerses students in a creative and diverse curriculum with a strong critical focus on the key intellectual movements which have shaped Western Civilisation from antiquity to the current day. Students read, study and critique major works of literature, art, music, politics, law, and religion, and develop an understanding of the dynamic interplay of social, historical and aesthetic forces that have contributed to evolving conceptions of the West. For more information, visit study.uq.edu.au. **Note:** This course includes an industry or community mini-internship, an orientation camp in the first semester of in first year, and a student-organised conference in the year of study. A Global Experience option is also available in the second year. **Majors:** Western Civilisation.

Career opportunities: This program prepares graduates for a range of careers in leading academic or professional organisations. Their research training and critical thinking will give graduates an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
707001 St Lucia	3F or 6P	65.25 unadjusted	70.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Arts is UQ's largest program with over 40 study areas on offer, giving students the opportunity to explore the subjects they love across the humanities, social sciences and languages. The Bachelor of Arts gives students the ability to adapt and thrive in a world that demands versatility, interdisciplinary knowledge and creative solutions to critical problems. Students develop skills in written communication, problem-solving, critical thinking and interpersonal understanding, allowing them to think creatively, communicate effectively and examine the world around them. Students may structure their program with a range of majors and minors. Any major can also be studied as a minor. For more information, visit study.uq.edu.au. **Majors:** Aboriginal and Torres Strait Islander studies; ancient Greek, ancient history; ancient history/history; anthropology; archaeology; art history; Australian studies (minor only); Chinese; Chinese translation and interpreting; criminology; drama; economics; English; English literature; English as an international language; film and television studies; French; French advanced; gender studies (minor only); geography; German; history; Indonesian; international relations; Italian; Japanese; Japanese advanced; journalism and mass communication; Korean; Latin; legal education studies; linguistics; mathematics; media and digital cultures; music; music psychology (minor only); peace and conflict studies; philosophy; political science; popular music and technology; professional writing and communication; psychology; Russian (minor only); sociology; Spanish; sports studies; studies in religion; writing.

Career opportunities: Graduates are rewarded with a range of career opportunities in government, community, not-for-profit and international organisations.

Bachelor of Arts/Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
707301 St Lucia	4F or 8P	76.95 unadjusted	76.95 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Students learn to identify and analyse social concerns and problems, develop positions on social issues, and propose possible interventions. The arts component provides skills in written communication, problem-solving, critical thinking, and interpersonal understanding. It offers a choice of subject areas in the humanities and social sciences. The social science component provides expertise to develop strategies and help find solutions to social issues in the local, national and international arenas. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Arts and Bachelor of Social Science. Students cannot take the sociology major or extended major in the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Arts and Bachelor of Social Science.

Bachelor of Communication

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
741001 St Lucia	3F or 6P	79.75 unadjusted	81.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Communication prepares students for a lifetime of creative and critical use of media and communication in industries, government and communities. This program gives students a strong foundation in writing, industry engagement (including internships), practice and production skills, and critical thinking. Students develop expertise in multimedia and online content production, social media engagement and analytics, community and stakeholder engagement, and campaign development. Specialise by choosing a major, alongside electives, or a second major or a minor. For more information, visit study.uq.edu.au. **Majors:** Digital media; public relations. Minors: interaction design; journalism; writing. Digital media and public relations are also available as minors.

Career opportunities: Public relations; advertising; media planning/ and analysis; film and television; web design and management; business communication; health promotion.

Bachelor of Communication/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
741201 St Lucia	4F or 8P	74.20 unadjusted	79.20 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The communication component develops critical awareness of how communication influences people's lives. The course examines many forms of communication, including verbal, non-verbal and written, as well as various technologies through which information is transmitted. The arts component provides a flexible structure with a range of disciplines to choose from, and produces graduates with skills in written communication, critical thinking and problem-solving. Students can choose from a range of majors, tailoring the degree to suit their career aspirations. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Communication and Bachelor of Arts. Students cannot take the journalism and mass communication, media and digital cultures, or professional writing and communication majors in the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Communication and Bachelor of Arts.

Bachelor of Communication/Bachelor of Journalism

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
741301 St Lucia	4F or 8P	81.15 unadjusted	81.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This dual degree explores the practices of journalism and the way in which the media and communication work together. In the communication component, students develop a critical awareness of how communication influences people's lives and specialise in areas of interest that tailor their career path. In the journalism component, they study reporting, investigation, editing, and communication and media contexts of journalism, creative problem-solving and learn to be an independent and reflective professional. For more information, visit study.uq.edu.au. **Majors:** Digital media; public relations. Minors: Interaction design; writing. Digital media and public relations are also available as minors. Students cannot take the journalism minor in the Bachelor of Communication.

Career opportunities: Refer to the Bachelor of Communication and Bachelor of Journalism.

Bachelor of International Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
707111 St Lucia	3F or 6P	80.00 unadjusted	84.00 adjusted	Feb 2024	11 Jan 2024

Students cannot complete the journalism and mass communication or professional writing and communication majors in the Bachelor of Arts.

Career opportunities: Print; radio; television; multimedia; public relations; marketing and communications; public service; online content development; TV; publishing. Many large corporations employ journalists in a range of communications and public relations positions.

Bachelor of Politics, Philosophy and Economics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714112 St Lucia	4F or 8P	92.15 unadjusted	94.15 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This program offers an integrated, cross-disciplinary perspective that combines broad and rigorous training in the foundations of politics, philosophy and economics. Students will study insights from all three disciplines and examine current and future global challenges. This program equips students with versatile skills to address complex and challenging issues drawing on a historical, social, political and economic knowledge base. For more information, visit study.uq.edu.au. **Majors:** Economics; philosophy; politics.

Career opportunities: Graduates of this program are employable in analytical and decision-making positions in the public, private and not-for-profit sectors, in roles such as an economic or social analyst, policymaker, public commentator, political adviser, and as a leader in international affairs and the diplomatic services.

Bachelor of Psychological Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
757001 St Lucia	4F or 8P	84.50 unadjusted	88.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This program is designed for students looking to undertake comprehensive studies in psychology, including the study of developmental, social, cognitive, biological, physiological and abnormal psychology as well as study in research methods and report writing. Courses examine areas including child development, neuroscience, learning and cognition, social and organisational psychology, psychological assessment, psychological research methods and evaluation of research. With a range of psychology electives to choose from, students will gain a thorough understanding of the fundamentals of psychology while gaining exposure to a variety of specialisations. For more information, visit study.uq.edu.au. **Note:** This program meets undergraduate requirements for professional registration when combined with two years' supervised experience as a psychologist.

Career opportunities: Registration as a provisional psychologist with the Psychology Board of Australia, as well as associate membership of the Australian Psychological Society. Further training is required for general registration as a psychologist. With full registration, pursue careers in clinical psychology, clinical neuropsychology, organisational psychology, educational and developmental psychology, sports and exercise psychology, and counselling. Broader career options include human resources, mental health services, youth and child support work, relationship counselling, residential care, family and social services, public and private sector management, marketing, advertising and market research, disability support services, aged care, juvenile justice and corrective services.

Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
747001 St Lucia	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In the Bachelor of Social Science, students develop a strong grounding in social justice, policy research, and links to industry. The program provides a foundation in the practice-based skills, values and knowledge related to key social problems. Practical workforce skills include public policy design and evaluation, social impact assessment, public advocacy, social planning and research. For more information, visit study.uq.edu.au. **Majors:** Development; environment and society; health and social policy.

Career opportunities: Students will be equipped with relevant and marketable skills including policy making and advocacy, public communication, cross-cultural awareness, report writing, project management and social research skills. These skills enable graduates to seek employment with organisations such as government departments, community service and advocacy agencies, healthcare providers, non-governmental organisations (NGOs), and in the business/private sector.

Bachelor of Social Work (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
734001 St Lucia	4F or 4P & 2F	73.85 unadjusted	75.30 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: UQ Social Work (Honours) graduates will create a fairer, more inclusive society and champion the rights of the disadvantaged. The program combines core knowledge and skills in social work, social policy and research. Students will learn about social work and the law, human development, professional ethics, current welfare and social issues in Australian society, and a range of related social science disciplines. For more information, visit study.uq.edu.au. **Note:** Students can take the program part-time, but the semesters that have placement require full-time enrolment. Students commencing the program in semester 2 will take longer to complete the degree. **Other requirements:** Students must obtain a Blue Card before commencing a placement course, and hold it for the duration of the program. For more information, visit habs.uq.edu.au.

Career opportunities: Social workers in a variety of government, community and private organisations. Work with individuals, groups and communities, such as abused children, people with disabilities, people with mental health issues, victims and perpetrators of domestic violence, people with eating issues, homeless people, survivors of sexual abuse, asylum seekers, elderly people, and people with drug and alcohol issues.

Course outline: This flexible degree allows you to tailor your study areas to suit your skills, interests, and career aspirations. Major in Social Media or Journalism, with options to add minors in Strategic Global Communication, Creative and Interactive Advertising or select elective courses that engage your creativity and provide exposure to international skillsets and future work opportunities. In this program you will gain a breadth and depth of knowledge in the core communication disciplines and become well-grounded in key themes in global communication and multicultural discourses. You'll develop briefs and communication campaigns and work with real clients, and gain exposure to industry with work placement opportunities. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar. **Majors:** Journalism, Social Media, Game Design, Creative Writing and Publishing, Music, Screen Media, Theatre and Performance, Visual Communication, Interactive Media and Digital Culture. Some major/minor combinations may need to be commenced in the first semester of study to complete in the minimum duration. Not all majors available at Moreton Bay.

Career opportunities: Social media manager, advertising executive, content strategist, creative director, public relations officer, copywriter, copy editor, marketing officer, corporate communications officer.

Bachelor of Counselling

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
011161 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014361 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Help people with their mental health and emotional wellbeing. The program is designed to provide the skills to become a professionally accredited counsellor. You will be equipped with a wealth of counselling knowledge applicable to a variety of career pathways, as well as being taught skills to work ethically with clients who seek help. In this program you will explore counselling theories and skills, positive psychology, communication and relationships, family counselling and crisis intervention, grief and loss and cultural diversity. You can choose electives to link with areas that will expand your career options while you learn with like-minded peers at either our Sunshine Coast or Moreton Bay campuses, delivered by blended learning. As part of the program you will complete two internship placements at approved agencies. **Other requirements:** A Suitability Card (Blue Card) and National Criminal History Check is required; refer to institution. This program includes placements in settings that may require COVID-19 vaccination with limited placement in settings that do not require full vaccination. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Mental health, welfare work, aged services, child protection, disability services, counselling individuals, families and groups, youth.

Bachelor of Criminology and Justice

015013 Online	3OL or 6OL	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Develop a strong understanding of Australia's criminal justice system, including law enforcement, crime policy, the courts, and custodial and community corrections. Explore the motivations and consequences of criminal behaviour, along with questions of social justice, ethics and law reform. In this program you will understand legal institutions and processes, and examine fair and effective methods of crime prevention. You'll learn how to research crime-related issues and develop problem-solving skills as you choose from specialist courses in criminal profiling, cybercrime, international justice, youth justice, homicide and forensic science, and more. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Police, intelligence, custodial and community corrective services, youth justice, crime prevention, therapies and rehabilitation, court system, advocacy, customs, legal administration, community legal services, child safety.

Bachelor of Human Services

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
011121 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014121 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Give others the tools to create positive change and live meaningfully. This degree provides a broad overview of many areas of human services, and builds knowledge and capacity for various roles in community welfare and social justice. Importantly, this degree forms a strong grounding in the principles of social equity and anti-oppressive practice, which are foundational to the field. In this program you will gain exposure to the theory and values of human services practice and develop practical skills to ensure your success. You'll extend your understanding of the nature of contemporary society, and individual, family and community behaviour, and learn to critically analyse social problems and intimately understand Australian social welfare. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Students are required to complete two field education placements at approved agencies. A Suitability Card (Blue Card) and National Criminal History Check is required; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Case manager, community development worker, family support worker, youth worker, disability services worker, child safety officer, community corrections officer.

Bachelor of Psychology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013441 Sunshine Coast	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014441 Moreton Bay	4F or 8P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Help others with their mental wellbeing. This program helps you understand why people think, feel and behave certain ways. Explore the professional practice of psychology, including cognitive, social, perceptual, physiological, intercultural, Indigenous and abnormal psychologies. In the final year of study, you'll have the opportunity to learn about a specific area of interest when you undertake an advanced research project. The training is scientifically and ethically based to teach you types of behaviour, examine personality and to conduct formal personality assessments. In this program you will learn from award-winning psychology staff who work in the field. You'll undertake an advanced research project and gain high-level statistical and research skills. **Other requirements:** Entry to the fourth year of the Bachelor of Psychology (Honours) is based on a student's GPA in the advanced level (200/300 coded) PSY courses. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Child protection services, correction services, non-government community organisations, private health system (hospitals and clinics), private practice.

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
011151 Sunshine Coast	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

015051 Online	4OL or 8OL	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Do you have a passion for social justice, human rights, and making a difference? This degree produces graduates equipped to work with skill and passion to enhance the social wellbeing of individuals, groups and communities, both locally and globally. The social issues people experience in an ever-changing world are often complex, and require highly-skilled approaches. This program is underpinned by principles of human rights, social justice and integrity as the foundation for professional social work practice. In this program you will learn through a rich combination of academic and extensive work practice knowledge and develop the skills to support change ethically across a diversity of needs, forms of disadvantage, and practice contexts. You'll complete two field education placements (1,000 hours in total) gaining practical experience in a range of fields including health and mental health, child protection, disability, substance abuse, family violence and more. **Note:** This degree requires some on-campus attendance for mandatory intensive classes. If applying online there will be a face to face component, where students will be required to attend campus for 20 days as required by AASW accreditation standards. Please note that some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** Students must complete two field education placements in third and fourth years at approved agencies. A Suitability Card (Blue Card) is required; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Community-based and government roles in health, mental health, disability, schools, policy development, Centrelink, and child protection.

Bachelor of Social Work/Bachelor of Criminology and Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
011221 Sunshine Coast	5F or 10P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014321 Moreton Bay	5F or 10P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Learn about the social causes and consequences of crime and disadvantage in this double degree. You'll be taught how sociological influences can impact offending and gain a deep understanding of Australia's criminal justice system, including areas of law enforcement, crime policy, the court system and custodial and community corrections. The social work component of the program is fully accredited by the Australian Association of Social Workers, and prepares professionals to work with individuals, families, groups and communities. In this program you'll learn about social inequality and how to make a difference in the legal system as you research crime-related issues and develop problem solving skills. You'll complete two field placements where you'll learn practical skills. You can choose from specialist courses in criminal profiling and intelligence, youth justice and restorative justice, homicide, forensic science and more. You'll also have the opportunity to complete a professional placement in your final year. **Note:** Some placement host organisations have chosen to continue requiring COVID-19 vaccination. If you are not fully vaccinated, it is important to know that placement opportunities in your program may be limited and may result in a delay to your placement. **Other requirements:** Students must complete two field education placements in third and fourth years at approved agencies. A Suitability Card (Blue Card) is required; refer to institution. Prerequisites: No prior study. **Additional entry information:** Applicants who have already completed a higher education qualification (AQF Level 5 or above or equivalent), excluding VET sector diplomas, are not eligible for entry into this program.

Course outline: Want to make a difference in people's lives? Begin your career with the knowledge needed for future studies in counselling, psychology, social work, human services or community health. In this program you will learn how people think and behave and how to relate to different communities, including children, families, the elderly and First Nations Australians. You'll learn about the importance of professional ethics and social justice, and start to build skills to interact with clients. On successful completion, receive direct entry and up to 96 units of credit towards a Bachelor of Counselling, Bachelor of Human Services, Bachelor of Behavioural Science (Psychology), or Bachelor of Social Work. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Disability support, education, government departments, mental health, non-government organisations, research, telephone counselling, welfare work, working with individuals, youth work, disaster management.

Course outline: In this program you'll learn how people think and behave, and how to relate to work in different community organisations and start to build skills and knowledge around the basic understanding of individuals, groups and communities. **Note:** The certificate is an identified pathway into the following programs: Bachelor of Counselling, Bachelor of Human Services, Bachelor of Social Work or Bachelor of Criminology and Justice. On successful completion of the certificate, students may be eligible to receive 48 units of credit towards their selected pathway degree. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Career opportunities in counselling, criminology and justice, human services, social services and social work.

UNIVERSITY OF NEW ENGLAND

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616011 Armidale	3F or 6P	67.55 unadjusted	67.55 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree equips students with creative, critical and analytical skills ideal for life-long learning. Graduating students have the subject(s) of their specialisation in the degree appear on their test, e.g. Bachelor of Arts (Psychology) or Bachelor of Arts (Theatre and Performance). **Majors:** Ancient history; archaeology; Australian history; Australian Studies; Chinese; classical languages; Community Development; Community Planning; Crime and Society; Criminal Justice, Cultural Heritage; Environmental Futures; French; Gender Studies; Genre, Adaptation and Practice; German; Global Politics; history; human geography; Indonesian; international history; International Law; Italian; Japanese; linguistics; Literary Traditions; Medieval and Early Modern Europe; music; peace studies; philosophy; physical geography; Planning and Design; Post-Colonial Studies; politics; psychology; screen and media studies; sociology; Spanish; studies in religion; theatre and performance; writing.

Career opportunities: Management, public relations, foreign affairs, education, business, human resources, research, psychology, archaeology, film and theatre, editing, publishing, tourism.

Bachelor of Arts/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
617531 Armidale	4F or 8P	67.70 unadjusted	67.70 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree combines high-level communication and analytical skills with solid business knowledge. For external study, contact the UNE Future Students Team. **Majors:** Refer to Bachelor of Arts and Bachelor of Business.

Career opportunities: Financial sector, public relations, tourism, personnel and human resource management, publishing and editing, planning, foreign affairs, trade and industry.

Bachelor of Arts/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616581 Armidale	5F or 10P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This double degree provides students with the flexibility to pursue a purely legal career as a practitioner or to build a career in another field, drawing on legal skills and knowledge. The law component includes compulsory fundamental units such as legal systems and method, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team. **Majors:** Refer to Bachelor of Arts.

Career opportunities: Management and administration, public and foreign relations, media, editing and publishing, private practice, legal aid, government, private sector companies, consultancy.

Bachelor of Arts/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
627591 Armidale	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This combined degree allows students to pursue interests in the arts, humanities and social sciences, and the physical or biological sciences. Students can study an arts major/extended major and a science major of their choice in preparation for a range of careers. This degree combines excellent communication and analytical skills with scientific knowledge and has been developed in response to increasing student demand and employer preference for recruitment of combined degree graduates. For external study, contact the UNE Future Students Team. **Majors:** Refer to Bachelor of Arts and Bachelor of Science (excluding animal science and veterinary studies; palaeobiology).

Career opportunities: Management and administration, heritage and archival, policy and public relations, media, tourism, editing and publishing, primary industries, resource management, water and land resources, teaching (with further study).

Bachelor of Criminology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616201 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This interdisciplinary degree draws on criminology, forensic science, sociology of deviance, law, and criminal justice studies. Study includes criminal law, criminology, sociology, psychology, forensic science, and social work. In later years, students choose criminology elective units and undertake training in research methods, crime prevention, and social policy analysis to equip them with the skills for employment in the criminal justice sector. **Majors:** Criminal Justice and Society. **Minors:** Criminal Justice Processes and Forensics; Justice and Indigenous Peoples; Psychology

Career opportunities: Police officer, crime prevention coordinator, juvenile justice officer, drug policy adviser, crime intelligence services.

Bachelor of Historical Inquiry and Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616031 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree focuses on the professional development of historians. As it is recommended for professional historians to study a discipline relevant to their chosen professional specialty, and because historical inquiry is accepted as elemental to various professions beyond those conventionally associated with history, this course allows students to combine history with other disciplines. This facilitates an education in, for example, historical fiction and writing, social history and criminology, family history and sociology, national history and languages, and cultural history and music. **Majors:** Ancient History, Archaeology, Australian History, European History, Locaol, Family and Applied History. **Minors:** Archaeological Practice, Classical Languages.

Career opportunities: Heritage, museums and archives, libraries, diplomacy and international affairs, media, consultancy, editing and publishing, administration, public policy, teaching (with further study).

Bachelor of Languages

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616771 Armidale	4F or 8P	71.65 unadjusted	71.65 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course is for students wanting to pursue study in one or more languages (Chinese [Mandarin], French, German, Indonesian, Italian, Japanese, and Spanish). Students can spend two teaching periods studying university courses in the countries of their chosen languages. This in-country residence greatly enhances students' communicative skills and level of cultural awareness. For external study, contact the UNE Future Students Team. **Majors:** Chinese (Mandarin); French; German; Indonesian; Italian; Japanese; Spanish.

Career opportunities: Diplomatic service, foreign affairs, trade and industry, international teaching, travel, tourism, hospitality, social and welfare roles.

Bachelor of Media and Communications

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616401 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree develops knowledge of media and communications in their cultural and historical contexts. Graduates understand and apply a range of methods for studying forms of communication - print, film, television, new media, and diverse writing practices - and their role in modern society. Students can study disciplines related to media and communications, such as literature, theatre, language, music, sociology, history, political studies, or psychology. For external study, contact the UNE Future Students Team. **Majors:** Media and culture; writing and publishing.

Career opportunities: Journalism, radio and television film production, public relations, corporate writing, editing and publishing, research, marketing communications, advertising and communication strategy.

Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616811 Armidale	3F or 10 P	69.90 unadjusted	73.70 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This accredited degree provides a thorough grounding in psychology. Students can also explore areas of interest with psychology units in diverse areas such as Social Psychology (the study of human social behaviour), Biopsychology (the study of the biological bases of behaviour), Individual Differences and Assessment (study of individual differences in personality, intelligence and behaviour), and Psychopathology (the study of psychological disorders). Graduates with sufficient grades are eligible for entry to accredited fourth year psychology programs. **Note:** This course includes an optional minor in criminology or major in counselling.

Career opportunities: A wide range of public, private and non-profit settings, human service organisations, employment agencies, counselling services, market research, youth justice, youth support, health, social care and community services.

Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616591 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course gives students an ability to understand and research the social world from the points of view of both the individual (psychology) and the group (sociology). It equips students for the workplace by instilling the analytical and research skills they need in a complex environment. Students receive a solid grounding in both psychology and sociology. They can choose to specialise in psychology, sociology or another subject area. **Majors:** crime and society; criminal justice; linguistics; organisational management; politics and peace studies; studies in settler colonialism; psychology; social and philosophical inquiry; social philosophy; sociology; urban and regional studies.

Career opportunities: Public and private sector, policy adviser, planning and research officer, market and social researcher, personnel officer, human resource management.

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616561 Armidale	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Course outline: This degree provides students with the knowledge, theories and practical skills required to work as a professional social worker and eligibility to become a member of the Australian Association of Social Workers. Covering all the core requirements of an accredited professional social work degree, this course emphasises practice in rural and complex community environments, and focuses on rights-based practice, mental health, Indigenous peoples, child protection and the law. **Other requirements:** UNE field education units are compliant with the Australian Association of Social Workers requirements for practical experience. Students undertake 1000 hours of fieldwork as two placements over two units. Students must meet the Inherent Requirements to complete this course. Additionally, the mandatory NSW Health Verification Requirements must be completed by week 9 of the first trimester of study. In addition, students must meet UNE requirements by week 9 of the first trimester of study. These include a valid Working with Children check for the state or territory in which the student will undertake placement and a National Criminal History Check.

Career opportunities: UNE's Bachelor of Social Work offers graduates career opportunities found in hospitals, government agencies (such as justice, housing and youth and child protection services), community-based family support and welfare agencies, women's refuges and community legal centres, city councils, mental health, disability and aged care facilities, schools and for-profit human services (e.g. private practice counselling, employment services).

Prerequisites: ⁎.

Course outline: Studying this program gives students the knowledge to execute their passion for people and gain insight into the key issues facing the welfare sector. Students develop global perspectives on social justice and human rights as well as a solid understanding of the environmental, economic, and social contexts impacting individuals and communities. Understand community development and welfare from a wide range of perspectives from within Australia and globally. Combine your learning with courses exploring the foundations of human resource management, including staffing and remuneration, workplace health and safety, employment relations, people development, and leading organisational change. **Note:** All majors in the Bachelor of Human Services are offered in on-campus (Ipswich and Toowoomba) and external modes. Students enrolled at the Toowoomba campus will need to undertake inter-campus travel or online study to complete additional core and elective courses. **Other requirements:** Students must obtain a Blue Card and Australian Federal Police Criminal History Check Certificate; refer to institution. Mandatory residential schools and 420 hours of supervised professional placements are undertaken as part of this program.

Career opportunities: Community and government organisations as community development worker, counsellor, welfare worker, support worker, case manager, child support officer. This degree will provide you with a solid foundation to work in a variety of roles including in a human resource management capacity in community or welfare organisations.

Bachelor of Human Services (Child and Family Studies)

Combined degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
909135 External	4F or 8P	64.00 unadjusted	66.00 adjusted	Jan 2024 May 2024	11 Jan 2024 15 Mar 2024

Prerequisites: ⁎. **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information.

Course outline: Become a practice-ready social work graduate who is dedicated to achieving human rights, social justice, inclusion, community and global

wellbeing. Study a Bachelor of Social Work online at UniSQ that develops the skills and knowledge needed to enable you to become a change agent in search of a socially just society. You can work with individuals, families, and communities or contribute to policy that influences structural disadvantage.

Career opportunities: Graduate with the knowledge, skills and an ethical practice framework that enables you to deliver social work services in areas such as child protection, youth justice, domestic and family violence, mental health services, disability support, hospitals and health care, sexual assault services, asylum seekers and refugee support, community services and schools. Social work leads to careers in agencies and services that provide opportunities for working with individuals and families in the community, but your degree will also enable you to work towards societal change through advocacy, policy development and evaluation, and legislative input. A UniSQ social work degree allows you to work locally, nationally and internationally as your skills and knowledge are in high demand.

Bachelor of Social Work (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
909185 External	4F or 8P	❖ unadjusted	❖ adjusted	Jan 2024	11 Jan 2024

Prerequisites: Prior study. **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information.

Course outline: After successful completion of your first two years of UniSQ online Bachelor of Social Work, you may be invited for admission into the Bachelor of Social Work (Honours). Undertaking Honours still allows you to become a practice-ready graduate social work practitioner and be a catalyst for change, dedicated to achieving human rights, social justice, inclusion and wellbeing. Adding an independent research project to your social work degree means you can extend your research interests and be more competitive upon graduation. You may be able to continue to study a higher degree, including a PhD.

Career opportunities: Graduate with the knowledge, skills and an ethical practice framework that enables you to deliver social work services in areas such as child protection, youth justice, domestic and family violence, mental health services, disability support, hospitals and health care, sexual assault services, asylum seekers and refugee support, community services and schools. Social Work leads to careers in agencies and services that provide opportunities for working with individuals and families in the community but your degree will also enable you to work towards societal change through advocacy, policy development and evaluation, and legislative input. While honours graduates can still practice as social workers in chosen fields of practice; an honours degree demonstrates high academic achievement. Having a Bachelor Social Work (Honours) can provide a pathway for further research either in regard to employment or additional study. This degree gives you prerequisite research skills to undertake a higher research degree. Your qualification enables you to practice locally, nationally and internationally as social work is in high demand.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
936371 Ipswich	4F or 8P	68.00 unadjusted	75.00 adjusted	Jan 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics or Psychology (Units 3 and 4, C). **Additional entry information:** Inherent requirements are applicable to the program please refer to the UniSQ website for more information. UniSQ Early Offer scheme does not apply to this program.

Course outline: The Bachelor of Speech Pathology (Honours) at UniSQ is an innovative program designed to produce entry-level graduates who are eligible to apply to be certified practising speech pathologists. Students will learn to diagnose and treat a range of communication and swallowing disorders in children and adults and to apply these skills in a variety of professional settings. A key focus of the program is to engage students from regional and remote areas and to support them in returning to practice in their communities through the acquisition and application of advanced digital health skills and an extensive regional and remote clinical placement. Students will also have the opportunity to explore the importance of Speech Pathology in juvenile justice, social policy and advocacy and educational settings. **Note:** Clinical placements are a key requirement of the program and students will need to travel away from home to undertake these at different stages of the degree.

Career opportunities: Speech pathologists are employed in a wide variety of settings, such as sole and interprofessional private practices, health care facilities such as in hospitals, specialist settings such as cancer institutions, aged care, hospitals and increasingly palliative care settings, preschools, primary and secondary schools, non-government organisations and community settings. This program will prepare entry-level practitioners for all professional environments in Australia.

Diploma of Arts

Prerequisites: ⁎.

Course outline: The Diploma of Professional Photography helps you develop professional and practical skills in this highly sought-after field. You will learn photographic genres and styles used in advertising and commercial enterprises, photojournalism, PR and events coverage, sports and action, travel, food, fashion, street photography and more. Learn from professionals as you explore photography techniques and industry-standard software including programs in the Adobe Creative Suite. Establish your professional goals and expand your skills to include studio work and fieldwork scenarios. Whether your next step is further study or employment, this diploma helps you make that transition.

Career opportunities: This diploma will help you develop a quality portfolio that can be presented to prospective employers and clients. Photographers may be self-employed, or work for agencies and studios, or as in-house specialists in corporate enterprises. A career in photography can allow you to use your professional and creative skills across a range of interests including documentary, journalism and communication, health and fitness, fashion and beauty, architecture, sport and science, and more.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This is an ideal course if you are looking to upskill or start a career as a technology specialist. It provides students with a foundation for a fast-paced, challenging and dynamic career in the information technology industry. Core units provide students with a solid grounding in core information technology knowledge and skills as defined by the Australian Computer Society. This course allows students a wide choice of electives to pursue an area of interest.

Career opportunities: Developer Programmer; Web Developer; Analyst Programmer; Business Analyst; Database Administrator; ICT Support Technician; ICT Customer Support Officer; Business Analyst Support Officer; Project Management Support Officer.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This is a highly practical degree that will equip students with a broad foundation of IT knowledge and skills and embeds work-integrated learning opportunities to prepare them for a successful career in the information technology (IT) industry. Designed with input from industry partners, students benefit from innovative, up-to-date and industry-relevant units, as well as in-built practical experiences. Students will complete either an internship or capstone project to gain real-world skills wanted by employers. Designed in consultation with industry and accredited by the Australian Computer Society, students will have the choice to major in application development, business analysis, or cyber security. Students can tailor their studies even further to suit their career goals with a comprehensive choice of minors, designed to provide depth in a complementary discipline and reflecting emerging fields of IT. **Other requirements:** Students are able to undertake discipline capstone units while working with industry partners. Students have the option of undertaking an internship instead of the capstone units. For more information about course requirements, visit cqu.edu.au/courses. **Majors:** Application development; business analysis; cyber security.

