2023 GUIDE

Griffith UNIVERSITY
Queensland, Australia

OPEN DAY

SUNDAY 14 AUGUST 9 AM–2 PM

Gold Coast and Nathan

Join us at Griffith University's Open Day to get expert advice on your study options. You'll find information about our degrees, student support services, admission pathways, applying to study and scholarships. Plus, chat to our study advisers, academics and current students to learn all about what life is like at Griffith.

Register for updates: griffith.edu.au/open-day

Have questions? We are always here to help.

Call **1800 677 728** to speak to a Griffith study adviser, or chat with us online at **griffith.edu.au/student-chat**

USE OF THIS PUBLICATION AND DISCLAIMER

The objective of the 2023 *QTAC Guide to Further Study* is to provide prospective applicants to tertiary courses covered by the *Guide* with details of how to apply for each course. It also contains general information regarding course curricula and other course information. The *Guide* should not be used for any other purpose.

The *Guide* has been compiled by QTAC based on information available as at May 2022.
The information contained in this *Guide* is subject to change. Where QTAC is advised by participating institutions or institutions with direct applications of material changes to course or other information contained in this *Guide*, and if any changes to QTAC's timetable or procedures are required as a result of changes of which QTAC is aware, this information will be published on QTAC's website at qtac.edu.au.

Prospective applicants should therefore check QTAC's website prior to lodging an application for any course. For detailed course information, prospective applicants should contact the relevant institution and should not rely on this publication when making decisions or taking any action.

The *Guide* has been compiled and published by QTAC on behalf of participating institutions and institutions with direct applications and contains information provided by them and many other bodies. QTAC has not verified, and does not represent or warrant, that such information is accurate, complete or up to date.

The preparation and publication of the *Guide* is not, and should not be taken as, an endorsement by QTAC of any particular institution or course. QTAC disclaims, on behalf of itself, its officers, employees and agents, any liability for any decision made, or action taken, in reliance on the information in this publication.

ADVERTISING DISCLAIMER

QTAC does not necessarily endorse any product or service that may be advertised in this publication

TIMES AND DATES

Times and dates listed in this *Guide* are based on Queensland local time (GMT+10)

ATAR INFORMATION
YOUR AUSTRALIAN TERTIARY ADMISSION RANK

WHAT IS THE ATAR?

The Australian Tertiary Admission Rank (ATAR) is the standard measure of a student's overall academic achievement in relation to that of other students. It is intended to help tertiary institutions select applicants into their courses. The ATAR is a percentile rank, not a mark.
This rank indicates a student's position relative to other students in their age group in any given year.

An ATAR is expressed as a number on a 2000-point scale from 99.95 down to 0.00 in steps of 0.05.
The highest ATAR is 99.95, then 99.90, then 99.85, and so on, down to 0.00.

An ATAR below 30 is reported as '30.00 or less'.

ATAR ELIGIBILITY

To be eligible for a Queensland ATAR, you must:

- satisfactorily complete (i.e. achieve a minimum grade of C or higher) an English subject (Unit 3, Unit 4); English, English as an Additional Language, English and Literature Extension, Literature, or Essential English.
- Complete one of the three combinations:
  - five General subjects (Unit 3, Unit 4), OR
  - four General subjects (Unit 3, Unit 4) AND one Applied subject (Unit 3, Unit 4), OR
  - four General subjects (Unit 3, Unit 4) AND a complete VET qualification at Certificate III level or above
- Accumulate your results within a five-year period.

ENGLISH SUBJECT REQUIREMENT

While you must satisfactorily complete an English subject to be eligible for an ATAR, your English result will only be included in your ATAR calculation if it is one of your best five scaled results.

To satisfactorily complete a subject, you must attain a letter grade of 'C' or higher.

ACCUMULATED AND ACCELERATED RESULTS

Your ATAR is based on the aggregate of scaled results in your best five eligible subjects, irrespective of the year in which the subjects are completed.

Most students are expected to follow a traditional pattern of accumulating their results over two years of study in Years 11 and 12, with results at Units 3 and 4 achieved over the one year (Year 12).

To cater for students who are unable to undertake five subjects in one year, an ATAR can be calculated based on results achieved over five consecutive years. Completing one eligible subject each year over a five-year period should qualify you for an ATAR.

HOW IS THE ATAR CALCULATED?

Your ATAR will be calculated in three steps:

1. The Queensland Curriculum and Assessment Authority (QCAA) provides your Unit 3 and 4 subject results in General and Applied subjects and completed VET qualifications to QTAC.
2. QTAC scales these subject results and VET qualifications. This produces scaled results.
3. ATARs are then allocated to students based on the total (aggregate) of their best five scaled results.

Note: Only completed VET qualifications listed in your QCAA student learning account will be sent to QTAC. To check your account, visit: myqce.qcaa.qld.edu.au/

For more information on calculating the ATAR, visit qtac.edu.au/atar.

GOOD TO KNOW:

Your ATAR registration and your QTAC application are 2 separate processes:

Register for your ATAR at atar.qtac.edu.au

Start your QTAC application at applications.qtac.edu.au

ATAR INFORMATION
CONTINUED

ATAR AND ADJUSTMENT FACTORS

When your QTAC application is assessed, adjustment factors are added to the selection rank after ATARs are calculated, according to individual tertiary institution rules. **Adjustments do not change your ATAR**, but change your selection rank for a particular course at a particular institution.

Adjustments may be applied for factors such as performance in certain Year 12 and university subjects, living or attending school in a certain location, and consideration through QTAC's Educational Access Scheme (EAS). Refer to page 12 for information on adjustment factors and EAS. Adjustment factors are applied differently from institution to institution and from course to course. Visit each institution's website for more details.

VET QUALIFICATIONS FOR TERTIARY ENTRY

Completed Vocational Education and Training (VET) courses can be used for tertiary entry in two ways:

- VET included in the ATAR; **and/or**
- VET as a standalone basis of admission.

HOW VET IS INCORPORATED INTO THE ATAR CALCULATION

Each VET qualification level will have a single scaled result that can be included in a student's or your ATAR calculation.

That scaled result in any one year is the same regardless of the field of study, duration or content of the VET qualification. (e.g. Certificate III in Hospitality & Certificate III in Lab Skills = same scaled result).

VET AS A STANDALONE BASIS OF ADMISSION

Institutions may consider completed VET qualifications at Certificate III level and higher as a stand-alone basis of tertiary admission.
Visit qtac.edu.au/applications for institution specific schedules.

PERFORMING ARTS QUALIFICATIONS FOR TERTIARY ENTRY

Performing Arts qualifications such as AMEB awards are not eligible inputs into the ATAR calculation. However, some institutions may consider these qualifications as a stand-alone basis of tertiary study.

Visit qtac.edu.au/applications/ for institution specific schedules.

HOW TO GET YOUR ATAR

ATARs will be released via the online ATAR portal between 8am and 9am on 16 December 2022.
To receive your ATAR, **you must register** for access to the ATAR portal. Registrations open 2 August 2022.
Visit qtac.edu.au/atar for information.

QTAC applications for courses starting 2023 also open 2 August 2022. Applying for courses through QTAC is separate to registering for access to the ATAR Portal, refer to page 10 for details on how to apply for courses through QTAC.

If you are applying for tertiary study interstate, you should register for the ATAR Portal and by doing so, will provide the necessary consent for QTAC to share your ATAR with interstate Tertiary Admission Centres.

For specific questions about the ATAR, call the ATAR hotline on 1300 193 173 or email atar@qtac.edu.au.

QTAC Application Portal

ATAR Portal

TIPS:

- Check all VET qualifications are recorded as 'Completed' in your QCAA learning account by the end of November 2022.
- Contact the QCAA directly for issues related to the inclusion of VET qualifications.
- Completed VET qualifications that may not have been recorded in your learning account prior to the December ATAR calculation are processed by the QCAA and passed on the QTAC as amendments. QTAC will notify students if there is a change in their ATAR.

Visit myqce.qcaa.qld.edu.au for information.

COURSE ENTRY REQUIREMENTS
WHAT MAKES YOU ELIGIBLE FOR ENTRY

ELIGIBILITY

Institution admission criteria apply to every applicant for every course offered. The criteria can be different for each institution. These include:

- prerequisites, and
- institution admission rules.

PREREQUISITES

Prerequisites are entry requirements (i.e. senior subjects, audition, portfolio) you must meet before you are considered for entry.

SUBJECT PREREQUISITES

Subject prerequisites are subjects you must complete and achieve a specified result before you are considered for entry. The most common subject prerequisite is English (Units 3 and 4, C), which means you must study English and achieve a minimum grade of C or higher in Units 3 & 4. General English subjects to meet this requirement are: English, English as an Additional Language, Literature, English & Literature Extension.

Not all courses have subject prerequisites. Some courses have **assumed knowledge** and/or **recommended study**. If your course has assumed knowledge or recommended study, you can get in without having studied without having studied the particular assumed knowledge/recommended study subject. However, you'll probably find you're better off if you have studied it, because the institution will assume, or recommend, that you have the subject knowledge.

OTHER PREREQUISITES

Some courses have other prerequisites (i.e. creative and performing arts have interviews, portfolios or auditions that you must pass first). Other courses may have a prior tertiary study prerequisite, meaning you need to have already completed another course, like a diploma or bachelor's degree, to gain entry.

You can find prerequisites for courses starting in 2023 in the Courses section of this *Guide*.

INSTITUTION ADMISSION RULES

- **English language proficiency**—if English is not your first language, you must demonstrate you can speak, write, read and comprehend English to a standard set by the institution. Some courses with accreditation and/or registration requirements (e.g. nursing and education courses) require you to have completed your secondary studies or other qualifications in a specified country, as well as completing your studies in English.
  Visit qtac.edu.au/english-language-proficiency for institution specific requirements and accepted tests, if required.
- **Age requirements**—for some institutions, you need to be a certain age before you can study there. Visit qtac.edu.au/minimum-age-requirements for institution specific age requirements.

MERIT

If you meet the course eligibility requirements, you will be considered for an offer based on merit (i.e. based on your selection rank). For some courses, achieving a minimum ATAR (selection rank) is enough to get an offer.
For other courses, you'll need a better ATAR than other applicants to successfully compete for a place ahead of them. For a small number of competitive courses, like medicine or dentistry, you may need even more, such as results in certain subjects, a minimum score in the University Clinical Aptitude Test (UCAT), etc.
Check Course Search for requirements, or visit each institution's website for further details.

If the course you want to get in to doesn't need an ATAR for entry, and you meet the institution admission rules, you don't need to compete for a place and will simply receive an offer for the course when offers are made.

If you meet the entry requirements for your chosen course, you will be considered for an offer. If you get an offer, it means you've been given a place in a course.

Refer to page 14 for more information about offers.

DOCUMENTING YOUR STUDIES

In some cases, you may need to provide copies of your qualifications to us, so we can assess them as part of your application. We'll let you know after you apply if you need to provide documentation. You can submit your documents online, by logging in to your application at applications.qtac.edu.au.

If you have extra qualifications, such as a Certificate III or AMEB award, you should include them in your QTAC application, because some institutions accept them for entry and the qualification could help you get an offer.

Any qualifications already in your QCAA learning account will automatically appear in your QTAC application when you apply; you won't have to add them. If your qualifications are meant to be included on your QCAA Senior Education Profile (SEP) and you can't see them in your QTAC application, speak to your school guidance officer to get them added to your QCAA learning account.

If you have qualifications that won't be included on your Senior Statement, add them to your QTAC application so we can consider them along with your Year 12 studies.

TIPS FOR SUBMITTING YOUR DOCUMENTS

- Check the key dates on our website to ensure you submit your documents on time.
- Make sure each document is clear, easy to read and no parts have been cut off in the uploading process.
- If you can't upload your documents, email your files to documents@qtac.edu. au with your full name, date of birth and application number in the subject line to assist with accurate processing.
- If your documents are in a foreign language other than English, submit a copy of the original document as well as a full, official English translation (extract translations are not accepted).
- Resubmit any documents you provided to us in previous years, because we do not keep them.
- Visit qtac.edu.au/documentation for detailed information on what documents to provide for different types of studies.

We reserve the right to request original documents and/or certified copies of documents, if required.

HOW TO APPLY
QTAC APPLICATION SERVICES

BEFORE YOU START

If you have the following information on hand, you'll find the application process much easier.
To apply, you'll need:

- an email account you check regularly
- details of the courses you're applying for
- details of your qualifications and experience.

If you're in Year 12 in Queensland, you must also enter your Learner Unique Identifier (LUI) number to complete your application.

Visit studentconnect.qcaa.qld.edu.au/login_lui.html to find your LUI if you have forgotten. We'll let you know after you apply if you need to provide copies of your qualifications. Visit qtac.edu.au/documentation for information on documentation.

HOW TO APPLY

1. Visit applications.qtac.edu.au.
2. Create a QTAC account or log in to your existing account.
3. Fill out and lodge your application.
4. Submit copies of your qualifications (if required).

AFTER YOU APPLY

After you apply, you can track your application online at applications.qtac.edu.au. Here, you can:

- check if you meet the entry requirements
- pay your application fee
- change your preferences
- update your contact details
- view correspondence from QTAC
- check if you need to submit documentation
- view and respond to an offer

Call or email us if you need to change the following details on your application:

- name
- date of birth
- citizenship status
- Aboriginal, Torres Strait Islander, Maori, Pasifika or Australian South Sea Islander status
- gender
- qualification details

PREFERENCES
ORDERING YOUR 6 COURSE CHOICES

You can select up to six course preferences, and ordering them correctly is crucial to the outcome of your application. Using all six preferences maximises your chances of getting an offer.

Before you apply, find the courses you want in the Courses section of this Guide, or in Course Search at qtac.edu.au/course-search. Take note of the course code for each (knowing the course code makes it quick and easy to add preferences to your application) then order your preferences like this:

1st 2nd	Desired courses	Courses you most want to study
3rd 4th	Back-up courses	Less competitive courses that you want to study
5th 6th	Admission pathway courses	Courses that will help you upgrade into a course you really want

If you're applying for courses that have different offer rounds, you'll then need to reorder your preferences according to the offer round date.

You can find the offer round for each course in the Courses section of this Guide, or in Course Search at qtac.edu.au/course-search.

As per the example below, if January is the offer round for your first preference, and December is the offer round for your second preference, you will miss out on your second preference because offers are made before your application is considered for your first preference:

PREFERENCE	COURSE	START MONTH	OFFER ROUND
1	Brisbane University B Commerce	Mar 2023	13 Jan 2023
2	Metro University B Acting	Feb 2023	23 Dec 2022
3	Brisbane University B Business	Mar 2023	13 Jan 2023
4	Metro University B Commerce	Feb 2023	13 Jan 2023
5	Accounting Institute D Accounting	Mar 2023	13 Jan 2023
6	Accounting Institute D Accounting	Jul 2023	9 Jun 2023

By placing your second preference first, you can now be considered in the December offer round:

PREFERENCE	COURSE	START MONTH	OFFER ROUND
1	Metro University B Acting	Feb 2023	23 Dec 2022
2	Brisbane University B Commerce	Mar 2023	13 Jan 2023
3	Brisbane University B Business	Mar 2023	13 Jan 2023
4	Metro University B Commerce	Feb 2023	13 Jan 2023
5	Accounting Institute D Accounting	Mar 2023	13 Jan 2023
6	Accounting Institute D Accounting	Jul 2023	9 Jun 2023

If you get an offer in December and still want to be considered for courses being offered in In January, you can conditionally accept your offer and reorder your preferences again, this time moving the course you were offered to the bottom, so it becomes preference six.

CHANGING PREFERENCES

You can change your preferences after you apply by logging in to your application online. Here, you can add, delete, edit or reorder your preferences, but don't save your changes until you've got your preferences exactly as you want them—the first three preference changes you save are free, but you're charged a fee each time after this.

Visit qtac.edu.au/preferences for more information on changing preferences.

ADJUSTMENT FACTORS
APPLY EXTRA POINTS TO YOUR SELECTION RANK

TYPES OF ADJUSTMENT FACTORS

Below are some common types of adjustment factors that can apply extra points to your selection rank. Contact the institution you're interested in for more information on the types of adjustments they offer.

SUBJECT ADJUSTMENTS

Subject adjustments are made for passing specific Year 12 subjects. These may include: Specialist Mathematics, a language other than English (LOTE), or a university-level subject studied during your Senior Education. To receive subject adjustments, you must be a current Year 12 student. Subject adjustments are made to your QTAC application automatically, after we've received your Year 12 results.

ELITE ATHLETE AND PERFORMER ADJUSTMENTS

Elite athlete and performer adjustments recognise sporting or artistic skills, expertise. To be eligible for elite athlete adjustments, you must be competing in an Australian Sports Commission (ASC) sport recognised at a state, national or international level.

To be eligible for performer adjustments, you must be a member of, or had significant success in, a major artistic performing arts or production company at a state, national or international level; however, eligibility requirements may differ between institutions.

EQUITY ADJUSTMENTS

Equity adjustments are made based on characteristics associated with disadvantage, such as financial hardship, illness or disability, educational disruption, home environment, and more. We take such types of disadvantage into account through the Educational Access Scheme (EAS).

Refer to page 12 for EAS information (if EAS is discussed in further detail through the guide).

LOCATION ADJUSTMENTS

Location adjustments are made based on your proximity to the institution you're applying for. For example, some institutions give you additional points for being a local resident, or for living in a regional or remote area. Location adjustments are made to your QTAC application automatically, after you apply.

A UQ scholarship can help you focus on the important things, like learning and making new friends.

With a wide range of equity, accommodation, academic and sporting scholarships available, you might be surprised by how much support is waiting for you at UQ.

Start your journey towards creating change today.

CREATE CHANGE

Thinking about further study?

You'll need a USI.

Your Unique Student Identifier (USI) is your education number for life. You'll need it to:

- access HECS-HELP
- enrol in a Commonwealth Supported Place
- enrol in Vocational Education and Training (VET)
- graduate from your degree.

Find or create your USI at usi.gov.au

Australian Government

USI Unique Student Identifier

EDUCATIONAL ACCESS SCHEME
FOR STUDENTS AFFECTED BY PERSONAL CHALLENGES

EAS can help you if your most recent studies were negatively affected by circumstances beyond your control.

There are five EAS categories:

- financial hardship
- home environment and responsibilities
- English language difficulty
- personal illness or disability
- school environment.

If you're eligible for EAS, you may receive adjustments that increase your chances of getting an offer. If you're assessed as eligible in the financial hardship category, you may automatically be entitled to financial assistance, such as scholarships or bursaries, from some institutions.

WHO CAN APPLY?

You can apply for EAS if you are applying for tertiary study through QTAC. You don't have to be currently studying to apply for EAS, but most EAS categories relate to circumstances that affected your most recent studies.
The financial hardship category relates to your current and recent financial circumstances.

EAS cannot compensate for circumstances such as:

- not completing secondary school
- changing school subjects by choice, resulting in you not meeting entry requirements
- missed time from school for activities that are a personal choice (for example, sport, musical or cultural activities).

HOW TO APPLY

You can apply for EAS in your QTAC application by selecting the category or categories you want.
If you want to apply for EAS after you've lodged your QTAC application, download and complete all the required supporting documents from the EAS website, then upload them to your application or email them to QTAC.

SUPPORTING DOCUMENTATION

EAS is an evidence-based scheme. You must provide documentation as evidence of the disadvantage you have experienced. You will receive an email invitation to complete an online EAS application and submit supporting documents. The supporting documentation needed for each EAS category is outlined on the relevant cover sheet.

If you're in Year 12 and are applying for personal illness or disability, school environment or English language difficulty, you must ask your school to complete the school statement section of the online EAS application.

If you can't provide the documentation, you should submit a statement explaining why. You should also include any alternative documents that may support your case.

You can upload your documents by logging in to your application at applications.qtac.edu.au.

Alternatively, you can email your documents to: documents@qtac.edu.au

For more information on EAS, visit qtac.edu.au/educational-access-scheme.

OFFERS

OFFER ROUNDS

Institutions make offers throughout the year on set dates called offer rounds. Different institutions make offers on different dates. To find out what dates your chosen institution is making offers, visit qtac.edu.au/course-offer-dates-and-vacancy-information.

The offer rounds stated for each course in the Courses section of this Guide are the dates most applicants can expect to find out if they've been made an offer. However, you could find out sooner or later than this, depending on when you apply and the course you apply for. You can only get one offer in an offer round, for your highest eligible preference.

If you get an offer, we'll notify you by SMS and email. You can then log in to your application at applications.qtac.edu.au to view and respond to your offer.

RESPONDING TO AN OFFER

When responding to an offer, you have up to four options:

I'm happy & I'm ready to enrol.

ACCEPT

Check with the institution for enrolment details & dates.

I no longer wish to study this course.

REJECT

I'm happy but I'm not ready to enrol yet.

DEFER

Check with the institution for deferment details.

I'd like to be considered for my higher preferences.

CONDITIONALLY RESPOND

Check in on the next offer round date to see if you've received a new offer.

GOOD TO KNOW:

If you choose to **conditionally repsond** to an offer, make sure you reorder your preferences so that any courses you wish to be considered for in the next offer round sits **ABOVE** the course you've conditionally responded to. Any courses below your offered course will not be considered.

However you choose to respond, you should do so as soon as possible. In many cases, you only have four days to respond to your offer.

TOP FIVE REASONS FOR NOT GETTING AN OFFER

1. Your ATAR or selection rank is lower than the ATAR or selection rank needed for entry.
2. You don't meet the prerequisites for your chosen courses.
3. You ordered your preferences incorrectly.
4. You applied after the due date, and we couldn't assess your application in time.
5. You didn't pay your application fee.

There are other reasons you can miss out on an offer. If you don't get an offer and you're unsure why, call us on 1300 467 822.

Note: If you choose to defer an offer, this is generally processed for a standard period of one-year through the system. If you wish to make any changes to the time frame you will need to discuss your options directly with the Admissions Team at your relevant institution.

DEFERMENT
INSTITUTION POLICIES ON DELAYING COURSE START DATES

Deferment allows you to delay starting your course if you receive an offer but aren't ready to start studying. Usually, you can defer for up to a year, but some institutions allow you to defer for longer. Others don't allow deferment, or don't allow deferment for certain courses. Check with individual instituions for there deferment policies.

Note: If you choose to defer an offer, this is generally processed for a standard period of one-year through the system. If you wish to make any changes to the time frame you will need to discuss your options directly with the Admissions Team at your relevant institution.

INSTITUTION	DEFERMENT POLICY
Australian Catholic University	You can defer your undergraduate course for up to one year.
Bond University	You cannot defer the Bachelor of Medicine, Bachelor of Surgery.
Christian Heritage College	You can defer your offer for six or twelve months. Contact CHC on (07) 3347 7900 for more information.
CQUniversity Australia	You cannot defer a course offer with CQUniversity. Once you have formally accepted an offer, some courses may allow you to commence by enrolling into a later term of study. However, this is only available for limited courses and is dependent on unit availability. The following courses do not permit you to commence at a later date: Bachelor of Medical Science (Pathway to Medicine), Bachelor of Medical Sonography/Graduate Diploma of Medical Sonography, Bachelor of Echocardiography and Cardiac Physiology/Graduate Diploma of Echocardiography, Bachelor of Medical Imaging, Bachelor of Oral Health, Bachelor of Physiotherapy (Honours), Bachelor of Paramedic Science, Bachelor of Paramedic Science/Graduate Certificate in Emergency and Disaster Management or Diploma of Nursing.
Federation University Australia	Deferment of up to 12 months is available for successful applicants once they have accepted their offer through QTAC. Deferment of 6 months is possible in some cases. Please note that not all programs allow deferment, refer to Deferring or declining your offer (federation.edu.au/defer) for more information or contact us.
Griffith College	In most cases, you can defer your course for one year. You may lose your deferred place if you apply for other courses. For more information and conditions, contact Griffith College.
Griffith University	Griffith provides for most persons who have been made an offer to most of the University's undergraduate programs, to defer the commencement of their study in that program for up to a period of one year. Applicants who wish to extend or shorten their deferment, and so long as their program allows, should email deferred@griffith.edu.au. Deferral must not exceed one year. Deferment is not available for the following programs: • 251782 B Acting • 233732 B Clinical Exercise Physiology • 241252 B Contemporary Australian Indigenous Art • 233812 B Dental Health Science • 233761 B Dental Hygiene • 263392 B Midwifery • 251722 B Music • 251772 B Musical Theatre • 225332 B Nursing (Advanced Standing) – Nathan • 233232 B Nursing (Advanced Standing) – Gold Coast • 263122 B Nursing (Advanced Standing) – Logan • 225362 B Nursing/Grad Cert Paediatric Nursing (Advanced Standing) • 225432 B Physiotherapy – Nathan • 233722 B Physiotherapy – Gold Coast • 223332 M Primary Teaching – Mt Gravatt • 232102 M Primary Teaching – Gold Coast • 273205 M Primary Teaching – Online • 223352 M Secondary Teaching – Mt Gravatt • 232092 M Secondary Teaching – Gold Coast • 273225 M Secondary Teaching - Online • 229001 UG Cert STEM Foundations – Nathan • 234721 UG Cert STEM Foundations – Gold Coast Applicants who defer an offer outright are not eligible to be considered for any other preferences. If an applicant wishes to apply for other programs, including Griffith University programs, then they must conditionally defer and reorder their QTAC preferences. An applicant's deferred place may be withdrawn if they subsequently receive an additional offer or are excluded from another tertiary institution; or apply for other programs through QTAC. More information on Griffith deferment processes can be found on Taking a Break from Study.

INSTITUTION	DEFERMENT POLICY
James Cook University	You can defer your course for up to 12 months.
Queensland University of Technology	pplicants are eligible for deferment except for courses with audition, interview, portfolio and/or questionnaire additional entry requirements; some courses with prior study requirements (e.g. graduate teaching); and courses that are not offered in the following year or for which entry requirements are changing.
SAE Creative Media Institute	You may apply directly to SAE to be considered for deferment; conditions apply.
Southern Cross University	You must defer when responding to your offer through QTAC, and also submit a request for deferment to Southern Cross University. Deferment may be granted for a period of 12 months.
TAFE Queensland	TAFE Queensland allows deferment once for up to one year in the following courses, Associate Degree in Civil Engineering (555948 and 555037), Bachelor of Dental Prosthetics (555145). Applicants do not need to re-apply through QTAC the following year. To apply for deferral an applicant must choose the Deferment option when responding to their QTAC offer. Deferment may also be available for degree courses offered by TAFE Queensland in partnership with Federation University and University of Canberra. For more information contact TAFE Queensland on (07) 3215 1447.
The University of Queensland	You can defer undergraduate programs for up to one year if you are offered a place in semester 1. Offers for semester 2 entry can't be deferred. Contact UQ for more information.
Torrens University Australia	Deferment is available for successful applicants once they have accepted their offer through QTAC and Torrens University Australia student system. Successful applicants are encouraged to contact the Course and Career Advisers Team at 1300 575 803 or email futurestudents@torrens.edu.au for further advice as some programs do not permit deferment or have special conditions.
University of New England	UNE may allow successful applicants to defer for up to two years for most UNE courses (with students need to request to defer for one year at a time). To apply for deferment all applicants must respond to their QTAC offer and send in a request for deferment to UNE via AskUNE. Applicants approved to defer their course by UNE do not need to re-apply through QTAC the following year. Enrolment information will be emailed to deferred students advising them that they can enrol as their deferred intake start date approaches. The Bachelor of Nursing cannot be deferred.
University of Southern Queensland	Applicants who are offered a place may defer their study for one year. Deferral may not be permitted in all courses. Programs such as the Tertiary Preparation Program, Bachelor of Midwifery (Graduate Entry), Bachelor of Nursing, and Bachelor of Nursing (Enrolled Nurse Entry) are not available for deferral. To defer your QTAC offer contact the Queensland Tertiary Admissions Centre by responding to your offer. Applicants do not need to re-apply through QTAC the following year as an enrolment information is automatically forwarded to deferred applicants. For more information visit the University of Southern Queensland website or call on 1300 269 500.
University of the Sunshine Coast	**USC permits deferment in all undergraduate programs; conditions apply. Deferment is also permitted for the Tertiary Preparation Program. Contact USC for more information.**

STUDY COSTS
CONSIDER YOUR BUDGETS & OPTIONS

COURSE COSTS

Course fees are different for every course and vary between institutions. You can find information on course fees on institution websites.

PUBLIC UNIVERSITIES

Public universities and some private providers offer Commonwealth supported places (CSPs), whereby the Australian Government subsidises part of the cost of your course fees, and you pay the remainder (i.e. the 'student contribution amount'). The amount you pay varies between providers and courses.
CSPs are only available to domestic students.
Visit studyassist.gov.au for more information.

TAFE QUEENSLAND

TAFE Queensland course costs depend on several factors, including the type and length of the course you choose, whether you are studying full-time, part-time or online, whether you are eligible for recognition of prior learning, and whether you are entitled to concessions, fee exemptions or government subsidies.
TAFE Queensland offers a range of payment options and concessions to eligible students.
Visit tafeqld.edu.au/study-with-us/what-it-costs/index.html for more information on course fees.

DIRECT APPLICATION INSTITUTIONS

Direct application institutions include registered training organisations (RTOs) and private colleges. Usually, you pay a full fee for studying through a direct application institution. Contact the institution you're interested in for information on their course fees.

MATERIAL COSTS

Material costs include textbooks, stationery, and, depending on your course, equipment like calculators, lab coats, or uniforms.
It's worth shopping around to compare prices on material costs. For example, textbooks are sometimes cheaper online, and you can often buy discounted second-hand textbooks and equipment from campus bookshops.

LIVING EXPENSES

Living expenses include meals, groceries, electricity, internet and phone bills, clothing, medical expenses, and entertainment. You can save money on groceries by buying generic or home brand products, shopping at low-cost supermarkets and buying items on special.
Some retailers and websites offer student discounts on fashion, technology, food, entertainment and more.

TRAVEL

Travel costs can include fuel, vehicle maintenance and public transport fares. If you plan to study fulltime, you can take advantage of student discounts on public transport. Students in South East Queensland can visit translink.com.au for information on student fares. Some courses have field trips or professional placements that require you to travel to complete the practical component of your course. In these cases, you may need to pay for fuel or fares, meals and accommodation.

ACCOMMODATION

If you have to live away from home to study, you'll need to budget for accommodation. Many institutions have on-campus accommodation and services to help students find suitable off-campus accommodation. Accommodation types include residential colleges, student villages, townhouses, apartments, share houses, and homestay. Fees vary depending on the accommodation type. Visit institution websites for information on accommodation options and fees.

STUDY COSTS
CONTINUED

BUDGETING

One way to help manage your study costs is by budgeting. Some institutions' student support services offer budgeting advice, and you can find lots of free budget templates online. For example, the Australian Government's MoneySmart website has a budget planner to help track spending and saving, and tips for living on a student budget. Visit moneysmart.gov.au for more information.

FINANCIAL HELP

Financial help is available to students through the Australian Government and institutions to assist with the costs of study.

HIGHER EDUCATION LOAN PROGRAM (HELP)

The Australian Government's Higher Education Loan Program (HELP) comprises four HELP loan schemes and the VET Student Loans program, which allow students to defer payment of their course fees. To be eligible for a HELP loan, you must be an Australian citizen, New Zealand Special Category Visa holder or permanent humanitarian visa holder.
Visit studyassist.gov.au for more information.

INCOME SUPPORT

A variety of Australian Government income support schemes are available to students, including Youth Allowance, Austudy, ABSTUDY,
and student start-up loans and scholarships.
For more information, visit humanservices.gov.au.

INSTITUTION SCHOLARSHIPS

Most institutions offer scholarships that recognise merit, including academic excellence and sporting achievement, and equity scholarships, which assist regional and rural students, Aboriginal and Torres Strait Islander students, and students from low income backgrounds to access study.
Scholarships can cover a range of costs, from course fees to living and accommodation expenses. Contact the institution you're interested in for information on scholarships.

KEY DATES
COURSE APPLICATION DATES, OFFER ROUNDS & MORE

OFFER ROUNDS

Offer rounds for individual courses are listed in the Courses section of this *Guide*. Institutions may participate in additional offer rounds before and after the dates listed. For a comprehensive list of offer round dates by institution, visit qtac.edu.au/course-offer-dates-and-vacancy-information.

OFFER DATE	DUE DATE TO APPLY AND SUBMIT DOCUMENTS	DUE DATE TO CHANGE PREFERENCES
Friday, 18 November 2022	Friday, 11 November 2022	Not applicable
Thursday, 22 December 2022	Thursday, 8 December 2022	Monday, 19 December 12pm 2022
Thursday, 12 January 2023	Friday, 9 December 2022	Wednesday, 4 January 11.59pm 2023

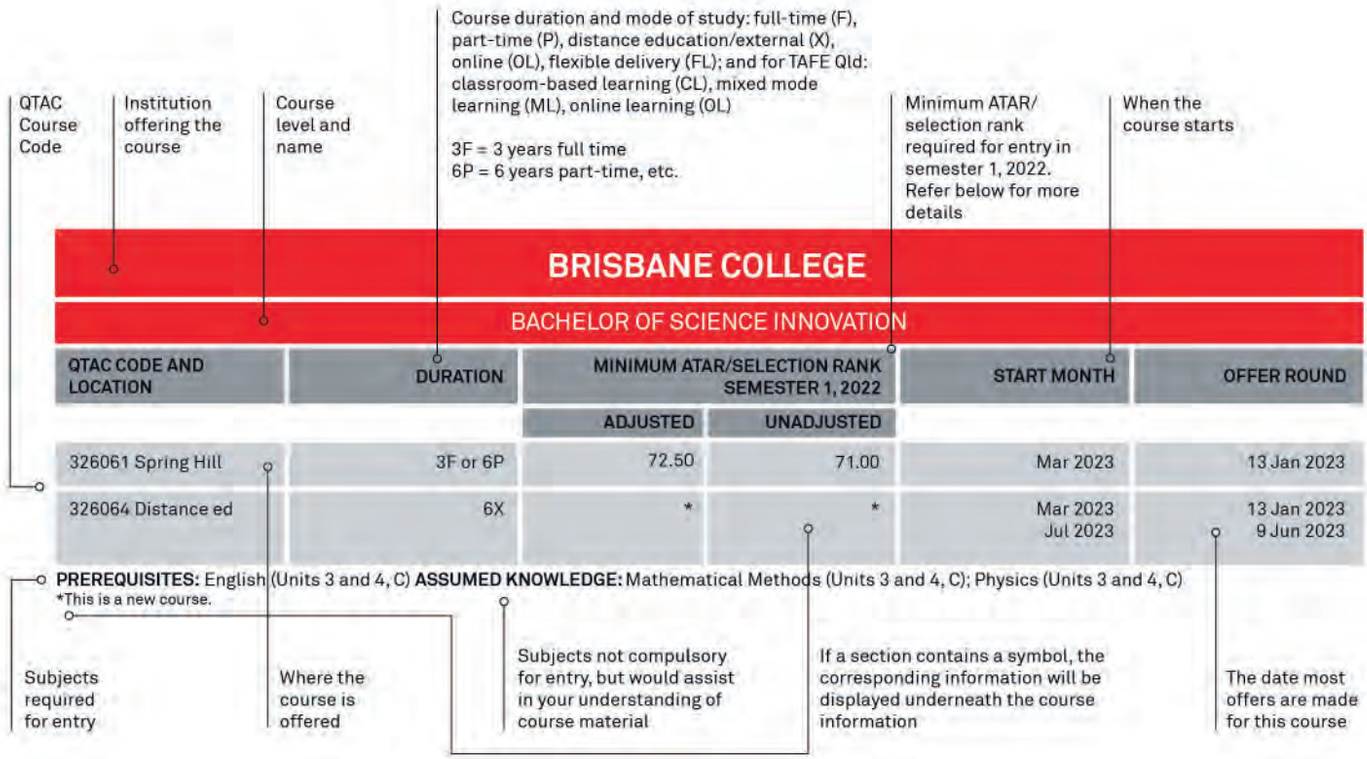
COURSES

UNDERSTANDING COURSE INFORMATION



MINIMUM ATAR/SELECTION RANK

The minimum ATAR/selection rank column shows the ATAR/selection rank of recent school-leavers who had not previously started a university or VET course (except as part of secondary school) and who got into the course based on their ATAR/selection rank and not based on any other qualification.

The minimum ATAR/selection rank represents the point (at or above) that applicants were made an offer for a particular course, subject to meeting all other entry requirements. This was previously referred to as a 'cutoff'. If your ATAR/selection rank is lower than this but you are eligible for adjustment factors that will increase your ATAR/selection rank, you can still list the course in your preferences; just be aware that it is a guide only and might change.

COURSE ADMISSIONS INFORMATION

The Courses section of this Guide shows the ATAR/selection rank profile for each course, except where the institution has not provided this information.

Full course admissions information is published in Course Search at qtac.edu.au/course-search for every domestic-entry undergraduate course that uses the ATAR/selection rank on its own or as part of the selection process. This provides statistical data for prospective applicants, including the ATAR/selection rank profile and student profile for students previously admitted to the course.

Course Search also includes any course changes made after the Guide is published, and additional course details such as fees and professional membership and registration opportunities available to graduates.

MINIMUM SELECTION THRESHOLD

The minimum selection threshold that appears in online Course Search (where applicable) is the minimum (adjusted) score that was considered for an offer of a place to all applicants in QTAC offer rounds (ie not only recent school-leavers selected on ATAR/selection rank).

Visit qtac.edu.au/the-atar-selection-rank-profile for more information.

FOOTNOTES USED IN THIS GUIDE

☆ *All qualified applicants were offered a place*

☆ *See Admissions Criteria on website for more information.*

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

✦ *Regular offers will be made*

❄ *Admission was based on additional entry requirements only.*

BRIDGING AND TERTIARY PREPARATION

TAFE QUEENSLAND

Certificate IV in Adult Tertiary Preparation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
543127 Caboolture	1/2ML	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023
532127 Loganlea	1/2ML	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023
555127 South Bank	1/2ML	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 18. **Additional entry information:** Must be at least 18 years of age or must turn 18 years of age within the first semester of study.

Course outline: This course is ideal for people who have been away from formal education for several years looking to learn and develop essential study skills. Whether you are looking to gain entry to university via an alternate pathway or increase your Queensland Tertiary Admissions Centre (QTAC) selection ranking, this course will equip you with life-long learning skills specific to tertiary education. This course is recognised by Queensland universities as a high-quality academic pathway and is facilitated by industry recognised, expert teaching staff. Students will develop a broad range of skills relevant to tertiary education including advanced literacy, numeracy and digital literacy skills, time management, problem solving, mathematics, research and assignment writing skills, exam strategies and seminar presentation skills. Subject electives may include biology, chemistry, computing, mathematics, legal or physics. Recognised as a Year 12 alternative, graduates will be able to apply to the Queensland Tertiary Admissions Centre (QTAC) for a ranking on completion, gaining access to university or other tertiary education institutions.
Note: To successfully complete this course within the specified time frame, it is recommended that students have sound literacy and numeracy skills, excellent time management and a high level of commitment. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Prospective students should visit tafeqld.edu.au/course/17/17691/certificate-iv-in-adult-tertiary-preparation for more information.

Career opportunities: Further study pathway, university admission pathway.

☆ *All qualified applicants were offered a place.*

UNIVERSITY OF SOUTHERN QUEENSLAND

Diploma of University Studies (online)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
902999 Online	1F or 2P	☆	☆	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 18. **Additional entry information:** All applicants are also required to complete online diagnostic tests in Mathematics, e-literacy, and English Communication Skills. Applicants will then be given advice detailing whether the Diploma of University Studies is the most appropriate pathway for them to undertake.

Program outline: The Diploma of University Studies provides a quality foundation to set you up for university success. If you are new to study, haven't studied in a while, or haven't completed Year 12, and would like an introduction to your chosen study area at university, this can be an ideal degree. Choose one of eight specialisations to sample study areas you are interested in. The core courses are offered online which enables you to balance work and life commitments. Graduate with a degree qualification or, provided you meet all the entry requirements, you can transfer directly into a USQ undergraduate degree. **Note:** The first four courses are compulsory and are only available online. **Specialisations:** Business & Commerce; Construction; Creative Arts; Engineering; Indigenous Community Development; Science; Social Studies; Spatial Science.

Career opportunities: As a diploma graduate, you will be provided with introductory knowledge in preparation for a career, or further study, in your area of interest.

☆ *All qualified applicants were offered a place.*

Tertiary Preparation Program

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
932001 Ipswich	1/2F or 1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
922001 Springfield	1/2F or 1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
902001 Toowoomba	1/2F or 1P	☆	☆	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023
902005 Online	1/2F or 1P	☆	☆	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 18. **Additional entry information:** All applicants are required strongly encouraged to complete Tertiary Preparation Program placement tests in mathematics and English communication skills. Applicants will then be directed into the most appropriate available starting level in these components of the courses in TPP. Students who do not undertake these tests will be enrolled in TPP7111 Communicating at University A and/or TPP7180 Preparatory Mathematics during their first semester of study. For students who did not complete schooling in Australia these tests are mandatory.

Program outline: If you have not completed year 12 or it has been some time since you studied, USQ's Tertiary Preparation Program (TPP) is the perfect way to start studying at university. You will study courses (subjects) to develop your writing, computing and general study skills and build your confidence for further studies. You may also study some specialised courses to prepare you for the degree you wish to study. When you successfully complete TPP you are guaranteed entry into selected USQ degrees, if you meet the English proficiency requirements. Now is the time to start your pathway to a career that you want.

Prerequisites: Completion of Year 12 or attained age 17 years. **Additional entry information:** Applicants must be a minimum of 17 years of age at the time of entry (international students must be 18 years of age).

Course outline: The Tertiary Preparation Pathway (TPP) is a bridging course designed to impart the skills and knowledge to succeed in degree studies. Students learn skills including academic writing, time management, research, exam strategies and presentation skills. TPP can be used as an admission pathway into many tertiary study courses and graduates can apply via direct application to most USC undergraduate programs. Students applying to other universities do so through QTAC. TPP courses are offered free of tuition fees for Commonwealth supported students. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au\iar.

Career opportunities: Refer to the undergraduate program that you want to transition into.

BUILT ENVIRONMENT AND DESIGN

CQUNIVERSITY AUSTRALIA

Bachelor of Building Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851345 Online	5P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course provides the perfect career foundation for students who enjoy building and planning, drawing and design. Students will learn from an experienced teaching team and gain skills and knowledge in designing, documenting and providing contract administration for residential and commercial buildings. Through design-based projects and authentic assessments, students will develop their skills in planning and designing residential homes and commercial buildings, satisfying the Building Design - Open licence issued by the Building Services Authority, Queensland. Students will build an understanding of construction structures, building materials and services, sustainability, professional practice and communication. **Other requirements:** For more information about course requirements, visit cqu.edu.au/courses.

Career opportunities: Building designer working in design, architectural, planning, building and engineering firms, government departments, or corporations with large building portfolios.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Building Surveying and Certification (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851365 Online	6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course prepares students to become building surveyors and certify buildings of all classes in the residential and commercial sectors. Students learn to evaluate and assess plans, conduct inspections, issue building permits such as occupancy permits, and interpret building and construction regulations. Students develop skills in building legislation and auditing, fire safety design and inspection procedures, construction, building materials, services, professional practice and communication, and principles of sustainability. **Note:** Students benefit from the flexibility to study this course part-time and via online study. This allows students to work in the industry while they study, and gain practical experience that further enhances their employability.

Other Requirements: For full course requirements, visit cqu.edu.au/courses

Career opportunities: Building surveyor in federal, state and local government departments and authorities; private certification practices and building industry licensing boards.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Construction Management (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850355 Online	6P	❖	❖	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Program outline: Become a qualified Construction Manager and develop expertise in planning and communication to enter the diverse construction industry. The Bachelor of Construction Management (Honours) has a strong focus on construction management and planning, services, building maintenance and materials, and structures, ensuring students graduate work-ready and capable of managing and coordinating complex construction projects. **Other requirements:** For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Construction managers plan, organise and control activities associated with building projects. Graduates can explore employment opportunities within: government departments, construction, building and sub-contracting companies, corporations with large building portfolios.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Associate Degree of Building Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851375 Online	4P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: Through the Associate Degree of Building Design students will build the perfect career foundation to plan and design buildings, ranging from residential homes to medium-rise commercial buildings up to three stories. This includes restoration, renovation, unit development and extension work. Students develop the skills to become confident in design and documentation, construction, structures, building materials and services, professional practice and communication and the key principles of sustainability. Recognised by industry, students will develop practical skills through completion of design-based projects and authentic assessments that reflect real practices. This course is offered part-time allowing students to work in industry while studying. Students have the option to continue their studies and complete the Bachelor of Building Design at CQUniversity.

Other Requirements: For full course requirements, visit cqu.edu.au courses.

Career opportunities: Building designer roles within; design architectural, planning, building or engineering firms; government departments; corporations with large building portfolios.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Associate Degree of Building Surveying

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850375 Online	4P	❖	❖	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Program outline: This course equips students with practical skills and prepares them to assess and inspect staged works for domestic and residential buildings. Training focuses on developing skills that are highly desired by employers, across areas such as building legislation and auditing, fire safety design and inspection procedures, construction and building materials. Students develop professional practice and communication skills and explore the principles of sustainability. Students have the option to continue their studies and complete CQUniversity's Bachelor of Building Surveying and Certification (Honours).

Other Requirements: For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Assistant Building Surveyor in a range of areas including local government, state and federal authorities, including licencing and code boards and private certifiers.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

GRIFFITH COLLEGE

Diploma of Design/Bachelor of Architectural Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
083331 Gold Coast/ Griffith University - Gold Coast	4F or 9P	☆	☆	Oct 2022 Feb 2023 Jun 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: In the higher education diploma year, students develop an understanding of core concepts and technical skills needed for a career in design. On successful completion of the diploma progress into the Griffith University degree with 20 credit points. The Bachelor of Architectural Design will set you on the path to a fulfilling career as an architect. It's a stepping-stone to Griffith's Master of Architecture, which provides the qualifications needed for registration as an architect. Develop your design and creative problem-solving skills and learn how to develop designs that meet aesthetic, functional and user needs. See Griffith University's Bachelor of Architectural Design for more information.

Career opportunities: Architect (with further study of the Master of Architecture), architectural technician.

☆ *All qualified applicants were offered a place.*

Diploma of Design/Bachelor of Design/Bachelor of Business

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: In the higher education diploma year, students develop an understanding of the core concepts and technical skills needed for a career in design. On successful completion of the diploma progress into the Griffith University dual degree with 60 credit points. Combine design creativity with business skills to allow you to take advantage of the commercialisation of graphic and communication design, interior and spatial design, product and 3D design, and visualisation and immersive design. You will have a unique range of skills and abilities to bridge the creative-business divide. See Griffith University's Bachelor of Design/Bachelor of Business for more information. **Majors:** *Bachelor of Design:* Visual Communication Design; Interior and Spatial Design; Product Design; Immersive Design; Interaction Design. *Bachelor of Business:* Accounting (Nathan only), Asian Business, Behavioural Science, Economics, Employment Relations (Nathan only), Innovation and Entrepreneurship, Finance, Financial Planning, Human Resource Management, International Business, Logistics and Supply Chain Management, Marketing, Politics and Public Policy, Real Estate and Property Development Management, Sport Management, Sustainable Business (Nathan only), Tourism Management. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor.

Career opportunities: Graduates have a broad range of skills in creative design that they can effectively combine to manage creative ventures from a business perspective. You may be employed in graphic design, interior design, product design, digital web design, design management, design education, film and television, theatre, furniture design, digital media.

☆ *All qualified applicants were offered a place*

GRIFFITH UNIVERSITY

Bachelor of Construction Management (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234891 Gold Coast	4F or 8P	64.15	70.95	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: Develop an in-depth knowledge and the practical skills required to manage and direct complex construction projects with this degree. You'll learn about sustainable construction, project development and management, construction economics, and site and safety operations in a global context. You'll study core construction areas including construction measurements and estimating, tendering, planning and procurement, with a strong focus on IT applications in the built environment. In your final year, you'll develop your professional skills through an industry placement.

Career opportunities: As a graduate, you'll be prepared for a rewarding career as a construction professional. Your industry knowledge, combined with strong skills in problem-solving, decision-making, communication and technology, will prepare you for leadership roles across the full spectrum of construction projects. You'll find employment opportunities in positions such as construction manager, site manager and supervisor, project manager, cost estimator, construction economist, property developer, manager and contract administrator.

Bachelor of Architectural Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234472 Gold Coast	3F or 6P	62.60	70.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will set you on the path to a career as an architect. It's a stepping stone to Griffith's Master of Architecture degree, the qualification needed for registration as an architect. In this degree, you'll combine classroom studies, studio work, fieldwork and practical experience to learn about urban systems, public places and all aspects of the built environment. A focus on sustainable design in tropical and subtropical climates will prepare you for work in Australia and the Asia–Pacific.

Career opportunities: As a graduate, you'll be in high demand in Australia and overseas. With your design, technical and creative skills, you'll be qualified to assist architects and other built environment professionals in the design, documentation and procurement of buildings. You'll be prepared for work in a broad spectrum of creative roles in government agencies, statutory bodies, design practices and studios (urban design, architecture, interior design, virtual environments, graphic design and the film and games industries), commercial development companies, building product manufacturing and distribution companies, and research organisations. With further study, you could go on to become an accredited architect.

Bachelor of Urban Planning (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
224321 Nathan	4F or 8P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234761 Gold Coast	4F or 8P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: In this degree, you'll learn how to manage the social and spatial conditions of urban life, helping to create a more sustainable future. With a strong focus on practical, hands-on teaching, you'll learn state-of-the-art drawing studios and work on real industry projects. You'll be taught by academics who have a strong footing in the industry and have the opportunity to network and connect with industry professionals throughout your degree. What's more, you'll get the chance to undertake an industry placement, allowing you to put your skills into practice and make valuable industry contacts before you graduate. In your final year you will complete an independent research project under the supervision of an academic staff member. The Honours program is a critical element for students seeking a direct pathway into research, academia and employment in many consulting and government organisations that prioritise the employment of honours graduates. **Majors:** Environmental planning; transport planning.

Career opportunities: You'll be prepared to follow a range of career paths, including urban planner, land development designer, environmental planner or traffic and transport planner, among others. You may find employment opportunities with all levels of government, as well as business and industry groups, community organisations and private consulting firms. You may find work in development companies implementing proposals for new housing estates, tourism complexes, transport networks, shopping centres and other commercial projects.

Double degrees: Refer to entry for: B Urban Planning (Hons)/B Science.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:**

Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: This program gives you a unique opportunity to prepare for a career as an environmental scientist or as an urban planner. Upon graduating, you will be equipped to play an important role in bringing social and natural sciences together to find solutions for complex planning issues and problems. With a strong focus on practical, hands-on teaching, you'll learn state-of-the-art drawing studios and work on real industry projects. You'll be taught by academics who have a strong footing in the industry and have the opportunity to network and connect with industry professionals throughout your degree. In your final year, you will complete an independent research project under the supervision of an academic staff member. The Honours program is a critical element for students seeking a direct pathway into research, academia and employment in many consulting and government organisations that prioritise the employment of honours graduates. **Majors:** Archaeology (Nathan only); Geography (Gold Coast and Nathan); marine biology (Gold Coast); wildlife biology (Gold Coast and Nathan).

Career opportunities: Depending on your major, you'll be prepared for an array of science and planning careers. You could be an environmental planner, urban planner, geographer, environmental scientist, wildlife biologists or marine biologist. You could find employment opportunities with all levels of government, especially state and local government agencies as well as business and industry groups, community organisations and private consulting firms working on all aspects of development and planning, environmental sustainability initiatives, environmental policy, urban ecology and biodiversity, community development, urban resilience, and environmental management. Increasingly, employers are employing science graduates in areas that require research and analytical skills, including the application of mathematics and statistics in the finance sector. Key employment sectors include councils, government, land development, environment, and the construction industry. Potential job outcomes include urban/town planner, strategic planner, regional planner, environmental planner, land development designer, traffic and transport planner, environment consultant, environmental scientist, geographer, wildlife biologist, and marine biologist.

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
412352 Gardens Point	4F or 10P	68.25	70.25	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Program outline: This course prepares students to engage in planning of urban areas and broader regions with studies in project planning, development processes, land use allocation, and economic and legal aspects of a dynamic built environment. Urban and regional planning students can choose to undertake specialist study in one area or to broaden their degree with knowledge and skills from two study areas. Urban and regional planning graduates develop plans and policies for the use of land and resources, and aim to fulfil the social, cultural, economic, and environmental needs communities.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** You must complete 30 days of approved professional work.

Career opportunities: Urban and regional planner, urban designer, transport planner, strategic planner, environmental planner, project manager, employment with government departments.

Double degrees: Refer to entry for: B Design (Architecture)/ B Urban Development (Honours); B Design (Landscape Architecture)/ B Urban Development (Honours) (Urban and Regional Planning; B Urban Development (Honours) (Urban and Regional Planning)/B Science (Environmental Science).

Bachelor of Urban Development (Honours) (Urban and Regional Planning)/Bachelor of Science (Environmental Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
412852 Gardens Point	5F	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: Urban and regional planners design and manage the use of land and natural resources to meet societal and environmental needs in a sustainable way. They plan large-scale projects such as regions, cities, suburbs, ports, recreational and industrial areas, and transport routes.

You will work on projects run in collaboration with local and state government partners, developers and local community groups. Throughout your studies, you'll have access to site visits and industry speakers, and build skills in industry relevant software. Your studies in environmental science will expand your planning knowledge with the latest information in environmental science, including climate change, sustainable management, land resources, air, water and soil quality and water resources.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** You must complete 30 days of approved professional work.

Career opportunities: You will have international and local employment opportunities. You could work in state and local government departments and agencies, development companies and professional planning consultancies. Career choices include urban design, transport planning, development assessment, monitoring and research for government departments and agencies, local councils, plan preparation for housing and industrial areas, open space and recreational planning, environmental protection, and social and economic development, consultancies.

		Unadjusted	Adjusted		
412372 Gardens Point	3F or 6P	71.55	79.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Program outline: This course emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise your ideas. The architecture major engages with the design, theory and practice of making spaces and environments for human activity. You learn to create environments with positive impacts on human health, environmental quality, social relationships and urban systems. On completion with GPA 4.50 (or better), you can progress to a two year Master of Architecture and gain the required practical experience to become an architect.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 89.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

Career opportunities: Architect (with further study).

Double degrees: Refer to entries for: B Business/B Design (Architecture); B Design (Architecture)/B Engineering (Honours); B Design (Architecture)/B Property Economics; B Design (Architecture)/B Urban Development (Honours).

Bachelor of Design - International

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
401392 Gardens Point or Kelvin Grove	4F or 8P	85.15	91.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Program outline: The four-year **Bachelor of Design - International** combines the Bachelor of Design with an additional year of study at a partner university around the world, which increases your intercultural skills and global career prospects. This course emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You develop adaptable and resilient capabilities to design, think critically, effectively communicate and collaborate to realise your ideas.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** All majors can be studied for February or July start with the exception Fashion which is only available for February.

Architecture engages with the design, theory and practice of making spaces and environments for human activity. You learn to create environments with positive impacts on human health, environmental quality, social relationships and urban systems. On completion with GPA 4.50 (or better), you can progress to a two year Master of Architecture and gain the required practical experience to become an architect.

Fashion emphasises practical experience through projects and design studios, and encourages creativity within a vigorous design culture. You are advised by leading industry mentors and embrace the challenges and opportunities of twenty-first century fashion including ethics and sustainability, industry practices and emerging digital technologies. You work individually and in teams to real-world design briefs and projects.

Industrial design graduates create and produce commercial and industrial products, services and systems to improve people's lives. Your studies include learning the creative design process, model-making techniques, visual communication, product design manufacturing, design management, computer-aided industrial design (CAID), human factors and ergonomics, and design research, coupled with innovation, aesthetics, entrepreneurship and business, cultural and social values, and design leadership.

Interior architecture graduates plan and execute the layout, finishes, lighting, fittings, and furnishings in domestic interior design, retail and entertainment industry design, hospitality industry design, commercial office, and corporate design. You are supported by contemporary relevant teaching and a focus on new and emergent fields including small and large-scale design in real and virtual environments, physical and digital experimentation, body/space relations, and design for health and social inclusion.

Landscape architecture graduates combine art and science to create long-lasting, meaningful and enjoyable outdoor places. You learn to combine landscape systems with urban design and environmental science to create outdoor spaces with positive cultural and environmental impact. **Interaction design** focuses on cutting-edge design skills, knowledge and capabilities to prepare you to optimise user experiences - removing complexity, making interactions more intuitive and creating responsive media. You undertake a series of interaction design studios focusing on industry-leading practices in human-centred design, design thinking, experience design, service innovation and augmented reality.

Visual communication prepares you to work across traditional and new interactive media forms to craft images that break through the communication clutter, simplify the complex, and change public opinion and understanding. You develop both practical and theoretical skills in multiple visual communication design specialisations including graphic design, typography, image making, information design, experience design, motion design, branding and interaction design. **Other requirements:** You must maintain a GPA of at least 4.5 to be eligible to go on the exchange program.

Career opportunities: Depending on major: architect (with further study), fashion designer, industrial designer, interior architect, landscape architect, user experience (UX) designer, product development manager, interactive media designer, visual designer.

TAFE QUEENSLAND

Bachelor of the Built Environment (Interior Architecture)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555309 South Bank	3CL	New Course	New Course	Feb 2023 Aug 2023	12 Jan 2023 20 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: The Bachelor of the Built Environment (Interior Architecture) course goes beyond interior design to explore new futures for existing buildings. in this course you will explore the boundaries of interior architecture through live projects that deal with real projects in real spaces with real or simulated clients. Environmental sustainability is at the heart of the course with an emphasis on the adaptive reuse of existing buildings and the exploration of sustainable and reused materials. The course is based around a design studio environment with an iterative design process where the on-going design discussion between the student and tutors leads to highly considered and innovative design outcomes. Technical subjects will develop both your digital design and fabrication skills and your knowledge of material properties and lifecycles. The work integrated learning units present an opportunity to work on global student design competitions or develop a personal project in a simulated design studio environment. You will be introduced to leading architecture and interior design practitioners through guest talks and design studio visits, allowing you to engage and form connections with the design and architectural community. The campus located at Brisbane's South Bank provides an inspiring local architectural context and is in close proximity to Brisbane's Cultural Precinct with buildings of national architectural significance. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses.

Career opportunities: Interior designer (commercial, residential, heritage/adaptive reuse), film and television designer, set designer, furniture designer, visual and spatial branding designer.

Diploma of Building and Construction (Building)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
597452 Eagle Farm	1ML	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course will teach students building and construction theory and practices related to low and medium-rise buildings. Students will extend their knowledge to building surveying, job supervision and safety management. TAFE Queensland's industry-expert teachers will help students develop project management skills in contract administration, project planning and costing, and resource and financial management. Successful completion of this qualification meets the requirements for both a Builder - Medium Rise and Builder - Low Rise licence and will equip graduates with the skills needed to successfully manage a construction business for residential, commercial or industrial buildings. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us for information.

Career opportunities: Construction contract manager, builder, construction project manager, site supervisor

☆ *All qualified applicants were offered a place*

Diploma of Building and Construction (Management)

555302 South Bank	1–2CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** Sound literacy and numeracy skills. **Additional entry information:** Successful applicants must complete CPP40115 Certificate IV in Building Design Drafting or CPP40121 Certificate IV in Residential Drafting or 52757WA Certificate IV in Residential Building Drafting or demonstrate relevant vocational experience, skills and knowledge commensurate with the scope of work covered in the core units of CPP40121 Certificate IV in Residential Drafting before progressing to the Diploma of Building Design.

Course outline: Progress your career as a building designer or draftsperson with this diploma qualification from TAFE Queensland. This course meets the technical requirements for you to apply for a Building Design - Low Rise or Building Design - Medium Rise licence. In this course students will learn specialist skills in building design for residential and small-scale commercial projects. Students will learn to understand client needs to develop building design concepts and create sustainable design solutions. Utilising a suite of software programs for computer-aided drafting (CAD) and presentation, students will produce and present drawings and models. TAFE Queensland's industry-expert teachers will ensure students develop the theoretical and practical skills to produce high quality work that complies with occupational health and safety and building code requirements. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/course/17/17752/diploma-of-building-design for more information.

Career opportunities: Building designer, draftsperson.

THE UNIVERSITY OF QUEENSLAND

The University Of Queensland AUSTRALIA

Bachelor of Architectural Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
711202 St Lucia	3F	81.75	86.10	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: This program is the first step to becoming a professional, registered architect in Australia. You'll learn how to design in response to climate and context from lecturers who have strong, local industry links and international perspectives, and have opportunities to develop special areas of interest. Study design principles, sustainability, emerging technologies, the history of buildings and culture, and more. When you graduate, you can progress to the professional Master of Architecture. **Other requirements:** To progress to the Master of Architecture you must achieve a minimum GPA of 4.5 in the Bachelor of Architectural Design. If you achieve a GPA between 4.0 and 4.5 you must undertake six months (or equivalent) of professional experience as approved by the Faculty of Engineering, Architecture and Information Technology before progressing to the Master of Architecture.

Career opportunities: Architect and allied professional in private offices, government departments, statutory bodies, local authorities, commercial development companies, research organisations.

Bachelor of Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
711203 St Lucia	3F or 6P	84.35	86.35	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: Bachelor of Design graduates who possess the ability to think on their feet are in demand as cities and societies expand at a rapid pace. This degree will teach you how to interrogate a brief, challenge assumptions, prototype innovative and sustainable solutions, and generally think outside the box. The complexity and speed of innovation means that your expertise will be needed to address the issues and needs of a contemporary world. **Majors:** Anthropology, Buildings and Environments, Environment and Society, Information Environments, Innovation and Entrepreneurship, Media and Digital Cultures.

Career opportunities: Depending on major, career opportunities include: business entrepreneur; change manager; design manager; environmental graphic designer; furniture designer; interior designer; magazine editor; product designer; wayfinding designer. **Dual degrees:** Refer to entries for: Bachelor of Business Management / Bachelor of Design, Bachelor of Engineering (Honours)/ Bachelor of Design.

Bachelor of Regional and Town Planning

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
702002 St Lucia	4F or 8P	79.35	80.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Program outline: As a town planner you will assist communities, companies and governments to integrate the environmental, economic and social aspects of development, from site selection to regional considerations. You'll study land-use planning, urban design, transport and infrastructure planning, use and extension of information technology, heritage and conservation. Learn the principles of resource management, environmental monitoring, planning law and practice, commercial and industrial development, and policy making and implementation. Apply your knowledge each year through a planning project with developments in South East Queensland. Work with industry, government and community partners to build your professional networks.

Career opportunities: You will find employment in a variety of roles in the public, private and civil society sectors, including: urban design, statutory planning, strategic planning, regional development, environmental management and monitoring, technology for planning, spatial planning, commercial and industrial development, engineering and architectural firms, heritage and conservation, land-use planning, planning law and practice, resource management, social planning, tourism, and transport and infrastructure planning.

UNIVERSITY OF NEW ENGLAND

Bachelor of Urban and Regional Planning

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Construction (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
927411 Springfield	4F or 8P	68.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907415 External	4F or 8P	76.00	76.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Program outline: Program outline: Students gain expertise in construction engineering and the skills to be able to apply practical solutions to construction problems and work in some of the world's most influential industries. The influence of civil engineering and construction management arms students with the professional skills to make a difference in the infrastructure of construction. Through the program, students develop skills in problem-solving analysis, engineering design and construction management as well as specialised skills in built environment, quantity surveying and building services design. Students gain the knowledge to solve problems in the workforce and produce the highest quality work. Knowledge of the planning, monitoring, technical, logistical, financial and legal aspects associated with building and construction projects prepares students for the professional role of their choice in building and construction or construction management. Practical and relevant courses allow students to experience work on construction projects and acquire professional accreditation from the Australian Institute of Building. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** Construction management with minor study in either building or civil. **Other requirements:** Students must complete 60 days' work experience in an architectural, engineering or construction organisation.

Career opportunities: Building or construction manager, project manager, project coordinator, site manager, facilities manager, quantity surveyor/ project estimator, property developer, project planner, contact administrator.

Bachelor of Urban and Regional Planning (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907241 Toowoomba	4F or 8P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907245 External	4F or 8P	74.00	74.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Assumed knowledge:** General Mathematics (Units 3 and 4, C).

Program outline: USQ's Bachelor of Urban and Regional Planning (Honours) equips you to be an urban and regional planner to design and guide the sustainable future for towns and cities. You develop skills in strategic policy development, regulatory development assessment, using land and human resources sustainably, community consultation, planning legislation and processes, economics, transport planning, urban design, plan making and project management. In addition, you can choose a research project in your fourth year to investigate a specific urban and regional planning area, which also can provide a pathway for further study and research. **Note:** External students are required to undertake practical and professional activities relevant to their program through enrolment in a series of practice courses. External students should note that there are mandatory on-campus residential schools held at USQ Toowoomba and USQ Springfield for some courses in this program.

Career opportunities: Graduates have the skills to work as urban and regional planners, leading teams to deliver residential, commercial and retail development outcomes that balance social, economic and environmental interests at a statutory and strategic level across local, regional and national scales. Strategic land use planner, development assessment planner, transport /movement network planner, employment lands planner, environmental planner, open space planner, urban designer, place-maker, social planner, land acquisition planner, development planner, project manager.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Associate Degree of Construction

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
927071 Springfield	2F or 4P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907075 External	2F or 4P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: Students develop expertise in construction, gaining practical skills to supervise a range of construction processes. Through the program students develop skills in problem-solving analysis, engineering design and construction management as well as specialised skills in built environment, quantity surveying and building services design. Knowledge of the planning, monitoring, technical, logistical, financial and legal aspects associated with building and construction projects prepares students for the professional role of their choice in building and construction. **Note:** External students are required to attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** Construction management with minor studies available in either building or civil. **Other requirements:** Students are required to undertake practical and professional activities relevant to their program through enrolment in a series of Practice courses in the program. External students must attend a number of residential schools during their program to obtain experience in practical and professional activities appropriate to the program.

Career opportunities: Building or construction manager, site manager, facilities manager, building services design, quantity surveying/project estimator, property development, general management, project planner, contract administrator.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

FEDERATION UNIVERSITY AUSTRALIA

Bachelor of Applied Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041125 Online	3F	New Course	New Course	Feb 2023 Jul 2023 Nov 2023	12 Jan 2023 8 Jun 2023 ⏚

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16; Portfolio.

Course outline: Give yourself the skills to successfully run your own business. Increase your chances of getting that managerial role. Become the manager that every employer wants to hire and every employee wants to work for. This practical degree will turn your Diploma and Advanced Diploma into an undergraduate degree with just one extra year of full time study. You'll consolidate your people, project and resource management skills with the key knowledge needed to take a business to the next level. This program has been developed by Federation Business School to challenge the traditional method of obtaining a three year undergraduate degree. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online, on our website. **Other requirements:** Extra Requirements Applied Degree Workplace Experience portfolio: In addition to completing and submitting the online application, applicants are required to lodge a Workplace Experience Portfolio, and refer to the Applied Degree Entrance Requirements on the FedUni Additional application requirements webpage.

Career opportunities:

- Manager
- Office manager

- Project manager
- Supervisor

+ Regular offers will be made.

Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041123 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: The Bachelor of Business is a contemporary degree developed in collaboration with industry and designed to meet the needs of businesses now and in the future. Businesses are facing an unprecedented number of challenges and opportunities stemming from digital disruption and the rapid adoption of new technologies. There has never been a more exciting time to start your career in business, whether you are looking for a career in the corporate world or aspiring to be an entrepreneur. With close ties to industry and a strong focus on real-world work experience, Federation Business School is renowned for producing job-ready graduates by providing students with industry placements, internships, and real-life projects during their studies. Our graduates gain a solid foundation in business management, entrepreneurship, critical thinking, teamwork, leadership, creativity and innovation, and interpersonal skills. These skills are in high demand from employers and central to succeeding in the rapidly changing business world. Federation Business School's undergraduates complete a common first year by studying foundation business courses in Management, Marketing, Creativity and Innovation, Accounting and Finance, Economics, Statistics, and Law. After the first year, you will have the flexibility to switch to any undergraduate degree at Federation Business School. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use. For further information, visit the Minimum IT requirements for studying online on our website. **Specialisations:** From the second year, you will choose a major stream of study (specialisation) in Management, Marketing or Banking and Finance.

You will also select interdisciplinary electives such as Information Technology, Psychology, Sociology, Environmental Science and/or Outdoor Studies, depending on your interests.

Career opportunities:

- Marketing manager
- Business manager
- Business analyst
- Corporate finance
- Human resource management
- Entrepreneur
- Strategic planner

+ Regular offers will be made.

Bachelor of Cognitive Enterprise (Professional Practice)

		Unadjusted	Adjusted		
042101 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: Transform businesses into cognitive enterprises using the latest disruptive technologies such as Artificial Intelligence (AI) and Blockchain with a degree co-designed with global technology giant IBM®.

Demand for skills in emerging technologies is growing exponentially as businesses embrace digital systems and services. By studying our Bachelor of Cognitive Enterprise, you can take a lead role in the digital transformation of businesses worldwide.

You will be job-ready by earning IBM® Digital Badges (certifications) in Blockchain and AI and by gaining experience through our work integrated learning program. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online on our website.

Career opportunities: Business manager, Business analyst, Systems analyst, Digital transformation consultant, Technology manager, Change management consultant, Digital business strategist.

+ Regular offers will be made.

Bachelor of Professional Accounting

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041119 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: This comprehensive course is designed for people with an aptitude for numbers and desire to forge a career in professional accounting.

Whether you see yourself working for the government, a company or even your own business, this degree will teach you the ins and outs of the systems and financial strategies that will prepare you for a rewarding career.

Your core subjects will include accounting, taxation, law, auditing, finance and economics. In addition, you'll be future-proofing your career by developing skills in creativity, innovation, marketing and digital business.

You will have the opportunity to undertake a practical placement, internship or project. Many of our graduates secure employment directly from Federation University's work integrated learning and placement programs. Our strong links with industry and real-world experience gained throughout your degree ensure you start your career when you start studying with Federation.

The career opportunities for accounting graduates are vast. According to the Australian Government Job Outlook projections, demand for accountants is forecast to grow. Our Bachelor of Professional Accounting course gives you the flexibility to choose a career in any industry. You could become a financial accountant, management accountant, auditor, business manager, financial consultant or CFO, just to name a few. Accountancy is also considered a great launching pad to become a CEO. **Note:** Depending on numbers will determine how 2nd and 3rd year will be delivered. It may be through a virtual platform, or attending another campus.

To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online on our website.

Career opportunities:

- Banker
- Public accountant
- Taxation Accountant
- Accountant
- Auditor
- Commercial manager
- Business manager
- Business consultant
- Business director
- Corporate finance
- Financial Analyst
- Professional accountant

For more information visit griffith.edu.au/guaranteed-admission.

Program outline: If you love travel, have good communication skills and are looking for a diverse, energetic career where you don't have to work 9 to 5, tourism could be the choice for you. This degree provides highly motivated students the opportunity to develop core business skills in areas such as financial management, leadership and management, and enhance these with an understanding of how to manage employment relations in a culturally diverse context. In your first three years, you'll gain an in-depth understanding of the tourism sector, underscored by sustainability principles – core to modern business practice. In your fourth year, you will acquire high-level research skills and take a deeper dive into the topic of your choice. You'll also have opportunities to study abroad or complete a global internship, all designed to enrich your skills and help prepare you for the future world of work. You'll have access to BusinessPLUS, which offers mentoring, networking and career mapping workshops. Plus, you will be studying with a university that is ranked #1 in Australia for Hospitality and Leisure Management by the 2021 QS World University Subject Rankings. **Majors:** Hospitality management; tourism management. *Second majors:* Asian engagement; behavioural science; business analytics; economics; employment relations; event management; government and international relations; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; real estate and property development; sport management.

Career opportunities: An honours degree prepares you for the higher research degrees and a career in academic research. Equally, it is highly regarded by employers and well recognised as a step beyond a traditional undergraduate degree in the application of theory and practicum. You will be prepared for work in a range of international tourism and hotel management roles, including in hotel and resort groups and supervisory and management positions in the international tourism and hotel industries, including independent restaurants, theme parks, tour companies, airlines, entertainment and leisure providers.

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: An honours degree signals high achievement, quality and an advanced skill set, instantly recognisable in both the professional employment and academic arenas. Designed for future leaders, this new degree will teach you to find solutions based on a range of perspectives. Built on the values of sustainability, economic inclusivity and social progress, you'll be prepared for a game-changing career. Whether you want to be an accountant, economist, executive director or eminent academic, you can choose from over 20 majors– and combine any two majors–as well as internships and study experiences. **Majors:** Accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance, financial planning, government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management. You can also choose not to complete a major, selecting from a range of courses that provide broad knowledge for a career in business management. Languages are available as a second major or a minor: Chinese, French*, German*, Indonesian*, Italian, Japanese, Korean*, Modern Greek*, and Spanish. *Via cross-institutional study.

Career opportunities: An honours degree prepares you for a career in academic research and higher research degrees. Equally, it is highly

regarded by employers and well recognised as a step beyond a traditional undergraduate degree in the application of theory and practicum. This holistic business degree gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in not-for-profit, government and corporate organisations; as well as in startups and entrepreneurial enterprises.

Bachelor of Applied Financial Advice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
272015 Online	2F or 4P	61.70	68.30	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: If understanding markets and making the most of investment opportunities excites you, then this degree is for you. You will gain technical capabilities in financial planning while also developing competencies in high quality written and oral communication skills to ensure you can meet client needs. Core to the degree are skills in financial markets, tax, superannuation and estate planning, as well as client care, active listening, and the law. This online degree has been designed to meet industry needs – new financial advisers are required to hold a bachelor's degree or higher under the sector's professional standards. Plus, you'll have opportunities for practical work experience as part of your study. **Note:** Students study over three trimesters each year, completing the three-year program in two years.

Career opportunities: Employment opportunities in the financial services industry are increasing because of succession planning issues, an increase in the educational requirements for advisers, and an increase in the population of individuals that require financial advice. Graduates will be prepared for roles in the financial services industry (namely, banks, funds management and financial planning companies) in various positions including client services officer, para-planner, provisional financial adviser (additional work and training requirements are required to qualify as a financial adviser). You'll also find opportunities in insurance and superannuation, futures, options and foreign exchange trading. Note: additional work and training requirements are required to provide personal financial advice. To become a financial planner, please see the entrant requirements set by the Financial Adviser Standards and Ethics Authority (FASEA).

For more information visit griffith.edu.au/guaranteed-admission.

Program outline: This degree will equip you with the practical skills required to be successful in the new economy. You'll have the opportunity to gain hands-on experience through a series of internships and placements where you'll be able to apply your knowledge to practical business situations and problems. You'll acquire the skills necessary for the business world in the 21st century in areas such as sustainability, equity and diversity. You'll develop a holistic view of business from strategy through to implementation, and the skills you learn will ensure that you graduate confident and ready for a successful career in business. Co-created with industry, you'll learn through practical application of core business and commerce skills and will be able to choose from over 20 majors, so whether you want to be an accountant, economist, manager or entrepreneur, start your journey here and customise as you go. You may also wish to combine two majors according to your interests. Plus, you'll have the opportunity to take advantage of the BusinessPLUS program, which offers mentoring, networking and career mapping workshops. **Note:** Fast-track options are also available by studying over three trimesters. Honours: After completing your first two trimesters, you can transfer into the Bachelor of Advanced Business (Honours) subject to criteria. **Majors:** Accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management. You can also choose not to complete a major, selecting from a range of courses that provide broad knowledge for a career in business management. Languages are available as a second major or a minor: Chinese, French*, German*, Indonesian*, Italian, Japanese, Korean*, Modern Greek*, and Spanish. *Via cross-institutional study.

Career opportunities: This holistic business degree gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in not-for-profit, government and corporate organisations, as well as in startups and entrepreneurial enterprises. Depending on your major, you could work across the many fields, including as an accountant, economist, in financial planning, in advertising, event management and marketing, international and Asian business specialist, a business owner or entrepreneur, in employment relations, export, human resources management, in tourism, real estate and property development, sport management, in sustainable business, information technology, and many more.

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Program outline: Graduate with two degrees that can give you an edge in the employment market. This double degree will distinguish you by your adaptability, innovative approach and ability to problem-solve through a range of perspectives, coupled with an insight into policy, politics and power in the modern world. It brings together diverse skillsets to produce responsible, sustainable practice and policy. Griffith has ranked in the world's top 100 universities for political and international studies for the past four years. Students learn from industry leaders and have access to practical experiences, including global work placement and exchange opportunities. **Majors:** *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management. You can also choose not to complete a major, selecting from a range of courses that provide broad knowledge for a career in business management. *Government and International Relations:* international relations; politics and public policy.

Career opportunities: As a graduate with strong analytical skills, you may pursue work in a broad range of sectors including the government, not-for-profit, international organisations, media, political parties, a range of corporate environments, as well as start-ups and entrepreneurial enterprises. Politics and public policy provides opportunities administering advice to government and business leaders, developing policy and managing programs in areas like economic, environmental and social policy, diplomacy and trade relations. An International Relations qualification gives you a range of employment options in Australia and internationally. You could find a job in foreign ministries, defence departments, intelligence and aid organisations. You could also work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies. Depending on your major, you could work as an accountant, economist, in financial planning, in advertising, event management and marketing, international and Asian business specialist, a business owner or entrepreneur, in employment relations, export, human resources management, in tourism and hospitality management, real estate and property development, sport management, in sustainable business and business analytics.