Career opportunities: Application programmer; analyst programmer; ICT support technician; network administrator; systems administrator; web developer.

Bachelor of Information Technology (Co-op)

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course will support students in launching a successful career in the information, communication and technology industries. It enables students to acquire valuable experience through a supervised paid industry placement, typically of three months duration. The placement is an opportunity for students to earn while they learn, put theory into practice, and develop industry networks. Accredited by the Australian Computer Society, students will have the choice to major in application development, business analysis, or cyber security as well as a comprehensive choice of minors reflecting emerging fields of IT. **Note:** Students may choose to exit the degree early after completing a number of units and graduate with an Associate Degree of Information Technology or Diploma of Information and Communications Technology. **Other requirements:** Students undertake a compulsory paid industry placement. The normal duration of the placement is three months. Students may need to travel to and arrange appropriate accommodation in the location of the placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses. **Majors:** Application development; business analysis; cyber security.

Career opportunities: Application programmer; database administrator; ICT support technician; network administrator; systems administrator; systems analyst; web developer.

042001 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Our newly restructured IT degree gives you the flexibility to complete stand-alone core subjects along with an in-depth specialisation of your choice. You may also enrol in electives from across the university,

complementing your IT studies to tailor your own unique study plan. Throughout the program, you will develop strong communication, academic, programming and problem-solving skills - critical attributes for success in the IT sector. Your acquired skills will help you facilitate smooth communication with software developers in web design, systems modelling and user experience.

Career opportunities: Communications officer; Computer engineer; Computer systems engineer; Data warehouse administrator; Database administrator; Database administrator developer; Hardware technician; Information officer; IT consultant; Integration analyst; IT manager; Multimedia application developer; Multimedia developer; Network engineer; Network manager; Programmer; Software engineer; Support officer; Systems administrator; Systems analyst; Systems designer; Systems manager; Team leader; Training officer; Web designer.

Bachelor of Information Technology (Business Information Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041138 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This program examines organisational and technological issues required to analyse and design business information systems. Throughout the program, you will develop an understanding of organisational settings, recognising technology threats and opportunities, utilising modern principles and theories with practical applications. Subjects such as information security, multimedia, knowledge management, databases and emerging technologies in business will help you become familiar with the latest developments in IT, as well as different types of tools and their applications. Electives will compliment your IT degree, allowing you to build your business acumen with subjects including the theory and practice of managing people to build knowledge and understanding of workplace behaviour. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Minimum IT requirements for studying online federation.edu.au.

Career opportunities: Business analyst, Computer engineer, Computer systems auditor, Computer systems engineer, Data modeller, Database administrator, Database designer, Electronic commerce administrator, Hardware technician, Business process analyst, Enterprise systems analyst, Information and data manager, Information management administrator, Information manager, Management consultant, Sales representative, Specialist consultant, Systems analyst, Systems designer, Training and support team leader, Training manager.

Bachelor of Information Technology (Networking and Security)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
041148 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
041167 Brisbane	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: Learn how to defend business, government and individual databases that hold sensitive data. Employment in this area has experienced strong growth over the last ten years, and is forecast to continue. Your specialisation in security will allow you to be on the frontline of the war in cyberspace and become familiar with methods attackers use. You will learn how to investigate and protect against security breaches on vulnerable private information, whilst developing an understanding of the security models provided by the major operating systems involved in modern computer networks. Through core studies and practicals, you will delve into networks, their protocols and hardware, to investigate how these systems can be vulnerable to a malicious attack. Your problem solving skills will come to the fore when ethical hacking testing a system to break-in or to find weak points. As a network architect, or an IT security specialist, you can look forward to a varied career in information security or IT operations. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old. You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Minimum IT requirements for studying online federation.edu.au.

Career opportunities: Network administrator, Ethical hacker, ICT security specialist, Network architect and designer, Networking and security officer, Product security manager.

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Computer science is a dynamic and developing field that is increasingly pervading every aspect of society. In this program, you will learn the fundamental principles underpinning computer science and learn practical software technology development skills for many different platforms, applications and emerging technologies. You will have the choice of studying topics such as programming languages, distributed computing, computer architectures, algorithms and operating systems, machine learning, intelligent systems, robotics, programming for web, mobile and embedded applications, scientific computing, visualisation and big data mining, and analytics. You can choose between one of two majors and also select from a range of elective courses. In the final year of your studies, you will complete a practical project for industry or research placement providing first-hand experience of the knowledge, skills and attributes required to succeed in full-time employment. **Note:** An option exists to exit with a Bachelor of Computer Science on completion of three years of study. **Majors:** Data science and artificial intelligence; software development. Alternatively, you can gain specialist knowledge across multiple areas by choosing the 'no major' option.

Career opportunities: This degree prepares students for careers as a software developer, computer programmer, web and mobile applications developer, data scientist, cyber security analyst, systems analyst, computer games programmer, specialist programmer, technical analyst, IT consultant, software systems architect and computer scientist.

Course outline: Be at the forefront of a constantly developing industry, ready to help shape the future. With this degree, you'll achieve a high level of core IT technical knowledge and a major specialisation ensuring you're prepared for a career across a vast number of roles and industries. You'll gain an understanding of the fundamentals of computing technology, learn how to design and build websites, and develop skills in computer programming, data management, systems development and human-computer interaction. From second year, you'll choose one of three majors and develop more advanced IT skills in areas such as software development, information systems or networks and security. **Note:** Griffith offers a number of admission pathways to your preferred degree. If you don,t meet the minimum ATAR/selection rank for this degree, you will automatically be considered for a place in the Diploma of Information Technology/Bachelor of Information Technology. This means you may receive an offer into the Bachelor of Information Technology which is conditional on successful completion of the Diploma of Information Technology at Griffith University. Upon successful completion of the Diploma of Information Technology you will be transferred into the second year of the Bachelor of Information Technology program. Visit griffith.edu.au/undergraduate-diplomas for more information. **Majors:** Information systems; networks and security; software development.

Career opportunities: Depending on your major, you may find a job as a systems analyst; business analyst; software developer; database administrator; systems administrator; network and security administrator; network architect; technical writer; web developer; app developer; game developer; computer engineer; educator or researcher. You'll be prepared for a career in commerce; corporate IT; government or private consulting.

Combined degrees: Refer to entries for: B Criminology and Criminal Justice/B Information Technology; B Engineering (Hons)/B Information Technology; B Information Technology/B Business; B Science/B Information Technology.

Combined diplomas/degrees: Refer to entry under Griffith University for D Information Technology/B Information Technology. This program can be combined with the following course at TAFE Qld: D Information Technology (Back End Web Development and Front End Web Development). Refer to entry for the diploma under TAFE Qld. Refer to entry under Griffith College for: D Information Technology/B Information Technology.

Prerequisites: ⁎.

Course outline: The Diploma of Information Technology is a pathway program designed to help you transition into the Bachelor of Information Technology. You'll develop foundational knowledge and skills in a supportive learning environment, setting you up for success in your further studies. Prepare yourself for an exciting, high-growth industry, and help shape the future. With this diploma, you'll achieve core IT technical knowledge and capabilities, ensuring you're prepared to either step into a full degree program in IT or have the fundamentals to enter the IT industry. Topics covered include computer systems and networks, coding, web technologies, systems development, human-computer interaction, professional practice and more. You'll also have the opportunity to undertake an elective course of your choice to tailor your studies to an area of interest. And, you'll learn in purpose-built, industry-leading facilities, from world-class researchers and lecturers who have sent robots into space and predicted the outcome of federal elections using big data. We have a wide range of industry contacts and partnerships that help you build your professional network. Our Industry Advisory Board, which includes members such as IBM and Suncorp, ensures that our degree is focused on what employers are looking for and provides our students opportunities to meet and learn from industry-leading professionals.

Career opportunities: This diploma prepares you for entry to a bachelor, degree, where you can receive credit for courses successfully completed. You'll also have the option of exiting with the diploma ready for entry level opportunities in system and business analysis, software development, network administration, and web and app development. You'll be prepared to pave the way for an IT career in commerce, industry, corporate IT, government or private consulting.

Combined diplomas/degrees: Upon successful completion of this diploma, you will be offered guaranteed entry into the second year of the Bachelor of Information Technology.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course provides students with essential knowledge and skills to work as information technology professionals in a fast-changing dynamic world. Core subjects in the areas of networks, web technologies, programming, serious games, information management and visualisation, databases, big data, network security, multidisciplinary project management, e-technologies and mobile technologies provide students with an array of career opportunities. This course is accredited by the Australian Computer Society (ACS). JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission.

Career opportunities: Project manager, network administrator and designer, system analyst, software developer, application developer, IT researcher, IT manager, system administrator.

Diploma of Higher Education (Information Technology)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
310071 Townsville	1F or 2P	⁎ unadjusted	⁎ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
320071 Cairns	1F or 2P	⁎ unadjusted	⁎ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
310079 Online	1X or 2X	⁎ unadjusted	⁎ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course is for students who do not qualify for entry to bachelor degrees or are seeking additional skills development before undertaking a bachelor's degree. Students study two core subjects plus a mix of introductory and first-year subjects within eight study streams. The information technology stream includes study of programming, interactive media, and internet fundamentals. On successful completion of the course, students can apply for entry to JCU information technology degrees and receive credit transfer for some subjects successfully completed. The JCU Offer Guarantee does not apply to this course.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418871 Gardens Point & Online	3F or 6P or 3-6 OL	80.45 unadjusted	84.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course produces graduates with well-developed analytical and problem-solving skills and the ability to use data science in a range of applications. The degree covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation. Ethical considerations, communication, collaboration and critical thinking skills are all given first-class coverage. This course is covered by the QUT Offer Guarantee.

Career opportunities: Data science graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, data analytics, defence and national security, research, information technology, engineering modelling and simulation, environmental science, health, management, marketing, logistics, media, and education.

Combined degrees: Refer to entries for: B Business/B Data Science; B Communication/B Data Science; B Creative Industries/B Data Science; B Data Science/B Laws (Honours); B Data Science/B Property Economics.

Bachelor of Data Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419982 Gardens Point & Online	5½F or 5½OL	87.00 unadjusted	87.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: Use comprehensive knowledge of data science tools and techniques combined with a sophisticated understanding of the laws and legal system of Australia to make a difference in the real world. The data science component covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation. It provides cutting-edge coverage of ethical considerations, communication, collaboration and critical thinking skills. The intersection of data science with QUT contemporary law degree will provide you with the knowledge and confidence you need to take advantage of employment opportunities in law and technology related fields. This course will help you understand and promote the ethical standards of the legal profession in the digital age, and design new technologies to aid the practice of law. This course is covered by the QUT Offer Guarantee.

Career opportunities: Refer to Bachelor of Data Science and Bachelor of Laws (Honours).

Bachelor of Data Science/Bachelor of Property Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419992 Gardens Point & Online	4F or 8P or 4-8 OL	⁎ unadjusted	⁎ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course allows you to combine your interest in the property industry in the Australian and international economy with a data science degree and graduate with a diverse set of skills to enhance employment options in both fields. Across this double degree, you benefit from meaningful connections with high profile industry employers, practical and effective hands-on learning experiences during their studies, classes with leading and expert teachers,

international study and placement opportunities, and the convenience of a city-based campus. This course is covered by the QUT Offer Guarantee.

Career opportunities: Refer to Bachelor of Data Science and Bachelor of Property Economics.

Bachelor of Games and Interactive Environments

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418102 Gardens Point	3F	64.45 unadjusted	71.05 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This degree allows the development of creative skills ranging from the technical to the artistic. You gain experience in the entire process of game and interactive media development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, through to the development and delivery of a final product. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Animation; game design; software technologies.

Career opportunities: Depending on subject choice: games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, games/digital media reviewer, video games tester, web developer, software engineer.

Combined degrees: Refer to entries for: B Business/B Games and Interactive Environments; B Games and Interactive Environments/B Mathematics; B Science/B Games and Interactive Environments.

Combined diplomas/degrees: You can combine this course with the QUT Diploma in Esports.

Bachelor of Games and Interactive Environments/Bachelor of Mathematics

Prerequisites: ⁎.

Course outline: This degree equips you to build and apply information technology solutions across diverse industries. A hands-on, work-integrated curriculum allows you to explore areas in information technology, and gain a deep understanding in your chosen specialty. You'll use your creativity and people skills to maximise the impact of your technical know-how to enable you to deal with technologies that have not been invented yet. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Computer science; information systems.

Career opportunities: Depending on subject choice: business analyst, information technology consultant, database administrator, data analyst, website planner, application developer, games programmer, web administrator.

Combined degrees: Refer to entries for: B Business/B Information Technology; B Communication/B Information Technology; B Creative Industries/B Information Technology; B Design/B Information Technology; B Education (Secondary)/B Information Technology; B Engineering (Honours)

Combined diplomas/degrees: You can combine this course with the QUT Diplomas in Entrepreneurship, Esports, or Information Technology.

Bachelor of Information Technology/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419622 Gardens Point & Online	$5^{1/2}$F or $5^{1/2}$ OL	87.00 unadjusted	87.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree gives you the ability to practise law in light of the complex information and technology environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, you can choose to practise as computing professionals specialising in legal applications, information systems, or security. In the law component, you develop advanced legal research and writing skills, and skills in interviewing, advocacy and dispute resolution. The course covers all academic subjects required for admission to legal practice. This course is covered by the QUT Offer Guarantee. **Majors:** Refer to Bachelor of Information Technology.

Career opportunities: Legal careers specialising in cyberlaw, intellectual property and legal regulation of the internet, legal practitioner, government lawyer, policy adviser. Refer also to Bachelor of Information Technology and Bachelor of Laws (Honours).

Bachelor of Information Technology/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418552 Gardens Point	4F	80.85 unadjusted	88.85 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: In the first year, you'll receive and build a foundation in mathematics and information technology. Mathematics students select units from the areas of applied mathematics, computational mathematics, mathematical modelling, operations research, scientific computation and visualisation, and statistics and statistical modelling. Information technology students receive a work-integrated curriculum, allowing them to explore areas in information technology and gain deep understanding in their chosen specialty. This course is covered by the QUT Offer Guarantee. **Majors:** Refer to Bachelor of Information Technology and Bachelor of Mathematics.

Career opportunities: Data visualisation, operations research, computational science, statistics, security, cryptology, complex system and scientific modelling. Refer also to Bachelor of Information Technology and Bachelor of Mathematics.

Diploma in Information Technology

420301 Kelvin Grove	1F or $1^{1/2}$P	57.95 unadjusted	60.55 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The Diploma in Information Technology is a pathway program designed to help you successfully progress to the Bachelor of Information Technology. It provides a hands-on approach that allows you to explore areas in information technology and gain an understanding in both computer science and information systems. The Diploma also focuses on developing your academic skills for future success. A highly supportive learning environment with smaller class sizes ensures a more personalised learning journey and a seamless transition to university studies. This course is covered by the QUT Offer Guarantee.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the Bachelor of Information Technology. Each of your diploma units will be credited to the degree.

SOUTHERN CROSS UNIVERSITY

Southern Cross University

Bachelor of Computing in Industry (Honours) (subject to final approval)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
053261 Gold Coast	4F or 8P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Computing in Industry (Honours) blends theory, practical experience and research. The first year builds skills and theory through foundational core units and workplace skill preparation. Students then choose a major and they are competitively matched with an industry partner for a significant internship spanning the remainder of the degree. A practical industry project and industry research project complete the course. Graduates are equipped with a degree as well as three years of experience in industry and research experience. **Majors:** Software Development, Digital Interaction and the User Experience.

Career opportunities: Software developer, user-experience designer and developer, web or app developer, systems analyst, data analyst, network analyst.

Bachelor of Information Technology

Course outline: The Diploma of Information Technology combines foundation IT units and academic skills units with a focus on developing technical skills and knowledge. Successful completion of the Diploma of Information Technology will enable entry and up to eight units of credit towards the Southern Cross Bachelor of Information Technology. The Diploma of Information Technology is offered through SCU College, which provides students with a highly supported learning environment. **Specialisations:** Information technology.

Career opportunities: Entry-level roles in IT or a pathway to further study.

TAFE QUEENSLAND

Bachelor of Digital Design (Digital Media)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555300 South Bank	3C	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 18 Jun 2024

Course outline: Take the next step in your digital media career with this degree and gain specialist knowledge and skills needed to work across a range of creative areas from animation to virtual reality (VR). Delivered in partnership with the University of Canberra, students will develop the expertise required to create complex interactive media. During this course students will also develop an understanding of how digital technology has revolutionised the way we communicate, work, learn and play. Students gain up-to-date skills using industry-standard technologies in virtual and augmented reality, digital photography, digital audio, interactive fiction, video and animation. Students also have the opportunity to combine university thinking with hands-on learning through project work, internships, professional experience and mentorships. Upon successful completion students will have the potential to find work across a range of creative areas. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Career opportunities: Digital media designer, digital media producer, multimedia artist, animator, digital photographer, videographer, virtual and augmented reality designer, creative director.

Bachelor of Digital Design (Game Design)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555297 South Bank	3C	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 18 Jun 2024

Course outline: This degree course will take students through all video game and interactive digital media aspects from concept to production. Delivered in partnership with the University of Canberra, this degree develops specialist skills and knowledge in the theory and production of game art, game design, and interactive digital media. In this course students will develop an understanding of the game design and production process from concept development through to the production methodologies that are applied in today's leading game studios. Students will develop skills and knowledge in concept art, 3D modelling and sculpting, 3D texturing, animation, and real time rendering. Learners will also have the opportunity to collaborate with film makers, musicians, visual artists, actors, and other teams across the broad creative industries spectrum, working on real commercial projects from within the TAFE Queensland games production studio. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Career opportunities: 3D animator, 3D game artist, level designer, interface designer, concept artist, game designer, game producer, interactive designer.

Bachelor of Digital Design (Visual Communication Design)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555301 South Bank	3C	✱ unadjusted	✱ adjusted	Feb 2024 Jul 2024	11 Jan 2024 18 Jun 2024

Course outline: Harness your creativity with this hands-on degree and learn how to communicate and organise information in visually accessible ways across a wide variety of media and contexts. Delivered in partnership with the University of Canberra, this degree has a strong focus on visual communication in the global marketplace and how to design for both business and consumer audiences. Throughout this course students develop a thorough knowledge of typography, logotype design, layout, publication design, environmental graphics, packaging and digital design. Students gain skills required to employ innovative uses of different visual and emerging media types and develop effective design solutions for specific audiences. Through collaboration and live industry briefs students will also have the opportunity to combine university thinking with hands-on learning. Upon successful completion of this course graduates will have also developed a portfolio of work and be well equipped to take on a variety of design roles. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Career opportunities: Graphic designer, visual designer, multimedia designer, digital designer, illustrator, design researcher, design strategist, creative director.

THE UNIVERSITY OF QUEENSLAND

THE UNIVERSITY OF QUEENSLAND AUSTRALIA

Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733401 St Lucia	3F or 6P	82.55 unadjusted	84.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: The Bachelor of Computer Science is a 3 year course designed to provide a deeper understanding of all aspects of computer technology, where students combine theory with hands-on experience to learn how to create and analyse computer-based systems. Students develop the analytical, logical and development skills necessary to advance computing and its applications and graduate with skills that are in high demand from some of the world biggest technology corporations. For more information, visit study.uq.edu.au. **Majors:** Cyber security; data science; machine learning; programming languages; scientific computing.

Career opportunities: Graduates will have the skills to play a key role in creating, developing, implementing and evaluating technology. As technology evolves, growing demand will create opportunities in finance, energy, transport, health, communications and more. Expect to find employment in a range of professions. Graduates are equipped with the foundational theory and practical skills to invent, develop and analyse systems that could affect billions of people worldwide.

Bachelor of Computer Science/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733501 St Lucia	4F or 8P	86.05 unadjusted	88.05 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: In this dual degree students develop a deep knowledge in computer science and broad transferable skill sets through their study in arts. Studies in computer science will combine the theory of algorithms and data structures with the practical challenges of implementing them in hardware and software systems. Skills learnt in this program are used in fields ranging from bioinformatics to digital humanities, where sophisticated knowledge in programming and data analysis are used to manipulate massive data sets. The Bachelor of Arts component allows students to choose from a wide variety of majors to either complement their computer science studies or their knowledge in another field, which can help them find a future role in a related industry. The broad skill set developed through the program will help students apply their computing knowledge and skills outside of the technology sector. Graduates will combine technical skills, critical thinking and problem-solving abilities with polished communication skills and honed creativity. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to the Bachelor of Computer Science and the Bachelor of Arts.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Arts.

Bachelor of Computer Science/Bachelor of Business Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733701 St Lucia	4F or 8P	88.30 unadjusted	88.30 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: This dual degree is designed to position students as strategic business leaders, ready to tackle the technological and business challenges of the future. Students gain a deep understanding of all aspects of computer technology and graduate with the technical skills to create and analyse computer-based systems, and skills to adapt in rapidly changing business environments. Study topics including entrepreneurship, human resources, marketing, management, business technologies, and advanced computing applications. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to the Bachelor of Computer Science and Bachelor of Business Management.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Business Management.

Bachelor of Computer Science/Bachelor of Commerce

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733801 St Lucia	4F or 8P	84.20 unadjusted	86.20 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: By combining technical skills across all aspects of computer technology with an in-depth understanding of accounting, business information systems, data analytics and finance, this dual degree will set students up for thriving careers in finance and technology. In the commerce component students gain an understanding of the fundamental principles of commerce and learn how to create and analyse computer-based systems. In the computer science component, students can deep dive into their area of interest and explore topics such as data science, cyber security and machine learning, among others. These specialist areas will have a huge impact on the future of finance and corporate environments. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to the Bachelor of Computer Science and the Bachelor of Commerce.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Commerce.

Bachelor of Computer Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733901 St Lucia	5F or 10P	95.70 unadjusted	97.60 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine theory with hands-on experience to learn how to create and analyse computer-based systems, combined with a practical grounding in legal theory in a broad range of areas important to the technology industry. In the law component students develop personal and professional skills that can transfer across a wide range of careers in technology. In the computer science component, students gain the solid technological foundations and skills to play a critical role in creating, developing, implementing and evaluating new systems and technology for use in our society. Graduate with an internationally respected qualification in law and advanced knowledge and technical skills in computer science skills in high demand from some of the world biggest corporations. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to Bachelor of Computer Science.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Laws.

Bachelor of Computer Science/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733601 St Lucia	4F or 8P	83.15 unadjusted	85.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Be at the forefront of emerging technologies such as cyber security, data science and artificial intelligence. Apply theoretical studies of algorithms and data structures to the practical challenges of implementing hardware and software systems. Build the strong analytical, logical and development skills necessary in today technology-driven job market. Choose science specialisations from one of the broadest ranges of scientific disciplines in Australia. Gain a broad science education with in-depth knowledge in one or two scientific disciplines. Graduate with skills that are in high demand from some of the world's largest corporations, such as Apple, Google, Oracle and Microsoft. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to the Bachelor of Computer Science and the Bachelor of Science.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Science.

Bachelor of Computer Science/Master of Cyber Security

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733411 St Lucia	4F or 8P	93.15 unadjusted	97.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combining a Bachelor of Computer Science and a Master of Cyber Security in a dual degree offers students a unique opportunity for extended study into a field within computer science that significantly impacts today's world: cyber security. Graduate with a combination of high-level technical skills and a global perspective on cyber security and information security fundamentals skills that are in high demand from some of the world biggest technology corporations. With the Bachelor of Computer Science students combine theory with hands-on experience and gain a deeper understanding of all aspects of computer technology. Then, with the Master of Cyber Security, students will develop an understanding of the global cyber security landscape, informed by industry and government experts, to find better ways to defend, adapt and lead for a resilient, more productive digital world. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study.

Other requirements: Students must pass all courses in order to progress into the Master of Cyber Security component of this dual degree. **Majors:** Bachelor of Computer Science majors: Cyber security; data science; machine learning; programming languages; scientific computing. Master of Cyber Security fields of study: Cryptography; cyber defence.

Career opportunities: Policy adviser; cyber insurance adviser and provider; IT auditor; high tech crime unit police officer; digital forensics specialist; cyber security analyst; cyber criminologist.

Bachelor of Computer Science/Master of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733421 St Lucia	4F or 8P	95.50 unadjusted	97.05 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combining a Bachelor of Computer Science and a Master of Data Science in a dual degree offers students a unique opportunity for extended study into a field within Computer Science that significantly impacts today's world: data science. With this vertical dual degree, students learn how to make informed decisions in data-intensive environments and graduate with a combination of high-level technical skills and a capacity for creative and disruptive thinking, ready to solve big data challenges across business, social, government and health data. In the Bachelor of Computer Science, students combine theory with hands-on experience and gain a deeper understanding of all aspects of computer technology. Then, through the Master of Data Science, study advanced topics from computing, statistics and mathematics, and a choice of electives from business, finance, health or science. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics (Units 3 and 4, C) is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Other requirements:** Students must pass all courses in order to progress into the Master of Data Science component of this dual degree. **Majors:** Cyber security; data science; machine learning; programming languages; scientific computing.

Career opportunities: Market researcher; data scientist; risk analyst; supply chain analyst; business intelligence analyst; data miner; actuarial and analytics consultant.

Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733001 St Lucia	3F or 6P	82.50 unadjusted	85.35 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Students will hone their business acumen and develop the talent to confidently lead people and projects with the Bachelor of Information Technology, where they will gain the specialised skills and understanding to succeed in highly competitive business and technology environments. Topics covered in the program include accounting, economics, law, marketing, business and strategy. Students will also learn about software engineering, design, mathematics and information systems and learn to apply technical skills to solve problems, support innovation and improve communication between people. For more information, visit study.uq.edu.au. **Majors:** Software design; software information systems. user experience design. Minors: Computer systems.

Career opportunities: Experience designer; software developer; cyber security specialist; system architect; IT application specialist; product designer.

Bachelor of Information Technology/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
733201 St Lucia	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: This dual degree lets students combine specialised study in information technology with a wide range of disciplines in the arts. The Bachelor of Information Technology is a flexible project-focused degree that will set students up for any number of career options working with computers and information, where they can apply their technical skills to solve problems, support innovation and improve communication between people. Topics covered include accounting, economics, law, marketing, business and strategy, and students will also learn about software engineering, design, mathematics and information systems. Students match their passion with career ambitions through their arts study to create a degree that's unique to them. The arts component provides skills in written communication, problem-solving, critical thinking, and interpersonal understanding. Choose majors according to career aspirations. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Information Technology and Bachelor of Arts.

Career opportunities: Refer to Bachelor of Information Technology and Bachelor of Arts.

Bachelor of Information Technology/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

TORRENS UNIVERSITY AUSTRALIA

Bachelor of Cybersecurity

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
031285 Fortitude Valley	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun & Sep 2024	11 Jan & 24 Apr 2024, ✧
032286 Online	3F or 4-6P	✚ unadjusted	✚ adjusted	Feb, Jun & Sep 2024	11 Jan & 24 Apr 2024, ✧

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Cybersecurity will prepare you for a career fighting cybercrime in some of the world's most in-demand roles. Designed and delivered by industry, this course will help you understand the ethical use of emerging and smart technologies, and how to defend them within a cybersecurity context. The course will cover an extensive range of theoretical and technical skills across subjects including cybersecurity principles; ethical hacking and penetration testing; human-centric cybersecurity in a smart society; enterprise cybersecurity governance and applications; as well as work-integrated learning to allow you to put your knowledge into practice. On completion, you'll be able to analyse and recommend innovative cybersecurity solutions, utilising your design thinking and problem-solving skills to protect the digital fortress. Industry partners and work placements: When you study with Torrens University Australia, you will benefit from our extensive network of industry partners. You'll learn from industry professionals, gain invaluable insights and build key industry relationships.

Career opportunities: Cybersecurity Engineer; Cybersecurity Analyst; ICT Security Analyst.

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: Drive innovation in the age of Industry 4.0 using emerging technologies. Co-designed with industry, our Bachelor of Information Technology is the qualification you need to meet the demands of an ever-changing global market. Preparing you to join the next generation of ICT professionals, this degree teaches you how to leverage smart and emerging technologies. You'll learn how to solve highly technical problems, and cover foundational studies in programming, human-centred design, software engineering, enterprise computing, cloud architecture and more. You have

the opportunity to undertake work experience and choose from a variety of electives, including software development, data analytics, AI, web development and UX, game programming and cybersecurity. Industry partners and work placements: The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Career opportunities: Solutions architect; Network designer; Data engineer; Software developer; System developer; IT project manager.

Diploma of Cybersecurity

Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of Cybersecurity will equip you with the skills you need for an exciting career in cybersecurity. Designed, developed and delivered by industry, this course ensures you'll gain the practical, technical and theoretical skills that are in demand amid a global rise in cybercrime. The course will develop your IT skills, with subjects including programming, data and networking, cloud computing, software engineering and cybersecurity principles. Our human-centric design focus makes this course unique and, upon graduating, you'll possess the ability to apply cybersecurity principles towards developing ICT solutions that consider ethical and social responsibilities. Industry partners and work placements: When you study with Torrens University Australia, you will benefit from our extensive network of industry partners. You'll learn from industry professionals, gain invaluable insights and build key industry relationships.

Career opportunities: Cybersecurity Engineer; Cybersecurity Analyst; ICT Security Analyst.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
014291 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Design the technologies of the future. Every day, technology becomes more essential to the way we live, work and play. This creates huge demand for people who understand the 'how and why' of computing, and have the skills to design, build and manage the technologies of the future. In this program you will future-proof your career with strong core skills in programming, software development, artificial intelligence, big data, and data science/analysis. You'll work with Android, Cloud, JavaScript, Java, Python and C/C++ technologies as you choose to specialise in mobile computing, or cyber security. You will also build a portfolio of software, design and wearables/internet-of-things projects from your first year of study. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirement, visit usc.edu.au/iar.

Career opportunities: Cloud and mobile technologies, cyber security engineering, Internet of Things applications, project management, wearable technologies.

Bachelor of Information and Communications Technology

Course outline: We live in an ICT age: Computers, smartphones and networks are used by everyone, everywhere, as an enabler and driver of innovation. There is great demand for graduates who understand computing technology and create innovative solutions to help people and benefit organisations. In this program you will develop vital skills in problem solving, designing artificial worlds and making ideas come to life while working on cutting-edge technology. You'll study the foundations of computing and business, along with courses in cyber security, programming and project management. You'll develop specialist skills in data management, and in developing and using information systems to solve business problems, and build hands-on experience through a professional work-integrated learning course. You will also gain industry certification (Microsoft, ITS, Cisco and more). **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirement, visit usc.edu.au/iar.

Career opportunities: Digital forensic examiner, business analyst, systems analyst, information and communication technology specialist, systems architecture/integration, database programmer, web programmer.

UNIVERSITY OF NEW ENGLAND

Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626241 Armidale	3F or 6P	69.80 unadjusted	69.80 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✻.

Course outline: This degree provides students with the technical, problem-solving, and design skills needed for a modern career in software development or data science. Topics include parallel and distributed computing, databases, artificial intelligence, machine learning, interaction design and mobile development, reactive programming, modern web development, and scientific computing. The program also allows the flexibility to study topics from other disciplines as an application area. **Majors:** Data science; software development.

Career opportunities: Software design and development, web and mobile development, scientific technology, technology careers in banking and corporate sectors.

Bachelor of Computer Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626701 Armidale	5F or 10P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ✻. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career that draws on legal skills. The law component includes compulsory fundamental units such as legal systems and method, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team.

Career opportunities: Private legal practice, law-related management careers in science, technology, the environment, finance, legal aid agencies.

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

236601 Gold Coast	4F or 8P	74.60 unadjusted	82.60 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Study with the university ranked number one for law in Australia and gain the practical experience, support, international opportunities and networks to shape your legal career. At Griffith, you'll develop in-depth knowledge of legal principles and practice and specialise by choosing from electives across five areas: global law and governance, law and commerce, environment and social justice, theories and contexts of law, and clinical and professional legal practice. Access practical experiences from your first year of study and gain hands-on experience through the Griffith Legal Clinic program.

Career opportunities: After gaining professional recognition, you'll be prepared for a career as a solicitor or barrister, a policymaker or law reformer working in government or the community sector, or even internationally in areas such as international trade or in human rights. You may also find opportunities in non-legal careers, including journalism, politics or management.

Combined degrees: Refer to entries for: B Laws (Hons)/B Arts; B Laws (Hons)/B Business; B Laws (Hons)/B Criminology and Criminal Justice; B Laws (Hons)B Environmental Science; B Laws (Hons)/B Political Science and International Relations; B Laws (Hons)/B Psychological Science.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: With this double degree, you'll develop an understanding of the fundamentals of business and specialised legal skills. As a graduate, You'll be prepared to help organisations make crucial decisions that can affect their success. In the law component, you'll focus on core areas of legal practice and crucial legal knowledge. You will have the opportunity to gain practical legal skills, insights and experience through clinical courses. In the business component, you'll learn about core business concepts before

focusing on your chosen major. **Majors:** Business: accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; events; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation; tourism and travel.

Career opportunities: You'll be prepared for a career in professional legal practice, commerce and industry, human resources, marketing, management, or the public service.

Bachelor of Laws (Honours)/Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
226631 Nathan/Mt Gravatt	5½F or 8P	76.25 unadjusted	82.75 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
236631 Gold Coast	5½F or 8P	77.80 unadjusted	83.80 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: As the study of the causes of crime and society response through the justice system, criminology is of natural interest to criminal lawyers. Combine your studies of law with studies in criminology and criminal justice to give you a holistic view of the intersection between crime and the law. Gain a strong understanding of the complex environments in which crime occurs, and the changing nature of the legal responses that must be applied. Develop academic and professional knowledge along with the analytical and practical skills you need for a career in law, criminology and criminal justice.

Career opportunities: Studies in law and criminology and criminal justice are complementary and may lead to a career as a solicitor or barrister, after gaining professional recognition, or careers in policing and security, intelligence, probation and parole, child protection, crime analysis, courts and justice services, crime prevention and regulatory agencies; or opportunities in business and government, academia, administration, banking, finance, industrial relations, and management.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Criminology and Criminal Justice/B Laws (Honours)/B Criminology and Criminal Justice.

Bachelor of Laws (Honours)/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
226851 Nathan	5½F or 8P	81.85 unadjusted	85.35 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
236851 Gold Coast	5½F or 8P	84.10 unadjusted	88.10 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C) ✲. **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Environmental issues generally involve science, technology, economics, law and human values. In this double degree, you'll explore how understanding these issues can help resolve environmental problems. You'll develop an understanding of environmental economics, environmental ethics, environmental law and governance and the national and international policy contexts, and their relevance to environmental management. You'll be equipped with the skills required of an environmental practitioner and will have the opportunity to undertake capstone projects or an industry placement.

Career opportunities: You'll be prepared for professional practice in environmental and planning law, and careers in government, industry, environmental organisations and development companies.

Bachelor of Laws (Honours)/Bachelor of Political Science and International Relations

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228051 Nathan	5½F or 8P	✚ unadjusted	✚ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
230911 Gold Coast	5½F or 8P	✚ unadjusted	✚ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Combining political science and international relations with law will help you develop a solid understanding of the world. In the law component, you'll study core courses necessary for admission to practice, and elective courses in areas such as global and international law and law and commerce. In the political science and international relations component, you will learn about political institutions and processes, business-government relations, foreign policy and globalisation. As part of this degree, you will have the opportunity to complete either a parliamentary internship or a work placement. **Majors:** Political science and international relations: international relations; political science and public policy; security, conflict and human rights.

Career opportunities: You'll be prepared for a career in the legal profession, with a special interest in public law or international issues. A double degree with Political Science and International Relations will provide you with a variety of opportunities providing advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. You may also find a job in foreign ministries, defence departments, intelligence and aid organisations, or work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies. With your strong analytical and critical thinking skills, you'll be able to pursue work in a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector.

Bachelor of Laws (Honours)/Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
226801 Nathan/Mt Gravatt	5½F or 8P	76.15 unadjusted	82.15 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
236801 Gold Coast	5½F or 8P	79.30 unadjusted	84.45 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Combining law with psychological science will give you a unique skill set that will prepare you for work either in the community sector, or in commerce and industry. You'll learn how to apply psychological theories to topics such as thinking and perceiving, motivation, stress, health, criminal activity, and group behaviour. You'll also learn about the principles of counselling and how to evaluate and understand tests that measure intellectual, behavioural and emotional states. You'll undertake a professional practice placement to enhance your skills.

Career opportunities: You'll be prepared for work in community legal centres or in other support organisations and in business organisations. You'll also be well positioned to seek a career in forensic psychology.

Diploma of Criminology and Criminal Justice/Bachelor of Criminology and Criminal Justice

Bachelor of Humanities (Western Civilisation)/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
707402 St Lucia	5F or 10P	96.25 unadjusted	99.10 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This dual degree combines studies in law with a Bachelor of Humanities (with an extended major in Western Civilisation). Students gain a comprehensive understanding of legal principles and institutions, and a critical understanding of core areas of law and legal theory. Students develop analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. The humanities component immerses students in a creative and diverse curriculum with a strong critical focus on the key intellectual movements which have shaped Western Civilisation from antiquity to the current day. Graduates are equipped with knowledge and insights applicable to many of the big problems that societies face, and the collaborative and persuasive skills to bring about meaningful change. In combination, this course provides highly developed knowledge and skills in written communication, problem-solving, critical thinking and interpersonal understanding. For more information, visit study.uq.edu.au. **Note:** The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. Fifteen scholarships will be available for this program each year. **Majors:** Western Civilisation.

Career opportunities: Graduates will have knowledge of key works in the western humanities and the ability to critically apply this knowledge. This program prepares students for a career in the legal profession and a range of careers in leading academic or professional organisations. Research training and critical thinking will give graduates an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

Bachelor of Journalism/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
737102 St Lucia	5F or 10P	96.15 unadjusted	97.85 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In this course students gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Students develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. In the journalism component, students study reporting, investigation, editing, and communication and media contexts of journalism, and learn to be independent and reflective professionals. Career opportunities: Refer to Bachelor of Journalism and Bachelor of Laws (Honours).

Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
718001 St Lucia	4F or 8P	93.75 unadjusted	97.50 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course promotes high-level knowledge and advanced legal skills. Students build a strong foundation in legal research, writing, reasoning, analysis and interpretation through critical, rational and analytical thinking. Through the extensive co-curricular program, students' academic studies are supported by wellbeing programs, and complemented by opportunities to participate in the mooting program. Students can also take advantage of the award-winning Pro Bono Centre, with the opportunity to apply classroom learning to real-life situations and make important contributions to unmet legal needs. For more information, visit study.uq.edu.au.

Career opportunities: Barrister; solicitor; public prosecutor; community lawyer; legal officer; in-house counsel; investment banking; insurance; government and international relations; property development and management; consulting.

Bachelor of Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731401 St Lucia	5F or 10P	94.10 unadjusted	97.50 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: This dual degree is for lawyers who need to be highly conversant with modern science and its applications, and for scientists who need to be experts in law. Students gain the knowledge to become a patent lawyer, working in areas related to environmental impact and litigation, the law and medicine, and maritime law. Graduates working in the science field have an understanding of the legal complexities involved in commercialisation and intellectual property protection of scientific discoveries. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Science.

Career opportunities: Refer to Bachelor of Science and Bachelor of Laws (Honours).

UNIVERSITY OF THE SUNSHINE COAST

UniSC

Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
018201 Sunshine Coast	4F or 8P	* unadjusted	* adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014802 Moreton Bay	4F or 8P	* unadjusted	* adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Help solve complex legal problems for individuals, businesses, firms, corporations, and not-for-profit organisations. This program is designed to produce law graduates with a practical focus, covering academic courses required for admission as a legal practitioner in Australia. In this program you will engage in active learning experiences and gain practical skills from your first year. You'll research answers to legal problems, prepare advice, present legal arguments, observe court proceedings, and partake in simulated court presentations in our Moot Court venue. You will also further develop your skills by working with Legal Service clients under legal supervision in the elective Law Professional Practice or undertake a legal internship in a law workplace. **Note:** Only first year law courses offered at Moreton Bay in 2023. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Solicitor, barrister, government legal officer, judge's associate, law academic, corporate in-house counsel, business and public service administration.

Bachelor of Laws (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
018211 Sunshine Coast	3F or 6P	* unadjusted	* adjusted	Feb 2024	11 Jan 2024
014803 Moreton Bay	3F or 6P	* unadjusted	* adjusted	Feb 2024	11 Jan 2024

Prerequisites: Prior study. **Additional entry information:** Completion of an Australian Bachelor degree (AQF Level 7), or equivalent degree from an international university. Completed graduate diplomas, masters and/or doctorates are accepted equivalents, with a minimum post-secondary volume of study of 3.00 years full-time (or equivalent) of which 1.00 year full-time (or equivalent) must have been completed within the past ten years.

Course outline: Take on a new challenge in the legal profession. If you have an undergraduate degree in another discipline, this graduate entry degree gives you the opportunity for a rewarding career in law. Designed to produce qualified lawyers with a practical focus, this degree covers all the academic courses required for admission as a legal practitioner in Australia. In this program you will research answers to legal problems, prepare advice and present legal arguments, observe legal practice, and take part in simulated court presentations. You'll further develop your skills by working with Legal Service clients under legal supervision in law professional practice, or undertake a legal internship. **Note:** Only first year of the program will be offered at Moreton Bay in 2023. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. Course outline: Become a defender of the environment with this dual degree. Cover all the academic courses required for admission as a legal practitioner in Australia, and build practical skills from first year. Simultaneously gain an in-depth understanding of humankind environmental impacts, with a focus on tropical and subtropical environments. In this program you will research answers to legal problems, prepare advice, present legal arguments, observe legal practice, and take part in simulated court presentations. You'll develop your skills by working with legal service clients under legal supervision in law practice and choose to specialise in areas like coastal and marine environments, urban design and town planning, geospatial analysis and global environment security and policy. **Note:** Only first and second year law courses offered at Moreton Bay in 2024. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Solicitor, barrister, government (local, state and national), conservation and research organisations in Australia and internationally, Judge's associate.

Undergraduate Certificate in Legal Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013705 Sunshine Coast	1/2F or 1P	* unadjusted	* adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This undergraduate certificate is your introduction to Australia's legal and criminal justice systems, including parliament, law enforcement, the courts, and custodial and community corrections. In this program you will learn about the roles and functions of police, parliament, the courts, and corrections. You'll build introductory knowledge on the reasons for criminal behaviour and research answers to legal problems, and present legal arguments. You'll develop problem solving skills in law and crime-related issues, and study different perspectives on the law's role in society. **Note:** This program offers a pathway for further study into the Bachelor of Criminology and Justice or the Bachelor of Laws. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Graduates will extend their career pathways in paralegal work, law administration, law enforcement, corrections, and youth justice.

UNIVERSITY OF NEW ENGLAND

Bachelor of Criminology/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616301 Armidale	5F or 10P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This double degree provides the flexibility to pursue a purely legal career as a practitioner or to build a successful career in criminology, drawing on legal skills and knowledge. The law component includes compulsory fundamental units such as legal systems and method, criminal law, contracts, torts, property law, equity, and constitutional law. The criminology component draws on criminology, forensic science, sociology of deviance, law, and criminal justice studies. **Majors:** Crime, Justice and Society.

Career opportunities: Legal practice, policy adviser, forensics, criminal justice; justice and child welfare.

Bachelor of Laws (3 Years) - Graduate Entry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
654691 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: Prior study. **Additional entry information:** Applicants must have completed a bachelor's degree from an approved university or equivalent qualification. Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: The degree includes core subjects and a range of elective subjects. Compulsory areas include contracts, torts, criminal law, constitutional and administrative law, equity, property, litigation, succession, and corporation law. For external study, contact the UNE Future Students Team.

Career opportunities: Solicitor or barrister in private legal practice, legal aid agencies, government departments.

Bachelor of Laws (3 Years) - Year 12 Entry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
654671 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** This is a Year 12 admission pathway for applicants with an OP 1-5 or equivalent rank from a Year 12 program. Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: The degree includes core subjects and a range of elective subjects. Compulsory areas include contracts, torts, criminal law, constitutional and administrative law, equity, property, litigation, succession, and corporation law. For external study, contact the UNE Future Students Team.

Career opportunities: Solicitor or barrister in private legal practice, legal aid agencies, government departments.

Bachelor of Laws (4 Years)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
654681 Armidale	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This course provides an understanding and knowledge of Australian law. Students develop the skills to use their legal knowledge both in the legal profession and in other areas where legal skills can be employed.

Career opportunities: Legal practice, solicitor or barrister (with required workplace training), legal aid agencies, advocacy organisations, commercial firms, government departments, banking, commerce and finance.

Bachelor of Legal Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
616061 Armidale	3F or 6P	58.00 unadjusted	62.85 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course offers a broad and comprehensive coursework which will enhance career opportunities for those who want to work in an ever-changing legal services market. The private and public sector depends on professionals with an excellent understanding of the law and skills in legal reasoning. In particular it will provide graduates with legal knowledge to equip them to be paralegals working for in-house lawyers not just legal practices or law firms.

Career opportunities: Paralegal, banking and finance, communications and public relations, corporate governance, court administration, information technology, journalism and publishing, justice departments, politics and public policy making.

UNIVERSITY OF SOUTHERN QUEENSLAND

Associate Degree of Criminology and Criminal Justice

855532 Online	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course will equip students with the agriculture knowledge, critical thinking and problem solving skills required to play important professional roles in improving productivity and sustainability of modern agriculture. The course has an applied focus that will provide students with industry relevant training on a firm scientific basis. Students will profit from the University's research excellence in agriculture and its focus on regional and industry engagement through the opportunities to learn from leading industry experts, interact with top researchers, hear from experienced practitioners and engagement activities such as summer research projects, conferences attendance, or international activities. This course prepares students for the rigours of the real world and ensures they have the skills to make a difference in the context of the emerging opportunities that a highly technical agricultural industry provides. **Note:** For students studying online in other locations, compulsory residential schools will be conducted in Bundaberg and/or Rockhampton. **Other requirements:** Students will have an opportunity to apply the theoretical knowledge and practical skills attained in their degree course to the professional work environment by undertaking an industry placement or short research project for 120 hours. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Agribusiness support sectors such as banking, consultancy, marketing, trading and logistics; agritech; government policy development; horticulture; landcare coordination / management; livestock; production enterprise.

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850681 Rockhampton	3F or 6P	78.30 unadjusted	80.30 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
850685 Online	3F or 6P	69.35 unadjusted	73.35 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Become a leader in environmental science and make a difference to the living and non-living environment, and prepare for a broad range of rewarding careers in environmental science. In this course, students will examine, measure, monitor and manage aspects of the Earth's living and non-living environment. The first year of study incorporates skills-focused units that develop field and laboratory competencies useful for research and desired by industry and government. Further subjects include environmental economics, geography, environmental law and community engagement, in addition to underpinning biological and chemical sciences, that will develop skills and knowledge that enable students to contribute to the sustainability of ecosystems and societies. This course offers a strong science focus with majors in environmental geography or integrated land and water management. **Note:** Students studying online will be required to attend compulsory residential schools for some units. **Majors:** Environmental Geography; Integrated Land and Water Management. **Other requirements:** Students have the opportunity to undertake either an industry placement, or a short research project. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Environmental officer; environmental consultant; environmental scientist; vegetation management officer; air quality control officer; water management officer.

GRIFFITH UNIVERSITY

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228811 Nathan	3F or 6P	60.80 unadjusted	67.50 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧
233681 Gold Coast	3F or 6P	63.65 unadjusted	67.65 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ✲.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This is a practical degree that readies you to apply scientific rigour to environmental management decision-making. It will equip you with the skills and knowledge to help make a difference to key challenges of the 21st century and contribute to building resilient communities. You'll gain knowledge and skills from across the broad environmental science spectrum, exploring environmental issues from social, physical and biological perspectives. After completing core science courses in your first year of study, you'll choose a major that suits your interests and career plans. **Note:** Griffith offers a number of admission pathways to your preferred degree. If you don't meet the minimum ATAR/selection rank for this degree, you will automatically be considered for a place in the Diploma of Applied Science/Bachelor of Environmental Science. This means you may receive an offer into the Bachelor of Environmental Science which is conditional on successful completion of the Diploma of Applied Science at Griffith University. Upon successful completion of the Diploma of Applied Science you will be transferred into the second year of the Bachelor of Environmental Science program. Visit griffith.edu.au/undergraduate-diplomas for more information.
Majors: Ecology and conservation; environmental chemistry; soil and water science (Nathan only); urban environments.

Career opportunities: Depending on your major, you'll be prepared for work in positions such as environmental officer; environmental consultant; wildlife biologist; conservation ecologist; environmental chemist and environmental scientist.

Combined degrees: Refer to entries for: B Engineering (Hons)/B Environmental Science; B Environmental Science/B Business; B Environmental Science/B Data Science; B Laws (Hons)/B Environmental Science.

Combined diplomas/degrees: Refer to entry under Griffith University for D Applied Science/B Environmental Science. Refer to entry under Griffith College for: D Science/B Environmental Science.

Bachelor of Environmental Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

233661 Gold Coast	4F or 8P	60.30 unadjusted	67.30 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ✲.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you will learn about key sustainability issues, such as energy, water and waste management, and develop an appreciation of the interrelationships between environmental sustainability and business success. You will examine the sustainable use of our natural environment, and graduate with the skills and knowledge needed to find sustainable solutions for business and industry. You'll also choose from a broad array of commercial business majors and graduate with a point of difference that will give you a competitive edge. **Majors:** Environmental science: ecology and conservation; environmental management; soil and water science; urban environments. Business: accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; events; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation; tourism and travel.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business

environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in environmental-related businesses. Depending on the majors selected, you'll be prepared for career opportunities in research, government, non-government agencies, engineering and environmental consultancies, data collation and evaluation, administration, advertising, business and strategic management, planning and policy, and sales and marketing. You'll find work in positions such as environmental consultant, management facilitator, project officer or information management officer.

Bachelor of Environmental Science/Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228871 Nathan	4F or 8P	✦ unadjusted	✦ adjusted	Mar 2024	11 Jan 2024
234561 Gold Coast	4F or 8P	✦ unadjusted	✦ adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Across the world, scientists are collecting data from our environment and creating a better picture than we have ever known of how the biosphere works. An understanding of data science is particularly important for policy makers in environmental science, as global and national datasets providing measurements on a range of environmental issues become available. In this degree you'll acquire knowledge in your chosen environmental science major combined with data analysis, manipulation, modelling, interpretation and visualisation skills obtained through your data science studies. **Majors:** Environmental science: ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: With a proven mix of work-integrated programs and professional skills, you'll be prepared to work in research, government, non-government agencies and consultancies developing data driven solutions for a range of environmental issues depending on your major.

TAFE QUEENSLAND

Diploma of Conservation and Ecosystem Management (subject to final approval)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
517308 Nambour	1C	☆ unadjusted	☆ adjusted	Jan 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Additional entry information: While there are no formal entry requirements for this course, TAFE Queensland highly recommends that you have previously completed the Certificate III in Conservation and Land Management or Certificate III in Horticulture, as it is highly desirable that you have underpinning knowledge and skills from that area. A skills assessment may be undertaken to ascertain the correct level of study required. Contact TAFE Queensland, Nambour on 1300 308 233 for more information.

Course outline: In this course students will obtain knowledge and practical skills in the management of flora, the classification of plant life, and conducting biological surveys. Students will also learn how to be an effective manager in the conservation and land management industry, and develop skills such as natural area restoration, developing management plans, and data collection and management. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for information.

Career opportunities: Community project coordinator (land care), senior park ranger, natural resource manager.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Agribusiness

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
766001 Gatton & St Lucia	3F or 6P	72.70 unadjusted	74.70 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Learn to apply the latest concepts in marketing, logistics, human resource management, finance and operations to local, national and multinational agricultural enterprises. Gain current knowledge of farming, agricultural sustainability, food security, crop production, livestock and horticulture. Learn from internationally respected business experts with strong industry connections. Take part in site visits, case studies and research projects and undertake a major group project with an agribusiness company in the final year of the program. Students will enhance their problem-solving, management and communication skills while developing their professional networks. For more information, visit study.uq.edu.au. **Note:** First year requires student attendance at both St Lucia and Gatton; subsequent years are based at Gatton. **Other requirements:** During the first two years, students interact with agribusiness organisations through visits, case studies and research projects. In the final year, they undertake a major project, working collaboratively within an agribusiness organisation as a member of a small team of four or five students.

Career opportunities: Commodity trader; marketer; manager of rural operations; sales; supply chain/export manager; banker; policy developer.

Bachelor of Agribusiness/Bachelor of Agricultural Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
766601 Gatton & St Lucia	4F or 8P	71.35 unadjusted	73.35 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Combine practical business skills with interests in agriculture to tackle environmental and resource problems. Be equipped to assist commercial farmers to increase their output of food and fibre with the least environmental and social impact. Study business courses in accounting, economics, and market research in an agribusiness context. Become consumer focused, commercially aware, innovative and internationally orientated with technical expertise in science-based animal and plant production practices. Graduate with excellent employment opportunities in the fast-growing global agricultural sector. For more information, visit study.uq.edu.au. **Other requirements:** Note: Students are exposed to animals and agricultural environments as part of their learning. Immunisation against Q fever is mandatory and students will be required to provide evidence of immunisation upon commencement of the program. Immunisation against tetanus is recommended. **Majors:** Refer to Bachelor of Agricultural Science.

Career opportunities: Commodity trader; marketer; rural operations manager; sales; supply chain/export manager; banker; government policy developer.

Bachelor of Agribusiness/Bachelor of Wildlife Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
766501 Gatton & St Lucia	4F or 8P	77.45 unadjusted	78.80 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Develop practical business skills and learn to manage native and exotic animals in the wild or in captivity. They access UQ's specialist animal research and veterinary facilities and study wildlife anatomy and physiology, captive breeding, reproduction, nutrition, health, husbandry, ecology, welfare and behaviour. Students learn from specialists in agribusiness, business management and marketing to develop business skills. In both programs students will undertake field or work experiences to establish industry contacts and gain current and industry-relevant expertise. For more information, visit study.uq.edu.au. **Note:** The majority of courses are based at Gatton with some courses offered at St Lucia. **Other requirements:** Students are exposed to animals and agricultural environments as part of their learning. Immunisation against Q fever is mandatory and students will be required to provide evidence of immunisation upon commencement of the program. Immunisation against tetanus is recommended. **Majors:** Refer to Bachelor of Agribusiness and Bachelor of Wildlife Science.

Career opportunities: Agribusiness analyst; export trader; farm management consultant; wildlife scientist; ecotourism guide; conservation officer; land manager; ranger.

Bachelor of Agricultural Science

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Prepare for a career in global conservation and wildlife management. Study native and exotic amphibians, reptiles, birds and mammals, biodiversity and human-wildlife interactions. Learn to manage wild animals and to deliver and assess management programs for captive and free roaming wildlife. Build skills in wildlife trapping, identification and animal handling. Gain hands-on experience and build industry networks during industry placements at zoos, sanctuaries and wildlife parks. For more information, visit study.uq.edu.au. **Other requirements:** Students are exposed to animals and agricultural environments as part of their learning. Immunisation against Q fever is mandatory and students will be required to provide evidence of immunisation upon commencement of the program. Immunisation against tetanus is recommended.

Career opportunities: Conservation; land management; ecotourism; environmental consulting; vertebrate pest and game management; wildlife sanctuaries and zoos.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Environmental Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013211 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014761 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Learn to minimise human impacts on the environment, manage resources sustainably, and conserve and restore habitats, biodiversity and ecosystem services. Choose a minor to specialise in such as coastal and marine environments, urban design and town planning, global environmental security and policy, geospatial analysis, and sustainability. In this program you will learn the skills and strategies to manage environment issues at local, regional and global scales and develop the ability to communicate complex information to inform and engage stakeholders. You'll obtain specialist knowledge aligned to your interests in environmental management and complete a work placement or advanced research project to jump start your career. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar for Inherent Academic Requirements on the UniSC - University of the Sunshine Coast website.

Career opportunities: Environmental management and protection, ecosystem conservation and restoration, environmental education, communication, research, policy and legislation development.

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013011 Sunshine Coast	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014011 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Help businesses and governments understand and make informed decisions about preserving natural ecosystems and resources, balancing the needs of humans and nature. Learn about plant ecology, chemistry, hydrology, soil rehabilitation, climate change, coastal studies, geospatial sciences and conservation and restoration. In this program you will develop skills in advanced research methods and use spatial analysis and drones to gain industry-ready skills and you learn to solve complex environmental problems. You can choose an area of interest from options including Environmental Management, Sustainability and more. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar for Inherent Academic Requirements on the UniSC - University of the Sunshine Coast website.

Career opportunities: Environmental management and protection, parks and wildlife, resource management, waste and pollution control, catchment management agencies, local councils, environmental consultancies.

UNIVERSITY OF NEW ENGLAND

Bachelor of Agribusiness

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
657001 Armidale	3F or 6P	71.00 unadjusted	74.00 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁂.

Course outline: This degree provides students with the business skills and knowledge that prepares them for employment in the food and agribusiness industries, from the farm level through to multinational companies. Students develop a high level of problem-solving and communication skills to be able to address real issues facing agriculture and business in a changing global environment, such as food safety and security, climate change, sustainability and increasing globalisation, and integration of agricultural and food networks. An optional professional experience unit is available. For external study, contact the UNE Future Students Team. **Majors:** Accounting; economics; finance; marketing and management; rural science; technology and data analytics.

Career opportunities: Agribusiness companies, banking, finance and insurance sectors, business and market analysis, commodity trading, policy analysis, primary production, sales, government departments and international agencies.

Bachelor of Agricultural and Resource Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
656681 Armidale	4F or 8P	69.20 unadjusted	69.20 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: Through this degree, students develop the knowledge, skills and attributes required for high level problem-solving and economic decision-making across a range of agricultural and natural resource issues such as food safety and security, natural resource depletion, climate change, sustainability and increasing globalisation, and integration of agricultural and food networks. There is flexibility to choose between a coursework only option and an embedded honours program. For external study, contact the UNE Future Students Team.

Career opportunities: Professional and leadership positions in banking, finance, insurance, international agencies, government departments, agribusiness, commodity trading, policy analysis, agriculture, or education.

Bachelor of Agriculture

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
636762 Armidale	3F or 6P	67.70 unadjusted	67.70 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree gives students practical, production-oriented specialist skills to understand the implications of land use and management change on agricultural productivity. The degree is ideal for students who are more interested in the productive management of agricultural landscapes than the scientific, agricultural systems focus of UNE's Bachelor of Rural Science. The latest technology underpins all UNE agriculture courses. Specialise in animal production or plant production, or take the mixed farming stream. For external study, contact the UNE Future Students Team. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods. **Majors:** Animal production; plant production; mixed farming. Minors: Agricultural sustainability, agricultural technology, business, climate resilience, cotton production, genetics, high intensity cropping, livestock production, plant production, sheep and wool.

Career opportunities: Agricultural advisory fields, management and consulting in the cropping and animal industries, agribusiness, intensive and extensive animal production, landcare, soil science and conservation, natural resource management.

Bachelor of Agriculture/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
627621 Armidale	4F or 8P	67.90 unadjusted	67.90 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This double degree combines the practical, production-oriented agricultural degree, underpinned by science, with fundamental skills in business, management and finance. UNE double degree provides a grounding in areas including animal production systems and products, crop and pasture management, animal health and welfare, feedlot management, cotton crop protection, crop protection, poultry and sheep production, micro and macroeconomics, economic perspectives of environment and food, farm and resource management, agribusiness marketing, commodity markets, and banking and finance. For external study, contact the UNE Future Students Team. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods. **Majors:** Accounting; agribusiness; international business; marketing. Minors: Plant production; livestock production; general agricultural production, cotton production; genetics; sheep and wool; high intensity cropping.

Career opportunities: Agricultural advisory fields, management and consulting in the cropping and animal industries and government agencies, agribusiness management, accountancy.