Course outline: This course teaches the foundations of commerce then allows students to specialise in one or two key areas. In their final year students develop essential skills and experience through the work-integrated-learning capstone program. Students also have the opportunity to gain a global perspective by completing one semester at JCU Singapore. An optional second major encourages students to build creativity and innovation and caters for individual interests or a specialist career goal. The Accounting Major is jointly accredited by CPA Australia and the Chartered Accountants Australia and New Zealand (CAANZ) JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Majors:** *Townsville:* accounting; economics; financial management. *Cairns:* accounting. *Brisbane:* accounting. *Online:* accounting; banking and finance; economics; financial management.

Career opportunities: Depending on chosen major(s): accountant, business manager, commercial and taxation law specialist, corporate financial management, economist, data analyst, financial adviser/controller, financial analyst, foreign exchange trader, investment banker/manager, risk manager, stock broker

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Business/Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419532 Gardens Point	5F or 9P	72.20	78.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course combines the Bachelor of Business and the Bachelor of Engineering (Honours) degrees. The business degree is uniquely designed to inspire you to realise your potential, to think entrepreneurial, and to ethically and sustainably shape the future of business. You will develop

core business capabilities and undertake focused and authentic study in your chosen business discipline. The engineering degree provides you with the ability to design and maintain cutting-edge products or infrastructure. For engineering graduates, a business degree accelerates advancement and provides valuable skills in management, accounting, international business or marketing, depending on choice of major.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 84.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Business and Bachelor of Engineering (Honours). **Other requirements:** You must complete a minimum of 60 days of approved professional work in an engineering environment.

Career opportunities: Refer to Bachelor of Business and Bachelor of Engineering (Honours).

Bachelor of Business/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419222 Gardens Point *or* Online	5 1/2F or 5 1/2OL	82.45	87.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors - General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course offers a combination of business and law skills that provides a broad base of commercial knowledge. The business component is designed to inspire you to realise your full potential to think entrepreneurial and to ethically and sustainably shape the future of business. You will develop core business capabilities and undertake focused and authentic study in their chosen business discipline. In the law component, you develop advanced legal research and writing skills, and skills in interviewing, advocacy and dispute resolution. The course covers all academic subjects required for admission to legal practice and offers a range of law electives to align with career aims. Accountancy is a complementary major for business/law students, providing graduates with formal recognition from peak bodies in both professions.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 90.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. You may wish to undertake a minor that focuses on technology and the law. Some units are offered in summer for students wishing to accelerate their study. Check the course information for more detail. **Majors:** Refer to Bachelor of Business. **Other requirements:** Refer to Bachelor of Laws (Honours).

Career opportunities: Law and business positions related to finance, taxation accounting and insolvency practice, legal careers specialising in commercial law and corporate compliance.

Bachelor of Property Economics/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419092 Gardens Point *or* Online	5 1/2F or 5 1/2OL	84.20	87.85	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course allows you to combine your interest in the property industry in the Australian and international economy with a law qualification and graduate with a diverse set of skills to enhance your employment options in both fields. Across this double degree, you benefit from meaningful connections with high profile industry employers, practical and effective hands-on learning experiences during your studies, classes with leading and expert teachers, international study and placement opportunities, and the convenience of a city-based campus.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 90.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. You may wish to undertake a minor that focuses on technology and the law. Some law units are offered in summer for students wishing to accelerate their study. Check the course information for more detail. **Other requirements:** You must complete 30 days of approved professional work.

Career opportunities: Refer to Bachelor of Property Economics and Bachelor of Laws (Honours).

Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
413021 Gardens Point *or* Online	3F or 6P or 3–6OL	61.05	70.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors - General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Program outline: The Bachelor of Business is uniquely designed to inspire you to realise your full potential, to think entrepreneurially and to ethically and sustainably shape the future of 21st century business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline, engaging with the real world of business to ignite your professional career.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 84.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. Some units may have specific times you need to be online, or physical attendance for a study block, placement or exams. Part-time on-campus students should note daytime attendance may be required. Check the course information for more detail. **Majors:** Accountancy; advertising; economics; finance; financial planning; human resource management; international business; management; marketing; public relations. Second study areas include: business regulations; forensics; integrated marketing communication; languages.

Career opportunities: Accountant, economist, human resource manager, manager, finance, financial planner, advertising, marketing, public relations, international business.

Double degrees: Refer to entries for: B Behavioural Science (Psychology)/B Business; B Biomedical Science/B Business; B Business/B Communication; B Business/B Creative Industries; B Business/B Data Science; B Business/B Design; B Business/B Engineering (Honours); B Business/B Fine Arts; B Business/B Games and Interactive Environments; B Business/B Information Technology; B Business/B Justice; B Business/B Laws (Honours); B Business/B Mathematics; B Education (Secondary)/B Business; B Human Services/B Business; B Property Economics/B Business; B Science/B Business.

Combined diplomas/degrees: You can combine this course with one of the QUT Diplomas in Business, Entrepreneurship, or Esports. It can also be combined with the following courses at TAFE Qld - Greater Brisbane: Diploma of Accounting TAFE Qld.

Bachelor of Business (Dean's Scholars)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
413222 Gardens Point *or* Online	3F or 3OL	94.45	97.15	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors - General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C). **Additional entry information:** You must be a 2022 Australian ATAR or IB Diploma Year 12 student or a student returning from a gap year (ie undertaken no further study or work experience) who completed your ATAR or IB Diploma Year 12 education in Australia in 2021.

Program outline: The Bachelor of Business (Dean's Scholar) is a 3-year course with an academic scholarship leading into an additional year of Honours study. The Bachelor of Business course is uniquely designed to inspire you to realise your full potential, to think entrepreneurially and to ethically and sustainably shape the future of 21st century business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline, engaging with the real world of business to ignite your professional career. Additional Honours study provides high-achieving students with analytical, theoretical and empirical skills that differentiate you from other graduates.

The QUT Offer Guarantee does not apply to this course.

Selection ranks: You will be considered solely on the basis of your ATAR or selection rank from your ATAR or Australian IB Diploma completed in 2022 or 2021. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course. **Note:** You will first be enrolled in the Bachelor of Business and you can choose to study either on-campus (internal) and/or online. Upon completion of the degree you will be automatically offered the Bachelor of Business (Honours) which is solely taught on-campus. **Majors:** Accountancy; advertising; economics; finance; financial planning; human resource management; international business; management; marketing; public relations. Second study areas include: business regulations; forensics; integrated marketing communication; language. **Other requirements:** You must maintain a GPA of 5.5 throughout your studies to retain the scholarship. Advanced standing is not permitted except for START QUT.

Career opportunities: Accountant, economist, human resource manager, manager, financial advisor, advertising professional, marketing officer/manager, public relations officer/consultant, international business specialist.

Bachelor of Business - International

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
413402 Gardens Point *or* Online	4F or 8P or 4–8OL	85.20	87.25	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors - General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Program outline: The four-year Bachelor of Business - International combines the Bachelor of Business with an additional year of study at one of the QUT Business School's partner universities around the world. You will develop core business capabilities and undertake authentic study in your chosen business discipline, engaging with the real world of business to ignite your professional career.

The QUT Offer Guarantee does not apply to this course. **Note:** Study your way - study on campus or online, or try a blended approach. Some units may have specific times you need to be online, or physical attendance for a study block, placement or exams. Part-time on-campus students should note daytime attendance may be required. The third year of the course is taught on-campus at QUT Business School's partner universities around the world. Check the course information for more detail. **Majors:** Accountancy; advertising; economics; finance; financial planning; human resource management; international business; management; marketing; public relations. Second study areas include: business regulations; forensics; integrated marketing communication; language. **Other requirements:** You must maintain a GPA of at least 4.5 to be eligible to go on the exchange program.

Career opportunities: Accountant, economist, human resource manager, manager, finance, financial adviser, advertising, marketing, public relations, international business.

Bachelor of Business/Bachelor of Communication (Digital Media)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted

Career opportunities: Business adviser, business analyst, community worker, diplomat, government officer, information officer, ministerial policy adviser, police officer (Australian federal or state); policy officer, policy analyst, project management.

Bachelor of Business/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419212 Gardens Point	4F	85.65	91.65	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Program outline: The business component of this course is designed to inspire you to realise your potential to think entrepreneurially and to ethically and sustainably shape the future of business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline. Business majors in accountancy, economics, finance or financial planning are particularly relevant to accompany a mathematics degree. You learn how to undertake the sophisticated economic and financial modelling that is integral to business and government decision-making. The mathematics degree prepares students for careers including finance, information technology and education. Development of skills in communication, problem-solving, critical thinking and teamwork form an integral part of the course.

QUT Offer Guarantee:

If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Business and Bachelor of Mathematics.

Career opportunities: Accountant, actuary, banking and finance professional, business analyst, certified practicing accountant, financial advisor, investment manager, statistician.

Bachelor of Property Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
412322 Gardens Point *or* Online	3F or 6P or 3–6OL	69.25	70.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course provides the theory and practical understanding of the role that property plays in the Australian and international economy. This prepares you for a career as a property professional within the wide range of professions that assess, develop, value, finance and manage all classes of public and private property, including investment, consultancy, asset management, development, valuation and research. You learn to provide advice on the use, value, management and marketing of property, in order to optimise the benefits from ownership or occupation and to ensure the property industry remains economically and environmentally sustainable and meets the needs of all members of society. You gain practical experience with Work Integrated Learning.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 77.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. Some units may be specific times you need to be online, or physical attendance for a study block, placement or exams. Check the course information for more detail. **Other requirements:** You must complete 30 days of approved professional work.

Career opportunities: Property valuation, property consultancy, property economist, property management/real estate sales/lease negotiation, property finance, asset management, property funds analyst, property research, corporate real estate manager.

Double degrees: Refer to entry for: B Data Science/B Property Economics; B Design (Architecture)/B Property Economics; B Design (Interior Architecture)/B Property Economics; B Property Economics/B Business; B Property Economics/B Laws (Honours).

Bachelor of Property Economics/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419332 Gardens Point *or* Online	4F or 4OL	69.00	70.85	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Program outline: This course allows you to combine your interest in the property industry in the Australian and international economy with a business degree to graduate with a diverse set of skills that enhance career opportunities as a professional in both fields.

The business component of this course is designed to inspire you to realise your potential to think entrepreneurially and to ethically and sustainably shape the future of business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline. Across this double degree, you benefit from connections with industry professionals and practical and hands-on learning experiences with our expert teachers and researchers, overseas study opportunities and the convenience of a city-based campus.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

There may be specific times you need to be online, or physical attendance for a study block, placement or exams. Part-time on-campus students should note daytime attendance is required. Some lectures and tutorials may have evening sessions. Check the course information for more detail. **Majors:** Refer to Bachelor of Business. **Other requirements:** You must complete 30 days of approved professional work.

Career opportunities: Positions related to property/business: valuer and adviser, investment analyst, development manager, property and fund manager.

Diploma in Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
420101 Kelvin Grove	1F or 1 1/2P	59.70	60.00	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Program outline: The Diploma in Business is a pathway program designed to help you successfully progress to the second year of the Bachelor of Business. It provides you with the opportunity to develop core business capabilities including critical thinking, professional communication, digital and technical fluency, teamwork and global citizenship. Beyond providing a broad grounding in business disciplines, you will also develop their academic skills for future success. A highly supportive learning environment with smaller class sizes ensures a more personalised learning journey.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance may be required.

Career opportunities: Graduates of this course may seek entry to a broad range of general business fields or continue their studies and develop a specialisation.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the Bachelor of Business. Each of your diploma units will be credited to the degree.

Diploma in Entrepreneurship

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
420001 Kelvin Grove	1F or 1 1/2P	New Course	New Course	Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Program outline: The Diploma in Entrepreneurship aims to provide you with the opportunity to develop your entrepreneurial talent and capability while also providing a pathway into Business, Creative Industries and IT undergraduate degrees at QUT. With a strong focus on developing your entrepreneurial mindset, you will develop the the necessary capabilities to identify and grow entrepreneurial opportunities as well as how to plan, establish, lead and influence others while engaging with the broader entrepreneurship eco-system. **Note:** Part-time students should note that daytime attendance may be required.

Career opportunities: This course is designed as a pathway to further study. Students who complete the diploma may take the opportunity to start their own venture or pursue an entrepreneurial opportunity.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the single degrees of Bachelor of Business, Bachelor of Creative Industries, Bachelor of Communication, and the Bachelor of Information Technology. Each of your diploma units will be credited to each degree.

Diploma in Esports

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
420321 Kelvin Grove	1F or 1 1/2P	59.80	60.45	Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Program outline: The Diploma in Esports provides you with foundational knowledge and skills related to esports and how esports as an industry interrelates with the broad fields of Information Technology, Creative Industries and Business. This Diploma will cover concepts in relation to esports as an emerging billion-dollar industry worldwide and how you can be involved in the coming esports revolution. Covering both practical and theoretical realms, physical and mental health, pro-athlete attitudes and values, business strategies and a range of digital technologies, this qualification will prepare you for a variety of esports career pathways. As a blended education model, you gain skills online and on-campus in a highly supportive environment. You will have access to a suite of services designed to help achieve your study goals and advance your career.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission

requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance may be required.

Career opportunities: Students who complete the diploma may seek entry to a broad range of bachelor level courses including IT, Business and Creative Industries, and subsequently, develop a specialisation which may lead to career opportunities in such areas as public relations, marketing, event management, game development or esports athleticism.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the single degrees of Bachelor of Business, Bachelor of Creative Industries, Bachelor of Communication, Bachelor of Information Technology, and the Bachelor of Games and Interactive Environments. Each of your diploma units will be credited to each degree.

SOUTHERN CROSS UNIVERSITY

Certificate IV in Accounting and Bookkeeping/Diploma of Accounting

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555720 South Bank	1ML	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Additional entry information:** Successful applicants must successfully complete FNS40217 Certificate IV in Accounting and Bookkeeping or equivalent before progressing to the Diploma of Accounting.

Course outline: Take your understanding of accounting and finance to the next level with this certificate IV/diploma qualification. This course is ideal for people seeking employment in the accounting, business and finance sectors. During this course you will develop an advanced understanding of financial reporting, budget management and forecasting, income tax returns, and providing accurate accounting advice. TAFE Queensland's highly-experienced teaching staff will support you to develop industry-ready skills. You'll graduate with current, practical bookkeeping and accounting skills that are attractive to prospective employers. Successful completion of this course meets the Tax Practitioners Board academic requirements for registration as a BAS agent (additional experience requirements apply). **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us for information.

Career opportunities: Assistant accountant, bookkeeper, accounts clerk, payroll officer, accounts administrator, business activity statement (BAS) agent.

Combined diplomas/degrees: The Diploma of Accounting can be combined with other programs as listed below to attain the awards of Diploma of Accounting from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Accounting for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and ATAR/rank requirements.

D Accounting/B Business:

555720 South Bank/James Cook University (1ML & 2.5F)

555720 South Bank/Queensland University of Technology (Accountancy) (1ML & 2.5F)

TAFE Queensland students are required to articulate to QUT within 3 years of their QTAC offer.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course covers managerial skills including rostering, budgeting, marketing, and people management. Students also learn customer service skills in TAFE Queensland's training restaurants and how to operate a bar and prepare espresso coffee. This qualification will provide graduates with the skills to lead and manage teams in the hospitality industry. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us for information.

Career opportunities: Motel manager, gaming manager, sous chef, restaurant manager, banquet manager, functions manager, cafe manager, bar manager, chef de cuisine, chef patisserie, club manager, executive housekeeper, front office manager, kitchen manager, unit manager (catering operations),.

Combined diplomas/degrees: The Diploma of Hospitality Management can be combined with other programs as listed below to attain the awards of Diploma of Hospitality Management from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Hospitality Management for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand-alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and ATAR/rank requirements.

THE UNIVERSITY OF QUEENSLAND

The University Of Queensland Australia

Bachelor of Advanced Business (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
709101 St Lucia	4F or 8P	89.50	94.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Program outline: The Bachelor of Advanced Business (Honours) is aimed at high-achieving students seeking an advanced option to study business. You can select from two pathways: the professional pathway allows you to complete up to two majors, while the research pathway is ideal if you wish to continue on to a PhD. You may also complete a business industry placement course and undertake a semester abroad. **Majors:** Accounting; business analytics; business information systems; innovation and entrepreneurship; finance; human resources; international business; marketing.

Career opportunities: Depending on major: business analyst, market research, human resources manager, international finance, corporate finance, startup, international consultant, government agencies and ministries.

Bachelor of Advanced Finance and Economics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714311 St Lucia	4F or 8P	95.05	99.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Program outline: The Bachelor of Advanced Finance and Economics (Honours) helps you develop the analytical rigour and technical knowledge needed for a career in finance and economics. You'll be taught by leading academics covering topics such as micro and macroeconomics, financial management, and accounting and data analytics, and will also hear from industry experts who show how the program content is applied in practice. In your fourth year, you can choose to major in economics or finance, or pursue a more general pathway by completing a team project, an individual research topic and elective courses in economics and finance. **Majors:** Economics; finance.

Career opportunities: Corporate finance, investment banking, fund management, equities, risk analyst, money markets, financial/economic analyst, economist, merchant banker, international consultant, international finance, investment and trade, government agencies and ministries.

Bachelor of Arts/Bachelor of Tourism, Hospitality and Event Management

TORRENS UNIVERSITY AUSTRALIA

Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
031223 Fortitude Valley	2–3F or 4–6P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +
031224 Online	2–3F or 4–6P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Business develops the skills you need to research, critical analyse and create strategic business and marketing plans. You will have the opportunity to take a broad range of electives in marketing, public relations, events, tourism and hospitality.

Additionally, you will complete the compulsory Industry Consulting Project subject which provides experience in a business environment first-hand and develops practical skills to complement your practical knowledge. We will support you in your responsibility to find an industry placement(s), so you graduate with invaluable work experience, a built-in professional network and a serious competitive advantage.

Industry partners and work placements:

An important element of this course is the placement of the students with an endorsed host organisation(s). Work placements provide a valuable resource for you to develop hands-on practical experience to ensure you graduate confident and job-ready. A key task will be the completion of a reflective journal covering the experience and the identification and analysis of key learning outcomes.

Work placement hours: 320 hours

Career opportunities: This course is designed to give you a firm grounding in all the skills required to launch and maintain a successful business in today's marketplace. Graduate with a Bachelor of Business and you'll be job-ready to move into a management role in a leading organisation, or launch your own as an entrepreneur.

Career paths:

Entrepreneur

Assistant Manager

Operations Manager

Marketing Manager

Partnership Manager

Business Development Manager

+ Regular offers will be made.

Bachelor of Business (Entrepreneurship)

Prerequisites: Applicant must have completed Year 12 or equivalent. **Additional entry information:** Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of Marketing provides the skills and know-how to engage and influence valuable customers, develop brand loyalty and execute strategic marketing campaigns. It delivers key information on marketing principles, business communications and consumer behaviour insights. The course explores underpinning theoretical constructs that inform marketing practice. You will engage in practice both in simulated marketing workplace roles and in operating businesses and reflect on feedback from industry mentors and assessors. This program has been specifically designed to provide a broad base of generalist marketing knowledge and skills. The course is designed to provide a broad base of marketing knowledge and skills suitable for employment or to study a marketing degree at bachelor level.

Industry partners and work placements:

When you study with Torrens University Australia, you will benefit from our extensive network of industry partners. You'll learn from industry professionals, gain invaluable insights and build key industry relationships. We are proud of our expanding network of partnerships and welcome opportunities to build new ones.

Career opportunities: With a Diploma of Marketing, you'll be well placed to take on an entry-level role in the field, furthering your engagement and influencer skills in a real-world environment. In addition, you'll have the opportunity to move into a Bachelor of Business where you can specialise in Event Management, Marketing, Sports or Entrepreneurship.

Career paths:

Marketing Officer
Assistant Product Manager
Assistant Channel Manager
Assistant Brand Manager
Sponsorship Coordinator
Marketing Research Assistant
Media Planner

+ Regular offers will be made.

UNIVERSITY OF NEW ENGLAND

une University of New England

Bachelor of Accounting

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
656771 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This is a premier accounting degree accredited by the major professional accounting bodies in Australia. In this degree, students develop accounting-focused skills and knowledge relevant to professional accounting practices as well as a range of other business occupations. Students develop specialised knowledge, technical and soft skills and their application in analysing, projecting, judging, solving and communicating accounting information to a broad range of stakeholders on a variety of resource allocation and investment decisions. The degree comprises a set of core units in accounting, auditing, information systems, economics, finance, business, statistics and law that ensure graduates meet the entry requirements of the professional accounting bodies. Students can complete optional majors to develop specific skills in particular industries. **Majors:** Advanced accounting; agribusiness; business analysis and transformation; finance.

Career opportunities: Accountant, auditor, tax agent/consultant, agribusiness consultant, forensic/investigative accountant, corporate finance/financial officer, budget analyst, financial institution manager, stockbroker, small and medium enterprise and/or agribusiness manager.

✦ Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.

Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
656761 Armidale	3F or 6P	68.95	68.95	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree helps students navigate the world of business across a range of industries and occupations. Students develop skills in creative thinking and critical analysis, communication and business decision-making. The program is informed by real business case studies, current business research and industry experts. Completion of the accounting major plus four additional units qualifies students for admission to the major professional accounting bodies in Australia. For external study, contact the UNE Future Students Team. **Majors:** Accounting; agribusiness; business analytics; economics; finance; human resource management; international business; management; marketing.

Career opportunities: Graduates are flexible all-rounders with specific skills in their chosen major.

Combined degrees: Refer to entries for: B Agriculture/B Business; B Arts/B Business; B Business/B Economics; B Business/B Laws.

Bachelor of Business/Bachelor of Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
657551 Armidale	4F or 8P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This combined degree provides a foundation in economic analysis and business practice, while allowing specialisation in areas such as business analytics, accounting, agribusiness, economics, finance, human resource management, international business, management and marketing. For external study, contact the UNE Future Students Team. **Majors:** *Business*: accounting; agribusiness; business analytics; finance; human resource management; international business; management; marketing. *Economics*: applied econometrics; economic development; economics; environmental analysis and policy.

Career opportunities: Business management, accounting and finance, public services and private-sector roles, policy officer, analyst, economic modeller, adviser, trade and industry officer, financial management, forecasting, banking, insurance and agribusiness firms, business consulting, commodities or futures trader, importer/exporter, international roles with agencies such as the World Bank, International Monetary Fund and the United Nations.

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
924771 Springfield	3F or 6P	60.85	62.85	Feb 2023	12 Jan 2023
904771 Toowoomba	3F or 6P	58.95	65.95	Feb 2023	12 Jan 2023

Prerequisites: **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: This professional program provides an in-depth understanding of the principles and concepts of the aviation system, its components, aircraft operations, and support and enabling processes. In addition, the program equips graduates with a broad and coherent understanding of human performance issues within the aviation system. Graduates in the flight operations major are provided with the requisite flying skills and knowledge to meet the Civil Aviation Safety Authority requirements of the Australian Commercial Pilot Licence. **Note:** Students undertake their flight training with a flight school that is a Registered Training Organisation (RTO), offering the applicable VET diploma: Diploma of Aviation (commercial Pilot Licence – Aeroplane or Helicopter). Eligible students may be able to access VET Student Loans. **Majors:** Aviation management; flight operations. **Other requirements:** While this is not an admission requirement to the program, students planning to undertake the Flight Operations Major will have to hold a Class 1 Medical Certificate issued by the Civil Aviation Safety Authority, as this is one of the regulatory requirements to hold a Commercial Pilot Licence. It is highly recommended that students investigate their ability to hold an Aviation Security Identification Card (ASIC) and/or pass all required security checks as some organisations such as airports require employees to satisfy security clearances as a condition of employment. Appropriate advice will be provided to students during their first academic year.

Career opportunities: Graduates from the Flight Operations major are qualified to enter the aviation industry as a commercial pilot. Subject to additional flying experience, graduates will find employment opportunities in airlines, general aviation (e.g., charter and flight instruction), or in other supporting roles. Graduates from the Aviation Management major will be equipped to undertake a variety of operational, support and leadership roles in the aviation industry.

Bachelor of Business

Prerequisites: **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Program outline: This program equips students with practical skills to identify, describe, analyse and resolve problems in dynamic business environments. Students can choose from a variety of majors to suit their career ambitions. On top of providing a solid foundation of general business and commerce knowledge through practical applications and experience, students have the opportunity to gain leadership skills and professional expertise as well as improve their communication techniques to prepare them for work in a diverse range of industries. **Note:** Not all majors and minors are fully available at all campuses. **Majors:** Accounting; accounting extended; business administration; business economics; finance; human resource management; management and leadership; marketing.

Career opportunities: Administrator, banking and finance professional, business analyst, consultant, certified practising accountant, chartered accountant, chief financial officer, economist, financial adviser/analyst, fund/investment manager, human resources manager, investment banker, marketing manager, stockbroker.

Double degrees: Refer to entries for: B Arts and B Business; B Business and B Information Technology; B Business and B Laws; B Business and B Science.

Program outline: The Bachelor of Theatre offers a state-of-the-art, performance-integrated structure that will help you pursue your professional and personal interests. The course provides specialist training in one of three major areas where students will develop technical, creative and performance skills that enhance their career opportunities. The drama and music theatre majors offer intensive technical training in performing arts areas such as singing, dancing and acting. The technical theatre major allows students to explore the production process and develop skills in stagecraft, stage and production management, lighting, sound and technical direction. Within a creative and supportive environment of performance-based training, students will have the opportunity to work in a number of full-scale productions in technical and creative roles. On completion, graduates will be a highly skilled and motivated creative performer that is ready for the workplace. **Majors:** Drama; music theatre; technical theatre. **Other requirements:** Students may study units where they will be involved in the production of a staged theatre performance on campus, in a range of theatrical styles. Students work with industry mentors and staff in a simulated theatre company environment. Visit cqu.edu.au/courses for full course requirements.

Career opportunities: Actor, musical theatre performer, performer, director, designer, theatre technician, theatre manager.

Diploma of Music

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
860911 Mackay	1F or 2P	❄	❄	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
860915 Online	1X or 2X	❄	❄	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
860913 Cairns	1F or 2P	❄	❄	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Audition. **Additional entry information:** Applicants must apply to the Central Queensland Conservatorium of Music for an audition. To submit an audition request, visit cqu.edu.au/auditions or phone the Conservatorium on (07) 4940 7800.

Program outline: The Diploma of Music allows students to focus on a broad range of music styles including western art music, jazz or contemporary music. This exciting course will expose students to a variety of learning experiences including performance tuition to develop their solo performance skills and academic study in the interpretation and understanding of music. This means that students will be supported throughout their study and undertake one-on-one instrumental tuition with highly qualified regional conservatorium staff either through video tuition as an online student or on-campus at the Central Queensland Conservatorium of Music (CQCM), at CQUniversity Mackay. Students will learn foundational aspects of the language of music and gain practical music studies focusing on repertoire and technical work in their chosen instrument, voice or composition. Upon completion, students may choose to continue their study at the second year level in CQUniversity's Bachelor of Music. **Other requirements:** For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Professional musician or studio teacher.

Students may also pursue a music-related role in arts administration, communication or creative industries.

❄ *Admission was based on additional entry requirements only.*

GRIFFITH COLLEGE

Diploma of Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
083002 Mt Gravatt	1F or 2P	☆	☆	Oct 2022 Feb 2023 Jun 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: This program prepares graduates for diverse professional practice as designers through practical and theoretical learning. The higher education diploma year focuses on the development of manual and technological skills, design thinking, problem-defining and solving. On successful completion of the diploma be ready to progress into the Griffith University bachelor with 80 credit points. Be prepared to design future products, services and systems in a creative and critical way. Gain a unique perspective on how the world impacts design—and how design shapes the world around us. See Griffith University's Bachelor of Design for more information. **Majors:** Immersive Design; Interaction Design; Interior and Spatial Design; Product Design; Visual Communication Design. **Other requirements:** It is recommended that students have their own laptop computer by the start of first year. Information on computers, computer configuration and recommended software should be discussed with the course convenor.

Career opportunities: Graduate prepared to join the ranks of adventurous designers changing the way we interact with our environment and enhancing the way we live. You'll gain the industry experience, networks and knowledge needed to succeed in a variety of cutting-edge design fields.

☆ *All qualified applicants were offered a place.*

Diploma of Design/Bachelor of Visual Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
083531 Mt Gravatt/ Griffith University - Queensland College of Art, South Bank	4F or 8P	☆	☆	Oct 2022 Feb 2023 Jun 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: The higher education diploma year focuses on the development of manual and technological skills, design thinking, problem-defining and solving. On successful completion of the diploma be ready to progress into the Griffith University bachelor with 30 credit points. During the Bachelor you will learn methods with deep roots in the history of visual arts and experiment with radical and speculative approaches unimaginable to previous generations of artists. Through a comprehensive blend of theory-based and studio-based learning experiences, you'll develop studio skills and research methods that are foundational to a professional art practice or further research studies. You'll develop an understanding of the artists role in contemporary society and become equipped for a wide array of careers in the fields of fine art and visual arts In your second and third years, you'll focus your studies towards your major studio area, while developing a wide range of skills, concepts and experiences.

Career opportunities: This internationally recognised degree will equip you for a career in the visual and creative arts, from gallery director and professional artist to curator, educator, government arts worker and creative consultant. The skills and knowledge you gain will equip you to adapt and succeed in the expanding and changing landscape of the creative arts and will also serve as the foundation for further studies in education, research or professional practice.

☆ *All qualified applicants were offered a place.*

GRIFFITH UNIVERSITY

Bachelor of Acting

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
251782 South Bank	3F	❄	❄	Mar 2023	22 Dec 2022

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details.; Audition. **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3 and 4, C). **Additional entry information:** Admission to this program requires applicants to submit a video recorded audition and performance CV as the first phase, of a two phase process. If you are invited to phase two, you will be required to attend an audition workshop. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for the $90 non-refundable audition fee, submit your video recorded audition and performance CV to the Queensland Conservatorium by 31 August 2022. Applicants should refer to the Auditions website for the most up to date advice and messaging.

Phase two auditions will take place at the Queensland Conservatorium's Burke Street Studios at Woolloongabba 26 September–1 October 2022. Interstate applicants should refer to the Conservatorium Auditions website for details on interstate auditions.

Griffith University will commence making offers on 18 November 2022, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order preferences accordingly; refer to the QTAC website.

Griffith Guaranteed Admission Schemes do not apply to this program.

Closing date: Applicants must apply to QTAC, pay their audition fee and submit their phase one video recorded audition and performance CV to Griffith University by **31 August 2022** to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and Offer Rounds should places still be available. Late applicants should refer to the Auditions website for information.

Course outline: This highly practical and skill-intensive degree prepares you for a life-long career across stage and screen. Designed around four key pillars–core craft, context, repertoire and industry engagement–the degree focuses on developing both the individual and the actor through ensemble building, collaborative laboratories, industry-led workshops and public performances. Under the direction of renowned teachers and performers, you will undertake intensive training in acting, voice and speech, singing, movement and dance. **Note:** Griffith University will commence making offers on 18 November 2022, however additional auditions and offers may be considered in subsequent rounds should places still be available. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Career opportunities: This degree will interface with Griffith Film School, Queensland Performing Arts Centre, Queensland Theatre, Brisbane Powerhouse and other local and national performing arts companies. You'll emerge highly skilled in acting and performance, ready for a career on stage or on screen, including–but not limited to–theatre, television and film.

❄ *Admission was based on additional entry requirements only.*

Bachelor of Animation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
241212 South Bank	3F or 6P	67.70	73.15	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree is the ideal launching pad for you to play a significant role in the animation and visual effects industries in Australia and abroad. Using top-of-the-line hardware and premium industry-recognised software, you'll produce original animated projects from concept to delivery. You'll learn skills in concept development, storyboarding, 2D, 3D and stop character animation, editing, sound recording, visual effects, virtual production, post-production and motion capture. Client work and internships that are part of this degree will help you sketch out your future career. **Majors:** Animating; art direction; technical direction.

Career opportunities: As a graduate, you'll be able to work in 2D, 3D and stop motion character animation and visual effects for film, television, computer games and interactive media companies. You'll be prepared for a career that includes many exciting and creative pathways such as designing characters and environments for 2D and CGI/3D and stop-motion animated projects, scriptwriting, storyboarding and pre-visualisation, illustration, graphic art, compositing, matte painting, and visual effects.

Bachelor of Contemporary Australian Indigenous Art

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
241252 South Bank	3F or 6P	❄	❄	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details.; Interview; Portfolio. **Assumed knowledge:** English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** Admission to this program requires a portfolio of images of up to 10 artworks and interview. Griffith University will contact applicants with information on how to upload the portfolio. Admission to this degree is open to those who identify as Aboriginal and/or Torres Strait Islander. Griffith Guaranteed Admission Schemes do not apply to this program.

Course outline: This degree is designed to prepare Aboriginal and Torres Strait Islander people to become professional artists. You'll focus on Aboriginal and Torres Strait Islander art media, styles and forms, together with strategies for working as an artist within a highly urbanised society. As you research your own family history and traditions, you'll also undertake field trips to Aboriginal and Torres Strait Islander communities and study contemporary culture and politics. You will graduate with the knowledge and skills to forge a career in the arts. **Majors:** *Studio practice majors:* Indigenous studio practice. *Visual arts majors:* painting; photography; sculpture.

Career opportunities: You'll graduate with a portfolio of work that demonstrates your competence in Indigenous and non-Indigenous knowledge, skills and media, and in contemporary technologies. Students will have gained the necessary skills to perform effectively in professional contemporary art practice environments. You'll be prepared to work as an art practitioner, gallerist or curator. You may choose to continue your studies through honours or a postgraduate degree to pursue a career in art education.

You may be employed in graphic design, interior design, product design, digital web design, design management, design education, film and television, theatre, furniture design, digital media. A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of design-related roles relevant to your chosen specialisation(s) in not-for-profit, government and corporate organisations, as well as in startups and entrepreneurial enterprises.

+ Regular offers will be made.

Bachelor of Film and Screen Media Production

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
241302 South Bank	3F or 6P	66.95	73.25	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details.

Course outline: This degree focuses on developing your skills as an innovative content creator across popular and emerging screen technologies. Your academic learning will be enhanced through regular exposure to national and international artists-in-residence working in different areas of film and screen media production. You will have opportunities for placements and practical experience, including at LiveLab, the commercial production facility operated by the School, where you'll be engaged to produce work for clients and industry. You will also take part in a major production project in your third year, working with an industry-sized crew to produce a short drama, documentary or other screen media content.

Career opportunities: With on-demand and content streaming services increasing in popularity and emerging technology on the rise, we ensure our students graduate with a broad view of the industry. There are opportunities across film, TV, subscription TV and online content. Our students find opportunities across all facets of the industry, including production, post-production, screen distribution and exhibition.

Bachelor of Games Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
241312 South Bank	3F or 6P	60.15	67.25	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Fusing the artistic and technical, this degree explores techniques to engage and excite traditional gamers and broader audiences alike. You'll learn the fundamentals of games design and related production disciplines before developing your focus of specialisation. You'll have the freedom to explore contemporary developments in the practice of interactive game design and related disciplines. In your third year, you'll embark on a major team-based capstone project where you'll create a production to commercial standards, which will be the cornerstone of your early-career portfolio. **Majors:** Animating; art direction; computer generated imagery (CGI); player experience.

Career opportunities: You'll be well connected to Brisbane's thriving game development community and equipped to join the ranks of graduates working locally and internationally as a prop, environment, character or technical artist; gameplay, level, system or combat designer; gameplay programmer; 3D modeller; 2D or 3D animator; or motion capture animator. Our graduates also find success in areas such as mining and medical simulation, and training and educational software development. They also have a strong tradition of forming their own independent game-development studios.

Bachelor of Music

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
251722 South Bank	3F	❄	❄	Mar 2023	22 Dec 2022

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details.; Audition/ Folio (Folio is required for Composition and Creative Music Technology only). **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3 and 4, C). **Additional entry information:** Admission to this program requires applicants to submit a video recorded audition and music CV as the first phase of a two-phase process. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Career opportunities: Your career opportunities will vary depending on your chosen areas of specialisation. As a graduate of the Bachelor of Music, you'll be prepared for work as a performer, producer, composer, and songwriter or in many other areas related to music. Through self-directed project work, you'll have opportunities to refine your skills and focus on your specialty while gaining first-hand professional experience in your chosen area. If you wish to study music education and gain registration to teach in Queensland schools, you can choose to enter a teaching preparation strand in your second year.

❄ *Admission was based on additional entry requirements only.*

Bachelor of Musical Theatre

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
251772 South Bank	3F	❄	❄	Mar 2023	22 Dec 2022

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details.; Audition. **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3 and 4, C). **Additional entry information:** Admission to this program will require applicants to submit a video recorded audition and performance CV as the first phase, of a two phase process. If you are invited to phase two, you will be required to attend an audition workshop. Visit griffith.edu.au/conservatorium-auditions for details of audition requirements including how to pay for the $90 non-refundable audition fee, submit your video recorded audition and performance CV to the Queensland Conservatorium by 31 August 2022.

Applicants should refer to the auditions website for the most up to date advice and messaging. Phase two auditions will take place at the Queensland Conservatorium's Burke Street Studios at Woolloongabba, from 26 September to 1 October 2022. Interstate applicants should refer to the Conservatorium Auditions website for details on interstate auditions.

Griffith University will commence making offers on 18 November 2022, however additional auditions and offers may be considered in subsequent rounds should places still be available. Applicants must ensure they order preferences accordingly, refer to the QTAC website. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** Applicants must apply to QTAC, pay their audition fee and submit their phase one video recorded audition and performance CV to Griffith University by **31 August 2022** to be guaranteed an audition in the first audition round. Applicants who wish to apply after this date may be considered in subsequent audition and Offer Rounds should places still be available. Late applicants should refer to the Auditions website for information.

Course outline: In this degree, you'll be exposed to diverse musical theatre styles and to the broadly accepted musical skills of aural awareness training, music theory and ensemble work appropriate to this genre. Studying musical theatre at the Queensland Conservatorium will provide you with intensive practical training in acting and improvisation, speech, voice, singing, dance and movement, focused on producing a versatile performer—one who is proficient in singing, acting and movement. The productions in this degree emulate professional standards, providing you with authentic experiences. **Note:** Griffith University will commence making offers on 18 November 2022, however additional auditions and offers may be considered in subsequent rounds should places still be available. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Career opportunities: There is an identified shortage of professionally trained musical theatre performers throughout Australia and there is a growing demand for high-quality performers. As a graduate, you'll be skilled in singing, acting and dancing and be equipped to perform in cabaret, theatre, television, film and musical theatre, as well as in more diverse entertainment mediums such as festivals, theme parks and cruises.

❄ *Admission was based on additional entry requirements only.*

Bachelor of Visual Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
241381 South Bank	3F or 6P	59.60	63.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree provides you with a solid foundation in the conceptual and practical knowledge to begin a career in the visual arts. Working with accomplished artists, art historians and other industry leaders, you'll learn the fundamentals of a range of artistic practices through the first year foundation course before specialising in one of three majors. **Majors:** Painting; photography; sculpture.

Career opportunities: As a graduate of the Bachelor of Visual Arts, you'll be equipped for a career in the visual and creative arts, with potential positions ranging from gallery director and professional artist to curator, educator, government arts worker and creative consultant. The skills and knowledge you gain will equip you to adapt and succeed in the expanding and changing landscape of the creative arts and will also serve as the foundation for further studies in education, research or professional practice.

Combined degrees: Refer to entry for: B Visual Arts/B Business.

Bachelor of Visual Arts/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
241391 South Bank/ Nathan	4F or 8P	65.25	66.00	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit **Course outline:** In this double degree, you will develop your passion and skills in visual arts while gaining practical business skills. You'll be able to apply your creativity in a wide range of commercial areas, understand visual arts practice in terms of a contemporary art market, and be prepared to work independently as an artist, in arts and cultural organisations. **Majors:** *Visual Arts:* painting; photography; sculpture. *Business:* accounting; Asian business; Asian engagement; behavioural

science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: This innovative double degree will prepare graduates for employment in the creative and visual arts, including arts education and administration, with the added benefits of events management, marketing and entrepreneurship, opening opportunities in start-ups, as well as small to large commercial enterprises. A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of visual-arts related roles relevant to your chosen specialisation(s) in not-for-profit, government and corporate organisations, as well as in startups and entrepreneurial enterprises.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Communication (Digital Media)/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409442 Gardens Point *or* Kelvin Grove	5 1/2F	83.20	87.20	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: Communication skills are the foundation of twenty-first century careers. By developing expertise in written, spoken, visual and digital formats, you can set the pace for today's global communication industries. The law component has a practical focus that further equips graduates for a range of careers. You develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution.

Bachelor of Songwriting and Music Production

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
061053 Brisbane	2F or 4P	❄	❄	Sep 2022 Feb 2023 May 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Interview. **Additional entry information:** Entry to this program requires an interview/audition or evidence of music practice/portfolio. SAE will contact applicants to arrange an interview. For information about the interview, contact SAE Brisbane on 1800 723 338. Portfolios may include: links to your music or musical performances on YouTube, SoundCloud, links to online portfolio pages, a statement providing an overview of existing skills and knowledge in music production, including examples from senior secondary music classes, AMEB and CPM certification, appointment in school orchestras or bands, etc.

Course outline: In preparation for an industry that commands agility and adaptability, this dynamic course will help you cut your creative teeth on songwriting and music production. You'll be in a studio environment - learning contemporary songwriting strategies, music production technology and skills, nuances of performance, and recording techniques, as well as creating music for other media like games, film/screen and for live performance.

Your growth and development will be assessed through the completion of industry-based projects, not theoretically based essays. These projects will contribute to your personal song/music portfolio that you'll be able to showcase to the music industry.

Areas of study: Contemporary songwriting, music production practice, acoustic and electronic music, recording techniques, principles of sound, music and audio technology. **Note:** Duration is two years full-time. Part-time study available for eligible applicants (excluding international student visa holders).

SAE has a range of approaches to learning and teaching that can be activated to provide flexibility in the face of changing circumstances as required, to support student progression regardless of external factors.

Career opportunities: Studio composer, music producer, sound designer, live music performer, commercial composer, studio musician, music technician, creative director, music programmer.

❄ *Admission was based on additional entry requirements only.*

SAE has a range of approaches to learning and teaching that can be activated to provide flexibility in the face of changing circumstances as required, to support student progression regardless of external factors.
Specialisations: Games design (advanced game design, foundations of 3D graphics, game audio, games as media, level development and psychology of play); games programming (applied mathematics, game engine architecture, games technology, programming and tools development).

Career opportunities: Level Designer, Product Manager, Producer, Unity Developer, Quality Assurance, User Interface Designer, User Experience Designer, Lighting Designer, Gameplay Programmer, Community Manager, Localisation Manager, Software Developer, Tools Developer, Networked Multiplayer Developer, Graphics Programmer, Games Writer.

❄ *Admission was based on additional entry requirements only.*

Associate Degree of Songwriting and Music Production

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
062053 Brisbane	2F or 4P	❄	❄	Sep 2022 Feb 2023 May 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Interview.
Additional entry information: Entry to this program requires an interview/audition or evidence of music practice/portfolio. SAE will contact applicants to arrange an interview. For information about the interview, contact SAE Brisbane on 1800 723 338. Portfolios may include: links to your music or musical performances on YouTube, SoundCloud, links to online portfolio pages, a statement providing an overview of existing skills and knowledge in music production, including examples from senior secondary music classes, AMEB and CPM certification, appointment in school orchestras or bands, etc.

Course outline: In preparation for an industry that commands agility and adaptability, this dynamic course will help you cut your creative teeth on songwriting and music production. You'll be in a studio environment - learning contemporary songwriting strategies, music production technology and skills, nuances of performance, and recording techniques, as well as creating music for other media like games, film/screen and for live performance.

Your growth and development will be assessed through the completion of industry-based projects, not theoretically based essays. These projects will contribute to your personal song/music portfolio that you'll be able to showcase to the music industry.

Areas of study: Contemporary songwriting, music production practice, acoustic and electronic music, recording techniques, principles of sound, music and audio technology. **Note:** Duration is two years full-time. Part-time study available for eligible applicants (excluding international student visa holders).

SAE has a range of approaches to learning and teaching that can be activated to provide flexibility in the face of changing circumstances as required, to support student progression regardless of external factors.

Career opportunities: Studio composer, music producer, sound designer, live music performer, commercial composer, studio musician, music technician, creative director, music programmer.

Diploma of Screen and Media (Creative Industries)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
061131 Brisbane	0.67F or 1.33P	New Course	New Course	Sep 2022 Feb 2023 May 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Interview. **Additional entry information:** SAE will contact applicants to arrange an interview. For information about the interview, contact an SAE Course Advisor on 1800 723 338.

Course outline: The creative industries are dynamic and encompass a wide variety of businesses; knowing where you want to specialise can be difficult.

This hands-on diploma provides you with an introduction into what it's like to work in creative fields such as animation, audio, design, film, mames and music. You will explore 3D modelling, animation concept development, audio recording, audio editing, poster design, web design, screenwriting, video editing, title sequences, game design, game concept development and music production.

You'll engage in a collaborative, simulated work environment to produce a creative media project and be directed through project management methods to bring creative concepts to life.

You'll earn the foundations of industry-standard creative media tools, such as Maya, Ableton, Unreal Engine, Pro Tools and the Adobe Creative Suite.

Areas of study: Animation, audio, design, film, games, music. **Note:** Duration is seven months full-time. Part-time study available for eligible applicants (excluding international student visa holders).

SAE has a range of approaches to learning and teaching that can be activated to provide flexibility in the face of changing circumstances as required, to support student progression regardless of external factors.

Career opportunities: Junior multimedia designer, junior multimedia producer, junior film producer, junior audio engineer, junior graphic designer, junior games designer, junior music producer.

Undergraduate Certificate in Graphic Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
061113 Brisbane	0.25F	New Course	New Course	Sep 2022	25 Aug 2022

Prerequisites: Completion of Year 12 or attained age 17 years; Interview. **Additional entry information:** SAE will contact applicants to arrange an interview. For information about the interview, contact SAE Brisbane on 1800 723 338.

Course outline: The Undergraduate Certificate in Graphic Design enables students to learn the tools, techniques, principles and user-centred design for print and digital output. Students will apply design thinking and project management processes, and engage in the development of workplace skills desired by this industry.

Key topics covered within the program include: design processes, user experience design, print and digital design, creative problem solving, critical reflection, working under supervision in a paraprofessional role, introductory design and critical reflection processes, technical workflows, introductory project management.

To complement your technical skills, you will graduate with knowledge about: employability skills specific to creative media Communication, including how to communicate specialist technical and creative ideas and perspectives in the graphic design discipline to others, introductory project management methodologies, teamwork and collaboration in the context of creative media, scholarly knowledge relevant to your creative practice and further study.

Upon completion, you will be eligible for up to 40 credit points towards the Diploma of Graphic Design. **Note:** Duration is three months full-time.

The Undergraduate Certificate in Graphic Design is an online program, supported by SAE's Australian campus infrastructure and facilities. Students wishing to enroll in the program are advised that they will require access to the following specialised hardware and software resources to complete the projects contained within the program.

Computer Hardware: modern Windows or Mac computer with specifications suitable for graphic design.

Software: Adobe Creative Cloud.

Career opportunities: Entry level graphic designer, entry level typographer, entry level illustrator, graphic design production assistant, junior mobile first design and layout assistant.

Undergraduate Certificate of Augmented and Virtual Reality Application Development

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round

TAFE QUEENSLAND

Bachelor of Arts and Design (Honours)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555110 South Bank	1CL	New Course	New Course	Feb 2023 Aug 2023	12 Jan 2023 20 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; Prior study. **Additional entry information:** This course is open to University of Canberra students who have completed a degree in the Faculty of Arts and Design with at least a grade point average of 5.0 or better (equivalent to a credit average), or students from a three-year degree in a cognate discipline with a relevant major in which they received a grade point average of 5.0 or better. Pass degree graduates in similar disciplinary fields from other universities, with comparable results, may also be eligible to undertake this honours degree. Students are to undertake the thesis component of their degree in a subject area related to their disciplinary competence. They must show evidence of having performed in some subjects relevant to the proposed study at Distinction level or above. Contact TAFE Queensland, South Bank Campus for more information.

Course outline: This honours program, delivered in partnership with the University of Canberra, will take your studies in the creative industries to the next level. Students have two options for how to complete the program. The first option is to develop a project to work on throughout your honours year and write an accompanying dissertation. The second option is to write a longer dissertation as the sole focus of your research. The units in this honours program have been specially designed to guide you on your research journey. You will also have a supervisor who will act as your mentor throughout the academic journey of your honours studies. Working closely with expert supervisors, you will develop the high-level skills required for research or project-based employment. This qualification will significantly broaden your future career prospects and also provides a direct pathway into masters or PhD studies. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au.

Career opportunities: Actor, theatre producer, fashion designer, visual artist, graphic designer, interior architecture, game designer, composer musician, museum curator, policy advisor, researcher.

Bachelor of Creative Industries (Acting and Performance)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555999 South Bank	3CL	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; Audition. **Additional entry information:** Audition/portfolio submission is required separate to the QTAC application. TAFE Queensland, South Bank will send out official correspondence inviting audition/portfolio submission once the QTAC application has been submitted. Applicants will be contacted to arrange a date and time of audition and details regarding audition pieces. Contact the TAFE Queensland, South Bank on 1300 308 233 for audition/portfolio requirements. **Closing date:** QTAC applications for this course close: 2 December 2022 for semester 1, 2023 entry. To be considered after this date, interested applicants should contact TAFE Queensland, South Bank on 1300 308 233.

Course outline: Take centre stage and establish your acting and performance career with this degree. Students will develop a range of highly advanced practical skills and specialised knowledge. This program focuses on the craft and art of acting and performance. The course offers lively, detailed and focused training in acting, voice and body skills and gives students regular performance opportunities to perform for live audiences. Students will unleash their creative voice as an independent performance maker and develop as an actor and performer who thinks for themselves and respects their own ideas and ideals. During the course students will be exposed to plays, readings, online resources and academic materials that have been designed to inspire, challenge and motivate the training actor. The program is tailored for those students who want to engage in a professional career as a stage or film actor, performing artist or performance maker. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au.

Career opportunities: Actor, performer, main-stage theatre, independent theatre, film and TV, self-devised work, producer, playwriter, director, radio, voice-over work.

☆ All qualified applicants were offered a place.

Bachelor of Creative Industries (Applied Fashion)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
536029 Mount Gravatt	3CL	☆	☆	Feb 2023 Aug 2023	12 Jan 2023 20 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; Portfolio. **Additional entry information:** Portfolio and interview requirements are separate to the QTAC application. TAFE Queensland, South Bank will send out official correspondence inviting portfolio and interview submissions once the QTAC application has been submitted. Applicants are selected on the basis of their portfolio and interview only. **Closing date:** QTAC applications for this program close: 2 December 2022 for semester 1, 2023 entry; and 15 May 2023 for semester 2, 2023 entry. To be considered after these dates, interested applicants should contact TAFE Queensland, South Bank on 1300 308 233.

Course outline: Add flair to your career in fashion with this hands-on degree and develop a broad range of advanced technical and creative skills. Delivered in partnership with the University of Canberra, this course features an innovative and applied approach to fashion education. Students will engage in holistic creative projects and learn problem solving and analytical tasks which prepare students for work within the industrial, social and cultural creation frameworks needed to build a career in this dynamic field. Students will also learn to develop fashion concepts and communicate those concepts through cutting edge visual artefacts, and produce fashion items within well-articulated design briefs. Students will graduate with advanced technical skills in fashion design and manufacturing, alongside theoretical understandings of how the fashion system works. Students will be able to enter the exciting and diverse fashion industry with a strong commitment to creative approaches for problem solving, and a personal design philosophy which is demonstrated in proficiency in pattern engineering and 3D garment construction through applied apparel technology. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place course. For more information visit tafeqld.edu.au.

Career opportunities: Fashion coordinator, production manager, fashion designer.

☆ All qualified applicants were offered a place.

Bachelor of Creative Industries (Contemporary Music Practice)

		Unadjusted	Adjusted		
536010 Mount Gravatt	$3^{1/2}$CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: The diploma course will give you the specialised skills and knowledge to flourish within the design, manufacturing, wholesale or retail areas of the fashion industry. This course gives you the advanced skills to work independently or collaboratively within a constantly evolving sector. You will also develop advanced understanding of design processes and product development, as well as technical production skills to support management and fashion businesses. TAFE Queensland's fashion training centres are the ideal place for you to launch your fashion career. The degree course offers students a unique opportunity to study fashion. A major strength of this course is its position within a specialist design, visual arts, and multi-media institution with the potential for students to work alongside other cultural and creative disciplines. The course prepares students for a career in the highly competitive fashion industry by ensuring that graduates have the vocabulary and industry knowledge they need to succeed. Students in this course are expected to be autonomous and have a strong work ethic, focused and highly motivated. The course is located in a dynamic and creative studio environment. Individual development is supported and nurtured through experimentation, exploration and innovation. The course aims to initially develop student's key skill sets covering research, design, manufacturing and pattern cutting, which will underpin a personal design philosophy. **Note:** This combined qualification leads to the awards of the Diploma of Applied Fashion Design and Merchandising and Bachelor of Creative Industries (Applied Fashion). The degree is delivered by TAFE Queensland in partnership with the University of Canberra. Applicants offered a place in the diploma course who are not eligible for a subsidised enrolment will pay full fee. Course outline: Do you dream of performing your music at Splendour in the Grass, or Byron Bay Bluesfest? Want to experiment with your laptop, your voice, guitar, bass, drums, keyboards (or any other instrument), with other like-minded creatives? Are you a songwriter who needs access to state-of-the art recording and production facilities? Do you aspire to teach music and nurture the passion of young students in schools or establish your own teaching studio? The Diploma of Music Industry / Bachelor of Contemporary Music prepares you for a portfolio career in music – the multi-faceted career pathway that is now most common for contemporary musicians. Tailor your degree towards your area of interest, whether it's production, performance, songwriting or other professional areas of the music industry. You will learn using state-of-the-art facilities at Coomera, taught by lecturers who are practising musicians with strong industry links. Coomera students will have access to four soundproof rehearsal rooms with a vocal PA and backline gear and a live performance space with a full line array sound system and professional lighting rig. Our main studio is a world-class recording facility with an SSL Duality mixing desk, offering the best in analogue and digital recording. All students participate in collaborative, practical music-making activities throughout the degree. An extensive ensemble program includes small and large repertoire-focused groups and student-led project bands. **Note:** Applicants offered a place in the diploma course who are not eligible for a subsidised enrolment will pay full fee. Fee subsidies and VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information. This dual award qualification is delivered in partnership with Southern Cross University. The degree is a Commonwealth supported place.

Career opportunities: Music industry professional, vocalist, musician, assistant sound engineer, stage manager, producer, live engineer, performer, songwriter, sound engineer, musical director, music educator, band and venue manager, publicist.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Music (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
723002 St Lucia	4F	❄	❄	Feb 2023	18 Nov 2022

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Audition. **Additional entry information:** Applicants must nominate their preferred audition instruments or intention to study composition on their QTAC application (maximum of three). Applicants may audition with one or two of the following instruments: bassoon; cello; clarinet; classical guitar; double bass; flute; harp; horn; oboe; percussion; piano; trombone; trumpet; tuba; viola; violin; voice; other. Applicants must also submit a separate *Application for Audition* form directly to the School of Music. Audition forms are available at music.uq.edu.au/auditions. Academic performance is also considered; an ATAR of 78.10-99.95 is highly desirable. **Closing date:** All applications for audition must be received by the School of Music by Monday, 15 August 2022. QTAC applications for this program close Wednesday, 30 September 2022.

Course outline: The Bachelor of Music (Honours) is for students wishing to pursue a professional career in music, and integrates the development of practical skills with theoretical and historical musical knowledge. You undertake practical study in your chosen instrument or voice for the first three years of the program, as well as courses in musicology, musicianship, and electives in other music study areas, followed by a research project in the final year of the program. You have opportunities to take part in master classes and student performances, including the Vice-Chancellor's Concert Series. There are also opportunities to participate in the Queensland Symphony Orchestra Internship program and the UQ Global Experience program. An audition is required for enrolment in this program: music.uq.edu.au/auditions.

Career opportunities: On graduation, you are well-equipped to pursue a range of professional music careers including orchestral and vocal performer, music educator, music journalist, music composer, orchestral or choral conductor, recording/sound engineer, arts administrator, and diversional therapist (further study required). **Special note:** If you wish to specialise in music education, enrol in the five-year dual program of Bachelor of Music (Honours)/Bachelor of Education (Secondary).

❄ *Admission was based on additional entry requirements only.*

Bachelor of Music (Honours)/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
723302 St Lucia	5F	83.05	85.05	Feb 2023	22 Dec 2022

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Audition. **Additional entry information:** Refer to Bachelor of Music (Hons) for audition information. Prerequisites: Applicant must have completed Year 12 or equivalent. **Additional entry information:** Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Branded Fashion Design course focuses on branding, production processes, digital design skills and fashion design for brands. You will learn how to create a range of brand-design solutions, liaise with others across the fashion industry and use the latest software to communicate your product design ideas.

Throughout the course, you'll discover how to produce clothing designs to industry standards while meeting budgets and timelines and how to manage the integrity and positioning of a brand. Led by highly regarded industry professionals, you'll investigate the theories behind design and marketing, evaluate communication and brand-fashion strategies, and scrutinise past, present and future fashion trends.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: The fashion industry is looking for creative thinkers who can combine fresh, original and inspiring designs with the practical and technical know-how to produce them for commercial success. Having this qualification under your belt means you can forge a path within many fashion and fashion-adjacent sectors, or launch your own clothing range.

Career paths:

Fashion Designer

Fashion Trend Forecaster

Fashion Buyer

Merchandise Planner

Brand Manager

Fashion Marketer

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Communication Design covers the full spectrum of visual design – from traditional print work to state-of-the-art digital design. You'll discover the building blocks of typography and learn about idea generation, digital media, design research, information design, and more.

The course explores the theory and practice of information design, and teaches how to think strategically and communicate with images, from initial concepts through to sophisticated visuals using a variety of media. In the Design Studio you'll collaborate with other students, as you would in a real-world studio, and follow briefs to come up with practical and effective outcomes that are ideal for their audience.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: The design work you do throughout your study contributes to your professional portfolio – your passport to a serious design career. Nationally recognised and highly respected, learning with Billy Blue provides you with comprehensive skills, know-how and confidence for a successful and dynamic career in the communication design space. With the skills and expertise gained from this course, plus your limitless imagination, you'll be in demand around the world.

Career paths:

Design Strategist

Service Designer

Art Director

Brand and Digital Designer

Illustrator

Bachelor of Game Design and Development

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
032219 Online	3F or 4–6P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Game Design and Development expands on design, artistic and technical skills for creating modern games and interactive projects. It covers the creation of elements such as environments, characters and stories for immersive experiences, and provides hands-on experience with industry-standard software under the guidance of experts.

Throughout the course you will work alongside lecturers who'll offer practical industry insights while you develop enhanced skills in 2D, 3D, animation, environment art, character art and an understanding of user experience in games. Working in teams, you'll develop electronic games across multi-platforms, including online, mobile and console in a similar environment to a real-world studio.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours: Approximately 90 hours

Career opportunities: As well as giving you practical skills, knowledge and design capability, this course encourages you to enhance soft skills such as communication, commercial approaches and an understanding of business realities. Everything you create here can go towards a high-quality portfolio of games-related assets to impress future employers. Plus, you can show you have published a professional-level game before you graduated.

Career paths:

Character Artist

Game Designer

Environment Designer

2D, 3D, 4D Animator

Texture Artist

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Interior Design (Commercial) provides the knowledge required to design the ever-changing features of our commercial environments, such as retail channels, hotels, restaurants, nightclubs and workspaces. It anticipates online virtual commercial environments, engages with contemporary theory and represents spatial environments with computer 3D modelling.

Throughout the course, you will explore the theoretical and practical elements of designing and making commercial interiors – branding, lighting, sustainability and materiality – to create environments that meet your client's needs. You will discover how commercial interior-design strategies are developed and assessed, as well as practical industry-based management skills, such as documentation, contract management, professional design practice and cross-disciplinary interaction.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: You'll engage with contemporary theory, gaining an overview of the interior-design trends of the past that still have a powerful influence today, as well as today's movements and what's around the corner. Our graduates have the creativity, skills and experience to create state-of-the art, attractive and appropriate commercial interiors, so they're in high demand with the world's best interior-design firms.

Career paths:

Interior Designer

Virtual Environment Designer

Retail Design Consultant

3D Computer Modelling Consultant

+ Regular offers will be made.

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Interior Design (Residential) is for designers who want to develop the skills and creativity to respond to contemporary challenges by adapting and leading 21st century residential solutions. This includes interiors in housing of all types, such as houses surrounded by gardens, high-rise living and multi-purpose homes in adaptive reuse environments.

Throughout the course, you'll discover the impact the selection of materials, lighting, joinery and furniture can have on your design, and explore technologies such as artificial intelligence and interactive audio-visual systems. This course teaches you environmentally sustainable practices while you investigate the finer details of interior design, such as fittings and fabrics, as well as societal issues which include our aging population, homelessness, evolving gender roles and the definition of family.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: In this course, you will engage with the many and diverse theoretical and practical elements of designing residential interiors. With this broad-ranging perspective, you will graduate with the skills and social awareness that will be invaluable as you start your career in one of many exciting and challenging avenues of interior design.

Career paths:

Interior Designer

Virtual Environment Designer

Residential Design Consultant

Innovative Home Technology Consultant

Property Stylist

Housing Solutions Strategist

Diploma of Film and Video

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
032237 Fortitude Valley	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +
032238 Online	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of Film and Video provides you with a base of knowledge and skills in screen-based video production and post-production. You will develop basic skills in cinematography, lighting, editing, colour grading and sound design.

Additionally, you will develop an understanding of and practical skills motion design, photography and all the leading software used in the industry. The course consists of shared subjects with cross-discipline diplomas and bachelors providing both on-boarding support, exposure to bachelor programs for pathway opportunities as well as a genuine exit qualification if you wish to enter directly into the field upon graduation.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: This course has been developed to provide a broad base of theoretical and technical knowledge necessary to leverage an exciting career in the film and video industry. Completing a Diploma of Film and Video Design provides opportunities to work in a range of roles across the industry, along with options for further specialisation at bachelor level.

Career paths:

Colour grader

Compositor

Social media video production

Titles designer

Video editor

Videographer

+ Regular offers will be made.

Diploma of Game Design and Development

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
032206 Online	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of Game Design and Development introduces the full spectrum of game art and design, from visual design fundamentals to game design conception and introductory game development processes.

You will be introduced to the technical tools and 3D construction techniques that are integral to the field. This diploma develops the necessary technical skills and exposure to game development processes to begin working in game development, or provide a clear pathway for further study.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Career opportunities: On successfully completing this qualification, you will have specific skills, knowledge and experiences to pursue employment in the game development industry in a variety of entry-level roles or develop your own entrepreneurial projects. You'll also have the necessary foundation to pursue further study in related design and technology undergraduate degrees.

Career paths:

Character Artist

Game Designer

Environment Designer

Diploma of Graphic Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
032223 Fortitude Valley	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +
032224 Online	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Diploma of Graphic Design explores the theory, practice and human connection of graphic design. Throughout the course, you'll challenge the conventions of current graphic design ideas and deliver engaging, appropriate and original solutions for everything from point-of-sale material to books and billboards.

You'll learn about design history and principles, ideas generation, brand identity, typography, design research and user experience. By examining logos, symbols and brands you'll have the opportunity to design your own unique brand and workshop it with other students, so you start to see your designs through the eyes of others. You'll also gain the skills to use industry standard graphic design software with confidence and flair.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: The Diploma of Graphic Design will give you key conceptual and technical skills to transform fantastic concepts into visual reality. You will graduate ready for entry-level employment in the graphic design sector and/or specialised design study at Bachelor level.

Career paths:

Graphic Designer

Brand and Identity Designer

Web Designer

Book and Publication Designer

Illustrator

+ Regular offers will be made.

Diploma of Interior Design and Decoration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
031204 Fortitude Valley	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +
032204 Online	1F or 2P	New Course	New Course	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: Diploma of Interior Design and Decoration provides the technical skills, industry knowledge and understanding of design processes that shape the environments in which we live, work, shop and eat. Throughout the Diploma of Interior Design and Decoration, you will explore various design processes and learn everything about materials and finishes while also developing skills in residential and commercial design.

Together with other students in the Design Studio, you'll learn about the principles and trends of interior design and how they fit into the design process; you'll explore issues of sustainability, and ways to design appropriately for a range of clients. You will test-run various design processes and collaborate on exciting projects based in the real world. The design work you produce throughout the course will contribute to your professional portfolio – to help you land serious work in this ever-exciting, always evolving creative industry.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Work placement hours : Approximately 90 hours

Career opportunities: We have carefully organised this course to share our Interior Design and Decoration expertise with you, from floor to ceiling. Every lesson gives you realistic, practical experience, the most current theoretical knowledge and insights into the diverse aspects of today's industry that will serve you well into the future. You'll graduate ready for an entry-level role or interior design and decoration studies at Bachelor level.

Career paths:

Interior Decorator

Interior Stylist

Soft Furnishings Consultant

Real Estate Home Stager

Events and Installation Designer

+ Regular offers will be made.

Diploma of Photography and Photo Imaging

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted

Bachelor of Music

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
011401 Sunshine Coast	3F or 6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Portfolio. **Additional entry information:** Digital portfolio consisting of 3 examples of your musical work with at least one example of original creative work (Video or Audio file submission). For information about the requirements for your digital portfolio submission, visit Digital portfolio submission guide for the Bachelor of Music. **Closing date:** 31 January 2023 for February 2023 intake. 27 June 2023 for July 2023 intake.

Course outline: USC's Bachelor of Music is your ticket to a sustainable career in the modern music industry. Taught by award-winning industry professionals and recording artists, this degree builds your creative, technical, performance and entrepreneurial skills to prepare you for a dynamic future. In this degree, you will hone your songwriting and performance craft under the guidance of leading industry practitioners, including ARIA award-winning artists, and develop your music production and sound design skills by managing recording sessions in USC's custom-built recording and editing studios. You'll learn about all aspects of the modern music economy, including music management, intellectual property management, public relations, agency operations and more, and get hands-on experience through a major industry project to facilitate your employability as a contemporary creative practitioner. **Note:** For information about the requirements for your digital portfolio submission, visit Digital portfolio submission guide for the Bachelor of Music. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Music producer, recording artist, published songwriter, music publisher, record label operator, tour manager, music events and promotion, studio engineer, live sound engineer, music entrepreneur, performer, music educator, sound designer, audiologist, music therapist, eco-musicologist, composer, interdisciplinary practitioners and music researcher.

Diploma in Creative Industries

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
015701 Sunshine Coast	1F or 2P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014701 Moreton Bay	1F or 2P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years; No prior study. **Additional entry information:** Applicants who have already completed a higher education qualification (AQF Level 5 or above or equivalent), excluding VET sector diplomas, are not eligible for entry into this program.

Course outline: Students learn about professional communication, key software applications, information management and plan their own careers in an exciting, fast-paced industry. Elective courses include media, writing, visual communication, graphic design and more. Students put their learning and talent into practice by developing reports, pitches, proposals and concept documents for innovative new products or services in the creative industries. **Note:** On successful completion of the diploma, students are eligible for entry into, and receive 96 units* of credit towards the Bachelor of Creative Industries.

Undergraduate Certificate in Game Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013703 Sunshine Coast	1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014703 Moreton Bay	1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
015703 Online	1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: In this undergraduate certificate you will learn the fundamentals of gameplay design and game production using the latest game engine technology and digital design software, build and apply skills in game design and development to address a range of real-world problems, including emerging opportunities in entertainment, education, healthcare, marketing and more. You will become equipped to pursue an entry-level role in a professional game studio or progress towards further study in the Bachelor of Design. **Note:** The Undergraduate Certificate in Game Design provides a pathway into the Bachelor of Design. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Career opportunities in educational games, entertainment, entry-level software roles, graphic design and marketing

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Early Childhood Education (Birth to Five Years)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
113531 Brisbane	4F or 8P	62.15	62.15	Feb 2023	12 Jan 2023
113535 Distance ed	4FL or 8FL	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Assumed knowledge:** General Mathematics (Units 3 & 4, C).

Course outline: This course is for students interested in teaching children from birth to five years, who see themselves as future educational leaders in the field, with units that address individual teacher identity and professional development. Students gain a strong grounding in curriculum and are well equipped with the knowledge and skills to respond to the diversity within the sector. **Note:** In addition to on-campus study, this course is available by flexible delivery, which means students have the opportunity to study the entire degree fully online or in a blended mode and can choose between online and on-campus units according to individual preference. This course does not lead to primary or secondary teacher registration. **Other requirements:** Students must complete professional and volunteer experience in line with the requirements of the Australian Children's Education and Care Quality Authority, as continuous, full-time blocks. This consists of prior-to-school based learning experiences, structured observational tasks, community engagement, and Professional Experience Program in prior-to-school settings. A Suitability Card is required; refer to institution.

Career opportunities: Four-year trained early childhood teacher, early childhood leadership, management and advocacy, kindergarten teacher, policy developer. This course does not lead to registration with the Queensland College of Teachers.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Education (Early Childhood and Primary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
113541 Brisbane	4F or 8P	59.70	63.55	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** To apply for all initial teacher education courses you will need to complete a suitability for teaching assessment as part of your application. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Course outline: This course provides the professional and academic education for graduates to become teachers in primary schools and early childhood settings. By selecting religious education and/or theology units, graduates will be eligible to teach in Catholic and other faith-based schools. Students not seeking such accreditation take alternative studies. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. For successful completion of all initial teacher education courses, students are required to demonstrate they have met mandatory approved benchmarks in both literacy and numeracy, evidenced through LANTITE (Literacy and Numeracy Test for Initial Teacher Education). Transferring into an ITE course from another institution, does not reset your LANTITE sitting allowance. If you have not met the standard for either component after your first attempt, it is very important that you contact the Course Coordinator immediately to discuss your options.

Career opportunities: Early childhood teacher, primary school teacher, educator, policy developer.

Bachelor of Education (Primary and Secondary)

The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Course outline: Gain the skills and expertise to become a secondary mathematics teacher. As a graduate of this course, you will be a qualified mathematics teacher proficient in innovative curriculum, teaching and assessment practice. This course includes university level mathematics, extending your knowledge to ensure you have a deep understanding of the content in the secondary school curriculum and where it might lead. You will develop a contemporary understanding of the variety of ways students learn mathematics and the diversity of teaching approaches needed to ensure all students understand mathematics. To develop discipline expertise, in addition to the mathematics major, students select one major and one minor from literature, history, visual arts, drama, business studies, music, or study of religions. **Majors:** Mathematics **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. Bachelor of Education (Secondary)/Bachelor of Arts (Visual Arts)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
113671 Brisbane	4 1/2F or 8P	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** To apply for all initial teacher education courses you will need to complete a suitability for teaching assessment as part of your application. The assessment ensures students have a balanced mix of academic and non-academic qualities. For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Course outline: The Bachelor of Education (Secondary)/Bachelor of Arts (Visual Arts) is a double degree for students who want to teach visual arts in secondary schools, such as high schools, and build their skills in visual media. More than just a teaching degree, this is also a visual arts course where the subjects cover:

- two-dimensional media areas such as drawing, painting, printmaking and photography
- three- and four-dimensional areas such as sculpture and object design.
- Students also gain substantial professional practical experience during the course, such as preparing and curating exhibitions or preparing and developing a commissioned artistic project.

The inclusion of units in theology and religious education will support accreditation to teach religious education. Students study Visual Arts as a major and will also choose to study another specialisation from the Arts Disciplines. **Majors:** Visual Arts **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. For successful completion of all initial teacher education courses, students are required to demonstrate they have met mandatory approved benchmarks in both literacy and numeracy, evidenced through LANTITE (Literacy and Numeracy Test for Initial Teacher Education). Transferring into an ITE course from another institution, does not reset your LANTITE sitting allowance. Bachelor of Education (Secondary)/Bachelor of Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
113481 Brisbane	4F or 8P	58.20	64.20	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Course outline: This double degree is designed for students wishing to pursue a career in education, specialising in physical education, personal development or health education. The double degree combines compulsory education, curriculum and teaching units. Students select units in an exercise science major and in a minor of choice to qualify to teach in two core discipline areas. **Other requirements:** Students must complete mandated, supervised professional experience placements in educational contexts as continuous, full-time blocks to meet teacher accreditation requirements in Australia. Students must also undergo a criminal history check and obtain a Suitability Card as required by relevant jurisdictions before the first professional experience placement. All students in initial teacher education courses must meet the LANTITE test standard prior to graduation. You need to demonstrate once that you have met the standard for each test component (literacy and numeracy) before you undertake your final teaching placement. Test results are transferrable and do not expire. Transferring into an ITE course from another institution does not reset your LANTITE sitting allowance. If you have not met the standard for either component after your first attempt, it is very important that you contact the Course Coordinator immediately to discuss your options.

Career opportunities: Secondary school teacher, government departments.

Bachelor of Educational Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
113311 Brisbane	3F or 6P	64.65	64.65	Feb 2023	12 Jan 2023

Prerequisites: Applicant must have completed Year 12 or equivalent.

Course outline: This degree is aimed at students who aspire to develop their careers in schools and educational settings but in fields other than teaching. The course offers also offers a pathway into an initial teacher education degree such as the Bachelor of Education (Primary) or the Bachelor of Education (Early Childhood and Primary) degrees. The focus of this course is contemporary education. Graduates have opportunities to develop their knowledge and skills in areas such as learning theory, educational technology and curriculum studies, in addition to good foundations in disciplinary knowledge.

Career opportunities: Corporate trainer, educational designer, curriculum writer, educational consultant, vocational educator, adult learning adviser. Further study enables students to become an early childhood, primary or secondary school teacher.

CHRISTIAN HERITAGE COLLEGE

Bachelor of Arts/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
091201 Carindale	4F or 8P or 4X or 8X	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years; LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry. With regards to teaching areas, applicants must nominate one major and one specialisation (minor) from the areas of study. The minor selected cannot be the same area as the major. It is highly desirable that applicants select teaching areas that they have successfully studied in their Senior schooling.

Course outline: This online or on-campus course prepares you for the full range of Secondary years teaching (Years 7-12) in two teaching areas, with a strong focus on building academic capacity, personal development and a love of learning within students. This combined degree offers a humanities-based major and other subject minor in content specialisation, blended with a full range of educational, curriculum and pedagogical studies infused with value-rich Christian perspectives.

Extensive professional experience placements are available across all education sectors and localities within Australia. Our aim is to develop you into an inspirational and transformative educator. **Note:** Modes of study can be combined. Contact CHC for information. **Majors:** Biblical studies; drama; English; history. Contact CHC for other majors available via cross-institutional study. **Specialisations:** *Minors:* accounting; biblical studies; business; drama; English; health and physical education; history; mathematics; science; psychology. **Other requirements:** Students complete 110 days of supervised practicum during the course. Students may have to travel and incur costs associated with travel and accommodation. Students are generally placed in Brisbane and south-east Queensland, although placements are available further afield. Students experience at least one placement outside Brisbane and are encouraged to consider rural placements. A Suitability Card is required; refer to institution. Students must undertake and meet the benchmark for the Personal Literacy and Numeracy Test for Initial Teacher Educators (LANTITE) prior to graduation.

Career opportunities: Teaching in two teaching areas from Years 7-12 in Christian, independent and government schools, administrator in education, other training contexts.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Completion of Year 12 or attained age 17 years; LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Program outline: Launch a rewarding career in the education sector with a course that features embedded pathways, real-world opportunities, and extensive practical placements. CQUniversity's Bachelor of Education (Early Childhood) is an initial teacher education course usually studied over a period of four years. On successful completion of the course, students will be eligible for employment in primary schools from Prep to Year 6 and in early childhood settings (long day care settings and

kindergartens/pre-prep) throughout Australia. In addition to building the professional knowledge and skills required to teach effectively, the course is designed to foster dispositions for engaging in and contributing to the teaching profession through a commitment to ongoing professional learning. A unique feature of this course is the opportunity to gain a nationally recognised Diploma of Early Childhood Education and Care after completing the first year of full-time study. **Note:** To be eligible for teacher registration, students in this course are required to undertake and pass the National Literacy and Numeracy Test for Initial Teacher Education Students (ITE) prior to graduation. This test, referred to as LANTITE, is administered Nationally by the Australian Council of Education Research (ACER). **Other requirements:** Students must be in possession of a current Positive Notice Blue Card (or equivalent), "Working with Children" check issued in other Australian states or territories) to be eligible for placement in a school site.

To be eligible to complete placements in early childhood settings, pre-service teachers may be required to show proof of immunisation against measles, mumps and rubella and influenza. In addition, some states and territories are requiring vaccination against COVID-19 for all school staff. Please be aware that these regulations would apply to preservice teachers. Regulations may be introduced in any state prior to, or at the time of, scheduled placement/s and all students must adhere to these requirements.

Students must meet the inherent requirements for teaching and must ensure they adhere to any requirements within the scope of teaching across the curriculum learning areas. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: As a graduate, students will be qualified to teach in primary school settings from Prep to Year 6 and in specialist early childhood contexts, including childcare and kindergartens throughout Australia.

Program outline: This course produces well-rounded graduates who qualify for professional registration as a secondary school teacher within Australia. Students will benefit from frequent and meaningful opportunities for work experience and professional practice in authentic educational settings. Students choose two teaching disciplines to focus on, such as biology (including year 7 - 10 science), business, chemistry (including year 7 -10 science), English, geography, health and physical education (including year 7 - 10 HPE and year 11 - 12 physical education), history, home economics and hospitality, industrial technology and design, mathematics and psychology (including 7 - 10 science). **Specialisations:** Biology; business; chemistry; English; geography; health and physical education; history; home economics and hospitality; industrial technology and design; mathematics; psychology. **Other requirements:** Students must be in possession of a current Positive Notice Blue Card (or equivalent "Working with Children" check issued in other Australian states or territories) to be eligible for placement in a school site.

Some states and territories are requiring vaccination against COVID-19 for all school staff. Please be aware that these regulations would apply to preservice teachers. Regulations may be introduced in all states prior to, or at the time of, scheduled placement/s and students must adhere to these requirements.

Students must meet the inherent requirements for the chosen teaching area (minor) pathway selected and must ensure they adhere to any requirements within the scope of teaching these subjects within schools.

For full course requirements, visit cqu.edu.au/courses.

Career opportunities: On completion of the Bachelor of Education (Secondary), students will be qualified to teach two specialist areas within secondary schools to Year 12.

✦ Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.

Diploma of Secondary School Teaching

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
852055 Online	$2^{1/2}$X	☆	☆	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Current teaching registration. **Additional entry information:** Applicants are required to provide certified evidence of current teacher registration.

Program outline: The Diploma of Secondary School Teaching is a professional development course designed for both primary school and secondary school teachers who already hold a teaching registration. The course will allow primary school teachers who want to transition into secondary schools to teach in either Junior Mathematics and Science; Junior English and History; or one of the teaching areas available in the course. The Diploma of Secondary School Teaching is also suited for secondary school teachers who want to improve their discipline content knowledge within an existing teaching area or gain discipline content knowledge in order to add a new teaching area. While completing the course students will benefit from the unique model of supported on-site school delivery and online study, which involves experienced school-based teaching staff on-site and university staff online. The flexibility of this course ensures that study needs are met and allows students to gain the appropriate content knowledge for the Australian Curriculum areas at a secondary school level. **Note:** Depending upon the Major (Teaching Area) chosen, students may need to attend Residential Schools. **Majors:** Biology; Business; Chemistry; English; Geography; Health and Physical Education; History; Home Economics; Industrial Technology and Design; Junior English and History; Junior Mathematics and Science; Mathematics; Psychology.

Career opportunities: On completion of this course, graduates will be prepared to make the transition from a primary school teacher to a secondary school teacher or have acquired content knowledge to add a new teaching area.

FEDERATION UNIVERSITY AUSTRALIA

Bachelor of Education (Early Childhood and Primary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041152 Online	4F	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicant must be 16.

Program outline: With this degree you'll gain the skills and knowledge to be a confident teacher in settings that range from pre-schools through to Year 6.

You'll gain experience in schools and various programs which will help you to perfect your skills and develop your understanding of what it takes to be a teacher. You may choose to work with children with disabilities or support those who are disengaged with learning. You'll learn exactly what type of teacher you are and how to use your unique skills for the benefit of your students.

You can choose your entry point and tailor your studies to finish in three to four years, depending on previous qualifications.

You will undertake 110 days of supervised teaching placement in both early childhood and primary settings. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online on our website. **Other requirements: Extra Requirements:**

Essential requirements for selection and application

CASPer: All applicants are required to complete Altus Suite as part of their application. Altus Suite is a requirement for many of the initial teacher training courses in Victoria. It is a non-cognitive online test designed to assess an applicant's personal and professional attributes. Altus Suite consists of two-parts, however only the Casper component is compulsory for Federation University applications. To register for your sitting or for further information about the assessment, visit TakeAltus.com

Altus Suite:

Part One (Compulsory)

Casper: 60-90 minute online, open-response situational judgment test (SJT)

Part Two (Recommended)

Snapshot: 10-minute one-way video interview with standardised questions

Completion of Snapshot is recommended but not compulsory for Federation University applications.

Don't miss the deadlines for each offer round.

Working with children check

Applicants will be required to hold a valid Working with children check.

Career opportunities: Day care educator, Early childhood educator, Kindergarten teacher, Preschool teacher, Primary teacher

+ *Regular offers will be made.*

Bachelor of Education (Early Childhood Education)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041122 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023 Nov 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicant must be 16.

Program outline: Become a confident and qualified early childhood teacher with Federation University.

You may be working in the early childhood field and want to upskill, straight out of school or changing careers. You will discover how young children learn and how you can develop and support their learnings in these critical early years. This is a hands-on course that will get you into the classroom for a minimum of 80 days of supervised teaching placement so you can put into practice what you have learnt. You will develop the skills to teach in a variety of early education settings which may include kindergartens, pre-schools and long day care centres, including those in special needs settings.

A range of scholarships from the Victorian Department of Education and Training are available to help support your dream of a becoming an early childhood teacher, especially if you're a regional student.

The Diploma of Early Childhood Education and Care is a pathway into the Bachelor of Education (Early Childhood Education). You may receive 1 year of credit (120 credit points) through this pathway.

We provide a number of pathways and options to ensure you can follow your dream of becoming a great teacher. Visit our Become a Teacher website and use our interactive study tool to find your path to a rewarding career in education. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online on our website. **Other requirements:** Admissions Criteria for applicants with work and life experience:

Applicants who have not completed secondary education, or undertaken any TAFE or university studies should include a personal statement detailing all relevant experience to strengthen their application.

Literacy and Numeracy test: If VCE Maths and/or English requirements or equivalent have not been met, a literacy and/or numeracy assessment is required to demonstrate the prerequisite requirements.

Extra Requirements:

Working with children check: Applicants will be required to hold a valid Working with Children (WWC) Check prior to undertaking professional placements.

Career opportunities: Day care educator, Early childhood educator, Kindergarten teacher, Preschool teacher.

+ *Regular offers will be made.*

Associate Degree of Vocational Education and Training

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041154 Online	1 1/2–2P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16. **Additional entry information:** If students already hold the Diploma of VET Practice or Diploma of VET, they need only study six courses.

Semester One: February to June

EDTAS 1203: Writing and Analysis for Study and Work

EDTAS 2001: Learning Theories: VET in Context

Semester Two: July to November

EDTAS 1204: Applied Research and Reflective Practice in VET

EDTAS 2003: VET Links with the Economy and Industry

Semester Three: February to June

EDTAS 2005: Contemporary VET Pedagogical Practice

EDTAS 2004: VET in Society

To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on our website.

Program outline: This qualification is for teachers and trainers within the vocational education and training sector, in TAFE, Registered Training Organisations, industry or adult education settings; or for people wishing to work in such settings. The qualification equips VET teachers and trainers with high-level skills and knowledge to handle the challenges of industry engagement, new modes of learning and a changing VET environment. You will acquire: an understanding of the principles and practice of competency based education and assessment relevant to a range of settings; insight into the broad social, economic and political context for VET; an understanding of learning theories and how to apply them; knowledge and techniques to address literacy and numeracy needs of learners; an ability to analyse, and think critically and constructively about, issues and developments in the VET sector; advanced skills in teaching practice; skills and knowledge to liaise with industry at local and national levels; skills and knowledge in reflective practice and applied research; confidence to pursue higher-level university studies;

This part time course is delivered over 2 years, or 1.5 years if you have already completed a Diploma of VET or Diploma of VET Practice.

Career opportunities: TAFE teacher, Vocational education teacher, Registered training organisation trainer, Training consultant, Vocational education and training (VET) teacher.

Students will enjoy enhanced career opportunities as teachers and trainers within the vocational education and training sector, in TAFE, Registered Training Organisations, industry or adult education settings.

This qualification meets the requirements for an AQF level 6 or above teaching qualification in the Victorian TAFE Teaching Staff Agreement. This enables teachers to proceed beyond the fifth incremental salary point.

+ Regular offers will be made.

GRIFFITH COLLEGE

Diploma of Educational Studies (Primary Teaching selection)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
085005 Gold Coast/ Griffith University - Gold Coast	1F or 2P	☆	☆	Feb 2023	12 Jan 2023
085003 Mt Gravatt	1F or 2P	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: The higher education Diploma of Educational Studies is designed to help successful graduates transition into the Bachelor of Education. If you need additional English, maths or science qualifications to be eligible for a teaching degree, this new diploma is perfect for you. Rather than needing to complete extra study, including bridging and enabling subjects, you can meet the requirements while studying this one-year diploma. Students will develop critical and reflective thinking skills to understand the complexities of what it means to be a teacher in today's world. Successful graduates can apply for the Bachelor of Education degree with either primary or secondary majors. See entry for the combined diploma degree. **Note:** Subject to satisfactory completion of the Diploma of Educational Studies and meeting the Non-Academic Requirements for Teacher Entry (NARTE), students are eligible for up to 60/70 credit points into the Bachelor of Education at Griffith University. The amount of credit available depends on the choice of major within the degree. Contact Griffith College for more details. **Majors:** Bachelor of Education: Primary / Secondary **Other requirements:** A Suitability Card is required; refer to institution. Students undertaking an initial teacher education program will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) to graduate from the bachelor program. Students are permitted three test attempts in total for each component. If students fail three test attempts for each component, they will not be able to graduate.

Career opportunities: Griffith University Bachelor of Education graduates are in demand and find employment in the independent, Catholic and State education systems in Queensland as well as nationally and overseas. With further study you will be prepared for a career as a teacher in the public or private sector which can lead to senior positions such as a head of curriculum or positions with central school administration such as policy adviser or curriculum officer or principal.

Prerequisites: Completion of Year 12 or attained age 18 years.

Program outline: The higher education Diploma of Educational Studies allows successful students to transition into the Bachelor of Education by providing the prerequisite knowledge and skills needed to meet entry requirements. Students will develop critical and reflective thinking skills in order to understand the complexities of what it means to be a teacher in today's world. Upon successful completion of the diploma, graduates will enter the degree with 60 or 70 credit points depending on your major option. Completing the Bachelor of Education, you will meet the national accreditation requirements of the Australian Institute for Teaching and School Leadership. See Griffith University's Bachelor of Education for more information. **Note:** Subject to satisfactory completion of the Diploma of Educational Studies and meeting the Non-Academic Requirements for Teacher Entry (NARTE), students are eligible for up to 60/70 credit points into the Bachelor of Education at Griffith University. The amount of credit available depends on the choice of major within the degree. Contact Griffith College for more details. **Majors:** Bachelor of Education: Primary / Secondary **Other requirements:** A Suitability Card is required; refer to institution. Students undertaking an initial teacher education program will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) to graduate from the bachelor program. Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Program outline: The higher education Diploma of Educational Studies is designed to help successful graduates transition into the Bachelor of Education. If you need additional English, maths or science qualifications to be eligible for a teaching degree, this new diploma is perfect for you. Rather than needing to complete extra study, including bridging and enabling subjects, you can meet the requirements while studying this one-year diploma. Students will develop critical and reflective thinking skills to understand the complexities of what it means to be a teacher in today's world. Successful graduates can apply for the Bachelor of Education degree with either primary or secondary majors. See entry for the combined diploma degree. **Note:** Subject to satisfactory completion of the Diploma of Educational Studies and meeting the Non-Academic Requirements for Teacher Entry (NARTE), students are eligible for up to 60/70 credit points into the Bachelor of Education at Griffith University. The amount of credit available depends on the choice of major within the degree. GRIFFITH UNIVERSITY

Bachelor of Education

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
223342 Mt Gravatt	3 1/2F or 8P	62.10	70.10	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
261422 Logan	3 1/2F or 8P	64.05	70.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
232272 Gold Coast	3 1/2F or 8P	62.15	70.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details; Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry. **Primary education:** Students selecting primary education from year 2 also need to have completed a General science subject (Units 3 and 4, C). **Secondary education:** It is recommended that students select teaching areas that they have successfully studied in their senior schooling. In particular, for the mathematics teaching area – Mathematical Methods or Specialist Mathematics and for chemistry, physics or biology teaching areas – Chemistry, Physics or Biology respectively. **English Language Proficiency requirements:** Apply to all applicants whose previous studies were completed in a country other than Australia, Canada, New Zealand, Republic of Ireland, United Kingdom or the United States of America or undertaken in a language other than English. Applicants must attain an IELTS – academic (or equivalent) of 7.5 overall (with a minimum score of 8 in speaking and listening, and minimum score of 7 in each of the other subtests), obtained within two years prior to the start of the program, or the successful completion of one year of full-time bachelor level study where the language of instruction is English completed in Australia, Canada, New Zealand, Republic of Ireland, UK or USA. **Previous Education studies:** Succesful completion of the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) is not an entry requirement for this program. However, if you have achieved a 'satisfactory' result for one of more component of the LANTITE at another institution, the 'satisfactory' result can be carried across with your program application. You are not eligible to apply for a place in the program if one or more components of LANTITE remains at 'unsatisfactory' after two reset test attempts for that component. Griffith University does not support reset of LANTITE test attempts. **Closing date:** Applications for the March intake close 31 January 2023. Applications for the July intake close 18 June 2023.

Program outline: By studying this innovative degree, you will be equipped to teach in either primary or secondary settings. You can complete this degree in just three and a half years, giving you a head start in your teaching career. In your foundation year, you'll be equipped with a thorough understanding of fundamental teaching principles from a global perspective, with a focus on digital learning. You'll then select a major in either primary or secondary education, with the option to study a double major. You'll also undertake professional practice in every year of your studies. **Note:** Students study over three trimesters each year, completing the program in 3.5 years. Students from any campus can travel between campuses to undertake their selected major or minors. All courses in the Primary Health and Physical Education major except 4082EDN Specialist Planning in Health and Physical Education are also offered online. **Majors: Primary majors:** early childhood education (Logan, Online); health and physical education (Gold Coast); special needs education (Mt Gravatt, Online). **Primary minors:** English education (Mt Gravatt, Gold Coast, Logan, Online); mathematics education (Mt Gravatt, Gold Coast, Online); science education (Mt Gravatt, Gold Coast). **Secondary majors:** learning support (Mt Gravatt, Online). **Other requirements:** A Suitability Card is required; refer to institution. Students undertaking an initial teacher education program will need to successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) to graduate from the program. Students are permitted three test attempts in total for each component. If students fail three test attempts for each component, they will not be able to graduate.

Career opportunities: Griffith University graduates are in demand and find employment in the independent, Catholic and State education systems in Queensland as well as nationally and overseas. Your teaching career can also lead into senior positions such as a head of curriculum or positions with central school administration such as a policy adviser, curriculum officer or principal. Rather than teaching in schools, you could choose to follow a different pathway and work in training settings in industry and government, outdoor education, adult literacy, libraries, educational research, education policy, or consultancy.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Completion of Year 12 or attained age 18 years; LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Additional entry information:** All applicants for initial teacher education courses must satisfy both academic and non-academic entry criteria. QTAC assesses applicants' non-academic capabilities using an instrument developed with the Australian Council of Deans of Education.

Students must meet English language proficiency requirements for teacher registration in Australia, either on entry to or on graduation from the program.

Course outline: The course prepares teachers to work with children from birth to eight years, with specific emphasis on kindergarten, Preparatory year and Years 1-3. It includes professional experience commencing in the first year of the course. Students undertake practical work in a variety of educational sites, including rural and remote locations, and wider community settings. This course is nationally accredited through the Australian Children's Education & Care Quality Authority (ACECQA) and Australian Institute for Teaching and School Leadership (AITSL) in association with the Queensland College of Teachers (QCT). Graduates of this course are eligible for teacher registration in Australia. Visit: jcu.edu.au/courses/bachelor-of-education-early-childhood-education

The JCU Offer Guarantee does not apply to this course. **Note:** All education students must participate in a five-day intensive Professional Orientation Program on campus in the final year of their program. Online education students can study six subjects consecutively per year (one eight-week subject for six study periods a year), with the exception of professional experience placement in Australian educational institutions as required for professional accreditation. Students studying at Cairns campus will study up to 50% of their subjects online.

Students without a General Science subject can study the ED0195:03 Bridging Science for Teachers subject prior to commencing. **Other requirements:** A Suitability Card is required; refer to institution. All students must meet the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) standard prior to their final placement and Graduate Teacher Performance Assessment (GTPA). Refer to

teacheredtest.acer.edu.au. Applicants from non-English speaking backgrounds must meet the minimum English language requirements; refer to institution.

Career opportunities: Early childhood teacher, child care administrator.

Combined diplomas/degrees: Refer to entry for: D Higher Education (General Studies)/B Education (Early Childhood Education). This course can be combined with the following course at TAFE Qld: D Early Childhood Education and Care. Refer to entry for the diploma under TAFE Qld.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Additional entry information:** Successful applicants must complete CHC30113 Certificate III in Early Childhood Education and Care or CHC30121 Certificate III in Early Childhood Education and Care before progressing to the Diploma of Early Childhood Education and Care.

Course outline: This qualification reflects the role of educators in early childhood education and care who work in regulated children's education and care services in Australia. Educators at this level are responsible for designing and implementing curriculum that meets the requirements of an approved learning framework and for maintaining compliance in other areas of service operations. Graduates will gain specialised knowledge and will be required to analyse and apply theoretical concepts to diverse work situations. Study areas may include maintaining a safe and healthy environment for children, nurture creativity in children, work in partnership with children's families, implement strategies for the inclusion of all children, foster holistic early childhood learning, development and wellbeing and the facilitation of compliance in children's education and care service. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. Fee subsidies and VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/course/17/17801/diploma-of-early-childhood-education-and-care for information. **Other requirements:** A Suitability Card may be required. Students studying this course externally may be required to undertake a workplace observation. Contact the relevant TAFE Queensland campus for details.

Career opportunities: Early childhood educator, out of school hours care coordinator, early childhood centre director.

☆ *All qualified applicants were offered a place.*

THE UNIVERSITY OF QUEENSLAND

Bachelor of Music (Honours)/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
723202 St Lucia	5F	81.20	81.20	Feb 2023	22 Dec 2022

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement; Audition. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry. Refer to Bachelor of Music (Hons) for audition information. Most offers will be made for Bachelor of Music (Hons) in the 22 December 2022 offer round, however for music dual degrees (Bachelor of Music (Hons)/Bachelor of Education (Secondary), the offer round is 12 January 2023. Applicants must ensure they order their preferences accordingly. Refer to qtac.edu.au/applications/apply-here/preferences. **Closing date:** Refer to Bachelor of Music (Hons).

Program outline: Complete two degrees and gain a teaching qualification underpinned by strong disciplinary knowledge in classroom music and choral or instrumental music. This course is tailored specifically for students who want to pursue a career in music education. It offers you two years of intensive training on your chosen instrument (including voice) and three years of combined music and education courses. Graduates are prepared for the variety of teaching expected of music teachers throughout primary and secondary schools. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, you can work as a secondary or primary school music teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, or a guidance or career officer or head of department. Other career opportunities outside schooling include trainer for industry or business where knowledge of teaching skills and processes is in demand.

Bachelor of Arts/Bachelor of Education (Secondary)

UNIVERSITY OF NEW ENGLAND

une University of New England

Bachelor of Education (Early Childhood and Primary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
666981 Armidale	4F or 10P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Teaching Personal Statement; NSW Teacher Education Course Entry Requirements. **Additional entry information:** English (Units 3 and 4, A); a minimum of two other General subjects (Units 3 and 4, A). Contact the University for more information about the Teaching Personal Statement. Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: The Bachelor of Education (Early Childhood and Primary) is a unique teacher education course that offers two career options for graduates. It is an initial-teacher education qualification that encompasses working with children from birth to age 12 in both Early Childhood settings and Primary Schools. **Note:** This course is accredited with the New South Wales Education Standards Authority (NESA) and the Australian Children's Education and Care Quality Authority (ACECQA). **Other requirements:** The course includes 135 days of professional experience that can range from a few days through to six weeks (10 days in an online setting, 65 days in a primary school setting and 60 days in various early childhood settings). Students must complete a number of requirements prior to undertaking a professional experience placement; refer to institution for details. In Queensland, a Blue Card is required. Teacher education students must pass the National Literacy and Numeracy Test for Initial Teacher Education Students before their graduate level professional experience placement; visit dese.gov.au/uncategorised/resources/literacy-and-numeracy-test-initial-teacher-education-students-fact-sheet for more information. Students must also complete a Teaching Performance Assessment during their final professional experience placement.

Career opportunities: Studying the combination of early childhood and primary teaching feeds directly into a variety of employment opportunities in the education profession, including:

- primary school teacher
- early childhood teacher
- director of a children's service, coordinator of family day care scheme, teacher-director of a preschool, children's services
- TAFE teacher or VET trainer
- early childhood consultant for non-profit organisations
- assistant director of child and family services or early childhood specialist for family-oriented organisations.

Bachelor of Educational Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
666921 Armidale	3F or 10P	66.75	66.75	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This is a degree with flexibility, in which you can incorporate a wide range of subjects from across the University. This course offers flexibility in Education career options, giving those candidates with an interest in Education but who do not wish to teach, the option of studying a broad range of Education subjects relating to education as a discipline (non-teaching). In addition, completion of an appropriate number/combination of NESA-approved bridging units, or 48 credit points of Discipline units offered in this course will meet NSW Education Standards Authority (NESA)'s 'three Band 5s including English' requirement for admission to an Initial Teacher Education course.

Career opportunities: This course opens doors to a wide range of non-teaching careers including:

- business administration and management
- school management
- education officer
- educational psychology
- human resources.

Bachelor of Special and Inclusive Education (Primary)

908155 External	3F or 7P	68.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C).

Program outline: Students specialise in educating and caring for children from birth to 5 years of age. Emphasis is placed on child-centred learning, leadership advocacy, and the administrative and management skills required to run a childcare centre. Professional experience placements help students to gain teaching and caring experience in a variety of early learning environments. Additional engagement activities are available throughout the program, allowing students to network with current teachers and industry specialists. Graduates have teaching expertise and are positioned to work with children and families in the early childhood and childcare sector. **Note:** The Bachelor of Early Childhood program includes at least 80 days of supervised placement. **Specialisations:** English; health and physical education (HPE); humanities; languages; mathematics; science; the arts. **Other requirements:** A Blue Card or Exemption Card is required, refer to institution.

Career opportunities: Kindergartens, Childcare centres, community-based children's organisations, director of children's activities on cruise ships/in holiday resorts, after school care, nanny.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Education (Early Childhood)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
908181 Toowoomba	4F or 9P	76.00	76.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
928181 Springfield	4F or 9P	55.85	62.85	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
908185 External	4F or 9P	64.90	64.90	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Program outline: This program gives students the skills, knowledge and experience for a stimulating and rewarding career as a teacher in both Early Childhood and Primary School settings. Students learn to design and deliver effective teaching programs from birth to 8 years of age with children in prior to school settings and in schools up to Year 3. Core courses help to deliver graduates who are prepared and confident in their teaching ability for a diverse range of learners. Students study in a flexible, engaging and dynamic environment with professionals who have experience in Early Childhood environments as well as in Foundation (Prep) to Year 3 classrooms. **Specialisations:** English; health and physical education (HPE); humanities; languages; mathematics; science; the arts. **Other requirements:** A Blue Card or Exemption Card is required, refer to institution. While this is not a requirement for admission, all students will need to organise and demonstrate a pass result in all components of the LANTITE prior to the final supervised Professional Experience and to graduate from this program.

Career opportunities: Primary Schools, Kindergartens, Childcare centres, community-based children's organisations, director of children's activities on cruise ships/in holiday resorts, after school care, nanny.

908145 External	4F or 9P	66.00	66.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry. With regards to teaching areas, it is highly desirable that applicants select teaching areas that they have successfully studied in their Senior schooling, or equivalent, to satisfy teaching area prerequisites.

Program outline: This program gives students the skills, knowledge and experience for a stimulating and rewarding career as a Secondary school teacher. Students study discipline content in two teaching areas with experts in the subjects while learning in a flexible, engaging and dynamic environment. Core courses help to deliver graduates who are prepared and confident in their teaching ability for a diverse range of learners. Students learn to design and deliver effective teaching programs from Year 7 to Year 12 with professional experience placements which are guided by, but not limited to two teaching areas. **Specialisations:** *Disipline teaching areas:* accounting; biology; business studies; chemistry; design and technology; digital technology; drama; earth and environmental science; economics; engineering; English; film, television and new media; food and nutrition; geography; health and physical education (HPE); history; legal studies; mathematics; music; physics; psychology; religion and ethics; visual art. **Other requirements:** A Blue Card or Exemption Card is required, refer to institution. While this is not a requirement for admission, all students will need to organise and demonstrate a pass result in all components of the LANTITE prior to the final supervised Professional Experience and to graduate from this program.

Career opportunities: Secondary Schools, opportunities to work in in metropolitan, rural and remote and international schools. Teaching skills are also in demand in other areas, including roles with human services, community-based government organisations and recreation and tourism industries.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Education (Early Childhood)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
017401 Sunshine Coast	4F or 8P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Any General subject from the Sciences Learning Area (Units 3 and 4, C); Completion of Year 12 or attained age 17 years; Teaching Personal Statement. **Additional entry information:** For information regarding non-academic entry requirements, refer to qtac.edu.au/teacher-entry.

Course outline: Students develop knowledge and skills required to provide integrated education services for young children and their families in early childhood and primary school settings (from Prep to Year 3). Students focus on early childhood learning experiences and teaching practices for children aged from birth to eight years. The program offers opportunities for students to gain knowledge and build relationships with multiple disciplinary teams and community-based agencies through professional experience. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Students must complete 95 days of supervised professional experience and 30 hours of wider field experience. They must have a valid Suitability Card (Blue Card) before commencing professional experience; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Early childhood teacher, primary school teacher, early childhood centre leader/director, private tutor, education consultant, youth support worker, overseas teacher, children's advocate.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Education (Secondary)/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
017221 Sunshine Coast	4F or 8P	66.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014221 Moreton Bay	4F or 8P	62.60	68.60	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years; Teaching Personal Statement. **Additional entry information:** For information regarding non-academic entry requirements, refer to qtac.edu.au/teacher-entry. Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.5 with a minimum of 8.0 in speaking and listening and 7.0 in all

other subtests, obtained within two years prior to the commencement of the program.

Course outline: This program provides graduates with professional knowledge, skills, and discipline expertise in two of the following teaching areas: English, geography, history, drama, Japanese, music, screen media, psychology, biology, chemistry or mathematics. This double degree provides entry to the profession for those seeking to teach Years 7-12. The program develops secondary teachers who draw on discipline and pedagogical knowledge to teach within disciplinary frameworks and integrated curriculum structures, based on inquiry and problem-solving in real-world contexts. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Majors:** The following teaching areas are not available at Moreton Bay: Japanese, Music, Theatre and Performance. **Other requirements:** Students must complete 80 days of supervised professional experience, completed as full-time blocks as program approved. Most of this experience must be completed in a Queensland school. Students must also complete 30 hours of wider field experience. Students must undergo a criminal history check and obtain a Suitability Card before the first workplace experience; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are expected to undertake and meet the benchmark in the Personal Literacy and Numeracy Test for Initial Teacher Educators. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Teacher in secondary schools, private practice, community education centres, private colleges, universities, careers in related discipline areas.

Diploma in Education Studies (Early Childhood)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
015631 Online	1F or 2P	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Do you love spending time with young children? This diploma teaches you the skills and knowledge you need to work with young children from birth to five years of age, as they engage in prior-to-school contexts. Through your studies, you'll learn how to guide children's learning and development, and how to contribute to their sense of self and wellbeing. Learn how to design creative, intentional teaching practices using language, play and cooperation, and develop the skills you need for employment in childcare, long day care or kindergarten settings through 35 days of professional experience placement with babies, toddlers and children in kindergarten settings. **Note:** Students must have a Working with Children Check (Blue Card) or link their existing Blue Card to USC, because of the 35 days of PEx completed in the program. Online offering has mandatory onsite requirements. This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Employment in childcare, long day care, or as a family day care coordinator

CQUNIVERSITY AUSTRALIA

Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
812241 Bundaberg	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
822241 Cairns	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
852245 Online	3X or 6X	58.35	58.35	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Aviation prepares students for a career in the aviation industry, either as a professional airline pilot, managing a multi-crew environment, or an aviation professional. The airline and airport operations major is structured to develop industry-relevant professional knowledge in airline and airport management and operations. This major includes aviation-specific and industry-relevant studies in airline and airport economics, finance, marketing, operations, resource management, strategic leadership and risk assessment. The flight operations major, when studied alongside the Graduate Diploma of Aviation (Flight Operations), allows students to satisfy the knowledge requirements to apply for an Air Transport Pilot Licence. The Graduate Diploma of Aviation (Flight Operations) represents the flight training aspect and is available for students to study alongside the Bachelor of Aviation, after successfully completing the first term of study, and attending an interview held in the second term of study. With a national network of flight partners, benefit from CQUniversity's industry partnerships that not only broaden students' career opportunities, but builds valuable connections and networks within the aviation industry. **Majors**: Flight Operations; Airline and Airport Operations **Other requirements:** Students will be required to gain a "Class 1" medical certificate at their own expense during the first term of studies. Students will also be required to obtain a CASA Aviation Reference Number (ARN) and Aviation Security Identification Card (ASIC) at their own expense. To gain the flight training required to become a commercial pilot, students must complete the Graduate Diploma of Aviation (Flight Operations). The practical flight training components are delivered in the Graduate Diploma of Aviation (Flight Operations). Applications for the Graduate Diploma are direct to the University. Compulsory Residential Schools are required for the laboratory and presentation components in certain units. Visit cqu.edu.au/courses for full course requirements.

Career opportunities: This course in conjunction with the Graduate Diploma of Aviation (Flight Operations) prepares graduates for aviation careers in the air transportation industry as a professional airline pilot. The Airline and Airport Operations major will prepare you for a career as an airline and airport professional.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Engineering (Honours) prepares students for a diverse career as a professional engineering. Students have a choice of majors in traditional engineering disciplines as well as dual major options that will prepare them for emerging specialist fields of engineering including civil with humanitarian engineering, electrical with data analytics, and electrical with information processing. This course develops students' problem-solving, teamwork and communication skills and incorporates project-based learning so they can graduate work ready. The first year of study allows students to experience engineering projects from different disciplines which will assist them in deciding which engineering discipline and course major they wish to pursue. **Note:** All units in this course are offered in online mode. Some units will have a compulsory residential schools for students who study online. These residential schools give students an opportunity to develop and demonstrate practical skills. The Engineers Australia accreditation guidelines recommend minimum of 40 days of on-campus experience for a professional engineering course offered in distance mode. **Majors:** Civil; Civil Humanitarian; Electrical; Electrical Data Analytics; Electrical Information Processing; Mechanical; Mechatronics; Resource Systems. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Upon completion of the course, graduates will be qualified to work as a professional engineer in either the civil, electrical, mechanical, mechatronic or mining engineering fields depending on their chosen major.

850512 Online	4 1/2X or 9X	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Engineering (Honours) (Civil Construction) and Diploma of Construction Management is a dual degree allowing students to gain the skills and qualification needed for a career as a civil engineer skilled in high-level engineering design, and managing the construction process. This course equips students with skills in financing, project scheduling and coordination of consultants and specialist contractors, along with skills in problem-solving, teamwork and professional practice. Students will also gain foundational technical content in civil engineering. **Note:** Most units in this course are offered in online mode. Some units will have compulsory residential schools for online students. The Engineers Australia accreditation guidelines recommend a minimum of 40 days of on-campus experience for a professional engineering course offered in online mode. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once the students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: As a professional engineer, graduates can explore employment opportunities in government departments, construction, building and sub-contracting companies.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This course equips students with skills and knowledge in building design factors such as codes and statutes, building sustainability, and contracts together with foundational technical content in civil engineering. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout their course including industry projects. During the course, students will complete a major individual project that integrates both civil engineering skills and building design skills to confirm their ability to work as a civil engineer and a building design specialist. **Note:** Most units in this course are offered in online mode. Some units will have compulsory residential schools for online students. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Design, architecture, planning, building or engineering firms, government departments and corporations with a large building portfolio.

Bachelor of Engineering (Honours) (Control and Instrumentation) and Bachelor of Information Technology (Application Development)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
820601 Cairns	5F or 10P	❖	❖	Mar 2023	12 Jan 2023
850601 Rockhampton	5F or 10P	✦	✦	Mar 2023	12 Jan 2023
850503 Online	5X or 10X	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Become a control and instrumentation engineer skilled in both high-level engineering design, and software and hardware implementation of engineering systems. Throughout the course, students will develop skills in problem solving, teamwork and professional practice together with learning foundational technical content. Students will complete a major individual project that integrates both control and instrumentation knowledge and information and communication technology knowledge to confirm their ability to work as a control and instrumentation, and software engineer. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout the course. **Note:** Most units in this course are offered in online mode. Some units will have compulsory Residential Schools for online students. **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation. Once the students have completed the professional practice requirements, they must provide evidence of how they have attained the professional engineering practice exposure required by Engineers Australia. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: This course provides a unique opportunity to become a control and instrumentation engineer with high-level engineering planning and design skills complemented by software and hardware implementation skills. Instrumentation and control engineers typically specialise in control systems design, development and maintenance of such systems associated with electrical power, resource, telecommunications, agriculture and automation industries.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: CQUniversity's Bachelor of Engineering (Honours) and Diploma of Project Management aims to produce an engineer skilled in both high-level engineering designs and managing engineering projects including project planning, stakeholder management, risk management, strategy, resource management, project control, procurement management and execution. This course has a strong focus on learning in context so students will apply theory to authentic scenarios throughout the course. In your first year, you will develop skills in problem solving, teamwork and professional practice together with learning foundational technical content. In the second year, you will gain in-depth discipline-specific technical knowledge and skills and build on your project management skills. In the third, fourth and fifth years of your course, you will develop a deeper understanding of the foundation knowledge that you gained in the first and second years. **Note:** All units in this course are offered in online mode. Some units will have compulsory Residential Schools for online students. These Residential Schools give students an opportunity to develop and demonstrate practical skills. **Majors:** Civil; Electrical; Mechanical **Other requirements:** Students are required to complete 480 hours (including a minimum of 240 hours of industry experience) of Engineering Professional Practice prior to graduation.

Career opportunities: This course provides a unique opportunity to become an engineer with high-level engineering planning and design skills complemented by project management skills including project planning, stakeholder management, risk management, strategy, resource management, project control and execution as well as procurement management.

853530 Online	$4^{1/2}$F or 9P	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: With extensive work-integrated learning opportunities and featuring 48 weeks of paid industry placement, CQUniversity's Bachelor of Engineering (Honours) and Diploma of Professional Practice (Co-op Engineering) provides students with vast opportunities to gain real-world experience to prepare for a career as a professional engineer. The education and training of this course focuses on developing skills desired by employers, including effective teamwork and problem-solving. The first year allows students to experience many engineering projects which helps them decide which engineering discipline and course major to pursue. Students can choose to major in traditional engineering disciplines as well as dual major options that will prepare them for emerging specialist fields of engineering including electrical and information processing, electrical and data analytics, and civil and humanitarian engineering. **Note:** All units in this course are offered in online mode. Some units will have a compulsory Residential Schools for distance students. **Majors:** Civil; Civil with Humanitarian; Electrical; Electrical with Data Analytics; Electrical with Information Processing; Mechanical; Mechatronics; Resource Systems. **Other requirements:** Students undertake 48 weeks of industry placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Professional Engineer in the civil, civil and humanitarian, electrical, mechanical, mechatronic engineering or resources systems fields depending on chosen major.

851385 Online	3X or 6X	☆	☆	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years. **Additional entry information**: Applicants who hold a completed Diploma of Aircraft Maintenance Engineering – Avionics (10600NAT) will have the Mathematical Methods (Units 3 and 4, C) prerequisite waived. Applicants should supply a copy of their completed Diploma of Aircraft Maintenance Engineering – Avionics (10600NAT) with their application.

Course outline: The Bachelor of Technology prepares students for a versatile career in engineering as a specialist in technology. The course equips students with skills in problem-solving, teamwork and communications and develops their technical capabilities in their chosen field of civil, electrical, mechanical or aircraft maintenance engineering. This course incorporates project-based Learning, and provides students with the opportunity to learn in context, in formal and informal learning environments such as workshops, classes and project studios. Students also gain teamwork and problem-solving skills alongside technical content in exciting real-world engineering contexts. Students will select a major in either civil engineering (structural or municipal transportation), electrical engineering (electrical control or electrical power), mechanical engineering (design or energy), aircraft maintenance engineering (avionics or mechanical). **Note:** Online students of this course will be required to attend a CQUniversity location or other designated location for compulsory residential schools in some units. **Majors:** Civil; Electrical; Mechanical; Aircraft Maintenance - Avionics; Aircraft Maintenance - Mechanical. **Other requirements:** Students must complete 360 hours of Professional Engineering Practice, including a minimum of 240 hours of industry experience. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Engineering Technologists, having specialised in one of the disciplines of civil (structural), civil (municipal/transportation), mechanical (process), mechanical (energy), mechanical (design), electrical (electrical power) or electrical (control), find employment in national and international public and private industry sectors including the aviation, energy, transportation, manufacturing, process, construction, mining and education industries.

☆ See Admissions Criteria on website for more information.

Associate Degree of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
812251 Bundaberg	2F or 4P	❖	❖	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
822251 Cairns	2F or 4P	❖	❖	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
852255 Online	2X or 4X	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: The Associate Degree of Aviation prepares students for a range of careers in the aviation industry such as a pilot or an aviation management professional. Students learn the fundamentals of the aviation industry including safety, human factors, relevant national and international laws, airline and airport operations, flight fundamentals and the basics of piloting an aircraft in a simulated environment. In the Airline and Airport Operations major, students learn about advanced concepts in aviation management including; marketing, finance analysis, air freight transportation; resource management and planning and operation. In the Flight Operations major, students cover the topics relevant to the Civil Aviation Safety Authority (CASA) Commercial Pilot Licence curriculum, including aerodynamics, navigation, meteorology, flight planning, laws and human factors. Note: Students interested in becoming a commercial pilot will need to complete the Graduate Diploma of Aviation (Flight Operations) in addition to the Associate Degree of Aviation (Flight Operations). Majors: Airline and Airport Operations; Flight Operations. **Other requirements:** Students will be required to gain a "Class 1" medical certificate at their expense during the first term of the course. Students will also be required to obtain at their expense, a CASA Aviation Reference Number (ARN) and Aviation Security Identification Card (ASIC). Compulsory residential schools will be required for the laboratory and presentation components in certain units. Visit cqu.edu.au/courses for full course requirements.

Career opportunities: Aviation careers in the air transportation industry.

❖ Refer to minimum selection thresholds in Course Search at qtac.edu.au.
✦ Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.

Associate Degree of Engineering

		Unadjusted	Adjusted		
850385 Online	4P	59.90	62.40	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: The Associate Degree of Engineering allows students to develop the skills required to become an engineering associate and gain knowledge of engineering principles relevant to the testing, inspection, drawing, adaptation, commissioning, management or operation of on-site equipment, plant and systems. There is the opportunity to tailor studies to areas of interest by selecting from majors in civil, electrical, mechanical or mining engineering or engineering geology. The Associate Degree of Engineering course is based on the project-based learning philosophy which offers the opportunity to learn in context. This approach is designed to produce work-ready graduates with industry-relevant skills. **Majors:** Civil Engineering; Electrical Engineering; Engineering Geology; Mechanical Engineering; Mining. **Other requirements:** Students are required to complete 240 hours of Engineering Professional Practice prior to graduation. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Engineering associate in public and private industry sectors including the energy; transportation; manufacturing; process; construction; mining and education industries.

GRIFFITH COLLEGE

Diploma of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
086291 Mt Gravatt	1F or 2P	☆	☆	Oct 2022 Feb 2023 Jun 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: This higher education diploma provides the fundamental skills and knowledge for careers in the engineering industry as well as preparing graduates academically for further study at university. Studies include mathematics, engineering science, engineering fundamentals, computing and programming. Upon successful completion, be ready to move into the Griffith University Bachelor of Engineering with credit. See combined diploma degrees for packaged pathway options.

Career opportunities: Engineering roles are predicted to be one of the fastest growing industries over the next 10 years. With further study you will be prepared to work across a wide array of industries as a civil, electronic, electrical, mechanical or software engineer.

Combined diplomas/degrees: Refer to entries for: D Engineering/B Engineering (Hons); D Engineering/B Aviation; D Engineering/B Industrial Design.

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C). **Additional entry information:** Applicants must nominate their preferred (one) specialisation on their QTAC application.

Course outline: This program provides core skills and knowledge in engineering. The higher education diploma program will prepare you with fundamental academic skills and cement your knowledge in foundation subjects. On successful completion of the diploma progress into the bachelor with 80 credit points. This degree has a major focus on learning by doing, with hands-on projects from first year. Choose from one of nine major areas of engineering specialty to home in on an area that interests you. See Griffith University Bachelor of Engineering (Honours) for more information. **Note:** Applicants must nominate their preferred (one) specialisation prior to acceptance **Majors:** *Bachelor of Engineering (Honours) - Nathan:* civil; electronic; electronic and energy; electronic and unmanned aerial vehicles (UAV); environmental; mechanical. *Bachelor of Engineering (Honours) - Gold Coast:* civil; electrical and electronic; mechanical.

Career opportunities: Engineering roles are predicted to be one of the fastest growing industries over the next 10 years. This holistic engineering degree will give you the foundational skills in engineering principles, with majors that can take you just about anywhere. You will be prepared to work across a wide array of industries as a civil, electronic, electrical, mechanical or software engineer.

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: This course combines a creative engineering approach with industrial design innovation. Complete the higher education diploma, aimed to help develop technical and academic skills before progressing into the bachelor with 30 credit points. Students graduate with an ability for innovation and creativity in industrial design, while working within the principles of engineering, and learn through project-based design studios, technical learning studios and learning through making. Students experience traditional engineering learning and have the chance to develop their engineering knowledge, professional practice and design skills, and bring them together for project work throughout the degree. See Griffith University's Bachelor of Industrial Design for more information.

Career opportunities: Industrial designer, product designer, entrepreneur, creative designer-maker, designer for medical applications, designer in a specialist area such as automotive or digital fashion.

☆ *All qualified applicants were offered a place.*

Course outline: This program provides core skills and knowledge in engineering. The higher education diploma program will prepare you with fundamental academic skills and cement your knowledge in foundation subjects. On successful completion of the diploma progress into the bachelor with 60 credit points. This degree builds vital skills and knowledge in fields such as mobile app development, network security and project management. You'll also address the key social and professional issues facing software engineers as the 21st century - and humanity's complex relationship with devices - continues to develop.

Career opportunities: Engineering roles are predicted to be one of the fastest growing industries over the next 10 years. This holistic engineering degree will give you the foundational skills in engineering principles, with majors that can take you just about anywhere. You will be prepared to work across a wide array of industries as a civil, electronic, electrical, mechanical or software engineer.

☆ *All qualified applicants were offered a place.*

GRIFFITH UNIVERSITY

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229231 Nathan	4F or 8P	65.50	72.45	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234861 Gold Coast	4F or 8P	66.70	72.50	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This is your chance to make an impact on the way the world works. You could have the opportunity to make your mark on major global systems and infrastructure or be at the forefront of localised urban projects. This degree has a major focus on learning by doing, with hands-on projects from first year, so you'll be engineering from day one. Choose from eight major areas of engineering to hone-in on an area that interests you and distinguish you from other graduates. You'll learn from experts conducting cutting-edge research with government and leading industry partners. **Note:** An option exists to exit with a Bachelor of Engineering Science on completion of three years of study. **Majors:** Civil engineering (Gold Coast, Nathan); electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); electronic and energy engineering (Nathan); electronic and UAV engineering (Nathan); environmental engineering (Nathan); mechanical engineering (Gold Coast, Nathan); mechatronics (Nathan). For software engineering, refer to Bachelor of Software Engineering (Honours).

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

Career opportunities: Engineering roles are predicted to be one of the fastest growing industries over the next 10 years. This holistic engineering degree will give you the foundational skills in engineering principles, with majors that can take you just about anywhere. You will be prepared to work across a wide array of industries as a civil, electronic, electrical, or mechanical engineer.

Double degrees: Refer to entries for: B Engineering (Hons)/B Aviation; B Engineering (Hons)/B Business; B Engineering (Hons)/B Computer Science; B Engineering (Hons)/B Data Science; B Engineering (Hons)/B Environmental Science; B Engineering (Hons)/B Industrial Design; B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Engineering (Hons).

Bachelor of Engineering (Honours)/Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229251 Nathan	4F	66.55	72.45	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree gives you two clear career pathways. As a graduate, you may choose to be a qualified commercial pilot with engineering qualifications, knowing that airlines prefer their pilots to have an engineering qualification. Or, you could choose to be an engineer with flight qualifications, recognising that engineering companies building aircraft or aviation systems prefer flight qualified engineers. It's all achievable through this unique degree. **Note:** Students study over three trimesters each year, completing the five-year program in four years. **Majors:** *Engineering:* electronic engineering; mechanical engineering.

Career opportunities: As a graduate, you'll be qualified as an electronics or mechanical engineer and will have completed the full theory component for your commercial pilot's licence. This is an amazing opportunity to become an elite pilot at the leading edge of aviation, or to become a highly qualified engineer in the aviation industry. Students wishing to obtain their pilots licence will also need to enrol in the Graduate Diploma in Flight Management to complete the flight training practical component of their licence.

Bachelor of Engineering (Honours)/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229221 Nathan	5F or 10P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234851 Gold Coast	5F or 10P	68.35	72.35	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This combined degree produces professional engineers with a solid foundation in engineering principles and the managerial skills to run complex projects. You'll develop knowledge and skills in your preferred engineering major combined with key business competencies such as organisational behaviour, communication, economics, and quality control. Skills are enhanced through an industry-based project or placement to prepare students for entry to the workforce. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. *Business:* Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; government and international relations; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of engineering-related roles relevant to your chosen specialisation(s) in engineering firms, not-for-profit, government and corporate organisations. By combining these two fields, you can apply your specialised knowledge of business and engineering to roles such as project manager, business manager, chief engineer, supply chain manager and consulting engineer in private and public sectors.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Engineering (Honours)/Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234871 Gold Coast	5F or 10P	65.50	73.50	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree is focused on the future, combining a cutting-edge blend of computer science and engineering. For a more specialised career path, this dual degree allows you to complement your engineering knowledge with a range of supporting computer science skills and understanding. You'll develop knowledge and practical skills in planning, management, design and build of engineering projects as well as communication, research and critical analysis skills. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering; mechanical engineering. *Computer science:* data science and artificial intelligence; software development.

Career opportunities: With an internationally recognised qualification, the future is promising for dual computer science and engineering professionals. With these two complementary degrees, you'll be prepared for engineering roles across a number of industries that require design, innovation and creative development using the latest technology.

Bachelor of Engineering (Honours)/Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234801 Gold Coast	5F or 10P	73.35	81.35	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
229271 Nathan	5F or 10P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will enable you to provide data-based insights based on your specific expertise in engineering, to improve decision-making, reduce costs and increase efficiencies. You'll gain knowledge in your chosen engineering major and skills to access the insights data provides and lead the way in translating data into actionable information, including manipulation, modelling, interpretation and visualisation. In your final year you can enhance your employability through an industry placement to gain practical experience and valuable industry networks. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering; software engineering.

Career opportunities: Depending on your major, you may find opportunities in aviation, construction, manufacturing, natural resources, telecommunications, transport or software development as well as opportunities as a business analyst, data scientist, or insights analyst across a range of industries.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Engineering (Honours)/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
224701 Nathan	5F or 10P	72.15	76.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234821 Gold Coast	5F or 10P	67.30	72.20	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: With this double degree, you can tackle environmental issues armed with knowledge across both engineering and science. With specialist skills in engineering paired with insights into social, applied and natural sciences, you'll be well prepared to find practical solutions to pressing environmental issues. In final year, you'll complete industry experience, preparing you for entry to the workforce. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. *Environmental science:* ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: As a graduate, you'll be prepared for careers as engineers or environmental scientists, equipped to bring engineering together with social and natural sciences to find solutions for complex environmental issues such as climate change. You'll find employment in government departments, environmental agencies, civil construction projects, consultancies, waste management, mining, oil, smelting and manufacturing industries.

Bachelor of Engineering (Honours)/Bachelor of Industrial Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234881 Gold Coast	5F or 10P	73.65	81.65	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Now you can combine the creative skills of industrial design with the practical solutions of mechanical engineering. This double degree will arm you with the techniques and technical skills you need to excel in this vibrant industry. You'll study a combination of in-depth theoretical mechanical engineering frameworks and industrial design principles and concepts like development, problem-solving and model making. This degree gets you hands-on learning from year one, and delivers you a qualification that employers find hard to ignore. **Majors:** *Engineering:* mechanical engineering.

Career opportunities: You'll be at the forefront of a number of rapidly growing career paths. You can choose to design consumer products, putting your skills into play to make every day more user-friendly. Or you can choose to specialise in the design and manufacture of products for a range of industries including mining, transportation, health care, aerospace and building services.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229211 Nathan	5F or 10P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234841 Gold Coast	5F or 10P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Two of the fastest growing sectors for jobs growth are engineering and IT, and this double degree has these two disciplines at its core. You'll develop the knowledge and practical skills in planning, management, design and build of engineering projects, with your choice of major allowing you to specialise in the area you're most interested in. You'll also achieve a high level of core IT technical knowledge and a specialisation in either information systems or networks and security. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. *Information technology:* information systems; networks and security.

Career opportunities: Depending on your major, you can choose to pursue a career in electronics design and fabrication, systems engineering, embedded systems engineering, computer systems engineering, corporate IT, construction engineering or with government authorities.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229201 Nathan	5F or 10P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234831 Gold Coast	5F or 10P	66.25	73.25	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Engineering is a precise practice, and this double degree will arm you with the science disciplines to help you excel. You'll study applied mathematics or physics and learn to balance the numbers with the art of creative and critical thinking. You'll also gain highly useful skills in mathematical modelling. In final year, you can enhance your employability through an industry placement. With an internationally recognised qualification, you'll be prepared for work on complex projects in Australia and overseas. **Majors:** *Engineering:* civil engineering; electrical and electronic engineering (Gold Coast); electronic engineering (Nathan); environmental engineering (Nathan); mechanical engineering. *Science:* applied mathematics; physics; archaeology (Nathan only).

Career opportunities: With highly sought after qualifications in engineering and science, you'll find inspiring career opportunities in government, construction companies, telecommunications, mining, oil, smelting and manufacturing industries, and research organisations.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Software Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229281 Nathan	4F or 8P	65.50	73.50	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
234901 Gold Coast	4F or 8P	74.15	78.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: If you want a hand in designing and implementing the software systems our society depends on, this degree is the ideal path for you. You'll begin with a solid foundation in mathematics, computer systems, engineering principles and information systems. In your second year, you'll explore computer algorithms, object-oriented programming, business analysis, computer network essentials and more. As you progress, you'll gain vital exposure to fields such as mobile app development, network security and project management. In your final year, you'll spend more than half your time engaging in work-integrated learning. **Note:** An option exists to exit with a Bachelor of Engineering Science on completion of three years of study. **Majors:** Software engineering. For other engineering majors, refer to Bachelor of Engineering (Honours).

Career opportunities: You'll be equipped for roles such as software architect, software developer, software engineer, software tester, IT project manager, systems analyst, security specialist, computational scientist, programmer, and networking and communications specialist, or in research and development.

Bachelor of Aviation

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228182 Nathan	2F	61.00	65.00	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this highly-recognised degree, you will be equipped with the skills needed for lifelong learning in the evolving aviation environment. This degree is the first step to gaining your commercial pilot licence and has strong ties to major airlines across Australia. You will be introduced to the skills underpinning the theory and practice of flight training and study courses in areas such as human factors, aerodynamics, aviation law, atmospheric science, navigation and flight planning. **Note:** Students study over three trimesters each year, completing the three year program in two years.

Career opportunities: The Bachelor of Aviation, together with the Graduate Diploma of Flight Management, will allow graduates to be ready to work in the aviation industry as a commercial pilot. Graduates of these programs will find employment opportunities in charter work, regional airlines, flight instruction (theory and practice), aerial services (agricultural spraying, aerial surveying and photography), and in government organisations such as Civil Aviation Safety Authority (CASA).

Double degrees: Refer to entries for: B Aviation/B Information Technology; B Engineering (Hons)/B Aviation.

Bachelor of Aviation Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
229772 Nathan	2F	63.80	67.80	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: It takes specialist management skills to keep the aviation industry flying, in operational business roles and in the public sector. In recognition of the unique demands of aviation, this degree has been designed alongside industry to ensure we produce graduates with the core competencies that employers demand. This includes knowledge in airport planning, operations and management, human factors for aviation managers, security and risk management, government-business relations, business data analysis and more.

Career opportunities: You'll be prepared for employment in aviation management. You will also be able to apply your management skills to many areas of the aviation industry including airlines, airports, air traffic service providers, maintenance and repair organisations, and government organisations, such as the Civil Aviation Safety Authority (CASA) and the Australian Transport Safety Bureau (ATSB).

Combined diplomas/degrees: Refer to entry under Griffith College for: D Commerce/B Aviation Management.

Bachelor of Aviation/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228901 Nathan	4F or 8P	✦	✦	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree combines Australia's most highly awarded aviation program with practical skills in information technology, providing a pathway to a range of careers in aviation outside of flight-crew roles. Core courses introduce you to navigation, human factors, planning, information systems and programming, as well as the sciences underpinning the theory and practice of aviation. You'll also develop skills in collecting, storing and analysing large volumes of data. Training and learning resources include our flight procedures lab and technology systems and a practical work placement. **Note:** Students can study over three trimesters each year, completing the five year program in four years. **Majors:** *Information technology:* information systems; networks and security; software development.

Career opportunities: As a graduate, you will be ready to work in the field of general aviation, including opportunities in charter work, flight instruction (theory and practice), aerial services such as agricultural spraying, aerial surveying and photography, first officer positions with regional airlines and in the Australian Defence Force, management, research and human resource management, and in government organisations such as the Civil Aviation Safety Authority (CASA). Depending on your IT area of specialisation, you will be prepared for a career in commerce, industry, corporate IT, government or private consulting. You may find a job as a systems analyst, software developer, IT support and client services officer, database and systems administrator, technical writer, web developer, sales representative for IT vendors, educator or researcher.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Industrial Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234522 Gold Coast	3F or 6P	61.50	67.50	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this degree, you'll apply your passion for creative design and production through the lens of advanced manufacturing. Under the guidance of our industry experienced teaching staff, you'll gain insight and expertise in design, materials, process technology and practice within a global context. You'll use cutting-edge advanced manufacturing technologies combined with traditional and sustainable manufacturing processes. Through a range of practical experiences, craft-based approaches, and the latest developments in 3D printing, digital modelling, electronics, programming and more, you'll graduate ready to create and innovate across healthcare, aerospace, automotive, consumer goods, and fashion - among other industries.

Career opportunities: You'll be prepared for work as an industrial designer, innovator, product designer, entrepreneur, creative designer-maker, designer for medical applications, or in automotive or digital fashion.

Double degrees: Refer to entry for: B Engineering (Hons)/B Industrial Design.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Engineering/B Industrial Design.

JAMES COOK UNIVERSITY

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
314021 Townsville	4F or 8P	72.15	78.15	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
324021 Cairns	4F or 8P	77.20	83.20	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: A common first year of study provides a broad skills base, and students develop sound theoretical knowledge and gain opportunities for hands-on practical experience. Engineering design, communication and project management are central to the course. Students undertake a full-year thesis in the final year, completing a significant research project. Students choose one major and one of several minors such as maths, physics, software or sustainability. This course is accredited by Engineers Australia. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Note:** Not all majors are available at both campuses or for mid-year entry. **Majors:** *Townsville:* chemical engineering; civil engineering; electrical and electronic engineering; mechanical engineering. *Cairns:* electrical and electronic engineering; electronic systems and internet of things engineering. **Other requirements:** Students must complete at least 60 days of professional engineering practice prior to graduation and hold a Senior First Aid certificate at time of graduation.

Career opportunities: Depending on specialisation: consultancies, construction firms, mining and minerals processing, transportation agencies, microelectronic and telecommunication designers, process engineering, manufacturers and suppliers, computer hardware designers, software developers, designers and manufacturers of industrial products, environmental management agencies, government departments.

Combined degrees: Refer to entries for: B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Science.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Engineering and Applied Science)/B Engineering (Hons).

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
314071 Townsville	5F or 10P	78.20	84.20	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
324071 Cairns	5F or 10P	❖	❖	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Students take a common first year of engineering subjects to develop a broad skills base and then choose a preferred engineering major. Engineering design is a central theme of the course. This five-year program allows students to combine their engineering degree with information technology subjects for individual interest or a specialist career goal. This course is accredited by Engineers Australia.

JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Note:** Not all Bachelor of Engineering (Honours) majors are available at both campuses or for mid-year entry. **Majors:** Refer to Bachelor of Engineering (Honours). **Other requirements:** Students must complete at least 60 days of engineering professional practice prior to graduation and hold a Senior First Aid certificate at time of graduation.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
314051 Townsville	5F or 10P	81.45	87.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
324051 Cairns	5F or 10P	❖	❖	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 18 years. **Assumed knowledge:** Students considering the molecular and cell biology major will require Chemistry (Units 3 and 4, C) or equivalent.

Course outline: Students take a common first year of engineering subjects to develop a broad skills base in order to choose a preferred engineering major. Engineering design is a central theme of the course. This five-year program enables students to combine their engineering degree with a science major. This course is accredited by Engineers Australia. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Note:** For Bachelor of Engineering, not all majors are available at all campuses and no engineering majors are available for mid-year entry. Only the first year of the aquaculture science and technology, marine biology and mathematics science majors in the Bachelor of Science can be studied in Cairns. **Majors:** Refer to separate entries for Bachelor of Engineering (Honours) and Bachelor of Science. **Other requirements:** Students must complete at least 60 days of engineering professional practice prior to graduation and hold a Senior First Aid certificate at time of graduation.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Science.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Diploma of Higher Education (Engineering and Applied Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
310041 Townsville	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
320041 Cairns	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course is for students who do not qualify for entry to bachelor degrees or are seeking additional skills development before bachelor degree study. It can also be used as a pathway for students lacking prerequisite subjects. In the engineering and applied science stream, students study two core subjects plus a mix of introductory and first-year subjects within the engineering and applied science fields. Successful completion of the diploma allows entry to a range of degree programs with credit for some subjects successfully completed. Visit: jcu.edu.au/courses/diploma-of-higher-education

The JCU Offer Guarantee does not apply to this course.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Engineering and Applied Science)/B Engineering (Hons).

☆ *All qualified applicants were offered a place.*

Diploma of Higher Education (Engineering and Applied Science)/Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
310107 Townsville	5F or 10P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
320107 Cairns	5F or 10P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Engineering and Applied Science) and Bachelor of Engineering (Honours). **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of 15 credit points. Students must meet the minimum English language requirements for the bachelor program. Not all majors are available at all campuses and there is no mid-year entry for the Bachelor of Engineering in Cairns. **Majors:** *Bachelor of Engineering (Honours) -Townsville:* chemical engineering; civil engineering; electrical and electronic engineering; mechanical engineering. *Cairns:* electrical and electronic engineering; electronic systems and internet of things engineering. Mid-year entry for Bachelor of Engineering (Honours) not available in Cairns. **Other requirements:** Bachelor students must complete at least 60 days of engineering professional practice prior to graduation and hold a current Senior First Aid certificate at time of graduation.

Career opportunities: Depending on specialisation: construction, mining and minerals processing, microelectronic and telecommunication designers, process engineers, computer hardware/software.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
412502 Gardens Point	4F or 8P	72.20	78.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: You enter a common first semester of foundation study that provides a broad grounding in engineering disciplines, prior to selecting your desired stream of study. Primary study areas include chemical process, civil, computer and software systems, electrical, electrical and aerospace, mechanical, mechatronics and medical engineering. Other specialisations are available from second year, allowing you to further tailor your course.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank. For more course information, visit qut.edu.au/study/applying/year-12-early-offer-scheme.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 82.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors: Chemical process:** equipment design, chemical reactions, process control and industrial processes; **civil:** structural/geotechnical analysis, transport, water, municipal and waste management; **computer and software systems:** production of high quality, cost-effective software solutions with embedded systems application; **electrical:** power, control, signal processing; **electrical and aerospace:** design of electrical systems for aircraft; **mechanical:** mechanics, automotive, materials, fluid and thermodynamics; **mechatronics:** industrial automation and integrated systems; **medical:** combines mechanical engineering with anatomy, physiology, biomechanics, biomaterials, and bio-engineering. **Other requirements:** You must complete a minimum of 60 days of approved professional work in an engineering environment.

Career opportunities: Depending on specialisation: consulting engineer, governments, construction companies, environmental specialist, computer manufacturers, communications and digital signal processing products manufacturers, cable and network equipment manufacturers, defence agencies, electricity utilities, mining industry, telecommunications companies, automated systems and robotics, project manager, designer, instrumentation engineer, civil aviation safety authority, power generation and supply.

Double degrees: Refer to entries for: B Business/B Engineering (Honours); B Design/B Engineering (Honours); B Engineering (Honours)/B Information Technology; B Engineering (Honours)/B Mathematics; B Engineering (Honours)/B Science.

Combined diplomas/degrees: It can also be combined with the following courses at TAFE Qld - Greater Brisbane: Advanced of Engineering and Associate Degree in Civil Engineering. Refer to entry for the diploma under TAFE Qld.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419512 Gardens Point	5F or 9P	73.20	78.75	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course integrates engineering and information technology to give you a wide and advanced study of engineering and modern computing systems.

You gain the skills to become technically competent in the fundamentals of mathematics, science and engineering, with advanced knowledge in at least one specialist area of engineering, and equipped to build and apply creative, innovative information technology solutions across diverse industries.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 82.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology. **Other requirements:** You must complete a minimum of 60 days of approved professional work in an engineering environment.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Information Technology.

Bachelor of Engineering (Honours)/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419572 Gardens Point	5F or 9P	82.45	86.45	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course integrates engineering and mathematics to give you a wide and advanced study of engineering and well-developed analytical and problem-solving skills, and the ability to use mathematics and statistics in a range of applications.

You gain the skills to become technically competent in the fundamentals of mathematics, science and engineering, with advanced knowledge in at least one specialist area of engineering. This integrates with the mathematics component, which provides study in modelling, analysis and design.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Mathematics. **Other requirements:** You must complete a minimum of 60 days of approved professional work in an engineering environment.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Mathematics.

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419402 Gardens Point	5F or 9P	68.85	78.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: As a graduate in engineering, you're technically competent in the fundamentals of mathematics, science and engineering, with advanced knowledge in at least one specialist area of engineering.

As a science graduate, you are skilled in many aspects of scientific study, allowing for specialisation in one study area, including biological sciences, chemistry, earth science, environmental science, and physics.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 82.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Science. **Other requirements:** You must complete a minimum of 60 days of approved professional work in an engineering environment.

Career opportunities: Refer to Bachelor of Engineering (Honours) and Bachelor of Science.

Bachelor of Engineering (Honours)/Master of Robotics and AI

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
412912 Gardens Point	5F or 10P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: You enter a common first semester of foundation study that provides a broad grounding in engineering disciplines, prior to selecting your desired stream of study. Primary study areas include Computer and Software Systems, Electrical, Electrical and Aerospace, and Mechatronics. You then continue to a Master of Robotics and AI where you will develop advanced knowledge and skills in automation, robotics, and artificial intelligence. You graduate with both a Bachelor of Engineering (Honours) and a Master of Engineering. **Majors: computer and software systems:** production of high quality, cost-effective software solutions with embedded systems application; **electrical**: power, control, signal processing; **electrical and aerospace:** design of electrical systems for aircraft; **mechatronics:** industrial automation and integrated systems **Other requirements:** You must complete a minimum of 60 days of approved professional work in an engineering environment.

Career opportunities: Consulting engineer, governments, manufacturing industry, defence industry, drone industry, agricultural industry, mining industry, project manager, designer, instrumentation engineer, automated systems and robotics, civil aviation safety authority, power generation and supply, drone applications, robotics development and applications, infrastructure inspection and servicing.

Diploma in Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
420201 Kelvin Grove	1F or $1^{1/2}$P	57.75	60.35	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: The Diploma in Engineering is a pathway program designed to help you successfully progress to the second year of the Bachelor of Engineering (Honours). It provides you with the opportunity to study core foundational engineering units in a highly supportive learning environment with smaller class sizes and a more personalised learning journey. Beyond providing a broad grounding in engineering disciplines, you will also develop your academic skills for future study success.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance may be required.

Career opportunities: Graduates of this course may seek entry level work in engineering related fields or continue their studies to pursue a career in Engineering.

Combined diplomas/degrees: Upon completion of the diploma, you will be automatically offered a place in the Bachelor of Engineering (Honours). Each of your diploma units will be credited to the degree.

SOUTHERN CROSS UNIVERSITY

Bachelor of Engineering Systems (Honours) (Civil Engineering)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
054391 Lismore	4F or 8P	❖	❖	Mar 2023	12 Jan 2023
054371 Gold Coast	4F or 8P	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree equips students with the skills and knowledge to provide a range of professional civil engineering services in regional, national and international environments. It prepares graduates for work in the planning, design, construction and maintenance of civil engineering infrastructure such as buildings, roads, bridges, dams, pipelines, transport systems, and water supply and waste water treatment facilities. Students have access to specialist civil engineering software and state-of-the-art laboratories. In final year, students undertake industry experience. This course is also available online, contact Southern Cross University. **Specialisations:** Civil engineering **Other requirements:** Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers.

Career opportunities: Civil engineers in settings that include municipal and government road authorities, water supply and management agencies, construction companies, railway departments and companies, natural resource management organisations, consulting engineering companies, airport authorities, mining companies, irrigation authorities, research organisations, and in tertiary education (with further study).

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Bachelor of Engineering Systems (Honours) (Mechanical Engineering)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
054381 Lismore	4F or 8P	❖	❖	Mar 2023	12 Jan 2023
054661 Gold Coast	4F or 8P	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree equips students with the relevant skills and knowledge to provide a range of professional mechanical engineering services in regional, national and international environments. The course prepares graduates for work involving the design of machinery, computer-aided design and manufacturing, water supply, vibration, acoustics and noise control, robotics, heat transfer and refrigeration, energy technology, consumer product design, pollution control, and production planning. Study streams in design and production system engineering, thermo-fluid mechanics and energy systems, and mechatronics and control systems cover all aspects of mechanical engineering. This course is also available online, contact Southern Cross University. **Other requirements:** Students complete 60 days of compulsory industry experience relevant to engineering, which can be undertaken in one or more settings under the supervision of experienced engineers.

Career opportunities: Mechanical engineer in regional, national and international environments in diverse industries including heavy machinery, power generation, mining, manufacturing, production planning, automotive, aerospace, medical, environment, building industries, consumer product design and building services, consulting engineering, ship building, railroads and robotics industries.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

TAFE QUEENSLAND

Associate Degree in Civil Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555948 South Bank	2CL	❖	❖	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023
555037 South Bank	4CL	❖	❖	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.
Assumed knowledge: English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).
Additional entry information: Successful applicants who do not have the assumed knowledge and are at risk of non-completion of the program may be required to undertake bridging studies prior to or during first semester. For more information about admission criteria, refer to tafeqld.edu.au/course/17/17680/associate-degree-in-civil-engineering.

Course outline: This course allows graduates to progress their career as an engineering professional and become a technical consultant or engineering associate in a range of industries. In this associate degree, students develop skills in the application of civil and structural engineering technology. Students develop specialised knowledge of drafting and modelling structural, municipal and environmental engineering, project management and estimating skills. Teaching staff ensure students can synthesise elements of their theoretical and practical understanding through designing and implementing an engineering project to standards applicable to a modern civil or structural engineering practice. Successful completion of this course will qualify graduates to work on infrastructure projects as a civil or structural engineering associate or technical consultant in a variety of industries including engineering, construction, mining and transportation companies, or local and state government agencies. **Note:** FEE-HELP may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/fee-help for information.

Career opportunities: BIM coordinator/collaborator, engineering associate, estimator, design drafter, project manager, civil/structural designer and modeller.

Combined diplomas/degrees: The Associate Degree in Civil Engineering can be combined with other programs as listed below to attain the awards of Associate Degree in Civil Engineering from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined associate degree/degree, applicants must select the Associate Degree in Civil Engineering for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone associate degree or the combined program but not both. Listing more than one is not needed because they have the same eligibility and ATAR/rank requirements.

AB Civil Engineering/B Engineering (Honours):

555948 South Bank/Queensland University of Technology (2CL & 2.5-3F)

TAFE Queensland students are required to articulate to QUT within 3 years of their QTAC offer.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Advanced Diploma of Electronics and Communications Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
597292 Eagle Farm	2CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.
Assumed knowledge: English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C) or completed Engineering Trade Certificate III.

Course outline: Redefine your career in electronics and communications with this advanced diploma course. Develop the specialised skills and knowledge required to become a senior technical officer. In this course, learners develop expert skills to design and validate electronics and communication equipment and systems, manage risk, provide technical advice and estimate and manage projects. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Senior technical officer - electronics and communications engineering.

☆ *All qualified applicants were offered a place.*

Advanced Diploma of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
596942 Acacia Ridge	2CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** A pass in Year 10 English; Maths.

Course outline: This course helps students develop the specialised skills and knowledge required to become a mechanical engineering technician or associate. In this course, students gain detailed drafting and design skills, and learn how to oversee the installation and maintenance of machinery. Students also develop knowledge of engineering processes and principles, project management, quality systems, and team building. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Engineering associate, mechanical engineering technician.

Combined diplomas/degrees: The Advanced Diploma of Engineering can be combined with other programs as listed below to attain the awards of Advanced Diploma of Engineering from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Advanced Diploma of Engineering for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and ATAR/rank requirements.

AdvD Engineering/B Engineering (Honours):

596942 Acacia Ridge/Queensland University of Technology (2CL & 3F)

TAFE Queensland students are required to articulate to QUT within 3 years of their QTAC offer.

☆ *All qualified applicants were offered a place.*

Advanced Diploma of Engineering Technology - Electrical

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
597952 Eagle Farm	2CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: In this course, learners develop the expert skills needed to design and validate/evaluate electrical equipment and systems. Graduates work in areas including electrical design, project management, process control, variable speed drives and programmable logic controllers. Study areas may include apply industry and community standards to engineering activities, apply material science and physics to solving electrotechnology engineering problems, compile and produce an energy sector detailed report, develop design briefs for electrotechnology projects, fabricate, assemble and dismantle utilities industry components and provide engineering solutions for problems in complex multiple path circuits. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Electronic engineering draftsperson, electronic engineering technician.

☆ *All qualified applicants were offered a place.*

Diploma of Aviation (Commercial Pilot Licence - Aeroplane)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
503004 Townsville (Bohle)	.75CL	New Course	New Course	Jan 2023 May 2023 Jul 2023	12 Jan 2023 27 Apr 2023 22 Jun 2023
503008 Townsville (Bohle)	.75CL	New Course	New Course	Apr 2023 Sep 2023	10 Mar 2023 +

Prerequisites: Applicant must be 18; CASA requirements. **Additional entry information:** Commercial or military pilot entrants to this qualification should check requirements with Civil Aviation Safety Authority (CASA) or Defence Aviation for specific pilot entry standards. **To be eligible for an offer in this course applicants must supply documentary evidence of the following to TAFE Queensland, Townsville (Bohle) by the nominated date**: current Aviation Security Identification Card (ASIC) for flight crew by the students first census date, an Aviation Reference Number (ARN), current Aviation Class 1 Medical Certificate carried out by a Designated Aviation Medical Examiner (DAME) by the students first census date and be able to demonstrate English language proficiency with Townsville Flight Training to meet the minimum requirements set by CASA. TAFE Queensland will contact applicants directly regarding document submission. **Participants must be a minimum of 18 years of age prior to the completion of this qualification.**.

Course outline: TAFE Queensland, in partnership with Townsville Flight Training, will give students the skills and experience needed to take your career to new heights. Successful completion of this course will allow graduates to take to the skies as a commercial aeroplane pilot. In this course students will learn how to perform normal and emergency commercial pilot duties including passenger, charter and cargo operations. As a commercial aeroplane pilot graduates will discover a variety of options to hone their skills and open up a range of career opportunities including rural operations, joy-flights, air transport charter operations, and search and rescue. Successful completion of this course will provide graduates with the knowledge and practical skills required to embark upon an exciting career as a commercial aeroplane pilot. **Note:** VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses/18699/diploma-of-aviation-commercial-pilot-licence-aeroplane for information.

Career opportunities: Commercial aeroplane pilot, aviation manager.

\+ *Regular offers will be made.*

Diploma of Aviation (Commercial Pilot Licence - Helicopter)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
503009 Townsville (Bohle)	.5CL	New Course	New Course	Jan 2023 Jul 2023	12 Jan 2023 22 Jun 2023
503357 Townsville (Bohle)	.5CL	New Course	New Course	Apr 2023 Sep 2023	10 Mar 2023 +

Prerequisites: Applicant must be 18; CASA requirements. **Additional entry information:** Commercial or military pilot entrants to this qualification should check requirements with Civil Aviation Safety Authority (CASA) or Defence Aviation for specific pilot entry standards. **To be eligible for an offer in this course applicants must supply documentary evidence of the following to TAFE Queensland, Townsville (Bohle) by the nominated date**: current Aviation Security Identification Card (ASIC) for flight crew, an Aviation Reference Number (ARN), current Aviation Class 1 Medical Certificate carried out by a Designated Aviation Medical Examiner (DAME), be able to demonstrate English language proficiency with Townsville Helicopters to meet the minimum requirements set by CASA and hold or be eligible to hold an Aeronautical Radio Operator Certificate. TAFE Queensland will contact applicants directly regarding document submission. **Participants must be a minimum of 18 years of age prior to the completion of this qualification.**.

Course outline: This course will provide students with the specialised knowledge and skills required to work as a commercial helicopter pilot. As a qualified pilot graduates can find themselves working in a range of different areas. Graduates may pilot scenic flights in the tourism industry, work in rural operations mustering livestock, conduct transport charter operations, or work with State Police or the Australian Maritime Safety Authority (AMSA) operating search and rescue missions. TAFE Queensland has partnered with leading aviation training provider Townsville Helicopters to deliver this course. The course provides all the theoretical and practical skills required to be issued with a Civil Aviation Safety Authority (CASA) licence to operate as a commercial pilot. Students learn about aerodynamics, meteorology, navigation, radio communications, and operating in controlled and non-controlled airspace. Students will also get to execute advanced helicopter manoeuvres and learn how to implement threat management strategies. **Applicants to this course will have the option of choosing R22, R22-R44, R22 Turbine, R44, R44 Turbine or Turbine. Note:** VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses/18136/diploma-of-aviation-commercial-pilot-licence-helicopter for information.

Career opportunities: Commercial helicopter pilot.

		Unadjusted	Adjusted		
503364 Townsville (Bohle)	.25CL	New Course	New Course	Jan 2023 May 2023 Jul 2023 Nov 2023	12 Jan 2023 27 Apr 2023 22 Jun 2023 +
503366 Townsville (Bohle)	.25CL	New Course	New Course	Mar 2023 Sep 2023	16 Feb 2023 +

Prerequisites: Applicant must be 18; CASA requirements. **Additional entry information:** Commercial or military pilot entrants to this qualification should check requirements with Civil Aviation Safety Authority (CASA) or Defence Aviation for specific pilot entry standards. **To be eligible for an offer in this course applicants must supply documentary evidence of the following to TAFE Queensland, Townsville (Bohle) by the nominated date**: current Aviation Security Identification Card (ASIC) for flight crew, an Aviation Reference Number (ARN), current Aviation Class 1 Medical Certificate carried out by a Designated Aviation Medical Examiner (DAME), be able to demonstrate English language proficiency with Townsville Flight

Training to meet the minimum requirements set by CASA, hold a Civil Aviation Safety Regulations (CASR) part 61 Flight Crew Licence - Commercial Pilot Licence - Aeroplane and show evidence of a Single engine class rating. TAFE Queensland will contact applicants directly regarding document submission.

Course outline: This course is designed for experienced commercial aeroplane pilots looking to enhance their skills and knowledge and earn their instrumentation and multi-engine class ratings. TAFE Queensland has partnered with Townsville Flight Training to provide students with technical and non-technical skills to fly a multi-engine aircraft under instrument flight rules. In this course students will learn how to plan and navigate a flight under instrument flight rules, perform published and non-published instrument departure procedures, operate aircraft using aircraft flight instruments, and perform instrument arrival and standard arrival route procedures. This course will allow graduates to advance their existing aviation skills and enable the graduate to earn their Civil Aviation Safety Authority (CASA) instrumentation and multi engine class ratings. Completion of this course will open up a range of career options as a commercial aeroplane pilot working in border surveillance, emergency services, airlines, or corporate charters. **Applicants to this course will have the option of choosing Job Ready, Performance or High Performance. Note:** VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/courses/18989/diploma-of-aviation-instrument-rating for information.

Career opportunities: Commercial pilot flight instructor, commercial pilot - aeroplane, aviation manager.

+ Regular offers will be made.

Diploma of Electronics and Communications Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
597293 Eagle Farm	1 1/2CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C) or completed Engineering Trade Certificate.

Course outline: Progress your career in electronics and communications with this diploma level course and develop the advanced skills and knowledge to become a technical officer. In this course students will develop extensive skills in configuring computer networks as well as programming and fault-finding micro-controller equipped devices. Learn about electronic engineering redesign, commissioning electronic systems, risk assessment, and technical documentation. Students will also gain soldering, cabling and termination skills. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Technical officer - electronics and communications engineering.

☆ All qualified applicants were offered a place.

Diploma of Engineering - Technical

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
596941 Acacia Ridge	1CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** A pass in Year 10 English; Maths.

Course outline: This course covers a comprehensive theoretical and semi-technical base for working in the mechanical, mechatronic, manufacturing and maintenance fields at a para-professional level. Students will advance their skills in mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies. This course emphasises the transfer of theoretical concepts to practical real-world applications. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Engineering technician, engineering technologist, mechanical engineering technician.

☆ All qualified applicants were offered a place.