Bachelor of Agriculture/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
627611 Armidale	5F or 10P	88.40 unadjusted	88.40 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This double degree examines the principles and practices of modern rural industries and how they intersect with the legal system. The course helps students to develop diverse skills in scientific and legal reasoning and inquiry, and critical analysis of complex circumstances, with the knowledge to understand agricultural systems. Our practically oriented course equips students with skills that are increasingly in demand in the rural sector. Working individually and as part of a team, students apply their skills to current and future problems, especially in agricultural business, science, economics and law. For external study, contact the UNE Future Students Team. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods. **Minors:** Plant production; livestock production; cotton production; genetics; general agricultural production, high intensity cropping; sheep and wool.

Career opportunities: Foreign affairs and trade, rural politics, agricultural law, agricultural advisory fields and consulting, product development, federal departments, solicitor or barrister.

Bachelor of Animal Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626051 Armidale	3F or 6P	72.15 unadjusted	72.15 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This program provides students with knowledge and skills in the science-based fundamentals that underpin our relationships with and management of animals. Students will acquire the practical experience to be on track for a rewarding career in rapidly changing animal-related industries. Develop expertise in a specialist area through your major in livestock science or animal bioscience, with the option to broaden your scope and add to your portfolio of industry-ready skills with a specialised minor. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods. **Majors:** Animal bioscience, livestock science. Minors: Business, genetics, livestock production, nutrition and physiology, research methods, sustainable animal management, wildlife ecology and management, wool.

Career opportunities: Advisory, regulatory and research positions in all agricultural fields, particularly in breeding, management and consultancy for the livestock industries and agribusiness.

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626901 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree offers a range of flexible study pathways keyed into career opportunities for students to learn about the environment and its management: air, land, water, plants and wildlife. Underpinned by cutting-edge research, graduates develop skills in the field and laboratory, and are equipped to solve real-world problems on regional, national and global scales. Our degree is designed to help equip students with the knowledge and practical skills needed to thrive in the environmental science sector, and build environmentally, socially and fiscally sustainable systems for the future. A fourth year honours program is available. For external study, contact the UNE Future Students Team. **Majors:** Applied management, conservation and ecology, people and environment, vegetation and landscapes. Minors: Botany, data science and modelling, GeoScience, global environment, Indigenous knowledge systems, science and communication, soils, spatial science, water science, zoology.

Career opportunities: Environmental protection agencies, national parks and wildlife manager, positions in museums and herbaria, zoos and botanic gardens, environmental consultancy and conservation, research with CSIRO and universities, policy development and analysis.

Bachelor of Environmental Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
627631 Armidale	5F or 10P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career that draws on legal skills in an environmental context. With a solid foundation in the major aspects of Environmental Science, students are equipped to apply their knowledge to cross-disciplinary, real-world problems, to find innovative solutions for environmental issues on both local and global scales. For external study, contact the UNE Future Students Team. **Minors:** Botany, data science and modelling, GeoScience, global environment, Indigenous knowledge systems, science and communication, soils, spatial science, water Science, zoology.

Career opportunities: Legal practice or law-related management, government planning departments, national parks and wildlife management, water and soil conservation, commercial industry.

Bachelor of Rural Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
636052 Armidale	4F or 8P	81.90 unadjusted	81.90 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: Providing food and fibre for growing populations in Australia and worldwide in a challenging climatic environment requires skilled professionals capable of understanding and integrating whole agricultural systems. This degree produces graduates who are in demand, equipped with the scientific and communication skills necessary to solve practical, real-world agricultural problems at farm, catchment and national levels. Our unique systems approach allows students to develop broad expertise, whilst specialising in areas such as agronomy, animal science and animal physiology, genetics, horticultural science, crop protection, soil management, cotton production, plant physiology, poultry production, wool science, and meat science. Students who complete a research project in fourth year are considered for the award of honours. **Other requirements:** Students must complete 16 weeks of practical industry work experience during university vacation periods. **Minors:** Agricultural sustainability, business, climate resilience, cotton production, genetics, livestock production, plant production, sheep and wool production.

Career opportunities: Advisory, regulatory and research posts, crop and animal industries, agribusiness, banking and marketing, primary production, plant and animal breeding, soil conservation, precision agriculture, farm management.

Bachelor of Sustainability

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626041 Armidale	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree involves the study of sustainability in a holistic manner, integrating the social sciences and humanities with geography, environmental science and natural resource management. Students learn to understand the complexities of the environmental and social problems facing society, and the skill-sets needed to build a sustainable future. **Majors:** Community engagement and development, cultural heritage management, environmental governance, environmental resilience, governance and regulation, water sustainability.

Career opportunities: Policy adviser, government planning and research officer, environmental protection, cultural and natural heritage management, environmental conservation, land and water management.

CQUNIVERSITY AUSTRALIA

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
850611 Rockhampton	3F or 6P	70.35 unadjusted	72.35 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
850615 Online	3F or 6P	71.80 unadjusted	77.80 adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Discover how science can solve current and future medical, environmental, industrial and technological problems and launch a dynamic career in this field, with CQUniversity's Bachelor of Science. Students benefit from hands-on, practical learning experiences both on campus and in the field. The first year of the course will provide students with a foundation for a career in the biological, analytical and agricultural sciences and prepares them to major in applied biology or applied chemistry. Students will benefit from field trips to a variety of destinations, such as coral reefs, intertidal and terrestrial ecosystems, mainland vegetation communities, agricultural enterprises, mine and other land degradation sites and freshwater and estuarine environments. Students will also have the option to undertake a work placement as part of the course, allowing them to network professionally whilst studying. **Note:** Students studying online will be required to attend compulsory residential schools for some units. **Other requirements:** Depending on units selected, students undertake either an industry placement or a short research project for 120 hours. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses. **Majors:** Applied biology; applied chemistry.

Career opportunities: Careers in chemical and material production, agriculture, medical sciences, mining and metals, power industries, environmental science and ecology, food technology, forensic analysis, research and development.

GRIFFITH COLLEGE

Diploma of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
081501 Mt Gravatt	1F or 2P	☆ unadjusted	☆ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This higher education program provides students with a solid understanding of the natural and physical sciences, including fundamental theoretical and practical principles of chemistry, biology, genetics. Students also receive the academic skills required to transition to further university studies in a broad range of areas, including biomedicine, environmental sustainability, chemistry and physical sciences, marine, wildlife and microbiology.

Career opportunities: Bioengineer; biologist; cancer researcher; coastal resource manager; conservation and pollution control manager; DNA expert; fisheries laboratory scientist; forensic molecular biologist; laboratory or pathology worker; marine scientist; mathematician; neuroscientist; pharmaceutical scientist; science researcher.

Combined diplomas/degrees: Refer to entries for: D Science/B Biomedical Science; D Science/B Environmental Science; D Science/B Forensic Science; D Science/B Marine Science; D Science/B Science

Diploma of Science/Bachelor of Biomedical Science

Course outline: In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in core concepts and skills required for a career in science. On successful completion of the diploma, students progress into the Bachelor of Environmental Science with credit. Students graduate with the expertise to understand the natural environment and how humans interact with it. Extensive field, laboratory and small group activities are included throughout the degree, helping students develop theoretical and practical skills in multiple disciplines. **Majors:** Ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: Upon completion of the Bachelor, conservation ecologist; environmental chemist; environmental consultant; environmental officer; environmental scientist; wildlife biologist.

Diploma of Science/Bachelor of Forensic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
081561 Mt Gravatt/ Griffith University - Nathan	3½F or 7P	☆ unadjusted	☆ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: In the higher education diploma year, students develop fundamental academic skills, cementing their knowledge in core concepts and skills required for a career in science. Students develop an in-depth knowledge of new forensic analytical methods and innovations, gaining valuable experience from real casework. Students practice presenting expert evidence in moot courts and learn from academic staff who have ties to international projects and who provide evidence in Australian courts. On successful completion of the diploma, students progress into the Bachelor of Forensic Science with credit. **Majors:** Forensic chemistry; forensic molecular biology.

Career opportunities: Upon completion of the Bachelor: Forensic services and laboratories involving casework, presentation of expert evidence and research and development activities, biomedical and biotechnology fields.

Diploma of Science/Bachelor of Marine Science

Course outline: In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in core concepts required for a career in science. Students gain specialised skills and practical knowledge for a professional career in the biological, clinical, chemical, physical or mathematical sciences. On successful completion, students progress into the Bachelor of Science with credit. With this degree, students gain foundational knowledge across all areas of sciences, providing them the flexibility to decide on a future focus. **Majors:** Applied Mathematics; Biochemistry and Molecular Biology; Chemistry; Clinical Sciences; Data Science; Geography; Marine Biology; Microbiology; Wildlife Biology.

Career opportunities: Biochemist; biotechnologist; chemist; marine biologist; mathematician; microbiologist; pharmaceutical scientist; physicist; researcher; teacher.

GRIFFITH UNIVERSITY

GRIFFITH UNIVERSITY QUEENSLAND AUSTRALIA

Bachelor of Advanced Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228152 Nathan	4F or 8P	75.25 unadjusted	83.25 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧
234122 Gold Coast	4F or 8P	74.20 unadjusted	82.20 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁕.
Additional entry information: Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: The Bachelor of Advanced Science (Honours) caters for students who have demonstrated outstanding potential in the field of science. This degree follows the Bachelor of Science degree giving you the opportunity to engage in research early in your degree by taking one advanced studies course each trimester. You'll undertake a major research project and be individually guided and mentored by one or more of our outstanding scientific researchers. In your final year, you'll complete an honours project in your chosen specialisation. **Majors:** Applied mathematics; archaeology (Nathan only); biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); data science; geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology.

Career opportunities: This degree is designed to help you gain the necessary skills and experience to find work as a highly regarded researcher or academic in Australia or overseas across a range of government and non-government sectors. As well as opening a pathway to PhD studies, this degree may lead to opportunities in fields including biotechnology and pharmaceuticals, oil and mineral exploration, medical research, scientific and technical services, and more.

Bachelor of Forensic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228252 Nathan	3F or 6P	63.50 unadjusted	68.70 adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁕.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Forensic investigators are skilled, dedicated professionals who assist police in examining evidence. In this degree, you'll develop skills and knowledge in basic forensic science and receive training in handling criminal casework in forensic molecular biology and forensic chemistry. You'll develop a knowledge of forensic analytical methods and gain valuable experience from real casework. You'll practise presenting expert evidence in moot courts and will learn from academic staff who have ties to international projects and who provide expert evidence in Australian courts. **Majors:** Forensic chemistry; forensic molecular biology.

Career opportunities: You'll be prepared to work as a DNA expert, a forensic molecular biologist, forensic chemist or forensic toxicologist and as an acknowledged expert in these or a variety of other roles within the criminal justice system. You'll also be able to pursue a scientific career not directly related to forensic organisations, in areas such as analytical chemistry, molecular biology and biomedical science. You may also choose to undertake a fourth year research honours program, which can lead to a PhD and a career in research.

Combined degrees: Refer to entry for: B Forensic Science/B Criminology and Criminal Justice.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Forensic Science.

Bachelor of Forensic Science/Bachelor of Criminology and Criminal Justice

Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Our oceans cover 70% of the surface of the earth and are some of the most poorly understood ecosystems on the planet. In the degree you'll have plenty of opportunities to learn outside of the classroom with a range of flexible and innovative programs that get you out into the environment at locations including the Great Barrier Reef and Heron Island. Our Bachelor of Marine Science has a broad interdisciplinary approach, encompassing marine biology, chemistry and quantitative physical science, ensuring you will graduate as a well-rounded coastal and marine professional. **Majors:** Coastal management; marine chemistry and biotechnology; marine ecology.

Career opportunities: Our marine graduates find employment around Australia and internationally in a wide range of industries that use and protect our marine environment. Career options include marine biology, environmental consulting, pollution control and mitigation, fisheries and aquaculture, modelling and meteorology, oceanography, coastal planning and marine parks, marine education and tourism, environmental assessment and planning.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Marine Science.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

Course outline: Science is at the heart of every facet of life. In this degree you'll study all areas of the sciences before specialising with your choice of major. You'll have the flexibility to decide what interests you the most, so you can shape a career that you're passionate about in the biological, clinical, chemical, physical or mathematical sciences. Taught by experts from renowned research centres, you'll gain the specialised skills and practical knowledge employers are looking for. **Note:** Griffith offers a number of admission pathways to your preferred degree. If you don,t meet the minimum ATAR/selection rank for this degree, you will automatically be considered for a place in the Diploma of Applied Science/Bachelor of Science. This means you may receive an offer into the Bachelor of Science which is conditional on successful completion of the Diploma of Applied Science at Griffith University. Upon successful completion of the Diploma of Applied Science you will be transferred into the second year of the Bachelor of Science program. Visit griffith.edu.au/undergraduate-diplomas for more information. **Majors:** Applied mathematics; archaeology (Nathan only); biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); data science; geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology. Students can choose up to two majors.

Career opportunities: Depending on your major, you'll be prepared for a wide array of careers in biological; chemical and clinical sciences as a microbiologist; pharmaceutical scientist; biochemist; chemist or biotechnologist; mathematician or physicist; or, with further study, in a broader role for example as a science journalist; patent lawyer; or science

teacher. Increasingly, employers in the finance sector are looking to employ science graduates in a wide range of areas that require research and analytical skills, including the application of mathematics and statistics in the finance sector. You may also choose to undertake a fourth year research honours program which can lead to a PhD and a career in research.

Combined degrees: Refer to entries for: B Communication and Journalism/B Science; B Engineering (Hons)/B Science; B Science/B Arts; B Science/B Business; B Science/B Data Science; B Science/B Information Technology; B Urban Planning (Hons)/B Science.

Combined diplomas/degrees: Refer to entry under Griffith University for: D Applied Science/B Science. Depending on major, refer to entries under Griffith College for: D Health Sciences/B Science; D Science/B Science.

Bachelor of Science/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228881 Nathan	4F or 8P	66.45 unadjusted	74.45 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧
234571 Gold Coast	4F or 8P	65.00 unadjusted	67.00 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: When you combine science and arts, you'll develop critical thinking and communication skills along with specialised skills and practical knowledge in the biological, clinical, chemical, physical and mathematical sciences. You'll have the freedom to tailor your degree around your interests in your foundation first year, before gaining specialist knowledge and abilities based on your chosen majors throughout the remainder of your studies. **Majors:** Science: applied mathematics; archaeology (Nathan only); biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology. Arts: creative writing; criminal justice; drama; history; Indigenous studies; Islam West relations; journalism; language, culture and society; languages; literary studies; popular culture and screen studies; psychology; security and international studies; social justice; sociology; strategic communication.

Career opportunities: As a graduate, you'll be equipped with a wide-ranging skill set that will prepare you for roles across the scientific; technological; commercial and social sectors; making you highly employable across a range of career paths.

Bachelor of Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228821 Nathan	4F or 8P	✦ unadjusted	✦ adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧
234591 Gold Coast	4F or 8P	62.60 unadjusted	70.60 adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will prepare you for scientific practice or for commercial business and management roles in technical, regulatory, environmental, health or biomedical-oriented businesses, industries or government organisations. Choose from a range of science and business majors in accordance with your interests and career plans. As a graduate, you'll have a broad understanding of science foundations and business principles. **Majors:** Science: applied mathematics; archaeology (Nathan only); biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology. Business: Asian engagement; behavioural science; business analytics; economics; employment relations; events; finance; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; political science and international relations; real estate and property development; sport management; sustainable business; taxation; tourism and travel.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. As a graduate, you'll be equipped with a wide-ranging skill set that will prepare you for roles across the scientific, technological, commercial and social sectors, making you highly employable across a range of career paths.

Bachelor of Science/Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228861 Nathan	4F or 8P	✦ unadjusted	✦ adjusted	Mar 2024	11 Jan 2024
234551 Gold Coast	4F or 8P	✦ unadjusted	✦ adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Embrace your passion for science and learn how to analyse, model, interpret and visualise data to develop forward-thinking solutions for contemporary practical challenges in this double degree. You will gain an understanding of the use of data in your chosen major and you'll be well versed in the legal and ethical issues associated with the use of data. In your final year, you will complete a capstone, experience where you have the option to engage with university research, undertake an extended fieldwork program in your major, or complete an industry placement. **Majors:** Science: applied mathematics; archaeology (Nathan only); biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology.

Career opportunities: With combined qualifications in science and data science, you'll find employment opportunities across a range of industries where you will develop data-driven solutions to real-world issues in your chosen major. Depending on your major, with a proven mix of work-integrated programs and professional skills, you'll be prepared to work in biological, chemical, clinical sciences, technical services, public safety, electricity, gas, water and waste services, education and training, health care and manufacturing sectors.

Bachelor of Science/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228642 Nathan	4F or 8P	❖ unadjusted	❖ adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧
233641 Gold Coast	4F or 8P	❖ unadjusted	❖ adjusted	Mar, Jul & Nov 2024	11 Jan & 6 Jun 2024, ✧

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.
Additional entry information: Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: With qualifications in both science and IT, you'll be able to pursue a career in a variety of industries, including commerce, industry, corporate IT, government or private consulting. In this double degree, you'll have an introduction to fundamental concepts in mathematics, physics, chemistry, biology, information systems and computer programming before choosing the majors that suit your interests. **Majors:** Science: applied mathematics; archaeology (Nathan only); biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology. Information technology: information systems; networks and security; software development.

Career opportunities: In this emerging speciality industry, research opportunities are available in varied fields to mine data from databases. You'll find other opportunities applying your knowledge to the simulation of weather, population modelling and business and consumer data analysis. You'll also find opportunities in information technology designing, writing, testing, documenting and maintaining computer applications and research or analytical and development work.

Diploma of Applied Science/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
228941 Nathan	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024
234781 Gold Coast	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Prerequisites: Any general or applied English subject (Units 3 and 4, C) ⁎.

Course outline: The Diploma of Applied Science is a pathway program designed to help you transition into the Bachelor of Environmental Science. You'll develop foundational knowledge and skills in a supportive learning environment, setting you up for success in your further studies. Science is at the heart of every facet of life. It is a fascinating career choice, with research and development at its core. In this degree you'll study foundational concepts relevant to the chemical, biological and environmental sciences. You'll have the flexibility to decide what interests you the most, so you can shape a career that you're passionate about in the environmental, biological or chemical sciences. You'll have access to experts from renowned research centres who are focused on solving the big problems that face us today. They're developing new drugs to combat cancer and infectious diseases, new sources of energy to power our society, and new ways to manage our waterways and improve food production. If you continue this pathway into the Bachelor degree, you will have the chance to participate in practical, hands-on learning opportunities, including internships, industry placements, national and international field trips and leading research projects.

Career opportunities: This program provides an opportunity to learn about a broad range of different disciplines in science, and the mathematics and statistical supporting them. Increasingly, employers seek graduates with science related skills and knowledge, including the analytical skills that you will develop in this program: through this program you can demonstrate a capacity for such STEM-related skills. Students can use this qualification to transition into associated Bachelor degrees, where they can complete majors to prepare them for a career as an environmental scientist, microbiologist, pharmaceutical scientist, biochemist, chemist, biotechnologist, science journalist, patent lawyer or science teacher.

Combined diplomas/degrees: Upon successful completion of this diploma, you will be offered guaranteed entry into the second year of the Bachelor of Environmental Science.

Undergraduate Certificate in STEM Foundations

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
229001 Nathan	1/2F or 1P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024
234721 Gold Coast	1/2F or 1P	❖ unadjusted	❖ adjusted	Mar 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This certificate is designed for students without an undergraduate degree to develop skills in Science, Technology, English and Mathematics, for vocational development and as a pathway to a bachelor degree. You will complete four courses, one of which is Foundations of Mathematics. The remaining three courses include one each in business, the arts and information technology, so you can tailor your certificate to your interests. By graduation, you'll get a qualification that is recognised in the Australian Qualifications Framework (AQF), setting you on a path to continue your studies in your choice between 13 of Griffith, most popular bachelor degrees.

Career opportunities: This Undergraduate Certificate may assist you to secure an entry level role in a business, marketing, science and the arts. It is designed to provide you with a pathway to further study in a range of bachelor degrees.

JAMES COOK UNIVERSITY

Bachelor of Advanced Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316361 Townsville	3F or 6P	82.45 unadjusted	88.75 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
326361 Cairns	3F or 6P	89.65 unadjusted	95.35 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: This course prepares high-achieving, highly motivated students to be future science leaders and researchers. First-year subjects emphasise quantitative and computational skills while third-year students undertake a research internship. Leading science professionals deliver seminars designed to develop students' capacity to engage with the multidisciplinary challenges of the modern world. Students participate in fieldwork and practical activities to better understand the processes that structure natural environments. The Physics major of this course s accredited by the Australian Institute of Physics (AIP). The JCU Offer Guarantee does not apply to this course. **Majors:** Townsville: Advanced molecular and cell biology; aquaculture science and technology; chemistry; data science; earth science; marine biology; mathematics; physics; zoology and ecology. Cairns: Data science; earth science; zoology and ecology. The first year only of the aquaculture science and technology and marine biology majors can be studied at Cairns.

Career opportunities: Researcher and research technician with government bodies, research organisations, private industries and consultancies in the fields of specialisation.

Bachelor of Arts/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
311511 Townsville	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
321511 Cairns	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: This course combines study from arts and science and gives students a deeper understanding of scientific principles, balancing them with the critical thinking skills and knowledge gained through studying the humanities. Arts subjects develop communication and research skills, and critical analysis of information. Depending on the science major chosen, students access state-of-the-art laboratories and research vessels for field trips to the World Heritage-listed Great Barrier Reef Marine Park, and the Wet Tropics rainforests. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Majors:** Not all majors are available at both campuses or for mid-year entry. The psychology studies major does not lead to registration as a psychologist.

Career opportunities: Careers in management, consultant or technician in a wide range of organisations in the private sector.

Bachelor of Business and Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316341 Townsville	3F or 6P	✦ unadjusted	✦ adjusted	Feb, May & Sep 2024	11 Jan & 16 May 2024, ✧

Prerequisites: ⁎.

Course outline: This multidisciplinary program provides students with core knowledge and training in the application of business and environmental principles. Students learn to understand business and its related environmental and financial issues. The core subjects provide a fundamental background in business together with an understanding of environmental and marine sciences essential for modern business operations. A wide range of electives allows students to develop generic skills, broad-based cross-disciplinary knowledge and more specialised knowledge. JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Majors:** Aquaculture.

Career opportunities: Environmental adviser to business, business adviser to businesses that focuses on natural resources (e.g. aquaculture), government departments and agencies, consulting companies.

Bachelor of Environmental Science and Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316441 Townsville	3F or 6P	66.30 unadjusted	72.30 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
326441 Cairns	3F or 6P	68.00 unadjusted	70.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course teaches how to manage the interactions between people and the environment to find solutions to pressing environmental problems. JCU has tropical campuses bordered by the World Heritage-listed Great Barrier Reef and Wet Tropics, exposing students to the challenges of planning in delicate ecosystems. Students learn about the political, economic and social context in which environmental management in the tropics sit, whilst building their science and maths skills as they relate to the environment more broadly. The Centre for Tropical Urban and Regional Planning arranges final-year professional placements. JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission.

Career opportunities: Local, state and federal government, consulting firms, public and private property development, non-government aid organisations.

Bachelor of Geology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316311 Townsville	3F or 6P	67.35 unadjusted	70.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
326311 Cairns	3F or 6P	✦ unadjusted	✦ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The course provides students with core knowledge and training in the theory, skills and practical application of geology. First-year electives provide a broad scientific background. In second and third years, students obtain additional knowledge and skills from other relevant disciplines. Students without the assumed knowledge must take the relevant enabling subjects within the course. JCU Guarantee Offer: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Note:** Only the first year of study can be done at Cairns; the remainder of the course is completed at Townsville.

Career opportunities: Geologist in the mining and exploration industry, government agencies, consulting companies, academia.

Bachelor of Marine Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316251 Townsville	3F or 6P	72.25 unadjusted	78.25 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course promotes an interdisciplinary approach to studying the marine environment and includes specialisations in chemistry, earth science, environmental science, fisheries, marine biology, mathematics and physics. It also provides students with the knowledge and practical skills applicable to a range of marine specialities by incorporating key elements of marine biology, oceanography, marine geoscience, and marine resources management. Students without the assumed knowledge must take the relevant enabling subjects within the course. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission.

Career opportunities: Environmental resource management, educational and interpretive ventures, research and teaching (with further study), environmental impact assessment.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
316061 Townsville	3F or 6P	58.00 unadjusted	60.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
326061 Cairns	3F or 6P	65.70 unadjusted	67.70 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: In this course, students can select and study subjects from their major starting in first year, and continue to specialise in second and third years. Students participate in fieldwork and practical experience including hands-on study and research in areas such as tropical rainforests, mangroves, tropical savannah, and the Great Barrier Reef, as well as traditional science areas. The physics major of this course is accredited by the Australian Institute of Physics (AIP) while the Chemistry major is accredited with the Royal Australian Chemical Institute (RACI). JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission. **Other requirements:** Not all majors are available at both campuses. **Majors:** Townsville: Aquaculture science and technology; chemistry; data science; earth science; marine biology; mathematics; molecular and cell biology; physics; zoology and ecology. Cairns: data science; earth science; zoology and ecology. Only the first year of the aquaculture science and technology, marine biology, and mathematics majors can be studied at Cairns.

Career opportunities: Researcher and research technician with government bodies, research organisations, private industries and consultancies in the fields of specialisation.

Bachelor of Veterinary Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
317051 Townsville	5F	89.50 unadjusted	89.50 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Application Form. **Additional entry information:** In addition to applying through QTAC, applicants must submit a JCU Application Form to the Division of Tropical Health and Medicine. The JCU Application Form is available from the JCU website. **Closing date:** Domestic applicants: QTAC applications and JCU Application Form submissions close 30 September 2023. International applicants: QTAC applications and JCU Application Form submissions close 31 August 2023.

Course outline: This broad-based program encompasses all aspects of veterinary practice with a focus on tropical and rural practice. Vet science students acquire the knowledge and skills to diagnose, treat and prevent disease in a range of animals, including companion and farm animals, aquatic species and native fauna. Students develop a thorough knowledge of animal production systems, particularly tropical animal husbandry and aquaculture. Clinical training sites include Townsville, Cairns, Mackay, Charters Towers and the Atherton Tableland. For more information, visit the JCU website. **Other requirements:** Students must provide evidence of immunity to Q fever within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Small animal practitioner or rural practitioner, disease control, animal production, livestock inspection, research roles in the pharmaceutical industry, agriculture.

Diploma of Higher Education (Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
310031 Townsville	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
320031 Cairns	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: This course is for students who do not qualify for entry to bachelor degrees or are seeking additional skills development before undertaking a bachelor's degree. In the science stream, students study two core subjects plus a mix of introductory and first-year subjects within the biology and natural science fields. Successful completion of the diploma allows entry to JCU science degree programs with credit transfer for some subjects successfully completed. The JCU Offer Guarantee does not apply to this course.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418701 Gardens Point	3F or 6P	80.80 unadjusted	86.80 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This course produces graduates with well-developed analytical and problem-solving skills and the ability to use mathematics and statistics in a range of applications. The program is flexible and you have the opportunity to explore the different study areas in your common first year before choosing your major. It offers studies in applied mathematics, computational mathematics, mathematical modelling, operations research, scientific computation and visualisation, statistics, and statistical modelling. QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. This course is covered by the QUT Offer Guarantee. **Majors:** Applied and computational mathematics; operations research; statistics.

Career opportunities: Statistician or mathematician in the finance, investment, information technology, environmental management, health, defence, and research industries.

Combined degrees: Refer to entries for: B Biomedical Science/B Mathematics; B Business/B Mathematics; B Engineering (Hons)/B Mathematics; B Games and Interactive Environments/B Mathematics; B Information Technology/B Mathematics; B Science/B Mathematics.

Bachelor of Mathematics/Master of Teaching (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
409742 Gardens Point & Kelvin Grove	4F or 8P	87.00 unadjusted	92.65 adjusted	Feb 2024	11 Jan 2024

Prerequisites: LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement ⁎. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC Teacher Entry website: qtac.edu.au/teacher-entry. If your previous studies were completed in a country other than Australia, Canada, New Zealand, Republic of Ireland, United Kingdom, or the United States of America or undertaken in a language other than English you must provide evidence of English language proficiency with an IELTS overall score of 7.5 with minimum sub-scores of 8.0 in Speaking and Listening and 7.0 in Reading and Writing, obtained within two years prior to the start of the program, or the successful completion of three years full-time bachelor level study where the language of instruction is English completed in Australia, Canada, New Zealand, Republic of Ireland, United Kingdom, or the United States of America. Incomplete education/teaching studies in Australia: successful completion of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) is not an entry requirement for this program. However, if you achieved a 'satisfactory' result for one or more component of the LANTITE at another institution, the 'satisfactory' result can be carried across to QUT. You are not eligible to apply for a place in the course if one or more component of LANTITE remains at 'satisfactory' after two test attempts for that component.

Course outline: This course prepares you for a career in teaching mathematics and produces graduates with well-developed analytical and problem-solving skills and the ability to use mathematics, statistics and computational mathematics. The Bachelor of Mathematics is not a stand-alone degree, but the first part of a vertical-double degree. You will continue your studies by undertaking Master of Teaching (Secondary) to prepare you to teach in mathematics and technologies education in a secondary school setting. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card is required; refer to institution. You must successfully

complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate.

Career opportunities: High school teacher of mathematics, statistician or mathematician in the finance, investment, information technology, environmental management, health, defence, and research industries.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418011 Gardens Point	3F or 6P	64.55 unadjusted	70.35 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: In this flexible program, you can tailor the qualification to your needs and career aspirations. The program has a range of options to choose from. A general first semester in a range of science disciplines allows you time to choose your study direction specialising in one of biological sciences, chemistry, earth science, environmental science or physics. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Biological sciences; chemistry; earth science; environmental science; physics.

Career opportunities: Research, diagnostic and analytical laboratories, mining, hospitals and health departments, pharmaceutical companies, primary and agricultural industries, food industry laboratories, environmental agencies, veterinary pathology laboratories.

Combined degrees: Refer to entries for: B Communication/B Science; B Engineering (Honours)/B Science; B Science/B Business; B Science/B Games and Interactive Environments; B Science/B Information Technology; B Science/B Laws (Honours); B Science/B Mathematics.