Undergraduate Certificate in Civil Engineering Fundamentals

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555949 South Bank	.5CL	New Course	New Course	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Assumed knowledge:** English (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C) or relevant work experience or qualification that indicates your ability to complete the course successfully. **Additional entry information:** If you have not passed General Mathematics or its equivalent, it is strongly recommended that you complete a 20 hour intensive Maths Workshop with TAFE Queensland prior to the commencement of this course. For more information refer to tafeqld.edu.au/courses/18935/undergraduate-certificate-in-civil-engineering-fundamentals.

Course outline: This course will provide students with an understanding of the fundamentals of civil engineering and prepare graduates for entry into the Associate Degree of Civil Engineering (HED001). In this course students receive an introduction to engineering mathematics, 2D CAD modelling, as well as civil design and drafting. Students will learn how to use mathematical operations to solve engineering problems, develop an understanding of one of the most commonly used drafting packages in the civil design industry, and be introduced to the fundamental elements of a broad range of engineering disciplines including civil, structural, mechanical, electrical and hydraulic. **Note:** For fee information refer to tafeqld.edu.au/courses/18935/undergraduate-certificate-in-civil-engineering-fundamentals for information.

Career opportunities: Entry level draftsperson.

THE UNIVERSITY OF QUEENSLAND

The University Of Queensland AUSTRALIA

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717001 St Lucia	4F or 8P	82.75	86.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: The Bachelor of Engineering (Honours) prepares you for a career addressing some of the key challenges of the 21st century, such as water resourcing, infrastructure and communication, food and health services supply, and sustainable energy development. We've crafted a new curriculum with industry experiences throughout your degree and more study options for greater career opportunities, so you're prepared for the jobs of the future. **Majors:** Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering; software engineering.

Majors: aerospace engineering; biomedical engineering; bioprocess engineering; computer engineering; environmental engineering; general civil engineering; geotechnical engineering; materials engineering; mining engineering; metallurgical engineering; structural engineering; transport engineering; water and marine engineering.

Minors: computing, data science, design **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation.

Career opportunities: Graduates work as engineers and consultants in government, business and industry within Australia and overseas. **Dual degrees:** Refer to entries for: B Engineering (Hons)/B Arts; B Engineering (Hons)/B Biotechnology; B Engineering (Hons)/B Business Management; B Engineering (Hons)/B Commerce; B Engineering (Hons)/B Computer Science; B Engineering (Hons)/B Design; B Engineering (Hons)/B Economics; B Engineering (Hons)/B Information Technology; B Engineering (Hons)/B Mathematics; B Engineering (Hons)/B Science.

Bachelor of Engineering (Honours)/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717401 St Lucia	5 1/2F or 11P	83.05	87.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual program combines studies in engineering with a wide range of arts majors. In the engineering component, develop your understanding by applying science and engineering principles to engineering problems of commercial importance. This course emphasises essential workplace skills such as communication, teamwork, project management, problem-solving and lifelong learning. The arts component provides skills in written communication, problem-solving, critical thinking and interpersonal understanding that expand your employment opportunities. **Note:** Specialist

Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons)* Specialisations: chemical engineering; civil engineering; electrical engineering; mechanical engineering; mechatronic engineering; software engineering. *Arts:* Refer to Bachelor of Arts.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Arts.

Bachelor of Engineering (Honours)/Bachelor of Biotechnology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717501 St Lucia	5F or 10P	85.20	86.35	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual degree combines the practical and theoretical requirements for a professional engineering qualification with the innovation and commercialisation aspects of the biotechnology industry. Through the biotechnology component you'll deepen your understanding of the key issues within biotechnology such as intellectual property, regulatory compliance, quality assurance and quality control, and learn how to assess the market potential and financial viability of new products or technical services such as vaccines, diagnostics, biopharmaceutical drugs, transgenic plants or innovations in stem cell therapy. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons):* chemical engineering. *Biotechnology:* agricultural biotechnology, chemical and nano biotechnology, medical biotechnology, molecular and and microbial biotechnology, synthetic biology and industrial biotechnology

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Biotechnology.

Bachelor of Engineering (Honours)/Bachelor of Business Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717301 St Lucia	5 1/2F or 11P	87.10	88.35	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: With this dual degree you'll develop a high level of proficiency in your chosen engineering discipline and the skills to be successful in a business or entrepreneurial setting. The engineering component develops specialised skills and knowledge to deliver practical solutions to some of society's most complex problems. Through the business management component, you'll study topics including innovation and entrepreneurship, economics, marketing, business information systems, strategy and management, and open up pathways to use your engineering prowess in a broad range of business applications. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons)* Specialisations: chemical engineering; civil engineering; electrical engineering; mechanical engineering; mechatronic engineering; software engineering. *Business management:* Refer to Bachelor of Business Management.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Business Management.

Bachelor of Engineering (Honours)/Bachelor of Commerce

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717201 St Lucia	5 1/2F or 11P	84.95	86.75	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: With this dual program you'll combine exceptional financial acumen and commerce expertise with specific practical and theoretical understanding in engineering, and graduate with a valued skill set that will place you in high demand with employers. In the Bachelor of Engineering (Honours) you'll develop technical skills through a core specialisation, which will form the basis of your career. During your commerce studies you'll be equipped with the fundamental principles of commerce and the business environment and complete a range of compulsory courses that cover concepts relevant across the financial services sector, including topics such as accounting, information systems, economics, business law and management. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons)* Specialisations: chemical engineering; civil engineering; electrical engineering; mechanical engineering; mechatronic engineering; software engineering. *Commerce:*Refer to Bachelor of Commerce.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Commerce.

Bachelor of Engineering (Honours)/Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717721 St Lucia	5 1/2F or 10P	84.10	86.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual program allows you to combine studies in engineering with emerging computer science technologies. You'll develop the strong analytical, logical and development skills necessary to advance computing and its applications alongside specialised engineering knowledge to meet the needs of the high-tech industries of the future. The computer science program combines theoretical studies of algorithms and data structures with the practical challenges of implementing them in hardware and software systems. Through the engineering program, you'll benefit from hands-on experiences across all aspects of engineering and more study options for greater career opportunities. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to Bachelor of Engineering (Honours) and Bachelor of Computer Science.

*Software Engineering is not available in the Bachelor of Engineering (Honours)/Bachelor of Computer Science dual program.

Career opportunities: Refer to the Bachelor of Engineering (Honours) and the Bachelor of Computer Science.

Bachelor of Engineering (Honours)/Bachelor of Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717121 St Lucia	5 1/2F or 11P	84.45	86.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: Prepare to meet tomorrow's challenges in new and novel ways when you combine engineering skills with design thinking in this unique dual program. Through the Bachelor of Design, you'll learn to challenge conventional thinking and bring a different mindset to problems. With a focus on solutions-based thinking, you'll gain practical skills in hands-on studio-based courses and expand your career options. Complement your design studies with technical knowledge through the Bachelor of Engineering (Honours), where you'll benefit from hands-on experiences across all aspects of engineering, more study options for greater career opportunities, and direct contact with industry. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons)* Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering; software engineering.

Design: Refer to Bachelor of Design. **Other requirements:** All engineering students must complete 450 hours of engineering professional practice prior to graduation.

Career opportunities: Refer to entries for Bachelor of Engineering (Honours) and Bachelor of Design.

Bachelor of Engineering (Honours)/Bachelor of Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717601 St Lucia	5 1/2F or 11P	88.35	90.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual program will equip you with expertise in economics to enhance your engineering abilities, providing you with skills in investment decision-making and managing complex environmental and social priorities.

Through the economics component you'll undertake a variety of courses that will build your knowledge about key economic principles, theories and tools, as you learn how to question, analyse, model and predict human behaviour. Combined with specialised engineering skills and knowledge, the unique skillset you'll develop will unlock career opportunities across a broad array of industries and organisations. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons)* Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering; software engineering.

Economics: Refer to Bachelor of Economics.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Economics.

Bachelor of Engineering (Honours)/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717701 St Lucia	5 1/2F or 11P	85.60	87.60	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual program combines the practical and theoretical requirements of a professional engineering qualification with the skills to effectively manage a wide range of business and technology environments. Topics covered include accounting, economics, law, marketing, business and strategy. You'll also learn about software engineering, design, mathematics, information systems and more. Through the information technology component, you'll benefit from a hands-on, project-focused program, based on international standards for computer science and information systems and be prepared for a career where you'll apply technical skills to solve problems, support innovation and improve communication between people. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** *Engineering (Hons)* Specialisations: chemical engineering; civil engineering, electrical engineering; mechanical engineering; mechatronic engineering. *Information technology:* Refer to Bachelor of Information Technology.

Career opportunities: Software/hardware engineer, professional engineer, robotics engineer, systems designer, information architect, data scientist.

Bachelor of Engineering (Honours)/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717901 St Lucia	5F or 10P	88.75	93.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: Combine your interest in mathematics with an accredited qualification in engineering. This dual program will provide you with the skills to apply advanced mathematics to engineering fields. You'll graduate with technical engineering expertise as well as essential workplace skills such as communication, teamwork, project management, and problem-solving. Studying the mathematics program in parallel will boost your engineering prowess and also open pathways to further higher study, such as honours in mathematics. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to Bachelor of Engineering (Hons) and Bachelor of Mathematics.

Career opportunities: Professional engineer, business analyst, business risk and governance consultant, statistician, quantitative analyst, research scientist, clinical data manager.

Bachelor of Engineering (Honours)/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717101 St Lucia	5F or 10P	83.95	86.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: This dual program combines your engineering at an honours level with complementary areas of science to gain interdisciplinary skills and create career choices across multiple sectors. Select from an array of science majors that will teach you how to work independently, perform critical experiments, analyse data and communicate results. In the engineering component you'll develop your technical skills through a core specialisation and have the option to complement your specialisation with a major or minor in one of the new and emerging areas of engineering. You'll graduate with highly developed knowledge in your specialist area, superior technical abilities, and advanced independent thinking and communication skills. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to Bachelor of Engineering (Hons) and Bachelor of Science.

Career opportunities: Refer to Bachelor of Engineering (Hons) and Bachelor of Science.

Bachelor of Engineering (Honours)/Master of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
717111 St Lucia	5F or 10P	92.20	97.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry or Physics (Units 3 and 4, C).

Course outline: As part of the Bachelor of Engineering (Honours) and Master of Engineering program, you'll be challenged to push the boundaries of the discipline while you develop high-level skills in critical and analytical thinking, research design and project management, and graduate fully prepared for the workforce through this specialised undergraduate and postgraduate program. You'll undertake a full-time placement with industry or a research institution either in Australia or overseas, and complete advanced coursework and project work in your final year. You'll also undertake a supervised master's thesis on a relevant topic and be involved with all aspects of research, including defining a research question, establishing a methodology and reporting on your findings. This integrated program provides the engineering qualifications to set you apart in the job market and a pathway to future research or learning. **Majors:** Chemical engineering; chemical and biomedical engineering; chemical and bioprocess engineering; chemical and environmental engineering; chemical and materials engineering; chemical and metallurgical engineering; civil engineering; civil and environmental engineering; electrical engineering; electrical and biomedical engineering; electrical and computer engineering; mechanical engineering; mechanical and aerospace engineering; mechanical and materials engineering; mechatronic engineering; software engineering. **Other requirements:** Students complete 450 hours of engineering professional practice prior to graduation. Some or all of this may be satisfied by the placement semester.

Career opportunities: Graduates are often employed as leaders on issues like climate change, diminishing supplies of water, mineral resources, poverty and disease. Others extend their research ambitions and enrol in a Master of Philosophy or PhD program, where they make significant discoveries and contribute to knowledge.

Bachelor of Business Management/Bachelor of Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
709511 St Lucia	4F or 8P	86.70	88.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: With the Bachelor of Business Management/Bachelor of Design dual degree you'll learn to challenge conventional thinking and bring a different mindset to business and societal problems.

The Bachelor of Business Management is designed to equip you with the skills you'll need for a future in business. You'll study topics including entrepreneurship, human resources, marketing, management and business technologies.

Complement your business knowledge with specialist capabilities in problem identification, critical thinking and designing for purpose through the Bachelor of Design.

You'll explore design through practical studio-based projects, working in teams to collaborate, challenge assumptions, prototype innovative and sustainable solutions, and systematically solve problems in creative and novel ways.

Join a new breed of business professionals who possess the expertise and creativity to respond to the complex needs of a contemporary world. **Majors:** Refer to Bachelor of Business Management and Bachelor of Design.

Career opportunities: Refer to Bachelor of Business Management and Bachelor of Design.

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Engineering (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907331 Toowoomba	4F or 8P	80.00	80.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
927331 Springfield	4F or 8P	74.15	74.15	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907335 External	4F or 8P	68.45	74.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: This program helps students to develop the skills, knowledge and experience of an engineer to enable them to deliver practical solutions to real-world problems. Students can apply their knowledge through practical experience in engineering. Students have the choice of a range of specialties in addition to acquiring skills in problem-solving, analysis, design, construction and management. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *External:* agricultural engineering; civil engineering; computer systems engineering; electrical and electronic engineering; environmental engineering; instrumentation control and automation engineering; mechanical engineering; mechatronic engineering; power engineering.

Toowoomba: agricultural engineering; civil engineering; computer systems engineering; electrical and electronic engineering; environmental engineering; mechanical engineering; mechatronic engineering; power engineering.

Springfield: civil engineering; electrical and electronic engineering; mechanical engineering; mechatronic engineering. **Other requirements:** Students must complete 60 days of work experience in an engineering workplace.

Career opportunities: Depending on major: professional engineering (civil), agricultural hydrology, soil conservation, machinery manufacture, environmental management, urban development, computer hardware design, networking, communications, food processing, power stations, telecommunications, manufacturing industries, transport industries, robotics, port authorities.

Combined degrees: Refer to entries for: B Engineering (Honours) B Business; B Engineering (Honours) B Information Technology; B Engineering (Honours) B Science.

Bachelor of Spatial Science (Honours)

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: Students are prepared for a career in one of Australia's high demanding and most rapidly changing industries. Students benefit from working with modern technology and tools including robotic total stations, drones, satellite imagery and laser measurement systems for 3D mapping and visualisation of the natural built environment. Students develop practical experience with the technical, analytical and leadership skills they'll need to succeed. Students apply these newly acquired skills and knowledge to a final-year research project. **Note:** External students must attend at least one, week-long, residential school at USQ Springfield during most years of the program. **Majors:** *Toowoomba and external:* geographic information systems (GIS); surveying. *Springfield:* surveying. **Other requirements:** Attendance at field excursions and practice courses in the form of residential schools is compulsory.

Career opportunities: Land and property development, mining, engineering surveying, land surveying, geographic information systems (GIS), drone photogrammetry and remote sensing, mapping.

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907801 Toowoomba	3F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
927801 Springfield	3F or 6P	68.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907805 External	3F or 6P	76.75	76.75	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: This program offers a practical, skill and knowledge-based degree for a career in one of Australia's high demanding and most rapidly changing industries. Students learn about surveying or geographical information systems and gain hands-on experience with modern technology and tools including robotic total stations, drones, satellite imagery and laser measurement systems. Along with developing analytical and leadership skills, this program allows students to acquire practical knowledge to work on a range of surveying projects including land development, mining or becoming a professional geographic information systems manager or spatial information analyst. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *Toowoomba and external:* geographic information systems (GIS); surveying. *Springfield:* surveying. **Other requirements:** Attendance at field excursions and practice courses in the form of residential schools is compulsory.

Career opportunities: Land and property development, mining, engineering, surveying, land surveying, geographic information systems, drone photogrammetry and remote sensing, mapping.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Associate Degree of Engineering

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907051 Toowoomba	2F or 4P	56.90	62.90	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
927051 Springfield	2F or 4P	59.05	64.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907055 External	2F or 4P	66.00	66.00	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General

Mathematics (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: Students gain industry-driven knowledge and the skills to apply practical analysis and technical principles to their chosen specialisation. This program prepares students for employment as associate engineers or can be used as a pathway to a bachelor's degree. This program expands students' knowledge in a range of technologies and equipment to assist in the design, management and construction of engineering projects. Students develop the basic problem-solving skills that can be applied to engineering problems, while gaining an understanding of the principles of sustainability. **Note:** External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *Toowoomba:* agricultural engineering; civil engineering; electrical and electronic engineering; mechanical engineering; mining engineering.

External: agricultural engineering; civil engineering; electrical and electronic engineering; instrumental control and automation engineering; mechanical engineering; mining engineering.

Springfield: civil engineering; electrical and electronic engineering; mechanical engineering. **Other requirements:** All students must complete 30 days of work experience in an engineering workplace.

Career opportunities: Depending on specialisation: with engineering consultants, government agencies, companies associated with mining, resources, farming, agricultural products, construction, research and development, manufacturing, processing, materials testing.

Associate Degree of Spatial Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907061 Toowoomba	2F or 4P	82.40	82.40	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
927061 Springfield	2F or 4P	63.00	63.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907065 External	2F or 4P	64.00	64.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C). **Additional entry information:** Applicants must nominate on their QTAC application one preferred major of study.

Course outline: This program arms students with the technical and analytical skills for a career in one of Australia's high demanding and most rapidly changing industries. Students acquire knowledge of innovative technologies including robotic total stations, drones satellite imagery and laser measurement systems. Students develop critical insights into spatial science through study of surveying, mapping, engineering systems, land development, town planning, environmental management, land law, and sustainable development. **Note:** Students are required to undertake practical and professional activities relevant to their program through enrolment in a series of Practice courses in the program. External students must attend at least one, week-long, residential school in Toowoomba during most years of the program. **Majors:** *Toowoomba and external:* geographic information systems (GIS); surveying; urban and regional planning.

Springfield: surveying. **Other requirements:** Attendance at field excursions and practice courses in the form of residential schools is compulsory.

Career opportunities: Land and property development, mining, engineering surveying, land surveying, geographic information systems (GIS), drone photogrammetry, town planning, mapping.

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Engineering (Civil) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013731 Sunshine Coast	4F or 8P	68.80	74.80	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014731 Moreton Bay	4F or 8P	64.20	64.20	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Students learn how to design, construct, operate, maintain and recycle the physical and natural environments. They gain a broad foundation in engineering and mathematics. Students develop skills in problem-solving, teamwork and communication, and gain technical, business management and scientific environmental knowledge. They examine current engineering professional practice with emphasis on the creative nature of engineering. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Government agencies, construction companies, engineering consultancies, building industry, water supply authorities, mining industry, research organisations.

Combined degrees: Refer to entry for: B Engineering (Civil) (Honours)/B Environmental Science.

Bachelor of Engineering (Civil) (Honours)/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013751 Sunshine Coast	5F or 10P	73.30	77.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014751 Moreton Bay	5F or 10P	73.30	77.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Students learn how to design, construct, operate, maintain and recycle the physical and natural environments as civil engineers and to become skilled environmental professionals managing human interaction with the natural environment. The program develops the scientific base needed to make judgements on the conservation and use of natural ecosystems and resources, while providing a broad foundation in engineering. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Government agencies, construction companies, engineering and environmental consultancies, mining industry, research, parks and wildlife, resource management.

Bachelor of Engineering (Electrical and Electronic) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
014711 Moreton Bay	4F or 8P	65.30	69.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Students learn how to design, develop and maintain electrical systems as electrical engineers. They learn the fundamentals of engineering; develop in-depth skills in electrical and electronic engineering theory, standards and practice; and develop advanced problem solving, communication and project management skills. The program also covers renewable energy power systems and the importance of sustainable development. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Power generation, transmission and supply industry, data communication, automation and robotics, engineering consultancies, aerospace, mining, defence.

Bachelor of Engineering (Mechanical) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013741 Sunshine Coast	4F or 8P	61.55	63.55	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014741 Moreton Bay	4F or 8P	71.70	73.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Students investigate energy generation, dynamic mechanisms, simulation, manufacturing and fluid flow control. They learn how to design new machines and devices and develop better manufacturing methods and systems. Students undertake foundation studies in engineering and the sciences and courses leading to competence in engineering research, engineering design and operation and management of engineering systems. Guest lecturers from industry ensure high-level exposure to current engineering professional practice. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Mining, chemical processing, pharmaceutical, manufacturing, oil and gas, automotive, aviation, electrical power, transport, defence, agriculture.

Bachelor of Engineering (Mechatronic) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
014721 Moreton Bay	4F or 8P	57.40	61.40	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Students learn how to design, develop and maintain complex machines that require multiple technologies to function. They learn the fundamentals of mechanical engineering, electronic engineering and computer engineering. These devices could be as simple as a domestic microwave oven to the futuristic self-drive vehicles or interactive robots. To be effective in a multi-disciplinary engineering team, students learn the fundamental theories, standards and code of practice, and develop advanced problem solving, communication and project management skills. **Other requirements:** Students must complete 60 days of suitable field experience. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Automation, robotics, automotive, manufacturing, food processing industries, power generation, agriculture, pharmaceutical companies, aerospace, mining, defence.

Undergraduate Certificate in Engineering Design

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013710 Sunshine Coast	1/2F or 1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014710 Moreton Bay	1/2F or 1P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: We live in a world of technological change, driven by increasing demands for better, more efficient, sustainable products. Engineering is at the forefront of this change, providing the knowledge, technology and skills to meet the requirements of the community. This program provides the foundations required to convert ideas into new products. You will learn the fundamentals of engineering and machine design as well as the basics of mechatronics and electrical engineering. **Note:** On successful completion of the Undergraduate Certificate in Engineering Design, and subject to meeting all other entry criteria, you may receive up to 48 units of credit towards one of USC's four Bachelor of Engineering programs: Bachelor of Engineering (Mechanical) (Honours), Bachelor of Engineering (Civil) (Honours), Bachelor of Engineering (Mechatronic) (Honours), or Bachelor of Engineering (Electrical and Electronic)(Honours). **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Subject to completion of one of the four- year Bachelor of Engineering (Honours) programs career opportunities exist in: Government agencies, Engineering consultancies, Research organisations; Mining industry; Chemical processing; Construction; Manufacturing; Oil and gas; Automotive; Aviation; Transport; Defence; Agriculture

☆ *See Admissions Criteria on website for more information.*

HEALTH AND RECREATION

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115941 Brisbane	3F or 6P	51.80	58.70	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This course will prepare graduates with an understanding of the cause, nature, progression, consequences, and diagnosis of disease, and will explore research aimed at disease prevention and treatment. Students will gain hands-on laboratory experience in anatomy, biochemistry, cell biology, chemistry, genetics, immunology and microbiology. Our majors and minors offer a more thorough study of physiological pharmacology, physiology and pharmacology. After graduation, biomedicine professionals are expected to work with cutting-edge technology and to collaborate within healthcare teams to create novel solutions to global and national health challenges. Graduates may also choose to complete postgraduate degrees in medicine and allied health. **Majors:** Physiological pharmacology. **Other requirements:** Students must undertake one unit of workplace learning with an external organisation of their choice, and one unit focusing on community engagement. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal research and quality assurance, science communication, research in universities, hospitals or the public health sector.

Double degrees: Refer to entry for: B Biomedical Science/B Business Administration, and B Biomedical Science/B Laws

Bachelor of Biomedical Science/Bachelor of Business Administration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115961 Brisbane	4F or 8P	59.45	64.45	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This double degree provides students with an understanding of business management and how organisations work. This enhances their professional careers in biomedical contexts across a range of organisations. Students learn how the human body functions, what causes disease and how disease is treated. The biomedical science component trains students in the core areas of anatomy, physiology, biochemistry, pharmacology, immunology and microbiology. Students are introduced to each of these disciplines via core units and are expected to undertake detailed study in at least one discipline through elective units. **Other requirements:** Students must undertake one unit of workplace learning with an external organisation of their choice. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal, research and quality assurance working in hospitals, universities or the public health sector.

Bachelor of Exercise and Sports Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115711 Brisbane	3F or 6P	51.85	59.35	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course focuses on exercise and health in the context of elite sport, recreational physical activity, and community wellbeing, and the roles and benefits of exercise and healthy lifestyles. Students graduate with a strong academic base in exercise prescription, sports performance analysis and physical activity across the lifespan, in the context of the scientific principles of fitness and health and their application. **Other requirements:** Students undertake 140 hours of appropriate professional experience. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Exercise scientist, sports scientist, sports coach, exercise physiologist, health and fitness consultant.

Double degrees: Refer to entries for: B Education (Secondary)/B Exercise Science; B Exercise Science/B Business Administration.

Bachelor of Exercise Science/Bachelor of Business Administration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115921 Brisbane	4F or 8P	54.65	59.65	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This double degree combines core curricula from exercise science and business administration. Students gain extensive knowledge of how the human body works, with a specific focus on the role of exercise in health, wellbeing and performance. Students learn how to grow a business through an understanding of markets and application of business marketing. **Other requirements:** Students must complete a structured community engagement experience as a volunteer in a not-for-profit organisation. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Corporate health and fitness, family and community services, health and fitness industry, government agencies, state sporting associations, rehabilitation clinics, personal training.

Bachelor of High Performance Sport

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115981 Brisbane	2 1/2F or 3F or 6P	56.50	64.50	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In this degree, you will gain skills in sports performance and analysis, exercise programming, and in the strength and conditioning of athletes. You'll learn to design and deliver programs that enhance athletic performance and reduce the likelihood of injury and illness. This degree provides extensive knowledge and skills in human performance, from the physiological, psychological, biomechanical, nutritional and skill-based perspectives. **Other requirements:** Students must complete 200 hours of appropriate professional experience as part of course accreditation requirements. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Sport and recreation departments, high performance sport organisations, corporate fitness, strength and conditioning coach, sports or rehabilitation scientist/coach.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115512 Brisbane	3F or 6P	84.25	94.25	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Graduates of this course are eligible for endorsement as entry-level midwives according to the internationally defined role of the midwife. Students acquire the skills and knowledge to manage normal pregnancy and childbirth and provide effective postnatal, maternal and newborn care in any maternity setting. Students undertake a variety of clinical units throughout the course in maternity hospitals and community facilities. **Note:** This course is accredited with the Australian Nursing and

Midwifery Accreditation Council (ANMAC) to the end of 2022 and currently undergoing scheduled re-accreditation for the period 2023 – 2027. **Other requirements:** Students undertake approximately 1000 hours of professional experience. For criminal record check, required immunisations, first aid certificate and Working with Children check, refer to institution. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Midwife, consultant midwife, clinical specialist, prenatal educator, researcher, family care unit or child health centre professional.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115412 Brisbane	3F or 6P	67.15	78.05	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: This course develops caring professional nurses who are proactive and adaptable, competent and ethical clinicians, and creative and critical thinkers. Across the course, theory is consistently embedded in clinical practice through the inclusion of one Integrating Practice unit every semester. Clinical placement areas include aged care, community nursing, high dependency nursing, medical/surgical nursing, mental health, paediatrics, palliative care, and perioperative nursing. Students may also take up the opportunity to engage with communities overseas and gain unique educational and cultural experiences working in care facilities in developing countries. **Note:** This course is accredited with the Australian Nursing and Midwifery Accreditation Council (ANMAC) to the end of 2022 and currently undergoing scheduled re-accreditation for the period 2023 – 2027. **Other requirements:** Students undertake at least 800 hours of professional experience. For criminal record check, required immunisations, first aid certificate and Working with Children check, refer to institution. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Registered nurse in a range of private, public and community environments.

Double degrees: Refer to entries for: B Nursing/B Business Administration; B Nursing/B Paramedicine.

Bachelor of Nursing (for Enrolled Nurses - Diploma of Nursing Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115431 Brisbane	2F or 4P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: AHPRA Registration; Prior study. **Additional entry information:** To be eligible for admission to the course, an applicant must have completed an approved and accredited Diploma of Nursing (Enrolled Nursing) and hold current registration as an enrolled nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Graduates of this course are proactive, adaptable, competent, safe and ethical clinicians, well prepared to meet the needs of the community. Successful applicants enter the second year of the Bachelor of Nursing having been given block credit transfer towards the first year of the course. Learner-centred approaches, including case study-based learning, enhance students' learning experience and readiness for the workplace. Clinical experience in public and private settings across the healthcare spectrum forms an integral part of the course. **Note:** This course is accredited with the Australian Nursing and Midwifery Accreditation Council (ANMAC) to the end of 2022 and currently undergoing scheduled re-accreditation for the period 2023 – 2027. **Other requirements:** Students undertake at least 720 hours of professional experience. For criminal record check, required immunisations, first aid certificate and Working with Children check, refer to institution. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Registered nurse in a range of private, public and community environments.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Nursing/Bachelor of Business Administration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115312 Brisbane	4F or 8P	58.60	70.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Graduates of this course are prepared to meet the evolving business management expectations of health services. In the range of practice settings from hospitals to aged care, general practice, private practice and the community, health is increasingly seen as a business, and nurses must contribute to the success of that business through effective management of staff and financial resources. **Note:** This course is accredited with the Australian Nursing and Midwifery Accreditation Council (ANMAC) to the end of 2022 and currently undergoing scheduled re-accreditation for the period 2023 – 2027. **Other requirements:** Students undertake at least 800 hours of professional experience in nursing. For criminal record check, required immunisations, first aid certificate and Working with Children check, refer to institution. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Private, public and community nursing environments that require an understanding of business processes.

Bachelor of Nursing/Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115611 Brisbane	4F or 8P	80.45	90.45	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C). **Additional entry information:** To enrol in this program, students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students have not met these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Graduate as both a qualified nurse and paramedic, gaining practical experience in a range of health care environments such as rural and remote areas where multi-skilled practitioners are highly valued. In addition, innovative simulation activities provide a rounded and robust learning experience to prepare for real-world clinical and professional challenges. **Note:** This course is accredited with the Australian Nursing and Midwifery Accreditation Council (ANMAC) to the end of 2022 and currently undergoing scheduled re-accreditation for the period 2023 – 2027. **Other requirements:** Students must take a medical and physical capacity test prior to commencing clinical placement with an Australian ambulance service. This is an ambulance service mandatory requirement. Students undertake five nursing clinical placements and five paramedicine clinical placements in a variety of healthcare environments. In addition, innovative simulation activities provide a rounded and robust learning experience to prepare for real-world clinical and professional challenges. For criminal record check, required immunisations, first aid certificate and Working with Children check, refer to institution. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Registered nurse, paramedic, medical dispatcher, medical/surgical nurse, accident and emergency nurse. On graduation, and subsequent to an internship year with an ambulance service, students can become qualified/registered paramedics. They are also eligible for postgraduate training to become intensive/critical care paramedics.

Bachelor of Occupational Therapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115821 Brisbane	4F or 8P	83.55	94.50	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: Occupational therapists play an important role in the lives of individuals and communities to enable participation in occupations of self-care, productivity and leisure. Occupational therapists need to know how humans function as occupational beings, requiring a range of skills that enable them to practice competently and safely. Students develop the ability to analyse and assess occupational performance, apply and evaluate interventions to enable occupational performance and collaborate and communicate effectively with clients, their families and colleagues. **Other requirements:** Students undertake approximately 1000 hours of professional experience across four years. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Public and private hospitals, community health centres, rehabilitation centres, private practice, nursing homes, aged-care facilities.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115461 Brisbane	3F or 6P	74.25	83.85	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course develops professional paramedics who are emotionally intelligent and motivated to improve communities. Students will learn how to deliver compassionate primary, urgent and/or emergency health care in challenging and dynamic environments and gain critical thinking and problem-solving skills that enable them to cope in high-pressure environments. Students gain reasoning critical thinking and problem- solving skills that enable them to cope in high-pressure environments. Students will undertake five clinical practice units in a variety of healthcare situations. In addition, innovative simulation activities provide a rounded and robust learning experience to prepare for real-world clinical and professional challenges. **Other requirements:** Students must undertake a medical and physical capacity test prior to commencing clinical placement with an Australian ambulance service. This is an ambulance service mandatory requirement. For criminal record check and health requirements, refer to institution. Students undertake five clinical practice units in a variety of healthcare settings. Innovative simulation activities also prepare for real-world challenges. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Paramedic with an Australian ambulance service and in some international ambulance or health organisations. Graduates are also eligible for postgraduate training to become intensive/critical care paramedics.

Double degrees: Refer to entry for: B Nursing/B Paramedicine.

Bachelor of Physiotherapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115811 Brisbane	4F	85.80	97.10	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: Physiotherapists work with people who have problems with their cardiorespiratory, musculoskeletal or neurological systems. By learning the necessary skills to optimise movement and function, they will help people overcome movement disorders, either present at birth or associated with ageing or life-changing events. Students undertake clinical placements throughout the program, starting in year one. Fourth-year students undertake four to six placements of five weeks' duration, encompassing a range of clinical physiotherapy areas including musculoskeletal outpatients, neurology and cardiorespiratory plus a selection of specialised and/or elective areas. **Other requirements:** Students undertake at least 1000 hours of professional experience across four years. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Physiotherapist specialising in rehabilitation, paediatrics, women's health, sports physiotherapy, cardiorespiratory, orthopaedics, gerontology and ergonomics.

Bachelor of Speech Pathology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115631 Brisbane	4F	76.70	86.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Health or Physical Education (Units 3 and 4, C). **Additional entry information:** Applicants who have undertaken higher education study at bachelor level or higher with one full year completed are considered on the basis of the selection rank from that study.

Course outline: This course prepares students to assess and manage communication disorders and encompasses all aspects of communication including speech, writing, reading, signs, symbols and gestures. Students study the theoretical and practical aspects of speech, hearing, language, voice, and difficulties in swallowing and feeding. The course is designed to expose students to speech pathology practice from the first year of the degree. **Note:** The course is currently accredited with Speech Pathology Australia in Brisbane, Melbourne, and North Sydney. Accreditation means that all graduates are eligible to apply for membership of Speech Pathology Australia. **Other requirements:** Students undertake approximately 750 hours of professional experience across four years. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Public and private hospitals, acute care and outpatient facilities, schools, community health centres, early childhood clinics, private practice.

Diploma in Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115943 Brisbane	1F	46.65	51.65	Feb 2023	12 Jan 2023

Course outline: The Diploma in Biomedical Science is an important stepping-stone toward achieving your career and study goals. You'll graduate with a formal standalone qualification plus gain credit for first year entry to the Bachelor of Biomedical Science and potentially other health science bachelor's degree to transition straight into second year with credit.

Undertaking the ACU Diploma in Biomedical Science will help you to develop the academic skills and university experience needed to succeed in more advanced tertiary study.

Whether you have just finished Year 12 or finished years ago, our Diploma in Biomedical Science is a Commonwealth supported place (CSP-funded) and will help you achieve your goals.

We are here to support you from start to finish. We ensure smaller class sizes, offer tailored support as you transition to university study, and provide a range of student services to help you succeed.

Career opportunities: Pharmaceutical and medical technology industries, health regulation, health education, patient advocacy, consumer health program development, hospitals and public health, science communication, academic research, medical marketing and sales.

Diploma in Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115971 Brisbane	1F	47.65	51.80	Feb 2023	12 Jan 2023

Course outline: The Diploma in Exercise Science is an important stepping-stone toward achieving your career and study goals. You'll graduate with a formal standalone qualification plus gain credit for first year entry to a range of Exercise Science degrees and potentially other discipline bachelor's degree to transition straight into second year with credit.

Undertaking the ACU Diploma in Exercise Science will help you to develop the academic skills and university experience needed to succeed in more advanced tertiary study.

Whether you have just finished Year 12 or finished years ago, our Diploma in Exercise Science is a Commonwealth supported place (CSP-funded) and will help you achieve your goals.

We are here to support you from start to finish. We ensure smaller class sizes, offer tailored support as you transition to university study, and provide a range of student services to help you succeed.

Career opportunities: Professional sporting organisations, national sporting organisations, national institutes of sport, state institutes or academies of sport, state sporting organisations, in the health, fitness and recreation industries, including community health settings, corporate health and wellness and injury prevention or as small business owners.

BOND UNIVERSITY

Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
020712 Gold Coast	4.67F	☆	☆		

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Mathematical Methods or Physics (Units 3 and 4, C); No prior tertiary study; Bond University Medicine Test; Interview. **Additional entry information:** Entry to this course is highly competitive and limited to Australian citizens, Australian permanent residents, holders of an Australian Humanitarian visa and New Zealand citizens (but not New Zealand permanent residents). Applicants will be selected initially on their academic rank, followed by their psychometric test outcome and finally, their interview rank. Progression to each stage of the selection process is not automatic and Bond will invite selected applicants to each stage. For additional application and assessment information, including prerequisite information, visit bond.edu.au/medical-program. This program is for applicants who have completed Year 12 and who have not previously completed tertiary studies at a bachelor degree level or higher. **Closing date:** QTAC will accept applications and changes of preference from 13 January 2022 to 28 January 2022. **Note:** All required supporting documentation must be submitted to QTAC by 29 January 2022. Late and incomplete applications will not be considered.

Course outline: The Bond Medical Program comprises two sequential degrees: the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). All students have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of year 5. Learning and teaching in the BMedSt occurs in small group sessions comprised of interactive cases through problem-based learning, as well as clinical skills laboratories, simulation activities, community and clinical placements and a cultural immersion experience. This is followed, in the MD, by clinical rotations in hospital and community healthcare settings, as well as face-to-face teaching at timetabled education sessions. During this time, students undertake a research or professional project, or a capstone experience and prepare a portfolio of their work. For more information about the Bond Medical Program, visit bond.edu.au/medical-program.

Career opportunities: With further study, general practitioner or medical specialist in private practice, the public health system, community health centres, corporations, and in medical research.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round

CQUNIVERSITY AUSTRALIA

Bachelor of Allied Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850511 Rockhampton	3F or 6P	56.85	60.85	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
850515 Online	3X or 6X	63.35	65.35	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Allied Health is a practical course designed to develop well-rounded skills and provide students with a foundation learning opportunity. In this course, students will develop their knowledge in a broad range of topics including anatomy and physiology, health psychology, evidence-based practice and rural and remote health. This course will provide students with opportunities to apply their knowledge and skills in rich and authentic learning environments through laboratory activities, research projects and work-integrated learning where they will be engaged in genuine, real life professional experiences. Completing the Bachelor of Allied Health is the ideal pathway for progression into specialised postgraduate or graduate-entry courses in areas such as physiotherapy, occupational therapy, speech pathology or public health. **Note:** Students studying online must attend compulsory on-campus residential schools for some units. **Other requirements:** Students are required to undertake professional placement in an Allied Health setting. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Roles within aged care, Indigenous heath, community health project management, health promotion, public health, health research

Bachelor of Echocardiography and Cardiac Physiology/Graduate Diploma of Echocardiography

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
881851 Brisbane	4F or 8P	66.75	74.55	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2022.

Course outline: Enjoy the opportunity to join a niche medical profession with no prior degree in health sciences. This course is the first Australian course allowing undergraduate entry to this growing field within diagnostic medical imaging. Graduates will be able to apply knowledge of cardiac physiology, measurement science and practical echocardiographic scanning skills in the diagnostic setting. This is a high demand course and places are limited. **Other requirements:** Students must meet specific pre-clinical health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. Students undertake a total of over 2000 hours of full-time clinical study. Student learning is supported by clinical supervisors on-site and CQUniversity academics. Clinical facilities can often only host one student at a time so the placement locations are spread over a large geographical area. As a result prospective students are advised that they should prepare personally and financially to relocate for some or all of their placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: This course prepares graduates to practise as an Echocardiographer in public and private hospitals and community health care services.

Bachelor of Exercise and Sport Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
828621 Cairns	3F or 6P	68.70	70.70	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
848621 Mackay	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
858621 Rockhampton	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
858625 Online	3X or 6X	71.65	72.25	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This course equips students with practical skills in the various disciplines relevant to exercise and sport sciences such as anatomy and physiology, nutrition, exercise physiology, biomechanics, exercise and sport psychology, motor control and learning, and exercise prescription and delivery. Students gain a comprehensive understanding of the processes and mechanisms of the human body as they relate to exercise and sport science and have the flexibility to pursue an area of interest, with a choice of minor in biomedical sciences, secondary teaching, or management and business. **Note:** Students studying online will be required to attend compulsory residential schools for some units. **Other requirements:** Across the three-year course, students will complete up to 240 hours of work-integrated learning through voluntary experience and observation in professional practice placements, working with the general population, sporting populations, and rehabilitation or special populations. Additional practical experience is provided through laboratory activities and research projects conducted throughout the course units. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Regional and state sporting organisations; sports institutes and academies; professional sports training; coaching and development; strength and conditioning; rehabilitation clinics and hospitals; universities and colleges with involvement in education and research.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Medical Imaging

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
841681 Mackay	4F	72.20	76.20	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Closing date:** This course has an early closing date of 9 December 2022.

Course outline: This course prepares students to work as Radiographers and enables them to provide safe and accurate imaging examinations in a wide range of clinical environments. Students are trained in a purpose-built environment and use the latest technology to ensure they graduate work ready. Education and training focuses on developing key competencies so students are confident in digital technology, community engagement and remote and rural innovation. By completing extensive work placements, students gain practical experience and apply their skills and knowledge in a real-world setting. **Other requirements:** Students must provide evidence of completion of vaccinations as stipulated prior to placement attendance, in accordance with the state Department of Health requirements for clinical students. Students must also maintain a current CPR certificate and complete an annual occupational health and safety induction. Students must also complete a fitness to practice declaration prior to each clinical placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Diagnostic Radiographers in public and private practice and community health care services.

Bachelor of Medical Laboratory Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851681 Rockhampton	4F or 8P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
851685 Online	4X or 8X	66.25	70.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This course allows students to build technical and evaluative skills to assess and implement recommendations for best practice in patient testing, monitoring and education. Students will develop an advanced level of communication skill to ensure positive interactions with both patients and other health professionals. Through opportunities in professional practice, case-based studies and research projects, students will develop clinical decision-making and problem-solving abilities to enable students to successfully perform duties as a medical laboratory scientist upon graduation. **Note:** Many units in the course have compulsory residential schools in Rockhampton to ensure students acquire the technical skills of the Medical Laboratory Scientist. **Other requirements:** Students must undertake compulsory clinical placement during their studies for some units. Prior to commencement of work-integrated learning students must provide evidence of completion of mandatory checks, including evidence of Immunisations as per the CQUniversity Policy for Vaccination of Students in Health Courses. Visit cqu.edu.au/courses for full course requirements.

Career opportunities: Medical laboratory scientist.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Medical Science (Pathway to Medicine)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
888000 Rockhampton	3F	93.10	93.10	Mar 2023	12 Jan 2023
888001 Bundaberg	3F	92.05	92.05	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Applicant must be a Current Year 12 student; Interview. **Additional entry information:** This course is designed for recent school leavers. To be eligible to apply for entry to this course, students must be graduating high school in the year of application. Applicants will need to sit the UCAT ANZ before applying for this course. Applicants must have a competitive University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) aggregate score. The minimum required UCAT ANZ aggregate score depends on the performance of applicants and available places in the course. Applicants must have a minimum adjusted ATAR of 95.00 (or equivalent), or higher. Shortlisted applicants must attend a multiple mini interview (MMI). Entry is competitive with limited places available. Meeting the minimum entry requirements does not guarantee admission. A detailed summary of the admission pathway including the process to be selected for an interview and selection for an offer of a place in the course can be found in the CQUni Entry Admission (PDF). **Closing date:** Applications close on 30 September 2022.

Course outline: Designed for school leavers, this course will provide a contextualised curriculum to prepare students for a future medical career. Students will benefit from authentic, and real-world learning experiences that provide relevant skills and knowledge in science, biomedical science and health to ensure students are well prepared for further medical study. Upon successful completion of the course within three years and with a Grade Point Average of 5.0 or more, students will gain direct entry into The University of Queensland's regionally-based Doctor of Medicine Program. Throughout the course, students will build knowledge in the structure and function of the human body and develop a conceptual understanding of what happens when diseases, infections and clinical disorders occur. In the first year, students will study the foundations of medical science in the subjects of anatomy, physiology, chemistry, and biochemistry. In the second and third year, students will apply the knowledge of first-year subjects to medically focused subjects of cell biology, microbiology, immunology, pathophysiology, pharmacology, and medical imaging. Community placements, clinical immersion experiences and work-integrated learning opportunities with health service providers in Central Queensland and Wide Bay are offered throughout the course to prepare students for their career in medicine. **Note:** Available in Rockhampton and Bundaberg this innovative course is designed for school leavers and provides a limited number of places as a provisional entry pathway into The University of Queensland's regionally based Doctor of Medicine program.

Aboriginal and/or Torres Strait Islander applicants may choose to apply for this course via the Aboriginal and/or Torres Strait Islander Admission pathway. **Other requirements:** The course also includes work placement. Students must satisfy specific pre-clinical safety and security requirements prior to each placement, including a clear criminal record check, valid Blue Card, and must disclose any condition that may put themselves or the public, at significant risk whilst on placement. Students are required to ensure that all immunisations as per requirements of the placement provider are completed before they proceed on work placement. Students are required to meet all mandatory requirements to attend work placements. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: On successful completion of the Bachelor of Medical Science (Pathway to Medicine) course within three years, and with a Grade Point Average of 5.0 or more, students will gain direct entry into The University of Queensland's regionally-delivered Doctor of Medicine Program. This course provides a provisional pathway for graduate entry into the UQ MD and facilitates the opportunity for students to study medicine in regional Queensland.

888005 Bundaberg	3F	92.05	92.05	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Applicant must be a Current Year 12 student; Interview. **Additional entry information:** This course is designed for recent school leavers. To be eligible to apply for entry to this course, students must be graduating high school in the year of application. Applicants will need to sit the UCAT ANZ before applying for this course. Applicants must have a competitive University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) aggregate score. The minimum required UCAT ANZ aggregate score depends on the performance of applicants and available places in the course. Applicants must have a minimum adjusted ATAR of 95.00 (or equivalent), or higher. Shortlisted applicants must attend a multiple mini interview (MMI). Entry is competitive with limited places available. Meeting the minimum entry requirements does not guarantee admission. A detailed summary of the admission pathway including the process to be selected for an interview and selection for an offer of a place in the course can be found in the CQUni Entry Admission (PDF). **Closing date:** Applications close on 30 September 2022.

Course outline: Designed for school leavers, this course will provide a contextualised curriculum to prepare students for a future medical career. Students will benefit from authentic, and real-world learning experiences that provide relevant skills and knowledge in science, biomedical science and health to ensure students are well prepared for further medical study. Upon successful completion of the course within three years and with a Grade Point Average of 5.0 or more, students will gain direct entry into The University of Queensland's regionally-based Doctor of Medicine Program. Throughout the course, students will build knowledge in the structure and function of the human body and develop a conceptual understanding of what happens when diseases, infections and clinical disorders occur. In the first year, students will study the foundations of medical science in the subjects of anatomy, physiology, chemistry, and biochemistry. In the second and third year, students will apply the knowledge of first-year subjects to medically-focused subjects of cell biology, microbiology, immunology, pathophysiology, pharmacology, and medical imaging. Community placements, clinical immersion experiences and work-integrated learning opportunities with health service providers in Central Queensland and Wide Bay are offered throughout the course to prepare students for their career in medicine. **Note:** Available in Rockhampton and Bundaberg this innovative course is designed for school leavers and provides a limited number of places as a provisional entry pathway into The University of Queensland's regionally-based Doctor of Medicine program.

Aboriginal and/or Torres Strait Islander applicants may choose to apply for this course via the Aboriginal and/or Torres Strait Islander Admission pathway. **Other requirements:** The course also includes work placement. Students must satisfy specific pre-clinical safety and security requirements prior to each placement, including a clear criminal record check, valid Blue Card, and must disclose any condition that may put themselves or the public, at significant risk whilst on placement. Students are required to ensure that all immunisations as per requirements of the placement provider are completed before they proceed on work placement. Students are required to meet all mandatory requirements to attend work placements. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: On successful completion of the Bachelor of Medical Science (Pathway to Medicine) course within three years, and with a Grade Point Average of 5.0 or more, students will gain direct entry into The University of Queensland's regionally-delivered Doctor of Medicine Program. This course provides a provisional pathway for graduate entry into the UQ MD and facilitates the opportunity for students to study medicine in regional Queensland.

Bachelor of Medical Science (Specialisation)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851701 Rockhampton	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
851705 Online	3X or 6X	65.85	69.85	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
812701 Bundaberg	3F or 6P	69.15	71.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Medical Science aims to develop skills to apply knowledge of clinical measurement, nutrition, or pathology to clinical practice in a health professional role, or biotechnology in support industries and medical research. The course is designed to build a high level of technical and evaluative skill so students can assess and implement recommendations for best practice in patient testing, monitoring, education or to develop therapeutics in the cutting-edge medical biotechnology or pharmaceutical industry. The course also aims to develop high level communication skills so that students can interact positively with patients/clients, other health professionals or industry leaders and are ready for the clinical or scientific work environment. **Note:** For students studying online, there are several compulsory residential schools to attend. **Majors:** Biotechnology; clinical measurement; nutrition.

All majors are available to study on campus in Rockhampton or via online study. In Bundaberg, only the Clinical Measurement major is available to study on campus. **Other requirements:** This course requires approximately 360 hours of compulsory work experience. Students must satisfy specific pre-placement health and safety checks prior to each placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates can seek employment as health professionals in clinical measurement, biotechnology or nutritional areas.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Medical Sonography and Graduate Diploma of Medical Sonography

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
881691 Brisbane	4F	95.35	98.70	Mar 2023	12 Jan 2023
841691 Mackay	4F	80.85	82.85	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2022.

Course outline: A first of its kind in Australia, and allows students to enter a niche medical profession with no prior degree in health sciences. This course will enable students to apply sonographic knowledge and practical scanning skills in the diagnostic imaging setting. Medical Sonographers take diagnostic images using ultrasonic equipment to create still, video or 3D studies of anatomy and diagnostic data. They scan, analyse and modify images to optimise the information and require highly developed patient care and communication skills. This is a high demand course and places are limited. **Note:** The course is structured so that Year One is delivered online, with two compulsory two-day residential schools. These residential schools must be attended at your campus of admission. **Other requirements:** Students undertake a total of 2000 hours of full-time clinical study. As placements are located throughout Australia and availability is limited in each community, students may be placed at locations that are not of their choosing. Students must prepare financially and personally to relocate for

placements, and are responsible for the associated costs. Students must meet specific pre-clinical health, safety, security and licensing requirements prior to each placement, and must disclose any condition that may put themselves or the public at significant risk while on placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Sonographer in public or private hospitals, clinics and community health care services.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850426 Rockhampton	3F or 6P	67.00	69.15	Mar 2023	12 Jan 2023
851525 Online	3X or 6X	66.60	68.30	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Additional entry information:** To enrol in this program, all students must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students do not meet these educational requirements, they will be required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency. **Closing date:** Applications for this course close 20 January 2022.

Course outline: Make a difference through nursing with CQUniversity's accredited Bachelor of Nursing. This course will prepare students for a rewarding and diverse career as a competent and effective Registered Nurse (Division 1) General. Clinical learning is a key element of the Bachelor of Nursing and students will be required to undertake 800 hours of professional experience placement in a variety of settings with different health organisations. Students will develop their skills and knowledge through a combination of theoretical and extensive clinical learning experiences including simulated training across the University's nationally located Clinical Learning Centres which simulates a real-world setting for students to safely practice in. Through this course students will acquire skills to provide person-centred care and collaborate with other members of the interdisciplinary healthcare team. Students will seek evidence to ensure safe quality practice and act in a professional, ethical and compassionate manner. In addition, students will learn to nurture the development of nursing as a practice discipline and demonstrate leadership in healthcare. **Note:** Clinical learning is a key element of the Bachelor of Nursing and students will be required to undertake 800 hours of professional experience placement in a variety of settings with different health organisations. Students must meet specific mandatory health, safety and security requirements to be eligible to attend each professional experience placement. Professional experience placements may be limited in specific locations. This means that students may be placed in other locations and may be required to relocate to complete placements. **Other requirements:** On accepting an offer for this course, it is strongly recommended that students start gathering evidence to complete the mandatory checks required to attend clinical placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: The broad nature of nursing and healthcare allows opportunities for employment and/or specialisation in environments such as acute hospital services, community health, mental health, residential and aged care, indigenous health, and rural and remote health.

Bachelor of Occupational Health and Safety

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850465 Online	3X or 6X	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This course develops expertise in identifying occupational health and safety (OHS) hazards in the workplace. Studies equip students with knowledge, skills and initiatives in occupational hygiene, workplace rehabilitation, ergonomics, safety, and occupational health and safety management. Training will include decision making, problem-solving and management skills that are highly desired by employers. The course provides students with a variety of hands-on experiences, including participation in worksite visits and 120 hours of work placement, ensuring graduates are work ready. **Note:** This course requires attendance at compulsory residential schools. **Other requirements:** Students complete 120 hours of work placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates will be qualified to work in areas such as ergonomics, industrial safety, occupational hygiene and risk management.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
811431 Bundaberg	4F	73.00	75.00	Mar 2023	12 Jan 2023
851431 Rockhampton	4F	75.00	75.00	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Become a leader in occupational therapy and help others maximise their physical and mental health and wellbeing. The course provides students with an underpinning knowledge in professional practice, human body systems, psychology and contemporary health care. Education and training includes occupational therapy units covering a wide range of practice contexts, and develops skills in areas such as assessment, service development, evaluation and critical thinking, enabling students to graduate work ready. The course has a strong focus on practical learning experiences and students benefit from industry placements across a range of practice areas, including the purpose-built Allied Health Clinic at CQUniversity Rockhampton. **Note:** Students who select to study some units via online study may be required to attend compulsory residential schools. **Other requirements:** Students are required to complete a minimum of 1000 hours of professional practice. Some of this is integrated within earlier units of the course, and there are two additional full-time professional education (WIL) blocks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Occupational Therapist, Mental Health Worker, Rehabilitation Consultant, Policy Maker in local and federal government.

Bachelor of Oral Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
858701 Rockhampton	3F or 4P	80.80	82.80	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2022.

Course outline: The Bachelor of Oral Health equips students with the skills and knowledge to practise as an Oral Health Therapist. Students will develop skills to effectively perform preventive and operative dentistry for patients and provide specialist dental practices. In addition, the education and training will provide students with underpinning industry knowledge so they can educate and promote oral health in small group and community settings. The course has a strong focus on work-integrated learning in pre-clinical and clinical settings such as the purpose-fit oral health laboratory and dental clinic at CQUniversity Rockhampton. During the course, students will benefit from learning alongside students in other health courses in facilities such as CQUniversity's Allied Health Clinic. **Other requirements:** Students are required to undertake a minimum of 1000 hours of clinical placement. The Bachelor of Oral Health course involves extensive training in a clinical environment, initially using simulator technologies before progressing to full-time clinical placements in an oral health environment. Students should be prepared in their final year of study to spend four days per week in full-time clinical placements as part of the course requirements. Students must comply with and meet the Inherent Requirements for the Bachelor of Oral Health course. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Oral Health Therapist in general and specialist dental practices within Australia.

Bachelor of Paramedic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
821719 Cairns	3F or 6P	77.70	81.70	Mar 2023	12 Jan 2023
851711 Rockhampton	3F or 6P	71.15	75.15	Mar 2023	12 Jan 2023
801719 Townsville	3F or 6P	76.20	80.20	Mar 2023	12 Jan 2023
851715 Online	3X or 6X	72.25	75.05	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2022.

Course outline: Fully accredited by the Council of Ambulance Authorities, the Bachelor of Paramedic Science qualifies students as a paramedic. Students learn from experienced lecturers and build their capability in emergency treatment and paramedic care through exceptional learning experiences. These experiences include practical laboratory exercises, high-fidelity simulations, case-based learning, and enhanced work-integrated learning opportunities. Students complete three clinical placements, totalling a minimum of 600 hours of clinical experience. Students develop foundation knowledge in sciences, human body systems, study and research skills and paramedic practice. Study focuses on disease processes and emergency treatment, and includes practical placements in paramedic care, enabling students to graduate work ready and highly sought after by employers.

Note: Some units throughout this course may be delivered by a combination of on-campus study, workshops, residential schools and online study. **Other requirements:** Throughout this course, students are required to undertake a minimum of 15 weeks (600 hours) of compulsory off-campus clinical placements with a state or territory ambulance service. Students will be required to meet security and health requirements prior to undertaking clinical placements. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates can pursue a role as a health professional in emergency medicine and retrieval. They may also find employment opportunities in private paramedic services supporting mines, industry and the resource sector.

Bachelor of Paramedic Science/Graduate Certificate in Emergency and Disaster Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
821720 Cairns	3 1/2F or 7P	✦	✦	Mar 2023	12 Jan 2023
851720 Rockhampton	3 1/2F or 7P	✦	✦	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2022.

Course outline: The Bachelor of Paramedic Science/Graduate Certificate in Emergency and Disaster Management recognises the rapidly changing nature of paramedicine. It is critical that paramedicine expand its scope and role nationally and internationally. Students within this course will draw upon the interdisciplinary nature of paramedicine and emergency and disaster management to explore current and emerging trends and national and international approaches, as well as the key concepts and perspectives that underpin contemporary practice in these fields. Students will study with other students from a broad range of disciplines, expand their knowledge and skills and learn to apply this to the various phases of managing prehospital patients and expand on their role to encompass emergency and disaster management. **Other requirements:** All students will be required to attend compulsory residential schools for several units throughout the course. Residential schools may be held in Cairns, Townsville or Rockhampton. Students are also required to undertake compulsory work-integrated-learning placements with an approved placement provider. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Employment options after the course include government ambulance services, hospitals, private, government, non-government and community organisations supporting mines, local and regional councils.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Physiotherapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
811422 Bundaberg	4F	75.20	77.35	Mar 2023	12 Jan 2023
851422 Rockhampton	4F	73.60	77.05	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Health or Physical Education (Units 3 and 4, C); Completion of Year 12 or attained age 17 years. **Closing date:** QTAC applications for this program close 9 December 2022.

Course outline: Study the Bachelor of Physiotherapy (Honours) and gain the skills, knowledge, and experience to assess, diagnose, manage, and treat a wide range of health conditions and movement disorders. Accredited by the Australian Physiotherapy Council (APC), graduates will be eligible for registration with the Physiotherapy Board of Australia. The Bachelor of Physiotherapy (Honours) involves extensive professional practice experiences where students will gain practical and relevant experience and opportunities to apply their discipline knowledge and skills to real clients. Education and training will focus on ways to prevent injuries and promote health and well being - skills that are highly valued within the industry. **Note:** This course is not offered via distance education, however, students will undertake some units via distance education and will be required to attend compulsory residential schools. **Other requirements:** This course involves extensive practical experience, both through university-based units and clinical education placements that are embedded into the course. In the third and fourth years students are expected to undertake five clinical education placements, each of five weeks duration. To participate in clinical placements, students must meet the security and health requirements. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Physiotherapist in a variety of healthcare settings such as hospitals, community health centres, rehabilitation units, private practice, schools, research, occupational health, sport clinics and teams.

Bachelor of Podiatry Practice (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851401 Rockhampton	4F	✦	✦	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Podiatry Practice (Honours) prepares students for a career as a podiatrist. The course provides opportunities for students to learn from experienced practitioners while gaining exposure to extensive practical experiences in a variety of clinical settings. Students will develop the necessary skills to assess, diagnose and treat disorders of the foot and lower limb in people of all ages. Education and training explores human anatomy, physiology, pathology, wound care, podiatric therapeutics. Practical learning experiences are integral to the course and students will acquire hands-on practical experience treating real patients in the internal CQUniversity Health Clinics and at various external clinical settings. **Other requirements:** This course involves extensive training in a clinical environment. Practical learning experiences are central to the course and students will need to complete approximately 1000 hours of clinical placement in order to complete the degree. Students will undertake internal placement at the on-site allied health clinic and external placement will occur in a variety of settings. Students must comply with the mandatory pre-clinical placement requirements prior to undertaking placement. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Podiatrist across a diverse range of rural and urban settings such as hospitals, multi disciplinary health clinics, community health centres, and private practice.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Public Health (Specialisation)

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Become a leader in improving the health of communities and the wider population with the Bachelor of Public Health and open the door to diverse careers across Australia and internationally. Be supported by experienced public health lecturers who are invested in providing students with authentic, work-based learning opportunities so that they graduate work ready. Students will gain real-world experiences through completion of a 240-hour work placement in their final year. This course is designed to develop broad skills and knowledge in public health, while developing specialised expertise in health promotion, environmental health, and nutrition. Public health refers to a collection of disciplines that share a common aim to prevent disease, promote health and improve wellbeing among the population as a whole, rather than focusing on individuals. **Note:** Students are required to attend residential school for a number of units in the course. **Majors:** Environmental health; health promotion; nutrition. **Other requirements:** Students undertake placement in a professional environment relevant to their chosen major. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Health Promotion Officer, Public Health Nutritionist, Environmental Manager, occupational health and safety roles (upon selection of appropriate minor).

Bachelor of Science (Chiropractic)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
880501 Brisbane	3F or 6P	69.45	69.45	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This industry-relevant Bachelor of Science (Chiropractic) course will develop students' capabilities in range of spinal and patient

assessment procedures, along with basic therapeutic approaches to common musculoskeletal presentations. On successful completion, students will have knowledge and an appreciation of basic techniques enabling them to pursue employment opportunities as an assistant in chiropractic practice.

This course is an evidence-based degree designed to provide graduates with the qualification needed to apply to enter the professional qualification, the Master of Clinical Chiropractic. Graduation from the Master of Clinical Chiropractic course renders students eligible to apply for registration as a chiropractor in Australia and overseas. Throughout this course, students will develop clinical skills to become confident in the diagnosis and management of patients presenting for care. Students will learn the history, philosophy and principles and theories of chiropractic from a contemporary perspective. **Note:** Students who select to study some units via online study may be required to attend compulsory residential schools. **Other requirements:** Students are required to undertake work-integrated learning in a range of forms including activities in chiropractic clinics and other health clinics. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates will be able to pursue employment opportunities as an assistant in chiropractic practice.

This course is the ideal pathway into the Master of Clinical Chiropractic. Upon completion of the masters course, students will be eligible to apply for registration to practise as a Chiropractor.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851411 Rockhampton	4F	73.65	75.00	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Speech Pathology (Honours) equips students with valuable skills to enable them to work with people of all ages who have communication and/or swallowing difficulties. Education and training includes a broad range of disciplines such as psychology, allied health, and linguistics and phonetics, designed to ensure students graduate work ready. Students will complete extensive work-integrated learning opportunities at CQUniversity's Health Clinic, and off-campus at community and clinical sites in and outside of Queensland, where they will observe and work directly with children and adults with communication and/or swallowing difficulties. This allows students to consolidate the content and theory they learn in class with their developing clinical skills and gain valuable practical experience before entering the workforce. **Other requirements:** As a part of this course, students will undertake clinical placements. To participate in clinical placements students require a range of immunisations, vaccinations, and screenings (e.g., Hepatitis B; tuberculosis screening). The COVID-19 vaccination is mandatory to be eligible to attend a work-integrated-learning placement for this course. Additional vaccinations and/or may also be required. Students are also required to hold a current First Aid / CPR certificate. This will depend on the type of placement site and the site location, as different states have different vaccinations regulations and requirements. Students must complete a number of clinical placements hours. There are no minimum requirements in terms of the number of hours of placement but these occur throughout the course and will require attendance on both a daily and block placement basis. Block placements may be in a remote or rural setting. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Career as a Speech Pathologist in a variety of settings such as public and private hospitals, community centres, rehabilitation centres, kindergartens, schools, aged care facilities, private practice.

Associate Degree in Occupational Health and Safety

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: The Associate Degree in Public Health is an ideal course for community-minded individuals with an interest in making a difference in the community. This course will develop students' broad skills and knowledge in public health, while developing specialised expertise in health promotion and environmental health. Students will be prepared for a diverse career in emerging public health paraprofessions. Public health refers to a collection of disciplines that share a common aim to prevent disease, promote health and improve wellbeing among the population as a whole, rather than focusing on individuals. The major in health promotion covers topics such as drugs in society, health promotion strategies, indigenous studies and community needs assessment. The environmental health major focuses learning on microbiology, food safety, environmental science, law and communicable disease control. Students have the option to continue their studies and complete the Bachelor of Public Health (Specialisation), allowing them to further enhance their future career prospects. **Majors:** Environmental Health; Health Promotion. **Other requirements:** Students enrolled in the unit HLTH12031 undertake 25 hours of volunteer work in a community organisation. Some students may choose to make this voluntary work profession-related. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Employment opportunities in public health such as: Environmental Health Officer, Environmental Health Worker, Health Promotion Officer.

Prerequisites: Applicant must be 17; Completion of Year 12 or attained age 17 years. **Additional entry information:** To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If students do not meet these educational requirements, they are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency. **Closing date:** Applications for Term 1, 2023 close 9 December 2022.

Course outline: This qualification reflects the role of an enrolled nurse working under the direct or indirect supervision of a registered nurse.

This qualification covers the application of skills and knowledge required to provide nursing care for people across the health sector. A lifespan approach should underpin this qualification with relevant competencies that relate to the different stages of life identified within the units.

Successful completion of the Diploma of Nursing course enables students' eligibility to apply to the Nursing and Midwifery Board of Australia in accordance with the Australian Health Practitioner Regulation Agency (AHPRA) for registration as an Enrolled Nurse.

The Diploma of Nursing has mandatory on and off the job training components. The off the job training is conducted as the theoretical component of the course. The on-the-job training is known as Clinical Placement and is unpaid work experience that is undertaken at a set time at the end of each term at a relevant health facility.

This is a nationally recognised accredited course. **Note:** Throughout the duration of this course, students studying by Mixed Mode will be required to attend compulsory Residential Schools. **Other requirements:** Students are required to successfully complete a minimum of 400 hours of Clinical Placement. On accepting an offer for this course, it is strongly recommended that students start gathering evidence to complete the mandatory checks required to attend clinical placement. For more information, visit cqu.edu.au/courses.

Career opportunities: Graduates will be eligible to apply to the Australian Health Practitioners Registration Agency to become an Enrolled Nurse. Students may find employment in health care settings in roles such as enrolled nurse, personal care worker and aged care supervisor.

✫ *See Admissions Criteria on website for more information.*

FEDERATION UNIVERSITY AUSTRALIA

Bachelor of International Sport Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041159 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✢

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicant must be 16.

Course outline: The sport sector is among the world's fastest growing industries, featuring a diverse range of careers that encompass business, health, marketing and IT.

Federation University has partnered with the esteemed World Academy of Sport to give prospective students a one-of-a-kind pathway into this dynamic industry.

This program is available to study online from anywhere in the world and combines 21st century skills with practical industry experience. Exclusive access to case studies and interviews from world leaders in sport management places students at the forefront of the industry.

This study pathway equips graduates with lifelong skills and contacts to succeed in their chosen career. Graduates can expect to find dynamic roles spanning international and national sport federation, with positions including sports administration, business development, marketing and sponsorship management, media and public relations coordination, event coordination and sport consultancy.

To keep up to date with the latest news, please visit the Passion to Profession website and register your interest. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online at federation.edu.au. **Other requirements:** Work Integrated Learning:

Students undertaking the Bachelor of International Sport Management will be provided the opportunity to participate in multiple industry internship experiences throughout their studies. In the second year of the degree students will complete the Sport Management Industry Preparation course, which includes a minimum of 150 hours of placement experiences students are expected to undertake two different sports management experiences. Students in their third and final year will have further options for industry internship experiences: 20% of the highest achievers will be offered to undertake a 60 credit point internship course which requires 560 hours of industry placement. Alternatively, students can elect the 30 credit point internship course which requires 280 working hours of placement and an additional two 15 credit point elective units.

Students will need to have a valid Working with Children Check or equivalent to undertake work integrated learning placements within the sport management industry.

Career opportunities: • Business development manager

- Professional sports association official
- Sports administrator
- Sports development officer
- Sport governance official
- Sport management consultant
- Marketing and sponsorship manager
- Promotions and marketing analyst
- Sport media and public relations coordinator
- Digital marketing

The Bachelor of International Sport Management will prepare students to be work ready for exciting opportunities in international and national sport federations through to local government agencies. The degree explores how sport is managed, promoted and developed across a range of sport management career options.

233751 Gold Coast	4F or 4P or 2F	New Couse	New Course	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics or Psychology (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 9 December 2022 may not be assessed in time for the January offer round. Applications for this program close 30 December 2022, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: You'll develop the skills needed to work as an occupational therapist, delivering life-changing outcomes to people of all ages. You'll learn how to enable people to do the activities—occupations—they need or want to do in order to live a meaningful life, but have difficulty doing so. You'll learn occupational therapy theory and practice, occupational science, psychology, sociology and anatomy, and apply your knowledge during practical placements from the first year of your degree, preparing you to be job ready for the wide range of opportunities available to occupational therapists. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au/apply/admission-pathways. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be prepared for a career in a variety of workplaces, including in hospitals, schools, disability services, private practices and support organisations, universities, and government departments. You'll also have the professional and entrepreneurial skills to create your own opportunities.

Bachelor of Psychology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
231632 Gold Coast	4F or 8P	73.70	79.10	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 ✢
225511 Mt Gravatt	4F or 8P	74.30	79.80	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 ✢

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith ATAR Guarantee and VET Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: You will gain an understanding of the major fields of psychology and acquire research experience by completing an independent research project during an additional year of study. Under supervision, you'll design, administer and interpret tests to understand intellectual, behavioural and emotional states, counsel people about personal, health, vocational and social difficulties, learn how to apply psychological theories, and provide follow-up support services. Honours is a fourth year within the Bachelor of Psychology, and eligibility to progress to year 4 (honours) is subject to academic achievement. **Minors:** clinical and counselling; development and community; health and sport/exercise; organisational; psychological science. **Other requirements:** Students must meet the required level of academic achievement to progress into the fourth year. Students must undertake a placement in fourth year and meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You will be qualified for professional employment as a probationary psychologist in areas such as job placement, clinical or organisational psychology, counselling, guidance, health management and social research. Psychology graduates are employed in a wide range of occupations and industries including in human resource management, aged care services, the police service and defence forces, marketing, welfare and community services, childrens services and family support, correctional services, and mental health services. You can also pursue further studies to work in specialist fields, including becoming a clinical psychologist, organisational psychologist, or other specialist psychologist.

✢ *Regular offers will be made.*

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228212 Nathan	3F or 6P	66.60	74.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
233412 Gold Coast	3F or 6P	73.45	81.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee and VET Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this future-focused degree, you'll gain an understanding of health and the methods for researching, diagnosing and treating disease. The knowledge and skills developed during this degree can be applied to medicine, biomedical research and other healthcare professions such as pharmacy, speech pathology, and rehabilitation counselling. It is also excellent preparation for entry into postgraduate study, including the Doctor of Medicine and Master of Public Health.

Career opportunities: You will be prepared for work in hospitals, health departments, medical research institutes, university and government research organisations, and in the pharmaceutical, diagnostic, biotechnology and other health-related industries. You'll receive excellent training to support your application for Griffith's graduate-entry medical degree program, the Doctor of Medicine, or may also choose to continue with postgraduate research or coursework study.

Combined diplomas/degrees: Refer to entries under Griffith College for: D Health Sciences/B Biomedical Science; D Science/B Biomedical Science.

Bachelor of Child, Youth and Family Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
263131 Logan	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
276105 Distance ed	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree will provide you with a deeper understanding of how to help the community. You'll learn in a personal atmosphere through practical experience from experts with strong links to the health sector, government and community. You'll study processes and structures related to providing services in specialist areas such as childcare, education, welfare, development and learning, family studies and child protection, and learn about ethics in child, youth and family services. **Note:** Distance education students must be available to attend three compulsory five-day, face-to-face intensive courses at the Gold Coast campus. **Other requirements:** This program requires students to undertake placements. A Griffith University placement officer will help find suitable local placements, however specific placement cannot always be guaranteed. Some placements may be outside the Brisbane metropolitan/Gold Coast area including northern New South Wales and (by negotiation) interstate. Distance education students should be aware that if they live in remote or rural areas, they may be expected to travel to professional placements that may incur accommodation and living expenses. For further information, visit griffith.edu.au/griffith-health/fit-forprofessional-practice.

Career opportunities: You'll be qualified to lead child and family programs in the early years' health and community services sector. You'll also be qualified for positions in Aboriginal and Torres Strait Islander services, child and family welfare, child protection and child safety services, community-based organisations, community development, family support services, foster care services, services for women, welfare organisations, and policy and research.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Child, Youth and Family Practice.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233732 Gold Coast	4F or 8P	86.20	94.20	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Closing date:** New applications lodged after 9 December 2022 may not be assessed in time for the January offer round. After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: This degree features foundational and advanced coursework in exercise science, applied through a minimum of 500 hours of supervised clinical placement in exercise science and exercise physiology. With a deeper knowledge of the human body and how exercise affects it, an Accredited Exercise Physiologist (AEP) designs and delivers safe and effective exercise interventions that focus on clients with chronic and complex medical conditions, injuries and disabilities. These interventions include health and physical activity education, advice and support, and lifestyle medication. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au. This program currently only has a Trimester 1, 2023 intake. The University will consider opening a Trimester 2, 2023 intake after enrolment numbers are finalised for Trimester 1. Applicants who are interested in studying this program are encouraged to apply for the Trimester 1 intake as Trimester 2 is not guaranteed. **Other requirements:** **Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

*Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Accredited Exercise Physiologists are allied health professionals and can work in areas such as chronic disease management, fitness and sports, respiratory and sleep medicine, rehabilitation, recreation management, strength and conditioning, and occupational health and safety. AEPs work in areas such as return-to-work assessment, chronic disease management, exercise prescription for special populations, weight-loss management, and musculoskeletal and cardiopulmonary rehabilitation. As an AEP, you may find work in the public health system, in hospitals and outpatient clinics as well as in private practice as sole traders, multidisciplinary practices, private hospitals or corporate health.

Bachelor of Counselling

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
225131 Mt Gravatt	3F or 6P	61.10	68.10	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
233591 Gold Coast	3F or 6P	61.80	67.80	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: You will gain skills in providing professional counselling to assist others in resolving personal or professional problems. Working in the counselling profession involves guiding and empowering people to develop self-understanding and to make changes in their lives in order to accomplish mental health, wellness, education, and career goals. They assist people by offering them a structured and focused way of addressing their problems, and work with clients on developing strategies to overcome obstacles and personal challenges that they are facing. **Other requirements:** Students are required to undertake three placements. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Graduates will be skilled in a range of counselling approaches with their clients and can develop careers in specific areas, including family and relationship counselling, career counselling, and telephone/internet counselling, correctional counselling, addiction counselling, domestic violence counselling, and student advising.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Counselling.

\+ *Regular offers will be made.*

Bachelor of Dental Health Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233812 Gold Coast	3F	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details; interview. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Applicants for this program must sit the University Clinical Aptitude Test ANZ (UCAT ANZ). Registration for the UCAT ANZ opens in March 2022 and closes mid-May 2022. Applicants will be invited to a Mini Multiple Interview (MMI) on the basis of their UCAT ANZ score. The MMI will require students to attend a multi station interview on 24 or 25 November 2022. Applicants who identify as Aboriginal and/or Torres Strait Islander should email medicine@griffith.edu.au for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** QTAC applications for this program close 30 September 2022. After this date, no new applicants can apply, but existing applicants can reorder this preference.

Course outline: This degree is the first step towards a career in dentistry. You'll learn through extensive practical training from the first year of your studies. You'll study and work alongside registered dentists and dental specialists in our modern dental clinic and in specialised pre-clinical simulation laboratories in the Griffith Health Centre. On completion of this degree and upon application, you'll gain entry into the Master of Dentistry to complete training as a dentist. **Note:** If you are undertaking or considering

alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au. **Other requirements:** To gain entry to this degree, you will be required to sit the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ). Applicants will be invited to an interview based on their UCAT ANZ score. Visit ucat.edu.au. **Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

*Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.

This program requires students to undertake clinical placements. Prior to professional placement, students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fitfor-professional-practice.

Career opportunities: As a graduate of this degree and our Master of Dentistry, you'll be qualified to work as a registered dentist, with opportunities in private practice, hospitals, community dental clinics and the armed services. Further study and research can lead to a career in academic teaching and research or specialty practice.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Dental Hygiene

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233761 Gold Coast	3F	90.80	98.55	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 9 December 2022 may not be assessed in time for the January offer round. Applications for this program close 30 December 2022, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: A dental hygienist is a dental practitioner who focuses on patient education and the prevention of dental diseases. This degree is a clinical qualification covering a range of activities including oral health assessment, diagnosis, treatment, management and education. You will study and work alongside dentists, dental technologists, dental prosthetists and dental specialists in real-life dental settings, in Griffith's modern dental clinic and in our training facilities in the state-of-the-art Griffith Health Centre. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

*Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a graduate of this degree, you will be qualified to work as a registered dental hygienist with opportunities in general dental practice, specialist dental practice and community dental clinics.

Bachelor of Dental Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233832 Gold Coast	3F	83.10	91.10	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Course outline: This degree is ideal for students who like to work behind the scenes creating and manufacturing dentures, crowns, bridges and orthodontic appliances. It suits students who enjoy working with their hands, with an attention to detail, who prefer not to work directly with a patient. This is the only internationally benchmarked dental technology degree in Australia. In the first year, you'll learn foundational skills in health science, be introduced to prosthetics and develop skills in the dental laboratory. Second year applies knowledge of dental materials to dental laboratory practice. Laboratory experience is continued through all years with an emphasis on work-integrated learning in your third year. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

*Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a dental technologist (or dental technician as they are often referred to) you will find employment with dental technicians, dentists, dental prosthetists, prosthodontists, orthodontists, periodontists, and oral surgeons in the public or private health sectors. Working to referring dental practitioners and specialists prescriptions. You will be able to design and construct appliances according to international standards that meet individual patients needs. You will work with a wide range of materials and techniques such as: gold, porcelain, plastic and lost wax technique and CAD-CAM (Computer Aided Design/Manufacturing). You may see patients to record the colour, shape and characteristics of existing teeth. With this qualification, you can apply your scientific knowledge, artistic skills and compassionate nature across three distinct specialist areas - prosthodontic, conservative and orthodontic - or you may eventually choose self-employment.