Bachelor of Science Advanced (Honours) - Biological Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418032 Gardens Point	4F	90.60 unadjusted	90.60 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Biology (Units 3 and 4, B); No prior study ⁎. **Additional entry information:** You must be a 2023 Year 12 student or a recent Year 12 student returning from up to two gap years.

Course outline: If you have a strong interest and passion for science and a desire to pursue a career in science research or industry in the Biological, Environmental or Earth Sciences, Chemistry, or Physics, this science research focused course if for you. You will be immersed in research from first year leading to a substantial independent research project in your final year. As a graduate, you will have strong discipline knowledge, be competent in practical, quantitative and research skills and be well prepared to undertake a PhD. The QUT Offer Guarantee does not apply to this course. **Note:** Only year 12 subjects undertaken in your year 12 studies will be considered for satisfying the prerequisites. **Majors:** Biological sciences; chemistry; earth science; environmental science; physics.

Career opportunities: Careers available in a wide range of sectors including research and technical services (e.g. university, state departments, CSIRO), education (e.g. science lecturer), communication (e.g. science journalist), regulatory affairs, policy development (e.g. local or federal government) and business (e.g. company employee or entrepreneur).

Bachelor of Science Advanced (Honours) - Chemistry

Bachelor of Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419832 Gardens Point	4F	73.00 unadjusted	73.55 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course combines science and business, leading to careers in scientific innovation in a range of public, private and non-profit industries. You gain commercial knowledge, choose a major in a specific business area and select a science major from biology, chemistry, earth science, environmental science or physics. The business component is designed to inspire you to realise your potential, to think entrepreneurially and to ethically and sustainably shape the future of business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Refer to Bachelor of Science and Bachelor of Business.

Career opportunities: Refer to Bachelor of Science and Bachelor of Business.

Bachelor of Science/Bachelor of Games and Interactive Environments

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419682 Gardens Point	4F	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: This double degree consists of units in both the science and games and interactive environments disciplines. It enables you to apply design skills in the context of science. You complete core units in science and games and interactive environments and select a major specialisation in each discipline. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Refer to Bachelor of Science and Bachelor of Games and Interactive Environments.

Career opportunities: Scientific modeller, simulation developer or designer, special effects developer. Refer also to Bachelor of Science and Bachelor of Games and Interactive Environments.

Bachelor of Science/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418322 Gardens Point	4F	71.45 unadjusted	73.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This double degree prepares you for careers involving the application of information technology to science. It gives you the ability to use creative as well as analytical methods to solve scientific problems. In the science component, you complete a set of core units to support advanced-level studies in specialist areas. You select a science major and undertake laboratory work, and may participate in fieldwork. The information technology component develops a broad understanding of the information and communications technology discipline and strong skills in a primary major. This course is covered by the QUT Offer Guarantee and Year 12 Early Offer Scheme. **Majors:** Refer to Bachelor of Science and Bachelor of Information Technology.

Career opportunities: Scientific modeller, software developer, scientific programmer, computational scientist. Refer also to Bachelor of Science and Bachelor of Information Technology.

Bachelor of Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
419712 Gardens Point	5½F	80.90 unadjusted	87.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The course covers major areas of the law as well as a range of disciplines in science. As a graduate you are prepared to enter the legal profession and are educated in the content and processes of science to prepare them for the complexities of legal issues with a range of scientific and technological dimensions. In the science component, you complete a major in addition to the core requirements for that degree. In the law component, you develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution. This course is covered by the QUT Offer Guarantee. **Majors:** Refer to Bachelor of Science.

Career opportunities: Law and science careers related to environmental science or biotechnology. Refer also to Bachelor of Science and Bachelor of Laws (Honours).

Bachelor of Science/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
418712 Gardens Point	4F	81.70 unadjusted	89.70 adjusted	Feb 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: In completing this double degree, you meet the requirements for the science and mathematics degrees by following an integrated program over four years. As a graduate, you obtain complementary bachelor-level qualifications in mathematics and one of the sciences, enabling you to pursue careers in either or both of these related discipline areas. This course is covered by the QUT Offer Guarantee. **Majors:** Refer to Bachelor of Science and Bachelor of Mathematics.

Career opportunities: Natural resource management, agriculture management, genetics, chemistry and biochemistry, infection and disease control, bioinformatics, statistics and statistical modelling.

Bachelor of Science/Master of Teaching (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
409832 Gardens Point & Kelvin Grove	4F or 8P	71.35 unadjusted	73.35 adjusted	Feb 2024	11 Jan 2024

Prerequisites: LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement ⁎. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC Teacher Entry website: qtac.edu.au/teacher-entry. If your previous studies were completed in a country other than Australia, Canada, New Zealand, Republic of Ireland, United Kingdom, or the United States of America or undertaken in a language other than English you must provide evidence of English language proficiency with an IELTS overall score of 7.5 with minimum sub-scores of 8.0 in Speaking and Listening and 7.0 in Reading and Writing, obtained within two years prior to the start of the program, or the successful completion of three years full-time bachelor level study where the language of instruction is English completed in Australia, Canada, New Zealand, Republic of Ireland, United Kingdom, or the United States of America. Incomplete education/teaching studies in Australia: successful completion of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) is not an entry requirement for this program. However, if you achieved a 'satisfactory' result for one or more component of the LANTITE at another institution, the 'satisfactory' result can be carried across to QUT. You are not eligible to apply for a place in the course if one or more component of LANTITE remains at 'satisfactory' after two test attempts for that component.

Course outline: The Bachelor of Science prepares you for a career in science education and prepares graduates with well-developed analytical and problem-solving skills in a science discipline (Biology, Chemistry, Earth Science, Environmental Science and Physics). This is not a stand-alone degree, but the first part of a vertical double degree. You will continue your studies by undertaking the Master of Teaching (Secondary) to prepare you to teach in science and mathematics education in a secondary school setting. This course is covered by the QUT Offer Guarantee. **Other requirements:** A Suitability Card is required; refer to institution. You must successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate. **Majors:** Refer to Bachelor of Science

Career opportunities: Education, research, diagnostic and analytical laboratories, mining, hospitals and health departments, pharmaceutical companies, primary and agricultural industries, food industry laboratories, environmental agencies, veterinary pathology laboratories

SOUTHERN CROSS UNIVERSITY

Southern Cross University

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
054611 Lismore	3F or 6P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Science is a flexible degree that incorporates a wide range of subjects with career-focused science specialisations. Students can focus on an area of professional practice by choosing a specialisation. Alternatively, they may choose a major from applied chemistry; applied mathematics and physics; biology; or a shared major from disciplines across the University. The Bachelor of Science is characterised by a high level of practical and field experience in all years, making the most of our easy access to a variety of subtropical terrestrial, coastal and marine ecosystems. This course can also be studied online. Some units require attendance at on-campus workshops. **Note:** Some units may only be available to study online or at specific locations and some include compulsory residential workshops. **Specialisations:** Earth and environmental systems, marine systems, forestry systems or regenerative agriculture. See separate entries for details. **Majors:** Applied chemistry; applied mathematics and physics; biology; shared majors.

Career opportunities: Career opportunities include natural resource management in local council, state Commonwealth Government or not-for-profit organisations; consulting, as an industry adviser or practitioner; research technician; quality control/quality assurance officer; data analyst or science communicator. Graduates may also pursue secondary science teaching with further study.

Bachelor of Science (Earth and Environmental Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
051811 Lismore	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Science (Earth and Environmental Systems) provides a strong foundation in science, including field and laboratory experimentation and analytical techniques, as well as socioecological systems, management and critical thinking. The Earth and Environmental Systems specialisation develops skills and understanding of environmental science and management. Specialist units cover ecology, ecosystem regeneration, biogeochemistry, modelling and resource management (including water, catchments and waste/resources in the circular economy). Students may choose from a range of elective units, including ecological economics, wildlife conservation, and protected area management. This degree is characterised by a high level of practical and field experience, making the most of our easy access to a variety of subtropical terrestrial, coastal and marine ecosystems. This course can also be studied online. Some units require attendance at on-campus workshops. **Note:** Some units may only be available to study online or at specific locations and some include compulsory residential workshops. **Specialisations:** Earth and Environmental Systems.

Career opportunities: Career opportunities in Earth and Environmental Systems include national park and protected area management, environmental protection, waste management, environmental impact assessment and monitoring, environmental education and interpretation, ecotourism, land/river/coast care programs and in environmental science research.

Bachelor of Science (Forestry Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
051411 Lismore	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Science (Forestry Systems) provides a strong foundation in science, including field and laboratory experimentation and analytical techniques, as well as socioecological systems, management and critical thinking. The Forestry Systems specialisation covers the vital role forests play in natural and managed systems, including native forest

silviculture, fire ecology and management, planted trees and forests, wood science and utilisation, forest operations and technology. Elective units include modelling natural systems, plant and disease management, agriculture and forest value chains, and plant biology. This degree is characterised by a high level of practical and field experience, making the most of our easy access to a variety of subtropical terrestrial, coastal and marine ecosystems. This course can also be studied online. Some units require attendance at on-campus workshops. **Note:** Some units may only be available to study online or at specific locations and some include compulsory residential workshops. **Majors:** Forestry systems

Career opportunities: Career opportunities in Forestry Systems include production, conservation and restoration forestry, plantation establishment and management; native forest management, fire prevention and control, forest resource assessment, policy development, pest and disease management, agroforestry and farm forestry advisory services.

Bachelor of Science (Marine Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
051951 National Marine Science Centre, Coffs Harbour	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Science (Marine Systems) provides a strong foundation in science, including field and laboratory experimentation and analytical techniques, as well as socioecological systems, management and critical thinking. The Marine Systems specialisation builds on introductory earth systems knowledge with units at our National Marine Science Centre. These cover oceanography, marine ecology, fish and aquaculture, reefs, fisheries and marine parks management. Elective units include marine megafauna, ocean change biology, drone technology and spacial analysis, and coastal fluvial hydrodynamics. This course can also be studied online. Some units require attendance at on-campus workshops. **Note:** Some units may only be available to study online or at specific locations and some include compulsory residential workshops. **Majors:** Marine systems.

Career opportunities: Career opportunities in Marine Systems include marine park management, fisheries and aquaculture, reef restoration, marine monitoring, marine-based tourism, marine consulting, or marine science research.

Bachelor of Science (Regenerative Agriculture)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
051611 Lismore	3F or 6P	✚ unadjusted	✚ adjusted	Mar 2024	11 Jan 2024

Course outline: The Bachelor of Science (Regenerative Agriculture) provides a strong foundation in science, including field and laboratory experimentation and analytical techniques, as well as socioecological systems, management and critical thinking. The Regenerative Agriculture specialisation investigates human ecology, soil processes, regenerative strategies and soil management, as well as the planning of rural landscapes, developing specialist knowledge and taking a holistic approach to food production and farm management. A key aspect of this specialisation is practical on-farm residential schools. You can also choose seven units from any other specialisation. This course can also be studied online. Some units require attendance at on-campus workshops. **Note:** Some units may only be available to study online or at specific locations and some include compulsory residential workshops. **Majors:** Regenerative agriculture.

Career opportunities: Career opportunities in Regenerative Agriculture exist in public and private sectors as a regenerative agriculture specialist/consultant, farmer, resource manager, regenerative agronomist, sustainability advisor and planner, policy developer, biologist, ecologist, soil health scientist, or in scientific research.

Diploma of Regenerative Agriculture

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
057611 Lismore	1F or 2P	❖ unadjusted	❖ adjusted	Mar 2024	11 Jan 2024

Course outline: The Diploma of Regenerative Agriculture combines foundation regenerative agriculture units and academic skills units with an option to specialise in soil management. The course is ideal for those already working in the industry who wish to upgrade their skills for work as a soil lab technician or for those with an interest in pursuing further study at the Bachelor level. Successful completion of the Diploma of Regenerative Agriculture enables entry and up to eight units of credit towards the Southern Cross Bachelor of Science (Regenerative Agriculture). The Diploma of Regenerative Agriculture is offered through SCU College, which provides students with a highly supported learning environment. **Specialisations:** Regenerative agriculture; soils management.

Career opportunities: Soil lab technicians or as a pathway to further study.

TAFE QUEENSLAND

Certificate IV in Laboratory Techniques/Diploma of Laboratory Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
555546 South Bank	1 1/2C	☆ unadjusted	☆ adjusted	Jan 2024	11 Jan 2024

Additional entry information: Successful applicants must successfully complete the Certificate IV in Laboratory Techniques or equivalent before enrolling in the Diploma of Laboratory Technology.

Course outline: Double your qualifications and career prospects with this dual qualification in laboratory techniques and technology. This high-level course will equip students with the cutting-edge science techniques needed to work in number of industries including clinical science, pathology, pharmaceutical and forensic science. Students start by learning how to log samples, check sample documentation, prepare samples for testing, perform scientific calculations, and maintain laboratory equipment. Students then discover how to interpret information using current scientific data analysis approaches, and record data in accordance with industry-standard protocols. Our highly-experienced staff are available every step of the way to provide the one-on-one guidance needed to succeed. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/courses for more information.

Career opportunities: Analyst, laboratory technician, technical officers.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Advanced Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731901 St Lucia	4F or 8P	90.75 unadjusted	94.05 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3

and 4, C); Two of Ag Science, Biology, Chemistry, Earth and Environ Science, Specialist Mathematics or Physics, at least one of which must be Biology, Chemistry or Physics (Units 3 and 4, C).

Course outline: Students challenge and deepen their interest in science with a choice from over 20 specialist fields in science and mathematics. In first year, build interdisciplinary scientific knowledge and practical skills. In second and third years, develop quantitative, computational, practical and problem-solving skills to prepare for a full-year independent research project in the final year. Learn with scientific experts and research thought leaders who will equip students to find their own scientific solutions to problems in industry, government and research organisations. For more information, visit study.uq.edu.au. **Majors:** Archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; earth science; ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science, marine biology, mathematics, microbiology, physics; plant science; psychology; public health; statistics; zoology.

Career opportunities: Research institutes; private, public sector and charity organisations; universities; hospitals and healthcare; defence; conservation; finance.

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731201 St Lucia	3F or 6P	78.10 unadjusted	82.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Develop an understanding of the breadth and depth of modern biomedical science from leading researchers in this area. Benefit from their knowledge of the latest biomedical science developments and put this theory into practice through structured research projects. Study broad areas of molecular and cellular biology through to body systems. Students take the opportunity to specialise in one or more of these areas in their third year. By integrating studies across various discipline areas, graduates develop a well-grounded, wide range of knowledge and enter a rewarding career in a range of industries. For more information, visit study.uq.edu.au. **Note:** Students can use this program as a pathway to study medicine or allied health programs.

Career opportunities: Hospital and diagnostic clinical laboratories; biotechnology and pharmaceutical companies; health policy and communication programs; secondary teaching (with additional study).

Bachelor of Biomedical Science/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731211 St Lucia	4F or 8P	81.30 unadjusted	82.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Contribute to breakthroughs in the medical sciences and healthcare by combining interdisciplinary scientific knowledge and key practical skills with an in-depth understanding of biomedical science. Study the human body at the molecular, cellular and whole-body levels, and cover biochemistry and cell biology, physiology, developmental biology, microbiology, pharmacology and neuroscience. Students can follow their interests and select a major from one of the broadest selections of science disciplines in Australia in their science program. Biomedical science studies incorporate extensive practical experience, including opportunities to work with researchers making the latest breakthroughs. Apply for a research experience based in one of UQ many research institutes or centres, to put theory into practice. For more information, visit study.uq.edu.au. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; cell biology; chemistry; coastal and ocean science; computer science; earth science; ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematics; microbiology; microbiology, infection and immunity; physics; plant science; psychology; public health; statistics; zoology.

Career opportunities: Research organisations; government agencies; industry; environmental organisations; consultancies; community groups; hospitals and healthcare, financial institutions.

Bachelor of Biotechnology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731101 St Lucia	3F or 6P	81.05 unadjusted	83.05 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Biotechnologists design innovative products and technologies and pioneer new frontiers in health, agriculture, science and engineering. Study molecular genetics, bioinformatics, microbiology, immunology, biochemistry, cells and genes, physics, chemistry, engineering, mathematics, and other essential science areas. Develop core technical, laboratory and commercialisation skills. Build expertise in one of 5 specialist areas: Agricultural Biotechnology; Chemical and Nano Biotechnology; Medical Biotechnology; Molecular and Microbial Technology or Synthetic Biology and Industrial Biotechnology. For more information, visit study.uq.edu.au. **Majors:** Extended Majors: Agricultural biotechnology; chemical and nano biotechnology; medical biotechnology; molecular and microbial biotechnology; synthetic biology and industrial biotechnology. Minors: Bioinformatics; innovation and entrepreneurship.

Career opportunities: Quality assurance; clinical trial operations management; consulting; venture capital companies; pharmaceuticals; research institutes; government regulatory agencies.

Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714401 St Lucia	3F or 6P	89.85 unadjusted	92.85 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Learn the quantitative and analytical skills to pursue a well-paid career globally. Gain a foundation of calculus, linear algebra, discrete mathematics, mathematical analysis and modelling. Choose to specialise from a broad selection of mathematics and statistics courses. Apply advanced mathematics skills to data driven problems in the physical and biological sciences, engineering, information technology, economics and business. Enhance these skills during practical industry placements or internships accessing UQ local and global networks. For more information, visit study.uq.edu.au. **Majors:** Applied mathematics; data analytics and operations research; mathematical physics; pure mathematics; statistics.

Career opportunities: Finance; economics; meteorology; information technology; data science; teaching (with additional studies); government agencies; research organisations.

Bachelor of Mathematics/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714501 St Lucia	4F or 8P	92.15 unadjusted	94.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine the versatility and breadth of an arts degree with in-depth knowledge of mathematics to broaden skills and employment options. Students tailor their arts studies with a choice of more than 45 options in humanities, social sciences, languages, world cultures, politics and much more. They develop comprehensive, specialised knowledge and sophisticated application of mathematics with a choice from over 60 mathematics and statistics courses. They graduate with advanced quantitative and analytic skills for careers in industry sectors which rely on the physical and biological sciences, engineering, information technology, economics, business and other emerging fields. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Mathematics and Bachelor of Arts. Students cannot complete the mathematics major in the Bachelor of Arts.

Career opportunities: Operations researcher; data analyst; statistician; financial planner; risk manager; teacher (with further study); marketing professional; technical salesperson.

Bachelor of Mathematics/Bachelor of Business Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714711 St Lucia	4F or 8P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Open doors to rewarding career opportunities by combining a passion for analytics and mathematics with a grounding in the principles of business management and leadership. Develop comprehensive, specialised knowledge and sophisticated application of mathematics. In their business studies, students select from specialist areas of study including leadership and management science, innovation and entrepreneurship, business economics, business information systems, human resources, international business and marketing. Apply these skills during practical industry placements or internships accessing UQ local and global networks. For more information, visit study.uq.edu.au. **Majors:** Applied mathematics, business economics, business information systems, data analytics and operations research, human resources; innovation and entrepreneurship, international business, leadership and management science, marketing, mathematical physics, pure mathematics, statistics.

Career opportunities: Finance; economics; information technology; data science; teaching (with additional study); government agencies; research organisations.

Bachelor of Mathematics/Bachelor of Commerce

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714601 St Lucia	4F or 8P	91.95 unadjusted	93.95 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine a focused background in commerce with an in-depth knowledge of mathematics for a career in general management, banking, financial management, accounting and information systems or in scientific organisations. Develop comprehensive, specialised knowledge and sophisticated application of mathematics with over 60 courses available in mathematics and statistics. Commerce studies provide a solid foundation of business skills with majors available in accounting, business analytics, business information systems and finance. Students apply these skills during practical industry placements or internships accessing UQ local and global networks. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Mathematics and Bachelor of Commerce.

Career opportunities: Finance; economics; information technology; data science; teaching; government and research organisations.

Bachelor of Mathematics/Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714421 St Lucia	4F or 8P	89.95 unadjusted	92.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Be equipped to research and develop the next big breakthroughs in technology and science. Combine theoretical studies of algorithms and data structures in computer science with a comprehensive specialised knowledge and sophisticated application of mathematics. Select a mathematics specialisation from over 60 courses in mathematics and statistics. Learn to solve data driven problems in the physical and biological sciences, engineering, information technology, economics and business. Develop high-level quantitative and analytic skills to play a key role in cyber security, data science, machine learning, programming languages and scientific computing which support the global finance, energy, transport, health and communications industries. For more information, visit study.uq.edu.au. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Applied mathematics, cyber security, data analytics and operations research, data science, machine learning, mathematical physics, programming languages, pure mathematics, scientific computing or statistics.

Career opportunities: Finance; economics; information technology; data science; teaching; emerging fields at the integration of science and technology.

Bachelor of Mathematics/Bachelor of Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714701 St Lucia	4F or 8P	93.25 unadjusted	94.85 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine an interest in economic theories and principles with the in-depth knowledge of mathematics. In the mathematics component students develop a comprehensive specialised knowledge and sophisticated application of mathematics. Select a specialisation from over 60 mathematics and statistics courses. The economics studies will focus on business, environmental and resource economics, economic policy, econometrics, financial markets, labour and health economics, international trade and development, macroeconomics and microeconomics. Develop quantitative, problem solving and critical thinking skills within an international business context and apply these during practical industry placements or internships accessing UQ local and global networks. For more information, visit study.uq.edu.au. **Majors:** Refer to Bachelor of Mathematics and Bachelor of Economics.

Career opportunities: Engineering and the physical sciences; economics; information technology; molecular biology; accounting; business information systems and finance.

Bachelor of Mathematics/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714801 St Lucia	4F or 8P	91.00 unadjusted	93.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the QTAC website.

Course outline: Combine a passion for mathematics with the skills, knowledge and practical experiences required for teacher registration and employment. Students receive a thorough preparation for their teaching areas through their professional studies in education. Study essential and specialised topics in mathematics, including calculus, linear algebra and differential equations and recent applications in coding and cryptology, mathematical physics and biology, bioinformatics and finance. Secondary teaching is a rewarding career with specialist mathematics and science teachers in demand worldwide and throughout Australia. For more information, visit study.uq.edu.au. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA). **Majors:** Applied mathematics, data analytics and operations research, mathematical physics, pure mathematics, statistics.

Career opportunities: Teacher; principal; curriculum adviser; guidance officer; trainer, operations researcher; data analyst; statistician; financial planner; risk manager.

Bachelor of Mathematics/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
714901 St Lucia	4F or 8P	88.20 unadjusted	92.15 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Apply scientific and mathematical expertise to solve organisational challenges or address global issues across the sciences, engineering, information technology, economics and the business world. Combine the flexibility and breadth of a science degree with an in-depth knowledge of mathematics. Develop a comprehensive specialised knowledge and sophisticated application of mathematics. In their science studies, students choose from a broad range of majors to follow their scientific passion. Apply critical thinking and problem solving skills with practical industry projects, placements, research projects, internships or international study opportunities through UQ local and global networks. For more information, visit study.uq.edu.au. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; data analytics and operations research, earth science, ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematical physics; microbiology; microbiology, infection and immunity, physics; plant science; psychology; public health; pure mathematics, statistics; zoology. You cannot complete the mathematics major in the Bachelor of Science or complete the same field of study in both degrees (eg statistics).

Career opportunities: Operations researcher; information technology specialist; data analyst; statistician; financial planner; risk manager; teacher (with further study).

Bachelor of Occupational Health and Safety Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
729201 St Lucia	4F or 8P	✦ unadjusted	✦ adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Make a positive difference to the lives of countless people as a qualified occupational health and safety professional. With this unique science-focused program, students combine their studies of health, psychology, law, ethics with management. Learn to monitor and modify work environments, deliver education programs and analyse workplace data. Devise, evaluate, audit and implement Occupational Health and Safety (OH&S) management systems, complete accident investigations and ensure compliance with legislation. Gain practical skills through placements, worksite visits and industry experience. For more information, visit study.uq.edu.au.

Career opportunities: Be employed in any workplace in Australia or overseas; private sector industries; government; or consultancies.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731001 St Lucia	3F or 6P	76.00 unadjusted	80.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Use this flexible program to combine many aspects of science while developing critical thinking, technical and communication skills. Study general science and non-science courses before specialising in second and third years. UQ has one of the broadest selections of science disciplines in

Australia and over 2200 teaching and research spaces. Students can focus this program towards their areas of interest or specific career goals. They apply their knowledge during fieldwork, internships or international study options. For more information, visit study.uq.edu.au. **Note:** The Bachelor of Science is popular both as a pathway to medicine, or as a way to improve a student's entry rank for programs like engineering, veterinary science or pharmacy. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematics; microbiology; microbiology, infection and immunity; physics; plant science; psychology; public health; statistics; zoology. 32 minors and 16 extended majors also available.

Career opportunities: Research; government; industry; not-for-profit and community groups, environmental agencies; hospitals, science teaching (with further study).

Bachelor of Science/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731501 St Lucia	4F or 8P	78.00 unadjusted	80.00 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Be equipped for success in a rapidly changing world by choosing a portfolio of arts and science specialisations. Students expand their employment options, combine diverse interests or follow specific career goals. Structure the program within each degree component to include majors in areas of interest and a range of electives. Choose from more than 80 study areas across the sciences, arts, humanities, languages and more. Use these to help develop skills in written communication, creativity, problem-solving and critical thinking. The skills and knowledge gained are valuable assets in the changing world of work. For more information, visit study.uq.edu.au. **Majors:** Aboriginal and Torres Strait Islander Studies; ancient Greek; ancient history; ancient history/history; anthropology; applied mathematics; archaeological science; archaeology; art history; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; Chinese; Chinese translation and interpreting; coastal and ocean science; computer science; criminology; drama; earth science; ecology and conservation biology; economics; English; English as an international language; English literature; film and television studies; food science and nutrition; food technology; French; French advanced; genetics; geographical science; geography; German; history; Indonesian; International relations; Italian; Japanese; Japanese advanced; journalism and mass communication; Korean; Latin; legal education studies; linguistics; marine biology; mathematics; media and digital cultures; microbiology; microbiology, infection and immunity; music; peace and conflict studies; philosophy; physics; plant science; political science; popular music and technology; professional writing and communication; psychology; public health; sociology; Spanish; sports studies; statistics; studies in religion; writing; zoology. You cannot complete the same major in both degrees (eg mathematics).

Career opportunities: Government; industry; community and research organisations across many sectors.

Bachelor of Science/Bachelor of Journalism

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
731602 St Lucia	4F or 8P	85.45 unadjusted	85.45 adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Combine the flexibility of a science degree with a professional journalism qualification and become uniquely equipped for a rapidly evolving careers market. The science component provides general scientific knowledge, technical and practical skills plus a specialisation in one scientific discipline. UQ offers one of the broadest selections of science disciplines in Australia. The journalism component explores reporting, investigation, editing, and communication and media contexts of journalism. Students learn to be independent and reflective practitioners who are creative problem-solvers. Students gain well developed skills in language, the analytical rigor of scientific training and a good understanding of science and the media. For more information, visit study.uq.edu.au. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; earth science, ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematics; microbiology; microbiology, infection and immunity, physics; plant science; psychology; public health; statistics; zoology. Minors and extended majors also available.

Career opportunities: Environmental and science communicator; correspondent/journalist; digital content producer; foreign media correspondent; specialist content writer.

Bachelor of Veterinary Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
736002 Gatton	5F	95.00 unadjusted	98.95 adjusted	Feb 2024	11 Jan 2024

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Physics or Biology (Units 3 and 4, C); CASPer Test. **Additional entry information:** A situational judgement test is required for entry. For information, refer to the UQ website. **Closing date:** QTAC applications and changes of preferences for this program close on 30 November 2023.

Course outline: Become a fully qualified and internationally recognised veterinarian. Learn to diagnose, treat and prevent diseases and injuries in companion, domestic, exotic, wildlife and production animals. Develop skills and knowledge in veterinary medicine, surgery, anaesthesia and radiology in domestic animal species, wildlife, avian and exotic pets. Graduate with expert animal handling and clinical skills, with a final year spent in hospitals and clinics. Students also receive comprehensive biomedical training which may lead to careers in research, industry and government. For more information, visit study.uq.edu.au. **Other requirements:** Students must pass all courses for any given semester to progress to the next semester, and must take vacation practical work. Students are exposed to animals and agricultural environments as part of their learning. Immunisations against Q fever and tetanus are mandatory and students will be required to provide evidence of immunisation upon commencement of the program.

Career opportunities: Private veterinary practitioner; consultant with government departments controlling animal diseases; adviser to industry; researcher.

UNIVERSITY OF THE SUNSHINE COAST

Associate Degree in Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013101 Sunshine Coast	2F or 4P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Are you looking for a career where you can make a difference? If you are creative, enjoy solving problems, enjoy collecting and organising information, and love evaluating evidence, then a career in science is likely to suit you. This two-year program offers the perfect pathway to university to gain new skills, switch careers or simply learn more about a science field that interests you. This program provides students with an alternative pathway to the Bachelor of Science and related programs at UniSC. In this program you will fast-track your science education and gain guaranteed entry into a degree at UniSC. You'll gain the necessary skills needed to solve real-life problems related to many branches of science and learn core scientific principles such as biology and chemistry. Choose to specialise in biology; biotechnology; chemistry; ecology or mathematics. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Refer to Bachelor of Science.

Bachelor of Animal Ecology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013201 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014271 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Care about how animals are impacted by the environment and humans, and what we can do to protect their future? Develop analytical and research skills to better understand conservation and management. In this program you will build your knowledge of animal conservation, biodiversity and animal behaviour, and work with leading researchers on field trips and in the laboratory. You'll undertake a guided research project in Animal Ecology, working as an intern animal ecologist as part of your studies, or take advantage of opportunities to travel abroad. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Collectors and curators in museums, environmental educators, practitioners in environmental monitoring and management, rangers and managers in wildlife management and conservation organisations, research assistants and managers in Government and non-governmental agencies, specialist ecotourism guides.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013001 Sunshine Coast	3F or 6P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014801 Moreton Bay	3F or 6P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Discover the endless opportunities a career in science offers you, while improving our understanding of the universe. This degree is designed to provide flexibility, while preparing you for a variety of work opportunities. Develop specialist skills through your choice of majors and minors in Biology, Biotechnology, Chemistry, Ecology, Mathematics, Agriculture and Aquaculture, Genetics, Microbiology and Sustainability. In this program you will graduate with depth and breadth of scientific knowledge and gain a strong foundation in cell biology, chemistry, biodiversity and ecology, and research methods. You can choose additional introductory courses in mathematics for those interested in specialisation. You'll learn in specialised labs and gain hands-on experience during field studies, preparing you for work in professional scientific settings. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar. **Majors:** Biology; biotechnology; chemistry; ecology; mathematics.