Double degrees: Refer to entry for: B Dental Technology/B Dental Prosthetics

Bachelor of Dental Technology/Bachelor of Dental Prosthetics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233792 Gold Coast	4F	82.70	90.70	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith Guaranteed Admission Schemes do not apply to this program.

Course outline: This double degree is ideal for students interested in developing hands-on practical skills in designing and making dentures, crowns and bridges combined with diagnosing, designing and fitting removable dentures directly to patients. In this degree, you'll graduate with two qualifications and be able to work as both a dental technician and a dental prosthetist. Because the two degrees share the same subjects in their first two years, this double degree can be finished in just four years full-time study. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

*Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: With this qualification graduates may find employment opportunities in the public and private health sectors through government health department clinics and private practice as a dental technician/dental prosthetist or clinical dental technician.

Bachelor of Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233322 Gold Coast	3–4F or 6P	62.40	68.00	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 ✢

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Griffith is one of Australia's foremost universities in the delivery of exercise science and sport degrees. Learn to apply the science of exercise to develop interventions that improve human health, fitness wellbeing and performance by studying this degree. Exercise scientists apply their knowledge at the individual, community and population levels to build healthier, happier societies. Graduates of the program are eligible for accreditation through Exercise and Sports Science Australia (ESSA), as an accredited exercise scientist. **Note:** Students who commence in Trimester 3 will complete the program over four calendar years. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You will be prepared for work as an exercise specialist for community or sports organisations as a clinical scientist specialising in cardiac; respiratory and sleep medicine; as a rehabilitation, sports or recreation manager; as a strength and conditioning coach; or as an occupational health and safety officer.

Double degrees: Refer to entries for: B Exercise Science/B Business; B Exercise Science/B Psychological Science.

		Unadjusted	Adjusted		
233312 Gold Coast	3F or 6P	59.15	67.05	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 ✢

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree is one of the most flexible and innovative within the field of health and an ideal introduction into the health sector. You will learn from internationally renowned experts through hands-on, laboratory-based experience in state-of-the-art facilities. You can select a major in environmental health, environmental toxicology, information technology, or communication and media, or choose from a wide range of electives to customise your degree to suit your interests and goals. You will explore health through a combination of disciplines to understand how different areas of human biology and environmental factors relate to health and disease. An ideal introduction to the future of health. **Majors:** Communication and media; environmental health; environmental toxicology, information technology. Non-major options also available.

Career opportunities: Depending on your major, you may work as an environmental health professional, in managing information technology in health settings, or in health communication and media. Our diverse electives will also help equip you for careers in a range of scientific and allied professions, including working as a scientific advisor, pathology technician, industry representative, technical sales specialist, laboratory technician or research assistant. As a graduate, you'll be well placed to apply for our graduate-entry medical degree, the Doctor of Medicine, or medical research programs.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Health Science.

✢ *Regular offers will be made.*

Bachelor of Human Services

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
263312 Logan	2–3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
233451 Gold Coast	2–3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
276055 Distance ed	2–3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Human services professionals help improve people's social, economic, personal and communal wellbeing. This degree will equip you to work with individuals, families, and communities. You will learn from experts with links to health and community sectors, and government and non-government organisations. You will learn about human services in Australia and develop the knowledge and skills needed to build a better future for individuals and families in need, younger and older people, and people living with a disability. You'll develop a clear understanding of the principles of social justice and empowerment in the sector. You'll complete a four-day-a-week, trimester-long practice placement in your final year. Placements will be sourced in your area of choice where possible, depending on organisation availability. **Note:** Students can enrol in the Distance Education offering of the program and will be able to complete the program off-campus by distance learning via our online learning

management system online with the exception of three compulsory five-day face-to-face intensive on-campus courses. **Other requirements:** In this program, you will spend 400 hours (four days per week) in the work/professional environment during trimester six of the full-time program or equivalent. Placements may be outside of the Brisbane metropolitan/Gold Coast area including Northern New South Wales and (by negotiation) interstate or overseas. For further information, visit griffith.edu.au.

Career opportunities: Our Bachelor of Human Services prepares you for a career in community planning and development, welfare services, family support, mental health services, correctional services, policy development and research, rehabilitation services, women's services, working with older people, and youth work.

Double degrees: Refer to entry for: B Human Services/B Criminology and Criminal Justice.

Combined diplomas/degrees: This program can be combined with the following course at TAFE Qld: D Community Services. Refer to entry for the diploma under TAFE Qld. Refer to entry under Griffith College for: D Social and Psychological Science/B Human Services.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Human Services/Bachelor of Criminology and Criminal Justice

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you'll develop an understanding of the vital importance of human services within Australia's legal and social systems. You'll be prepared for work in areas such as community development, welfare services and correctional services. You'll learn from the latest research and from experts with strong links to the health sector, government and community. You'll receive plenty of hands-on experience in your final year of study. Within a genuine human services environment, you'll put theory into practice in a supervised setting. This experience will enhance your skills in the workplace and get you ready to graduate job-ready. **Note:** Human services courses are conducted at Logan and Gold Coast, criminal justice courses are conducted at Mt Gravatt and Gold Coast, and all courses are also available online. Distance education students must be available to attend 10 days of compulsory face-to-face intensive study at the Gold Coast campus, and up to five days of additional face-to-face intensive study throughout the program. **Other requirements:** In this program, you will spend 400 hours (four days per week) in the work/professional environment during trimester six of the full-time program or equivalent. Placements may be outside of the Brisbane metropolitan/Gold Coast area including Northern New South Wales and (by negotiation) interstate or overseas. For further information, visit griffith.edu.au.

Career opportunities: You may find opportunities in policing and security, intelligence, probation and parole, child protection, crime analysis, courts and justice services, crime prevention and regulatory agencies.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233862 Gold Coast	4F	72.10	80.10	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee and VET Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this degree, you'll develop the knowledge and skills to work as a medical scientist. Medical scientists perform diagnostic tests of blood, tissues, and other bodily fluids to help doctors diagnose diseases such as glandular fever, diabetes, swine flu, cancer and COVID-19. Pathology-based results often form the basis for decisions on an individual's diagnosis, treatment and subsequent therapeutic monitoring. As a graduate, you will also be equipped to apply techniques used in forensic investigation and research in the food, animal and cosmetic industries. **Other requirements:** Students must undertake clinical placements. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You may find opportunities in hospital laboratories, private pathology laboratories, state health laboratories, universities, veterinary sciences, forensic laboratories, food and cosmetic industry with specialisation in haematology, transfusion science, histopathology, clinical microbiology, clinical biochemistry and molecular diagnostics.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Medical Laboratory Science.

Bachelor of Medical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228272 Nathan	2F	99.85	99.85	Mar 2023	12 Jan 2023
233422 Gold Coast	2F	99.85	99.85	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details; current or recent Year 12 with no previous attempt at tertiary study. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** This program is for 2022 Year 12 applicants or applicants who completed Year 12 no more than three years prior to application and who have not previously attempted tertiary study at diploma level or higher. Applicants who identify as Aboriginal and/or Torres Strait Islander should email medicine@griffith.edu.au for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 9 December 2022 may not be assessed in time for the January offer round. Applications for this program close 30 December 2022, so applicants may add this program to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: This degree puts high-achieving high school leavers on a fast track to a Doctor of Medicine. You'll learn about the sciences underpinning medicine—chemistry, anatomy, physiology, biochemistry, microbiology, molecular genetics, genes and disease, interpersonal skills and the legal and ethical principles of healthcare. In your second year, you'll take courses in immunology, infectious disease, pharmacology, metabolism and structural biochemistry and epidemiology, as well as an opportunity to undertake a research project. With a minimum GPA of 5.0, you'll gain a provisional place in the Doctor of Medicine. **Note:** In this degree, students study over three trimesters each year, completing the program in two years. The Doctor of Medicine is an extended Masters program (AQF level 9). **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Career opportunities: If you progress to the Doctor of Medicine, you will be preparing for a career in specialist clinical practice, primary care medicine, medical, translational and clinical research and healthcare services.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
263392 Logan	3F or 2P or 2F	87.70	95.65	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Applicants must nominate on their QTAC application their hospital preferences from the following list: Logan, Redlands, Toowoomba, Gold Coast and Sunshine Coast University Hospitals. While the university endeavours to provide placement preferences, this is not guaranteed. On rare occasions students may need to either relocate to undertake a placement, or enrol part time until their preferred site becomes available. Griffith Guaranteed Admission Schemes do not apply to this program. Applicants who identify as Aboriginal and/or Torres Strait Islander should email medicine@griffith.edu.au for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs.

English Language Proficiency Requirements: To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America. If you have not met these educational

requirements, you are required to provide evidence of an acceptable English Language test or evidence that you are currently registered as an Enrolled Nurse with the Australian Health Practitioner Regulation Agency. For more information see qtac.edu.au/english-language-proficiency. Applicants who identify as Aboriginal and/or Torres Strait Islander should email medicine@griffith.edu.au for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. **Closing date:** New applications lodged after 9 December 2022 may not be assessed in time for the January offer round. Applications close on the 30 December 2022, so applicants may add this to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: In this degree, you'll follow 20 women throughout their pregnancy to six weeks after birth, requiring you to be on-call to attend the labour and birth – an immersive, highly valued learning experience. Our blended learning approach includes clinical practice and theory, face-to-face in workshops, via simulated practice, active online learning and extensive compulsory midwifery practice in a range of settings. You'll learn from by expert clinicians, researchers and award-winning teachers who lead the field in midwifery education, research and practice. **Note:** All on campus teaching sessions are offered on Logan campus, with some midwifery laboratory sessions also available at Gold Coast and Toowoomba. The program duration is three years. Eligible students may complete the first year part-time over two years. If you are undertaking or considering alternate tertiary studies in order to apply this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Students are allocated to a partner hospital for their whole program. **Note:** Students start clinical experiences in Trimester 1, so all mandatory requirements must be undertaken before (or as soon as) offers are received. A health check, including immunisation status (especially hepatitis B immunity), a Suitability Card and an Australian National Police Check (at own expense) are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) before the first placement. For more information, visit griffith.edu.au/health/fit-for-professional-practice.

Career opportunities: You may find opportunities as a midwife in public and private healthcare settings including midwifery private practice, maternity and neonatal care settings, academia, teaching, research, rural remote health, and international aid organisations.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
225312 Nathan	3F or 6P	78.15	86.15	Mar 2023	12 Jan 2023

233112 Gold Coast	3F or 6P	78.80	86.05	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details.; No prior study. **Additional entry information:** This admission pathway is not for applicants who are eligible for admission into Year 2 with credit transfer, ie hold an AQF Diploma of Nursing from an accredited Australian Provider and are registered as an Enrolled Nurse with AHPRA, or a Diploma of Health Care from Griffith College. These applicants must apply for the B Nursing – Advanced Standing. This program is not available to applicants who hold a qualification in nursing acceptable for registration with the Australian Health Practitioner Regulation Agency/Nursing and Midwifery Board of Australia. Internationally Qualified Nurses (IQN's) will be assessed on a case-by case basis.

qtac.edu.au/english-language-proficiency Requirements: To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Nursing is the science of professional caring, and offers opportunities to promote and restore health, prevent illness and alleviate suffering. You'll develop the key knowledge and skills required to provide excellent nursing care. You'll develop your skills through clinical placements across the health sector and you may have the opportunity to undertake rural, remote and overseas placements. You'll learn from leading experts, with Griffith ranked No. 1 in Australia and No. 2 in the world for Nursing and Midwifery in the 2021 Shanghai Ranking Global Ranking of Academic Subjects. **Note:** Students can take this program part-time but attendance at day classes is generally required. Part-time students must be available full-time for professional placements. **Other requirements:** Students must undertake placements. A health check, including immunisation status, a Working with Children check and Australian Federal Police check are required. Applicants must complete a nationally accredited first aid certificate with CPR (at their own expense) by the end of the first trimester. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a nursing graduate, you'll be prepared to help fill the demand for nurses, with career opportunities in hospitals, the community, and in urban, rural and remote settings. You'll be equipped for a career in professional nursing in any healthcare setting.

Double degrees: Refer to entry for: B Nursing/Grad Cert Paediatric Nursing.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Care/B Nursing.

Bachelor of Nursing – Advanced Standing

Bachelor of Nutrition and Dietetics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233852 Gold Coast	4F or 4P & 2F	72.20	80.20	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Mathematical Methods (Units 3 and 4, C); Biology (Units 3 and 4, C); Chemistry (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: If you have an interest in health, a passion to understand and educate how the science of how food affects our lives, and good communication skills, an exciting career in nutrition and dietetics is for you. You'll develop knowledge and skills to work as a dietitian and learn how to help improve the health of individuals and the community. You'll develop an understanding of chemistry, anatomy, physiology and biochemistry before taking advanced study in human nutrition and dietetics. In the final phase of your degree, you'll complete a minimum of 20 consecutive weeks of full-time professional placement in a variety of sites across Queensland and interstate. **Note:** This program currently only has a Trimester 1, 2023 intake. The University will consider opening a Trimester 2, 2023 intake after enrolment numbers are finalised for Trimester 1. Applicants who are interested in studying this program are encouraged to apply for the Trimester 1 intake as Trimester 2 is not guaranteed. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response

date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a nutrition and dietetics professional, you'll be qualified to work in traditional roles in the health industry as a dietitian/nutritionist in private and public hospitals, community health services, health promotion and public health units, and in the emerging areas of private practice, and the food and pharmaceutical industries.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Nutrition and Dietetics.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233912 Gold Coast	3F	89.55	97.55	Mar 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Applicants who identify as Aboriginal and/or Torres Strait Islander should email medicine@griffith.edu.au for information regarding First Peoples Selection and Admissions Guidelines for Griffith Health Programs. Griffith Guaranteed Admission Schemes do not apply to this program. **Closing date:** New applications lodged after 9 December 2022 may not be assessed in time for the January offer round. Applications close on the 30 December 2022, so applicants may add this to their preferences until this date, however no guarantee is given that applications will be assessed in time for the January offer round. After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: This degree will prepare you to work as a paramedic in a range of settings. You'll gain clinical decision-making, problem-solving and critical thinking skills and learn about human body systems, paramedic practice in emergency and non-emergency situations, legal and ethical aspects of healthcare while developing your communication and interpersonal skills. You'll also develop strong practical skills through clinical simulations delivered in Griffith's extensive range of simulation facilities and apply your new range of knowledge, skills, and processes during a range of clinical placements. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Students are required to undertake supervised clinical practice placements. Before they enrol, students must meet all professional practice requirements including a criminal history check, first aid certificate and CPR certificates, immunisation and health record, manual drivers' licence (desirable), Queensland Ambulance Service (QAS) medical assessment, and Working with Children (Blue Card) check. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Graduates of this degree will be able to apply for employment as a graduate level paramedic within Australia (following registration) and a number of other countries. Other careers areas may also include the military, mining and other commercial paramedic opportunities.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Paramedicine.

Bachelor of Pharmacology and Toxicology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233921 Gold Coast	3F or 6P	63.20	71.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); one of Biology, Chemistry or Physics (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Pharmacology and toxicology professionals require an understanding of the properties of chemicals and how they interact with biological systems. You'll learn about drugs and poisons, how they act on the body, and how to develop new medicines. You'll learn through hands-on experience in state-of-the-art facilities, including our immersive virtual learning environment and laboratories. This degree has a strong jobs and industry focus, providing a pathway to many new careers in within the health industry. The pre-clinical major provides the opportunity to specialise in pre-clinical areas that prepare you for qualifications in health disciplines such as pharmacy, medicine and dentistry. The pharmaceutical industry major provides the opportunity to prepare you for an exciting career in the pharmaceutical industry. **Majors:** Pharmaceutical industry; pre-clinical. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

After 30 December 2022, no new applicants can apply, but existing applicants can reorder this preference. Late offers after the January offer round will only be made if places remain in the program.

Course outline: Physiotherapists aim to enhance the movement and function of individuals and populations across their lifespan, especially when actual or potential impairments and disabilities relate to the musculoskeletal, cardiorespiratory, and neurological systems. In the Bachelor of Physiotherapy, you'll learn and practice techniques to enhance

functional movement by undertaking biomedical, physical and behavioural science courses, as well as physiotherapy courses. Before graduation, you will be required to demonstrate physiotherapy knowledge and skills required for entry-level clinical physiotherapy practice. **Note:** If you are undertaking or considering alternate tertiary studies in order to apply to this program for the following intake, to maximise your rank you may need to complete a minimum of 1 year of full-time equivalent of study. For further information visit griffith.edu.au. **Other requirements: Important offer advice:** Should you receive an offer into this program you will be required to enrol into classes* within a short timeframe. This information will be included in your Starting@Griffith email and expressed in the number of days from the day of issue of your email and is in line with the offer response date in your QTAC offer email. Please note that the number of days can vary depending on when the offer was made. This requirement applies irrespective of whether you accepted conditionally or unconditionally. If you do not enrol* into at least one class for your program by 5pm on the response day your offer will lapse. Lapsed offers are not automatically reinstated and reinstatement is subject to available places.

**Enrolling into classes means that you are advising when you are attending class/es. Enrolment must be submitted.*

Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You may find work in various settings such as hospitals, private practices, community health centres, schools, sporting teams and the armed forces. Physiotherapists may also be employed at universities to teach and conduct research including consulting for industry and government bodies.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Physiotherapy.

Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
231612 Gold Coast	3F or 6P	63.20	70.75	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
225521 Mt Gravatt	3F or 6P	60.20	68.20	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This degree will give you a thorough grounding in the application of clinical, developmental, biological, cognitive, social and organisational psychology. You'll learn how to apply psychological theories and use skills to work with people with personal, health, vocational and social difficulties, assisting them to reach their full potential. You'll also learn about thinking and perceiving, motivation, stress, health and group behaviour. Evaluating and understanding psychological tests and using interpersonal, counselling, coaching and group facilitation skills are also a key part of the degree. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You will be prepared for a career in counselling, guidance, health management, social research, rehabilitation and other related fields including health and organisational workplaces. As a graduate, you may also be eligible for entry into a wide range of postgraduate degrees in areas like social work, speech pathology, teacher preparation, rehabilitation counselling, forensic mental health, criminology and criminal justice. You will need to complete further study to work as a registered psychologist.

Double degrees: Refer to entries for: B Exercise Science/B Psychological Science; B Laws (Hons)/B Psychological Science; B Psychological Science/B Business; B Psychological Science/B Criminology and Criminal Justice; B Psychological Science/M Mental Health Practice; B Psychological Science/M Rehabilitation Counselling.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Psychological Science.

+ Regular offers will be made.

Bachelor of Psychological Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
231552 Gold Coast	4F or 8P	69.60	73.60	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
225531 Nathan/Mt Gravatt	4F or 8P	62.30	68.30	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Combining business with psychological science can give you the skills and knowledge needed to work as a specialist providing advice to organisations on management and personnel issues, and helping them develop training programs, set policies, or manage organisational change. **Majors:** *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in psychology-related businesses, not-for-profit, government and corporate organisations. You'll be ideally placed to directly enter a wide range of management positions in business, counselling, and training and development.

+ Regular offers will be made.

Bachelor of Psychological Science/Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226521 Mt Gravatt	4F or 8P	62.30	68.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
232521 Gold Coast	4F or 8P	64.45	70.25	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will give you insights into crime and the criminal justice system. In the psychological science component, you'll develop an understanding of human behaviour and the variables that affect it, which will help you understand how people can get caught up in the criminal justice system. In the criminology and criminal justice component, you'll study crime trends and learn how crime can be analysed and prevented. You'll have the option to complete a professional practice placement one day a week in your final year to gain experience in a justice-related workplace.

Career opportunities: You may find opportunities in probation and parole, community corrections, guidance, health management, family services, counselling, child protection, program and policy development, research and administration.

Bachelor of Psychological Science/Master of Mental Health Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233611 Gold Coast	4F	✦	✦	Mar 2023	12 Jan 2023
225532 Mt Gravatt	4F	60.20	68.20	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this integrated vertical degree, you'll gain a thorough grounding in the application of clinical, development, biological, cognitive, social, and organisational psychology. You'll then build on this broad knowledge base with studies in the growing specialist area of mental health practice, extending your knowledge of psychological services as they apply to mental illness. You'll undertake a professional practice placement within the field of mental health as part of this degree and will be prepared for a profession in the various settings where mental health knowledge is essential. **Note:** Bachelor of Psychological Science courses are conducted at the Gold Coast and Mt Gravatt and Master of Mental Health Practice courses are conducted online (with in-field professional placement).

Career opportunities: You'll be ready for a range of opportunities in the health workforce such as community support worker, peer support worker, disability

worker, housing officer, police liaison officer, and other mental health support roles.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Psychological Science/Master of Rehabilitation Counselling

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233601 Gold Coast	4F	✦	✦	Mar 2023	12 Jan 2023
225522 Mt Gravatt	4F	✦	✦	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this integrated vertical degree, you will gain a thorough grounding in the application of clinical, development, biological, cognitive, social and organisational psychology. You will then build on this broad knowledge base with studies in the specialist area of rehabilitation counselling. To acquire the advanced knowledge and skills to work as a rehabilitation counsellor, you will learn about vocational evaluation, job placement, injury management, disability studies, applied counselling and research methods. You will put this all into practice through a supervised practicum placement in a rehabilitation counselling setting. **Note:** Bachelor of Psychological Science courses are conducted at the Gold Coast and Mt Gravatt and Master of Rehabilitation courses are conducted online (with in-field professional placement). **Other requirements:** Students must undertake a placement.

Career opportunities: Bachelor of Psychological Science: You will be prepared for a career in counselling, guidance, health management, social research, rehabilitation and other related fields including health and organisational workplaces. You may also be eligible for entry into a wide range of postgraduate degrees in areas such as social work, speech pathology, teacher preparation, forensic mental health, criminology and criminal justice. You will need to complete further study to work as a registered psychologist.

Master of Rehabilitation Counselling: You will be prepared to work as an accredited rehabilitation counsellor in government, insurance, workers compensation and motor accident rehabilitation, disability employment services, the National Injury Insurance Scheme (NIIS), the National Disability Insurance Scheme (NDIS) (or equivalent internationally), and private and not-for-profit rehabilitation services providing vocational assessment, counselling, case management, life skills training and social support for clients with disability, injury and vocational disadvantage.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Public Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234152 Gold Coast	3F or 6P	61.70	67.70	Nov 2022 Mar 2023 Nov 2023	6 Oct 2022 12 Jan 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: The World Health Organization defines public health as the art and science of preventing disease, prolonging life and promoting health through the organised efforts of society. You'll develop the knowledge and skills needed to make a valuable contribution to society in this high demand area. You'll learn how to address major health issues including chronic disease, sexual health, under- and over-nutrition, HIV/AIDs, physical inactivity, and drug and alcohol abuse, in settings such as workplaces, hospitals and schools. In the final year, you'll put your studies into practice through professional placements in public health organisations. **Other requirements:** Students must undertake placements. A health check including immunisation status, a Suitability Card and national police records check are required. For further information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: As a graduate you will be qualified to find work as a public health officer or a health promotion officer tackling our most pressing health issues. You could work on intervention programs or policies in teams at an international level with organisations such as the World Health Organization, the United Nations or UNICEF or with federal, state or local governments or at the community level. You will be prepared for a range of contemporary issues such as mental health, women's and men's health, epidemics and pandemics, alcohol and drugs, and child and adolescent health.

\+ *Regular offers will be made.*

Bachelor of Sport Development

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233562 Gold Coast	3F or 6P	59.85	66.20	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** One of Biology, Chemistry, Physics, General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This is your opportunity to turn your passion for sport into your profession - one with strong employment prospects. Taught on the Gold Coast in world-class facilities, this degree lets you learn the ins and outs of sport development and how to design, deliver and manage recreation activities for the broader community. Four main areas of study make up this degree: sport science, sport management and marketing, health promotion and sports coaching. You'll also study the specialist field of community development through sport which is all about increasing participation in sport through the design of sport systems and pathways to attract, retain and nurture participants. **Note:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: You'll be prepared for a career in a wide range of community sport and recreation areas, including health promotion and sport development in amateur and professional sporting organisations, as well as elite athlete development. You'll also be qualified to work in sport and recreation centres and resorts, national and state sporting organisations, event management and sport marketing media.

Double degrees: Refer to entry for: B Sport Development/B Business.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Health Sciences/B Sport Development.

Bachelor of Sport Development/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316071 Townsville	3F or 6P	69.85	77.85	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Students develop an understanding of the normal structure, biochemistry, and physiology of the mammalian body and the processes leading to disease. They work in well-equipped laboratories with scientists involved in cutting-edge medical research, are exposed to current technologies, and develop widely transferable skills. The course is multidisciplinary, drawing from fields of study including anatomy and physiology, pharmacology and biochemistry, microbiology and parasitology, immunology and epidemiology, and pathology and pathobiology. Visit: jcu.edu.au/courses/bachelor-of-biomedical-sciences. **Note:** Students commencing studies mid-year will complete the course in 3.5 years full-time of 7 years part-time. **Majors:** Medicinal and pharmaceutical sciences; microbiology and immunology; molecular and cell biology; physiology and pharmacology. **Other requirements:** Students undertake clinical placements at health facilities across northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Medical research institutes, biotechnology companies, diagnostic services, government positions related to health policy.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Biomedical Sciences.

Bachelor of Clinical Sciences (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317291 Townsville	4F or 8P	73.85	80.85	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course has a strong clinical focus and gives students a comprehensive grounding in biomedical science through the study of the normal functions of the human body and the mechanisms of disease. Years one and two include foundation anatomy, physiology, microbiology and biochemistry studies. Third year students develop skills to make independent, evidence-based decisions that inform other health practitioners. In their final year, students undertake an honours year that includes clinical placements throughout north Queensland, and Australia. Visit: jcu.edu.au/courses/bachelor-of-clinical-sciences-honours. **Other requirements:** Students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card and Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Clinical scientist.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Clinical Sciences (Hons).

Bachelor of Dental Surgery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
327091 Cairns	5F or 7P	87.95	87.95	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years; Application Form. **Additional entry information:** In addition to applying through QTAC, applicants must submit a *JCU Application Form* to the Division of Tropical Health and Medicine. The *JCU Application Form* is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms. **Closing date:** *Domestic applicants:* QTAC applications and *JCU Application Form* submissions close 30 September 2022. *International applicants:* QTAC applications and *JCU Application Form* submissions close 31 August 2022.

Course outline: This five-year course is a broad-based program encompassing all aspects of existing dental practice, with a special focus on tropical, rural and Indigenous practice. The curriculum integrates basic sciences with dental clinical sciences and preventative oral health strategies. There is early exposure to clinical practice, with a curriculum dedicated to acquiring clinical skills. The final year is dedicated entirely to clinical experience with students undertaking placement in Queensland Health dental facilities across northern Queensland. Visit: jcu.edu.au/courses/bachelor-of-dental-surgery **Note:** Part-time study not permitted in Year 2 - Semester 2, and Years 3, 4 and 5. **Other requirements:** Students must undertake clinical placement at dental facilities across northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students enrolled in dental courses must undergo testing for blood-borne viruses (BBVs) including hepatitis B, hepatitis C and human immunodeficiency virus (HIV) before, or on entry to the course. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Dentists in private practice, public sector clinics, defence forces.

Bachelor of Medical Laboratory Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316121 Townsville	4F or 8P	73.85	80.10	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course has a strong clinical focus and provides students with a comprehensive grounding through the study of the normal functions of the human body and the mechanisms of disease. Students study a combination of foundation subjects and subjects to develop the skills to make independent, evidence-based decisions that inform other health practitioners. In final year, students undertake clinical placements throughout Australia or internationally. The course is accredited by the Australian Institute of Medical Scientists. Visit: jcu.edu.au/courses/bachelor-of-medical-laboratory-science-honours **Other requirements:** Students in fourth year participate in three months of clinical placement in a regional medical laboratory, which may include laboratories in Papua New Guinea. Students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card and Australian Federal Police check may be required; refer to institution.

Career opportunities: Laboratory scientist in public hospitals, private medical pathology laboratories or veterinary diagnostic laboratories, food and water microbiology, pharmaceutical industry.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Medical Laboratory Science (Hons).

Bachelor of Medicine, Bachelor of Surgery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317012 Townsville	6F	89.75	89.75	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years; Application Form; Interview. **Additional entry information:** Selection is based on a combination of written application, academic results and interview. In addition to applying through QTAC, applicants must submit a *JCU Application Form* to the Division of Tropical Health and Medicine. This form is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms. Current domestic Year 12 applicants must request their school submit a *Prediction of Academic Achievement* form to JCU. This form is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms/domestic-applicants. Students will be invited for an interview based on their academic results and the evaluation of the written component of the *JCU Application Form*. Interview panels use specific criteria to assess applicants and identify attributes suited to a career in medicine. Interviews will be held in early December 2022 and early January 2023. This degree is primarily for Year 12 applicants. A limited number of places may be available for graduates or non-Year 12 applicants. **Closing date:** *Domestic applicants:* QTAC applications and *JCU Application Form* submissions close 30 September 2022. *International applicants:* QTAC applications and *JCU Application Form* submissions close 31 August 2022.

Course outline: This comprehensive six-year course covers the essential requirements of an Australian medical degree with special emphasis on tropical medicine and the health of rural and remote communities and Indigenous Australians. Graduates can work as interns in Australian or New Zealand hospitals and take further training in any branch of medicine. Solid clinical experience begins early with placement in rural locations and regional cities. Students in fifth and sixth year are placed in clinical school sites such as Cairns, Mackay and Townsville. Visit: jcu.edu.au/courses/bachelor-of-medicine-bachelor-of-surgery **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: With further study, general practitioners or medical specialists working in community settings, private practice, public or private hospitals, in medical research.

Bachelor of Nursing Science - Pre-Registration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316031 Townsville	3F or 6P	60.45	66.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

316139 Flexible delivery	3M or 6M	65.10	67.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 18 years. **Additional entry information:** To enrol in this program, English must be your primary language and you must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one or more of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you do not meet this criteria, you will be required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Students develop skills in communication, assessment of clients, planning and implementing nursing interventions, and managing and evaluating nursing care. In addition, the course offers scientific, biophysical and humanistic behavioural knowledge. Clinical education is an integral part of the course. Students participate in supervised clinical practice in a variety of hospitals, health agencies and community settings. Students are required to attend clinical placement away from their base during their studies. Visit: jcu.edu.au/courses/bachelor-of-nursing-science **Note:** Applicants for mid-year may have to undertake part-time study in semester 2. This mixed-mode delivery course is offered part-time and involves a combination of distance education and approximately one week per teaching period of residential school on-campus study at Townsville or Cairns for some subjects. **Other requirements:** Students must participate in prescribed professional and clinical placements at their own expense. Prior to taking clinical placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private health systems, in schools, with corporations, the defence forces, aid organisations.

Combined degrees: Refer to entry for: B Nursing Science/B Midwifery.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Nursing - Pre-Registration.

Bachelor of Nursing Science/Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317122 Townsville	4F or 5P	79.50	84.40	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 18 years. **Additional entry information:** To enrol in this program, English must be your primary language and you must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one or more of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you do not meet this criteria, you will be required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency. **Closing date:** QTAC applications for this program close 11 December 2022.

Course outline: The course provides a strong academic foundation focusing on competent, culturally appropriate, evidence-based midwifery and nursing practice. The practice-based curriculum blends basic and applied sciences with the art of nursing and woman-centred midwifery care. It prepares practitioners with skills across both nursing and midwifery. Clinical placements ensure that students apply theory to practice in a range of settings, with a focus on practice in rural, remote and tropical contexts. Visit: jcu.edu.au/courses/bachelor-of-nursing-science-bachelor-of-midwifery **Note:** The part-time option is only available for Level 1. For Level 2 onwards, students must be enrolled full-time. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Public and private health sectors across a range of health areas.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316101 Townsville	4F or 6P or $4^{1/2}$F	71.50	73.50	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Occupational therapists assist people to overcome challenges caused by injury, illness, psycho-emotional difficulties, developmental delay, or the effects of ageing. Graduates are prepared to work with people in a range of health and community settings through fieldwork placements throughout north Queensland, with some interstate and international placements. In their final two years of study, students engage in either a research or professional honours project relevant to contemporary occupational therapy practice. Visit: jcu.edu.au/courses/bachelor-of-occupational-therapy-honours **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be completed full-time. Students commencing studies mid-year will complete the course in 4.5 years. **Majors:** Professional honours (full-time only); research honours (full-time only). Students must achieve a minimum GPA of 5.5 across levels one and two to be offered a position in the research honours major. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Public and private hospitals, medical rehabilitation units, retirement homes, psychiatric clinics, hospitals, workplace health and safety.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Occupational Therapy (Hons).

Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316151 Townsville	4F or 6P	78.05	84.90	Feb 2023	12 Jan 2023
336151 Mackay	4F or 6P	☆	☆	Feb 2023	12 Jan 2023
326151 Cairns	4F or 6P	76.50	82.50	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Students gain the communication, legal, ethical, management, and research skills required for modern pharmacy practice in hospitals, the community, industry, research, or educational settings. The course covers chemistry and biochemistry, drug and dosage form design, anatomy and physiology, disease states, pharmacology, pharmacokinetics, pharmacodynamics, therapeutics, public health and health promotion, and rural and remote practice. This course is accredited by the Australian Pharmacy Council. Visit: jcu.edu.au/courses/bachelor-of-pharmacy-honours **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be competed full-time. **Majors:** Professional honours (full-time only); research honours (full-time only). Students must achieve a minimum GPA of 5.5 across levels one and two to be offered a position in the research honours major. **Other requirements:** A 600-hour placement program requires students to undertake experiential learning in both hospital and community practice, with a period in a rural area. Overseas placement opportunities and multi-disciplinary placement experiences are also available. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community, hospital and industrial pharmacies, pharmacy administration, research and education, government, the military.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Pharmacy(Hons)

☆ *See Admissions Criteria on website for more information.*

Bachelor of Physiotherapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317031 Townsville	4F	80.90	89.05	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Physiotherapists are health professionals who assess and diagnose problems with human movement, then plan and administer treatment to restore function or minimise dysfunction after disease or injury. Studies include health science subjects, anatomy/physiology, and specialised areas such as movement analysis, manual techniques, exercise prescription and therapeutic massage. Clinical placements ensure students apply theory to practice in various settings, including rural, remote, tropical, national and international contexts. Visit: jcu.edu.au/courses/bachelor-of-physiotherapy **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Private practice, hospitals, health centres, schools, aged care, sporting organisations.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Physiotherapy.

Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
311081 Townsville	3F or 6P	65.65	70.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: First year consists of introductory subjects in psychology and sociology. Second and third-year studies include a range of psychology subjects - social, abnormal, intercultural, environmental and forensic, lifespan development, brain and behaviour, memory and cognition, psychological assessment, statistical and research methods, and cognitive neuroscience. High achieving students who successfully complete the Bachelor of Psychological Science can study a Bachelor of Psychological Science (Honours) or the Graduate Diploma of Psychology. Visit: jcu.edu.au/courses/bachelor-of-psychological-science

Career opportunities: Human service organisations including the health sector, educational facilities, consumer research, marketing, human resource management.

Combined degrees: Refer to entries for: B Business/B Psychological Science (not accounting major); B Sport and Exercise Science/B Psychological Science.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Psychological Science.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317041 Townsville	4F or 6P	71.25	76.30	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Health or Psychology (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Speech pathologists diagnose and treat people with communication and/or swallowing disabilities. The course develops knowledge in anatomy, linguistics and health science, as well as skills for assessing and treating speech, language, voice, fluency, and swallowing disorders. The focus is on rural and remote practice, issues relevant to Indigenous people, and interdisciplinary learning. Clinical placements start in second year with final-year placements outside Townsville. This course is accredited by Speech Pathology Australia. Visit: jcu.edu.au/courses/bachelor-of-speech-pathology-honours **Note:** Levels 1 and 2 can be completed part-time however levels 3 and 4 must be competed full-time. **Majors:** Professional honours (full-time); research honours (full-time). Students must achieve a minimum GPA of 5.0 across levels 1 and 2 to be offered a position in the research honours major. **Other requirements:** Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution.

Career opportunities: Education departments, community health centres, hospitals, rehabilitation centres, disability agencies, mental health, private practice, university teaching, research.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Speech Pathology (Hons).

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316111 Townsville	3F or 6P or $3^{1/2}$F	69.55	71.55	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course produces graduates with an understanding of the processes and mechanisms of human physical activity. Students focus on how physical activity enhances human performance in occupational, sport, exercise, and leisure settings. Foundation studies include anatomy, physiology and psychology, followed by applied and advanced studies in exercise physiology, sports medicine, functional anatomy, biomechanics, health promotion, sport and exercise nutrition, and sport and exercise psychology. Students have access to world-class technical, training and

testing facilities, including our new state of the art JCU Sport Performance Hub. This course is accredited by Exercise and Sports Science Australia. Visit: jcu.edu.au/courses/bachelor-of-sport-and-exercise-science **Note:** Students commencing studies mid-year will complete the course in 3.5 years. **Other requirements:** Students must complete 140 hours of practical experience with sporting, professional and community bodies including institutes/academies of sport, hospitals, professional sporting clubs, defence forces, fitness centres, and other allied health services. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community and corporate health and fitness, government agencies associated with sport, physical activity and health, sports academies, research.

Combined degrees: Refer to entry for: B Sport and Exercise Science/B Psychological Science.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Health)/B Sport and Exercise Science.

Bachelor of Sport and Exercise Science/Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317161 Townsville	5F or 10P	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course combines two fields of study highly sought after in the jobs market. The Sport and Exercise Science degree provides students with a comprehensive understanding of how the human body responds to physical activity while the Psychological Science degree exposes students to the study of the human mind and develops a strong foundation of psychological theory, practice, and research skills. Students have access to world-class technical, training and testing facilities, including our new state of the art JCU Sport Performance Hub. Students undertake supervised, practical placements to develop professional and work-ready skills. Visit: jcu.edu.au/courses/bachelor-of-sport-and-exercise-science-bachelor-of-psychological-science **Other requirements:** Students must complete 140 hours of practical experience with sporting, professional and community bodies including institutes/academies of sport, hospitals, professional sporting clubs, defence forces, fitness centres, and other allied health services. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community and corporate health and fitness, government agencies associated with sport, physical activity and health, sports academies, research.

310061 Townsville	1F or 2P	48.20	50.20	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
320061 Cairns	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course is for students who do not qualify for entry to bachelor degrees or students seeking additional skills development before bachelor degree study. In the health stream, students study two core subjects plus a mix of introductory and first-year subjects in a wide range of health-related fields including nursing, exercise nutrition, psychology, allied health and pharmacy. Successful completion of the diploma allows entry to JCU degree programs with credit transfer for some subjects successfully completed. Visit: jcu.edu.au/courses/diploma-of-higher-education

Combined diplomas/degrees: Refer to entries for: D Higher Education (Health)/B Biomedical Sciences; D Higher Education (Health)/B Clinical Sciences (Hons); D Higher Education (Health)/B Medical Laboratory Science (Hons); D Higher Education (Health)/B Nursing Science - Pre-Registration; D Higher Education (Health)/B Occupational Therapy (Hons); D Higher Education (Health)/B Pharmacy; D Higher Education (Health)/B Physiotherapy; D Higher Education (Health)/B Psychological Science; D Higher Education (Health)/B Speech Pathology; D Higher Education (Health)/B Sport and Exercise Science.

Diploma of Higher Education (Health)/Bachelor of Biomedical Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317371 Townsville	4F or 8P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Biomedical Sciences. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of three credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Biomedical science students undertake clinical placements at health facilities across northern Queensland during their studies. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Medical research institutes, biotechnology companies, diagnostic services, government positions related to health policy.

Diploma of Higher Education (Health)/Bachelor of Clinical Sciences (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317381 Townsville	5F or 10P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Clinical Sciences (Honours). Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of three credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Students in the bachelor program must participate in prescribed professional and clinical placements at their own expense. Students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card and Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Clinical scientist.

Diploma of Higher Education (Health)/Bachelor of Medical Laboratory Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317321 Townsville	5F or 10P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Medical Laboratory Science (Honours). Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of three credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Students in the bachelor program participate in three months of clinical placement in a regional medical laboratory at their own expense. Placement may include laboratories in Papua New Guinea. Bachelor students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card and Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Laboratory scientist in public hospitals, private medical pathology or veterinary diagnostic laboratories, food and water microbiology, pharmaceutical industry.

Diploma of Higher Education (Health)/Bachelor of Nursing Science - Pre-Registration

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317391 Townsville	4F or 8P	New Course	New Course	Feb 2023	12 Jan 2023
327391 Cairns	4F or 8F	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Additional entry information:** To enrol in this program, English must be your primary language and you must have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one or more of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you do not meet this criteria, you will be required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Nursing - Pre-Registration. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of six credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Students in the bachelor program must participate in prescribed professional and clinical placements at their own expense. Prior to taking clinical placements, bachelor students must provide evidence of immunity to hepatitis B, MMR, varicellla, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Public and private health systems, in schools, with corporations, the defence forces, aid organisations.

Diploma of Higher Education (Health)/Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317311 Townsville	5F or 8P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Occupational Therapy (Honours). Only the diploma and levels one and two of the bachelor can be studied part-time. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of 12 credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Students in the bachelor program must participate in prescribed professional and clinical placements at their own expense. Before undertaking professional placements students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Public and private hospitals, medical rehabilitation units, retirement homes, psychiatric clinics, hospitals, workplace health and safety.

Diploma of Higher Education (Health)/Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317301 Townsville	5F or 6P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Pharmacy (Honours). Only the diploma can be studied part-time. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of six credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** The bachelor program includes a 600-hour placement program where students undertake experiential learning in both hospital and community practice, with a period in a rural area. Overseas and multi-disciplinary placements are also available. Students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates before undertaking professional placements. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community, hospital and industrial pharmacies, pharmacy administration, research and education, government, the military.

Diploma of Higher Education (Health)/Bachelor of Psychological Science

		Unadjusted	Adjusted		
317341 Townsville	4F or 8P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Psychological Science. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of six credit points. Students must meet the minimum English language requirements for the bachelor program.

Career opportunities: Human service organisations including the health sector, educational facilities, consumer research, marketing, human resource management.

Diploma of Higher Education (Health)/Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317351 Townsville	5F or 8P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Speech Pathology (Honours). Levels 3 and 4 of the Bachelor of Speech Pathology are full-time only. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate with a maximum of 12 credit points into the bachelor program at James Cook University. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Students in the bachelor program must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates prior to taking professional placements. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Education departments, community health centres, hospitals, rehabilitation centres, disability agencies, mental health, private practice, university teaching, research.

Diploma of Higher Education (Health)/Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
317361 Townsville	4F or 8P	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Health) and Bachelor of Sport and Exercise Science. Visit: jcu.edu.au/courses/undergraduate **Note:** Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of 12 credit points. Students must meet the minimum English language requirements for the bachelor program. **Other requirements:** Students in the bachelor program must complete 140 hours of practical experience with sporting, professional and community bodies including institutes/academies of sport, hospitals, professional sporting clubs, defence forces, fitness centres, and other allied health services. Prior to taking professional placements, students must provide evidence of immunity to hepatitis B, MMR, varicella, and pertussis, and current Provide First Aid and CPR certificates. Students must also be fully vaccinated against COVID-19. A Suitability Card is required and an Australian Federal Police check may be required; refer to institution. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Community and corporate health and fitness, government agencies associated with sport, physical activity and health, sports academies, research.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Biomedical Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419462 Gardens Point	5 1/2F	79.65	87.95	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology or Chemistry (Units 3 & 4, C).

Course outline: This double degree combining biomedical science with law prepares you as a graduate to work as part of multidisciplinary teams in biomedical research, development and commercialisation. The demand for specialists who have knowledge and skills across a number of these disciplines is increasing across local and international markets. You complete core science units before selecting a major. In the law component, you develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Some law units are offered in summer if you wish to accelerate your study. This course has some units that can be studied online. **Majors:** Refer to Bachelor of Biomedical Science. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where you may work with children or young people; refer to institution. Also refer to Bachelor of Laws (Honours).

Career opportunities: Refer to Bachelor of Biomedical Science and Bachelor of Laws (Honours).

Bachelor of Medical Imaging (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418182 Gardens Point	4F	94.25	99.35	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Physics (Units 3 & 4, C).

Course outline: As a graduate, you'll be able to use techniques such as x-ray to produce high-quality images that are then used to diagnose, manage and treat an injury or disease.

Following foundation studies, you build skills using specialist equipment for digital radiography, general x-ray, mobile x-ray, mammography and dental.

You also develop competency in computer systems and software that is used throughout industry. You complete extensive professional placement in hospital and private imaging facilities. The honours component is embedded in the course and provides a strong foundation in research skills and critical thinking.

The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Imaging technologist or diagnostic radiographer in hospitals and radiology practices, medical equipment sales.

Bachelor of Nutrition and Dietetics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425442 Kelvin Grove	4F	94.75	95.15	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Course outline: As a graduate, you have advanced knowledge in the science of nutrition and can use this knowledge to advise on appropriate diet, food preparation, and menu planning to treat disease. After foundation studies in chemistry, anatomy and physiology, nutrition communication and food and nutrition, students advance to studies in biochemistry, medical physiology and nutrition science.

You provide specialised advice to clients from many cultural and social backgrounds through placements at the QUT Health Clinics and external settings.

The honours component is embedded within the course and provides you with a strong foundation in research and critical thinking.

The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Dietitian in hospitals, medical nutrition therapy, food service consultant, community or public health nutritionist, researcher, private practice and community health.

Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418512 Gardens Point	4F	76.10	80.00	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Course outline: As a graduate, you have expert knowledge about how drugs interact with the body and how they can be used safely for therapeutic purposes.

You complete more than 500 hours of professional placement in hospitals and community pharmacies and in healthcare roles where pharmacists are increasingly being employed. Studies focus on priority health areas of patient care such as musculoskeletal, cardiovascular and mental health conditions. The honours component develops advanced skills for leadership in an evolving profession.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Community and hospital pharmacies, the pharmaceutical industry, government, research agencies, academic institutions.

Bachelor of Paramedic Science - Graduate Entry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425582 Kelvin Grove	2F	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Prior study. **Assumed knowledge:** Current Senior First Aid certificate. **Additional entry information:** You must have completed a degree (or equivalent) in a medical science or health science field in 2013 or more recently.

If you completed your degree earlier than 2013 you must provide evidence with your QTAC application of your graduate work experience and/or completed further studies in a medical science or health science gained in 2013 or more recently.

Completed graduate diplomas, masters and/or doctorates are the accepted equivalents with a minimum volume of learning of 1.00 year full-time (or equivalent).

Course outline: This course prepares you as an ambulance paramedic when you graduate. Foundation studies in the anatomy and physiology of the human body and an introduction to health and disease concepts and statistical methods in health are followed by advanced units with an increasing emphasis on clinical skills through supervised practice with the Queensland Ambulance Service.

You complete placements in metro and regional areas of Queensland, or travel overseas and work on shift with paramedics in other services.

The QUT Offer Guarantee does not apply to this course. **Note:** A one-week orientation program, Transition to Paramedic Studies, is conducted in Orientation Week (the week before the start of semester) and is integral to the your understanding of the clinical component of paramedic practice. All students undertake a summer semester enrolment at the end of first year.

Selection ranks: You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution. Before undertaking clinical placements with the Queensland Ambulance Service (QAS), you must undertake a health and fitness test, have a hepatitis B vaccination, and have a criminal history check.

Career opportunities: Ambulance paramedic with agencies such as the Queensland Ambulance Service and other clinical settings.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Podiatry - Graduate Entry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425102 Kelvin Grove	2 1/2F	☆	☆	Jul 2023	27 Apr 2023

Prerequisites: Applicant must be 16; Prior study; Prior study in a particular field of education. **Assumed knowledge:** Before you start this course, we assume you have sound knowledge of the degree subject areas listed below. If you don't have the degree subject knowledge, you can still apply for the course but we strongly encourage you to undertake bridging studies to gain the knowledge in anatomy, chemistry, pathophysiology/disease processes, physiology, and statistics. **Additional entry information:** You must have a completed recognised Australian biomedical, health, or medical science bachelor degree completed in 2013 or more recently with a minimum volume of learning of 1.50 year full-time (or equivalent). **Closing date:** QTAC applications for this program close 21 April 2023.

Course outline: As a graduate using physical therapy and surgical techniques, you can diagnose and treat heel pain, running injuries, footwear problems and corrections, skin problems, tendon and joint injuries.

You develop knowledge in anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine before completing 1000 hours of professional placement at QUT Health Clinics and external facilities.

You participate in biomechanics/musculoskeletal clinics, sports clinics, diabetes foot complication clinics, paediatric clinics, and general podiatric clinics.

The QUT Offer Guarantee does not apply to this course. **Note:** A one-week mandatory orientation program is conducted in Orientation Week (the week before the start of semester).

Selection ranks: You will be considered solely on the basis of selection ranks from your prior degree studies plus any postgraduate studies you may have undertaken. Other qualifications and experiences may be allocated selection ranks for entry to other QUT courses, but will not be considered for this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution. Clinical activities begin during first semester and you are required to provide a serology report demonstrating successful hepatitis B vaccination. The full hepatitis B vaccination course and serology report test can take six to nine months and must be completed before commencing this course in July.

Career opportunities: Private practice, hospitals, community health centres.
☆ *See Admissions Criteria on website for more information*

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418401 Gardens Point	3F or 6P	69.90	71.05	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology or Chemistry (Units 3 & 4, C).

Course outline: First-year studies in biological chemistry, biomedical physics, anatomy, physiology, and human cell and molecular biology form the foundation for the study of clinical areas. In second and third years, you choose one major and two minor study areas to build knowledge in areas of emerging priority and employment. You can choose from anatomical sciences, cell and molecular biotechnology, human biochemistry, human physiology, or infection and immunity. Elective units can be completed in law, business and engineering.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Majors:** Anatomical sciences; cell and molecular biotechnology; human biochemistry; human physiology; infection and immunity. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where you may work with children or young people; refer to institution.

Career opportunities: Medical research institutes and universities, hospitals and biotechnology companies, science journalism.

Double degrees: Refer to entries for: B Biomedical Science/B Business; B Biomedical Science/M Data Analytics (Biomedical Science); B Biomedical Science/B Laws (Honours); B Biomedical Science/B Mathematics.

Bachelor of Biomedical Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419432 Gardens Point	4F	70.85	71.00	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology or Chemistry (Units 3 & 4, C).

Course outline: Biomedical research and the development of new biomedical products contribute to improving health outcomes worldwide. You gain the knowledge and skills to work as part of multidisciplinary teams in biomedical research, development and commercialisation.

The Bachelor of Business is uniquely designed to inspire you to realise your full potential, to think entrepreneurially and to ethically and sustainably shape the future of 21st century business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline, engaging with the real world of business to your professional career.

As a graduate, you can work for governments in regulation, compliance, or policy development and implementation roles; for venture capital and investment banks as an analyst; for innovation commercialisation companies as a consultant; or in the research sector.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Biomedical Science and Bachelor of Business. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where you may work with children or young people; refer to institution.

Career opportunities: Refer to Bachelor of Biomedical Science and Bachelor of Business.

Bachelor of Biomedical Science/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419112 Gardens Point	4F or 8P	76.80	86.80	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology or Chemistry (Units 3 & 4, C).

Course outline: This double degree enables you to develop life-long learning skills and mathematical inquisitiveness while understanding emerging medical complexities. Biomedical research and the development of new biomedical products contribute to improving health outcomes worldwide. You will gain knowledge and skills to work as part of multidisciplinary teams in biomedical research, development and commercialisation. The Bachelor of Mathematics component of the double degree will provide opportunities to develop skills and knowledge in mathematics and the ability to apply mathematics, statistics, computational methods and operations research to real world problems.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to B Biomedical Science and B Mathematics **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where you may work with children or young people; refer to institution.

Career opportunities: Medical research institutes and universities, hospitals and biotechnology companies, science journalism.

Bachelor of Biomedical Science/Master of Data Analytics (Biomedical Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419732 Gardens Point	4F	85.60	86.45	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Biology or Chemistry (Units 3 & 4, C).

Course outline: This innovative double degree will enable you to complete a Bachelor of Biomedical Science in the Faculty of Health and a Master of Data Analytics offered by the Faculty of Science in four years (full-time). The degree is designed to produce biomedical science graduates with advanced skills in data analytics and will enable you to fast-track your qualifications. The complexity of the human body, modern lifestyle diseases and emerging medical treatments call for graduates with diverse skill sets. The application of bioinformatics, computer science and mathematical statistical modelling continues to have a major impact on research in the biomedical sciences.

The combination of these two separate but complementary study areas will be at the forefront of developments in our understanding of public health, the causes of disease and the development of new approaches to treatment.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** The Master of Data Analytics (Biomedical Science) (which you start in fourth year and for study for 1F) is charged as a domestic tuition fee-paying course. FEE-HELP is available to eligible students. **Majors:** Refer to Bachelor of Biomedical Science. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement in an organisation where you may work with children or young people; refer to institution.

Career opportunities: There is a clear demand for biomedical science graduates with advanced skills in data analytics. The application of these quantitative approaches is at the forefront of developments in our understanding of public health, the aetiology of disease and the development of new approaches to treatment. With increased demands upon the health system, a digital transformation is underway to provide better quality and efficiency of healthcare, better population health and an improved overall patient experience.

Graduates of the Bachelor of Biomedical Science will have multiple career opportunities depending on their chosen areas of specialisation. These include biomedical research; clinical science positions such as neurophysiologist or cardiac scientist; health organisations employing laboratory, administrative and/or management professionals; commercial and business entities that employ agents for biobusiness development, investment analysis, medical and biotechnology sales and marketing representatives, contract research, clinical trials; consultants in regulatory affairs and matters of compliance; government agencies in Science and Health; educational fields such as laboratory technician/technical officer, tertiary educator, medical illustrator or writer; postgraduate study in Medicine, Veterinary Science, Allied Health and Education.

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425422 Kelvin Grove	4F	71.30	80.00	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); at least one of Biology, Chemistry or Physics (Units 3 & 4, C).

Course outline: Upon graduation, you can work in hospitals and clinical settings as specialists in rehabilitation, injury prevention, clinical diagnostics and exercise programming. You complete 500 hours of professional placement to develop knowledge and skills for the assessment, prescription and delivery of exercise programs to help patients with chronic disease and injury. You undertake units in anatomy, psychology, nutrition, biomechanics, and motor control.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Exercise physiologist, exercise therapist, rehabilitation specialist, exercise programming.

Bachelor of Health Information Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425391 Kelvin Grove	3F or 6P	73.10	73.10	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: As a graduate, you are skilled in information systems and data analysis that support health care, planning, public health and medical research.

You develop skills in new technology, people and project management, clinical coding, and data and information management within health and medicine. Studies in the disciplines of business, health, and information technology prepare you for a role in this emerging area. Studies are complemented with placements and visits to professionals in hospitals, government agencies, and not-for-profit organisations.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 77.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note: Part-time** students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. Some units may require block attendance. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Health information services manager, clinical data manager, health data and casemix analyst, clinical coder/coding, auditor/coding educator, ehealth project officer.

Bachelor of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418201 Gardens Point	4F or 8P	70.50	73.00	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Course outline: As a graduate, you perform tests on human and veterinary specimens such as blood, bodily fluids, stool, urine, and tissue biopsies, and can interpret and analyse results to identify blood diseases, viruses and parasites, immunity disorders, and genetic mutations.

Graduates are skilled in all areas of clinical pathology including immunology, haematology, cytogenetic and transfusion science. Final year includes a 12-week professional placement.

You can choose an elective that supports their career aspirations, such as pharmacology, business, Indigenous health, or research techniques.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 77.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note: Part-time** students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Medical laboratory scientist in the pathology industry in private laboratories or hospitals, medical research, postgraduate studies in medicine or medical science.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425231 Kelvin Grove	3F or 6P	80.70	86.25	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C). **Additional entry information:** You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland,

South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test.

For more information on acceptable English Language tests please see qtac.edu.au/english-language-proficiency.

Course outline: As a graduate, you are highly-skilled nurse with an understanding of contemporary nursing practice and innovative nursing care. Course content focuses on the importance of patient-centred care and nursing practice that is culturally safe, evidence based, and respectful.

You have the opportunity to undertake up to 840 hours of professional placement (with a minimum of 800hrs required for registration) undertaken in block periods. Placements are available in public and private hospitals and community centres in Brisbane and regional and rural Queensland.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** If starting in **July** you must take a compulsory clinical practice unit in the summer semester prior to your final year of study. Clinical practice for all students is scheduled throughout semester and may include mid-semester break or summer break.

For **part-time**, daytime attendance is required. Some lectures and tutorials may have evening sessions.

If you have completed a **Diploma of Nursing or equivalent** within 10 years of admission to the course and have current AHPRA registration as an Enrolled Nurse (Division 2) (General) without restriction, you can receive one year (96 credit points) of credit transfer and can complete the course in two years full-time or equivalent. You will need apply for this advanced standing after receiving a QTAC offer.

Deferment is not available for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Public and private hospitals and nursing homes, community health, armed services, school health, Indigenous health, pathology laboratories, alcohol and drug dependence.

Double degrees: Refer to entries for: B Nursing/B Behavioural Science (Psychology); B Nursing/B Public Health.

Bachelor of Nursing/Bachelor of Behavioural Science (Psychology)

For more information on acceptable English Language tests please see qtac.edu.au/english-language-proficiency.

Course outline: As a graduate, you can apply nursing knowledge and skills to public health areas such as Indigenous health, population health issues and risk factors for illness. Professionals skilled across these disciplines can choose to work as a nurse in the clinical environment or as a public health professional, developing new programs and initiatives that improve community health and prevent disease.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** You must take a compulsory clinical practice unit in the summer semester prior to your final year of nursing study. This course has some units that can be studied online.

Deferment is not available for this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Clinical healthcare settings, health promotion agencies, nursing.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Nutrition Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425332 Kelvin Grove	3F	62.95	70.80	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Course outline: As a graduate you will focus on nutrition issues that affect the whole population. With scientific knowledge about how food and nutrition can impact diet and prevent chronic disease, graduates are employed in a number of industries to analyse food supply, eating behaviours, and government policy, and to promote healthy lifestyle choices. Professional placements provide an understanding of how nutrition can be applied in diverse environments.

You can choose elective units in social media, exercise and sport, business, and biosciences.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Community health centres and public health areas, government agencies, educational institutions, food industry, corporate environments.

Double degrees: Refer to entry for: B Communication (Professional Communication)/B Nutrition Science.

Bachelor of Paramedic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425592 Kelvin Grove	3F	79.40	88.05	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: This course prepares you as an ambulance paramedics when you graduate. Foundation studies in the anatomy and physiology of the human body and an introduction to health and disease concepts and statistical methods in health are followed by advanced units with an increasing emphasis on clinical skills through supervised practice with the Queensland Ambulance Service.

You complete placements in metro and regional areas of Queensland, or travel overseas and work on shift with paramedics in other services.

The QUT Offer Guarantee does not apply to this course. **Note:** All students undertake a summer semester enrolment at the end of first year. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution. Before undertaking clinical placements with the Queensland Ambulance Service (QAS), you must undertake a health and fitness test, have a hepatitis B vaccination, and have a criminal history check.

Career opportunities: Ambulance paramedic with agencies such as the Queensland Ambulance Service and other clinical settings.

Bachelor of Podiatry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425222 Kelvin Grove	4F	80.10	82.10	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C).

Course outline: As a graduate using physical therapy and surgical techniques, you can diagnose and treat heel pain, running injuries, footwear problems and corrections, skin problems, tendon and joint injuries.

You develop knowledge in anatomy, biomolecular science, pharmacology, dermatology, and clinical medicine before completing 1000 hours of professional placement at QUT Health Clinics and external facilities.

You participate in biomechanics/musculoskeletal clinics, sports clinics, diabetes foot complication clinics, paediatric clinics, and general podiatric clinics.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Private practice, hospitals, community health centres.

Bachelor of Public Health

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425372 Kelvin Grove or Online	3F or 6P or 3–6OL	69.95	70.65	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: As a graduate, you understand how factors such as gender, socioeconomic status, and access to education can affect health. They apply this knowledge to develop and deliver health programs, services and policies that improve the health and wellbeing of whole populations.

You complete studies in sociology, epidemiology, statistics and evaluation, before choosing electives in community nutrition, Indigenous studies, family and gender studies, science, general psychology, counselling, or health management. Local, rural and overseas placements are available.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 74.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. Check the course information for more detail. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Health policy and project management, community health, public health education and promotion, project officer, consultant for health organisations.

Double degrees: Refer to entries for: B Communication (Professional Communication)/B Public Health; B Human Services/B Public Health; B Nursing/B Public Health.

Bachelor of Radiation Therapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418192 Gardens Point	4F	87.30	97.10	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Physics (Units 3 & 4, C).

Course outline: As a graduate, you plan and deliver highly accurate radiation treatment, and offer emotional support and care for cancer patients. Professional placement begins in first year and is completed in private and public radiation therapy facilities throughout Queensland and at some interstate sites. Studies cover interaction of radiation and body tissue and treatment planning using clinical software, and treatment delivery.

The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Radiation therapist in public hospitals and cancer care centres.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425302 Kelvin Grove	3F	68.40	70.00	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); at least one of Biology, Chemistry or Physics (Units 3 & 4, C).

Course outline: Graduates can apply complex knowledge to the design, delivery and evaluation of exercise programs, interventions and assessments that meet the specific needs of their client in a non-clinical setting. Students complete 300 hours of professional placement with sporting associations, fitness centres, school coaching programs, strength and conditioning programs, and academies of sport. Students take units in exercise psychology, injury prevention and rehabilitation, resistance training and performance analysis.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 75.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** Students must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Exercise scientist, sports scientist, strength and conditioning training, corporate health, community health, sport science research.

Bachelor of Vision Science/Master of Optometry

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425312 Kelvin Grove	5F	93.00	98.50	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C); Chemistry (Units 3 & 4, C); Physics (Units 3 & 4, C).

Course outline: Optometrists examine eyes and the visual system to protect and improve vision and to detect and diagnose eye disease. Optometrists may prescribe therapeutic medications for a range of eye conditions. The bachelor component provides a theoretical foundation in the life sciences, vision sciences and clinical science. On completion of the Bachelor of Vision Science with a GPA of 4.00 (or better), you enter the Master of Optometry to complete your clinical practice studies in the QUT Optometry Clinic and other healthcare settings. Practical studies include working with Indigenous patients and children with low vision.

The QUT Offer Guarantee and Year 12 Subject Adjustment Scheme do not apply to this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Optometry practice, contact lens practice, paediatric vision, occupational and public health vision, low vision practice in private practice, vision science research.

Undergraduate Certificate (Nursing)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
420551 Kelvin Grove	1/2F or 1P	80.15	80.60	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C). **Additional entry information:** You must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test.

For more information on acceptable English Language tests please see qtac.edu.au/english-language-proficiency.

Course outline: The Undergraduate Certificate (Nursing) provides you with foundational knowledge and skills related to the broad field of healthcare with a focus on nursing. Covering both practical and theoretical realms, in this course you will learn about: law and ethics as related to healthcare; anatomy and physiology of the human body; person-centred care and partnerships in nursing practice; and the key attributes of the registered nurse in contemporary practice.

You will learn in a highly supportive environment and have access to a suite of services designed to help achieve your study goals and advance your career.

The QUT Offer Guarantee and deferment does not apply to this course.

Upon completion of this certificate you will be automatically offered a place in the Bachelor of Nursing, with each subject credited to the degree.

SOUTHERN CROSS UNIVERSITY

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
059661 Gold Coast	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course provides a scientific understanding of the structure and function of the human body and the interrelationships between health and disease. Students develop problem-solving and critical reasoning skills, and learn how to apply those skills to their chosen discipline. Students undertake approximately 420 hours of professional placements to gain workplace experience. Graduates may qualify for entry into a range of graduate health professional programs including postgraduate pharmacy and physiotherapy or choose to pursue medicine or other careers.

Career opportunities: Biomedical, health, university and government researcher, hospital, veterinary and pathology laboratories and scientific sales, quality assurance, health departments, pharmaceutical and cosmetic industries. Graduates can pursue postgraduate studies in the medical field.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Clinical Sciences (Osteopathic Studies)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
055111 Lismore	3F or 6P	☆	☆	Mar 2023	12 Jan 2023
059761 Gold Coast	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course has a strong clinical focus and provides students with a comprehensive grounding in biomedical science and health. Graduates have the knowledge and skills to continue with postgraduate study with four units of credit towards the Master of Osteopathic Medicine, which is necessary for registration as an osteopath. Total full-time duration for both courses is four years, during which students undertake 700 hours of supervised professional placement. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Police and health record checks are required before undertaking placements; refer to Southern Cross University.

Career opportunities: This course plus our Master of Osteopathic Medicine provides a professional, entry-level program for graduates to be eligible to register as osteopathy practitioners.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Exercise Science and Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
055155 Coffs Harbour	4F or 8P	New Course	New Course	Mar 2023	12 Jan 2023
055112 Lismore	4F or 8P	New Course	New Course	Mar 2023	12 Jan 2023
055261 Gold Coast	4F or 8P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This double degree provides understanding of the structure and function of the human body as it relates to movement, the interrelationships between health and disease, and the psychological bases of human behaviour. Graduates might pursue careers with therapeutic connections to sport and exercise such as professional athlete counselling and rehabilitation or choose to pursue postgraduate study to become a psychologist. Students complete a 140-hour exercise science professional placement in the third year of the course. Facilities include fully-equipped exercise physiology, biomechanics and biochemistry labs, multi-purpose sports hall and weight training gymnasium. **Note:** For students commencing in July, course duration is 4.5F or 9P. **Majors:** Human movement; physiology; psychological science.

Career opportunities: Psychologist (with additional postgraduate training) or careers that have therapeutic connections to sport and exercise, such as professional athlete counselling, rehabilitation, or counselling within schools and colleges.

Bachelor of Health Science (Health and Lifestyle)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
059101 Lismore	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: The Bachelor of Health Science (Health and Lifestyle) is a foundation degree for students who wish to pursue a career in health, naturopathic medicine, or lifestyle medicine.

This course allows students to develop an understanding of health science, social science, lifestyle medicine, clinical science, scientific enquiry and naturopathic medicine. Students will also develop a theoretical and practical understanding of health promotion through undertaking a work-integrated health placement or professional engagement with Aboriginal communities.

This degree provides graduates with a solid foundation in evidence-based practice and a deep understanding of naturopathic medicine's philosophical foundations of preventing ill-health, improving patient health outcomes, supporting a patient's innate ability to heal and addressing the underlying causes of illness. **Other requirements:** This course includes a professional placement, with the choice of either a work-integrated health placement or professional engagement with Aboriginal communities.

There are regulatory requirements that students must meet before commencing professional placements. Please check the web page for details.

Career opportunities: This course provides a direct pathway into the Master of Naturopathic Medicine, which enables graduates to practice as a Clinical Naturopath. As a clinical naturopath, graduates will be qualified to work in private practice, as well as a range of integrative and acute healthcare settings, such as aged care, palliative care, an emergency department or an integrative health clinic.

In addition to careers in clinical naturopathic medicine, students will be well-prepared for diverse roles working within health care teams (as an allied health assistant, health/lifestyle coach or care coordinator), community teams (as a health promotion officer, community development officer, or project officer), or independently (as a health/lifestyle consultant, or health communicator/writer).

☆ *See Admissions Criteria on website for more information.*

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
055861 Gold Coast	3F or 6P	☆	☆	Mar 2023	12 Jan 2023
055451 Coffs Harbour	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry; Biology. **Additional entry information:** Applicants must demonstrate qtac.edu.au/english-language-proficiency to the current standards of registration as a midwife by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with minimum 6.5 in each of the four bands - Listening, Speaking, Writing, and Reading. **Closing date:** QTAC applications will close on 9 November 2021.

Course outline: This course develops graduates for entry to professional midwifery practice. It prepares graduates to provide high quality woman-centred care through safe and effective midwifery practice in accordance with the Australian Nursing and Midwifery Council Midwife standards for practice. Graduates are equipped to apply sound evidence-based reasoning skills to their midwifery practice and collaborate effectively in multidisciplinary teams to promote effective outcomes. Students undertake 1000 hours of supervised placements. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Registered midwife or clinical midwifery consultant in public and private hospitals, community maternity and neonatal healthcare settings; group practice midwife, clinical midwifery consultant, midwifery educator, midwifery unit manager, independent midwife (with further training); in Australia and in New Zealand.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
055471 Gold Coast	3F or 6P	☆	☆	Mar 2023	12 Jan 2023
055011 Lismore	3F or 6P	☆	☆	Mar 2023	12 Jan 2023
055151 Coffs Harbour	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English; General Mathematics, Mathematical Methods or Specialist Mathematics. **Additional entry information:** To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: This degree develops anatomical knowledge and understanding of the principles of nursing as well as the legal and ethical framework of nursing practice. Students learn in state-of-the-art facilities with interactive models and simulation laboratories, developing critical thinking, leadership and clinical skills that may be applied in a wide range of clinical settings. Supervised clinical placements provide students with practical experience in settings relevant to their areas of study. **Note:** For students commencing in July, course duration is 3.5F or 7P. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Registered nurse in surgical theatres, paediatrics, community health and education and primary care, practice nurse in GP clinics, mental health, aged care, Indigenous health.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Occupational Therapy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
055961 Gold Coast	4F or 8P	☆	☆	Mar 2023	12 Jan 2023
059151 Coffs Harbour	4F or 8P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Additional entry information:** Applicants must demonstrate qtac.edu.au/english-language-proficiency to the current standards of registration as an occupational therapist by the Australian Health Practitioner Regulation Agency. Refer to ahpra.gov.au. Applicants from a non-English speaking background require a minimum IELTS of 7.0 overall with 7.0 in each of the four bands - Listening, Speaking, Writing, and Reading.

Course outline: Occupational therapy assists people of all ages to participate in the everyday tasks and activities (occupations) that they need and want to do, whether at home, at work, at school or in the community. Occupational therapists transform and adapt environments, activities, equipment and enhance performance to support and promote meaningful engagement and participation. They may work with individuals, groups, government and non-government organisations, in private practice and communities. Students complete approximately 1000 hours of professional placement. **Note:** For students commencing in July, course duration is 4.5F or 9P. **Majors:** Optional major in Indigenous Health. **Other requirements:** Before undertaking clinical placements, students must fulfil certain prerequisites including vaccination against specific diseases (note a full course of vaccination may take several months), a criminal record check and working with children clearance, and completion of a nationally accredited first aid certificate; refer to Southern Cross University for details.

Career opportunities: Occupational therapist working with individuals, groups, government and non-government organisations, in private practice and communities, in aged care, hospitals, community health, mental health services, schools, industrial environments.

TAFE QUEENSLAND

Bachelor of Dental Prosthetics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555145 South Bank	3CL	❄	❄	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Additional entry information:** A high degree of manual dexterity is required for success as a dental prosthetist. For more information about admission criteria refer to tafeqld.edu.au/courses. Successful applicants who do not have the recommended study and are at risk of non-completion of the program may be required to undertake bridging studies as part of first semester.

Course outline: Dental prosthetists work independently to provide complete and partial dentures, dental appliances, and mouth-guards to the public. This course is suitable for both students wanting to take their existing oral health qualification to the next level, and students with no prior dental experience wanting to forge a new career path with a clinical qualification. Students learn to issue, maintain and examine dental prosthetics, insert and try-in dentures, take impressions, and undertake production and technical work. This is a highly technical course, with units providing broad and coherent knowledge in pathophysiology, pharmacology, radiology, and clinical skills. **Note:** FEE-HELP may be available to eligible applicants, refer to tafeqld.edu.au/course for more information. **Other requirements:** Required immunisations prior to clinical practice: hepatitis B, tetanus and whooping cough (pertussis). Recommended immunisations prior to clinical practice: seasonal influenza, varicella-zoster virus (chicken pox) and MMR (measles, mumps, rubella) vaccines. While TAFE Queensland will make every effort to minimise disruption to study, the current COVID-19 pandemic situation and subsequent restriction of access to some health care facilities during this time, may cause delays with clinical practice requirements and completion of this course. Future students are advised that access to clinical practice may require evidence of commencement or full vaccination for COVID-19.

Career opportunities: Registered dental prosthetist, health practitioner.

❄ *Admission was based on additional entry requirements only.*

Diploma of Anaesthetic Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555536 South Bank	2CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Students will learn how to confidently assist the anaesthetist in preparing the client for their anaesthetic, this will include checking and maintaining the anaesthetic machine, preparing anaesthetic medications, monitoring clinical measurements, assisting with airway management techniques and anticipating and responding to any anaesthetic emergency. Industry health professionals will guide students to ensure their transition into the health sector is a success. TAFE Queensland's designated learning space with state-of-the-art anaesthetic machines, vital signs monitors, difficult intubation equipment, and simulator mannequins, will prepare graduates for real-world situations while under the supervision of industry professionals. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/course for more information. **Other requirements:** Existing workers must have the following: a minimum of 3 years perioperative experience; be currently supporting an anaesthetist as an Anaesthetic Technician or Nurse Practitioner; have the opportunity to be exposed to multiple anaesthetic specialities and be supported by a suitably qualified workplace supervisor. Prior to commencing clinical placement, students may be required to satisfy requirements relating to a criminal history check, Suitability Card, vaccinations, and Senior First Aid certificate. While TAFE Queensland will make every effort to minimise disruption to study, the current COVID-19 pandemic situation and subsequent restriction of access to some health care facilities during this time, may cause delays with vocational placement and completion of this course. Future students are advised that access to public and private health facilities or organisations in your State for vocational placement assessment may require evidence of commencement or full vaccination for COVID-19. For the latest health advice please refer to tafeqld.edu.au/health-advice for information.

Career opportunities: Anaesthetic technician.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.
Additional entry information: To practice safely in Australia, health practitioners, including nurses, must have strong English language skills.

This includes being able to communicate effectively with patients and their relatives, collaborate with other health care professionals and keep clear and accurate health records. The English language skills registration standard is one of the five core standards required under National Law. In preparation for registration, and required by the Nursing and Midwifery Board of Australia, all new applicants to study the Diploma of Nursing at TAFE Queensland are to demonstrate qtac.edu.au/english-language-proficiency, as well as literacy and numeracy skills prior to enrolment. Successful applicants will be required to complete the Basic Key Skills Builder (bksb) assessment and attain competence at or above Exit Level 3 in the Australian Core Skills Framework (ACSF) in both reading and numeracy before enrolment can be finalised. This is a requirement in accordance with TAFE Queensland and the Australian Nursing and Midwifery Accreditation Council (ANMAC). The bksb is a Commonwealth approved literacy and numeracy online assessment tool. *Kingaroy (566775), Warwick (570775), Roma (565775) and Toowoomba (568775):* for these campuses, preference is given to applicants who reside in these regions. Successful applicants must undertake a clinical placement; students will be notified of locations after commencement of study.

Course outline: This course is the essential minimum requirement to register as an enrolled nurse. This course will provide students with the advanced skills to perform clinical assessments, contribute to nursing care of people with complex needs, administer and monitor medications and IV therapy, research and apply evidence to practice. TAFE Qld's highly-experienced industry professionals will guide students every step of the way to ensure your transition into the health sector is a success. Successful completion of this course will qualify graduates to seek registration with the Nursing and Midwifery Board of Australia. Upon successful registration graduates may find work as an Enrolled Nurse within a diverse range of healthcare settings. **Note:** Applicants offered a place in this course who are not eligible for a subsidised or concession enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/course for information. Prospective applicants are encouraged to make early contact with the relevant campus regarding on campus attendance and clinical placement requirements. While TAFE Queensland will make every effort to minimise disruption to study, the current COVID-19 pandemic situation and subsequent restriction of access to some health care facilities during this time, may cause delays with vocational placement and completion of this course. Students will need to provide evidence of full COVID-19 vaccination to attend the mandatory vocational placement assessment components of this course. The vaccines received must be approved by the Therapeutic Goods Administration for use in Australia or endorsed by the WHO-COVAX if vaccinated overseas. For the latest health advice please refer to tafeqld.edu.au/health-advice for information. **511772 Sunshine Coast Health Institute classes will be run during the day. 511775 Sunshine Coast Health Institute classes will be run in the evening. Other requirements:** Prior to commencing vocational placement, students may be required to satisfy requirements relating to mandatory mask use and fit testing, criminal history check, Suitability Card, vaccinations, and Senior First Aid certificate.

Career opportunities: Eligible to apply for registration as an enrolled nurse.

☆ *All qualified applicants were offered a place.*

✦ *Regular offers will be made.*

Diploma of Practice Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
520365 Cairns/ Mount Isa	$1^{1/2}$OL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age; Employment requirements. **Additional entry information:** Applicants must be actively employed in the medical practice sector to be eligible for an offer in this course.

Course outline: This course equips students with the frontline management and leadership skills to operate professional practices in the health industry. It reflects the role of business or practice managers who manage the operation of small to medium-sized health practices. A formal qualification in practice management equips students to manage budgets and financial plans, health billing and accounting systems, and legal and ethical compliance. In addition, students learn about the health industry, along with front line management and leadership skills. **Note:** In addition to the standard diploma eligibility requirements for a Fee subsidy, students may need to be an existing worker in the health industry. Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au for information.

Career opportunities: Health and welfare services manager, medical administrator, practice manager, medical practice manager.

☆ *All qualified applicants were offered a place.*

Diploma of Remedial Massage

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
504969 Springfield	1CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023
568969 Toowoomba	1CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Take the next step in your career in massage with this advanced-level course that will qualify you to work as a remedial massage therapist or to specialise in other complementary therapies such as reflexology. Students will gain the advanced skills to adapt remedial massage treatments to meet the unique needs of clients, implement injury prevention strategies, conduct reflexology for relaxation, and educate clients on strength and conditioning techniques. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au for information.

Career opportunities: Reflexologist, remedial massage therapist, shiatsu therapist, TCM remedial massage therapist.

☆ *All qualified applicants were offered a place.*

Diploma of Sport

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555839 South Bank (Coaching)	1CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023
526839 Robina	1CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This course provides students with the skills to become a high-performance coach or sports manager. In this course students cover coaching fundamentals including how to plan and deliver coaching programs for high-performing athletes. Students will also be introduced to the area of sports development and discover how to design, deliver and manage a range of community sport and recreation activities for the general public. Learners also develop essential industry skills including managing risk, leading and managing people, and maintaining workplace health and safety. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au for information. **Specialisations:** Contact TAFE Queensland on 1300 308 233 for available specialisations.

Career opportunities: Sport development manager, high performance coach, talent manager.

☆ *All qualified applicants were offered a place.*

Certificate IV in Fitness (incorporating Certificate III in Fitness)

Course outline: Students will learn how to instruct personal training programs, group personal training, and exercise for older clients. Students will also get the hands-on skills and knowledge needed to operate a small personal training business. **Note:** The South Bank Certificate IV incorporates the Certificate III in Fitness which has a fee subsidy for eligible applicants.

Career opportunities: Personal trainer, aqua exercise instructor, group exercise instructor, gymnasium instructor.

☆ *All qualified applicants were offered a place.*

THE UNIVERSITY OF QUEENSLAND

The University Of Queensland AUSTRALIA

Bachelor of Clinical Exercise Physiology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
729801 St Lucia	4F or 8P	90.65	93.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: The Bachelor of Clinical Exercise Physiology (Honours) prepares you for an exciting career as an accredited exercise physiologist and accredited exercise scientist. Accredited exercise physiologists are recognised allied health professionals who design and deliver exercise interventions for the prevention and management of a range of musculoskeletal, cardiovascular, metabolic, neurological, cancer and mental health conditions. The degree is the only four-year undergraduate clinical exercise physiology program in Australia where you graduate with an honours qualification. **Note:** You can undertake the first two years of the degree on a part-time basis, however the final two years must be full-time. **Other requirements:** At the end of year one, the following requirements must be met: first aid certificate (including CPR); Blue Card; safety modules; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: You may work in a variety of settings, including private practices, home health services, hospitals or clinical services, research centres, and community health and fitness centres. Other careers include biomechanist, cardiac scientist, respiratory technician, strength and conditioning specialist, rehabilitation professional, health promotion officer, corporate health and fitness adviser, health educator, fitness consultant, community recreation officer and exercise science researcher.

Bachelor of Dental Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
712002 Herston or St Lucia	5F	97.10	99.10	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Chemistry (Units 3 and 4, C). **Additional entry information:** Applicants must achieve a minimum (adjusted) ATAR of 99.0 (or equivalent) and must take the University Clinical Aptitude Test (UCAT). Information on the UCAT, including registration procedures, is available online at ucat.edu.au. Entry to this course is highly competitive. UCAT scores are used for selection.

Course outline: The Bachelor of Dental Science (Honours) educates the next generation of dental professionals in the most advanced oral health facility in Australia. With small cohorts and dedicated, specialist teachers, you will master the science and technical skills required to care for patients, and prevent, diagnose and treat oral diseases and abnormalities. You will be workforce-ready when you graduate, with extensive clinical experience and in-depth knowledge of general practice in dentistry, orthodontics, paediatric dentistry, periodontics, prosthodontics, oral medicine, oral and maxillofacial surgery and public health. Note: Students attend the Herston and St Lucia campuses throughout the program and attend major external clinical placements in year 5. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations. Details of these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Once registered with the Dental Board of Australia, you can establish your own private practice, work within an established practice, or join a partnership. Within the public sector, there are opportunities to work within hospitals, community health services, or school-based dental clinics across Australia. The Australian Defence Force also accepts dental officers on a short-service or permanent basis. Postgraduate study offers opportunities to develop specific interests and qualify as a specialist in a recognised field such as orthodontics, prosthodontics, oral medicine, dento-maxillofacial radiology, endodontics, periodontics, and special-needs dentistry.

Bachelor of Exercise and Sport Sciences (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
729302 St Lucia	4F or 8P	85.50	88.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: This program allows you to make an essential contribution to wellbeing, rehabilitation and performance. This program focuses on understanding how to enhance human performance, how the body responds to exercise and physical activity, and how to conduct research that could help build healthier communities and stronger athletes. **Other requirements:** At the end of year 1, requirements such as first aid certificate (including CPR); Blue Card; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations must be met. Details about these requirements are made available at the time of offer. This program may be completed part-time, however, semesters that include a placement must be studied full-time. For more information, visit habs.uq.edu.au.

Career opportunities: Prescribing and delivering exercise and physical activity programs in the fitness industry; developing strength and conditioning programs to assist elite athletes and sporting teams; delivering workplace health promotion and executive health management programs; conducting diagnostic measurements (cardiac, sleep, respiratory or neurophysiology) in hospitals or other clinical services.

Bachelor of Health, Sport and Physical Education (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
729402 St Lucia	4F or 6P or 1F	71.20	76.20	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Course outline: This program prepares you to be a specialist health, sports or physical education teacher in secondary schools, with junior science as your secondary teaching area, or in related areas such as sports education, outdoor recreation or health promotion. You'll help young people explore a range of sport and physical activities, develop self-esteem, and acquire social skills. As part of the program, you complete placements where you'll work with young people in primary and secondary schools. **Note:** The degree can be undertaken part-time; however, semesters that include a placement must be undertaken full-time. **Other requirements:** Before commencing practical courses, the following requirements must be met: first aid certificate (including CPR) and Blue Card. For more information, visit habs.uq.edu.au.

Career opportunities: Graduates can pursue a broad range of careers, not only as a specialist teacher of physical education, health education and junior science, but also as a health promotion officer, sports coach, corporate health officer, and roles in sports academies, charities and institutes.

PATHWAYS TO MEDICINE

Doctor of Medicine (MD) (Provisional Entry for School-Leavers)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
721302 St Lucia or Clinical Schools	7F	95.45	96.20	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be a Current Year 12 student; Interview. **Additional entry information:** Applicants must sit the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) in the year of application and undertake a Multiple Mini Interview (MMI). An adjusted ATAR 95 or equivalent is required. The Doctor of Medicine (MD) is a postgraduate medical training program. Provisional entry sets aside a future place in the program and is available to domestic and international students completing Year 12 (at their first attempt) in the year of application. To progress to the MD program, applicants must complete their first bachelor level degree in the minimum timeframe at UQ, achieve a minimum GPA of 5.0 and complete two subject prerequisites. Entry to this course is highly competitive, and not all applicants with an adjusted ATAR/selection rank 95 will be offered a place. Offers will be based on the following criteria: number of places available and the applicant's final ranking, based on the combined score of ATAR, MMI total score and aggregate UCAT ANZ score. Details of the UCAT ANZ, including registration procedures, are available at ucat.edu.au. **Rural Background Student Sub Quota:** To help address shortages of medical professionals in rural areas, 28% of the places available are designated to students from a rural background. Visit future-students.uq.edu.au/rural-background-sub-quota for more information regarding the Rural Background Student Sub Quota. **Closing date:** QTAC applications and changes of preferences close 30 September 2022.

Course outline: The Doctor of Medicine (MD) program aims is to nurture and educate future medical graduates who are clinically excellent, team players, kind and compassionate, serve responsibly and are dedicated to the continual improvement of the health of people and communities. There are two entry pathways: Provisional Entry (for school leavers) or Direct Entry (for university graduates). Students gain a world-class, hands-on education that enables them to become an exceptional doctor capable of working in any global setting. **Note:** After completion of the first degree, students are located primarily at St Lucia in year 1 and at hospitals in years 2 to 4. **Other requirements:** Students who receive a provisional entry offer may choose any bachelor level program at UQ (minimum three year degree). Enrolment in the first degree is subject to meeting all additional entry requirements for that degree, such as subject prerequisites or auditions. Provisional entry students should note the recommended entry pathways.

All students must complete their first bachelor program at UQ within the minimum time specified for that program, achieve a minimum GPA of 5.0 and complete two subject prerequisites before progressing to the medical program. On admission to the medical program, further requirements must be met.

Career opportunities: Graduates are ready to embark on a host of different and complementary career pathways. They may become experts in patient care, public health, clinical academia and teaching, research or work for aid organisations, the defence forces or set up their own private practice.

Doctor of Medicine (MD) Provisional Entry for School-Leavers (Bonded Medical Program)

There are two entry pathways: Provisional Entry (for school leavers) or Direct Entry (for university graduates). Students gain a world-class, hands-on education that enables them to become an exceptional doctor capable of working in any global setting. Note: After completion of the first degree, students are located primarily at St Lucia in year 1 and at hospitals in years 2 to 4. Other requirements: Students accepting an MD offer under the Bonded Medical Program (BMP) scheme must commit to working in an area of workplace shortage for a specified period after they have completed their professional training. A Deed of Agreement (the BMP contract) is signed at the end of the first degree. Students who receive a provisional entry offer may choose any bachelor level program at UQ (minimum three year degree). Enrolment in the first degree is subject to meeting all additional entry requirements for that degree, such as subject prerequisites or auditions. Provisional entry students should note the recommended entry pathways. All students must complete their first bachelor program at UQ within the minimum time specified for that program and achieve a minimum GPA of 5.0 before progressing to the medical program. On admission to the medical program further requirements must be met. For further details visit medical-school.uq.edu.au/current-students/doctor-medicine-students/compulsory-program-requirements.

Career opportunities: Graduates are ready to embark on a host of different and complementary career pathways. They may become experts in patient care, public health, clinical academia and teaching, research or work for aid organisations, the defence forces or set up their own private practice.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
724002 St Lucia	4F	90.75	95.40	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Occupational therapists help people of all ages overcome barriers that affect their ability to engage in the everyday activities that are meaningful and important to them. They use a range of treatment strategies designed to enhance the person's ability, such as modifying the task or environment, developing their skills, and/or education. Through this program, you will gain a thorough understanding of the theory and practice of occupational therapy, including foundation knowledge from the anatomical, physiological, social behavioural, and psychological sciences. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Graduates work as occupational therapists in public and private hospitals; country or community health centres; rehabilitation units (medical, vocational, psychiatric); regular and special schools; special centres providing development and training for persons with a social, intellectual or physical disability; independent living centres; workplace health and safety units; nursing homes; psychiatric clinics and hostels; residential and rehabilitation centres for people with an intellectual disability; centres of tertiary education; research institutions; or private practice.

Bachelor of Pharmacy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
725002 St Lucia	4F or 8P	80.20	84.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Chemistry (Units 3 and 4, C).

Course outline: The Bachelor of Pharmacy (Honours) prepares you to be a patient-centred medicines expert, adaptable and ready to face new healthcare challenges in the changing pharmacy profession. As a pharmacist, you can work in a community pharmacy, hospital pharmacy, industry, research or a range of other settings. At UQ, you'll develop knowledge and skills in pharmacy practice and medicines management; consultation and dispensing skills; pharmaceutical sciences; and social pharmacy and the health system. Through UQ's integrated approach and extensive practical experience, with an 8-week final year placement, you'll gain a strong understanding of how theory is applied to real cases across a wide range of settings. In dedicated laboratories and mock pharmacies at the Australian Pharmacy Centre of Excellence, UQ students learn about the properties of medicines, how medicines affect the body and develop the soft skills necessary to succeed in the pharmacy profession. **Note:** Students attend the St Lucia campus and the Pharmacy Australia Centre of Excellence, Woolloongabba.

Students commencing the program in Semester 2 will be required to study for a minimum period of 4.5 years. **Majors:** Clinical and experimental therapeutics. **Other requirements:** On admission, the following requirements must be met: Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Graduates enjoy one of the highest graduate employment rates of any occupation in Australia. UQ's pharmacy program leads to careers in community and hospital pharmacies as well as industrial pharmacy. UQ graduates have also gone on to senior positions within both the pharmacy and healthcare industries, as well as government. They have also used pharmacy as a platform for further study in medicine, a career in academia, or a career in research and development.

Bachelor of Physiotherapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
726002 St Lucia	4F	95.40	99.35	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Physiotherapists help to get people moving, from office workers with stiff necks, to elite athletes, children with disability and elderly people with degenerative conditions. As a Physiotherapy (Honours) student, you'll become a skilled healthcare professional who helps people improve their mobility, function and reduce pain. From your first year, you will build a strong foundation of applied study in medical science, physiotherapy science, anatomy, professional ethics, psychology and therapeutic exercise, to prepare you to care for people with musculoskeletal, neurological, respiratory and other conditions. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Graduates work as physiotherapists in hospitals, community health centres and agencies, rehabilitation units, preschool and school programs and private practice offering treatments to a full range of patients. They may specialise in areas such as sports physiotherapy, musculoskeletal physiotherapy, paediatrics, neurology, cardiorespiratory, orthopaedics or other fields of particular interest, or work in research or consultancy roles in educational, industrial or government institutions.

Bachelor of Speech Pathology (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
727002 St Lucia	4F	92.60	95.10	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: The Bachelor of Speech Pathology (Honours) prepares you to help people of all ages with speech, language, fluency and voice disorders, people who have feeding or swallowing difficulties, and people who want to modify their accents or voices. You will learn about anatomy, linguistics, physiology, psychology, swallowing and communication disorders in the areas of voice, fluency, hearing, speech, and language function. **Other requirements:** On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; current status information with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Graduates work as speech pathologists in general, paediatric and geriatric hospitals; community health centres; rehabilitation units; aged care facilities; mental health services; preschools, schools, kindergartens and childcare settings; centres for people with specific disabilities such as cerebral palsy, intellectual impairment, autism or hearing impairment; centres of tertiary learning; research institutions; and private practice.

Bachelor of Exercise and Nutrition Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
720102 St Lucia	3F or 6P	74.40	76.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: As part of the Bachelor of Exercise and Nutrition Sciences program, you will learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether you're interested in exercise and nutrition, or a broader career in health, this program will help you make a positive change in the wellbeing of others.

Career opportunities: Graduates frequently combine a Bachelor of Exercise and Nutrition Sciences with a postgraduate qualification to specialise in non-clinical or clinical areas such as dietetics, medical practice and physiotherapy. Other students use their skills to work in graduate entry roles such as nutrition assistant, fitness or weight loss consultant, or research assistant **Dual degrees:** Refer to entry for: B Exercise and Nutrition Sciences/M Dietetics Studies (students must successfully complete the bachelor program before progressing to the masters).

Bachelor of Exercise and Nutrition Sciences/Master of Dietetics Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
729602 St Lucia	3F or $1^{1/2}$F	91.65	96.25	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: As part of the Bachelor of Exercise and Nutrition Sciences, you learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether you're interested in exercise and nutrition, or a broader career in health, this program helps you make a

positive change in the wellbeing of others. **Note:** The undergraduate degree is delivered at St Lucia and must be completed in three years full-time. The master's degree is delivered with a combination of lectures at St Lucia and placements at healthcare facilities and must be completed on a full-time basis. **Other requirements:** Students must complete the Bachelor of Exercise and Nutrition Sciences at UQ within the minimum time specified with a minimum annual GPA of 5.0 before progressing to the one and a half year Master of Dietetics Studies program. On admission to the masters program, requirements such as Blue Card, current status with respect to blood-borne transmissible viruses and tuberculosis (TB) and a schedule of immunisations must be met. For more information, visit habs.uq.edu.au.

Career opportunities: Refer to Bachelor of Exercise and Nutrition Sciences. In addition, graduates of the Master of Dietetic Studies may pursue careers in public, private and not-for-profit sectors as clinical dietitians, community nutritionists, public health nutritionists, sports dietitians and food industry dietitians.

Bachelor of Health Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
729002 St Lucia	3F or 6P	75.50	80.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In this flexible three-year program, you gain a broad understanding of human health, studying fields including biomedicine, health behaviours, public health and evidence-based practice. You specialise in clinical health, nutrition or public health, and get hands-on experience during your final semester of study with a minimum of 90 hours of supervised work experience. **Majors:** Clinical health; nutrition; public health.

Career opportunities: Graduates pursue rewarding careers as health promotion or public health officers, or in health administration. Others pursue clinical careers through further study. **Dual degrees:** Refer to entry for: B Health Sciences (Nutrition)/M Dietetics Studies.

Bachelor of Health Sciences (Nutrition)/Master of Dietetics Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round

Course outline: In this three-year program, you will gain a broad understanding of healthcare, studying biomedicine, ethics, evidence-based practice, health behaviours and nutrition. You will specialise in clinical health, nutrition, or public health, and get hands-on experience during your final semester of study with a minimum of 90 hours of supervised work experience. **Note:** The masters program is delivered through a clinical schools model with a combination of lectures on campus and at a healthcare facility and must be completed on a full-time basis. **Majors:** Clinical health; nutrition; public health **Other requirements:** Students must complete the Bachelor of Health Sciences (Nutrition) at UQ within the minimum time specified with a minimum annual GPA of 5.0, before progressing to the Master of Dietetics Studies program.

Career opportunities: Graduates pursue rewarding careers as nutritionists, health promotion or public health officers, or in health administration. Others pursue clinical careers through further study.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
728402 St Lucia	3F	90.85	95.65	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: This program prepares you for a career in safely guiding expectant parents through pregnancy, birth and the weeks that follow. You undertake extensive supervised practical experience throughout the program, and during your final year you extend your clinical knowledge to ensure you meet the Nursing and Midwifery Board of Australia National Competency Standards. This program is delivered through a clinical schools' model; after four weeks' intensive training, you attend small group-based teaching sessions at a clinical school, and lectures at UQ St Lucia. **Note:** Within your home hospital group, you undertake extensive practical placements at Mater or a variety of other hospitals throughout South-East Queensland. For more information, visit nmsw.uq.edu.au/clinical-placements. Generally, students remain in the same home hospital group for the duration of their studies. Students in Mater home hospital groups attend lectures at St Lucia and small group teaching and clinical simulation at Mater South Brisbane. Students in other home hospital groups attend lectures and small group teaching at St Lucia and clinical skills simulation at a partner hospital site. **Other requirements:** On application, applicants will be required to demonstrate their qtac.edu.au/english-language-proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Midwife in public or private health, maternity and neonatal care, teaching, research, rural and remote health, and aid organisations. **Dual degrees:** Refer to entry for: B Nursing/B Midwifery.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
728502 St Lucia	3F	80.80	84.80	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C). **Additional entry information:** To enrol in this program, you must have attended and satisfactorily completed at least 6 years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries; Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, United States of America. If you have not met these educational requirements, you are required to provide evidence of an acceptable English Language test. For more information see qtac.edu.au/english-language-proficiency.

Course outline: The Bachelor of Nursing integrates lecture-based study with clinical placements in major teaching hospitals. You undertake extensive supervised practical experience throughout the program, and during your final year, you can undertake a placement in a specialist area including acute care, aged care, mental health, Indigenous health, rural health, public health or community health. **Note:** Within your home hospital group, you undertake extensive practical placements at a variety of hospitals throughout South-East Queensland. For more information, visit nmsw.uq.edu.au/clinical-placements. Generally, students remain in the same home hospital group for the duration of their studies. Students attend lectures and workshops at St Lucia and group-based clinical teaching sessions in clinical simulation centres. **Other requirements:** On application, applicants will be required to demonstrate their qtac.edu.au/english-language-proficiency. On admission, the following requirements must be met: first aid certificate (including CPR); Blue Card; medical questionnaire; police check for criminal history; current status with respect to blood-borne transmissible viruses and tuberculosis (TB); and a schedule of immunisations. Details about these requirements are made available at the time of offer. For more information, visit habs.uq.edu.au.

Career opportunities: Registered nurse in various public, private or community healthcare settings; critical care and emergency; mental health; aged care; research; and academic and clinical teaching. **Dual degrees:** Refer to entry for: B Nursing/B Midwifery.

Bachelor of Nursing/Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round

TORRENS UNIVERSITY AUSTRALIA

Bachelor of Health Science (Aesthetics)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
031103 Fortitude Valley	3F or 4–6P	New Course ☆	New Course ☆	Sep 2022 Feb 2023 Jun 2023 Sep 2023	25 Aug 2022 12 Jan 2023 27 Apr 2023 +

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: The Bachelor of Health Science (Aesthetics) course equips you with a diverse range of clinical capabilities, focusing on preventative skin health and anti-ageing dermal therapies. Supported by a theoretical foundation in health science, it covers advanced skin health protocols and appropriate responses to a range of client/patient conditions using high levels of aesthetic technology.

The course develops your capability of incorporating aesthetic technologies and innovations into professional practice. You'll learn in a collaborative environment which has been designed to maximise learning and encourage engagement. The practical elements of this course will take place on the Brisbane campus, offering a range of client treatments from our dynamic student clinic so you can confidently begin work in the beauty therapy industry.

Industry partners and work placements:

Work placements and Work-Integrated Learning programs provide a valuable resource for you to develop hands-on practical experience to ensure you graduate confident and job-ready. At Torrens University Australia, we are proud of our network of partners and always welcome new opportunities to build new industry relationships.

Work-Integrated Learning hours: 65 hours clinical placement and 50 hours Work-Integrated Learning

Career opportunities: This course will allow you to set yourself up to confidently work in the beauty industry. Upon graduation you can find work in beauty salons, day spas and other facilities which promote health and wellness.

Career paths:

- Dermal Clinician
- Clinic Practice Manager
- Industry Blogger/Influencer

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
033101 Gotha Street	3F	New Course	New Course	Feb 2023	12 Jan 2023

Prerequisites: Applicant must have completed Year 12 or equivalent.
Additional entry information: Year 12 certificate with ATAR 60 or above OR equivalent OR A completed (current) Diploma of Nursing and registration with the Australian Health Practitioner Regulation Agency (AHPRA).

All students must provide evidence of meeting at least one of the Nursing and Midwifery Board of Australia (NMBA) English language standards listed below prior to enrolment: nursingmidwiferyboard.gov.au.

**Quotas may apply to some courses. The university, legislative and government requirements determine the number of places available in a particular course. Where demand exceeds the number of available places, applicants who meet the minimum admission criteria will be admitted on a first-come, first-served basis.

Course outline: The Bachelor of Nursing will prepare you to enter a career as a Registered Nurse in the Australian healthcare environment. You will learn vital skills in assessment and clinical decision-making, person-centred care, professional communication, enquiry and research, awareness of diversity and self-care practices. The course provides you with an opportunity to deliver care in multiple healthcare, industry and community settings.

Delivered through contemporary and evidence-based methods, the course delivers vital skills in assessment and clinical decision-making, as well as how to put patients first. Through the excellence of our on-campus simulation hospital environment and 840 hours of clinical placements, you will develop the necessary skills and knowledge to register and confidently begin working across a variety of different healthcare and community settings.

Industry partners and work placements: You will complete clinical placements with industries such as private and public hospitals, GP clinics and aged care. Placements are coordinated at a national level where the experience is varied and enhanced to ensure maximum exposure to the clinical field and learning outcomes.

Work placement hours: 840 hours **Note:** Please also inquire about the pathway Diploma of Nursing offered through our partner College THINK Education. Email us at futurestudents@torrens.edu.au **Other requirements:**

All applicants must:

- Be 18 years of age prior to clinical placement;
- Declare their physical and mental fitness to safely perform the duties associated with direct care work;
- Be able to demonstrate satisfactory:
- Police check
- Working with Children check
- Immunisations
- Meeting Inherent Requirements

Career opportunities: On completion of the Bachelor of Nursing, you are eligible to apply for registration with the Australian Health Practitioners Agency (AHPRA) as a Registered Nurse (RN). In order to receive registration, you must satisfy the English Language Requirements and Criminal Record Check.

Career paths:

- Registered Nurse – Acute Nursing
- Registered Nurse – Aged Care
- Registered Nurses – Community/Primary Healthcare Nursing

Bachelor of Nutrition

UNIVERSITY OF NEW ENGLAND

Bachelor of Clinical Exercise Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
666551 Armidale	4F or 8P	74.95	74.95	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** Mathematical Methods; Health, Physical Education and/or science subjects.

Course outline: The course includes core studies in human structure, function and behaviour and further study on the acute and chronic physiological and psychological responses to exercise in healthy individuals and those with chronic and complex health conditions. In the first three years of study, students develop analytical, technical and professional skills in movement analysis, health and fitness assessment and exercise training for health and performance. The final year of study provides advanced training in chronic disease management, functional conditioning and clinical practice. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Other requirements:** Students complete 500 hours of workplace experience to practice exercise-based management of neurological, musculoskeletal, cardiopulmonary, metabolic and other health conditions.

Career opportunities: Exercise physiologist in a range of settings (hospital, private clinic, workplace health). Exercise physiologists are recognised allied health professionals with Medicare, the Department of Veteran Affairs and some private health insurers. Additional career opportunities are available in the clinical sciences (cardiac/respiratory/sleep technician), sports (strength and conditioning, sports science) and the health and wellbeing industry (personal trainer, health and wellbeing consultant/educator).

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
666541 Armidale	3F or 6P	67.65	67.65	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** General Mathematics or Mathematical Methods; Health, Physical Education and/or a science subject.

Course outline: This multidisciplinary program develops a comprehensive understanding of the scientific and applied aspects of sport, exercise and health. It includes core studies in human structure, function and behaviour and further study on the acute and chronic physiological and psychological responses to exercise. Students develop analytical, technical and professional skills in movement analysis, health and fitness assessment and exercise training for health and performance. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Other requirements:** Students complete 140 hours of workplace experience in the community.

Career opportunities: Health and physical activity promotion, sports science, health and fitness (personal trainer, strength and conditioning coach, health consultant/educator), clinical measurements (cardiac/respiratory/sleep technician) and postgraduate research/coursework in related disciplines.

Bachelor of Nursing

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
666652 Armidale	3F or 6P	75.05	75.05	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** Any two units of English; any two units of science. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au for information on how to meet these requirements. **Closing date:** QTAC applications close 9 December 2021. Contact the UNE Future Students Team on 1800 818 865 for more information.

Course outline: The Bachelor of Nursing is a professional entry degree course that leads to eligibility for Registered Nurse status in Australia. The Bachelor of Nursing is delivered flexibly over six trimesters through blended learning modes, and you can study online or on-campus. There is a combination of weekly face-to-face teaching, mandatory intensive schools, online learning and clinical practice blocks offered. **Note:** The last offer round for this course will be on 23 December 2021. Contact the UNE Future Students Team on 1800 818 865 for more information. **Other requirements:** Students must meet the Inherent Requirements to complete this course. Professional experience placement is an essential part of the Bachelor of Nursing. There are several mandatory requirements must be completed as part of the clinical placement process. The mandatory NSW Health Verification Requirements and UNE requirements for professional experience placement must be completed by week 8 of the first trimester of study, including a record of vaccinations and/or serological confirmation of protection, and current National Criminal Record (Australian or Overseas if international student) and Working with Children checks. Students must pass Objective Structured Clinical Examination (OSCE) or any other relevant hurdle assessment, before attending placement, and must also have a nursing uniform and personal protective equipment.

Candidates must complete 800 hours of professional experience placement (Rules (a), (c), (d) and (e)); 640 hours (Rule (b) EN); which is undertaken in each trimester in health facilities in NSW.

Career opportunities: Registered nurse in a range of health care areas.

Bachelor of Pharmacy with Honours

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
666561 Armidale	4F or 10P	77.35	80.25	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** Chemistry; Mathematics. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au for information on how to meet these requirements.

Course outline: Students develop a strong foundation in essential core skills in relevant sciences, which is then integrated with contemporary knowledge and application to pharmaceutics, pharmacotherapeutics and pharmacy practice. This course aims to produce graduates with the knowledge, skills and attributes necessary to commence supervised practice in a preregistration training program and to achieve the recognised competency standards for practice of pharmacy in Australia and New Zealand. Graduates will also have an understanding of the place of research in furthering the theory and practice of pharmacy. This course has been granted accreditation by the Australian Pharmacy Council and is approved by the Pharmacy Board of Australia as a qualification leading to registration as a pharmacist in Australia. **Other requirements:** Students must meet the Inherent Requirements to complete this course. Additionally, the mandatory NSW Health Verification Requirements must be completed in the first eighteen months of commencing in the program.

Career opportunities: Community pharmacy, hospital pharmacy, drug production, marketing or drug development in the pharmaceutical industry, Health care policy adviser.

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Biomedical Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906901 Toowoomba	3F or 6P	60.85	65.85	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906905 External	3F or 6P	67.00	67.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Discover the wonder of the human body with our Bachelor of Biomedical Sciences, one of only a few degrees in Australia that can be predominantly completed online, on-campus or in a combination of both modes to suit your needs. Our courses focus on human anatomy and physiology, microbiology, pharmacology, genetics, cell and molecular biology, nutrition and biochemistry. You study biomedical science laboratory techniques and investigate authentic medical problems, and produce scientific reports for biomedical experiments and mini research projects. The program also prepares students to undertake the Graduate Medical Schools Admissions Test (GAMSAT). **Note:** 15 days professional placement is required. Semester 2 entry is only available part-time. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a USQ Student Clinical Placement Policy Declaration.

Career opportunities: The Bachelor of Biomedical Sciences prepares students for a career in medical research institutes and universities, public and private research and development laboratories, and biotechnology, pharmaceutical and diagnostic companies. Graduates may also pursue further study in professional programs in the allied health sciences, medicine or higher degree research.

Bachelor of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906131 Toowoomba	3F or 6P	68.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906135 External	3F or 6P	62.90	66.90	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Learn how to determine blood groups, identify malarial parasites and diagnose leukaemia and other human diseases through USQ's Bachelor of Medical Laboratory Science. Graduates are workplace-ready with skills in transfusion science, microbiology, haematology, histopathology and cytology, molecular diagnostics, and clinical biochemistry for a career as a medical laboratory scientist. Medical laboratory scientists perform analyses on blood and other body fluids and tissues to provide information that is vital in the prevention, diagnosis and treatment of human disease. This degree can be studied online or on-campus, and includes 80 days of hands-on clinical experience in a range of different pathology laboratories. **Note:** External students must attend residential schools at the Toowoomba campus. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a USQ Student Clinical Placement Policy Declaration. All students must complete 80 days of clinical experience in Australia.

Career opportunities: Graduates pursue careers in the public and private pathology laboratory industry or research, technical, advisory and commercial roles in the biomedical field.

Bachelor of Midwifery (Graduate Entry) (External)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906295 External	2F or 4P	93.00	93.00	Feb 2023	22 Dec 2022

Prerequisites: Previous registered nurse qualification; Prior study. **Additional entry information:** Applicants must nominate on their QTAC application three clinical placement location preferences from the following list in order of preference: Queensland: Brisbane, Cairns, Charleville, Dalby, Goondiwindi, Ipswich, Kingaroy, Redcliffe, Roma, Stanthorpe, Toowoomba, Warwick.

Tasmania: Burnie, Hobart, Launceston.

Bachelor's degree in nursing or equivalent qualification with current Australian Health Practitioner Regulation Agency (AHPRA) nursing registration. You must be able to declare English as your primary language. If you are unable to meet this requirement, you are required to submit a formal English Language test result that meets the NMBA's minimal requirements prior to program entry. For more information visit qtac.edu.au/english-language-proficiency. **Closing date:** Applications close on 9 December 2021.

Course outline: This course prepares midwives to meet current and future requirements of contemporary midwifery practice. The program is designed according to the Nursing and Midwifery Board of Australian National Competency Standards for the Midwife (2006). Graduates possess a range of skills to work autonomously and, where appropriate, with other members of the inter-professional team in a variety of maternity settings or models of care. Graduates are eligible for registration with the AHPRA. **Note:** Residential schools are conducted in year 1 (semester 1 and 2) and year 2 (semester 1) at USQ Ipswich, Queensland and in Hobart, Tasmania. Tasmanian residential schools and professional placement is only available to Tasmanian Students. Attendance at each residential school is compulsory. Residential schools are conducted in the first week of semester and cover the practice experience that students are enrolled in during that semester **Other requirements:** Blue Card; Australian Federal Police Certificate; hepatitis B immunisation; measles, mumps, rubella and pertussis (whooping cough) immunisation; CPR certificate; Queensland Health student orientation requirements and occupational health and safety certificates; clinical placement student declaration. Note: Students may not be allocated a placement if any of the above documents are not current.

Career opportunities: Midwife.

Bachelor of Nursing

916391 Charleville	3F or 6P	☆	☆	Feb 2023	12 Jan 2023
906395 External	3F or 6P	66.00	66.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); No prior study. **Additional entry information:** To enrol in this program, you must be able to declare English as your primary language. If you are unable to meet this requirement, you will need to submit a formal English Language test result that meets the NMBA's minimal requirements prior to program entry. For more information see qtac.edu.au/english-language-proficiency.

Course outline: This program is aligned with current Australian professional nursing and aged care standards of practice and prepares students for practice as Registered Nurses for a variety of settings. For example, hospitals, community settings, mental health settings, GP practices, clinics, rural and remote health services, and aged care facilities across Australia and the world. The program provides students with a combination of theory and clinical simulation in well-resourced labs and nursing wards, as well as significant amounts of professional experience (840 hours) in diverse health care settings within metropolitan, regional and rural environments. This type of preparation ensures students graduate as skilled, knowledgeable and highly employable nurses. **Note:** External students must attend residential schools of one to two weeks' duration during most semesters of their program and a total of 840 hours of clinical placements at designated clinical facilities in Queensland. **Other requirements:** Prior to clinical practice, students must obtain and maintain a current CPR certificate, obtain a Blue Card and Australian Federal Police Criminal History Check Certificate, establish immunisation against hepatitis B, measles, mumps, rubella, pertussis (whooping cough) and varicella, take a tuberculosis test and be immunised against influenza and COVID-19, complete a Queensland Health Student Orientation Checklist, and sign a Queensland Health professional students checklist and deed polls, and a USQ Clinical Placement Declaration. All students must be able to meet the physical and other professional requirements of clinical practice within this program.

Career opportunities: Registered nurse, clinical nurse or nurse unit manager in public and private hospitals, community health, mental health, aged care, home health care, Indigenous health, occupational health, rural practice and overseas nursing.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Nursing (Enrolled Nurse Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted

This type of preparation ensures students graduate as skilled, knowledgeable and highly employable nurses. **Note:** External students must attend residential schools of one to two weeks' duration during most semesters of their program and a total of 760 hours of clinical placements at designated clinical facilities in Queensland. **Other requirements:** Prior to clinical practice, students must obtain and maintain a current CPR certificate, obtain a Blue Card and Australian Federal Police Criminal History Check Certificate, establish immunisation against hepatitis B, measles, mumps, rubella, pertussis (whooping cough) and varicella, take a tuberculosis test and be immunised against influenza (highly recommended), complete a Queensland Health Student Orientation Checklist, and sign a Queensland Health professional students checklist and deed polls, and a USQ Clinical Placement Declaration. All students must be able to meet the physical and other professional requirements of clinical practice within this program.

Career opportunities: Registered nurse, clinical nurse or nurse unit manager in public and private hospitals, community health, mental health, aged care, home health care, Indigenous health, occupational health, rural practice and overseas nursing.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
936151 Ipswich	3F or 6P	75.00	75.00	Feb 2023	12 Jan 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C).

Course outline: This program provides students with the skills and clinical knowledge needed to be a paramedic. Students are trained in the areas of patient assessment, decision-making and practical skill acquisition that is required for working in the challenging setting of paramedic practice. Students complete clinical placements with Queensland Ambulance Service and in other healthcare settings to gain hands-on experience. These experiences are enhanced by on campus training labs that include simulated ambulances to improve their practical skills and clinical decision-making. This program has been designed by leading medical and paramedic staff who understand paramedic practice. **Note:** Practical experience is an integral component of the program and each student is required to undertake and satisfactorily complete four clinical placements across the degree. **Other requirements:** Prior to undertaking clinical placements with Queensland Ambulance Service (QAS) students must meet the medical, physical and functional requirements of QAS for student paramedics and must have a current first aid certificate, Blue Card, evidence of hepatitis B status and have a current criminal history police check.

Career opportunities: Graduate ambulance paramedic. With further training: intensive care paramedic, flight paramedic, industrial paramedic, clinical education, management roles.

Bachelor of Science – Human Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906821 Toowoomba	3F or 6P	✦	✦	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Science – Human Physiology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906825 External	3F or 6P	✦	✦	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: Students explore the mechanical, physical and biochemical functions of healthy humans, their organs, and the cells of which they are composed. The main focus of physiology in this program is the function of organs and systems. Students can strengthen their appreciation of the connections between psychological and physiological aspects of human health by combining their program with another area of focus, such as psychology. **Note:** This offering has a highly recommended residential school.

Career opportunities: Depending on specialisation: technical sales and marketing, science journalism, statistical officer, research, biologist, medicine (with further study), teaching (with further study), computer systems officer.

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Bachelor of Sport and Exercise Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906111 Toowoomba	3F or 6P	68.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
936111 Ipswich	3F or 6P	66.45	66.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906145 External	3F or 6P	62.00	66.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C).

Course outline: The Bachelor of Sport and Exercise Science will enhance your knowledge and skills to apply the science of sport and exercise. The degree will enable you to develop interventions that improve sport performance, health, and fitness, and assist in the prevention of chronic diseases. During your degree, studies will cover all aspects of sport and exercise science, including anatomy and physiology, psychology, strength and conditioning, exercise prescription, programming and delivery, alongside professional placement. **Note:** External students are required to attend mandatory residential schools at the Ipswich campus during most semesters. **Majors:** Sport and exercise science. **Other requirements:** Students must complete a minimum of 140 hours exercise science placement during the degree. Placement will be undertaken at multiple sites. The student's place of residence will be taken into account when placement is allocated, however all students need to be aware that they may need to travel.

Career opportunities: Sports coach, gym manager, recreation officer, sports development officer, sports performance director, medical company representative, exercise scientist, sport manager, sports tourism officer or activities officer in aged care.

Bachelor of Sport and Exercise Science (Honours) (Clinical Exercise Physiology)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
936211 Ipswich	4F or 8P	68.00	71.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906215 External	4F or 8P	74.00	74.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C).

Course outline: The Bachelor of Sport and Exercise (Honours) (Clinical Exercise Physiology) will provide you with the knowledge, skills and competencies to design, deliver and evaluate exercise interventions for people with medical conditions, injuries, or disabilities. This degree is the professional qualification you need to obtain accreditation as an exercise physiologist. During your degree, studies will cover all aspects of clinical exercise physiology, including anatomy and physiology, psychology, strength and conditioning, exercise prescription, programming and delivery, alongside professional placements. **Note:** External students are required to attend mandatory residential schools at the Ipswich campus during most semesters. **Other requirements:** In accordance with Exercise and Sport Science Australia (ESSA) accreditation requirements, all students must complete a minimum of 140 hours of placement in exercise science, and 360 hours of clinical placement. A student's place of residence will be taken into account when placement is allocated, however, all students need to be aware that they may need to travel. Some placements may be in rural or remote areas.

Career opportunities: Accredited exercise physiologist. Exercise physiologists work across the health care system, including in hospitals, community health centres, private practice, occupational rehabilitation services, and insurance companies.

Associate Degree of Biomedical Sciences

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906931 Toowoomba	2F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906935 External	2F or 6P	60.00	64.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: If you would like to work in a biomedical laboratory, our Associate Degree of Biomedical Sciences examines broad biomedical concepts and generates accurate scientific data. Explore areas such as human anatomy and physiology, microbiology, immunology, cell and molecular biology, nutrition and biochemistry to gain an understanding of what it is like to work in research and clinical laboratories. You experience hands-on learning in laboratory-based residential schools or fortnightly labs for most of the first-year courses and laboratory-based residential schools supported by online or on-campus learning in your second year. **Note:** External students have mandatory residential school requirements within the program.

Career opportunities: Graduates may have employment opportunities as a university and secondary school science laboratory technician or technical assistant in a public or private research laboratory. You will have contemporary laboratory skills to assist in roles in both research and teaching laboratories.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Associate Degree of Medical Laboratory Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906921 Toowoomba	2F or 4P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906925 External	2F or 4P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Gain the education and training necessary for a career as a medical technician or technical officer in the private and public pathology laboratory sectors with USQ's Associate Degree of Medical Laboratory Science. This degree also provides you with training for a career as a biomedical scientist with a research capability and/or a biomedical science support role. You gain practical experience through structured placements

in a pathology laboratory and/or by attendance at residential schools. **Note:** 48 days of professional clinical placement is required for the program. External students also have mandatory residential schools as part of the program. **Other requirements:** Students must satisfy the requirements of the University of Southern Queensland and Queensland Health for clinical placement. These include evidence of immunity to notifiable and contagious diseases, Queensland Health student checklist and placement, privacy and consent deeds, and a USQ Student Clinical Placement Policy Declaration.

Career opportunities: As a graduate, you have the opportunity for employment as a medical technician or technical officer in the medical pathology industry, a medical or clinical research technician in the university, health or biotechnology sectors, or health, medical and scientific product marketers.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Dietetics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013123 Sunshine Coast	4F or 8P	71.55	80.20	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Additional entry information:** Applicants from a non-English speaking background must attain an IELTS score of at least 7.0 with a minimum of 6.5 in each subtest.

Course outline: This program leads to accreditation as a practising dietitian in the private and public health arenas. Practical experience is woven throughout the degree with opportunities to experience real-life work environments and learn about nutrition in USC's specialised teaching kitchen. Students gain experience through work placement in hospitals, community organisations and food service operations, supervised by experienced practitioners. Students select a research or project honours pathway at the end of second year (dependent on GPA). **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Placements are undertaken on a full-time basis. Before undertaking placement, students must show evidence vaccination for all vaccine preventable diseases, undergo a criminal history check and obtain a Suitability Card (Blue Card); refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Clinical dietitian, nutritionist, sports nutrition, private practice, community nutrition, public health nutrition, food service management, nutrition consultancy, research and education.

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013051 Sunshine Coast	3F or 6P	54.65	62.65	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014051 Moreton Bay	3F or 6P	53.70	61.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Students learn how the human body works and what happens when diseases, infections and clinical disorders occur. First-year studies include cell biology or bioscience, chemistry, science research methods, human anatomy and physiology. Advanced courses include physiology, medical genetics, pathophysiology, biochemistry, microbiology, molecular biology, immunology and pharmacology. Students may have the opportunity to undertake placements in hospitals, clinical trial centres, pharmaceutical companies, and medical research institutes. The program prepares graduates for entry into postgraduate medical courses. **Note:** This program includes placements in settings that may require COVID-19 vaccination with limited placements in settings that do not require full vaccination. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Biomedical researcher, clinical technician (cardiac, sleep, respiratory diagnostics), clinical trials manager, microbiologist.

Bachelor of Biomedical Science (Accelerated)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013221 Sunshine Coast	2F	92.25	94.00	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years; Current or Recent Year 12 with no previous attempt at tertiary study. **Additional entry information:** The Bachelor of Biomedical Science (Accelerated) is restricted to high-achieving secondary school students who have completed Year 12 no more than two (2) years before admission. To be eligible for this program, you must not have previously attempted any post-secondary study at diploma level or higher since completing Year 12.

Course outline: Students learn how the human body works and what happens when diseases, infections and clinical disorders occur. First-year studies include cell biology or bioscience, chemistry, science research methods, human anatomy and physiology. Advanced level subjects include physiology, medical genetics, pathophysiology, biochemistry, microbiology, molecular biology, immunology and pharmacology. Students may have the opportunity to undertake placements in hospitals, clinical trial centres, pharmaceutical companies and medical research institutes. The course prepares graduates for entry into postgraduate medical courses. **Note:** This program includes placements in settings that may require COVID-19 vaccination with limited placements in settings that do not require full vaccination. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Biomedical researcher, clinical technician (cardiac, sleep, respiratory diagnostics), clinical trials manager, microbiologist.

013251 Sunshine Coast	4F or 8P	51.10	60.55	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Students learn to use exercise to improve the health of people with chronic or complex medical conditions like diabetes, obesity, heart disease, osteoporosis, high blood pressure, or arthritis. Studies include anatomy, physiology, pathophysiology, biomechanics, exercise physiology, psychology, motor learning, sports nutrition, and rehabilitation. Advanced courses focus on professional practice in clinical and community environments, with industry placement and workplace learning. Several first aid qualifications are incorporated. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Before undertaking clinical placements, students must provide evidence of hepatitis B immunisation, first aid and CPR training, undertake a criminal history check, and obtain or hold a current Suitability Card. Students must complete 500 hours of supervised placement. Students may be required to undertake some clinical placement hours outside the Sunshine Coast region in metropolitan and regional/rural areas. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Accredited exercise physiologist, exercise therapist, health science officer, personal trainer, rehabilitation consultant, exercise scientist.

Bachelor of Health Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013321 Sunshine Coast	3F or 6P	51.65	57.65	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This course prepares graduates for jobs in a range of specialised health science disciplines that address current and future global and local health needs of individuals, communities and populations. Health science disciplines include applied health promotion, applied environmental health, health communication and Indigenous health and wellbeing. Students complete foundation study in health science and major in their chosen health discipline, which includes a placement. **Note:** For students enrolled in the Environmental Health extended major, this program includes compulsory placements in settings that require full COVID-19 vaccination. **Majors:** Applied environmental health; applied health promotion; health communication;

Indigenous health and wellbeing. **Other requirements:** Before undertaking workplace learning, students must obtain a Blue Card and may be required to undergo a criminal history check or other discipline-specific mandatory checks; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Health promotion officer, community development worker, public health officer, environmental health officer.

Bachelor of Medical Science (Griffith MD Provisional Entry for School-Leavers)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013231 Sunshine Coast	3F	99.80	99.80	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years; Current or Recent Year 12 with no previous attempt at tertiary study. **Additional entry information:** This program is for current Year 12 applicants or applicants who completed Year 12 no more than three years prior to application and who have not previously attempted tertiary study at diploma level or higher. **Closing date:** Applications lodged after 9 December 2022 may not be considered in time for the mid-January offer round. Applications for this program close 26 December 2022. After this date, no new applicants can apply, but existing applicants can reorder this preference.

Course outline: This highly competitive program provides high-achieving secondary school leavers with a direct pathway to graduate studies in medicine. Students learn about the human body and the impacts of diseases, infections and clinical disorders. They also build knowledge in public health and clinical practice. Students who achieve a program GPA of at least 5.0 and a pass grade in the course Communication Skills for Medicine will be offered provisional direct entry into Griffith University's Doctor of Medicine at the Sunshine Coast University Hospital. This program also provides a strong foundation for further research. **Other requirements:** Before undertaking a clinical placement, students must provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Medical practitioner (primary care and rural medicine), clinical practitioner, healthcare administrator, medical scientist, medical educator.

Bachelor of Midwifery

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013471 Sunshine Coast	3F or 6P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Additional entry information:** All applicants must either be able to declare that English is their primary language (ie they have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed solely in English. At least two years of this education must have been between grades 7 and 12. This education must have been completed in one of the following countries: Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America.); or they must attain an Academic IELTS score of at least 7.0 with a minimum of 7.0 in each subtest (obtained within two years prior to the commencement of the program). For more information, refer to usc.edu.au.

Course outline: Students gain a formal qualification in midwifery. Graduates are prepared to meet the Nursing and Midwifery Board of Australia Competency Standards for the Registered Midwife. Students complete work integrated learning throughout their program to gain practical experience and engage with women in the community to gain an understanding of the childbearing journey. Clinical experiences are supervised and many include placement in clinics, community settings, maternity services and independent midwifery practices. **Note:** For Sippy Downs students some courses in this program will be taught at the Sunshine Coast Health Institute (SCHI). Some students may be required to take the 'Clinical Connections' module before they can commence in a clinical placement course in any given year of study. This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Before undertaking clinical placement, students must obtain and maintain a current first aid and CPR certificate, provide evidence of hepatitis B immunisation, undergo a criminal history check and obtain a Blue Card; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Registered midwife in hospital or community settings, metropolitan, rural and remote locations or private practice.

Bachelor of Occupational Therapy (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013421 Sunshine Coast	4F or 8P	67.80	71.80	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Chemistry, Biology, Physics, Psychology, Health or Physical Education (Units 3 and 4, C); Completion of Year 12 or attained age 17 years. **Additional entry information:** Applicants from a non-English speaking background must attain an Academic IELTS score of at least 6.5 with a minimum of 6.0 in all other subtests, obtained within two years prior to the commencement of the program.

Course outline: Students gain skills to help people overcome limitations caused by injury or illness, psychological or emotional difficulties, developmental delay or the effects of ageing. They take courses in occupational therapy, biological and social sciences, public health, human development, functional anatomy and enabling occupation. They gain skills and experience with fieldwork placements in rural and urban settings. Students select a research or project honours pathway at the end of second year (dependent on GPA). **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Students may be required to undertake some clinical placements outside the Sunshine Coast region in metropolitan and regional/rural centres. Expenses for these and other placement requirements are incurred by the student. Placements in third and fourth years are undertaken on a full-time basis. Before undertaking clinical placements, students must obtain a Suitability Card, complete a criminal history check (from second year), hepatitis B immunisation and first aid and CPR training and purchase an occupational therapy student uniform; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Aged care worker, disability assessor, hand therapist, occupational therapist/rehabilitator, rehabilitation consultant.

Bachelor of Paramedicine

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013431 Sunshine Coast	3F or 6P	80.95	85.20	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Additional entry information:** Applicants from a non-English speaking background must attain an Academic IELTS score of at least 7.0 with a minimum of 6.5 in all other subtests, obtained within two years prior to the commencement of the program.

Course outline: Students examine the contemporary role of paramedics as both professionals in the community and as an integral part of the greater medical, allied health and emergency services. Students develop clinical knowledge, skills and practice through both simulation and ambulance service placements. Paramedic practice is studied across the paramedic and allied health disciplines of pre-hospital emergency care and primary health care practice. Clinical practicums are conducted with the Queensland Ambulance Service (QAS) and other health agencies. **Note:** This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Prior to undertaking any clinical practicum, students must obtain a Blue Card, Apply First Aid (Senior) certificate, current Mental Health First Aid certificate, provide evidence of hepatitis B immunisation or failure to seroconvert, and undergo a criminal history check. In addition to these requirements, before undertaking clinical placements with the QAS, students must undergo a health and medical assessment and health-related fitness assessment. Clinical placement information is available on the QAS website. Students may be required to undertake some clinical placements outside the region or in a rural area. Students are also required to purchase the student paramedic uniform and personal equipment. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Ambulance paramedic, pre-hospital emergency carer, disaster and emergency worker, aeromedic, rescue and retrieval worker, remote and rural health carer, clinical educator.

Bachelor of Prosthetics and Orthotics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013055 Sunshine Coast	3F or 6P	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: If you are creatively or technically-minded and enjoy working with people, consider a career in prosthetics and orthotics. Our program prepares you to provide innovative, compassionate, and client centred care to help address the functional limitations of people resulting from illness, disease, or disability. Prosthetists and orthotists work with people with amputations, musculoskeletal weaknesses, or neurological conditions throughout the whole diverse process of treatment. This includes client assessment and care, intervention prescription, treatment planning, the design and manufacture of devices, and modifying devices for optimal outcomes.

As the first and only program in Queensland that allows you to specialise in prosthetics and orthotics, this program will provide you with specialist training in an increasingly state-of-the-art area of health, and through study and clinical placements give you the skills to enter the profession and help break down barriers for people living with disability. **Other requirements:** Before undertaking workplace learning, students must obtain a Blue Card, comply with the Vaccination Preventable Disease requirements and may be required to undergo a criminal history check or other discipline-specific mandatory checks; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Clinical Prosthetist and/or Orthotist. The profession is prominent within public and private hospital settings, community based organisations, aged care facilities, the private health sector and academic arena. Services that may include allied health, rehabilitation and assistive technology services, are delivered across the entire age spectrum; resulting in services within the primary, secondary and tertiary care sectors.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Recreation and Outdoor Environmental Studies

Diploma in Allied Health Assistance

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
019703 Fraser Coast	1F or 2P	☆	☆	Feb 2023	12 Jan 2023
013132 Sunshine Coast	1F or 2P	☆	☆	Feb 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: The Diploma in Allied Health Assistance is a one-year qualification that gives you the foundational skills to work as an allied health assistant or in related fields. Allied health assistants support allied health professionals such as occupational therapists, physiotherapists, speech pathologists, dietitians and podiatrists to implement programs and one-on-one supports for people with disabilities and health conditions. They also support the day-to-day running of the practice, managing aspects such as bookings and equipment. You will study the role of allied health assistants in the context of the Australian health and social care system, and learn about the anatomical, physiological, psychological and sociological factors influencing human function. You will also develop your communication skills, skills in running groups, and learn how to set up and maintain equipment. **Note:** This program comprises of both online, on campus and blended courses. There is also one course in the Diploma that includes a fieldwork opportunity. Not all required courses available at Fraser Coast campus, online delivery mode is available for these courses.

This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Allied health assistant

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
112311 Brisbane	3F or 6P	55.75	59.55	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: As a Bachelor of Arts student, you will develop skills in understanding the world and its peoples, society and culture. Arts students develop key skills in interpersonal communication; creativity, research and problem solving. Subject diversity makes this course attractive to students seeking a liberal arts education in arts, humanities, creative or visual arts with flexibility to study the areas you enjoy while building skills as a foundation for employment or further specialised study. You can choose to undertake two majors, or a major and two minors plus a range of electives, tailoring the degree to suit your goals. Minors are available in each of the majors, and in the disciplines of communication, creative writing, and geography. Students are encouraged to take advantage of study opportunities at our campus in Rome or other overseas locations and to structure their individual academic programs to reflect their interests and career aspirations. For more course information, visit courses.acu.edu.au/undergraduate/bachelor_of_arts. **Majors:** Mathematics; Business studies; drama; Education studies; History; English; music; Philosophy; Sociology; Study of religions; Theological studies; Visual arts. **Other requirements:** Students must take a number of core and program units.

Career opportunities: Government and non-government organisations, media and communications, arts and cultural organisations, higher education, business sector, not-for-profit organisations, historian, social scientist, political analyst, teaching (with further study).

Double degrees: Refer to entries for: B Arts/B Commerce; B Arts/B Global Studies; B Arts/B Laws; B Education (Secondary)/B Arts (Humanities).

Bachelor of Arts/Bachelor of Commerce

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
112051 Brisbane	4F or 8P	54.00	58.60	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course is a vibrant and challenging qualifying social work degree. You will gain a sound understanding of social work values and practice approaches. Field education forms a major part of your professional identity development and will enable you to observe, question and model social work behaviours, translate social work theory into practice and apply knowledge drawn from theoretical units of study.

Throughout the course there is an emphasis on social justice, human rights and achieving the best possible outcomes for the most marginalised and disadvantaged members of the community. **Note:** This course is accredited with the Australian Association of Social Workers (AASW) to the end of 2022 and currently undergoing scheduled re-accreditation for 2023 and beyond. **Other requirements:** Students undertake two practicum units totalling 1000 hours of supervised field education. They also undertake 50 hours of community engagement during their degree. These hours are complementary to, and run in conjunction with, units studied. Students must meet the inherent requirements – essential components of this course (capabilities, knowledge and skills) – to achieve the course learning outcomes. For more information see acu.edu.au/study-at-acu/how-to-apply/inherent-requirements.

Career opportunities: Community development, group work, family work, case management, policy analysis and development, research, social action and program planning, youth and child welfare services, medical and health services, disability services, psychiatric and general mental health, community services, aged care, income support, mediation, research.

Bachelor of Theology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
112511 Brisbane	3F or 6P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Engage critically with the Catholic intellectual tradition, and explore questions of knowledge, identity, and value. You will develop an understanding of the complex realities of religion across history, while gaining insight into contemporary challenges – graduating with skills prized by employers. Study systematic theology, ministry, liturgy, ancient languages, biblical studies, study of religion and philosophy – with the flexibility to choose units from other disciplines. **Majors:** Biblical studies; Christian thought; philosophy.

Career opportunities: Chaplain, minister of religion, youth minister, social worker, pastoral associate or lay minister, community worker or advocate, theology lecturer, researcher or academic, journalist or writer, primary school teacher or secondary school teacher (with further study).

Double degrees: Refer to entries for: B Theology/B Global Studies; B Theology/B Philosophy; B Theology/B Laws.

		Unadjusted	Adjusted		
112041 Brisbane	4F or 8P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This course is for people interested in theology and the social, political, cultural, environmental and economic changes shaping our world. The global studies degree combines a Catholic theological education with global studies, environmental sustainability, global health, world politics and justice. Students can study abroad at one of over 60 international partner institutions and/or complete an internship. The theology degree includes study in the history of the Christian tradition and current theological scholarship, biblical studies, Christian thought and practice. For more course information, visit courses.acu.edu.au/undergraduate/bachelor_of_theologybachelor_of_global_studies. **Majors:** Refer to Bachelor of Theology. **Other requirements:** Students must complete a unit of Christian Community

Experience involving an active service engagement plus one semester of overseas study/internship in third year.

Career opportunities: Teaching (with further study), church agencies, ministries, chaplaincy, social inclusion, pastoral work and social work, research, journalism, international organisations, international relations.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Theology/Bachelor of Philosophy

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
112061 Brisbane	4F or 8P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Combining the study of theology and philosophy isn't just intellectually rewarding, it's also culturally enriching, socially valuable, and will give you skills prized by employers. You will explore the foundations of the modern world and the nature of thought, existence, and belief systems. This will enhance your ability to engage with and respond to the challenges faced by today's societies, governments, and organisations. **Majors:** Biblical studies; Christian thought; philosophy.

Career opportunities: Theology/philosophy lecturer, researcher or academic; journalist or writer; chaplain; minister of religion; youth minister; pastoral associate or lay minister; community worker/advocate; ethics consultant to businesses; bioethics or health care ethics consultant; public policy adviser; diplomatic or consular officer, teacher or curriculum designer (with further study); counsellor, social worker or psychologist (with further study).

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This course provides students with a comprehensive overview of the scientific discipline of psychology and its applications. The course is delivered in accordance with the foundational (level one) competencies for three-year undergraduate psychology programs as specified by the Australian Psychology Accreditation Council (APAC). Students will acquire an understanding of the underlying principles, theories and concepts within the discipline. In addition, students will develop knowledge of the range of core research areas that make up the discipline, and an understanding of the methodologies and statistical techniques used by researchers for information gathering and analysis. There will be opportunities for students to explore applied and professional uses of psychology. In addition, students will be introduced to psychological theory, research, and applied and professional uses of psychology in an ethical and culturally responsive context. **Other requirements:** Students will have an option to complete a supervised project to address a real-world issue as presented by a representative from an existing organisation; or complete a 25-hour placement with an experienced researcher or with an appropriate external organisation. Students will draw upon their psychology and professional expertise to develop and present workable solutions to a professional client.

Career opportunities: Career opportunities exist in areas including, management, industry, child safety officer, clinical work, counselling, neuropsychology, child development, education, forensic, health, coaching, school guidance officer. In order to use the title Psychologist, students must first complete a 4-year honours level course, such as CQUniversity's Bachelor of Psychological Science (Honours) and then complete an accredited Psychology Board of Australia pathway.

Prerequisites: Completion of Year 12 or attained age 17 years; Prior study. **Additional entry information:** A completed Australian Qualifications Framework (AQF) equivalent 3 year Bachelor degree.

Course outline: The aim of the Bachelor of Science (Psychology) is to give students a comprehensive overview of the scientific discipline of psychology and its applications. The course is delivered in accordance with the foundational (level one) competencies for three-year undergraduate psychology programs as specified by the Australian Psychology Accreditation Council (APAC). Students will acquire an understanding of the underlying principles, theories and concepts within the discipline. In addition, students will develop knowledge of the range of core research areas that make up the discipline, and an understanding of the methodologies and statistical techniques used by researchers for information gathering and analysis. There will be opportunities for students to explore applied and professional uses of psychology. In addition, students will be introduced to psychological theory, research, and applied and professional uses of psychology in an ethical and culturally responsive context. **Note:** Depending on units selected, students may be required to attend on-campus residential schools. **Other requirements:** Students must submit an application for credit transfer prior to enrolling in units. For guaranteed assessment of credit transfer, applicants must apply four weeks prior to the commencement of term.

Career opportunities: Career opportunities may include roles in human resource management, rehabilitation, school guidance counselling, scientific research, public health, defence, special education. To become registered as a psychologist, further study will be required.

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
851505 Online	4X or 8X	61.45	63.45	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Complete the Bachelor of Social Work and become a professionally qualified social worker, eligible for membership with the Australian Association of Social Workers (AASW). Students will be supported by an experienced teaching team and be guided by practising social workers as they complete extensive field placements. Over the course of four years, students will develop an understanding of the practice methods, skills, knowledge and values of the social work profession. With an emphasis on problem-based learning, students will gain valuable experience in critical and reflective thinking and practice. Students will have the opportunity to complete 2 field education placements where they will begin to apply their developing knowledge and skills and see in-practice examples of theory. **Note:** Students are required to attend a minimum of 20 days residential school attendance throughout the course. **Other requirements:** Students complete up to 1000 hours of field education placements. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For more information, visit cqu.edu.au.

Career opportunities: Health, government administration, child protection, youth justice, prisons, disability, aged care, mental health.

FEDERATION UNIVERSITY AUSTRALIA

Federation University

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041124 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✦

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: Be a reporter covering natural disasters. Manage the social policy in the public and private sector. Curate exhibits in a museum.

In this degree, you'll study a wide range of subjects across humanities, media and social sciences. But you'll also learn the skills you need to succeed in the workplace.

The BA program includes a substantial core study of cultures and contemporary societies, with a focus on developing transferable skills for life and work. You also choose a major in one of: History, Indigenous Studies, Literature, Media and Screen Studies, Sociology or Writing.

Additional majors and minors include: Criminal Justice, Community Work, Education, Visual Arts (Arts Academy - Ballarat and Gippsland), Marketing, Entrepreneurship, Web Project Development, Behavioural Studies, Visual Culture (minor only).

This will allow you to explore areas of personal interest in more depth and achieve the disciplinary knowledge required for further study/development in professional areas such as information management, education and communication.

To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on our website. **Majors:** The BA program includes a substantial core study of cultures and contemporary societies, with a focus on developing transferable skills for life and work. You also choose a major in one of: History, Indigenous Studies, Literature, Media and Screen Studies, Sociology or Writing.

Additional majors and minors include: Behavioural Studies, Criminal Justice, Community Work, Education, Entrepreneurship, Marketing, Visual Arts (Arts Academy - Ballarat and Gippsland), Visual Culture (minor only) or Web Project Development.

Career opportunities: Academic tutor, Advertising coordinator, Broadcast assistant, Business manager, Chief sub-editor, Community service agency worker, Community worker, Critic, Digital production manager, Film and DVD marketer, Heritage curator, Image curator, Lecturer, Media planner, Playwright, Policy writer, Production designer, Small business owner, Account manager, Archivist, Broadcast monitor, Case management officer, Communications officer, Community support manager, Copywriter, Curator, Editor, Film and television floor manager, Film curator, Film programmer, Human resources manager, International agency project worker, Marketing and communications assistant, Media coordinator, Media presenter, Policy advisor, Production manager, Project manager, Public relations officer,Social researcher, Tourism consultant, Associate editor, Broadcast operator, Case manager, Community development officer, Counsellor, Digital marketer, Film and DVD distributor, Film and television producer, Film educator, Government officer, Journalist, Marketing and sponsorship coordinator, Media officer, Museum curator, Policy officer, Production crew member, Professional writer, Project officer, Research officer, Sound collection curator, Writer.

After further study, you may become a teacher specialising in English, History, Humanities or SOSE (Studies of Society and Environment).

✦ *Regular offers will be made.*

Bachelor of Criminal Justice Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041120 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✦

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: Combine your passion for social and criminal justice, with people and project management skills and make a real difference to the people impacted by the criminal justice system.

The criminal justice system is becoming increasingly complex and the systems related to criminal justice are expanding to include more community, government and non-government organisations than ever before. The increase in the breadth of organisations working in a criminal justice context has highlighted the importance of management skills for people considering a management career in criminal justice.

This new degree is ideal for people who have a passion for and interest in developing and managing projects.

You will develop an understanding of the criminal justice system, criminal justice agencies, victims and offenders and also the skills to undertake project and strategic management, communications, grant application writing, manage people and develop creative and innovative solutions to social and justice related problems.

Our graduates are job-ready through a work integrated learning program undertaken in the third year of the degree. Students experience criminal justice in the real-world with a placement that responds to real world issues. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on our website.

Career opportunities: Case management officer, Criminal intelligence analyst, Criminologist, Government officer, Industrial relations officer, Law reform campaign officer, Youth justice officer, Court officer, Policy analyst, Policy officer, Political advisor, Project officer, or Youth worker.

The career options for successful completion of the Bachelor of Criminal Justice Management include working in justice agencies, government departments and NGOs to design, develop, implement, and manage projects or lead small teams. Roles can include, grants officer, project officer, law reform and advocacy projects, Youth Justice, victims' support agencies.

✦ *Regular offers will be made.*

Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041163 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✦

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: This degree will prepare you for work in state and federal police, in courts and corrections, government departments and for work in community based agencies delivering criminal justice programs.

You'll learn to understand crime data, why crime rates and types vary in different countries and across remote, regional and urban settings. You'll also learn to evaluate the effectiveness of different crime prevention strategies and policies, as well as develop a knowledge of criminal justice programs in international jurisdictions.

You will engage with debates about the interaction between the criminal justice system and groups in society who are over represented as victims, offenders or both. Consider the influence of factors such as disadvantage, ethnicity, aboriginality, disability, age and gender and the effect of these factors on access to justice.

In this degree, students develop the practical skills and knowledge to prepare them for work or further study. Assessments are informed by practical examples of the requirements of industry, practical experience in the field and presentations by those already in the field. This program also offers foundational research knowledge for students wanting to pursue post graduate studies or who would like to develop their research skills in industry.

The degree was developed in consultation from students, justice and community based agencies. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on our website. **Majors:** Community and Human Services, Behavioural Studies,Sociology, IT security.

Minor options: Community and Human Services, Behavioural Studies, Sociology, IT security, Writing, Indigenous Studies.

Career opportunities: Case management officer, Communications officer, Corrections officer, Court officer, Criminal intelligence analyst, Criminal investigator, Criminologist, Family caseworker, Government officer, Industrial relations officer, Investigation officer, Juvenile caseworker, Law reform campaign officer, Media officer, Police officer, Policy analyst, Policy officer, Political advisor, Private investigator, Project officer, Public relations officer, Welfare officer, Youth worker

+ Regular offers will be made.

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Students gain thorough grounding in core topics of psychology, including personality, clinical, development, biological, cognitive, social and organisational, and develop skills in critical analysis and evaluation, data handling and communication. In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in foundation subjects and core concepts. On successful completion progress into the Griffith University bachelor with 60-80 credit points. This degree provides a foundation in the major fields of psychology. It facilitates training in research through the completion of an independent research project during an additional year of study. You'll develop thorough grounding in clinical, developmental, biological, cognitive, and social and organisational psychology and learn how to use interpersonal skills and the principles of counselling to help people with personal, health, vocational and social difficulties. Additionally, you'll understand psychological theories on topics such as motivation and stress, evaluate and understand tests that measure intellectual behavioural and emotional stress. Honours adds a fourth year to the Bachelor of Psychology (Honours), and eligibility is subject to academic achievement. See the Bachelor of Psychology (Honours) for more information. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: By studying this degree, you'll be qualified for professional employment and probationary registration to work as a general psychologist in areas such as clinical, health, community, educational, organisational, or forensic settings; job placement and recruitment; counselling; guidance; and social research. You can also pursue further studies to work in specialist fields, including becoming a clinical psychologist, organisational psychologist, or other specialist psychologist.

☆ *All qualified applicants were offered a place.*

276125 Online	4F or 8P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Griffith is a leader in this field, ranking in the world's top 100 for political and international studies for the past four years, boasting a world class staff of political experts. This degree provides highly motivated students the opportunity to gain a deeper understanding of government and international relations in the modern world and the forces that shape these dynamics at global and domestic levels. You'll learn about international security, trade, international organisations and human rights, political institutions and processes, business-government relations and more. In your first three years, you'll explore the politics, policy making and international dynamics that have shaped the contemporary world. In your fourth year, you will acquire high level research skills and take a deep dive into the topic of your choice. You'll also have opportunities to study abroad or complete a global internship, all designed to enrich your skills and help prepare you for the future world of work. Plus, you'll have access to BusinessPLUS, which offers mentoring, networking and career mapping workshops. **Majors:** International relations; politics and public policy. *Second majors:* Asian engagement; Chinese language; economics; French language*; German language*; Indonesian language*; international business; Islam-West relations; Italian language; Japanese language; Korean language*; Spanish language. *Via cross-institutional study at The University of Queensland (Nathan campus only).

Career opportunities: An honours degree prepares you for the higher research degrees and a career in academic research. Equally, it is highly regarded by employers and well recognised as a step beyond a traditional undergraduate degree in the application of theory and practicum. Politics and public policy provide opportunities administering advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. As a graduate with strong analytical and critical thinking skills, you will be able to pursue work in a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector. An international relations qualification gives you a huge range of employment options in Australia and internationally. You could find a job in foreign ministries, defence departments, intelligence and aid organisations. You could also work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies.

232331 Gold Coast	4F or 8P	67.20	69.20	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree produces media professionals with the knowledge and understanding to work effectively within local, national and international political contexts either as journalists, political strategists or media advisers. It combines specialist training in essential aspects of contemporary media management, including producing key messages, news writing, and social media communication, with a deep understanding of public policy making, government, political campaigning and international advocacy. **Majors:** *Government and international relations:* international relations; politics and public policy.

Career opportunities: A double degree with Government and International Relations will provide you with a variety of opportunities providing advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. You may also find a job in foreign ministries, defence departments, and intelligence and aid organisations, or work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies. With your strong analytical and critical thinking skills, you'll be able to pursue work in a broad range of sectors including the government, international organisations, media, political

parties, a range of business environments and the not-for-profit sector. Your communication and journalism studies can lead to exciting careers in strategic or public communication, corporate promotions, commercial communication, journalism, freelance writing, creative industries, public relations and communications firms, government and non-government organisations, not-for-profit and aid organisations, media and the film industry, entrepreneurial and start-up organisations.

Bachelor of Communication and Journalism/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226241 Nathan	4F or 8P	✦	✦	Mar 2023	12 Jan 2023
232341 Gold Coast	4F or 8P	✦	✦	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree combines the specialised disciplines of biological, clinical, chemical, physical and mathematical sciences with the skills and capacity to communicate these within various professions, and to the broader public. Alongside scientific expertise, you'll graduate with a suite of communication, writing and media production skills that will add a critical dimension your career. You'll confidently navigate the contemporary context for science, where skills in global communication and media are critical. **Majors:** *Science:* applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan); geography; marine biology (Gold Coast); microbiology (Nathan); physics; wildlife biology; archaeology (Nathan only).

Career opportunities: With combined qualifications in communication and science, you will find broad employment opportunities across the science and technology, commercial and public sectors. In addition to the careers listed for the Bachelor of Communication and Journalism, depending on your science major, you will be prepared for work in environment-related jobs, for example as an environment consultant, environmental scientist or mine environment officer; in biological, chemical and clinical sciences as a microbiologist, pharmaceutical scientist, biochemist, chemist or biotechnologist; in physics and maths as a mathematician or physicist; or, with further study, in a broader role, for example as a patents officer or science teacher. You may also choose to undertake a fourth-year research Honours degree that can lead to a PhD and a career in research.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Government and International Relations

For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Studying with a world leader, you will develop a deep understanding of policy, politics and power in the modern world and the forces that shape these dynamics at the global and domestic levels. By learning about political institutions and processes, business-government relations, and foreign policy and globalisation you'll develop an understanding of politics and international relations. You'll have the option to complete a parliamentary internship or a work placement in your final year and have opportunities to study abroad or complete a global internship. **Majors:** International relations; politics and public policy. *Second majors:* Asian engagement; economics; international business; Islam-West relations; Languages: Chinese; French*; German*; Indonesian*; Italian; Japanese; Korean*; Spanish. *Via cross-institutional study at The University of Queensland (Nathan campus only).

Career opportunities: Depending on your major, you may find opportunities providing advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. You may also find a job in foreign ministries, defence departments, and intelligence and aid organisations, or work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This double degree will give you a better understanding of the causes and consequences of complex crime and criminal justice issues and how they are currently dealt with by government at local, national and global levels. It will combine the study of what makes criminals tick with an understanding of the justice system and policy making processes. With an appreciation of how policy is created and applied, plus an understanding of crime and criminal behaviour, you will be equipped to influence the policy underpinning the justice system to ultimately deter crime, rather than simply respond to criminal behaviour. **Majors:** *Government & International Relations:* International relations; politics and public policy.

Career opportunities: Studying criminology and justice provides you with a pathway to a wide variety of rapidly growing career opportunities. You will be suited to work in fields such as policing, corrections, government, education, policy development, security, intelligence, regulatory law enforcement, crime prevention, customs, crime analysis, youth justice, courts and justice services. A double degree with Government and International Relations will provide you with a variety of opportunities providing advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. You may also find a job in foreign ministries, defence departments, and intelligence and aid organisations, or work in political risk assessment and humanitarian logistics, or for organisations such as the United Nations and its agencies. With your strong analytical and critical thinking skills, you'll be able to pursue work in a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector.

Bachelor of Languages and Linguistics

		Unadjusted	Adjusted		
221132 Nathan	3F or 6P	61.00	69.00	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
232252 Gold Coast	3F or 6P	63.55	66.00	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Boost your employability and be exposed to new perspectives and perceptions. This degree opens the door for you to engage across societies and cultures as an informed and adaptable global citizen. When you study a language at Griffith, you won't just learn to speak and write the words, you'll also study linguistics—the science, nature and function of language and how it is used in society. You'll apply your knowledge of linguistics and your chosen language in challenges including second language learning and teaching, intercultural communication, and translating and interpreting. You'll learn in small classes and this degree caters to all skill levels, from beginner to fluent. **Majors:** Chinese; French*; German*; Indonesian*; Italian; Japanese; Korean*; linguistics; Modern Greek^; Spanish. **Notes:** * via cross-institutional study with The University of Queensland; ^ online via cross-institutional study with Flinders University.

Career opportunities: As a graduate of this degree, you may find employment opportunities throughout the world in education and teaching, translation and interpreting, tourism and hospitality, publishing and journalism, sales and marketing, advertising and public relations, international business, law, commerce, and the arts.

Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226401 Nathan	3F or 6P	✦	✦	Mar 2023	12 Jan 2023
232651 Gold Coast	3F or 6P	70.30	76.30	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Social science explores the world's complex social challenges and applies research and analysis to create positive change. You'll study and debate some of society's most intriguing issues, including sustainability, security, social justice and communication, along with the techniques to examine them, and devise practical solutions using data analysis techniques. Solutions for contemporary challenges will come from people who can not only interpret the data but also understand the need for social impact studies, policy development, and effective public communication. **Majors:** Economics; environmental sustainability; global security threats; media, communication and social change; politics in Asia; social justice.

Career opportunities: Our degree is built around a tailored employability framework, so you'll have the tools and experience to start creating a successful and meaningful social science career, well before you graduate. Each major in this degree represents a different perspective on the challenges of the future and will allow you to develop areas of expertise that can open doors to a broad range of careers including working with government, political parties, private business, non-government organisations, not-for-profit organisations, community services, aid agencies, immigration, advocacy groups.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
233362 Gold Coast	4F or 8P	60.35	68.35	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

263371 Logan	4F or 8P	61.80	68.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith VET Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: If you are passionate about social justice and human rights, social work is the profession for you. In this degree, you'll study society, human services provision, counselling, human behaviour and development, policy and practice as well as specialised social work courses. You'll complete two four-day-a-week field placements in your degree, each totalling 500 hours, supervised by a qualified social worker. There are also exciting opportunities for international field placements and visiting communities in India and Nepal. **Note:** Distance education students must be available to attend 20 days of face-to-face intensive study at the Gold Coast campus throughout the program. **Other requirements:** Students must meet all professional practice requirements. For more information, visit griffith.edu.au/griffith-health/fit-for-professional-practice.

Career opportunities: Social work professional practice includes work with individuals, families and communities. Fields of practice include child welfare and families, health and mental health, counselling, youth and adolescents, working with Aboriginal and Torres Strait Islander peoples, people from diverse cultures including migrants and refugees, the disability field, older persons, employment and income support, policy development and research. Social work continues to have strong projected job growth with health care and social assistance is one of Australia's leading employment sectors. Strong growth is projected to continue to 2023 in this sector largely driven by the NDIS (Australia's National Disability Insurance Scheme) and an aging population.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Social and Psychological Science/B Social Work.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

JAMES COOK UNIVERSITY

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
311031 Townsville	3F or 6P	59.00	60.40	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: Refer to separate entries for Diploma of Higher Education (Society and Culture) and Bachelor of Arts. **Note:** Not all majors are offered externally. Subject to satisfactory completion of the diploma, students may matriculate into the bachelor program at James Cook University with a maximum of 24 credit points. Students must meet the minimum English language requirements for the bachelor program. Psychology studies major does not lead to registration as a psychologist. Bachelor students who attend campus for part of the degree may combine online study with on-campus study in other disciplines.

Career opportunities: Depending on specialisation: archaeologist, arts administrator, community worker, environmental consultant, journalist, political adviser, social researcher, writer.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Behavioural Science (Psychology)/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409572 Kelvin Grove or Gardens Point	$5^{1/2}$F	85.30	87.40	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: The course combines the complementary fields of psychology and law. You develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution. As a graduate, you enter the workforce with a solid scientific and practical base, suitable for the development of mental health and legal policies, research in the legal-psychological domain, and for careers as legal practitioners or psychologists in legal, corporate, government, social, and clinical arenas. Registration to practise as a psychologist or legal practitioner requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** You may wish to undertake a minor that focuses on technology and the law. Some units are offered in summer if you want to accelerate your study. This course has some units that can be studied online. **Other requirements:** Refer to Bachelor of Laws (Honours).