Career opportunities: Depending on major chosen: research and education, waste and pollution control, biotechnology, environmental protection.

Diploma in Animal Ecology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
019601 Fraser Coast	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
016611 Moreton Bay	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
013202 Sunshine Coast	1F or 2P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Learn about animals and turn your love of nature into a meaningful career. Study animals in their natural habitats to better understand how we can protect their future. The first step in a career in animal conservation. On successful completion of the Diploma in Animal Ecology, and subject to meeting all other entry criteria, you may receive up to 96 units of credit towards the Bachelor of Animal Ecology. In this program you will learn about biodiversity, conservation, human-animal interactions, and the impacts of a changing environment. You'll study a wide range of marine and terrestrial wildlife, including sharks, snakes, birds, turtles and whales. You'll develop your skills and knowledge to work in ecotourism, in entry-level roles within Government and non-government wildlife management and conservation organisations, or as an environmental educator. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Ecotourism, entry-level roles within Government and non-government wildlife management and conservation organisations, or as an environmental educator.

Diploma in Science and Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
013181 Sunshine Coast	1F or 2P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024
014171 Moreton Bay	1F or 2P	✚ unadjusted	✚ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Prerequisites: No prior study. **Additional entry information:** Applicants who have already completed a higher education qualification (AQF Level 5 or above or equivalent), excluding VET sector diplomas, are not eligible for entry into this program.

Course outline: Do you like technology and solving problems? Or do you just love learning about how the world works? In this one-year program, you'll investigate the roles science and technology play in our everyday lives, and how data can be used to solve real-world challenges. In this program you will study core scientific fields like biology, chemistry and ecology, as well as Big Idea' modules that introduce you to the cutting edge of science, research and technology. You'll work in the lab and in the field to build skills in investigation, presenting data and critical analysis. You'll explore career options with elective courses in Environmental Science, general Science or Animal Ecology, then later complete a bachelor. Upon successful completion, receive direct entry and up to 96 units of credit towards UniSC's Bachelor of Science, Bachelor of Environmental Science or Bachelor of Animal Ecology. **Note:** This diploma is an identified pathway into the following UniSC - University of the Sunshine Coast degree programs: Bachelor of Animal Ecology, Bachelor of Environmental Science, and Bachelor of Science. On successful completion of the diploma, students are eligible for entry into, and may receive 96 units of credit towards, their selected pathway degree. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Catchment management agencies, education, environmental consultant, environmental monitoring and management, industry/government, parks and wildlife, research, resource management, restoration and conservation, waste and pollution control, wildlife management and conservation organisations.

Undergraduate Certificate in Animal Ecology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round

019709 Fraser Coast	1/2F or 1P	❖ unadjusted	❖ adjusted	Feb 2024 Jul 2024	11 Jan 2024 6 Jun 2024

Course outline: Learn about animals and turn your love of nature into a meaningful career. In this program, you'll study animals in their natural habitats to better understand how we can protect their future. You will learn about biodiversity, conservation, human-animal interactions, and the impacts of a changing environment. You will study a wide range of marine and terrestrial wildlife, including sharks, snakes, birds, turtles and whales. **Note:** On successful completion of the Undergraduate Certificate in Animal Ecology, and subject to meeting all other entry criteria, you may receive up to 48 units of credit towards UniSC - University of the Sunshine Coast's Bachelor of Animal Ecology program. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information on Inherent Academic Requirements, visit usc.edu.au/iar.

Career opportunities: Subject to completion of a three year Bachelor of Animal Ecology program, career opportunities will be available across a range of areas both in Australia and internationally, including: animal ecology specialists in private environmental consulting; researchers; research assistants and managers in Government and non-governmental agencies; rangers and managers in wildlife management and conservation organisations; practitioners in environmental monitoring and management; collectors and curators in museums; environmental educators; specialist ecotourism guides; and researchers and lecturers at universities.

UNIVERSITY OF NEW ENGLAND

une University of New England

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626991 Armidale	3F or 6P	75.50 unadjusted	75.50 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This degree is focused towards the medical, paramedical and forensic fields. Areas of study include basic science (biology, chemistry and mathematics) followed by human physiology, genetics, nutrition, biochemistry, microbiology, and the integration and applications of disciplines such as biochemistry, biophysics, chemistry, genetics, microbiology, pharmacology and human physiology into biomedical science. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies.

Career opportunities: Biomedical biotechnology or pharmaceutical industries such as pathology laboratories, hospitals, medical and scientific supply companies, research and development laboratories in universities, hospitals and industry.

Bachelor of GeoScience

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626101 Armidale	3F or 6P	73.75 unadjusted	73.75 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: With a strong practical focus on earth science, geology and GIS, this course equips graduates with the fundamentals of the geoscience disciplines, with practical and fieldwork skills that are in demand, as well as essential theoretical knowledge. Upon completion, graduates will be ready for industry or government based employment, as well as higher degree studies. Students will expand their knowledge of our planet composition, structure and natural geological system, with- topics including resource geology, environmental geology (including aspects associated with resource extraction), environmental and exploration geochemistry, petrology, sedimentology, field mapping, structural and metamorphic

geology, GIS, applied geophysics and palaeontology. For students without the recommended background knowledge, the Faculty offers foundation units in chemistry, mathematics and physics. For external study, contact the UNE Future Students Team. **Majors:** Geoscience, palaeontology. Minors: archaeology, chemistry, data science and modelling, earth surface processes, ecology, environmental management and rehabilitation, museum studies, palaeontology, science communication, spatial science.

Career opportunities: Geoscientist, geologist, palaeontologist, mineral and fossil fuels industry, energy resources and exploration, scientific organisations, government agencies, geological or environmental consultancies, academia, museums, primary and secondary school teaching.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626031 Armidale	3F or 6P	69.90 unadjusted	69.90 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: The course provides students with the skills and techniques necessary for solving problems associated with a broad range of issues. The extensive range of majors available in established and emerging generalist and specialist sciences are all underpinned by cutting-edge research. In first year, students are encouraged to establish a broad science base that allows for flexibility in choosing an appropriate major, majors or a major and a minor. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Majors:** Animal science and veterinary studies, applied physics, archaeology, biochemistry, biodiversity, botany, chemistry, computational science, forensic science, genetics, geography, geoscience, mathematics, medicinal chemistry, microbiology, neuroscience, palaeobiology, physiology, psychology, zoology. Minors: business, communications, statistics.

Career opportunities: Business, primary industries, resource management, water and land resources, environmental protection authorities, analytical and/or forensic laboratories, medical and pharmaceutical research or supply industries. Research and postgraduate study, Masters or PhD are other common pathways for graduates, particularly after the completion of a fourth year of study in Bachelor of Science (Honours).

Bachelor of Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626691 Armidale	5F or 10P	✦ unadjusted	✦ adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to the UNE website for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career in science that draws on legal skills. The law component includes fundamental units such as legal systems and methods, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team. **Majors:** Refer to B Science (excluding animal science and veterinary studies; archaeology; geography; palaeobiology; psychology).

Career opportunities: Private legal practice, legal aid agencies, government bodies, private sector companies, consultancy.

Bachelor of Scientific Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626061 Armidale	3F or 6P	57.80 unadjusted	57.80 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: This course is suitable for students who do not have an educational background in sciences. First year provides academic foundation knowledge, skills and achievement at introductory level. Students can exit with a Diploma in Science on completion of first year and may articulate into other science-based bachelor degrees. Graduates have a broad scientific background to assist with future employment or to pursue further study. Successful completion of first year allows students to transfer into a more specialised degree program, based on their desired field of study.

Career opportunities: Graduates have the broad scientific background and skills for further study, or employment in a range of areas requiring knowledge of the basic sciences.

Bachelor of Zoology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
626731 Armidale	3F or 6P	68.75 unadjusted	68.75 adjusted	Feb 2024 Jun 2024	11 Jan 2024 6 Jun 2024

Prerequisites: ⁎.

Course outline: As the only zoology-specific degree in Australia, this course offers a unique opportunity for students to learn all aspects of the biology of animals including structure, function, anatomy, physiology, ecology, behaviour, natural history and evolution. The course has a strong focus on field and laboratory-based hands-on practical training, with our Zoology in Practice core program helping students to forge connections in all aspects of their academic journey. Our majors are designed with future employability in mind, ensuring that graduates understand major zoological concepts and are aware of how these are connected with the biological, environmental, rural, and physical sciences. Students also learn to solve problems, collect and analyse scientific data and communicate scientific information to experts and the wider public. Students develop field and laboratory techniques and learn to evaluate social and ethical issues related to zoology and animal interactions with their environment and with people. **Majors:** Animal ecology, applied zoology, natural history, palaeobiology. Minors: Animal ecology, applied zoology, natural history, palaeobiology, science communication, museum studies, water science, botany, spatial science, zoological methods.

Career opportunities: Zoologist in research institutions, government agencies, museums, national parks, marine parks, zoological gardens, aquaculture and biotechnology, animal breeding, teacher (with further study).

UNIVERSITY OF SOUTHERN QUEENSLAND

University of Southern Queensland

Bachelor of Agricultural Technology and Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
907445 External	3F or 6P	69.00 unadjusted	69.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024
907231 Toowoomba	3F or 6P	✦ unadjusted	✦ adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: ⁎.

Course outline: Pioneering in the agriculture sector, UniSQ dedicated degree in Agricultural Technology and Management allows you to discover and use innovative technology within ag systems and agricultural science (plant and animal science) to create effective business solutions and improvements for farmers. Benefit from work-integrated learning, where you can put into practice the agricultural technology and management skills you've learned and connect with industry partners. From automation and robotics to connected livestock, graduates will be ready to lead the next generation of sustainable farming. **Note:** Some courses have mandatory attendance requirements.

Career opportunities: Graduates will be ready for employment by consultancy firms, farming enterprises (corporate and family), agricultural technology supply companies, agribusiness firms, government, and technology development companies. Graduates will have the expertise and practical skills to apply and develop new and emerging agricultural technologies in both crop and animal production settings, and deliver outcomes that are safe, effective and financially and environmentally sustainable to address industry needs.

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
907375 External	3F or 6P	66.15 unadjusted	71.35 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024
906441 Toowoomba	3F or 6P	68.00 unadjusted	68.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C) ⁎.

Course outline: Be skilled and ready to play your part in a more sustainable future, with UniSQ Bachelor of Environmental Science. Choose the major that interests you most, selecting from Climate Science, Ecology and Conservation, Water Science and Wildlife and Pest Management. Expand your knowledge and learn about environmental science, ecology, climate, biodiversity conservation, wildlife management and practical aspects of natural resource management, ensuring you've got the necessary skills to make a difference. Participate in field studies of vegetation and freshwater ecosystems, wildlife survey and monitoring, and site visits to water resource and renewable energy facilities. **Note:** This program has a highly recommended residential school. **Majors:** Climate science; ecology and conservation; water science; wildlife and pest management.

Career opportunities: Graduates will be ready for employment in resources/mining industries, government departments and agencies, local councils, consultancy, national parks, universities, defence organisations, CSIRO, Australia Bureau of Meteorology and other organisations contributing to sustainable utilisation and management of our natural resources. Depending on their chosen major, graduates may find employment within careers such as climate scientist, climate policy consultant, a climatologist, climate policy analyst, environmental officer, conservation biologist, biosecurity officer, environmental consultant, ranger, pest control officer, wildlife ecologist, wildlife scientist, hydrologist, water scientists, water modeller, or choose to work as Science Teachers (with further study) or Science Journalists.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906185 External	3F or 6P	66.15 unadjusted	71.35 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

906195 Online	3F or 6P	68.00 unadjusted	68.00 adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C) ⁎.

Course outline: Students interested in the study of science, its application to problem solving and the acquisition of knowledge may consider enrolling in the Bachelor of Science (BSCI). The program includes a total of 17 different major options, specialising in areas as diverse as biology and life-sciences, to the environment, chemistry, physics or astronomical science. **Note:** Practical experience is an integral component of the Bachelor of Science and each student is required to undertake and satisfactorily complete 15-30 days of practical experience (depending on major). **Majors:** Animal science; astronomical and space sciences; biology; computing; environment and sustainability; food science; geospatial science; human physiology; information technology; mathematics and statistics extended; mathematics and statistics; physics; plant agricultural science; wildlife management; wine science.

Career opportunities: Graduates of the Bachelor of Science typically continue into research careers focused on their own area of specialisation. Graduates often find employment as educators, including school teaching or teaching within the tertiary system. Other options include professional careers in science or laboratory work.

Combined degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Diploma of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906271 Toowoomba	1F or 2P	✦ unadjusted	✦ adjusted	Jan 2024 May 2024	11 Jan 2024 24 Apr 2024

Prerequisites: ⁎.

Course outline: Students acquire the knowledge of fundamental concepts in their chosen science major. The diploma is a qualification in its own right but can also be an admission pathway to a bachelor's degree. **Majors:** Biology; computing/IT; environment and sustainability; general science; mathematics; physical sciences; wildlife management.

Career opportunities: There are a range of employment opportunities suitable for graduates including laboratory assistant/technician/support, sales and marketing, service desk consultant, IT support, software development, data scientist.

Diploma of Wine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2023		Start Month	Offer Round
906445 Toowoomba, Queensland College of Wine Tourism	1F or 2P	61.50 unadjusted	61.50 adjusted	Jan 2024	11 Jan 2024

Prerequisites: ⁎.

Course outline: Examine the fundamental concepts of wine science with UniSQ Diploma of Wine, the only undergraduate Diploma of its kind currently offered in Australia. In addition to the core courses you can broaden your skills with a minor in Grape Growing, Wine Making or Wine Business Management. Gain valuable industry experience during the residential school courses at the Queensland College of Wine Tourism in Stanthorpe, Queensland, where you will also have the opportunity to achieve internationally recognised certification from the Wine and Spirit Education Trust. **Note:** Students must attend three, week-long residential schools at the Queensland College of Wine Tourism during the program.

Career opportunities: Graduates will be qualified to work in vineyards, wineries or in a business managerial role. Career areas may include viticulturist and vineyard management, grower liaison, agronomy, plant and soil health, wine making, cellar management, laboratory management, wine sales and cellar door management, wine marketing, distribution, imports and exports, wine warehousing, vineyard and winery supply sales, wine journalism and more.

About Australian Catholic University (ACU)

An **ACU** education builds on the Catholic understanding of faith and reason, working together in pursuit of knowledge and promotion of human dignity and the common good.

An ACU education seeks to transform lives and communities. Students are challenged to look beyond the classroom, solve real-world problems, develop their own search for meaning, and cultivate strong professional ethics. They are invited to stand up for people in need and causes that matter.

ACU is open to all. As is common with great Catholic institutions the world over, the university is inclusive and supportive of everyone, every day – regardless of their faith or tradition.

ACU is a young university making a serious impact. Ranked in the top two per cent of universities worldwide* and in the top 10 Catholic universities **, ACU is also first in Australia for graduate employment***.

The university has seven campuses around Australia, a campus in Rome, Italy, and an online campus – ACU Online.

Opportunities for personal and professional growth are critical to ACU. This is a university of service – so much so that it is built into the curricula. All ACU courses offer work placements, internships or volunteering opportunities.

The Brisbane Campus

The Brisbane Campus offers programs in allied health; biomedical science; business; creative arts; global studies and international development; humanities and social sciences; information technology; law and criminology; nursing, midwifery and paramedicine; philosophy; sport and exercise science; teaching; and theology.

Transport

Located 12 kilometres from the city centre, it's easy to travel to our Brisbane Campus. Trains and buses stop nearby, and a free ACU shuttle bus connects the campus with Toombul and Chermside. There is also free car parking, and bike racks for cyclists.

Student facilities

Whether you want to get involved in campus life, create a professional network or just find a quiet place to study, our Brisbane Campus has you covered. Set on 40 hectares of parklands, the campus has ample parking, state-of-the-art learning facilities, and places to hang out like a café and a swimming pool. Other on-campus facilities include health and computer labs, an art gallery, library, bookshop, moot court, student lounge, multipurpose sports facility, health clinic, chapel, and ovals and playing fields.

Campus life and support services

We've worked hard to create campus spaces that are relaxed, inviting and fun. And with clubs and societies for everything from photography, to French, to skiing, we're bound to have a group that's right for you.

We also offer a range of support services, including academic skills and career development, counselling, equity and disability advisers, campus ministry and accommodation services. Visit acu.edu.au/support for information.

For Aboriginal and Torres Strait Islander students, the on-campus Indigenous Higher Education Unit offers cultural, personal and academic support.

Flexible undergraduate courses are also available through the Away from Base program, which involves studying via online learning combined with intensive residential blocks twice a semester. Visit acu.edu.au/indigenoussupport for more information.

Study abroad

Want to study health sciences in Italy? Global studies in Mexico? Theology in Israel? Learning abroad programs can count towards your degree, and with more than 200 partner institutions, you can choose from a huge range of international opportunities.

Gain international learning experience by joining a study tour, completing an internship, doing a semester or short exchange, participating in community engagement or taking our unique international Core Curriculum program.

Learning abroad programs can be as short as two weeks or as long as a year, and there are generous travel grants available. Visit acu.edu.au/study-overseas for more information.

Scholarships

We know that balancing the cost of living and study can be tricky. That's why we offer more than 700 scholarship opportunities that recognise academic achievement and community participation, and help out students from a range of backgrounds.

We offer equity, merit and accommodation scholarships – which can help with costs like fees, textbooks and rent. To provide even more opportunities for our students, we've also developed the Creating Opportunity Fund scholarships. These are designed to support you to achieve your goals, no matter what difficult circumstances you may be facing. And unlike many equity scholarships, our eligibility criteria are flexible, so we can provide support where it's needed most. Visit acu.edu.au/scholarships for more information.

There's more than one way into ACU

There's no right or wrong way to get into university, so if you don't get the ATAR you need, don't panic. That's why we have pathways. These provide alternative options if you don't get a high enough score, haven't completed the prerequisites or don't meet some other requirement. Visit acu.edu.au/pathways for more information.

* *Times Higher Education* World University Rankings 2023. Percentage calculated as ACU's world rank as a proportion of the total number of universities in the world: International Handbook of Universities 2019, Palgrave MacMillan.

** International Federation of Catholic Universities members, ranked on *Times Higher Education* World University Rankings 2023.

*** Graduate Outcomes Survey – Longitudinal 2022, medium-term, full-time employment 2020-2022 for domestic undergraduate students.

@bonduniversity
/bonduniversity
@bond.university

Bond University offers a personalised academic environment that produces globally minded, work-ready graduates who stand out in their chosen careers and industries. Ranked #1 in Australia for undergraduate student experience for 17 consecutive years according to the Good Universities Guide, our students are at the heart of everything we do – reflected by our small class sizes, focus on individual attention, and close-knit cohort of 'Bondies'.

As an independent, not-for-profit institution, we exist for one reason: our students. All tuition fees are reinvested back into the University to build world-class facilities, provide state-of-the-art learning resources, support innovative degrees, and ensure that every student who passes through our doors has an unforgettable university experience.

Accelerated programs

At Bond, we operate on a three-semesters-per-year timetable that allows students to accelerate their studies, completing the average six-semester bachelor's degree in just two years. This gives Bond graduates a valuable head start in the competitive careers market – permitting them to enter industry and start enacting change sooner.

We offer a range of diploma, undergraduate and postgraduate programs spanning the study areas of actuarial science and data analytics; architecture; business, commerce and entrepreneurship; communication, film and creative media; construction, property and planning; health, biomedical and sports sciences; international relations, politics and arts; law; medicine; project management and innovation; and psychology, criminology and social sciences. Explore our latest program and faculty guides at bond.edu.au/view-our-brochures.

The Core curriculum

Embedded in every undergraduate degree at Bond, our Core curriculum is designed to prepare students not just for a successful career, but to be socially responsible, compassionate and independent leaders.

The Core curriculum consists of four compulsory subjects across critical thinking, collaboration, responsibility and integrity, and Beyond Bond, a professional development program that helps students transition seamlessly from university to the workplace.

Our international community

Bond students come from over 90 countries, and after graduation, may decide to return home, live abroad, or continue to enjoy life in Australia. We are a CRICOS registered provider (00017B) and welcome international applications for all CRICOS registered programs, with the exception of the Bond Medical Program, which is only accessible to international students via pathway from Bond's Bachelor of Biomedical Science.

Applying to Bond

We administer our own admission for all programs except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) [the Bond Medical Program]. Admission to this course is administered by QTAC.

For all other programs, students can apply directly to Bond through our free, quick-to-complete online application form and receive an offer direct from us if successful. Visit bond.edu.au/apply for more information and to begin your application, or learn more about the Medical Program in the Direct Entry Institutions section of this Guide.

A range of criteria may be applied when assessing applicant eligibility for admission to Bond. Our early offer system means that applicants still completing Year 12 can receive conditional entry based on their Year 11 results and first-semester results from Year 12. You can enrol in your program of choice when you receive the minimum required score (as stated in your offer letter) upon completing Year 12. We also recognise a range of other post-secondary qualifications for admission, including the AQF Certificate IV or the successful completion of a semester of a bachelor's degree. If you do not meet the criteria for entry into your preferred program, pathway opportunities may be available. Get in touch with us via bond.edu.au/contact for more information and to speak to someone about your circumstances.

If you are an international student, visit bond.edu.au/bond-international for more information on the international application process.

FEE-HELP

FEE-HELP is an interest-free loan from the Australian Government that helps eligible domestic fee-paying students pay their tuition fees, and can be used for undergraduate studies, postgraduate coursework and research. To access FEE-HELP, you must meet a range of criteria including citizenship and residency requirements. More information is available at bond.edu.au/fee-help.

Program fees

Refer to the program entries on QTAC's website for approximate tuition costs.

Fees are subject to change on an annual basis. In addition to the Student Services and Amenities Fee, textbooks, and study materials, your chosen program may also have additional compulsory costs such as uniforms, excursions, or placement fees.

More information on tuition fees and other costs is available at bond.edu.au/fees.

Scholarships

Bond University offers a generous range of full-fee and part-fee scholarships and bursaries to successful applicants. For more information on how to apply for a scholarship and application closing dates, please visit bond.edu.au/scholarships.

Supporting student success

To ensure every student has the adequate resources to thrive throughout their university studies, we offer a range of support services delivered both on campus and remotely.

The Academic Skills Centre offers free consultations and guidance for any student seeking to improve their quality of work and our Career Development supports students and alumni with finding work placements, internships, and professional employment.

Bond University is also committed to providing a culturally safe and supportive learning environment for all students, including Indigenous students. The Nyombil Centre is a hub for First Nations Bondies on campus, providing academic support, guidance, and connection opportunities. These efforts also include a number of scholarships specifically for Indigenous applicants.

/ChristianHeritageCollege
@chcuni
@chc_au

Christian Heritage College (CHC) is located in Brisbane's south-east in the leafy suburb of Carindale, just 10 kilometres from the Brisbane CBD. CHC is a boutique institute of higher education that offers academic excellence.

CHC boasts amongst the highest graduate employment rates and student satisfaction rates in Queensland and ranks highly in teaching quality and student support (QILT).

Our undergraduate and postgraduate courses in business, education, ministries, human services and counselling are underpinned by a Christian worldview, offering an integration of faith and technical acumen. You do not need to be a Christian to apply.

Small class sizes, individualised programs and quality one-on-one advice from lecturers both support and encourage students to achieve their best. The atmosphere of inclusion and shared aspirations makes life at CHC a rewarding experience, with many students continuing their association with the CHC community long after they graduate.

CHC forms part of the 92-acre campus with Christian schooling and associated childcare centres onsite. CHC offers plenty of free parking, with public transport available within walking distance, and bicycle and walking paths link the campus to surrounding suburbs.

Application for all undergraduate courses and Master of Teaching courses is made through QTAC. Application for all other courses is made directly to CHC. Entry to undergraduate courses normally requires the completion of Year 12 (or equivalent) and the achievement of a minimum ATAR, but non-ATAR students may be eligible for admission if they achieve a minimum QTAC Selection Rank based on other studies, such as vocational courses. Some courses have additional admission requirements; for example, some counselling and ministry courses require referees, a personal statement and, in some cases, an interview. All admission requirements and entry criteria can be found on the relevant course pages of the CHC website.

Commonwealth support and assistance

CHC has Commonwealth supported places available in its undergraduate and postgraduate initial teacher education courses. If you are an Australian citizen, an eligible New Zealand citizen who is an SCV holder or are the holder or former holder of a Permanent Humanitarian visa, you can access HECS-HELP for your Commonwealth supported place. For all other courses, FEE-HELP is available to Australian citizens, eligible New Zealand citizens who are SCV holders, and holders and former holders of Permanent Humanitarian visas.

Library +

The CHC Library + building is the hub of the CHC community. It holds a significant collection of research materials and is equipped with individual and group study areas, such as seminar rooms and open research spaces, to encourage and support student learning.

Student facilities

Computers and free wireless internet are available for student use, and individual Office 365 accounts provide easy access to emails and documents both on and off campus.

With Rivers Café onsite and peaceful bushland surroundings, there are some great places to study, catch up with friends or just chill for a while. In addition, the air-conditioned Student Common Room is a place to relax, with a kitchen with tea and coffee facilities, microwave ovens, fridges and vending machines, and a pool table and large-screen TV.

Student life

CHC offers support and activities that foster the community dynamic and nurture the growth of the individual academically, socially and spiritually. The Student Services team provides links to on-campus and community services, including free professional counselling and academic support services.

Whilst CHC does not have on-campus accommodation we can assist students to secure accommodation close to campus. For further information, email studentservices@chc.edu.au

At **CQUniversity Australia**, we believe higher education should be for everyone — no matter your postcode or educational background. That's why we offer a wide range of up-to-date, industry-aligned courses, from TAFE certificates right through to research degrees, online and across our many locations nationally.

Real-world opportunities

We've designed our qualifications alongside industry to prepare you with up-to-date, real-world skills—and we've been ranked in the top two per cent of universities globally for graduate employability*.
Our award-winning teaching professionals are widely experienced with a practical approach and dedication to continual course improvements.

250+ course options

You can choose from a wide variety of courses from areas including:

- allied health
- business and accounting
- creative, performing and visual arts
- digital media, communication and arts
- education, teaching and childcare
- engineering, built environment and aviation
- English and study pathways
- information systems and technology
- law, criminology and justice
- nursing, paramedicine and health
- psychology, social work and community services
- safety sciences
- science, environment and agriculture
- service industries
- trades.

Excellent graduate outcomes

Providing positive graduate outcomes is our core focus. As one of Australia's leading work-integrated learning institutions, with many outbound mobility programs and close partnerships with industry, our graduates are some of the most sought-after in Australia. In fact, we have excellent graduate outcomes, receiving a five-star rating for undergraduate full-time employment rates, and are ranked in the top three Australian unis for undergraduate starting salaries by the Good Universities Guide 2023.

Changemaker campus

We aspire to be the most engaged and connected university in Australia and have a strong focus on social innovation, empowering our students, staff and communities to make a difference through developing novel solutions to social programs. CQUniversity is recognised as Australia's first and only Changemaker Campus by the global social innovation group Ashoka U.

Study local at CQUniversity

Our seamless approach to education and wide range of online and on-campus training and study options means we have a location and course to suit you. We have locations throughout every mainland Australian state and are pioneers in distance education – now with 40 years of experience providing high-quality online learning experiences. So, whether you prefer to learn face-to-face, on campus by attending lectures, tutorials and workshops, or like to study when it suits you, with access to the latest in online learning techniques, CQUniversity has you covered.

Campuses

CQUniversity has campuses in Adelaide, Brisbane, Bundaberg, Cairns, Emerald, Gladstone, Mackay, Melbourne, Rockhampton, Sydney, and Townsville. We also provide a wide range of online courses with local support available at our partner Regional University Centres in many locations across Australia. Visit cqu.edu.au/locations.

Student accommodation

We offer on-campus accommodation options at CQUniversity Mackay and Rockhampton.

CQU Mackay student residences: Canefield College
Boasting modern residential facilities, you can choose between several room options, from individual rooms with ensuite and kitchenette facilities to those with shared kitchen and bathroom facilities. All rooms are individually keyed, air-conditioned and cleaned weekly. Internet access is available in each room, and laundry facilities are available in each block.

We have dedicated staff on site 24 hours a day, seven days a week, ready to support you.

CQU Rockhampton student residences: Capricornia College
The student residential facilities at CQUniversity Rockhampton provide accommodation options for up to 350 students. Set in park-like surroundings, the College is an easy walk to all University facilities, including the library and gym.

You'll have options to self-cater or enjoy all meals in the dining hall in a fully catered accommodation package. The facilities are fully maintained and cleaned weekly. All rooms are individually keyed, and the residence has an onsite manager and 24-hour live-in staff.
Visit cqu.edu.au/accommodation.

Student support services

Our commitment to ensuring that quality education is accessible to everyone sees us welcome students from diverse cultural backgrounds, geographic locations and socio-economic contexts and offer dedicated Indigenous student support, study support and student life activities.
Visit cqu.edu.au/student-life.

Entry pathways

At CQUniversity, our enabling and entry pathway options can help you gain entry into your preferred course. If you've studied a certificate III, IV or diploma, you may meet specified entry score requirements for a wide range of CQU degrees. Applicants who do not meet the entry requirements for their course can apply to study our Skills for Tertiary Education Preparatory Studies (STEPS) program. STEPS is a free, enabling course that provides a pathway to gain entry into and succeed at university. Visit cqu.edu.au/pathways.

Federation University Australia is a modern, progressive university committed to providing high-quality education across a national and international network of campuses. We aim to make a real difference in the life of every student as well as the communities we help build.

Why choose Federation University Australia?

- #1 in Australia for First-Generation Students*
- Granted 5 stars for Student To Teacher Ratios (20:1)*
- Top 5 in Queensland for Social Equality*
- Top 5 in Queensland for Skill Development for Undergraduate Students*

Federation University has been a provider of higher education for 150 years and offers several hundred programs across many fields of study and hosts several world-class research centers. As a modern, progressive university offering different levels of study, we have the perfect learning environment to make you feel right at home.