Career opportunities: Mental health, child protection, legal policy, research, legal practitioner, policy officer, public servant or psychologist in corporate and government areas.

Bachelor of Behavioural Science (Psychology)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425081 Kelvin Grove	3F or 6P	70.35	77.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: This course provides the first step towards a career as a registered psychologist and a foundation for careers where an understanding of human physical and emotional behaviour would be an advantage. Students choose areas of study that are of specific interest. Elective units include organisational psychology, forensic psychology and the law, human sexuality, family therapy, and community psychology. Students develop skills in social and developmental psychology, research methods, perception and cognition, counselling, and psychotherapy. Registration as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions.

Career opportunities: Human resources, market research, organisational development, policing, health and human services, counselling.

Double degrees: Refer to entries for: B Behavioural Science (Psychology)/B Business; B Behavioural Science (Psychology)/B Justice; B Behavioural Science (Psychology)/B Laws (Hons); B Behavioural Science (Psychology)/B Social Work; B Nursing/B Behavioural Science (Psychology).

Bachelor of Behavioural Science (Psychology)/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409532 Kelvin Grove or Gardens Point	4F	73.20	77.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors - General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Course outline: You develop a solid understanding of human behaviour and business, and how to apply these to organisational settings. The course is for students interested in developing high-level communication and social skills suitable for a career in counselling, management, human resources, marketing, training and development, finance, accounting, and other careers that would benefit from understanding the psychological aspects of the business environment. Registration as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Business.

Career opportunities: Human resources, management, finance, marketing, accounting, public relations, organisational or industrial psychologist (with further training), counselling, training and development.

Bachelor of Behavioural Science (Psychology)/Bachelor of Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409752 Kelvin Grove	4F	67.20	77.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: You apply psychological principles to the field of justice through the study of social justice and social, developmental, cognitive and abnormal psychology. You explore topics that include crimes of violence, environmental criminology, Indigenous justice, official corruption, transnational crime, and forensic psychology. Registration as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Some justice units are offered in summer for students wishing to accelerate their study. This course has some units that can be studied online. **Majors:** Refer to Bachelor of Justice.

Career opportunities: Registered psychologist (with further study), criminologist, state and federal law enforcement, social and justice policy officer, corrections, rehabilitation services.

Bachelor of Behavioural Science (Psychology)/Bachelor of Social Work

		Unadjusted	Adjusted		
425062 Kelvin Grove	5F	76.65	77.20	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: As a graduate, you have specialised skills for challenging and complex practice in a variety of settings including mental health, drug and alcohol prevention, and disabilities, and in the development and delivery of community services, counselling, and family-centred intervention. A social work honours program based on GPA is available at the end of third year. This course is an Australian Association of Social Workers accredited qualification. Registration to practise as a psychologist requires further study.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Social worker in mental health, counselling, child protection, family welfare, program development, drug and alcohol prevention, disability and community services.

Bachelor of Human Services

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
425071 Kelvin Grove	3F or 6P	71.55	71.55	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C).

Course outline: As a graduate of this course, you will provide support to individuals, families and communities who are experiencing social or economic adversity.

This course responds to social challenges and provides you with professional skills suitable for a range of practice areas.

You complete 550 hours of professional placement and develop skills in assessment and intervention, casework and case management, social policy processes, advanced communication, and community work. You choose an area of specialisation from child and family services, disability services, or services to young people.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 75.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Other requirements:** You must obtain a Blue Card and satisfy other requirements prior to placement; refer to institution.

Career opportunities: Community development worker, case manager, welfare worker, family services officer, disability services worker, youth worker, community corrections officer.

Double degrees: Refer to entries for: B Creative Industries/B Human Services; B Human Services/B Business; B Human Services/B Justice; B Human Services/B Public Health.

Combined diplomas/degrees: This course can be combined with the TAFE Qld - Greater Brisbane qtac.edu.au/courses/listing/diploma-of-community-services. Refer to entry for the diploma under TAFE Qld.

Bachelor of Human Services/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409022 Kelvin Grove or Gardens Point	4F	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); and for accountancy, economics, finance, financial planning, and marketing majors - General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course prepares you as a graduate for work in public, non-government and private human services such as child and family, disability support and health services. You can specialise in child and family services, disability services or services for young people, with a strong focus on contemporary social issues, so you develop skills in casework and case management, social policy processes, group and team practice skills, advanced communication, community work, and understanding families and relationships. You'll complete 550 hours of human services practical placement gaining the hands-on experience needed to build a successful career. It is also uniquely designed to inspire you to realise your full potential, to think entrepreneurially and to ethically and sustainably shape the future of 21st century business. You'll develop core business capabilities and undertake focused and authentic study in your chosen business discipline, engaging with the real world of business to ignite your professional career.

Bachelor of Community Welfare

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
051361 Gold Coast	3F or 6P	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English.

Course outline: This degree provides the theoretical and practical foundation for work in the human services industry. Students gain skills in case management, community development, counselling, social research, policy work, advocacy, and grief and loss counselling. Emphasis is placed on social justice and human rights as the basis for social welfare practice. Students undertake 400 hours of on-the-job training in two organisations. The course articulates with a range of VET awards. This course is also available online with residential workshops; contact Southern Cross University. Some units in this course are only available online. **Other requirements:** Students must undergo a criminal record check and working with children clearance for work experience placements; refer to Southern Cross University.

Career opportunities: Welfare and community worker in child protection, disability, family violence, mental health, housing, youth work, aged care, alcohol and drug rehabilitation, and community engagement.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Bachelor of Indigenous Knowledge

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
057701 Lismore	3F or 6P	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree is designed to communicate and generate a better understanding of Indigenous world views by exploring histories, knowledge systems, determinants of health and wellbeing. Students build theoretical and practical capability in areas including cultural protocols

and Indigenous ways of knowing and being. They learn to engage with communities and work towards better environmental, social and economic outcomes. The course includes a choice of major and a wide range of electives for students to specialise in their areas of interest. This course is also available online; contact Southern Cross University. **Majors:** Indigenous Knowledge. Shared majors available from across the University.

Career opportunities: Careers where a sound basis of Indigenous knowledge is required, in project management or administration, business, education, health services, paralegal work, social community welfare, environmental management.

THE UNIVERSITY OF QUEENSLAND

The University Of Queensland AUSTRALIA

Bachelor of Advanced Humanities (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
757101 St Lucia	4F or 8P	88.95	90.40	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Aimed at high-achievers, this course exposes you to contemporary thinking in the humanities and prepare you for a range of careers in leading academic or professional organisations. As a Bachelor of Advanced Humanities (Honours) student, you'll engage with leading humanities researchers from your first year of study and participate in the University's research culture, applying and developing your analytical skills through practice-led learning. **Note:** The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. A Global Experience option is also available in the second year. **Majors:** Ancient history; art history; drama; English literature; history; music; philosophy; studies in religion.

Career opportunities: This program prepares you for a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

Bachelor of Advanced Humanities (Western Civilisation) (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
757201 St Lucia	4F or 8P	93.80	95.85	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Embedded in a strong humanities degree, the extended major in Western Civilisation provides you with the opportunity to immerse yourself in a creative and diverse curriculum with a strong critical focus on the key intellectual movements which have shaped Western Civilisation from antiquity to the current day. You will read, study and critique major works of literature, art, music, politics, law, and religion, and develop an understanding of the dynamic interplay of social, historical and aesthetic forces that have contributed to evolving conceptions of the West. Encounter influential ideas that have driven revolutions and study works that are

engaging and challenging. Courses focus on small-group discussion to address important questions about human nature and the political order and aim to develop essential skills of critical reasoning and evaluation. **Note:** The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. A Global Experience option is also available in the second year. Fifteen scholarships will be available for this program each year. Due to the staged introduction of courses, it may take longer than anticipated for students with credit to complete program requirements. **Majors:** Western Civilisation

Career opportunities: This program prepares you for a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

Bachelor of Politics, Philosophy and Economics (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714112 St Lucia	4F or 8P	92.50	94.50	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This program offers an integrated, cross-disciplinary perspective that combines broad and rigorous training in the foundations of politics, philosophy and economics. You will study insights from all three disciplines and examine current and future global challenges. This program equips you with versatile skills to address complex and challenging issues drawing on a historical, social, political and economic knowledge base. **Note:** This program is currently under review. Due to the staged introduction of new courses, it may take longer than anticipated for students with credit to complete program requirements. **Majors:** Economics; philosophy; politics.

Career opportunities: As a graduate of this program, you are employable in analytical and decision-making positions in the public, private and not-for-profit sectors, in roles such as an economic or social analyst, policymaker, public commentator, political adviser, and as a leader in international affairs and the diplomatic services.

Bachelor of Psychological Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
757001 St Lucia	4F or 8P	89.40	93.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This program is designed for students looking to undertake comprehensive studies in psychology, including the study of developmental, social, cognitive, biological, physiological and abnormal psychology – as well as study in research methods and report writing. Courses examine areas including child development, neuroscience, learning and cognition, social and organisational psychology, psychological assessment, psychological research methods and evaluation of research. With a range of psychology electives to choose from, you gain a thorough understanding of the fundamentals of psychology while gaining exposure to a variety of specialisations. **Note:** This program meets undergraduate requirements for professional registration when combined with two years' supervised experience as a psychologist.

Career opportunities: Graduates meet the academic requirements for registration as a provisional psychologist with the Psychology Board of Australia, as well as associate membership of the Australian Psychological Society. Further training is required for general registration as a psychologist. With full registration, you can pursue careers in clinical psychology, clinical neuropsychology, organisational psychology, educational and developmental psychology, sports and exercise psychology, and counselling. Broader career options include human resources, mental health services, youth and child support work, relationship counselling, residential care, family and social services, public and private sector management, marketing, advertising and market research, disability support services, aged care, juvenile justice and corrective services.

Bachelor of Social Work (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
734001 St Lucia	4F or 4P or 2F	75.50	76.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: As a UQ Social Work (Honours) graduate, you will create a fairer, more inclusive society and champion the rights of the disadvantaged. The program combines core knowledge and skills in social work, social policy and research. You will learn about social work and the law, human development, professional ethics, current welfare and social issues in Australian society, and a range of related social science disciplines. **Note:** You can take the program part-time, but the semesters that have placement require full-time enrolment. Students commencing the program in semester 2 will take longer to complete the degree. **Other requirements:** Students must obtain a Blue Card before commencing a placement course, and hold it for the duration of the program. For more information, visit habs.uq.edu.au/prepare-your-social-work-placement.

Career opportunities: Graduates work as social workers in a variety of government, community and private organisations. They work with individuals, groups and communities, such as abused children, people with disabilities, people with mental health issues, victims and perpetrators of domestic violence, people with eating issues, homeless people, survivors of sexual abuse, asylum seekers, elderly people, and people with drug and alcohol issues.

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
707001 St Lucia	3F or 6P	65.40	70.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Arts is UQ's largest program with over 40 study areas on offer, giving you the opportunity to explore the subjects you love across the humanities, social sciences and languages. You'll develop skills in written communication, problem-solving, critical thinking and interpersonal understanding, allowing you to think creatively, communicate effectively and examine the world around you. Structure your program with a range of majors and minors. Any major can also be studied as a minor. **Majors:** Aboriginal and Torres Strait Islander studies; ancient Greek, ancient history; ancient history/history; anthropology; archaeology; art history; Australian studies (minor only); Chinese; Chinese translation and interpreting; criminology; drama; economics; English; English literature; English as an international language; film and television studies; French; French advanced; gender studies (minor only); geography; German; history; Indonesian; international relations; Italian; Japanese; Japanese advanced; journalism and mass communication; Korean; Latin; legal education studies; linguistics; mathematics; media and digital cultures; music; music psychology (minor only); peace and conflict studies; philosophy; political science; popular music and technology; professional writing and communication; psychology; Russian (minor only); sociology; Spanish; sports studies; studies in religion; writing.

Career opportunities: With a well-rounded education, the ability to think, analyse, and write effectively and with the specialist knowledge gained in your major, you'll graduate with a range of career opportunities in government, community, not-for-profit and international organisations. **Dual degrees:** Refer to entries for: B Arts/B Education (Secondary); B Arts/B Tourism, Hospitality and Event Management; B Arts/B Laws (Hons); B Arts/B Social Science; B Business Management/B Arts; B Commerce/B Arts; B Communication/B Arts; B Computer Science/B Arts; B Economics/B Arts; B Engineering (Hons)/B Arts; B Information Technology/B Arts; B Journalism/B Arts; B Mathematics/B Arts; B Music (Hons)/B Arts; B Science/B Arts.

Bachelor of Arts/Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
707301 St Lucia	4F or 8P	76.20	76.55	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Learn to identify and analyse social concerns and problems, develop positions on social issues, and propose possible interventions. The arts component provides skills in written communication, problem-solving, critical thinking, and interpersonal understanding. It offers a choice of subject areas in the humanities and social sciences. The social science component provides expertise to develop strategies and help find solutions to social issues in the local, national and international arenas. **Majors:** Refer to Bachelor of Arts and Bachelor of Social Science. Students cannot take the sociology major or extended major in the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Arts and Bachelor of Social Science.

Bachelor of Communication

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
741001 St Lucia	3F or 6P	80.00	80.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Communication prepares you for a lifetime of creative and critical use of media and communication in industries, government and communities. This program gives you a strong foundation in writing, industry engagement (including internships), practice and production skills, and critical thinking. You'll develop expertise in multimedia and online content production, social media engagement and analytics,

community and stakeholder engagement, and campaign development. You specialise by choosing a major, alongside electives, or a second major or a minor. **Majors:** Digital media; public relations. Minors: interaction design; journalism; writing. Digital media, public relations and writing are also available as minors.

Career opportunities: Communication is an expanding area of employment and the Bachelor of Communication is a preparation for careers in public relations, advertising, media planning and analysis; film and television; web design and management; business communication; health promotion; and more. **Dual degrees:** Refer to entries for: B Communication/B Arts; B Communication/B Journalism; B Business Management/B Communication.

Bachelor of Communication/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
741201 St Lucia	4F or 8P	78.80	78.80	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The communication component develops critical awareness of how communication influences people's lives. Examine many forms of communication, including verbal, non-verbal and written, as well as various technologies through which information is transmitted. The arts component provides a flexible structure with a range of disciplines to choose from, and produces graduates with skills in written communication, critical thinking and problem-solving. You can choose from a range of majors, tailoring the degree to suit your career aspirations. **Majors:** Refer to Bachelor of Communication and Bachelor of Arts. Students cannot take the journalism and mass communication, media and digital cultures, or professional writing and communication majors in the Bachelor of Arts.

Career opportunities: Refer to Bachelor of Communication and Bachelor of Arts.

Bachelor of Communication/Bachelor of Journalism

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
741301 St Lucia	4F or 8P	80.70	80.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This dual degree explores the practices of journalism and the way in which the media and communication work together. In the communication component, you develop a critical awareness of how communication influences people's lives and specialise in areas of interest that tailor your career path. In the journalism component, you study reporting, investigation, editing, and communication and media contexts of journalism, creative problem-solving and learn to be an independent and reflective professional. **Majors:** Digital media; public relations. Minors: Interaction design and writing. Digital media and public relations are also available as minors. Students cannot take the journalism minor in the Bachelor of Communication.

Career opportunities: Refer to the Bachelor of Communication and Bachelor of Journalism.

Bachelor of International Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
707111 St Lucia	3F or 6P	82.10	84.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of International Studies focuses on developing language skills and knowledge of global issues from the perspective of relevant social science disciplines. You complete a major in a language other than English from the wide range of languages taught at UQ, and another major with strong international relevance. You develop cultural awareness through a compulsory global experience to effectively communicate across linguistic, cultural and political boundaries. **Note:** Options for accelerated study include summer semester. **Majors:** Chinese; Chinese translation and interpreting; economics; French; French advanced; German; Indonesian; international history; international inequality and development; international relations; Italian; Japanese; Japanese advanced; Korean; peace and conflict studies; Spanish.

Career opportunities: International agencies, global private sector, government or non-profit organisation such as UNESCO, UNICEF or the World Health Organization.

Bachelor of Journalism

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
737001 St Lucia	3F or 6P	80.00	80.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Journalism prepares you for a professional career researching, reporting, writing and telling stories across different media platforms, including digital, print, radio and television. Benefit from a progressive program that keeps pace with industry where you learn the principles and practices of new digital media production. Gain sought-after skills in field recording and camera work, editing of sound, vision and pictures, data analysis, publishing, and multimedia platform distribution. Prepare for a versatile and adaptable career with access to an onsite media and production support team as well as access to industry professionals, fieldwork and internship opportunities. **Majors:** Minors: Digital media; economics; film and television; political science; popular music and technology; public relations; sports studies; writing.

Career opportunities: Journalists, feature writers, magazine editors, news editors, directors of content and media production, digital journalists or bloggers, television and radio presenters, producers, researchers and writers, media advisers, programming associates and professionals, photojournalists, communications, corporate publishing roles. **Dual degrees:** Refer to entries for: B Business Management/B Journalism; B Communication/B Journalism; B Journalism/B Arts; B Journalism/B Laws (Hons); B Science/B Journalism.

Bachelor of Journalism/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
730101 St Lucia	4F or 8P	79.80	80.15	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The journalism component develops skills in collecting, assembling, analysing and presenting information. You develop strong skills in language and gain a good understanding of the media. The arts component develops skills in written communication, problem-solving, critical thinking, and interpersonal understanding. **Majors:** Refer to Bachelor of Arts. You cannot complete the journalism and mass communication or professional writing and communication majors in the Bachelor of Arts.

Career opportunities: Print, radio, television, multimedia, public relations, marketing and communications, public service, online content development, TV, publishing. Many large corporations employ journalists in a range of communications and public relations positions.

Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
747001 St Lucia	3F or 6P	76.15	76.15	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: In the Bachelor of Social Science, you develop a strong grounding in social justice, policy research, and links to industry. Our program provides a foundation in the practice-based skills, values and knowledge related to key social problems. Practical workforce skills include public policy design and evaluation, social impact assessment, public advocacy, social planning and research. **Majors:** Development; environment and society; health and social policy.

Career opportunities: You will be equipped with relevant and marketable skills including policy making and advocacy, public communication, cross-cultural awareness, report writing, project management and social research skills. These skills enable graduates to seek employment with organisations such as government departments, community service and advocacy agencies, healthcare providers, non-governmental organisations (NGOs), and in the business/private sector. **Dual degrees:** Refer to entry for: B Arts/B Social Science.

UNIVERSITY OF NEW ENGLAND

une University of New England

Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616011 Armidale	3F or 6P	68.35	68.35	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree equips students with creative, critical and analytical skills ideal for life-long learning. Graduating students have the subject(s) of their specialisation in the degree appear on their testamur, eg Bachelor of Arts (Psychology) or Bachelor of Arts (Theatre and Performance). **Majors:** Ancient history; archaeology; Australian history; Australian Studies; Chinese; classical languages; Community Development; Community Planning; Crime and Society; Criminal Justice, Cultural Heritage; Environmental Futures; French; Gender Studies; Genre, Adaptation and Practice; German; Global Politics; history; human geography; Indonesian; international history; International Law; Italian; Japanese; linguistics; Literary Traditions; Medieval and Early Modern Europe; music; peace studies; philosophy; physical geography; Planning and Design; Post-Colonial Studies; politics; psychology; screen and media studies; sociology; Spanish; studies in religion; theatre and performance; writing.

Career opportunities: Management, public relations, foreign affairs, education, business, human resources, research, psychology, archaeology, film and theatre, editing, publishing, tourism.

Combined degrees: Refer to entries for: B Arts/B Business; B Arts/B Laws; B Arts/B Science.

Bachelor of Arts/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
617531 Armidale	4F or 8P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree combines high-level communication and analytical skills with solid business knowledge. For external study, contact the UNE Future Students Team. **Majors:** Refer to Bachelor of Arts and Bachelor of Business.

Career opportunities: Financial sector, public relations, tourism, personnel and human resource management, publishing and editing, planning, foreign affairs, trade and industry.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Arts/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616581 Armidale	5F or 10P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree provides students with the flexibility to pursue a purely legal career as a practitioner or to build a career in another field, drawing on legal skills and knowledge. The law component includes compulsory fundamental units such as legal systems and method, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team. **Majors:** Refer to Bachelor of Arts.

Career opportunities: Management and administration, public and foreign relations, media, editing and publishing, private practice, legal aid, government, private sector companies, consultancy.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Arts/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
627591 Armidale	4F or 8P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods.

Course outline: This combined degree allows students to pursue interests in the arts, humanities and social sciences, and the physical or biological sciences. Students can study an arts major/extended major and a science major of their choice in preparation for a range of careers. The degree combines excellent communication and analytical skills with scientific knowledge and has been developed in response to increasing student demand and employer preference for recruitment of combined degree graduates. For external study, contact the UNE Future Students Team. **Majors:** Refer to Bachelor of Arts and Bachelor of Science (excluding animal science and veterinary studies; palaeobiology).

Career opportunities: Management and administration, heritage and archival, policy and public relations, media, tourism, editing and publishing, primary industries, resource management, water and land resources, teaching (with further study).

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Criminology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616201 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This interdisciplinary degree draws on criminology, forensic science, sociology of deviance, law, and criminal justice studies. Study includes criminal law, criminology, sociology, psychology, forensic science, and social work. In later years, students choose criminology elective units and undertake training in research methods, crime prevention, and social policy analysis to equip them with the skills for employment in the criminal justice sector. **Majors:** Criminal Justice and Society; Criminal Justice Processes and Forensics.

Career opportunities: Police officer, crime prevention coordinator, juvenile justice officer, drug policy adviser, crime intelligence services.

Combined degrees: Refer to entry for: B Criminology/B Laws.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds*

Bachelor of Historical Inquiry and Practice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616031 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree focuses on the professional development of historians. As it is recommended for professional historians to study a discipline relevant to their chosen professional specialty, and because historical inquiry is accepted as elemental to various professions beyond those conventionally associated with history, the course allows students to combine history with other disciplines. This facilitates an education in, for example, historical fiction and writing, social history and criminology, family history and sociology, national history and languages, and cultural history and music.

Career opportunities: Heritage, museums and archives, libraries, diplomacy and international affairs, media, consultancy, editing and publishing, administration, public policy, teaching (with further study).

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds*

Bachelor of Languages

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616771 Armidale	4F or 8P	67.80	67.80	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This course is for students wanting to pursue study in one or more languages (Chinese [Mandarin], French, German, Indonesian, Italian, Japanese, and Spanish). Students can spend two teaching periods studying university courses in the countries of their chosen languages. This in-country residence greatly enhances students' communicative skills and level of cultural awareness. For external study, contact the UNE Future Students Team. **Majors:** Chinese (Mandarin); French; German; Indonesian; Italian; Japanese; Spanish.

Career opportunities: Diplomatic service, foreign affairs, trade and industry, international teaching, travel, tourism, hospitality, social and welfare roles.

Bachelor of Media and Communications

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616401 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree develops knowledge of media and communications in their cultural and historical contexts. Graduates understand and apply a range of methods for studying forms of communication - print, film, television, new media, and diverse writing practices - and their role in modern society. Students can study disciplines related to media and communications, such as literature, theatre, language, music, sociology, history, political studies, or psychology. For external study, contact the UNE Future Students Team. **Majors:** Media and culture; writing and publishing.

Career opportunities: Journalism, radio and television film production, public relations, corporate writing, editing and publishing, research, marketing communications, advertising and communication strategy.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds*

Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616811 Armidale	3F or 10P	71.75	73.00	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This accredited degree provides a thorough grounding in psychology. Students can also explore areas of interest with psychology units in diverse areas such as Social Psychology (the study of human social behaviour), Biopsychology (the study of the biological bases of behaviour), Individual Differences and Assessment (study of individual differences in personality, intelligence and behaviour), and Psychopathology (the study of psychological disorders). Graduates with sufficient grades are eligible for entry to accredited fourth year psychology programs. **Note:** This course includes an optional minor in criminology or major in counselling.

Career opportunities: A wide range of public, private and non-profit settings, human service organisations, employment agencies, counselling services, personnel management, market research, health and community services.

Bachelor of Social Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616591 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This course gives students an ability to understand and research the social world from the points of view of both the individual (psychology) and the group (sociology). It equips students for the workplace by instilling the analytical and research skills they need in a complex environment. Students receive a solid grounding in both psychology and sociology. They can choose to specialise in psychology, sociology or another subject area. **Majors:** crime and society; criminal justice; organisational management; politics and peace studies; post-colonial studies; psychology; social and philosophical inquiry; social philosophy; sociolinguistics; sociology; urban and regional studies.

Career opportunities: Public and private sector, policy adviser, planning and research officer, market and social researcher, personnel officer, human resource management.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds*

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
616561 Armidale	4F or 8P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This degree provides students with the knowledge, theories and practical skills required to work as a professional social worker and eligibility to become a member of the Australian Association of Social Workers. Covering all the core requirements of an accredited professional social work degree, the course emphasises practice in rural and complex community environments, and focuses on rights-based practice, mental health, Indigenous peoples, child protection and the law. **Other requirements:** UNE field education units are compliant with the Australian Association of Social Workers requirements for practical experience.

Students undertake 1000 hours of fieldwork as two placements over two units. Students must meet the Inherent Requirements to complete this course. Additionally, the mandatory NSW Health Verification Requirements must be completed by week 9 of the first trimester of study. In addition, students must meet UNE requirements by week 9 of the first trimester of study. These include a valid Working with Children check for the state or territory in which the student will undertake placement and a National Criminal History Check.

Career opportunities: UNE's Bachelor of Social Work offers graduates career opportunities found in hospitals, government agencies (such as justice, housing and youth and child protection services), community-based family support and welfare agencies, women's refuges and community legal centres, city councils, mental health, disability and aged care facilities, schools and for-profit human services (e.g. private practice counselling, employment services).

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: You will explore the scientific discipline of psychology, in conjunction with a thorough grounding in traditional and contemporary counselling skills and theories, with an emphasis on integrative theory and practice. The program covers the core areas of psychological science including the main theoretical positions, recognises the scientific basis of psychology, and provides education in the range of methods and analyses that form an integral part of the scientific approach used in psychology; as well as introducing the foundations of the counselling discipline, engaging in the critique of theory and practice and grounding the skills work in evidenced-based ethical and professional standards. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must demonstrate to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Counselling services for individuals, families or groups, aged services, child protection, aged services, community health, community development, welfare work, disability services support, youth work, mental health, research.

Bachelor of Social Science (Psychology)/Bachelor of Criminology and Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
011231 Sunshine Coast	4F or 8P	53.00	55.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014331 Moreton Bay	4F or 8P	55.90	59.90	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: You'll explore the psychological dimensions of crime and crime-related applications of psychology. You'll examine the professional practice of psychology and develop an understanding of the scientific basis of psychological research. Earning two qualifications upon completion, graduates gain a competitive advantage in employment areas such as prisons and community correction, and in offender management programs. This course is designed to meet the national accreditation requirements adopted by the Australian Psychology Accreditation Council (APAC). Graduates can apply for further study to become a registered psychologist, clinical psychologist or pursue an academic career. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Health and education services, community work, exercise science, research, police, intelligence, customs, corrections, crime prevention, youth justice, child safety, legal administration.

Bachelor of Social Work

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
011151 Sunshine Coast	4F or 8P	57.55	59.55	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
019251 Fraser Coast	4F or 8P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014151 Moreton Bay	4F or 8P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
015051 Online	4OL or 8OL	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: You'll develop the ability to work with skill and passion to enhance the social wellbeing of individuals, groups and communities, both locally and globally. The social issues people experience in a dynamically changing world are often complex, and this program aims to produce graduates who can support change ethically across a diversity of needs, forms of disadvantage, and practice contexts. Students learn through a rich combination of academic and extensive work practice knowledge and approaches. The program is underpinned by principles of human rights, social justice and integrity as the foundation for professional social work practice **Note:** Second-year, third-year and fourth-year courses will be offered online progressively from 2023 onwards. Note that this degree requires some on-campus attendance for mandatory intensive classes. If applying online there will be a face to face component, where students will be required to attend campus for 20 days as required by AASW accreditation standards. This program includes compulsory placements in settings that require full COVID-19 vaccination. **Other requirements:** Students must complete two field education placements in third and fourth years at approved agencies. A Suitability Card (Blue Card) is required; refer to institution. The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Community-based and government roles in health, mental health, disability, schools, policy development, Centrelink, and child protection.

Combined degrees: Refer to entry for: B Social Work/B Criminology and Justice.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Social Work/Bachelor of Criminology and Justice

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: The Bachelor of Information Technology is a highly practical degree that will equip students with a broad foundation of IT knowledge and skills and embeds work-integrated learning opportunities to prepare them for a successful career in the information technology (IT) industry. Designed with input from industry partners, students benefit from innovative, up-to-date and industry-relevant units, as well as in-built practical experiences. Students will complete either an internship or capstone project to gain real-world skills wanted by employers. Designed in consultation with industry and accredited by the Australian Computer Society, students will have the choice to major in application development, business analysis, or cyber security. Students can tailor their studies even further to suit their career goals with a comprehensive choice of minors, designed to provide depth in a complementary discipline and reflecting emerging fields of IT. **Majors:** Application development; business analysis; cyber security. **Other requirements:** Students are able to undertake discipline capstone units while working with industry partners. Students have the option of undertaking an internship instead of the capstone units. For more information about course requirements, visit cqu.edu.au/courses.

Career opportunities: Graduates will be qualified to work in a range of sectors and roles including: application programmer; analyst programmer; ICT support technician; network administrator; systems administrator; web developer.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*
\+ *Regular offers will be made.*

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: CQUniversity's Bachelor of Information Technology (Co-op) will support students in launching a successful career in the information, communication and technology industries. This course enables students to acquire valuable experience through a supervised paid industry placement, typically of three months duration. The placement is an opportunity for students to earn while they learn, put theory into practice, and develop industry networks. Accredited by the Australian Computer Society, students will have the choice to major in application development, business analysis, or cyber security as well as a comprehensive choice of minors reflecting emerging fields of IT. **Note:** Students may choose to exit the degree early after completing a number of units and graduate with an Associate Degree of Information Technology or Diploma of Information and Communications Technology. **Majors:** Application development; business analysis; cyber security. **Other requirements:** Students undertake a compulsory paid industry placement. The normal duration of the placement is three months. Students may need to travel to and arrange appropriate accommodation in the location of the placement. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Application programmer; database administrator; ICT support technician; network administrator; systems administrator; systems analyst; web developer.

FEDERATION UNIVERSITY AUSTRALIA

Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041001 Brisbane	3F or 4–6P	New Course	New Course	Feb 2023 Jun 2023 Nov 2023	12 Jan 2023 8 Jun 2023
042001 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: Our newly restructured IT degree gives you the flexibility to complete stand-alone core subjects along with an in-depth specialisation of your choice. You may also enrol in electives from across the university, complementing your IT studies to tailor your own unique study plan.

Throughout the program, you will develop strong communication, academic, programming and problem-solving skills - critical attributes for success in the IT sector. Your acquired skills will help you facilitate smooth communication with software developers in web design, systems modelling and user experience.

Career opportunities: Communications officer, Computer engineer, Computer systems engineer, Data warehouse administrator, Database administrator, Database administrator developer, Hardware technician, Information officer, IT consultant, Integration analyst, IT manager, Multimedia application developer, Multimedia developer, Network engineer, Network manager, Programmer, Software engineer, Support officer, Systems administrator, Systems analyst, Systems designer, Systems manager, Team leader, Training officer, Web designer.

Bachelor of Information Technology (Business Information Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041138 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ⏚

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicant must be 16.

Course outline: This program examines organisational and technological issues required to analyse and design business information systems.

Throughout the program, you will develop an understanding of organisational settings, recognising technology threats and opportunities, utilising modern principles and theories with practical applications.

Subjects such as information security, multimedia, knowledge management, databases and emerging technologies in business will help you become familiar with the latest developments in IT, as well as different types of tools and their applications.

Electives will compliment your IT degree, allowing you to build your business acumen with subjects including the theory and practice of managing people to build knowledge and understanding of workplace behaviour. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online on our website.

Career opportunities: Business analyst, Computer engineer, Computer systems auditor, Computer systems engineer, Data modeller, Database administrator, Database designer, Electronic commerce administrator, Hardware technician, Business process analyst, Enterprise systems analyst, Information and data manager, Information management administrator, Information manager, Management consultant, Sales representative, Specialist consultant, Systems analyst, Systems designer, Training and support team leader, Training manager.

⏚ *Regular offers will be made.*

Bachelor of Information Technology (Networking and Security)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041148 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023 Nov 2023	12 Jan 2023 8 Jun 2023 ⏚

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicant must be 16.

Course outline: Learn how to defend business, government and individual databases that hold sensitive data. Employment in this area has experienced strong growth over the last ten years, and is forecast to continue.

Your specialisation in security will allow you to be on the frontline of the war in cyberspace and become familiar with methods attackers use. You will learn how to investigate and protect against security breaches on vulnerable private information, whilst developing an understanding of the security models provided by the major operating systems involved in modern computer networks.

Through core studies and practicals, you will delve into networks, their protocols and hardware, to investigate how these systems can be vulnerable to a malicious attack. Your problem solving skills will come to the fore when ethical hacking – testing a system to break-in or to find weak points.

As a network architect, or an IT security specialist, you can look forward to a varied career in information security or IT operations. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying online on our website.

Career opportunities: Network administrator, Ethical hacker, ICT security specialist, Network architect and designer, Networking and security officer, Product security manager.

Course outline: Computer science is a dynamic and developing field that is increasingly pervading every aspect of society. In this program, you will learn the fundamental principles underpinning computer science and learn practical software technology development skills for many different platforms, applications and emerging technologies. You will have the choice of studying topics such as programming languages, distributed computing, computer architectures, algorithms and operating systems, machine learning, intelligent systems, robotics, programming for web, mobile and embedded applications, scientific computing, visualisation and big data mining, and analytics. You can choose between one of two majors and also select from a range of elective courses. In the final year of your studies, you will complete a practical project for industry or research placement providing first-hand experience of the knowledge, skills and attributes required to succeed in full-time employment. **Note:** An option exists to exit with a Bachelor of Computer Science on completion of three years of study. **Majors:** Data science and artificial intelligence; software development. Alternatively, you can gain specialist knowledge across multiple areas by choosing the 'no major' option.

Career opportunities: This degree prepares students for careers as a software developer, computer programmer, web and mobile applications developer, data scientist, cyber security analyst, systems analyst, computer games programmer, specialist programmer, technical analyst, IT consultant, software systems architect and computer scientist.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234391 Gold Coast	3F or 6P	65.95	73.75	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
278015 Online	3F or 6P	67.50	72.05	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This premier technology degree combines the fundamental principles of computer science with practical software technology development skills. You'll study intelligent systems, software development, data mining and data analytics and gain skills in communication, leadership, innovative thinking and ethical practice. You'll also enhance your employment opportunities and gain valuable contacts through an industry-based project or placement. What's more, you will develop entrepreneurial thinking at Griffith's business accelerator space, giving you the skills needed to create your own start-up. **Majors:** Data science and artificial intelligence; software development. Alternatively, you can gain specialist knowledge across multiple areas by choosing the 'no major' option.

Career opportunities: As a graduate, you'll be prepared for jobs such as a software developer, computer programmer, software engineer, web and mobile applications developer, data scientist, systems analyst, games developer, software systems architect, cyber security engineer and computer science researcher.

Double degrees: Refer to entry for: B Engineering (Hons)/B Computer Science.

Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228612 Nathan	3F or 6P	61.20	67.95	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
234601 Gold Coast	3F or 6P	64.00	66.00	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** English, English as an Additional Language, Literature or English & Literature Extension (Units 3&4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Be at the forefront of a constantly developing industry, ready to help shape the future. With this degree, you'll achieve a high level of core IT technical knowledge and a major specialisation ensuring you're prepared for a career across a vast number of roles and industries. You'll gain an understanding of the fundamentals of computing technology, learn how to design and build websites, and develop skills in computer programming, data management, systems development and human-computer interaction. From second year, you'll choose one of three majors and develop more advanced IT skills in areas such as software development, information systems or networks and security. **Majors:** Information systems; networks and security; software development.

Career opportunities: Depending on your major, you may find a job as a systems analyst, business analyst, software developer, database administrator, systems administrator, network and security administrator, network architect, technical writer, web developer, app developer, game developer, computer engineer, educator or researcher. You'll be prepared for a career in commerce, corporate IT, government or private consulting.

Double degrees: Refer to entries for: B Criminology and Criminal Justice/B Information Technology; B Engineering (Hons)/B Information Technology; B Information Technology/B Business; B Science/B Information Technology.

Combined diplomas/degrees: This program can be combined with the following course at TAFE Qld: D Information Technology (Back End Web Development and Front End Web Development). Refer to entry for the diploma under TAFE Qld. Refer to entry under Griffith College for: D Information Technology/B Information Technology.

+ Regular offers will be made.

Bachelor of Information Technology/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228791 Nathan	4F or 8P	✦	✦	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
235611 Gold Coast	4F or 8P	62.20	69.90	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: If you're interested in owning and running your own IT business, or working within an organisation across departmental disciplines, this specially designed double degree is for you. You'll develop an in-depth understanding of commercial business, and gain technical proficiency in creating, using and integrating new information technologies. Enhance your employment opportunities by working on a practical project for external clients or undertake work-integrated learning through an industry placement. **Majors:** *Information technology:* information systems; networks and security; software development. *Business:* Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; government and international relations; human resource management; innovation and entrepreneurship; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in technology-related businesses, not-for-profit, government and corporate organisations. You'll be prepared for work as a business analyst, systems analyst, web app developer or mobile app developer. You may also find opportunities in business development, business management, marketing and sales, market research, and network and security administration.

✦ Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this next-generation IT degree, you will learn about trends in emerging technologies, coding, human–computer interactions and ICT problem-solving. You will choose between Internet of Things and Robotics, or Programming for Visualisation and Entertainment as your major, or do both. If you choose a single major you will have flexibility to study electives of your choice. In your final year, you will work on developing an intelligent digital technology solution for an industry partner, giving you both practical experience and valuable industry networks before you graduate. **Majors:** Internet of things (IoT) and robotics; programming for visualisation and entertainment.

Career opportunities: You'll be prepared for a career at the forefront of technology, as a web or mobile application developer for various cutting-edge technologies including virtual reality and augmented reality, 3D visualisations, IoTs, robotics, unmanned aerial vehicles, artificial intelligence and big data.

✦ Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.

JAMES COOK UNIVERSITY

Bachelor of Information Technology

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course provides students with essential knowledge and skills to work as information technology professionals in a fast-changing dynamic world. Core subjects in the areas of networks, web technologies, programming, serious games, information management and visualisation, databases, big data, network security, multidisciplinary project management, e-technologies and mobile technologies provide students with an array of career opportunities. This course is accredited by the Australian Computer Society (ACS). JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission

Career opportunities: Project manager, network administrator and designer, system analyst, software developer, application developer, IT researcher, IT manager, system administrator.

Combined degrees: Refer to entry for: B Engineering (Hons)/B Information Technology.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Information Technology)/B Information Technology.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 18 years. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C).

Course outline: Graduates are practitioners who work at the intersection of technology and innovation and are capable of making immediate and significant contributions to modern industry. This program teaches in-depth skills in technology along with the ability to critically reflect on the use of technology in society. Graduates have the design and systems thinking skills needed to develop complex technological systems that satisfy the diverse needs of communities, the environment and industry to deliver sustainable solutions to real-world problems. JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Majors:** Data science; information technology.

Career opportunities: Enterprise architect, intelligent systems designer, data analyst, technology policy adviser, IoT architect, digital innovation manager, technology design officer, digital product manager, ICT manager, digital strategist, research and innovation manager, technology fusionist, design thinking consultant.

310079 Online	1X or 2X	❖	❖	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course is for students who do not qualify for entry to bachelor degrees or are seeking additional skills development before bachelor degree study. Students study two core subjects plus a mix of introductory and first-year subjects within eight study streams. The information technology stream includes study of programming, interactive media, and internet fundamentals. On successful completion of the course, students can apply for entry to JCU information technology degrees and receive credit transfer for some subjects successfully completed.

The JCU Offer Guarantee does not apply to this course.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Information Technology)/B Information Technology.

Course outline: Refer to separate entries for Diploma of Higher Education (Information Technology) and Bachelor of Information Technology.
Note: Students must complete the Diploma of Higher Education internally and can complete the Bachelor of Information Technology externally. Students who successfully complete the diploma and meet the minimum English language requirements may matriculate into the Bachelor of Information Technology with a maximum of 21 credit points.

Career opportunities: Project manager, network administrator and designer, system analyst, software developer, application developer, IT researcher, IT manager, system administrator.

QUEENSLAND UNIVERSITY OF TECHNOLOGY

QUT

Bachelor of Data Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419982 Gardens Point or Online	$5^{1/2}$F or $5^{1/2}$OL	85.55	89.55	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: Use comprehensive knowledge of data science tools and techniques combined with a sophisticated understanding of the laws and legal system of Australia to make a difference in the real world. The data science component covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation. It provides cutting-edge coverage of ethical considerations, communication, collaboration and critical thinking skills. The intersection of data science with QUT's contemporary law degree will provide you with the knowledge and confidence you need to take advantage of employment opportunities in law and technology related fields. This course will help you understand and promote the ethical standards of the legal profession in the digital age, and design new technologies to aid the practice of law.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. You may wish to undertake a minor that focuses on technology and the law. Some law units are offered in summer for students wishing to accelerate their study. Check the course information for more detail.

Career opportunities: Refer to Bachelor of Data Science and Bachelor of Laws (Honours)

Bachelor of Information Technology/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419622 Gardens Point or Online	$5^{1/2}$F or $5^{1/2}$OL	81.35	88.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Course outline: This degree gives you the ability to practise law in light of the complex information and technology environments generated by manufacturers, data processing consultancies and private and government organisations. Alternatively, you can choose to practise as computing professionals specialising in legal applications, information systems, or security. In the law component, you develop advanced legal research and writing skills, and skills in interviewing, advocacy and dispute resolution. The course covers all academic subjects required for admission to legal practice.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 90.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. You may wish to undertake a minor that focuses on technology and the law. Some law units are offered in summer for students wishing to accelerate their study. Check the course information for more detail. **Majors:** Refer to Bachelor of Information Technology.

Career opportunities: Legal careers specialising in cyberlaw, intellectual property and legal regulation of the internet, legal practitioner, government lawyer, policy adviser. Refer also to Bachelor of Information Technology and Bachelor of Laws (Honours).

Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418871 Gardens Point or Online	3F or 6P or 3–6OL	80.90	84.90	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course produces graduates with well-developed analytical and problem-solving skills and the ability to use data science in a range of applications.

The degree covers the necessary theory and the practical tools for data acquisition, storage, management, processing, analysis and visualisation.

Ethical considerations, communication, collaboration and critical thinking skills are all given first-class coverage.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. Part-time on-campus students should note daytime attendance is required. Some lectures and tutorials may have evening sessions. Check the course information for more detail.

Career opportunities: Data science graduates are employed across a wide range of areas. These include, but are not limited to, finance, investment, data analytics, defence and national security, research, information technology, engineering modelling and simulation, environmental science, health, management, marketing, logistics, media, and education.

Double degrees: Refer to entries for: B Business/B Data Science; B Creative Industries/B Data Science; B Communication/B Information Technology; B Creative Industries/B Data Science; B Data Science/B Laws (Honours); B Information Technology/B Property Economics.

Bachelor of Data Science/Bachelor of Property Economics

		Unadjusted	Adjusted		
419992 Gardens Point or Online	4F or 8P or 4–8OL	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course allows you to combine your interest in the property industry in the Australian and international economy with a data science degree and graduate with a diverse set of skills to enhance employment options in both fields. Across this double degree, you benefit from meaningful connections with high profile industry employers, practical and effective hands-on learning experiences during their studies, classes with leading and expert teachers, international study and placement opportunities, and the convenience of a city-based campus.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. Part-time on-campus students should note daytime attendance is required. Some lectures and tutorials may have evening sessions. Check the course information for more detail. **Other requirements:** You must complete 30 days of approved professional work.

Career opportunities: Refer to Bachelor of Data Science and Bachelor of Property Economics

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Games and Interactive Environments

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418102 Gardens Point	3F	67.20	70.80	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Course outline: This degree allows the development of creative skills ranging from the technical to the artistic.

You gain experience in the entire process of game and interactive media development, from identification and evaluation of ideas, creation of design concepts, critique of existing and potential products, analysis of cultural impact and industry trends, through to the development and delivery of a final product.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Animation; game design; software technologies.

Career opportunities: Depending on subject choice: games/digital media programmer, game designer, simulation developer or designer, animator, film and television special effects developer, games/digital media reviewer, video games tester, web developer, software engineer.

Double degrees: Refer to entries for: B Business/B Games and Interactive Environments; B Games and Interactive Environments/B Mathematics; B Science/B Games and Interactive Environments.

Combined diplomas/degrees: You can combine this course with the QUT Diploma in Esports.

It can also be combined with the Diploma of Information Technology at TAFE Qld - Greater Brisbane. Refer to entries for the diploma under TAFE Queensland at qtac.edu.au.

Bachelor of Games and Interactive Environments/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418672 Gardens Point	4F	81.40	85.40	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This double degree consists of units in both mathematics and interactive environments. It enables you to apply mathematical skills to the games design industry.

Mathematics students complete core units in mathematics and a major from applied and computational mathematics, operations research or statistics. Interactive environments students complete a major from animation, game design or software technologies.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Games and Interactive Environments and Bachelor of Mathematics.

Career opportunities: Refer to Bachelor of Games and Interactive Environments and Bachelor of Mathematics.

Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418801 Gardens Point or Online	3F or 6P or 3–6OL	67.15	70.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Course outline: This degree equips you to build and apply information technology solutions across diverse industries. A hands-on, work-integrated curriculum allows you to explore areas in information technology, and gain a deep understanding in your chosen specialty. You use your creativity and people skills to maximise the impact of your technical know-how to enable you to deal with technologies that have not been invented yet.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 77.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank. **Note:** Study your way - study on campus or online, or try a blended approach. There may be specific times you need to be online, or physical attendance for a study block, placement or exams. Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. Check the course information for more detail. **Majors:** Computer science; information systems.

Career opportunities: Depending on subject choice: business analyst, information technology consultant, database administrator, data analyst, website planner, application developer, games programmer, web administrator.

Double degrees: Refer to entries for: B Business/B Information Technology; B Communication/B Information Technology; B Creative Industries/B Information Technology; B Design/B Information Technology; B Education (Secondary)/B Information Technology; B Engineering (Honours)/B Information Technology; B Information Technology/B Laws (Honours); B Information Technology/B Mathematics; B Science/B Information Technology.

Combined diplomas/degrees: You can combine this course with the QUT Diplomas in Entrepreneurship, Esports, or Information Technology.

It can also be combined with the Diploma of Information Technology at TAFE Qld - Greater Brisbane. Refer to entries for the diploma under TAFE Qld.

Bachelor of Information Technology/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418552 Gardens Point	4F	76.85	84.65	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained

age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: In first year, you receive and build a foundation in mathematics and information technology.

Mathematics students select units from the areas of applied mathematics, computational mathematics, mathematical modelling, operations research, scientific computation and visualisation, and statistics and statistical modelling.

Information technology students receive a work-integrated curriculum, allowing them to explore areas in information technology and gain deep understanding in their chosen specialty.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Information Technology and Bachelor of Mathematics.

Career opportunities: Data visualisation, operations research, computational science, statistics, security, cryptology, complex system and scientific modelling. Refer also to Bachelor of Information Technology and Bachelor of Mathematics.

Diploma in Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
420301 Kelvin Grove	1F or $1^{1/2}$P	59.65	60.60	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); General Mathematics, or Mathematical Methods, or Specialist Mathematics (Units 3 & 4, C).

Course outline: The Diploma in Information Technology is a pathway program designed to help you successfully progress to the Bachelor of Information Technology. It provides a hands-on approach that allows you to explore areas in information technology and gain an understanding in both computer science and information systems. The Diploma also focuses on developing your academic skills for future success. A highly supportive learning environment with smaller class sizes ensures a more personalised learning journey and a seamless transition to university studies.

Combined diplomas/degrees: Upon completion of this diploma, you will be automatically offered a place in the Bachelor of Information Technology. Each of your diploma units will be credited to the degree.

SOUTHERN CROSS UNIVERSITY

Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
052361 Gold Coast	3F or 6P	❖	❖	Mar 2023	12 Jan 2023
052031 Coomera	3F or 6P	❖	❖	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: The degree prepares skilled graduates for a myriad of industries. The program focuses on the development of web-based business applications and includes an optional internship. Students undertake studies in programming, systems analysis and design, cyber security, database development, networking and communications theory. They learn about issues confronting the information and communications technology industry, including employer obligations, employee rights, impacts on society, and future directions of the industry. Students can also undertake a workplace internship. This course is also available online and at Coomera campus; contact Southern Cross University. **Majors:** Big Data technologies; digital interaction and user experience; networking and cybersecurity; software development.

Career opportunities: Software developer, user-experience designer and developer, web or app developer, systems analyst, data analyst, network analyst.

TAFE QUEENSLAND

Bachelor of Digital Design (Digital Media)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555300 South Bank	3CL	☆	☆	Feb 2023 Aug 2023	12 Jan 2023 20 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Take the next step in your digital media career with this degree and gain specialist knowledge and skills needed to work across a range of creative areas from animation to virtual reality (VR). Delivered in partnership with the University of Canberra, you'll develop the expertise required to create complex interactive media. During this course you will develop an understanding of how digital technology has revolutionised the way we communicate, work, learn and play. You'll gain up-to-date skills using industry-standard technologies in virtual and augmented reality, digital photography, digital audio, interactive fiction, video and animation. You'll also have the opportunity to combine university thinking with hands-on learning through project work, internships, professional experience and mentorships. Upon successful completion you may be able to find work across a range of creative areas. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses/18968/bachelor-of-digital-design-digital-media.

Career opportunities: Digital media designer, digital media producer, multimedia artist, animator, digital photographer, videographer, virtual and augmented reality designer, creative director.

☆ *All qualified applicants were offered a place.*

Bachelor of Digital Design (Game Design)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555297 South Bank	3CL	☆	☆	Feb 2023 Aug 2023	12 Jan 2023 20 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: This degree course will take students through all video game and interactive digital media aspects from concept to production. Delivered in partnership with the University of Canberra, this degree develops specialist skills and knowledge in the theory and production of game art, game design, and interactive digital media. In this course students will develop an understanding of the game design and production process from concept development through to the production methodologies that are applied in today's leading game studios. Students will develop skills and knowledge in concept art, 3D modelling and sculpting, 3D texturing, animation, and real time rendering. Learners will also have the opportunity to collaborate with film makers, musicians, visual artists, actors, and other teams across the broad creative industries spectrum, working on real commercial projects from within the TAFE Queensland games production studio. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses/17902/bachelor-of-digital-design-game-design.

Career opportunities: 3D animator, 3D game artist, level designer, interface designer, concept artist, game designer, game producer, interactive designer.

☆ *All qualified applicants were offered a place.*

Bachelor of Digital Design (Visual Communication Design)

In partnership with UNIVERSITY OF CANBERRA

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555301 South Bank	3CL	☆	☆	Feb 2023 Aug 2023	12 Jan 2023 20 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Harness your creativity with this hands-on degree and learn how to communicate and organise information in visually accessible ways across a wide variety of media and contexts. Delivered in partnership with the University of Canberra, this degree has a strong focus on visual communication in the global marketplace and how to design for both business and consumer audiences. Throughout this course you'll develop a thorough knowledge of typography, logotype design, layout, publication design, environmental graphics, packaging and digital design. You'll gain skills required to employ innovative uses of different visual and emerging media types and develop effective design solutions for specific audiences. Through collaboration and live industry briefs you'll also have the opportunity

to combine university thinking with hands-on learning. Upon successful completion of this course you'll have also developed a portfolio of work and be well equipped to take on a variety of design roles. **Note:** This course is delivered by TAFE Queensland in partnership with the University of Canberra. It is a Commonwealth supported place. For more information visit tafeqld.edu.au/courses/18967/bachelor-of-digital-design-visual-communication-design.

Career opportunities: Graphic designer, visual designer, multimedia designer, digital designer, illustrator, design researcher, design strategist, creative director.

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: In this specialisation students will learn how to build dynamic websites and web pages. Students will also learn how to match ICT needs and provide strategic direction to the business environment, including how to promote workplace cyber security. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Web developer, independent web developer, in-house web developer.

Combined diplomas/degrees: The Diploma of Information Technology (Back End Web Development and Front End Web Development specialisation) can be combined with other programs as listed below to attain the awards of Diploma of Information Technology (Back End Web Development and Front End Web Development specialisation) from TAFE Queensland and the relevant degree from the university. Students undertake initial study at TAFE Queensland and complete the degree at the relevant university. Duration, location, mode of study, semester intakes, electives and specialisations may vary. **All mandatory university admission and English language requirements must be met before university enrolment is finalised.** For more information contact the relevant university. **Note:** TAFE Queensland students making a transition to the degree may need to wait six months to start with the semester one university intake.

To apply for a combined diploma/degree, applicants must select the Diploma of Information Technology (Back End Web Development and Front End Web Development specialisation) for the relevant TAFE Queensland location on their application and then nominate their preferred degree/university (one only). Applicants can list the stand alone diploma or the combined program but not both. Listing more than one is not needed because they have the same eligibility and ATAR/rank requirements.

D Information Technology (Back End Web Development and Front End Web Development specialisation)/B Information Technology:

555234 South Bank/Griffith University (1CL & 2F)

504240 Springfield/Griffith University (1CL & 2F)

THE UNIVERSITY OF QUEENSLAND

THE UNIVERSITY OF QUEENSLAND AUSTRALIA

Bachelor of Computer Science/Master of Cyber Security

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
733411 St Lucia	4F or 8P	92.60	97.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combining a Bachelor of Computer Science and a Master of Cyber Security in a dual program offers students a unique opportunity for extended study into a field within computer science that significantly impacts today's world: cyber security. You'll graduate with a combination of high-level technical skills and a global perspective on cyber security and information security fundamentals – skills that are in high demand from some of the world's biggest technology corporations. With the Bachelor of Computer Science you'll combine theory with hands-on experience and gain a deeper understanding of all aspects of computer technology. Then, with the Master of Cyber Security, you will develop an understanding of the global cyber security landscape, informed by industry and government experts, to find better ways to defend, adapt and lead for a resilient, more productive digital world. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** One major in B Computer Science: Cyber Security, Data Science, Machine Learning, Programming Languages, Scientific Computing

One field of study in M Cyber Security: Cyber Defence, Cryptography **Other requirements:** Students must pass all courses in order to progress into the Master of Cyber Security component of this dual degree.

Career opportunities: Policy adviser, cyber insurance advise and provider, IT auditor, high tech crime unit police officer, digital forensics specialist, cyber security analyst, cyber criminologist.

Bachelor of Computer Science/Master of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
733421 St Lucia	4F or 8P	93.45	97.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combining a Bachelor of Computer Science and a Master of Data Science in a dual program offers students a unique opportunity for extended study into a field within Computer Science that significantly impacts today's world: data science. With this vertical dual degree, you'll learn how to make informed decisions in data-intensive environments and graduate with a combination of high-level technical skills and a capacity for creative and disruptive thinking, ready to solve big data challenges across business, social, government and health data. In the Bachelor of Computer Science, you'll combine theory with hands-on experience and gain a deeper understanding of all aspects of computer technology. Then, through the Master of Data Science, you'll study advanced topics from computing, statistics and mathematics, and your choice of electives from business, finance, health or science. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Cyber Security, Data Science, Machine Learning, Programming Languages, Scientific Computing **Other requirements:** Students must pass all courses in order to progress into the Master of Data Science component of this dual degree.

Career opportunities: Market researcher, data scientist, risk analyst, supply chain analyst, business intelligence analyst, data miner, actuarial and analytics consultant.

Bachelor of Computer Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
733901 St Lucia	5F or 10P	96.25	98.25	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: In this five-year dual program you'll combine theory with hands-on experience to learn how to create and analyse computer-based systems, combined with a practical grounding in legal theory in a broad range of areas important to the technology industry. In the Law component you'll develop personal and professional skills you can transfer across a wide range of careers in technology. In the Computer Science component, you'll gain the solid technological foundations and skills to play a critical role in creating, developing, implementing and evaluating new systems and technology for use in our society. The law program includes a core of prescribed courses and a range of electives, while the computer science program allows you to specialise in cyber security, data science, machine learning, programming languages or scientific computing. Graduate with an internationally respected qualification in law and advanced knowledge and technical skills in computer science – skills in high demand from some of the world's biggest corporations. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to Bachelor of Computer Science.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Laws.

Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
733401 St Lucia	3F or 6P	84.30	86.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: The Bachelor of Computer Science is a 3 year program designed to provide a deeper understanding of all aspects of computer technology, where you'll combine theory with hands-on experience to learn how to create and analyse computer-based systems. You'll develop the analytical, logical and development skills necessary to advance computing and its applications and graduate with skills that are in high demand from some of the world's biggest technology corporations. **Majors:** Cyber security; data science; machine learning; programming languages; scientific computing.

Career opportunities: As a computer science graduate, you have the skills to play a key role in creating, developing, implementing and evaluating technology. As technology evolves, growing demand will create opportunities in finance, energy, transport, health, communications and more. You can expect to find employment in a range of professions. You are equipped with the foundational theory and practical skills to invent, develop and analyse systems that could affect billions of people worldwide. **Dual degrees:** Refer to entries for B Computer Science/B Arts; B Computer Science/B Business Management; B Computer Science/B Commerce; B Computer Science/B Science; B Engineering (Hons)/B Computer Science; B Mathematics/B Computer Science; B Computer Science/ M Cyber Security; B Computer Science / M Data Science.

Bachelor of Computer Science/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
733501 St Lucia	4F or 8P	86.50	86.50	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: In this dual program you will develop a deep knowledge in computer science and broad transferable skill sets through your study in arts. Your studies in computer science will combine the theory of algorithms and data structures with the practical challenges of implementing them in hardware and software systems. Skills learnt in this program are used in fields ranging from bioinformatics to digital humanities, where sophisticated knowledge in programming and data analysis are used to manipulate massive data sets. The Bachelor of Arts component allows you to choose from a wide variety of majors to either complement your computer science studies or your knowledge in another field, which can help you find a future role in a related industry. The broad skill set you develop through the program will help you apply your computing knowledge and skills outside of the technology sector. You'll graduate as a candidate who combines technical skills, critical thinking and problem-solving abilities with polished communication skills and honed creativity. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to the Bachelor of Computer Science and the Bachelor of Arts.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Arts.

Bachelor of Computer Science/Bachelor of Business Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
733701 St Lucia	4F or 8P	85.00	87.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: The dual Bachelor of Computer Science / Bachelor of Business Management program is designed to position you as a strategic business leader, ready to tackle the technological and business challenges of the future. Gain a deeper understanding of all aspects of computer technology and graduate with technical skills that will allow you to create and analyse computer-based systems, while developing skills that will help you adapt in rapidly changing business environments. You'll study topics including entrepreneurship, human resources, marketing, management, business technologies, and advanced computing applications. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Refer to the Bachelor of Computer Science and Bachelor of Business Management.

Career opportunities: Refer to the Bachelor of Computer Science and the Bachelor of Business Management.

Bachelor of Computer Science/Bachelor of Commerce

Prerequisites: Applicant must have completed Year 12 or equivalent. **Additional entry information:** Completed Year 12 or equivalent. Other admission pathways are available to applicants.

Course outline: Drive innovation in the age of Industry 4.0 using emerging technologies. Co-designed with industry, our Bachelor of Information Technology is the qualification you need to meet the demands of an ever-changing global market. Preparing you to join the next generation of ICT professionals, this degree teaches you how to leverage smart and emerging technologies.

You'll learn how to solve highly technical problems, and cover foundational studies in programming, human-centred design, software engineering, enterprise computing, cloud architecture and more. You have the opportunity to undertake work experience and choose from a variety of electives, including software development, data analytics, AI, web development and UX, game programming and cybersecurity.

Industry partners and work placements:

The big difference at Billy Blue College of Design at Torrens University Australia is that you'll start working in the design industry from day one – gaining valuable experience, learning from industry professionals and making industry connections. We have a strong network of partners and are always welcoming opportunities to build new relationships in the design world.

Career opportunities: Career paths:

Solutions architect

Network designer

Data engineer

Software developer

System developer

IT project manager

+ Regular offers will be made.

LAW

AUSTRALIAN CATHOLIC UNIVERSITY

Bachelor of Laws (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
116622 Brisbane	4F or 8P	0.00	0.00	Feb 2023	12 Jan 2023

Prerequisites: Prior study. **Additional entry information:** Completion of a three-year bachelor degree or higher qualification.

Course outline: This three year accredited Law program will equip you with the legal knowledge and practical experience to meet the challenges of 21st century legal practice. Your studies will focus on developing practical commercial legal knowledge and an awareness of the international dimensions of law, while promoting critical thinking, ethical decision-making and social justice principles. The degree aims to develop ethical and professionally skilled graduates with a breadth of knowledge in areas relevant to legal practice and an appreciation of the law's interaction with other disciplines as well as its international dimensions. The core content is built around themes of commercial legal practice, international and human rights law and ethical practice, with a commitment to social justice and engagement with the community through a pro bono practical placement program. **Other requirements:** Students undertake legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Private legal practice, in-house counsel to corporations, legal officer in the public sector, legal work in community legal centres, research projects, national regulatory bodies.

Bachelor of Arts/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
116601 Brisbane	5F or 10P	91.55	99.95	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This double degree is designed to produce well-rounded graduates ready for legal practice and a range of professional careers in an increasingly global environment. As a graduate of this double degree, you will be well placed to develop specialist legal practice in a wide range of fields. This includes education, cultural institutions, commerce and industry, communications, community and charitable organisations, creative industries, social and policy research, tourism and travel. The course is designed for students who want to combine studies in arts, humanities or social sciences with sound legal skills. **Majors:** Business studies; drama; education studies; history; English; music; philosophy; sociology; study of religions; theological studies; visual arts. **Other requirements:** Students must take a number of core and program units in Arts, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Government and non-government organisations, media and communications, arts and cultural organisations, higher education, business sector, not-for-profit organisations, historian, social scientist, political analyst, teaching (with further study), private legal practice, legal offices, legal researching, in-house legal counsel.

Double degrees: Refer to entries for: B Arts/B Commerce; B Arts/B Global Studies; B Teaching (Secondary)/B Arts (Humanities).

Bachelor of Biomedical Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
115942 Brisbane	5F or 10P	74.85	83.85	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: This double degree is designed to produce well-rounded graduates ready for legal practice and a range of professional careers in an increasingly global environment. They will have a foundation on which to develop specialist legal practices in a wide range of fields, including the pharmaceutical and medical technology industries. The biomedical science component trains students in the core areas of anatomy, physiology, biochemistry, pharmacology, immunology and microbiology. Students learn how the human body functions, what causes disease and how disease is treated. **Other requirements:** Students must undertake two units of workplace learning with an external organisation of their choice, as well as legal pro bono work which provides firsthand experience of the legal system.

Career opportunities: Pharmaceutical and medical technology industries, marketing, medical, legal, research and quality assurance working in hospitals, universities or the public health sector, private legal practice, government regulatory bodies, in-house counsel for corporations.

		Unadjusted	Adjusted		
856105 Online	3X or 4X	75.95	75.95	Nov 2022 Mar 2023 Jul 2023 Nov 2023	25 Aug 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Through the Bachelor of Laws, students will learn all the areas of law required to satisfy professional accreditation through the Legal Practitioners Admissions Board. The course enables graduates to proceed to practice as a legal practitioner after completing the required professional training. Students learn about legal procedures and key legislation, and are given the opportunity to develop skills necessary to identify, analyse and evaluate facts in relation to legal frameworks. **Note:** The Bachelor of Laws is a three-year full-time or four-year part-time undergraduate degree. The full course cannot be completed in less than three years due to the course structure. **Other requirements:** Students will be able to undertake, at their option, an overseas or domestic practicum placement or engagement with a complex work simulation. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: The Bachelor of Laws prepares graduates for a career as a legal professional. Aside from the traditional roles as a solicitor, barrister or in-house counsel, a law degree is useful for careers in academia, business, the public service and politics.

Combined degrees: Students may wish to consider dual degree options such as: Bachelor of Laws and Bachelor of Accounting, Bachelor of Laws and Bachelor of Arts, Bachelor of Laws and Bachelor of Business, Bachelor of Laws and Bachelor of Criminology, Bachelor of Laws and Bachelor of Information Technology, Bachelor of Laws and Bachelor of Property, Bachelor of Laws and Bachelor of Science (Psychology).

+ Regular offers will be made.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This course is designed to enable students to gain entry into the legal profession combined with business knowledge and skills. Throughout the course, students will learn about legal procedures and key legislation, develop skills necessary to identify, analyse and evaluate facts in relation to legal frameworks. The core areas of the law degree match those required for admission to the legal profession including statutory interpretation, criminal law and procedure, contracts, torts, constitutional law, equity, administrative law, property, company, evidence, professional responsibility and civil procedure. Students may also choose to major in accounting, financial planning, human resource management, management, marketing, or property. **Majors:** Accounting; financial planning; human resource management; management; marketing; property. **Other requirements:** Depending on the units studied, students may have the option to complete a business internship in this course. This will take the form of an industry placement. Students may also have the option to complete an overseas, domestic practicum placement, or engagement with a complex work simulations as part of their studies.

Career opportunities: Solicitor, barrister or in-house counsel, public relations, property, accounting, marketing, human resource management.

+ *Regular offers will be made.*

Bachelor of Laws and Bachelor of Criminology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850597 Online	5X or 10X	80.10	80.10	Nov 2022 Mar 2023 Jul 2023 Nov 2023	25 Aug 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: This exciting double degree prepares students for a wide variety of career paths within the burgeoning law and justice fields. This course enables graduates to proceed to practice as a legal practitioner after completing the required professional training. During the course, students will learn about legal procedures and key legislation, and be given the opportunity to develop skills necessary to identify, analyse and evaluate facts in relation to legal frameworks. Throughout this course, students will integrate insights from sociology, philosophy, social theory, politics, psychology and other relevant disciplines to solve problems of crime, violence and conflict in society. This double degree puts the law into context and is particularly valuable for those graduates who intend to practise in criminal law **Other requirements:** Some elective units in the law component may require students to complete work placement or an overseas placement. Students will complete a criminology capstone unit, and have the choice of a research capstone or work placement capstone. The criminology work placement capstone unit enables students to apply the theories, content knowledge and skills they have learned to a workplace environment. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Solicitor, barrister, government legal officer, judicial officer, law academic, company director, in-house counsel, diplomat and politician. Law graduates are required to undergo a period of practical legal training before admission as a legal practitioner and can practice law in Australia.

+ *Regular offers will be made.*

Course outline: If you want a legal role within the arts or the influential media industry, this double degree will suit you. You'll learn about contemporary culture and society, media and the arts, and languages and cultures. You'll team this with the legal skills and knowledge needed for a career in law. With a range of arts majors and minors, and hundreds of electives to choose from, you'll have the freedom to create your own unique skill set. You may choose to pursue a legal career, combine your skills to work as a specialist media or arts lawyer, or use your arts qualification to take advantage of a wide spectrum of career opportunities. **Majors:** *Arts:* creative writing; criminal justice; drama; history; Indigenous studies; Islam-West relations; journalism; language, culture and society; languages (Chinese, French*, German*, Indonesian*, Italian, Japanese, Korean*, Modern Greek#, Spanish); literary studies; popular culture; psychology; security and international studies; social justice; sociology; strategic communications. *Via cross-institutional study with The University of Queensland. #Online via cross-institutional study with Flinders University, South Australia.

Career opportunities: Your dual qualifications will prepare you for a career in legal practice, specialising in media or arts law, other areas of law, or in the arts, media organisations, business or government.

Bachelor of Laws (Honours)/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226711 Nathan	5 1/2F or 8P	76.15	82.20	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
236711 Gold Coast	5 1/2F or 8P	74.30	82.30	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: With this double degree, you'll develop an understanding of the fundamentals of business and specialised legal skills. As a graduate, you'll be prepared to help organisations make crucial decisions that can affect their success. In the law component, you'll focus on core areas of legal practice and crucial legal knowledge. You will have the opportunity to gain practical legal skills, insights and experience through clinical courses. In the business component, you'll learn about core business concepts before focusing on your chosen major. **Majors:** *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: The corporate world values graduates in law and business. As a graduate, you'll have knowledge and skills in two disciplines that are in strong demand across the private and public sectors. You'll be prepared for a career in professional legal practice, commerce and industry, human resources, marketing, management, or the public service.

Bachelor of Laws (Honours)/Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226631 Nathan/Mt Gravatt	5 1/2F or 8P	74.45	82.45	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
236631 Gold Coast	5 1/2F or 8P	75.70	82.20	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: As the study of the causes of crime and society's response through the justice system, criminology is of natural interest to criminal lawyers. In this degree, you'll combine your studies of law with studies in criminology and criminal justice to give you a holistic view and thorough understanding of the intersection between crime and the law. You'll develop academic and professional knowledge along with the analytical and practical skills you need for a career in law, criminology and criminal justice. You'll also gain a strong understanding of the complex environments in which crime occurs, and the changing nature of the legal responses that must be applied.

Career opportunities: Studies in law and criminology and criminal justice are complementary and a double degree will expand your career opportunities across the legal, crime prevention and criminal justice professions. With a Bachelor of Laws (Honours) you will be prepared for a career as a solicitor or barrister, after gaining professional recognition, along with many other options. The Bachelor of Criminology and Criminal Justice will offer you opportunities in policing and security, intelligence, probation and parole, child protection, crime analysis, courts and justice services, crime prevention and regulatory agencies. You will be prepared for a career in areas such as law enforcement, working directly with offenders in welfare and counselling roles, and in criminological research and policy roles. You can also find opportunities in business and government and in areas such as academia, administration, banking, finance, industrial relations, and management.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Criminology and Criminal Justice/B Laws (Honours)/B Criminology and Criminal Justice.

Bachelor of Laws (Honours)/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226851 Nathan	5 1/2F or 8P	85.35	93.35	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
236851 Gold Coast	5 1/2F or 8P	79.85	85.85	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Environmental problems generally involve issues of science, technology, economics, law and human values. In this double degree, you'll explore how understanding these issues can help resolve environmental problems. You'll develop an understanding of environmental economics, environmental ethics, environmental law and governance and the national and international policy contexts, and their relevance to environmental management. You'll be equipped with the skills required of an environmental practitioner and will have the opportunity to undertake capstone projects or an industry placement.

Career opportunities: You'll be prepared for professional practice in environmental and planning law, and careers in government, industry, environmental organisations and development companies.

Bachelor of Laws (Honours)/Bachelor of Government and International Relations

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226731 Nathan	5 1/2F or 8P	76.25	82.25	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
236731 Gold Coast	5 1/2F or 8P	74.20	82.20	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Combining government and international relations with law will help you develop a solid understanding of the world. In the law component, you'll study core courses necessary for admission to practice, and elective courses in areas such as global and international law and law and commerce. In the government and international relations component, you will learn about political institutions and processes, business-government relations, foreign policy and globalisation. As part of this degree, you will have the opportunity to complete either a parliamentary internship or a work placement. **Majors:** *Government and international relations:* international relations; politics and public policy.

Career opportunities: You'll be prepared for a career in the legal profession, with a special interest in public law or international issues. A double degree with Government and International Relations will provide you with a variety of opportunities providing advice to government and business leaders, developing policy and managing programs in areas such as economic, environmental and social policy, diplomacy and trade relations. You may also find a job in foreign ministries, defence departments, intelligence and aid organisations, or work in political risk assessment and humanitarian

logistics, or for organisations such as the United Nations and its agencies. With your strong analytical and critical thinking skills, you'll be able to pursue work in a broad range of sectors including the government, international organisations, media, political parties, a range of business environments and the not-for-profit sector.

Bachelor of Laws (Honours)/Bachelor of Psychological Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
226801 Nathan/Mt Gravatt	5 1/2F or 8P	75.65	83.20	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
236801 Gold Coast	5 1/2F or 8P	74.65	82.65	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Additional entry information:** Griffith ATAR Guarantee applies to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Combining law with psychological science will give you a unique skill set that will prepare you for work either in the community sector, or in commerce and industry. You'll learn how to apply psychological theories to topics such as thinking and perceiving, motivation, stress, health, criminal activity, and group behaviour. You'll also learn about the principles of counselling and how to evaluate and understand tests that measure intellectual, behavioural and emotional states. You'll undertake a professional practice placement to enhance your skills.

Career opportunities: You'll be prepared for work in community legal centres or in other support organisations and in business organisations. You'll also be well positioned to seek a career in forensic psychology.

JAMES COOK UNIVERSITY

Bachelor of Arts/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
311521 Townsville	5F or 10P	68.00	74.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
321521 Cairns	5F or 10P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
311529 Online	5X or 10X	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: Students acquire the academic qualification for admission to practise as a lawyer. The course is suitable for students wanting legal knowledge and skills for work in other occupations. First-year students acquire foundation law skills and knowledge. In final year, students choose electives to develop specialist knowledge through the study of legal issues directly affecting society. When combined with an arts major, students graduate with a broad knowledge of society and culture, key communication skills, research and critical analysis. Accredited by the Legal Practitioners Admissions Board and Chief Justice.

JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Majors:** Not all majors available at all campuses, refer to entry for Bachelor of Arts.

Career opportunities: Private practice as a barrister or solicitor in general practice, in the not-for-profit sector, government and non-government agencies, business, the public service.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Business/Bachelor of Laws

SOUTHERN CROSS UNIVERSITY

Bachelor of Arts/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
056311 Gold Coast	4F or 8P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This double degree develops an understanding of the application of law to the humanities, media and creative industries and provides graduates with a clear professional pathway as a legal practitioner. Applicants who do not have the required ATAR can apply for the Bachelor of Arts. Students who then achieve the required GPA can apply to transfer to the double degree. Law students can undertake voluntary legal experience and professional placement with legal firms or offices to build their practical legal skills and develop their professional networks. This course is also available online; contact Southern Cross University. **Other requirements:** Some elective units, when studied online, require students to attend on-campus workshops.

Career opportunities: Refer to Bachelor of Arts and Bachelor of Laws.

Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
056471 Gold Coast	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This degree fulfils the academic requirements for admission as a lawyer in Australia. In addition to the core units, which comply with professional accreditation requirements, the program includes unique units that reflect a focus on justice and critique. Students may choose elective units to suit their interests and professional aspirations. Applicants who do not have the required ATAR for the Bachelor of Laws are encouraged to apply for the Associate Degree in Law (Paralegal Studies) or Bachelor of Legal and Justice Studies. Students who then achieve the required GPA can apply for transfer into the Bachelor of Laws. This course is also available online; contact Southern Cross University.

Career opportunities: Barrister or solicitor in private, corporate or government legal departments.

Double degrees: Refer to entries for: B Arts/B Laws; B Psychological Science/B Laws.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Laws/Bachelor of Business and Enterprise

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
056711 Gold Coast	4F or 8P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This double degree explores many areas of the law relevant to Australian organisations — from industrial relations to corporate finance. Students can tailor the degree through the choice of a wide range of law electives. Applicants who do not have the required entry mark for a double degree in law are encouraged to apply for the Bachelor of Business and Enterprise in the first instance. This course is also available online; contact Southern Cross University. **Other requirements:** Some elective units, when studied online, require students to attend on-campus workshops.

Career opportunities: Graduates are prepared for a wide range of career opportunities extending across the law and business in the private and public sectors. Refer to Bachelor of Business and Enterprise and Bachelor of Laws.

Bachelor of Legal and Justice Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
056161 Gold Coast	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course brings together studies in law and politics. It is for those wanting to work in policy development, paralegal positions, conveyancing, and the fields of justice. It provides an understanding of Australian and international politics and society. Students who want to become lawyers and who achieve the required GPA during or on completion of their degree can apply for admission to the Bachelor of Laws. This course is also available online; contact Southern Cross University. **Majors:** Conveyancing.

Career opportunities: Legal firms, law enforcement agencies, legal aid officers, conveyancing, policy making, government legal departments, large corporations.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Psychological Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
056271 Gold Coast	5F or 10P	New Course	New Course	Mar 2023	12 Jan 2023
056151 Coffs Harbour	5F or 10P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This double degree gives students the opportunity to gain an understanding of the law as it applies to the discipline of psychology and provides graduates with a clear professional pathway as a legal practitioner with a thorough understanding of human psychological factors. Applicants who do not have the required ATAR can apply for the Bachelor of Psychological Science. Students who then achieve the required GPA can apply to transfer to the double degree. Law students can undertake voluntary legal experience and professional placement with legal firms or offices to build their practical legal skills and develop their professional networks. This course is also available online; contact Southern Cross University. **Other requirements:** Some elective units, when studied online, require students to attend on-campus workshops.

Career opportunities: Refer to Bachelor of Psychological Science and Bachelor of Laws.

☆ *See Admissions Criteria on website for more information.*

Associate Degree in Law (Paralegal Studies)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
056361 Gold Coast	2F or 4P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course produces skilled graduates, ready for work in a legal environment with just two years of study. Combining intellectual rigour with practical legal skills, the course gives students a foundation for a career as a paralegal professional in a range of settings. Depending on the major studied, the course enables graduates to qualify as licensed conveyancers in NSW. Students who achieve the required GPA during or on completion of the degree can apply to transfer to the Bachelor of Laws. This course is also available online; contact Southern Cross University. **Majors:** Conveyancing.

Career opportunities: Paralegals work with solicitors and barristers, in government legal departments, law enforcement agencies, legal aid offices, court administration, public prosecutions, in the community sector and in the corporate sector in finance, banking, insurance and conveyancing.