Federation understand that you need real-world experience along with your degree to achieve your goals. Federation University integrates real-world industry experiences into its programs, connecting students to leading Australian businesses. We partner with a range of organisations, such as River City Labs (RCL), to ensure you have access to real-life business challenges as part of your study program. As part of the RCL partnership, you are involved in troubleshooting real-world technical problems for startup businesses. This experiential learning component connects you with industry, supporting you to develop job-ready skills such as digital literacy, effective communication, project management, and more.

We recognise that coming to university is one of the biggest decisions you'll ever make. That's why we ensure we have the best support services in place. We pride ourselves on being an inclusive university with a focus on sustainability.
Our priority is to support you from the moment you arrive through to graduation and beyond.

Some of our support programs include:

- Dedicated Learning Experience Officers
- FedReady to help prepare students for university
- Student Mentors who will help welcome you to the campus in your first weeks of starting
- Peer-Assisted Study Sessions: Study sessions with students who have achieved high marks in subjects
- Disability support
- Aboriginal Education Centre

Admission and selection

At Federation University we believe in creating high-quality, skilled graduates, so whatever your background or experience may be, we encourage you to apply. Students may wish to apply using:

- higher education background, if they have studied previously
- work and life experience
- recent secondary school education
- ATAR, or
- previous study at a certificate III level or higher.

For more information on applying, including our new Early Offer Program, we recommend contacting QTAC or our Future Students team.

Study options

Federation University's Brisbane campus welcomes new students throughout the year in March, July and November. Each degree is carefully curated with links to industry and multiple hands-on learning experiences that give our students a competitive edge when searching for employment. Our flagship programs for 2023 include:

Bachelor of Information Technology and Bachelor of Information Technology (Networking & Security)
Develop strong communication, academic and problem-solving skills – critical attributes for success in the IT sector.

Alongside our flagship programs, we also offer a variety of short courses designed for online study which allow students the ability to upskill, anytime, anywhere.

Scholarships

Our scholarships and grants support people from all walks of life – helping build the communities we're proud to be part of. Thanks to generous government and donor funding, coupled with our strong industry ties, chances are you'll find an opportunity that's right for you.

Student and campus services

Life at university is exciting, but it involves change with a challenge or two along the way. To help meet these challenges, and to succeed, we have a range of student-focused programs, social activities and services that will help achieve the right work/life balance during your time with us.

Campuses

Located in the heart of Brisbane City our award-winning campus showcases tech hubs, transformational learning spaces and student lounges. Brisbane City Campus offers students a Premium Experience while studying, with dedicated Learning Experience Officers, Student Support Staff and dedicated Academics, our team is here to help you graduate. The Brisbane City campus is also located within walking distance of Central Station, public transport hubs, student accommodation, shopping and entertainment precincts. Our other campuses are located in Ballarat (Mt Helen), Gippsland and Berwick. We also offer programs online.

@griffithcollegeaus
/GriffithCollegeAUS

Griffith College has been helping students transition smoothly into university for over 25 years. With a Griffith College diploma, students are equipped with the academic skills and confidence required to succeed at university. Our expertise and experience allow us to provide our students with the opportunity to not only survive – but to thrive.

Our students benefit from small class sizes rather than large lecture theatres, and courses specifically designed to strengthen their academic and maths skills. Our dedicated student learning advisors offer study skills workshops and assessment consultations to provide students with all the support they might need to reach their goals.

Our team are very proud of the 25,000 Griffith College graduates who have successfully passed through our doors and on to their degree of choice.

Diploma to degree at Griffith University

Our university-designed diplomas mirror the courses taught in a bachelor's degree, so students can transition to university with confidence. Upon completion of our diploma programs, students receive the same number of credit points as they would in their first year of university study.* A three-year degree requires students to earn 240 credit points; our diplomas provide up to 80 credit points towards this total**.

This means most of our students are able to progress directly to the second year of their degree at Griffith University.

Griffith College students are welcomed as part of the Griffith University community and enjoy access to university facilities and services, including clubs, societies, and world-class sporting facilities.

Entry requirements (no ATAR needed)

Year 12 graduates are admitted regardless of their ATAR results and their ATAR eligibility (i.e., those not on an ATAR pathway can be eligible). Applicants with recent secondary education (in the last five years) receive entry when they have obtained a Queensland Certificate of Education (QCE), or equivalent from another state/territory or a certificate III or higher.

Preference the diploma to bachelor pathway in your application and receive an offer to move directly to university on successful completion of your diploma*.

Fast facts

- Guaranteed entry to Griffith University* with one packaged offer that covers diploma and bachelor study.
- Small class sizes and extra contact time with teaching staff.
- Study skills workshops and assessment consultations with student learning advisors.
- Additional maths support for STEM programs.
- Access to Griffith University services and facilities.
- A flexible trimester calendar with courses beginning in March, June and October every year.
- Two campus options — Mt Gravatt, Brisbane or Southport, Gold Coast.

Study areas

We offer 11 diploma programs that provide pathways into over 75 bachelor degree options at Griffith University:

- Business
- Criminology and Criminal Justice
- Design
- Educational Studies
- Engineering
- Health Care/Nursing
- Health Sciences
- International Tourism and Hotel Management
- Information Technology
- Science
- Social and Psychological Science

Academic support

Our comprehensive learning support framework gives you the best opportunity to succeed.

- Lecturer consultation
- Math support with embedded modules "Core Math Skills"
- Study skills and time management workshops
- Assignment help
- Peer-assisted learning
- Flexible learning with both face-to-face classes and livestreaming options

FEE-HELP

FEE-HELP and payment plans are available to eligible students for Griffith College diploma and associate degree programs. Contact Griffith College for more information or visit studyassist.gov.au.

Looking for more information?

Detailed information on programs, courses, support services, accommodation, fees and enrolment procedures can be found at griffithcollege.edu.au.

*On successful completion of a Griffith College diploma program and meeting Griffith GPA (grade-point average) entry requirements.

**Credit into Griffith University will depend on the degree and major chosen. Visit griffithcollege.edu.au for full progression outlines.

When you choose **Griffith University**, you're choosing a world-class education that will prepare you to thrive professionally and personally long after you graduate. Ranked in the top 2 per cent of universities worldwide, Griffith's degrees are developed in consultation with industry, based on cutting-edge research, and taught by Australia's most awarded teachers.

Industry experience

You'll get inside access to industry, with many Griffith degrees offering work placements, field trips and projects for real clients. Our domestic and international connections provide practical experience that helps to make sense of the knowledge you're gaining in the classroom, while also enhancing your job-ready skills.

Flexible study options

We're committed to giving our students as much flexibility as possible in how they participate in their studies. Depending on your degree, you'll have the choice to study at one of our five campuses in South East Queensland, online, or a combination of both— either part time or full time over two or three trimesters.

Scholarships

We offer more than 600 scholarships, and you may be eligible for one or more based on your background, chosen study area, hardships you've experienced or your achievements at school or work. Applying is easy and you can submit just one application for multiple scholarships.
Visit griffith.edu.au/scholarships.

Guaranteed Admission Scheme

Our ATAR and VET Guarantees offer certainty about future study options and ensure opportunities for students from a range of backgrounds. We guarantee admission to selected degrees to applicants with an ATAR 80+/IB 28+, ATAR 90+/IB 33+ or completed VET certificate III or above. The Year 12 Early Offer Guarantee offers school leavers guaranteed admission to 80+ Griffith degrees based on their secondary results and VET qualifications (AQF certificate III, IV).
Visit griffith.edu.au/guaranteed-admission.

VET pathways

Griffith recognises vocational education and training (VET) as a highly effective pathway to our University. We accept standalone VET qualifications completed at high school, private providers and TAFE Institutes for admission. Visit griffith.edu.au/vet.

Undergraduate diplomas

Undergraduate diplomas provide a supported start to your university studies and help you to transition to your chosen bachelor degree. Once you've successfully completed the diploma, you'll be offered guaranteed entry into the second year of the corresponding bachelor degree. You'll undertake your first year of study alongside your peers in the bachelor degree and finish your studies in the same amount of time, at no extra cost.
Visit griffith.edu.au/apply/undergraduate-diplomas.

Adjustment factors

We offer a range of adjustment factors to improve your chances of getting into your preferred degree. These include the Year 12 Subject Adjustment, Gold Coast and Logan Priority Access Pathway, the Nathan, Mt Gravatt and South Bank Community Engagement Scheme, Educational Access Scheme, and Elite Athlete Support Policy.
Visit griffith.edu.au/adjustment-factors.

Griffith Sports College

Griffith has one of the highest numbers of elite athlete students in the country. Through the Griffith Sports College, you can access support to help balance the high demands of elite sport with your university studies.
Visit griffith.edu.au/griffith-sports-college.

Griffith Honours College

If you're a high-achieving student and keen to enhance your university experience through mentoring, leadership roles, volunteering, research and community engagement activities, the Griffith Honours College can help you reach your full potential.
Visit griffith.edu.au/griffith-honours-college.

GUMURRII Student Support Unit

With dedicated centres on each campus, GUMURRII offers safe and culturally appropriate learning opportunities (including online) for all First Peoples students. Visit griffith.edu.au/gumurrii. First Peoples students who do not meet the standard admission criteria for their chosen program may be considered for admission via other pathways.
Visit griffith.edu.au/gumurrii/apply-to-study.

Campuses

Gold Coast campus
Centrally located in Southport and just minutes from world-famous beaches, the Gold Coast campus is Griffith's largest. It is home to world-class teaching and research in almost all study areas and state-of-the-art facilities including the Griffith Health Centre, aquatic centre and athletics track.

Nathan and Mt Gravatt
Nathan and Mt Gravatt campuses offer a range of exceptional sporting facilities (including aquatic and tennis centres at Mt Gravatt). Sporting teams and social clubs are available at both campuses.

South Bank campus
Located within Brisbane's cultural heart, the prestigious South Bank campus encompasses the Queensland College of Art, one of Australia's oldest and most advanced fine art and design colleges; the Griffith Film School—Australia's largest; and the Queensland Conservatorium, one of Australia's leading music schools.

Logan campus
Nestled between Brisbane and the Gold Coast, Logan campus has strong connections with the local community, hosting numerous sporting and cultural events throughout the year.

Student accommodation

On-campus student accommodation is available at the Gold Coast campus and is provided by Campus Living Villages. Visit campuslivingvillages.com/australia/gold-coast/griffith-university-village. We can also help you find a place to call home through our preferred accommodation partners. Visit griffith.edu.au/accommodation.

Student support

You'll be supported in every aspect of your studies. Whether you need learning, personal or financial support, we're here to help make your time at university a more manageable and memorable experience. Customised support is available for students from diverse backgrounds, as well as for students with disabilities.
Visit griffith.edu.au/student-services.

International students should visit griffith.edu.au/international for information on applying to study at Griffith.

James Cook University creates a brighter future for life in the Tropics through graduates and discoveries that make a difference. As a JCU student, you'll be equipped with the knowledge, skills and experience to make a positive impact in urban, regional, rural and remote communities.

More than 21,000 students, including 6,600 international students, are enrolled in a variety of programs at JCU. Courses have a strong focus on producing career-ready graduates. Throughout your degree you'll develop professional skills and gain in-depth knowledge through a wide range of practical, hands-on learning experiences. Small class sizes provide access to world-class lecturers and researchers, giving you the support to succeed.

Study areas

JCU's comprehensive range of courses spans a diverse set of study areas at both undergraduate and postgraduate levels.

Our study areas include:

- arts and social sciences
- biomedicine
- business
- dentistry
- education
- engineering
- environmental management
- healthcare sciences
- information technology
- law
- marine science
- medicine
- nursing and midwifery
- occupational therapy
- pharmacy
- physiotherapy
- planning
- psychology
- public health and tropical medicine
- science
- social work
- speech pathology
- sport and exercise science
- tourism
- veterinary and animal science.

Courses in tropical health and medicine encourage the development of skills in serving regional and remote communities across Australia and the world. Courses in tropical environments and societies equip graduates to develop stronger economies and to pioneer innovation for a range of communities.

There's a place for you at JCU

JCU offers a range of flexible study options available across main campuses in Brisbane, Cairns, Singapore and Townsville. Options are also available to study at our campuses in Mackay, Mount Isa, Rockhampton and Thursday Island.

JCU Cairns, Nguma-bada campus, Smithfield and JCU Townsville, Bebegu Yumba campus, Douglas offer access to spectacular natural wonders, including the Great Barrier Reef, Daintree Rainforest and the Outback. You'll get to dive into hands-on learning, placements and projects in some of the most fascinating locations on Earth. You could travel to remote communities in a light aircraft, learn in our Classroom on the Reef or conduct research in the rainforest with the richest biodiversity in Australia.

With a picturesque river precinct and an array of cultural and entertainment options, Brisbane is regarded as one of the most liveable cities in the world. JCU Brisbane students receive a world-class education in Australia's fastest growing capital city for employment.

A constantly evolving city, Singapore is at the forefront of global health, technology and economic advancement. JCU Singapore boasts cutting edge facilities, collaborative learning spaces and internationally renowned lecturers to help you succeed every step of the way.

Why JCU?

A five-star experience
We are independently rated five stars for full-time employment outcomes, starting salary, and student-teacher ratio for undergraduate and postgraduate students*. Excel in your studies and future career through the support of academics and staff committed to student success. The careers team at JCU provide knowledge and support for your dream career, from seeking out positions to helping with your resume and applications throughout your studies.

This is Uni… but not as you know it
Field trips, clinical placements, practicums, and internships — no matter what you study, JCU provides opportunities to build your knowledge and skills base. Gain hands-on experience in outback cattle stations, remote health clinics, the heart of the Daintree Rainforest and the depths of the Great Barrier Reef.

Ready today, for tomorrow
Kickstart your career through study incorporated with real-world practice. JCU prioritises practical experience and our academics maintain strong industry links that provide you with extensive placement opportunities. You'll gain valuable work experience and build a network of leading industry professionals in your field. Transition into the workplace with the practical skills and knowledge you need to succeed.

Student accommodation

You can choose from a variety of on-campus and off-campus housing. JCU Townsville offers five on-campus accommodation options for up to 1,200 students. The John Grey Hall provides Cairns students with accommodation that has spaces dedicated to both study and recreational activities. Visit jcu.edu.au/accommodation to discover more.

Support to succeed

You don't have to face your fees alone. Explore the range of financial support available to JCU students. Scholarships, bursaries, and grants are offered to assist financially, and we have a variety of options for students starting their first degree at JCU. Find out more at jcu.edu.au/scholarships.

Indigenous Education and Research Centre

The team at the Indigenous Education and Research Centre (IERC) are here to support you from the time you start thinking about studying right through to graduation and beyond. The IERC offer a range of services and facilities in encouraging environments to empower you to achieve success. From academic coaching and free tutoring to informal gatherings and community events, the staff and Indigenous Student Support Advisors at the IERC offer help that you can rely on.

@qutrealworld

QUT will set you up for a bright future with the skills, knowledge and connections to help you find your version of success.

Real-world courses

Study a course that gives you real experience alongside the theory so you can face the future with confidence. At QUT you'll use industry-standard equipment in labs and clinics. Work on real projects. Undertake work experience and make connections with employers. Bring your ideas to life by developing your entrepreneurial mindset and practice.

We offer more than 220 degrees in architecture and built environment, business, communication, creative industries, design, education, engineering, health, information technology, justice, law, mathematics and science. You can study on campus or choose an online course. Our wide range of double degrees gives you greater variety in your study and a competitive advantage in your career. If you're looking for a pathway option, consider a QUT College diploma for direct entry to several of our degrees.

Your QUT qualification will be well regarded in Australia and around the globe. We are ranked third in Australia and 21st in the world's best young universities (Times Higher Education Young Universities Rankings 2022).

Two inner-city campuses

Our Gardens Point and Kelvin Grove campuses offer you high-quality facilities in central Brisbane with easy access to public transport.

Inspiring learning spaces include the QUT Centre for Robotics, Creative Industries Precinct and Education Precinct. Experience state-of-the-art labs for everything from biomechanics and immunology to biofuels and supermolecular chemistry. Depending on your study area, you'll have access to the QUT Law Moot Court, the Economics and Finance Bloomberg Lab, and the QUT Health Clinics where our students work with real patients under the supervision of health professionals.

Your student experience

Study in a culturally diverse and inclusive environment with opportunities to build lifelong connections. Choose from more than 120 clubs and societies or get involved in events such as TEDxQUT and the Dragon Boat Regatta. Participate in competitive or social sport, including esports. Gain skills for the future through volunteering, peer programs and leadership opportunities.

Scholarship opportunities

We offer many scholarships for students including academic or creative high achievers, elite athletes, budding entrepreneurs, and students from a low-income background or who identify as Aboriginal or Torres Strait Islander or are studying a particular course.
Visit qut.edu.au/scholarships.

Student accommodation

Our central location means there are many accommodation options near campus. QUT's accommodation service can help with advice and an accommodation database.
Visit qut.edu.au/study/relocating.

Year 12 Early Offer Scheme

This scheme provides more certainty about your future with an offer to study at QUT before you receive your ATAR or IB Diploma. If eligible, you'll receive an offer for your QTAC first preference the day you complete Year 12. More than 50 single and double degrees are included.
Visit qut.edu.au/study/early-offer.

Indigenous Australian success

The Oodgeroo Unit offers the Centralised Assessment and Selection Program, a culturally supportive admissions pathway for Australian Aboriginal and Torres Strait Islander people. We also provide tutoring and cultural support.
Visit qut.edu.au/about/oodgeroo.

Match My Skills quiz

Find a course that suits you. Take the Match My Skills quiz and we'll deliver a personalised list of careers and courses that are perfect for you, plus ideas on future proofing your career.

/SAEInstituteAUS

@sae_institute_australia

SAE Creative Media Institute is the leading global specialist in creative media education with courses in animation, audio, design, film, games, music and creative industries.

Established in 1976, SAE now has campuses worldwide. In Australia, SAE has campuses in Brisbane, Byron Bay, Sydney, Melbourne, Adelaide and Perth. SAE offers government-accredited courses including certificates, diplomas, associate degrees, bachelor degrees and postgraduate programs.

From day one at SAE, students start creating in world-class facilities, on the latest software and equipment, under the guidance of expert lecturers.

SAE offers fast-tracked degrees, with options to complete your bachelor's degree in two years (studying full-time). The extensive knowledge of the teaching staff, who are accomplished professionals in their fields, and the rigorous curriculum, gives students a competitive edge after graduation. Small class sizes, one-on-one and tailored learning, and interdisciplinary collaboration enable students to gain a range of skills and experience in creative media.

Students graduate industry ready, after thorough training and hands-on experience, they are ready to enter the creative industries work force.

SAE's specialised courses are responsive to the dynamic and evolving nature of these industries. During their studies, students can undertake professional placements, internships and work experience relevant to their chosen fields, and showcase their work to industry and the general public at various exhibitions.

Entry requirements

At SAE we consider your creative potential and commitment to the Creative Industries, not just your academic history. This is why you don't need a minimum ATAR to study with us.

Visit sae.edu.au/how-to-apply/domestic-entry-requirements for more information on entry requirements.

Student support services

SAE has a range of services to support students during their studies. The Student Services team assists with learning support, administration support and student wellbeing, as well as supporting students with disabilities.

Payment options

SAE offers flexible payment options including payment plans, as well as access to FEE-HELP and the Scholarships Program.

Facilities

Located in Brisbane's creative hub in West End, the campus facilities include:

- Seven large digital and analogue recording studios
- Four live recording rooms
- Premium industry consoles including the Neve Custom Series 75 and Avid S6
- Industry standard Cyclorama film studio
- Large multi-purpose soundstage
- 5.1 Surround Post-production editing suite with attached vocal booth
- After-hours computer labs with the latest creative media software
- Film theatrette with cinema seating
- Oculus Rift, Quests and HTC Vive virtual reality headsets
- Professional standard cinema camera equipment and accessories
- Student Learning Centre
- Industry standard animation and design equipment including DSLR Cameras & Wacom graphics tablets
- On-campus cafe

Visit sae.edu.au/campuses/brisbane for more information about the facilities.

Early entry program

SAE offers an early entry program, Launchpad, that allows Year 12 students to apply for their tertiary studies with SAE before the final school results are released.

More information

If you're keen to kick-start your creative career, find out more at sae.edu.au.

Interested in seeing what our talented students are working on? Check out our Youtube Channel by searching SAE Australia.

SOUTHERN CROSS UNIVERSITY

POST Future Students, Southern Cross University
PO Box 157, Lismore, NSW 2480 Australia
PHONE 1800 626 481
ENQUIRE futurestudent@scu.edu.au
WEB scu.edu.au

/southerncrossuniversity
@SCUonline
/UniSCU
@southerncrossuniversity

At **Southern Cross University,** we are driven by a clear purpose: to change lives through revolutionary learning and research with real impact. Our game-changing education model is focused on active, immersive learning and increased student success with an innovative calendar of six-week terms.

The University is world-ranked, with outstanding facilities located in stunning natural environments. Established in 1994, Southern Cross University has three main campuses at Lismore, the Gold Coast and Coffs Harbour. A unique partnership with Mulpha Australia enables study at The Hotel School in Sydney, Melbourne, Brisbane and on Hayman Island. Branch campuses also operate in Sydney, Melbourne and Perth in partnership with EduCo, and the Coomera Creative Campus in partnership with TAFE Queensland.

We continue to break new ground with world-leading research activity in fields like coral reproduction, biogeochemistry and agriculture, producing knowledge that has an impact not just in the regions where the university is located, but all over the world. Together, we are Transforming Tomorrow.

Gold Coast campus
Our Gold Coast campus is located at Coolangatta, just 400 metres from North Kirra Beach. Many vantage points from the campus buildings offer stunning views of the Pacific Ocean. The campus is spread across three multi-level buildings that house innovative learning spaces, health science laboratories, computer labs, student lounges, the University's Digital Enterprise Lab and an on-campus Health Clinic.

At the Gold Coast campus you can study: Arts and Humanities, Business and Enterprise, Education, Engineering, Nursing, Midwifery, Biomedical Science, Osteopathy, Psychology, Occupational Therapy, Speech Pathology, Sport and Exercise Science, Naturopathy, Information Technology, Law, Social Work and Community Welfare as well as Contemporary Music, Digital Media and IT at our Coomera Creative Campus that operates in partnership with TAFE Queensland.

Northern Rivers campus
Lismore is the foundation Southern Cross campus, located in the heart of the Northern Rivers on acres of lush rainforest that is also home to abundant native wildlife and a koala hospital. The campus is within easy reach of beautiful national parks and beaches at Byron Bay, Lennox Head and Ballina.

The campus has state-of-the-art creative studios, engineering and environmental science facilities, specialist health labs and simulated hospital wards, a Learning Centre and library complex, on-campus accommodation, a gym, heated pool and an on-campus Health Clinic.

At the Lismore campus you can study: Arts and Humanities, Business and Enterprise, Education, Engineering, Nursing, Osteopathy, Naturopathy, Sport and Exercise Science, Indigenous Knowledge, Contemporary Music, Digital Media, Art and Design, Science and Environment, and Regenerative Agriculture.

Coffs Harbour campus
Our Coffs Harbour campus is part of an innovation hub, within easy reach of the ocean, international sporting facilities and a regional airport. An advanced Health Sciences Building features a biomechanics running track and high-tech simulation teaching laboratories, surrounded by extensive green spaces and sporting fields. The campus has on-campus accommodation and a gym, library and student lounges.

The University's National Marine Science Centre is also located in Coffs Harbour, on the shores of the Solitary Islands Marine Park, and is one of Australia's leading facilities for marine science teaching and research.

At the Coffs Harbour campus you can study: Marine Science, Education, Nursing, Midwifery, Sport and Exercise Science, Psychology, Occupational Therapy, and Speech Pathology.

Key dates

Orientation: February, June, October 2024
Teaching starts: March, July, November 2024
Open Days: Gold Coast 6 August 2023; Lismore 10 August 2023; Coffs Harbour 13 August 2023. Online from 7 July 2023: discover.scu.edu.au

For more information on key dates, visit scu.edu.au/teachingcalendar.

Courses with special entry procedures/ tertiary prerequisites

All Southern Cross University undergraduate education courses require applicants to complete a non-academic requirements statement as part of their application; visit qtac.edu.au/teacher-entry.

The Bachelor of Contemporary Music requires an audition. All applicants for The Hotel School are selected on their individual merit and may be required to attend an interview.

Online study

Southern Cross offers many courses online through direct application. Visit scu.edu.au/online

Aboriginal and Torres Strait Islander applicants

Indigenous Australian applicants who believe they may not meet the usual admission requirements are invited to a testing and assessment program for consideration for admission to their preferred course. For information, contact Indigenous Australian Student Services (IASS) by email at iass@scu.edu.au or phone 1800 626 481.

Recognition of prior learning

There are a variety of reasons prospective students could gain credit towards their study, including recognition of prior learning and industry experience. Southern Cross University recognises qualifications from TAFE institutes and other educational providers in formal agreements that grant advanced standing towards a number of courses. Visit scu.edu.au/advancedstanding.

Facilities

Discipline-specific facilities vary at each campus. General student facilities also vary at each campus but may include food outlets, bookshops, gymnasium and sporting facilities, swimming pool, health clinic, and banking facilities.
Visit scu.edu.au/campuses.

Student accommodation

All the University's campuses provide a list of off-campus accommodation available in their area. There are on-campus residential colleges at both Lismore and Coffs Harbour campuses.
For details, visit scu.edu.au/accommodation.

Student support services

Academic support is available to all students through appointment, workshops and online resources. Programs such as UniMentor and Study Buddi also offer peer-to-peer support. Students can access a range of other supports include career advice, counselling services and other health services. Free and confidential support services are available for students with a disability. The University also has a range of equity programs including a LGBTIQ+ Ally Network and annual Fusion Festival to celebrate our diverse communities. Southern Cross University is an inclusive and culturally safe work and study environment. For a full list of student support services, visit scu.edu.au/studentsupportservices.

WEB tafeqld.edu.au

/TAFEQueensland
@tafeqld
/TAFEQueensland
@tafeqld

TAFE Queensland is the state's largest and most experienced training provider, delivering practical, industry-relevant courses to more than 125,000 students each year.

Our courses are taught by highly-qualified teachers who have experience in their fields and are passionate about sharing their industry knowledge with the next generation.

Our flexible study options mean you can choose to study at over 50 locations across the state, online, or through your workplace.

Courses

TAFE Queensland offers more than 500 courses ranging from short courses, certificates and diplomas through to advanced diplomas, associate degrees and even bachelor degrees. Our courses focus on giving you the practical skills and knowledge you need to succeed in your chosen industry.

We offer courses across a comprehensive range of study areas including business and IT, creative industries, education and community, environment and animal services, health and science, infrastructure and transport, and service industries.

As the state's most experienced provider of trade courses, TAFE Queensland also delivers apprenticeship and traineeship training in all major trades as well as engineering and building design diplomas for students wanting to build a career in the construction industry.

Pathways to university

We have partnerships with a number of leading Australian universities who share the common goal of providing degrees that combine strong practical skills development with rigorous academic learning. This makes TAFE Queensland a great pathway to university, no matter what your career goals.
With our diploma-to-degree pathways you can earn up to 12 months credit transfer towards a university degree, as well as improve your QTAC selection rank.

You can take advantage of this pathway and guarantee your place in a TAFE Queensland diploma and your preferred university degree with just one QTAC application by applying for one of our dual award courses. This allows you to complete a diploma at TAFE Queensland and then transfer directly to university to complete your bachelor's degree, giving you the best of both worlds.

Degree options

Collaborating with The University of Canberra and Southern Cross University, TAFE Queensland delivers degrees in creative industries, digital design, IT, dental prosthetics, civil engineering, and business on its purpose-built campuses in Brisbane and the Gold Coast.
Our degree programs allow students to graduate with a university degree as well as the hands-on skills of a vocational qualification. Full details of our degree options can be found in the Courses section of this Guide.

Entry requirements

Applicants must have completed Year 12 or attained Year 12 leaving age to apply for the majority of TAFE Queensland courses through QTAC. Entry requirements for TAFE Queensland courses not offered through QTAC are available by contacting TAFE Queensland.

Most art, music, and performing arts diplomas, advanced diplomas and degrees require portfolio, audition, or music demonstration submission for entry. These entry requirements are outlined in the course entries in this guide. The final date for applying and changing preferences is 1 December 2023 for Semester 1, 2024 and 13 May 2024 for Semester 2, 2024.

Student facilities and services

The training facilities at TAFE Queensland are second to none. As a TAFE Queensland student you'll study in the same facilities used in industry including photography studios, automotive workshops, commercial kitchens, dental clinics, engineering workshops, recording studios, simulated nursing wards, art studios, beauty salons, and open-to-the-public gyms. In addition, our partnerships with local employers give students valuable opportunities to combine their studies with practical work experience in actual workplaces.

TAFE Queensland provides a range of dedicated services to support our students with their study, employment and personal needs. Services include career guidance, counselling services, learning support, library services, as well as specialised support for Aboriginal and Torres Strait Islander students, and students with a disability.

Our community

Welcome to The University of Queensland (UQ) – where you can thrive personally and academically in a community that values equity, diversity and inclusion.

Discover a place at UQ where you truly belong, whether you're a member of the LGBTIAQ+ community, identify as Aboriginal or Torres Strait Islander, come from a diverse cultural or linguistic background, have a disability, or are still figuring out who you are. Feel heard, acknowledged, and appreciated while adding your distinct personality to our thriving student community.

A world top 50 university

UQ is ranked in the world's top 50 universities, with a strong focus on teaching excellence and research. Our passionate and engaging lecturers aim to spark curiosity and inspire students to create change, and our ambitious researchers prove that we can transform the world around us. We also embed an entrepreneurial mindset in everything we do, and encourage our students to think big, be bold and act upon their ideas.
Visit study.uq.edu.au/why-choose-uq.

A wealth of opportunities

UQ is a globally connected university. We partner and collaborate with a huge range of institutions and organisations around the world. You'll have opportunities to study overseas and embark on international field trips and internships, jetting off to places like Tokyo, Buenos Aires, London and San Francisco. There are also opportunities for you closer to home, with summer and winter research programs, mentorship and volunteer experiences, and employability workshops.
Visit employability.uq.edu.au.

Student life

The student experience is a huge part of university study. At UQ, you'll meet exciting new people and make lifelong friendships. You'll have the chance to attend concerts, cultural festivals and parties, join student-run clubs and societies that match your interests and join a huge array of sports groups and competitions.
Visit study.uq.edu.au/university-life.

Campuses

If you want the full university student experience, you can't go past UQ's three beautiful, spacious campuses.

- St Lucia is our largest and main campus in Brisbane, where most of our programs are taught. It's a vibrant mix of sandstone buildings, modern architecture, parklands and lakes, and provides a perfect study, research and living environment.
- Gatton is our rural campus, located about an hour from Brisbane, where our agriculture, plant and veterinary sciences students learn. It offers a relaxed, friendly atmosphere with sprawling fields and a combination of historical and modern facilities.
- Herston, located just 5km from Brisbane's CBD, is our specialist campus for health and medical teaching and research. Sharing premises with the Royal Brisbane and Women's Hospital and QIMR Berghofer Medical Research Institute, UQ Herston houses a vibrant clinical and research community.

Visit campuses.uq.edu.au.

Student accommodation

From on-campus residential colleges to off-campus student housing or privately rented houses and units, we can help you find accommodation that suits you and your lifestyle. Our on-campus accommodation provides a truly immersive university experience, second to none throughout Queensland. We also offer a guaranteed accommodation program to help students secure accommodation prior to arriving in Brisbane and commencing studies at UQ.
Visit uoq.life/accommodation.

Student support

Student support is as much about health and wellbeing as it is about study support. During your time at UQ, you may require emotional, financial, learning, personal and physical support. Sometimes you might just need a friendly face and some sound advice. UQ has an entire team dedicated to supporting you in all aspects of your new-found student life.
Visit my.uq.edu.au/student-support.

Scholarships

UQ has a range of scholarships designed to support students from all walks of life, both financially and academically. We offer equity scholarships to assist students from disadvantaged or under-represented backgrounds and residential scholarships to help with moving and living costs for those from rural and remote areas. We also offer Indigenous scholarships, sporting scholarships for elite athletes and specific study area scholarships. You might be surprised by what you're eligible for.
Visit scholarships.uq.edu.au.

ATAR guarantee

We offer guaranteed entry to most undergraduate programs based on minimum ATAR thresholds, giving you certainty when applying to UQ so you can focus on preparing for university.
Visit uoq.life/guaranteed-atar.

Open Day

Discover what your life could look like as a UQ student. Join us for Open Day at St Lucia campus on 6 August and Gatton campus on 20 August.

@torrensuni

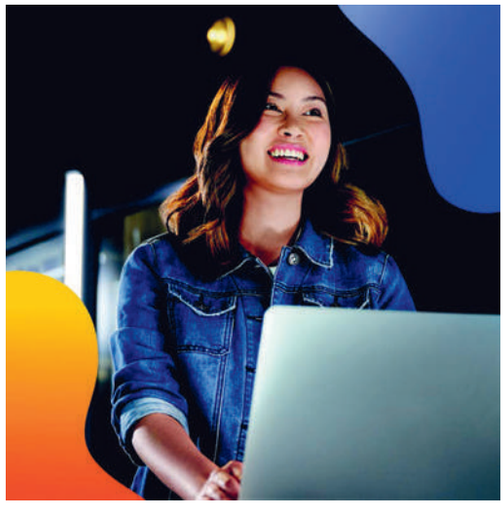
As the country's fastest-growing university, Torrens University Australia brings a fresh approach to higher education, with employability at the centre of everything we do. A progressive university that fosters passion, we take a strengths-based approach to teaching. Recognising individuality and potential as better indicators of future success than exam scores, we do not consider ATAR our primary entry requirement*. Our focus on transferable soft skills means everyone has the chance to achieve their academic and career goals.

Built on the strong foundations of our distinguished schools and colleges, such as Billy Blue College of Design and Blue Mountains International Hotel Management School, Torrens University offers undergraduate and postgraduate courses designed with and for industry.

Our future-focused courses in Business, Design and Creative Technology, Health and Hospitality are taught by leading experts and delivered on campus, online and as a blend of both. With locations in Sydney, Melbourne, Brisbane and Adelaide, our national campus network and flexible study options allow students to tailor their learning journey.

Academic staff and industry partners help students bridge the gap between study and work. Our small lecture sizes and personalised approach to teaching ensures students develop strong, relevant skills and thrive in their chosen field. We offer partnerships with industry, allowing students to complete practical experience with some of the most influential brands on the planet.

Accessing cutting-edge facilities and technology while gaining genuine insights in situations that reflect their future workplaces, students develop the competitive edge to help land their dream career. Many of our graduates secure employment at companies they've collaborated with or through connections they've made during their time with us. From enrolment through to graduation, students are supported every step of the way by a passionate network of Success Coaches. Offering guidance and encouragement, our coaches help students excel in their studies and create the right trajectory for their chosen career.



At Torrens University, we give students the tools they need to create their own success. Call 1300 575 803 or email futurestudents@torrens.edu.au if you would like one of our Future Student Advisors to visit your school.

Scholarships

At Torrens University Australia, we believe in the transformative power of education. It's our belief that everyone deserves an education – and that's why we support students' studies from start to success. Investing in them means investing in our future: the next generation of leaders and change-makers. Visit torrens.edu.au/studying-with-us/fees-scholarships/scholarships for the full range of scholarships.

Student support services

At Torrens University Australia, we take the needs of all our students seriously and provide support from the start of their course, all the way through to graduation. We offer a range of student support services, including counselling, academic assistance, career advice and workplace preparation. Our team of advisors and Success Coaches assist domestic and international students. Visit torrens.edu.au/studying-with-us/student-services-support for more information.

Open days

Fortitude Valley:
Saturday, 12 August 2023

Virtual Open Days:
Tuesday, 15 August 2023
Saturday, 19 August 2023

Visit torrens.edu.au/whats-on/open-day for further details.

Campuses

Located throughout Australia, our dynamic, purpose-built campuses set Torrens University apart. Students may choose to start their studies in Sydney, transfer to Melbourne and complete some or all of their final-year subjects online. Visit torrens.edu.au/campuses

Entry pathways

At Torrens University Australia, we know everyone's different. Our job is to help students explore their strengths and kickstart their careers. Since we value passionate humans, not perfect performance, we no longer consider ATAR as our primary entry requirement – because we know it's passion that unlocks potential. Reach out to one of our Future Student Advisors to discuss pathway options.

Career Crush quiz

This five-minute quiz matches students' strengths to compatible course and career options. Visit torrens.edu.au/career-crush

Studying at UNE

On campus
At the University of New England (UNE), you get more than a degree, you get a complete university experience: a vibrant, supportive community, small classes, and easy access to your expert lecturers. This means that you get every opportunity to reach your potential and get the very best start (plus some great memories along the way).

UNE remains one of the few universities to provide the complete on-campus experience, combining affordability, student support and community, as well as extensive sporting facilities. Study with UNE and see why we get the maximum five-star rating from graduates for Overall Experience in The Good Universities Guide 17 years in a row.*

Online
Future Fit your life
At UNE we know it takes more than being online to be a great online university. It takes time, and a lifetime's experience. We pioneered distance education for working adults back in the 1950s. And we've been perfecting it ever since. Our mission is to help ordinary people Future Fit their life in response to the rapidly changing world in which we live.

We now have more than 18,000 online students studying over 170 online courses.
We provide 24/7 tutor support and even our exams are online. We have three teaching periods (trimesters), commencing in February, June and October, giving students greater choice about when and how much they study each year.

Pathways

If it's been a while since you last studied or if you don't have entry qualifications, UNE offers a range of pathways to help get you on your way, including the: Pathways Enabling Course; Undergraduate Certificates in a variety of areas; selected discipline specific Diploma courses as pathways to Agriculture, Business, Information Technology, Science or Law; or the TRACKS Tertiary Preparation for Aboriginal and Torres Strait Islander students.

The Pathways Enabling Course is studied fully online, has no tuition fees and will give you entry and credit to most undergraduate degrees at UNE.

Visit une.edu.au/pathways for more information or call 1800 818 865

Aboriginal and Torres Strait Islander applicants

UNE's Oorala Aboriginal Centre provides coordinated academic services and study facilities for Aboriginal and Torres Strait Islander students. Oorala also offers dedicated pathways to Aboriginal and Torres Strait Islander applicants seeking admission to UNE. The Internal Selection Program is a one-day testing and assessment program which focuses on each participant's study skills and career goals.

Following an interview, participants are recommended for admission to either mainstream UNE courses or the TRACKS Tertiary Preparation Program and advised on suitable alternatives for study in their chosen field.

The TRACKS Tertiary Preparation Program is a flexible, on-campus or online university preparation course. The program provides Aboriginal and Torres Strait Islander students with the opportunity to access and explore tertiary education, while also developing the skills required for undergraduate study. Successful completion of TRACKS will provide entry into an undergraduate degree program. To find out more, visit une.edu.au/oorala.

Selection rank adjustments

UNE will increase your selection rank by a maximum of five points across the following categories:

Equity adjustments – for students who have experienced long-term educational disadvantage. Submit an EAS application through QTAC. Visit qtac.edu.au/educational-access-scheme for more information.

Location adjustments – for students who live in regional, rural and remote locations. Adjustments are applied automatically to a QTAC application. Adjustments are not applied to applications for B Laws (3 years), the Joint Medical Program and B Music or where the maximum adjustment has already been applied for any other reasons For details, and a link to an eligible postcode look-up tool, search for 'adjustment factors' at une.edu.au.

*The Good Universities Guide Ratings 2007–23. The Good Universities Guide provides the only independent performance ratings of Australian undergraduate courses and their providers.

@unisqaus

For over 55 years, we've been giving more people access to inspiring learning experiences, collaborating to share knowledge and create real, positive change for both people and our planet. This is your place to excel.

UniSQ is leading the way for online and blended education, by adapting to the bright minds that study with us – even if they're hundreds of kilometres away from our Toowoomba, Springfield or Ipswich locations.

That same drive to adapt – to find new ways to make positive progress – energises our campuses. It inspires our research and partnerships to keep innovating. To find the outcomes the world needs most. Our students embrace university life – not only because of the experiences they're given access to everyday, but because of the opportunities they have to make an impact.

So regardless of whether you choose to study on campus or online, you can be sure of one thing. This is the place for you to do incredible things – empowering yourself begins with choosing to study one of UniSQ's 150 degrees. And no matter how you're driven to make a difference, we're excited to welcome you.

Put ambition into action

We all take different paths to a rewarding career. At UniSQ, those differences in how you learn and grow are just as crucial as the differences we can make collectively. We offer a range of career-ready opportunities both in and out of the classroom, including access to industry mentors, free career planning advice with our qualified Careers Advisors, access to online work-ready webinars and workshops, and opportunities to enter a range of industry-connected internships, cadetships, and work experiences. As a UniSQ student, you'll graduate with the skills you need for the best possible career.

Scholarships

At UniSQ, we want every student to have a chance to reach their potential – a scholarship could help you get there with a little more ease. We offer scholarships to outstanding students who have demonstrated academic excellence, leadership and contributed to the wider community. Scholarships are also available to help students navigate the costs of university study.

The best part? You can apply for more than one, so be sure to apply for all that you are eligible for. Find your scholarship at unisq.edu.au/scholarships.

Take a different path to your degree

We understand that everyone's path to university is different. If you didn't study for an ATAR, your goals have changed, or if it's been some time since you studied, our pathway programs can get you your place at university.

At UniSQ, your pathway to uni is tailored to your skills, experience and the degree you want to study. We have various entry pathways to reach your dream degree, whether you don't meet entry requirements, are studying later in life, or are from a non-English-speaking background. Find your pathway to a UniSQ degree at unisq.edu.au/pathways.

Student life outside the classroom

There's so much more to uni life than study. Get involved, build your skills, and connect with your fellow students with more than enough student events to keep you busy throughout the year. Clubs and societies are also a core part of student life at UniSQ. Join one of many UniSQ clubs and societies on offer, or create your own based on your interest area. Learn more at unisq.edu.au/life.

Student accommodation

Enjoy the full on-campus experience with Residential College accommodation at our Toowoomba campus. Choose from three different colleges, each with different living arrangements, such as meals provided, or shared kitchen facilities. UniSQ's Residential Colleges provide convenient and affordable accommodation for both long and short stay periods.

A range of off-campus accommodation in close proximity to UniSQ's other campuses is also available. The Education City Residential Village located just 100 metres from UniSQ's Springfield campus provides students with modern townhouse accommodation options. Staff at our Ipswich campus can also assist students in finding a place to live nearby, with a range of independently owned and operated accommodation options readily available. For more information, visit unisq.edu.au/accommodation.

We're the **University of the Sunshine Coast (UniSC)**, a young, vibrant, and rapidly growing university driven by the belief that a supportive community and culture is equally important to a world-class education, delivered by world-class educators.

As a UniSC student, we've got your back from the moment you walk onto a UniSC campus to the day you graduate – and beyond. Among public universities, UniSC is number one in Queensland*, and in the nation's top two, for overall educational experience. And we have a five-star rating for teaching! (*2021 Student Experience Survey Data).

Our first campus opened in 1996. Today our teaching network spans five award-winning campuses across South East Queensland offering over 120 programs, removing barriers to education for more regional, first-in-family and mature age students. Our graduates are invaluable to their local communities, with seven out of ten UniSC graduates staying in the regions to contribute to their social and economic prosperity.

Our teaching and learning at UniSC is doing its job in preparing graduates to be creative and critical thinkers who are work-ready through hands-on, work integrated learning.

UniSC has some of the most advanced learning facilities in Australia, including simulated nursing and paramedic labs, a high-performance sport precinct, advanced engineering technologies, and a state-of-the-art CAVE2TM 3D visualisation studio.

UniSC is the world's only university operating within three UNESCO Biosphere Reserves and a UNESCO World Heritage Site, which means we are uniquely placed to capitalise on opportunities for learning, teaching and research that champions sustainability.

WHY CHOOSE USC?

A five-star student experience
Become part of a university that supports you. We're known for 5-star teaching, personalised learning and ground-breaking research with a sustainability focus. Being a young university means you're never going to be bombarded by stale traditions or hear phrases like "That's the way we've always done it."

We're building a safe, supportive and fun learning environment, where lifelong friends are made and opportunities are earned. Our diverse university community is made up of many people, with many stories, from different backgrounds, ages, cultures and geographical locations with a shared ambition of fulfilling their education and career goals.

Career-focused learning

We prepare graduates to be critical and creative thinkers who are primed to create massive impacts in their professional fields at home and abroad. Our approach to learning is hands-on, with lots of opportunities to engage with lecturers, fellow students and future employers through internships and work-integrated learning.

World-ready graduates

Employers consider UniSC graduates to be some of the most employable university graduates in Australia. 90 percent* of UniSC graduates are employed within four months of finishing their degrees. In our top performing study areas, this figure jumps to 95 percent. (*Quality Indicators for Learning and Teaching (QILT) Graduate Outcomes Survey 2022).

UniSC graduates join an impressive group of workers, thinkers and leaders across the globe who are making their mark in the fields of health, business, creative industries, science, engineering, education, law and social services.

A high-performance culture

We are committed to unlocking innovation and helping every student reach their full potential. Alongside their studies, our students excel in sport, music, entrepreneurship, performing arts, social change, and more.

We encourage and support high achievers through initiatives such as the UniSC High Performance Sport Program, which helps athletes achieve sporting and academic excellence.

Flexible study options

Our students don't need to leave home to get a world-class education. UniSC's five award-winning campuses are spread across South East Queensland – from Moreton Bay to the Fraser Coast – which means more regional students have study, research and employment opportunities right on their doorstep. We also offer flexible online study options.

Our campuses are lively, vibrant spaces where students, staff and community members can come together to learn, socialise, collaborate and share.

Overseas study

You can apply for up to two semesters of study at a variety of partner institutions around the world and earn credit towards your degree through UniSC's Study Overseas program. Scholarships are available for eligible students. Visit usc.edu.au/studyoverseas.

Student support services

At UniSC, we're committed to helping you succeed. Students can access a range of support services including academic and study support, mentoring programs, careers and employment services, counselling, financial support services, sexuality and gender support, disability services, and health, wellbeing and welfare services. The UniSC Student Guild provides social events, a second-hand textbook hub, accommodation register, and funding for clubs and societies. UniSC's Indigenous Services offers support programs and facilities tailored specifically to Aboriginal and Torres Strait Islander students.

For information about student support, visit usc.edu.au/studentsupport.

Student accommodation

UniSC provides information, resources, advice and referrals for accommodation and tenancy matters. Students can also access a free off-campus accommodation vacancy register.

UniSC Sunshine Coast has three privately owned and operated student accommodation villages offering fully self-contained share accommodation just a short walk from campus, public transport and the local shopping centre.

@bond.university

Bond University administers its own admission for all programs except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) (the Bond Medical Program); admission to this course is managed by QTAC. Students can apply direct to Bond through a free online application form for all other programs.

As an independent, not-for-profit institution, we exist for one reason: our students. All tuition fees are reinvested into the University to provide world-class facilities, state-of-the-art learning resources and ensure every Bond student has a personalised and standout educational experience. It is one of the reasons why, for 17 consecutive years, Bond has been rated Australia's number one university for undergraduate student experience in the Good Universities Guide.

Bond challenges students to be leaders and thinkers, combining globally focused course content with industry experience to set graduates apart and prepare them for rapid career progression.

At Bond, we operate on a three-semesters-per-year timetable that allows students to accelerate their studies, completing the average six-semester bachelor's degree in just two years instead of three, providing graduates with a valuable head start in the competitive careers market. Students thrive in smaller study groups where renowned professors and industry-experienced lecturers know them by name.

Bond's programs

Bond offers a range of diploma, undergraduate and postgraduate programs spanning the study areas of actuarial science and data analytics; architecture; business, commerce and entrepreneurship; communication, film and creative media; construction, property and planning; health, biomedical and sports sciences; international relations, politics and arts; law; medicine; project management and innovation; and psychology, criminology and social sciences. Explore our latest program and faculty guides at bond.edu.au/view-our-brochures.

Applying to Bond

Applications for all Bond's programs, except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) [the Bond Medical Program], must be lodged directly with Bond through our free, quick-to-complete online application form. If successful, you will receive an offer directly from Bond. For more information on Bond's application process, including timelines, visit bond.edu.au/apply.

For information on how to apply for the Bond Medical Program via QTAC, refer to the Courses section under Health.

Admissions criteria

A range of criteria may be applied when assessing applicant eligibility for admission to Bond. Our early offer system means that applicants still completing Year 12 can receive conditional entry based on their Year 11 results and first-semester results from Year 12. You can enrol in your program of choice when you receive the minimum required score (as stated in your offer letter) upon completing Year 12.

We also recognise a range of other post-secondary qualifications for admission, including the AQF Certificate IV or the successful completion of a semester of a bachelor's degree. If you do not meet the criteria for entry into your preferred program, pathway opportunities may be available. Get in touch with us via bond.edu.au/contact for more information and to speak to someone about your circumstances.

Our international student community

Bond University is a CRICOS registered provider (00017B). The Bond student community is made up of students from more than 90 countries and we welcome international applications for all CRICOS-registered programs, with the exception of the Bond Medical Program, which is only available to international students via pathway from Bachelor of Biomedical Science.

FEE-HELP

FEE-HELP is an interest-free loan from the Australian Government that helps eligible domestic fee-paying students pay their tuition fees and can be used for undergraduate, postgraduate coursework and research study. To access FEE-HELP, you must meet residency and other criteria. More information is available at bond.edu.au/fee-help.

Program fees

Refer to the program entries on QTAC's website for approximate tuition costs. Fees are subject to change on an annual basis. In addition to the Student Services and Amenities Fee, books and study materials, your chosen program may also require payment of additional compulsory costs such as uniforms, excursions or placement fees. More information on tuition fees and other costs is available at bond.edu.au/fees.

Scholarships

Bond University offers a generous range of full-fee and part-fee scholarships and bursaries. For more information on how to apply for a scholarship and application closing dates, please visit bond.edu.au/scholarships.

Offers

Offers for programs in this section are made directly by Bond University according to admission timelines. Applicants who have also applied for the Bond Medical Program listed in the Courses section of this guide may also receive an offer through QTAC.

@NYFAAustralia

New York Film Academy Australia (NYFA Australia) is a world-renowned visual and performing arts college based on the sunny Gold Coast and is part of an international community with NYFA campuses in New York City, Los Angeles, Miami, and Italy. NYFA Australia offers nationally recognised Diploma and Advanced Diploma programs, with pathways to complete a Bachelor's Degree at NYFA in the United States.

NYFA Australia offers hands-on, immersive programs in Filmmaking, Acting for Film, Screenwriting and Producing. NYFA Australia's innovative programs are designed for a new generation of storytellers who share a passion for visual and performing arts and desire hands-on experience in their chosen craft. NYFA Australia is the only film school in Australia to have a unique partnership with Warner Bros Movie World, offering students opportunities to shoot on location in a real world environment.

Why choose New York Film Academy Australia?

- Hands-on, immersive training in small classes
- Filming on location at Warner Bros. Movie World
- Industry affiliation with world-renowned Village Roadshow Studios
- Current industry professional instructors, with extensive credits
- Student access to industry standard equipment
- Access to NYFA Alumni community in the local screen industry
- Degree pathways to NYFA US campuses (New York, Los Angeles, Miami)
- Located on the Gold Coast, known as Australia's Hollywood

What Our Alumni Say:

"I get to do what I love, which is work on movies"
- Leroy Button, Filmmaking Alum

"The confidence I gained at NYFA Australia has propelled me forward in the industry and enabled me to be cast in many films"
- Brittany Bell, Acting for Film Alum

"University was just not for me. It was very theory-based. At NYFA Australia, we were busy actively making short films."
- Stephen Osborne, Filmmaking Alum

"Studying at NYFA Australia allowed me to create amazing bonds with the industry faculty and endless opportunities that followed with those bonds."
- Madison Jennings, Acting for Film Alum

Many NYFA Australia Alumni have gone on to have a variety of industry success, including working on some major Hollywood blockbuster productions such as: Fast & Furious 9, Elvis, Thor: Ragnarok, Godzilla Vs Kong, Aquaman, Mission Impossible: Dead Reckoning Part One, to name a few.

Year 12 Early Offer Program

NYFA Australia accepts applications from Year 12 students while they are completing their final year at school. No ATAR or previous experience is required for entry into our Diploma programs.

International Students

NYFA Australia is a CRICOS registered provider (03366A) and welcomes international students for all CRICOS-registered programs.

Fee Options

VET Student Loans are available for eligible domestic students. Refer to nyfa.edu.au/admissions/vet-student-loans.php for more information.

Scholarships

Talent-based scholarships are available for outstanding students in visual or performing arts studies, based on audition or creative portfolio review.

How to Apply

Visit NYFA.EDU.AU or call (07) 5555 1300.

Course	Location	Fee	Duration	Start Month
Diploma of Screen and Media (CUA51020)	Gold Coast	Fee	1F	Sep 2023 Feb 2024 Jun 2024 Sep 2024

Entry requirements: Satisfactory completion of Year 12 or equivalent; admission essay; interview.

Program Outline: Students are introduced to the 'learning by doing' model without years of theoretical study so they can achieve more in less time. The project-based learning gives students the best opportunity to develop technical skills and build lasting knowledge in their discipline. Students receive extensive mentorship from industry professionals and create a series of their own projects.

Program Note: Students who successfully complete the Diploma program are eligible to enrol in the Advanced Diploma of Screen and Media (CUA60620) in the same discipline.

Majors/Specialisations: Filmmaking, Acting for Film, Screenwriting, Producing.

Career Opportunities: Filmmaker, actor, voice actor, director, screenwriter, film/television producer, content creator, 1st AD, digital editor, colour grader, camera operator, cinematographer, multimedia designer, animator, visual effects artist, casting director, lighting technician / gaffer, grip, crewman, sound engineer, sound editor.

Course	Location	Fee	Duration	Start Month
Advanced Diploma of Screen and Media (CUA60620)	Gold Coast	Fee	1F	Sep 2023 Feb 2024 Jun 2024 Sep 2024

Entry requirements: Satisfactory completion of Year 12 or equivalent; admission essay; interview.

Additional entry requirements: Successful completion of Diploma of Screen and Media (CUA51020) in the specialised discipline at NYFA Australia or another registered provider. Minimum 2 years industry experience in relevant roles.

Program Outline: Following the completion of their Diploma studies, students master advanced techniques and develop industry-ready projects, expanding the student's creative abilities and making them more marketable when they enter the screen industry. Students also have the exclusive opportunity to train at our Los Angeles campus and experience hands-on production workshops on the prestigious Universal Studios backlot.

Program Note: NYFA Australia provides pathways to Los Angeles, New York or Miami to study a Bachelor or Master's Degree for eligible students who successfully graduate the CUA60620 Advanced Diploma of Screen and Media program at our Gold Coast location. Articulation is available for Australian universities.

Majors/Specialisations: Filmmaking, Acting for Film, Screenwriting.

Career Opportunities: Filmmaker, actor, voice actor, director, screenwriter, film/television producer, content creator, 1st AD, digital editor, colour grader, camera operator, cinematographer, multimedia designer, animator, visual effects artist, casting director, lighting technician / gaffer, grip, crewman, sound engineer and sound editor.

Industry Affiliations with Village Roadshow Studios & Warner Bros Movie World

All programs and workshops are solely owned and operated by the New York Film Academy Australia and are not affiliated with Village Roadshow Studios or Warner Bros Movie World.

Find course information, entry requirements and apply online at NYFA.EDU.AU

OTHER DIRECT ENTRY INSTITUTIONS

Applications for the following courses are to be made directly to the institutions, not through QTAC.

Refer to qtac.edu.au/course-search for more detailed course information and details on how to apply.

Glossary

Admission pathway: any option available to prospective higher education students that will enable them to meet the entry requirements of their chosen courses

Adjustment factors: often referred to previously as bonus points, these are additional points that may be used in combination with an applicant's ATAR or other rank to derive their adjusted selection rank. Adjustments only change ATARs or ranks for a particular course or courses

Advanced standing: a form of credit for any previous learning. Refer also to Recognition of prior learning (RPL)

AMEB: Australian Music Examinations Board

Associate degree: a qualification, usually involving two years of study, that gives students the basic technical and academic knowledge and skills needed for employment or further study in their chosen field

Assumed knowledge: the minimum level of achievement in Senior subjects considered necessary for successful first year tertiary study

ATAR: Australian Tertiary Admission Rank. The standard measure of a Year 12 student's overall academic achievement in relation to that of other students, expressed as a number on a 2000-point scale from 99.95 down to 0.00.

Bachelor's degree: a qualification usually requiring three or four years' fulltime or the equivalent part-time study

Bridging course: a course designed to cover subject knowledge, which helps students gain knowledge in specialist areas that are a core component of a course. If a course requires a prerequisite in an area that students have not studied, a bridging course will help students bridge the gap in that knowledge and gain admission

Campus: the grounds of a university or other higher education institution

Combined, double or dual degree: a degree combining two fields of study, resulting in the award of two degrees or one degree encompassing two fields of study

Competitive: having an ATAR or selection rank equal to or better than that required for entry

Course: a series of subjects required for and leading to the award of a qualification

Course duration: the length of time in months and years in which a course should be completed if studied on a full-time or part-time basis

CSP: Commonwealth supported place

Deferment: a process that allows you to delay the commencement of your studies

Direct application: an application made directly to a higher education provider rather than through a tertiary admissions centre

Distance education: study taken by students who are not physically present in a traditional setting such as a classroom. Refer also to External

EAS: Educational Access Scheme

Enabling course: a course designed to provide students with skills needed for success in further study, to assist in the transition to tertiary education; for example, study techniques or English language skills. Successful completion helps prepare a person to be admitted to a course that leads to a higher education award

Entry requirements: the requirements an applicant must meet to be considered for entry

External: a mode of study taken off campus. Refer also to Distance education

Gap year: a period, typically a year, taken by a student as a break between school and tertiary study

GPA: Grade Point Average

HELP: Higher Education Loan Program (formerly HECS)

Honours: advanced or specialised study, usually one year in duration, that students can take as part of or after a bachelor's degree if they have outstanding academic results

Institution: an educational organisation e.g. a university, college or TAFE

Location: the place a course is offered

Major: an area of specialisation that focuses on a particular field of study e.g. history

Merit: the two measures of merit are the ATAR and selection rank

Mixed mode learning: a mode of study in which students learn through a combination of classroom-based and self-directed online learning, and workplace activity

Offer round: a date on which offers of higher education places are issued to applicants, whether through a tertiary admissions centre or directly by a higher education provider

Postgraduate course: a course studied after an undergraduate degree

Prerequisite: an entry requirement, such as a subject, portfolio, audition or interview, that an applicant must meet before they are considered for entry

Professional award: healthcare qualifications, creative arts qualifications or membership of professional associations that may be awarded a selection rank

Program: refer to Course

QCAA: Queensland Curriculum and Assessment Authority

QCE: Queensland Certificate of Education

Quota: the estimated number of places available in a course

Recommended study: non-compulsory subjects that institutions suggest students take while at school to give them a better understanding of course content

Recognition of prior learning (RPL): a process used to assess an individual's relevant prior learning (including formal, informal and non-formal learning) to determine the credit that may be granted towards completion of a qualification. Also known as credit transfer

Selection rank: a numerical score between 99.95 (highest) and 0.00 (lowest) used to compare applicants for the purpose of tertiary entry

Specialisation: refer to Major

Student contribution: the amount a student must pay towards a Commonwealth supported place

Transcript: an official record of a student's academic performance issued by an institution

UCAT: University Clinical Aptitude Test

Undergraduate degree: a course such as an associate or bachelor's degree, usually undertaken by a student who has not previously graduated from university

VET: Vocational Education and Training

Your 6 Preferences

With QTAC, more preferences mean more opportunities to choose your future. When you are selecting your preferences, remember the first three times you click the 'save' button are free, but each time after this, you will be charged a change of preference fee.

Check if any of your preferences have fixed closing dates - if some of your courses close earlier than others, put the earlier ones higher on your list.

You can change your preferences both before and after an offer. Find out everything about preferences at qtac.edu.au/preferences.