☆ *See Admissions Criteria on website for more information.*

TAFE QUEENSLAND

Diploma of Justice Studies

Course outline: Gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. Learn how to solve policy and decision-making challenges for business and government using a range of statistical and analytical tools, with a focus on a career as an economist and analyst. **Majors:** Refer to Bachelor of Economics.

Career opportunities: Refer to Bachelor of Economics and Bachelor of Laws (Hons).

Bachelor of Humanities (Western Civilisation)/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
707402 St Lucia	5F or 10P	95.10	98.60	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: This dual degree program allows you to combine studies in law with a Bachelor of Humanities (with an extended major in Western Civilisation). Through the law degree you will gain a comprehensive understanding of legal principles and institutions, as well as a critical understanding of core areas of law and legal theory. You will develop analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution; skills which will be valuable in your chosen career. The extended major in Western Civilisation will provide you with the opportunity to immerse yourself in a creative and diverse curriculum with a strong critical focus on the key intellectual movements which have shaped Western Civilisation from antiquity to the current day. You will graduate equipped with knowledge and insights applicable to many of the big problems that societies face today, and the collaborative and persuasive skills to bring about meaningful change. In combination, this dual program will provide you with highly developed knowledge and skills in written communication, problem-solving, critical thinking and interpersonal understanding. **Note:** The course includes an industry internship, an orientation camp in the first semester of classes in first year, and a conference in final year. Fifteen scholarships will be available for this program each year. Due to the staged introduction of courses, it may take longer than anticipated for students with credit to complete program requirements. **Majors:** Western Civilisation

Career opportunities: Students of the dual degree will have knowledge of key works in the western humanities and the ability to critically apply this knowledge. This program prepares you for a career in the legal profession and a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

Bachelor of Journalism/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
737102 St Lucia	5F or 10P	95.75	98.75	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Gain a comprehensive understanding of legal principles and institutions as well as a thorough and critical understanding of core areas of law and legal theory. Develop professional, clinical and legal analysis skills including traditional and modern legal research methods, legal writing, advocacy and alternative dispute resolution. In the journalism component, you study reporting, investigation, editing, and communication and media contexts of journalism, and learn to be an independent and reflective professional.

Career opportunities: Refer to Bachelor of Journalism and Bachelor of Laws (Honours).

Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
718001 St Lucia	4F or 8P	95.30	98.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: The Bachelor of Laws (Honours) promotes high-level knowledge and advanced legal skills. You build a strong foundation in legal research, writing, reasoning, analysis and interpretation through critical, rational and analytical thinking. Through the extensive co-curricular program, your academic studies are supported by wellbeing programs, and complemented by opportunities to participate in the mooting program. You can also take advantage of the award-winning Pro Bono Centre, with the opportunity to apply your classroom learning to real-life situations and make important contributions to unmet legal needs.

Career opportunities: Graduates are employed as barristers or solicitors in private practice, public prosecutors, community lawyers, legal officers, and in-house counsel for large companies, while others pursue careers in areas such as investment banking, insurance, government and international relations, property development and management, or in the consulting industry, with industry associations, lobby and environmental groups, social service groups, research think tanks, community service organisations, or Legal Aid and community legal centres. The Bachelor of Laws (Honours) fulfils the academic requirements for admission as a legal practitioner throughout Australia. Further practical legal training is required before admission. **Dual degrees:** Refer to entries for: B Arts/B Laws (Hons); B Business Management/B Laws (Hons); B Commerce/B Laws (Hons); B Computer Science/B Laws (Hons); B Economics/B Laws (Hons); B Humanities/B Laws (Hons); B Journalism/B Laws (Hons); B Science/B Laws (Hons).

Bachelor of Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731401 St Lucia	5F or 10P	95.20	98.00	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: This dual degree is for lawyers who need to be highly conversant with modern science and its applications, and for scientists who need to be experts in law. You gain the knowledge to become a patent lawyer, working in areas related to environmental impact and litigation, the law and medicine, and maritime law. As a graduate working in the science field, you have an understanding of the legal complexities involved in commercialisation and intellectual property protection of scientific discoveries. **Majors:** Refer to Bachelor of Science.

Career opportunities: Refer to Bachelor of Science and Bachelor of Laws (Hons).

UNIVERSITY OF NEW ENGLAND

une University of New England

855532 Online	3X or 6X	61.30	64.30	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This course will equip students with the agriculture knowledge, critical thinking and problem solving skills required to play important professional roles in improving productivity and sustainability of modern agriculture. The course has an applied focus that will provide students with industry relevant training on a firm scientific basis. Students will profit from the University's research excellence in agriculture and its focus on regional and industry engagement through the opportunities to learn from leading industry experts, interact with top researchers, hear from experienced practitioners and engagement activities such as summer research projects, conferences attendance, or international activities. This course prepares students for the rigours of the real world and ensures they have the skills to make a difference in the context of the emerging opportunities that a highly technical agricultural industry provides. **Note:** For students studying online in other locations, compulsory residential schools will be conducted in Bundaberg and/or Rockhampton. **Other requirements:** Some units may include industry placements. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Agribusiness support sectors such as banking, consultancy, marketing, trading and logistics; agritech; government policy development; horticulture; landcare coordination / management; livestock; production enterprise.

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850681 Rockhampton	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
850685 Online	3X or 6X	66.40	68.40	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Completion of Year 12 or attained age 17 years.

Course outline: Become a leader in environmental science and make a difference to the living and non-living environment, and prepare for a broad range of rewarding careers in environmental science. In the Bachelor of Environmental Science students will examine, measure, monitor and manage aspects of the Earth's living and non-living environment. The first year of study incorporates skills-focused units that develop field and laboratory competencies useful for research and desired by industry and government. Further subjects include environmental economics, geography, environmental law and community engagement, in addition to underpinning biological and chemical sciences, that will develop skills and knowledge that enable students to contribute to the sustainability of ecosystems and societies. This course offers a strong science focus with majors in environmental geography or integrated land and water management. **Note:** Students studying online will be required to attend compulsory residential schools for some units. **Majors:** Environmental Geography; Integrated Land and Water Management. **Other requirements:** Students have the opportunity to undertake either an industry placement, or a short research project. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Environmental officer; environmental consultant; environmental scientist; vegetation management officer; air quality control officer; water management officer.

GRIFFITH UNIVERSITY

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228811 Nathan	3F or 6P	61.40	66.00	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
233681 Gold Coast	3F or 6P	64.35	68.35	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: This is a practical degree that readies you to apply scientific rigour to environmental management decision-making. It will equip you with the skills and knowledge to help make a difference to key challenges of the 21st century and contribute to building resilient communities. You'll gain knowledge and skills from across the broad environmental science spectrum, exploring environmental issues from social, physical and biological perspectives. After completing core science courses in your first year of study, you'll choose a major that suits your interests and career plans. **Majors:** Ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: Depending on your major, you'll be prepared for work in positions such as environmental officer, environmental consultant, wildlife biologist, conservation ecologist, environmental chemist and environmental scientist.

Double degrees: Refer to entries for: B Engineering (Hons)/B Environmental Science; B Environmental Science/B Business; B Environmental Science/B Data Science; B Laws (Hons)/B Environmental Science.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Environmental Science.

\+ *Regular offers will be made.*

Bachelor of Environmental Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you will learn about key sustainability issues, such as energy, water and waste management, and develop an appreciation of the interrelationships between environmental sustainability and business success. You will examine the sustainable use of our natural environment, and graduate with the skills and knowledge needed to find sustainable solutions for business and industry. You'll also choose from a broad array of commercial business majors and graduate with a point of difference that will give you a competitive edge. **Majors:** *Environmental science:* ecology and conservation; environmental management; soil and water science; urban environments. *Business:* accounting; Asian business; Asian engagement; behavioural science; business analytics; economics; employment relations; event management; finance; financial planning; government and international relations; human resource management; innovation and entrepreneurship; international business; logistics and supply chain management; management; marketing; real estate and property development; sport management; sustainable business; taxation; tourism management.

Career opportunities: A double degree with business gives you the foundation to take your career just about anywhere. Through your extensive practical experience opportunities, you'll graduate with strong business networks and the authentic knowledge to apply your skills to a broad range of business environments of all stripes and sizes. You'll be prepared to work in a variety of roles relevant to your chosen specialisation(s) in environmental-related businesses. Depending on the majors selected, you'll be prepared for career opportunities in research, government, non-government agencies, engineering and environmental consultancies, data collation and evaluation, administration, advertising, business and strategic management, planning and policy, and sales and marketing. You'll find work in positions such as environmental consultant, management facilitator, project officer or information management officer.

+ Regular offers will be made.

Bachelor of Environmental Science/Bachelor of Data Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228871 Nathan	4F or 8P	✦	✦	Mar 2023	12 Jan 2023
234561 Gold Coast	4F or 8P	✦	✦	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Across the world, scientists are collecting data from our environment and creating a better picture than we have ever known of how the biosphere works. An understanding of data science is particularly important for policy makers in environmental science, as global and national datasets providing measurements on a range of environmental issues become available. In this degree you'll acquire knowledge in your chosen environmental science major combined with data analysis, manipulation, modelling, interpretation and visualisation skills obtained through your data science studies. **Majors:** *Environmental science:* ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: With a proven mix of work-integrated programs and professional skills, you'll be prepared to work in research, government, non-government agencies and consultancies developing data driven solutions for a range of environmental issues depending on your major.

TAFE QUEENSLAND

Diploma of Agribusiness Management/Diploma of Agriculture

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
568048 Toowoomba	2CL	New Course	New Course	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age.

Course outline: Students will develop a broad range of advanced skills and knowledge needed to become an agribusiness manager, or farm, property, or station manager. This course focuses on the administration and management aspect of farms, stations and rural businesses. In this course students will learn how to manage both livestock and crop production, market products and services, and prepare and monitor budgets. Students will also learn how to develop farm and business plans, climate risk management strategies, and sustainable land strategies. **This course is best suited to those who have extensive experience in the rural industry, or are currently working on properties whilst studying. Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans are available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Farm manager, property manager, farm production manager, production unit manager, agronomist, agribusiness manager/administrator, farm manager/administrator, production unit manager/administrator.

Diploma of Conservation and Ecosystem Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
517308 Nambour	1CL	☆	☆	Jan 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Additional entry information:** While there are no formal entry requirements for this course, TAFE Queensland highly recommends that you have previously completed the Certificate III in Conservation and Land Management or Certificate III in Horticulture, as it is highly desirable that you have underpinning knowledge and skills from that area. A skills assessment may be undertaken to ascertain the correct level of study required. Contact TAFE Queensland, Nambour on 1300 308 233 for more information.

Course outline: In this course students will obtain knowledge and practical skills in the management of flora, the classification of plant life, and conducting biological surveys. Students will also learn how to be an effective manager in the conservation and land management industry, and develop skills such as natural area restoration, developing management plans, and data collection and management. **Note:** VET Student Loans may be available to eligible applicants, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Community project coordinator (land care), senior park ranger, natural resource manager.

☆ See Admissions Criteria on website for more information.

THE UNIVERSITY OF QUEENSLAND

Bachelor of Environmental Management (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
705101 St Lucia	4F or 8P	80.30	80.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C).

Course outline: Discover how to critically assess and manage complex environmental problems. Study biology, ecology and geography, economics, business, and legal and policy analysis. Develop your multidisciplinary skills in management, decision-making and problem solving. Learn from experts on how to manage the environmental challanges faced locally and globally and address the sustainability of the natural environment and resources. Get hands on with a full semester of placement and practical experience. Graduate with expertise that sets you apart in a competitive job market. **Other requirements:** Students take a two-week field trip and 270 hours of industrial placement within Australia.

Career opportunities: Graduates work in managerial, research, administrative and educational roles in national parks and wildlife conservation; environmental assessment and compliance; natural resource management, including coastal, river and catchment systems; policy development; government and commercial consultancies in environmental planning and management; mining; environmental tourism; and environmental management.

Bachelor of Agribusiness

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
766001 Gatton or St Lucia	3F or 6P	77.70	77.70	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Learn to apply the latest concepts in marketing, logistics, human resource management, finance and operations to local, national and multinational agricultural enterprises. Gain current knowledge of farming, agricultural sustainability, food security, crop production, livestock and horticulture. Learn from internationally respected business experts with strong industry connections. Take part in site visits, case studies and research projects and undertake a major group project with an agribusiness company in your final year. You'll enhance your problem-solving, management and communication skills while developing your professional networks. **Note:** First year requires attendance at both St Lucia and Gatton; subsequent years are based at Gatton. **Other requirements:** During the first two years, you interact with agribusiness organisations through visits, case studies and research projects. In final year, you undertake a major project, working collaboratively within an agribusiness organisation as a member of a small team of four or five students.

Career opportunities: Commodity trader, marketer, manager of rural operations, sales, supply chain/export manager, banker, policy developer for governmental, agricultural or regional agencies. **Dual degrees:** Refer to entries for: B Agribusiness/B Equine Science; B Agribusiness/B Agricultural Science; B Agribusiness/B Wildlife Science.

		Unadjusted	Adjusted		
738001 St Lucia	3F or 6P	84.10	85.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Learn to examine and reduce the effect of human activity on physical and biological environments. Combine your scientific skills with knowledge of the legal, political and social aspects of environmental management. Undertake extensive practical, field and research experiences to develop your technical and analytical skills. Access UQ's local, national and global networks and learn strategies to improve sustainability, manage ecosystems, preserve global biodiversity, and secure clean water and food.

Career opportunities: Be employed as an environmental monitor, impact assessor and manager, natural resource manager, national parks and wildlife conservationist, policy adviser, and a teaching and research scientist.

Bachelor of Equine Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
787109 Gatton	3F or 6P	73.75	75.30	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Transform your passion into a career that improves the management, performance and welfare of horses across the global equine industry. Study equine welfare, behaviour, nutrition, reproduction, health, rehabilitation, exercise and physiology. Build a strong understanding of animal biology, structure and function, and chemistry. Specialise in agricultural biochemistry and its relationship to health and disease, horse behaviour, physiology, biomechanics, breeding, nutritional physiology and diet. Complement this theory with industry placements and hands-on field experiences. You'll access specialist equine facilities and have the opportunity to bring your horse to agist at the Gatton Campus.

Career opportunities: You'll be employed in managing equine enterprises, agribusiness firms servicing the equine industry, animal nutrition and animal health companies, bloodstock agencies, breed societies, equestrian centres, riding schools, equine industry organisations, equine journalism, horse studs, pre-conditioning and training businesses, racing and competition stables, sales and marketing, and statutory bodies administering racing and trotting. **Dual degrees:** Refer to entry for: B Agribusiness/B Equine Science.

Bachelor of Veterinary Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
787309 Gatton	3F or 6P	74.95	78.20	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Equip yourself with the theoretical and practical skills to become a para-veterinary healthcare specialist. Study basic sciences (chemistry, biochemistry, mathematics), animal handling and care, welfare and behaviour, applied and clinical nutrition, mechanisms of animal disease and diagnostic techniques. You'll also learn about clinical aspects of small and large animal health, therapeutics, surgical and medical nursing principles, and veterinary practice management. Enhance your critical thinking, problem-solving and self-directed learning skills with practical sessions, clinical rotations and industry placements. **Note:** This program is offered internally however some individual courses may be available by external mode.

Career opportunities: Find employment in veterinary radiology, anaesthesia, pathology, clinical pathology, nutrition and veterinary therapeutics. You may work as support staff in veterinary practices in roles such as veterinary emergency and critical care technicians, or veterinary practice managers, animal behaviour and training instructors, animal research technicians or supervisors, biosecurity inspectors and project support officers with government agencies, livestock enterprises and zoos.

Bachelor of Wildlife Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
787209 Gatton	3F or 6P	71.15	75.05	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); General Mathematics or Mathematical Methods (Units 3 and 4, C).

Course outline: Prepare for a career in global conservation and wildlife management. Study native and exotic amphibians, reptiles, birds and mammals, biodiversity and human-wildlife interactions. Learn to manage wild animals and to deliver and assess management programs for captive and free roaming wildlife. Build your skills in wildlife trapping, identification and animal handling. Gain hands-on experience and build your industry networks during industry placements at zoos, sanctuaries and wildlife parks.

Career opportunities: Find employment in research, managerial and educator roles, in the agriculture sector (such as educating farmers about ways to reduce the impact of predators on livestock), in tourism managing animal welfare and research programs, or for government departments researching and managing feral animals. You may work in conservation, land management and ecotourism, environmental consultancies, vertebrate pest and game management, wildlife science, government agencies, and wildlife sanctuaries and zoos. **Dual degrees:** Refer to entry for: B Agribusiness/B Wildlife Science.

UNIVERSITY OF NEW ENGLAND

une University of New England

Bachelor of Agribusiness

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
657001 Armidale	3F or 6P	69.95	74.95	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree provides students with the business skills and knowledge that prepares them for employment in the food and agribusiness industries, from the farm level through to multinational companies. Students develop a high level of problem-solving and communication skills to be able to address real issues facing agriculture and business in a changing global environment, such as food safety and security, climate change, sustainability and increasing globalisation, and integration of agricultural and food networks. An optional professional experience unit is available. For external study, contact the UNE Future Students Team. **Majors:** Accounting; economics; finance; marketing and management; rural science; technology and data analytics.

Career opportunities: Agribusiness companies, banking, finance and insurance sectors, business and market analysis, commodity trading, policy analysis, primary production, sales, government departments and international agencies.

Bachelor of Agricultural and Resource Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
656681 Armidale	4F or 8P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: Through this degree, students develop the knowledge, skills and attributes required for high level problem-solving and economic decision-making across a range of agricultural and natural resource issues such as food safety and security, natural resource depletion, climate change, sustainability and increasing globalisation, and integration of agricultural and food networks. There is flexibility to choose between a coursework only option and an embedded honours program. For external study, contact the UNE Future Students Team.

Career opportunities: Professional and leadership positions in banking, finance, insurance, international agencies, government departments, agribusiness, commodity trading, policy analysis, agriculture, or education.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Agriculture

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
636762 Armidale	3F or 6P	69.65	69.65	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods.

Course outline: This degree gives students practical, production-oriented specialist skills to understand the implications of land use and management change on agricultural productivity. The degree is ideal for students whoare more interested in the productive management of agricultural landscapes than the scientific, agricultural systems focus of UNE's Bachelor of Rural Science. The latest technology underpins all UNE agriculture courses. Specialise in animal production or plant production, or take the mixed farming stream. For external study, contact the UNE Future Students Team. **Majors:** Animal production; plant production; mixed farming.

Minors: Agricultural Sustainability, Agricultural Technology, Business, Climate Resilience, Cotton Production, Genetics, Livestock Production, Plant Production, Sheep and Wool **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Agricultural advisory fields, management and consulting in the cropping and animal industries, agribusiness, intensive and extensive animal production, landcare, soil science and conservation, natural resource management.

Combined degrees: Refer to entries for: B Agriculture/B Business; B Agriculture/B Laws.

Bachelor of Agriculture/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
627621 Armidale	4F or 8P	69.30	69.30	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; General Mathematics.

Course outline: This double degree combines the practical, production-oriented agricultural degree, underpinned by science, with fundamental skills in business, management and finance. UNE's double degree provides a grounding in areas including animal production systems and products, crop and pasture management, animal health and welfare, feedlot management, cotton crop protection, crop protection, poultry and sheep production, micro and macroeconomics, economic perspectives of environment and food, farm and resource management, agribusiness marketing, commodity markets, and banking and finance. For external study, contact the UNE Future Students Team. **Majors:** Accounting; agribusiness; international business; marketing

Minors: Plant production; livestock production; general agricultural production, cotton production; genetics; sheep and wool **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Agricultural advisory fields, management and consulting in the cropping and animal industries and government agencies, agribusiness management, accountancy.

Bachelor of Agriculture/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
627611 Armidale	5F or 10P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; General Mathematics. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree examines the principles and practices of modern rural industries and how they intersect with the legal system. The course helps students to develop diverse skills in scientific and legal reasoning and inquiry, and critical analysis of complex circumstances, with the knowledge to understand agricultural systems. Our practically oriented course equips students with skills that are increasingly in demand in the rural sector. Working individually and as part of a team, students apply their skills to current and future problems, especially in agricultural business, science, economics and law. For external study, contact the UNE Future Students Team. **Majors:** Minors: Plant production; livestock production; cotton production; genetics; general agricultural production, sheep and wool. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Foreign affairs and trade, rural politics, agricultural law, agricultural advisory fields and consulting, product development, federal departments, solicitor or barrister.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Animal Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626051 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry.

Course outline: This program provides students with knowledge and skills in the science-based fundamentals that underpin our relationships with and management of animals. Students will acquire the practical experience to be on track for a rewarding career in rapidly changing animal-related industries. Develop expertise in a specialist area through your major in livestock science or animal bioscience, with the option to broaden your scope and add to your portfolio of industry-ready skills with a specialised minor. **Majors:** Animal Bioscience; Livestock Science.

Minors: Genetics; Livestock Production; Nutrition and Physiology; Research Methods; Sustainable Animal Management; Wildlife Ecology and Management; Sheep and Wool Science. **Other requirements:** Students must complete 12 weeks of approved practical industry experience during university vacation periods.

Career opportunities: Advisory, regulatory and research positions in all agricultural fields, particularly in breeding, management and consultancy for the livestock industries and agribusiness.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626901 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry.

Course outline: This degree offers a range of flexible study pathways keyed into career opportunities for students to learn about the environment and its management: air, land, water, plants and wildlife. Underpinned by cutting-edge research, graduates develop skills in the field and laboratory, and are equipped to solve real-world problems on regional, national and global scales.Our degree is designed to help equip students with the knowledge and practical skills needed to thrive in the environmental science sector, and build environmentally, socially and fiscally sustainable systems for the future. A fourth year honours program is available. For external study, contact the UNE Future Students Team. **Majors:** Applied Management; Conservation and Ecology; People and Environment; Vegetation and Landscapes.

Minors: Botany; Data Science and Modelling; GeoScience; Global Environment; Indigenous Knowledge Systems; Science and Communication; Soils; Spatial Science; Water Science; Zoology.

Career opportunities: Environmental protection agencies, national parks and wildlife manager, positions in museums and herbaria, zoos and botanic gardens, environmental consultancy and conservation, research with CSIRO and universities, policy development and analysis.

Combined degrees: Refer to entry for: B Environmental Science/B Laws.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Environmental Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
627631 Armidale	5F or 10P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career that draws on legal skills in an environmental context. With a solid foundation in the major aspects of Environmental Science, students are equipped to apply their knowledge to cross-disciplinary, real-world problems, to find innovative solutions for environmental issues on both local and global scales. For external study, contact the UNE Future Students Team. **Majors:** Botany; Data Science and Modelling; GeoScience; Global Environment; Indigenous Knowledge Systems; Science and Communication; Soils; Spatial Science; Water Science; Zoology.

Career opportunities: Legal practice or law-related management, government planning departments, national parks and wildlife management, water and soil conservation, commercial industry.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Rural Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
636052 Armidale	4F or 8P	74.65	79.65	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods; Chemistry.

Course outline: Providing food and fibre for growing populations in Australia and worldwide in a challenging climatic environment requires skilled professionals capable of understanding and integrating whole agricultural systems. This degree produces graduates who are in demand, equipped with the scientific and communication skills necessary to solve practical, real-world agricultural problems at farm, catchment and national levels. Our unique systems approach allows students to develop broad expertise, whilst specialising in areas such as agronomy, animal science and animal physiology, genetics, horticultural science, crop protection, soil management, cotton production, plant physiology, poultry production, wool science, and meat science. Students who complete a research project in fourth year are considered for the award of honours. **Majors:** Minors: Agricultural Sustainability; Business; Climate Resilience; Cotton Production; Genetics; Livestock Production; Plant Production; Sheep and Wool Production. **Other requirements:** Students must complete 16 weeks of practical industry work experience during university vacation periods.

Career opportunities: Advisory, regulatory and research posts, crop and animal industries, agribusiness, banking and marketing, primary production, plant and animal breeding, soil conservation, precision agriculture, farm management.

Bachelor of Sustainability

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626041 Armidale	3F or 6P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This degree involves the study of sustainability in a holistic manner, integrating the social sciences and humanities with geography, environmental science and natural resource management. Students learn to understand the complexities of the environmental and social problems facing society, and the skill-sets needed to build a sustainable future. **Majors:** Community engagement and development; cultural heritage management; environmental governance; environmental resilience; governance and regulation.

Career opportunities: Policy adviser, government planning and research officer, environmental protection, cultural and natural heritage management, environmental conservation, land and water management.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

UNIVERSITY OF THE SUNSHINE COAST

Bachelor of Environmental Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013211 Sunshine Coast	3F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014761 Moreton Bay	3F or 6P	50.00	52.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Students gain interdisciplinary knowledge and practical skills needed to minimise human impacts on the environment, manage resources sustainably, and conserve and restore habitats, biodiversity and ecosystem services. Inquiry-based learning, field trips and the use of online resources create an engaging learning experience. Students have opportunities in their final year to undertake specialised research, gain practical experience through work placements, or study abroad. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Environmental management and protection, ecosystem conservation and restoration, environmental education, communication, research, policy and legislation development.

Combined degrees: Refer to entry for: B Laws/B Environmental Management.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013011 Sunshine Coast	3F or 6P	58.60	58.60	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014011 Moreton Bay	3F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Students learn to become skilled environmental professionals and manage human interaction with the natural environment. The program develops the scientific base needed to make judgements on the conservation and use of Australia's natural ecosystems and resources. Courses examine the connection between organisms and their environment, both natural and artificial. Students explore natural and human-managed environments and gain skills in environmental management, planning and restoration, managed ecosystems and marine science. Students gain practical skills through field trips and an opportunity to undertake an unpaid professional placement. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Environmental management and protection, parks and wildlife, resource management, waste and pollution control, catchment management agencies, local councils, environmental consultancies.

Combined degrees: Refer to entry for: B Engineering (Civil) (Honours)/B Environmental Science.
✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

SCIENCES

CQUNIVERSITY AUSTRALIA

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
850611 Rockhampton	3F or 6P	✦	✦	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023
850615 Online	3X or 6X	70.15	70.15	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Discover how science can solve current and future medical, environmental, industrial and technological problems and launch a dynamic career in this field, with CQUniversity's Bachelor of Science. Students benefit from hands-on, practical learning experiences both on campus and in the field. The first year of the course will provide students with a foundation for a career in the biological, analytical and agricultural sciences and prepares them to major in applied biology or applied chemistry. Students will benefit from field trips to a variety of destinations, such as coral reefs, intertidal and terrestrial ecosystems, mainland vegetation communities, agricultural enterprises, mine and other land degradation sites and freshwater and estuarine environments. Students will also have the option to undertake a work placement as part of the course, allowing them to network professionally whilst studying. **Note:** Students studying online will be required to attend compulsory residential schools for some units. **Majors:** Applied biology; applied chemistry. **Other requirements:** Depending on units selected, students undertake either an industry placement or a short research project. Prior to a work placement or internship, a prospective employer may require students to undertake health or security checks. For full course requirements, visit cqu.edu.au/courses.

Career opportunities: Careers in chemical and material production, agriculture, medical sciences, mining and metals, power industries, environmental science and ecology, food technology, forensic analysis, research and development.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

FEDERATION UNIVERSITY AUSTRALIA

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041121 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023 Nov 2023	12 Jan 2023 8 Jun 2023 ✦

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C); Applicant must be 16.

Course outline: Biomedicine is an exciting area that plays a major role in helping people lead healthier lives. It's an industry that is constantly evolving. You'll learn about anatomy, pathophysiology, genetic sciences and can go on to work in areas like genome biology, genetic mapping, stem cell research and biological pharmaceuticals. Studies range from lifespan nutrition, to food microbiology, metabolism to applied biochemistry.

Graduates of this program will pursue a career in biomedical research, laboratory technology, medical sales, research and pharmaceuticals.

This degree is a pathway to postgraduate studies in medicine, physiotherapy, dentistry, pharmacy and other allied health programs, as well as veterinary science. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on our website.

Career opportunities:

- Biomedical engineer
- Biochemist
- Clinical biochemist
- Healthcare scientist
- Clinical scientist
- Microbiologist
- Research scientist
- Biomedical scientist
- Forensic scientist
- Geneticist
- Cytologist
- Pathologist
- Laboratory technician
- Laboratory assistant
- Immunologist

✦ *Regular offers will be made.*

Bachelor of Environmental and Conservation Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041117 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✦

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C); Applicant must be 16.

Course outline: Discover how environmental science integrates with the management of conserving and rehabilitating natural and degraded ecosystems.

With a strong focus on the Australian environment, you will explore subject areas such as ecology and wildlife, water and climate, mine site rehabilitation, landscape management and restoration. Learn through practical experiences including fieldwork in arid, coastal and forested areas and gain the knowledge, skills and experience required and encouraged by industry and government departments. **Note:** This program is available via Online Learning, in combination with one to two weeks (depending on your program) of compulsory on-campus laboratory sessions. These lab sessions are held in semester one and semester two in each year of your program. You will also be required to complete examinations either on-campus, or at an approved remote exam location in your region, under supervision.

To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on the website. **Other requirements:** Domestic students may apply for the Industry Placement Program (IPP) which offers up to 26 weeks of industry based experience. IPP students receive a scholarship payment of up to $15,000.

Career opportunities:

- Soil scientist
- Pest management officer
- Resource analyst
- Resource manager
- Sustainability officer
- Conservation and biodiversity manager
- Cultural geographer
- Cultural heritage manager
- Cultural heritage officer
- Ecologist
- Environmental advisor
- Environmental and conservation biologist
- Environmental consultant
- Environmental policy developer
- Environmental planner
- Environmental protection officer
- Environmental scientist
- Ethical advisor
- Fire management scientist
- Forestry officer
- Land management consultant
- Landcare worker
- Natural resource manager

- Hydrologist

There is a wide range of career choices for environmental and conservation scientists including: conservation of native flora, fauna, and ecosystems, ecological restoration to repair or reinstate ecological function and ecological risk management – where you may work to address key threatening processes, such as environmental change, resource use and human population expansion.

Employment opportunities exist with environmental agencies, local, state and Commonwealth governments, energy suppliers, water companies, consultancies, engineering and construction firms, environmental lobbying organisations, forestry and agriculture to name just a few.

+ Regular offers will be made.

Bachelor of Science (Advanced)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041118 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C); Applicant must be 16.

Course outline: As a high achieving student, you'll complete a specialised pathway which allows for a double major in your degree. You'll have an opportunity to include a semester long project in your third year, which provides advanced skills in experimental design, data collection and and synthesis, problem solving and critical analysis.

Major options include;

- Behavioural science
- Biochemistry
- Biological science
- Chemistry
- Ecology
- Environmental restoration
- Exercise science
- Food science
- Health and nutrition
- Mathematics
- Microbiology
- Molecular biology
- Mineral processing **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on . **Majors:** Major options include:

- Behavioural science
- Biochemistry
- Biological science

- Mineral processing

Career opportunities: • Biological scientist

- Geneticist
- Chemist
- Cytologist
- Research scientist
- Ethical advisor
- Immunologist
- Pathologist
- Laboratory analyst
- Microbiologist
- Forensic scientist

Depending on the areas of specialisation, you may find government or private sector employment in: medical science, earth science, environmental management, analytical laboratories, computer support, health, environmental planning and sustainability, consultancy or research.

The specialised pathway offered by this degree is ideal for students wanting to progress to honours and post-graduate study.

+ Regular offers will be made.

Bachelor of Sustainable Food Systems

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041145 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C); Applicant must be 16.

Course outline: Food sustainability is the study of food security, health, safety, quality and affordability, influenced by climate change and the environment.

With the world population expected to reach 9.7 billion by 2050*, Federation University is creating new ways to help solve the problems of developing a safe, healthy and nutritious food supply for people worldwide.

This unique degree was developed in collaboration with food industry partners to fulfill the need for food specialists in Australia. The first half of the degree embeds a Diploma of Food Science and Technology (FBP50118) to develop your knowledge and core practical skills across food testing, quality and sustainability.

In the second half of the degree you will pursue an interest by selecting one of Food Processing or Sustainable Food Production, as well as undertake an industry placement providing valuable and relevant workplace experience.

You will also examine key aspects of sustainable food systems from different points of view: scientific, economic, environmental and ethical, whilst gaining a worldly perspective through a wide selection of subjects from biology to product and process design. **Note:** To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on the website.

Career opportunities:

- Food policy officer
- Food sustainability officer
- Food microbiologist
- Sensory scientist
- Food quality assurance officer
- Food production development
- Quality control technologist

+ Regular offers will be made.

Bachelor of Veterinary and Wildlife Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
041116 Online	3F or 4–6P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); One of Biology, Chemistry, Physics, Psychology, General Mathematics or Mathematical Methods (Units 3 and 4, C); Applicant must be 16.

Course outline: This degree offers a regional perspective relevant to local wildlife and animal health, and will also highlight key issues of international relevance by exploring suitable examples and case studies. Laboratory-based learning is supported by fieldwork at sites such as farming and breeding enterprises, animal health practices and natural habitats with wildlife populations.

You will study a wide range of topics including anatomy, animal health, biochemistry, cellular metabolism, immunology, microbiology, physiology and zoology.

In the final year, there is an opportunity for a research project or industry placement to explore your own area of interest and develop advanced technical skills.

Please note: - studying this program online does involve compulsory on campus laboratory sessions for some courses. **Note:** This program is available via Online Learning, in combination with one to two weeks (depending on your program) of compulsory on-campus laboratory sessions. These lab sessions are held in semester one and semester two in each year of your program. You will also be required to complete examinations either on-campus, or at an approved remote exam location in your region, under supervision.

To help you get the most from your online learning experience, it's important that you own or have frequent access to a fast and reliable computer that's ideally not more than two years old.

You will also need frequent access to a reliable high-speed internet connection. You should expect to use approximately 5GB of data each month, per course, just for study use.

For further information, visit the Minimum IT requirements for studying on the website.

Career opportunities:

- Food policy officer
- Food sustainability officer
- Food microbiologist
- Sensory scientist
- Food quality assurance officer
- Food production development
- Quality control technologist

+ Regular offers will be made.

GRIFFITH COLLEGE

Diploma of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
081501 Mt Gravatt	1F or 2P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: This higher education program provides you with a solid understanding of the natural and physical sciences, including fundamental theoretical and practical principles of chemistry, biology, genetics. Students also receive the academic skills needed to transition to further university studies in a broad range of areas including biomedicine, environmental sustainability, chemistry and physical sciences, marine, wildlife and microbiology. Refer to the combined diploma degrees below for packaged pathways to Griffith University.

Career opportunities: With further study: bioengineering, biology, cancer research, pharmaceutical scientist, coastal resource management, conservation and pollution control management, fisheries laboratories, neuroscientist, mathematician, laboratory or pathology work, marine science, neuroscience, DNA expert, science research, forensic molecular biologist.

Combined diplomas/degrees: Refer to entries for: D Science/B Biomedical Science; D Science/B Environmental Science; D Science/B Forensic Science; D Science/B Marine Science; D Science/B Science

☆ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
081551 Mt Gravatt/ Griffith University - Nathan	3F or 6P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Help build a healthy society by applying new scientific knowledge to medicine and healthcare as a biomedical scientist. In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in foundation subjects, core concepts and skills needed for a career in health. On successful completion of the diploma be ready to progress into the Biomedical Science with up to 80 credit points. Develop knowledge and skills in the biological and clinical sciences, emphasising their application to biomedical research, medicine and healthcare services. See Griffith University's Bachelor of Biomedical Science for more information.

Career opportunities: Medical research institutes, hospitals, universities, government or commercial research organisations and health-related industries.

☆ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
081531 Mt Gravatt/ Griffith University - Nathan	3F or 6P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023
081541 Mt Gravatt/ Griffith University - Gold Coast	3F or 6P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in core concepts and skills needed for a career in science. On successful completion of the diploma be ready to progress into the bachelor with 80 credit points. Graduate with the knowledge and core skills to understand the natural environment, including an understanding of how humans interact with it. Extensive field, laboratory and small group activities are included throughout the degree, helping students develop theoretical and practical skills in multiple disciplines. See Griffith University's Bachelor of Environmental Science for more information. **Majors:** Ecology and conservation; environmental management; soil and water science; urban environments.

Career opportunities: Depending on your major, you'll be prepared for work in positions such as environmental officer, environmental consultant, wildlife biologist, conservation ecologist, environmental chemist and environmental scientist. As an honours graduate, you'll be prepared to pursue a career in management, research or academia.

☆ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Forensic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
081561 Mt Gravatt/ Griffith University - Nathan	$3^{1/2}$F or 7P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in core concepts and skills needed for a career in science. On successful completion of the diploma be ready to progress into the bachelor with 60 – 70 credit points. Develop an in-depth knowledge of new forensic analytical methods and innovations and gain valuable experience from real casework. You'll practice presenting expert evidence in moot courts and will learn from academic staff who have ties to international projects and who provide expert evidence in Australian courts. See Griffith University's Bachelor of Forensic Science for more information. **Majors:** Forensic chemistry; forensic molecular biology.

Career opportunities: Forensic services and laboratories involving casework, presentation of expert evidence and research and development activities, biomedical and biotechnology fields.

☆ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Marine Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
081571 Mt Gravatt/ Griffith University - Gold Coast	3–$3^{1/2}$F or 6–7P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: For complex issues such as global climate change, food production, tourism, oil, gas and mineral extraction, and waste management, the need for highly trained and specialised marine science professionals continues to grow. In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in core concepts and skills needed for a career in science. On successful completion progress into the bachelor with up to 80 credit points. Gain the skills and knowledge needed to manage the increasingly complex issues facing marine systems and ensure that marine industries prosper sustainably. The degree has a strong practical focus, with students learning through hands-on field-based projects that take advantage of the university's Gold Coast location. See Griffith University's Bachelor of Marine Science for more information. **Majors:** Minors: coastal management; coastal oceanography (receive 60 credit points); marine chemistry; marine ecology

Career opportunities: Coastal resource management, fisheries, conservation and pollution control management, coastal physical science in modelling and meteorology, marine parks.

☆ All qualified applicants were offered a place.

Diploma of Science/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
081511 Mt Gravatt/ Griffith University - Nathan	3–3 1/2F or 6–7P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023
081521 Mt Gravatt/ Griffith University - Gold Coast	3–3 1/2F or 6–7P	☆	☆	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: In the higher education diploma year, students develop fundamental academic skills and cement their knowledge in core concepts and skills needed for a career in science. On successful completion progress into the bachelor with 70-80 credit points. With this degree you'll gain a foundation knowledge across all areas of sciences, giving you the flexibility to decide what you'd like to focus on next. Gain specialised skills and practical knowledge for a professional career in the biological, clinical, chemical, physical or mathematical sciences. See Griffith University's Bachelor of Science for more information. **Majors:** Bachelor of Science (Gold Coast and Nathan)

Majors: Applied Mathematics, Biochemistry and Molecular Biology, Chemistry, Data Science, Geography, Wildlife Biology

Bachelor of Science (Nathan only)

Majors: Clinical Sciences, Microbiology

Bachelor of Science (Gold Coast only)

Majors: Marine Biology

Career opportunities: Microbiologist, pharmaceutical scientist, biochemist, chemist, biotechnologist, marine biologist, mathematician, physicist, researcher, teacher (with further study).

GRIFFITH UNIVERSITY

Bachelor of Advanced Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228152 Nathan	4F or 8P	80.60	86.60	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
234122 Gold Coast	4F or 8P	79.95	83.95	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith ATAR Guarantee, VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: The Bachelor of Advanced Science (Honours) caters for students who have demonstrated outstanding potential in the field of science. This degree follows the Bachelor of Science degree giving you the opportunity to engage in research early in your degree by taking one advanced studies course each trimester. You'll undertake a major research project and be individually guided and mentored by one or more of our outstanding scientific researchers. In your final year, you'll complete an honours project in your chosen specialisation. **Majors:** Applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology; archaeology (Nathan only)..

Career opportunities: This degree is designed to help you gain the necessary skills and experience to find work as a highly regarded researcher or academic in Australia or overseas across a range of government and non-government sectors. As well as opening a pathway to PhD studies, this degree may lead to opportunities in fields including biotechnology and pharmaceuticals, oil and mineral exploration, medical research, scientific and technical services, and more.

\+ *Regular offers will be made.*

Bachelor of Forensic Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228252 Nathan	3F or 6P	61.05	67.05	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Forensic investigators are skilled, dedicated professionals who assist police in examining evidence. In this degree, you'll develop skills and knowledge in basic forensic science and receive training in handling criminal casework in forensic molecular biology and forensic chemistry. You'll develop a knowledge of forensic analytical methods and gain valuable experience from real casework. You'll practise presenting expert evidence in moot courts and will learn from academic staff who have ties to international projects and who provide expert evidence in Australian courts. **Majors:** Forensic chemistry; forensic molecular biology.

Career opportunities: You'll be prepared to work as a DNA expert, a forensic molecular biologist, forensic chemist or forensic toxicologist and as an acknowledged expert in these or a variety of other roles within the criminal justice system. You'll also be able to pursue a scientific career not directly related to forensic organisations, in areas such as analytical chemistry, molecular biology and biomedical science. You may also choose to undertake a fourth year research honours program, which can lead to a PhD and a career in research.

Double degrees: Refer to entry for: B Forensic Science/B Criminology and Criminal Justice.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Forensic Science.

Bachelor of Forensic Science/Bachelor of Criminology and Criminal Justice

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228262 Nathan/Mt Gravatt	4F or 8P	59.55	67.35	Mar 2023	12 Jan 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: In this double degree, you'll develop an in-depth knowledge of new forensic analytical methods and innovations as they are applied to biology and chemistry and gain valuable experience and insight from real casework. You'll learn about the trends in crime in Australia and take courses that cover the police, courts and criminal law, forensic psychology and homicide. **Majors:** *Forensic science:* Forensic chemistry; forensic molecular biology.

Career opportunities: You'll be prepared for a career as a forensic scientist or in policing, corrections, security and law enforcement, customs and crime prevention. You'll also be qualified to work in fields such as analytical chemistry, molecular biology and biomedical science. You may also choose to continue your studies with an honours degree in either forensic science or criminology and criminal justice, which can lead to a PhD.

Bachelor of Marine Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
234142 Gold Coast	3F or 6P	61.70	67.50	Mar 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Our oceans cover 70% of the surface of the earth and are some of the most poorly understood ecosystems on the planet. In the degree you'll have plenty of opportunities to learn outside of the classroom with a range of flexible and innovative programs that get you out into the environment at locations including the Great Barrier Reef and Heron Island. Our Bachelor of Marine Science has a broad interdisciplinary approach, encompassing marine biology, chemistry and quantitative physical science, ensuring you will graduate as a well-rounded coastal and marine professional. **Majors:** Coastal management; marine chemistry and biotechnology; marine ecology.

Career opportunities: Our marine graduates find employment around Australia and internationally in a wide range of industries that use and protect our marine environment. Career options include marine biology, environmental consulting, pollution control and mitigation, fisheries and aquaculture, modelling and meteorology, oceanography, coastal planning and marine parks, marine education and tourism, environmental assessment and planning.

Combined diplomas/degrees: Refer to entry under Griffith College for: D Science/B Marine Science.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
228911 Nathan	3F or 6P	57.05	65.05	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +
233671 Gold Coast	3F or 6P	57.30	65.10	Nov 2022 Mar 2023 Jul 2023 Nov 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023 +

Prerequisites: Any General or Applied English subject (Units 3 and 4, C); Applicants must meet the minimum age requirements for admission, see the QTAC website for details. **Assumed knowledge:** General Mathematics or Mathematical Methods (Units 3 and 4, C). **Additional entry information:** Griffith VET Guarantee and the Year 12 Early Offer Guarantee apply to this program. For more information visit griffith.edu.au/guaranteed-admission.

Course outline: Science is at the heart of every facet of life. In this degree you'll study all areas of the sciences before specialising with your choice of major. You'll have the flexibility to decide what interests you the most, so you can shape a career that you're passionate about in the biological, clinical, chemical, physical or mathematical sciences. Taught by experts from renowned research centres, you'll gain the specialised skills and practical knowledge employers are looking for. **Majors:** Applied mathematics; biochemistry and molecular biology; chemistry; clinical sciences (Nathan only); data science; geography; marine biology (Gold Coast only); microbiology (Nathan only); physics; wildlife biology; archaeology (Nathan only). Students can choose up to two majors.

Career opportunities: Depending on your major, you'll be prepared for a wide array of careers in biological, chemical and clinical sciences as a microbiologist, pharmaceutical scientist, biochemist, chemist or biotechnologist; mathematician or physicist; or, with further study, in a broader role for example as a science journalist, patent lawyer, or science teacher. Increasingly, employers in the finance sector are looking to employ science graduates in a wide range of areas that require research and analytical skills, including the application of mathematics and statistics in the finance sector. You may also choose to undertake a fourth year research honours program which can lead to a PhD and a career in research.

Double degrees: Refer to entries for: B Communication and Journalism/B Science; B Engineering (Hons)/B Science; B Science/B Arts; B Science/B Business; B Science/B Data Science; B Science/B Information Technology; B Urban Planning (Hons)/B Science.

Combined diplomas/degrees: Depending on major, refer to entries under Griffith College for: D Health Sciences/B Science; D Science/B Science.

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Completion of Year 12 or attained age 18 years; Application Form. **Additional entry information:** In addition to applying through QTAC, applicants must submit a *JCU Application Form* to the Division of Tropical Health and Medicine. The *JCU Application Form* is available from jcu.edu.au/division-of-tropical-health-and-medicine/application-forms. **Closing date:** *Domestic applicants:* QTAC applications and *JCU Application Form* submissions close 30 September 2022. *International applicants:* QTAC applications and *JCU Application Form* submissions close 31 August 2022.

Course outline: This broad-based program encompasses all aspects of veterinary practice with a focus on tropical and rural practice. Vet science students acquire the knowledge and skills to diagnose, treat and prevent disease in a range of animals, including companion and farm animals, aquatic species and native fauna. Students develop a thorough knowledge of animal production systems, particularly tropical animal husbandry and aquaculture. Clinical training sites include Townsville, Cairns, Mackay, Charters Towers and the Atherton Tableland. Visit: jcu.edu.au/courses/bachelor-of-veterinary-science-honours **Other requirements:** Students must provide evidence of immunity to Q fever within the first teaching period of their studies, and hold current Provide First Aid and CPR certificates. Students must complete all professional experience placement requirements by the prescribed deadlines and maintain currency of these requirements in order to stay admitted in the course.

Career opportunities: Small animal practitioner or rural practitioner, disease control, animal production, livestock inspection, research roles in the pharmaceutical industry, agriculture.

☆ See Admissions Criteria on website for more information.

Bachelor of Advanced Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316361 Townsville	3F or 6P	88.70	92.75	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
326361 Cairns	3F or 6P	86.70	92.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course prepares high-achieving, highly motivated students to be future science leaders and researchers. First year subjects emphasise quantitative and computational skills while third year students undertake a research internship. Leading science professionals deliver seminars designed to develop students' capacity to engage with the multidisciplinary challenges of the modern world. Students participate in fieldwork and practical activities to better understand the processes that structure natural environments. The Physics major of this course s accredited by the Australian Institute of Physics (AIP).

The JCU Offer Guarantee does not apply to this course. **Majors:** *Townsville:* advanced molecular and cell biology; aquaculture science and technology; chemistry; data science; earth science; marine biology; mathematics; physics; zoology and ecology. *Cairns:* data science; earth science; zoology and ecology. Only the first year of the aquaculture science and technology and marine biology majors can be studied at Cairns.

Career opportunities: Researcher and research technician with government bodies, research organisations, private industries and consultancies in the fields of specialisation.

Bachelor of Arts/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
311511 Townsville	4F or 8P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
321511 Cairns	4F or 8P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Completion of Year 12 or attained age 18 years.

Course outline: This course combines study from arts and science and gives students a deeper understanding of scientific principles, balancing them with the critical thinking skills and knowledge gained through studying the humanities. Arts subjects develop communication and research skills, and critical analysis of information. Depending on the science major chosen, students access state-of-the-art laboratories and research vessels for field trips to the World Heritage-listed Great Barrier Reef Marine Park, and the Wet Tropics rainforests. JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Majors:** Not all majors are available at both campuses of for mid-year entry. The psychology studies major does not lead to registration as a psychologist.

Career opportunities: Careers in management, consultant or technician in a wide range of organisations in the private sector.

☆ See Admissions Criteria on website for more information.

Bachelor of Business and Environmental Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316341 Townsville	3F or 6P	☆	☆	Sep 2022 Feb 2023 May 2023 Sep 2023	25 Aug 2022 20 Jan 2023 18 May 2023 +

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C).

Course outline: This multidisciplinary program provides students with core knowledge and training in the application of business and environmental principles. Students learn to understand business and its related environmental and financial issues. The core subjects provide a fundamental background in business together with an understanding of environmental and marine sciences essential for modern business operations. A wide range of electives allows students to develop generic skills, broad-based cross-disciplinary knowledge and more specialised knowledge. JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Majors:** Aquaculture.

Career opportunities: Environmental adviser to business, business adviser to business that focuses on natural resources (eg aquaculture), government departments and agencies, consulting companies.

☆ See Admissions Criteria on website for more information.

+ Regular offers will be made.

Bachelor of Environmental Science and Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316441 Townsville	3F or 6P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
326441 Cairns	3F or 6P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C).

Course outline: This course teaches how to manage the interactions between people and the environment to find solutions to pressing environmental problems. JCU has tropical campuses bordered by the World Heritage-listed Great Barrier Reef and Wet Tropics, exposing students to the challenges of planning in delicate ecosystems. JCU also offers an honours study option. The Centre for Tropical Urban and Regional Planning arranges final-year professional placements.

JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission

Career opportunities: Local, state and federal government, consulting firms, public and private property development, non-government aid organisations.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Environmental Practice.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Geology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316311 Townsville	3F or 6P	65.95	67.95	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
326311 Cairns	3F or 6P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: The course provides students with core knowledge and training in the theory, skills and practical application of geology. First-year electives provide a broad scientific background. In second and third years, students obtain additional knowledge and skills from other relevant disciplines. Students without the assumed knowledge must take the relevant enabling subjects within the course.

JCU Guarantee Offer: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Note:** Only the first year of study can be done at Cairns; the remainder of the course is completed at Townsville.

Career opportunities: Geologist in the mining and exploration industry, government agencies, consulting companies, academia.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Geology.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Marine Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316251 Townsville	3F or 6P	72.25	78.25	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C), Chemistry (Units 3 and 4, C).

Course outline: This course promotes an interdisciplinary approach to studying the marine environment and includes specialisations in chemistry, earth science, environmental science, fisheries, marine biology, mathematics and physics. It also provides students with the knowledge and practical skills applicable to a range of marine specialities by incorporating key elements of marine biology, oceanography, marine geoscience, and marine resources management. Students without the assumed knowledge must take the relevant enabling subjects within the course.

JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission

Career opportunities: Environmental resource management, educational and interpretive ventures, research and teaching (with further study), environmental impact assessment.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Marine Science.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
316061 Townsville	3F or 6P	62.65	66.95	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
326061 Cairns	3F or 6P	65.45	67.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English (Units 3 and 4, C), Mathematical Methods (Units 3 and 4, C).

Course outline: In this course, students can select and study subjects from their major starting in first year, and continue to specialise in second and third years. Students participate in fieldwork and practical experience including hands-on study and research in areas such as tropical rainforests, mangroves, tropical savannah, and the Great Barrier Reef, as well as traditional science areas. Physics major of this course is accredited by the Australian Institute of Physics (AIP) while the Chemistry major is accredited with the Royal Australian Chemical Institute (RACI).

JCU Offer Guarantee: JCU offers guaranteed admissions to most courses if a minimum ATAR is achieved. For more information refer to jcu.edu.au/year-12/guaranteed-admission **Majors:** *Townsville:* aquaculture science and technology; chemistry; data science; earth science; marine biology; mathematics; molecular and cell biology; physics; zoology and ecology. *Cairns:* data science; earth science; zoology and ecology. Only the first year of the following majors can be studied at Cairns: aquaculture science and technology; marine biology; mathematics. **Other requirements:** Not all majors are available at both campuses.

Career opportunities: Researcher and research technician with government bodies, research organisations, private industries and consultancies in the fields of specialisation.

Combined degrees: Refer to entries for: B Arts/B Science; B Engineering (Hons)/B Science; B Science/B Laws.

Combined diplomas/degrees: Refer to entry for: D Higher Education (Science)/B Science.

Diploma of Higher Education (Science)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
310031 Townsville	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✦
320031 Cairns	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✦

Prerequisites: Completion of Year 12 or attained age 18 years.

Course outline: This course is for students who do not qualify for entry to bachelor degrees or are seeking additional skills development before bachelor degree study. In the science stream, students study two core subjects plus a mix of introductory and first-year subjects within the biology and natural science fields. Successful completion of the diploma allows entry to JCU science degree programs with credit transfer for some subjects successfully completed.

The JCU Offer Guarantee does not apply to this course.

Combined diplomas/degrees: Refer to entries for: D Higher Education (Science)/B Environmental Practice; D Higher Education (Science)/B Geology; D Higher Education (Science)/B Marine Science; D Higher Education (Science)/B Science.

		Unadjusted	Adjusted		
418052 Gardens Point	4F	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, Marine Science or Physics (Units 3 and 4, B); Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** Specialist Mathematics (Units 3 & 4, C); at least one of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, Marine Science or Physics (Units 3 & 4, C) in addition to prerequisite. **Additional entry information:** Applicants must be a 2022 Year 12 student or a recent Year 12 student returning from up to two gap years.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Science Advanced (Honours) (Physics)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418072 Gardens Point	4F	87.05	93.05	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Physics (Units 3 and 4, B); Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** Specialist Mathematics (Units 3 & 4, C); at least one of Agricultural Science, Biology, Chemistry, Earth and Environmental Science, or Marine Science (Units 3 & 4, C). **Additional entry information:** Applicants must be a 2022 Year 12 student or a recent Year 12 student returning from up to two gap years.

Course outline: If you have a strong interest and passion for science and a desire to pursue a career in science research or industry in the Biological, Environmental or Earth Sciences, Chemistry, or Physics, this science research focused course if for you.

You will be immersed in research from first year leading to a substantial independent research project in your final year.

As a graduate, you will have strong discipline knowledge, be competent in practical, quantitative and research skills and be well prepared to undertake a PhD.

The QUT Offer Guarantee does not apply to this course. **Note:** Only year 12 subjects undertaken in your year 12 studies will be considered for satisfying the prerequisites.

Advanced standing (credit) is not available in this course.

Career opportunities: Careers available in a wide range of sectors including research and technical services (e.g. university, state departments, CSIRO), education (e.g. science lecturer), communication (e.g. science journalist), regulatory affairs, policy development (e.g. local or federal government) and business (e.g. company employee or entrepreneur).

Bachelor of Science/Bachelor of Laws (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419712 Gardens Point	$5^{1/2}$F	85.35	87.35	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained

age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: The course covers major areas of the law as well as a range of disciplines in science. As a graduate you are prepared to enter the legal profession and are educated in the content and processes of science to prepare them for the complexities of legal issues with a range of scientific and technological dimensions. In the science component, you complete a major in addition to the core requirements for that degree. In the law component, you develop advanced legal research and writing skills, critical analysis and skills in interviewing, advocacy and dispute resolution.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 90.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** You may wish to undertake a minor that focuses on technology and the law. Some law units are offered in summer for students wanting to accelerate their study. This course has some units that can be studied externally. **Majors:** Refer to Bachelor of Science.

Career opportunities: Law and science careers related to environmental science or biotechnology. Refer also to Bachelor of Science and Bachelor of Laws (Honours).

Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418701 Gardens Point	3F or 6P	80.80	84.80	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course produces graduates with well-developed analytical and problem-solving skills and the ability to use mathematics and statistics in a range of applications. The program is flexible and you have the opportunity to explore the different study areas in your common first year before choosing your major. It offers studies in applied mathematics, computational mathematics, mathematical modelling, operations research, scientific computation and visualisation, statistics, and statistical modelling.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Majors:** Applied and computational mathematics; operations research; statistics.

Career opportunities: Statistician or mathematician in the finance, investment, information technology, environmental management, health, defence, and research industries.

Double degrees: Refer to entries for: B Biomedical Science/B Mathematics; B Business/B Mathematics; B Engineering (Hons)/B Mathematics; B Games and Interactive Environments/B Mathematics; B Information Technology/B Mathematics; B Science/B Mathematics.

Bachelor of Mathematics/Master of Teaching (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409742 Gardens Point or Kelvin Grove	4F or 8P	81.60	86.50	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years; LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C). **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the qtac.edu.au/teacher-entry.

Applicants who have failed two or more attempts of either component of the National Literacy and Numeracy Test for Initial Teacher Education Students, and have not passed it in a later attempt, are not eligible for entry.

Course outline: This course prepares you for a career in teaching mathematics and produces graduates with well-developed analytical and problem-solving skills and the ability to use mathematics, statistics and computational mathematics.

The Bachelor of Mathematics is not a stand-alone degree, but the first part of a vertical-double degree.

You will continue your studies by undertaking Master of Teaching (Secondary) to prepare you to teach in mathematics and technologies education in a secondary school setting.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Other requirements:** A Suitability Card is required; refer to institution. You must successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate.

Career opportunities: High school teacher of mathematics, statistician or mathematician in the finance, investment, information technology, environmental management, health, defence, and research industries.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418011 Gardens Point	3F or 6P	65.75	70.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: In this flexible program, you can tailor the qualification to your needs and career aspirations. The program has a range of options to choose from. A general first semester in a range of science disciplines allows you time to choose your study direction specialising in one of biology, chemistry, earth science, environmental science or physics.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 75.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank. **Note:** Part-time students should note that daytime attendance is required. Some lectures and tutorials may have evening sessions. **Majors:** Biology; chemistry; earth science; environmental science; physics.

Career opportunities: Research, diagnostic and analytical laboratories, mining, hospitals and health departments, pharmaceutical companies, primary and agricultural industries, food industry laboratories, environmental agencies, veterinary pathology laboratories.

Double degrees: Refer to entries for: B Communication (Journalism)/B Science; B Communication (Professional Communication)/B Science; B Design (Landscape Architecture)/B Science; B Engineering (Honours)/B Science; B Science/B Business; B Science/B Games and Interactive Environments; B Science/B Information Technology; B Science/B Laws (Honours); B Science/B Mathematics.

Combined diplomas/degrees: This course can be combined with the following courses at TAFE Qld - Greater Brisbane: Diploma of Laboratory Technology.

Bachelor of Science/Bachelor of Business

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419832 Gardens Point	4F	69.10	70.95	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This course combines science and business, leading to careers in scientific innovation in a range of public, private and non-profit industries. You gain commercial knowledge, choose a major in a specific business area and select a science major from biology, chemistry, earth science, environmental science or physics.

The business component is designed to inspire you to realise your potential, to think entrepreneurially and to ethically and sustainably shape the future of business. You will develop core business capabilities and undertake focused and authentic study in your chosen business discipline.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 84.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Science and Bachelor of Business.

Career opportunities: Refer to Bachelor of Science and Bachelor of Business.

Bachelor of Science/Bachelor of Games and Interactive Environments

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
419682 Gardens Point	4F	70.20	72.20	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and

Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This double degree consists of units in both the science and games and interactive environments disciplines. It enables you to apply design skills in the context of science. You complete core units in science and games and interactive environments and select a major specialisation in each discipline.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Science and Bachelor of Games and Interactive Environments.

Career opportunities: Scientific modeller, simulation developer or designer, special effects developer. Refer also to Bachelor of Science and Bachelor of Games and Interactive Environments.

Bachelor of Science/Bachelor of Information Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418322 Gardens Point	4F	68.75	70.75	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: This double degree prepares you for careers involving the application of information technology to science. It gives you the ability to use creative as well as analytical methods to solve scientific problems. In the science component, you complete a set of core units to support advanced-level studies in specialist areas. You select a science major and undertake laboratory work, and may participate in fieldwork. The information technology component develops a broad understanding of the information and communications technology discipline and strong skills in a primary major.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 77.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course.

QUT Year 12 Early Offer Scheme: If you're a current Queensland Year 12 student, you may be eligible to receive an offer to study at QUT on 18 November, before receiving your ATAR or selection rank. **Note:** This course has some units that can be studied online. **Majors:** Refer to Bachelor of Science and Bachelor of Information Technology.

Career opportunities: Scientific modeller, software developer, scientific programmer, computational scientist. Refer also to Bachelor of Science and Bachelor of Information Technology.

Bachelor of Science/Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
418712 Gardens Point	4F	84.55	87.55	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C).

Course outline: In completing this double degree, you meet the requirements for the science and mathematics degrees by following an integrated program over four years. As a graduate, you obtain complementary bachelor-level qualifications in mathematics and one of the sciences, enabling you to pursue careers in either or both of these related discipline areas.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 93.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Science and Bachelor of Mathematics.

Career opportunities: Natural resource management, agriculture management, genetics, chemistry and biochemistry, infection and disease control, bioinformatics, statistics and statistical modelling.

Bachelor of Science/Master of Teaching (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
409832 Gardens Point or Kelvin Grove	4F or 8P	85.70	85.70	Feb 2023	12 Jan 2023

Prerequisites: Applicant must be 16; Completion of Year 12 or attained age 18 years; LANTITE Literacy status; LANTITE Numeracy status; Teaching Personal Statement. **Assumed knowledge:** English, or Literature, or English and Literature Extension, or English as an Additional Language (Units 3 & 4, C); Mathematical Methods or Specialist Mathematics (Units 3 & 4, C). **Additional entry information:** For information regarding the Teaching Personal Statement, refer to the qtac.edu.au/teacher-entry.

Applicants who have failed two or more attempts of either component of the National Literacy and Numeracy Test for Initial Teacher Education Students, and have not passed it in a later attempt, are not eligible for entry.

Course outline: The Bachelor of Science prepares you for a career in science education and prepares graduates with well-developed analytical and problem-solving skills in a science discipline (Biology, Chemistry, Earth Science, Environmental Science and Physics). This is not a stand-alone degree, but the first part of a vertical double degree. You will continue your studies by undertaking the Master of Teaching (Secondary) to prepare you to teach in science and mathematics education in a secondary school setting.

QUT Offer Guarantee: If you achieve an ATAR/QUT selection rank of 87.00 or higher (including any adjustments) and satisfied all other admission requirements, you are guaranteed an offer for this course. **Majors:** Refer to Bachelor of Science **Other requirements:** A Suitability Card is required; refer to institution. You must successfully complete the National Literacy and Numeracy Test for Initial Teacher Education Students to graduate.

Career opportunities: Education, research, diagnostic and analytical laboratories, mining, hospitals and health departments, pharmaceutical companies, primary and agricultural industries, food industry laboratories, environmental agencies, veterinary pathology laboratories

SOUTHERN CROSS UNIVERSITY

Southern Cross University

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
054611 Lismore	3F or 6P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Geography; Mathematical Methods

Course outline: This course is a flexible degree that incorporates a wide range of subjects with career-focused science specialisations. Students can focus on an area of professional practice by choosing a specialisation. Alternatively, they may choose a major from Applied Chemistry, Biology, Mathematics, Environmental Solutions or a shared major from disciplines across the University. The Bachelor of Science is characterised by a high level of practical and field experience in all years, making the most of our easy access to a variety of subtropical terrestrial, coastal and marine ecosystems. This course can also be studied online. Some units require attendance at on-campus workshops.

Career opportunities: In public and private sectors as a resource manager, policy developer, biologist, health scientist, scientific researcher. Work with organisations and businesses in Australia or overseas.

☆ *See Admissions Criteria on website for more information.*

Bachelor of Science (Earth and Environmental Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
051811 Lismore	3F or 6P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Geography; Mathematical Methods

Course Outline: This degree provides a strong foundation in science, including field and laboratory experimentation and analytical techniques, as well as socioecological systems, management and critical thinking. The Earth and Environmental Systems specialisation develops skills and understanding of environmental science and management. Specialist units cover ecology, ecosystem regeneration, biogeochemistry, modelling and resource management (including water, catchments and waste/resources in the circular economy). Students may choose from a range of elective units, including ecological economics, wildlife conservation, and protected area management. This degree is characterised by a high level of practical and field experience, making the most of our easy access to a variety of subtropical terrestrial, coastal and marine ecosystems. This course can also be studied online. Some units require attendance at on-campus workshops.

Specialisation: Earth and Environmental Systems

Career Opportunities: National park and protected area management, environmental protection, waste management, environmental impact assessment and monitoring, environmental education and interpretation, ecotourism, land/river/coast care programs and in environmental science research.

Bachelor of Science (Forestry Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
051411 Lismore	3F or 6P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Geography; Mathematical Methods

Course Outline: This course provides a strong foundation in science, including field and laboratory experimentation and analytical techniques, as well as socioecological systems, management and critical thinking. The Forestry Systems specialisation covers the vital role forests play in natural and managed systems, including native forest silviculture, fire ecology and management, planted trees and forests, wood science and utilisation, forest operations and technology. Elective units include modelling natural systems, plant and disease management, agriculture and forest value chains, and plant biology. This degree is characterised by a high level of practical and field experience, making the most of our easy access to a variety of subtropical terrestrial, coastal and marine ecosystems. This course can also be studied online. Some units require attendance at on-campus workshops.

Specialisation: Forestry systems.

Career Opportunities: Production, conservation and restoration forestry, plantation establishment and management; native forest management, fire prevention and control, forest resource assessment, policy development, pest and disease management, agroforestry and farm forestry advisory services.

Bachelor of Science (Marine Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
051951 National Marine Science Centre, Coffs Harbour	3F or 6P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Geography; Mathematical Methods

Course Outline: This degree offers a thorough grounding in science as well as the opportunity to specialise in marine systems. The specialisation builds on introductory earth systems knowledge with units at our National Marine Science Centre. These cover oceanography, marine ecology, fish and aquaculture, reefs, fisheries and marine parks management. You can choose a shared major as part of this specialisation or choose from a range of elective units including marine megafauna, ocean change biology, drone technology and spacial analysis, and coastal fluvial hydrodynamics. This course can also be studied online. Some units require attendance at on-campus workshops. **Specialisation:** Marine systems.

Career Opportunities: Graduates typically find employment in marine park management, fisheries and aquaculture, marine tourism, consulting or research and technical assistance.

Bachelor of Science (Regenerative Agriculture)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
051611 Lismore	3F or 6P	New Course	New Course	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Geography; Mathematical Methods

Course Outline: This degree offers a thorough grounding in science as well as the opportunity to specialise in regenerative agriculture. It covers human ecology, agroecology, regenerative agronomy and soil management as well as the planning of rural landscapes. It draws on the University's specialist expertise and includes on-farm residential schools. A wide range of electives offered in the degree enables students to tailor the course to meet their learning goals. Students complete either an internship or an integrated project, which is an opportunity for them to investigate in-depth a particular area of interest and to develop their knowledge and skills in that area. This course can also be studied online. Some units require attendance at on-campus workshops. **Specialisation:** Regenerative agriculture.

Career Opportunities: Graduates typically find employment in public and private sectors as a regenerative agriculture specialist, sustainability advisor and planner, biologist, ecologist, farmer or in scientific research.

Diploma of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
054701 Lismore	1F or 2P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Mathematical Methods

Course Outline: Students are equipped with foundational knowledge and skills in areas including environmental science, engineering, physical sciences and mathematics. The diploma is a pathway to Southern Cross University's bachelor degrees in science or engineering, with up to eight units of credit. Some units include compulsory residential workshops. The diploma is offered through the SCU College, which offers students extra support through College Connect. The course is also available online. **Specialisations:** Earth and environmental systems; forestry systems; marine systems; regenerative agriculture; engineering.

Career Opportunities: Field assistant, laboratory assistant, revegetation officer, environmental monitor.

☆ *See Admissions Criteria on website for more information.*

Diploma of Science (Earth and Environmental Systems)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
054821 Lismore	1F or 2P	☆	☆	Mar 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained age 18 years. **Recommended Study:** Biology and/or Chemistry; Mathematical Methods

Course Outline: The Diploma of Science will prepare you with a grounding in scientific knowledge and skills and a taste of the many opportunities science provides. You will learn the language and nature of science and mathematics and be able to follow your interests in specific areas of science. You'll choose a specialisation to tailor your studies in areas including environmental science, engineering, physical sciences and mathematics. Specialisations provide a pathway to linked Bachelor degrees should you wish to pursue further study. The Diploma of Science is offered through SCU College, where we understand that learners have diverse experiences and ways of learning. The College connects you to your peers and offers additional workshops to develop your academic and study skills.

Specialisations: Earth and environmental systems; forestry systems; marine systems; regenerative agriculture; engineering.

Career Opportunities: Field assistant, laboratory assistant, revegetation officer, environmental monitor.

☆ *See Admissions Criteria on website for more information.*

TAFE QUEENSLAND

Certificate IV in Laboratory Techniques/Diploma of Laboratory Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
555546 South Bank	$1^{1/2}$CL	☆	☆	Jan 2023	12 Jan 2023

Prerequisites: Completion of Year 12 or attained Year 12 leaving age. **Additional entry information:** Successful applicants must successfully complete the Certificate IV in Laboratory Techniques or equivalent before progressing to the Diploma of Laboratory Technology.

Course outline: This dual award course will equip students with the cutting-edge science techniques needed to work in a number of industries including clinical science, pathology pharmaceutical and forensic science. Students will start by learning how to log samples, check sample documentation, prepare samples for testing, perform scientific calculations, and maintain laboratory equipment. Students then discover how to interpret information using current scientific data analysis approaches, and record data in accordance with industry-standard protocols. Successful completion of this course will qualify graduates to work as a technical officer or laboratory technician in a range of industries including biotechnology, environmental science, mining, and food technology. **Note:** Applicants offered a place in this course who are not eligible for a subsidised enrolment will pay full fee. VET Student Loans may be available to eligible applicants for study in the diploma, refer to tafeqld.edu.au/study-with-us/what-it-costs/index.html for information.

Career opportunities: Food laboratory technical officer, laboratory technical officer, pathology technical officer, biotechnology technical officer, construction materials testing technical officer.

☆ *All qualified applicants were offered a place.*

THE UNIVERSITY OF QUEENSLAND

Diploma in Science (Graduate Entry)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731801 St Lucia	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Prior study. **Additional entry information:** Applicants must have completed a bachelor's degree in any field from a recognised tertiary institution.

Course outline: This course allows bachelor degree graduates to complete science subjects in a new area of study or to broaden their existing knowledge. Use the program to fulfil entry prerequisites into another program, prepare for GAMSAT or as a professional development option for teachers seeking new teaching areas. You must complete a major from the list provided. Subject to satisfactory performance, graduates may be able to undertake honours, postgraduate coursework, or, via honours, research postgraduate study. **Majors:** Minors: Applied mathematics; archaeological science; astrophysics; biochemistry and molecular biology; biophysics; cell biology; chemical biology; chemistry; coastal and ocean science; computational science; computer science; developmental biology; earth science; ecology and conservation biology; entomology; genetics; geographical information science; human anatomy; human physiology; immunology; marine biology; mathematics; microbiology; neuroscience; pharmacology; physics; plant science; psychology; statistics; zoology.

Career opportunities: Research organisations, government, museums, environmental organisations, universities, hospitals, financial institutions, education industry (with further study).

☆ *See Admissions Criteria on website for more information.*

Bachelor of Advanced Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731901 St Lucia	4F or 8P	91.90	95.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Two of Ag Science, Biology, Chemistry, Earth and Environ Science, Specialist Mathematics or Physics, at least one of which must be Biology, Chemistry or Physics (Units 3 and 4, C).

Course outline: Challenge and deepen your interest in science with a choice from over 20 specialist fields in science and mathematics.In first year, build your interdisciplinary scientific knowledge and practical skills. In second and third years, you'll develop your quantitative, computational, practical and problem-solving skills to prepare for a full-year independent research project in your final year. You'll learn with scientific experts and research thought leaders who will equip you to find your own scientific solutions to problems in industry, government and research organisations. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; earth science; ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science, marine biology, mathematics, microbiology, physics; plant science; psychology; public health; statistics; zoology

Career opportunities: You will find careers in research organisations and institutes; private and public sector organisations; not-for-profit and charity organisations; universities; hospitals and healthcare; environmental sustainability and planning; advisory positions for product development; defence; marine and wildlife conservation; operations research; finance.

Bachelor of Occupational Health and Safety Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
729201 St Lucia	4F or 8P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Make a positive difference to the lives of countless people as a qualified occupational health and safety professional. With this unique science-focused program, you'll combine your studies of health, psychology, law, ethics with management. Learn to monitor and modify work environments, deliver education programs and analyse workplace data. You'll devise, evaluate, audit and implement Occupational Health and Safety (OH&S) management systems, complete accident investigations and ensure compliance with legislation. You'll gain practical skills through placements, worksite visits and industry experience.

Career opportunities: You may be employed in any workplace, including remote, rural or urban regions in Australia or overseas; across all industries (including mining, agriculture, retail, hospitality, leisure, tourism, cultural,

construction, transport, manufacturing and healthcare); in government, the private sector or consultancies.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Veterinary Science (Honours)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
736002 Gatton	5F	94.95	99.60	Feb 2023	12 Jan 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Chemistry (Units 3 and 4, C); Physics or Biology (Units 3 and 4, C); CASPer Test. **Additional entry information:** A situational judgement test is required for entry. For information, refer to the UQ website. **Closing date:** QTAC applications and changes of preferences for this program close on 30 November 2022.

Course outline: Become a fully qualified and internationally recognised veterinarian. Learn to diagnose, treat and prevent diseases and injuries in companion, domestic, exotic, wildlife and production animals. You'll develop skills and knowledge in veterinary medicine, surgery, anaesthesia and radiology in domestic animal species, wildlife, avian and exotic pets. You'll graduate with expert animal handling and clinical skills, with a final year spent in hospitals and clinics. You'll also receive comprehensive biomedical training which may lead to careers in research, industry and government. **Other requirements:** Students must pass all courses for any given semester to progress to the next semester, and must take vacation practical work.

Career opportunities: Become a private veterinary practitioner, a consultant with government departments dealing with the control of animal disease and animal production, an adviser to industry (such as drug companies or agricultural enterprises), or a researcher.

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731201 St Lucia	3F or 6P	82.15	85.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 ✢

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Develop your understanding of the breadth and depth of modern biomedical science from leading researchers in this area. Benefit from their knowledge of the latest biomedical science developments and put this theory into practice through structured research projects. Study broad areas of molecular and cellular biology through to body systems. Take the opportunity to specialise in one or more of these areas in your third year. By integrating your study across various discipline areas, you will graduate with a well-grounded, wide range of knowledge and enter a rewarding career in a range of industries. Use this program as a pathway to study medicine or allied health programs. **Note:** Use this program as a pathway to study medicine or allied health programs.

Career opportunities: Work in hospital and diagnostic clinical laboratories, biotechnology and pharmaceutical companies; undertake laboratory work in molecular and cellular biology; contribute to health policy and communication programs; and teach in secondary schools or other educational institutions (when combined with a teaching qualification). **Dual degrees:** Refer to entry for: B Biomedical Science/B Science.

✢ *Regular offers will be made.*

Bachelor of Biomedical Science/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731211 St Lucia	4F or 8P	84.45	85.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Contribute to breakthroughs in the medical sciences and healthcare by combining interdisciplinary scientific knowledge and key practical skills with an in-depth understanding of biomedical science. You'll study the human body at the molecular, cellular and whole-body levels, and cover biochemistry and cell biology, physiology, developmental biology, microbiology, pharmacology and neuroscience. You can follow your interests and select a major from one of the broadest selections of science disciplines in Australia in your science program. Your biomedical science studies incorporate extensive practical experience, including opportunities to work with researchers making the latest breakthroughs. Apply for a research experience based in one of UQ's many research institutes or centres, to put your theory into practice. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; cell biology; chemistry; coastal and ocean science; computer science; earth science; ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematics; microbiology; microbiology, infection and immunity; physics; plant science; psychology; public health; statistics; zoology.

Career opportunities: Depending on your science majors you may be employed in research organisations, government agencies, industry, environmental organisations and consultancies, community groups, hospitals and healthcare, marine preservation authorities, financial institutions, education (with further study).

Bachelor of Biotechnology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731101 St Lucia	3F or 6P	79.75	81.75	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology or Physics (Units 3 and 4, C).

Course outline: Biotechnologists design innovative products and technologies and pioneer new frontiers in health, agriculture, science and engineering. You'll study molecular genetics, bioinformatics, microbiology, immunology, biochemistry, cells and genes, physics, chemistry, engineering, mathematics, and other essential science areas. Develop your core technical, laboratory and commercialisation skills. Build your expertise in one of 5 specialist areas: Agricultural Biotechnology; Chemical and Nano Biotechnology; Medical Biotechnology; Molecular and Microbial Technology or Synthetic Biology and Industrial Biotechnology. **Majors:** Extended Majors: Agricultural Biotechnology, Chemical and Nano Biotechnology, Medical Biotechnology, Molecular and Microbial Biotechnology or Synthetic Biology and Industrial Biotechnology.

Career opportunities: You will be equipped for a wide variety of employment opportunities in Australia's thriving life sciences sector, which includes agricultural biotechnology (plant and animal), medical technology (including biotherapeutics, drug design, diagnostics and devices), chemical technology, nanotechnology and industrial biotechnology. You may work in a wide range of possible roles in regulatory affairs, quality assurance, clinical trial operations management and consulting, in venture capital companies, pharmaceutical companies, research institutes, and government agencies. **Dual degrees:** Refer to entry for: B Engineering (Hons)/B Biotechnology (Hons).

Bachelor of Mathematics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714401 St Lucia	3F or 6P	90.45	93.80	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Learn the quantitative and analytical skills to pursue a well-paid career globally. Gain a foundation of calculus, linear algebra, discrete mathematics, mathematical analysis and modelling. Choose to specialise from a broad selection of mathematics and statistics courses. You'll apply your advanced mathematics skills to problems in the physical and biological sciences, engineering, information technology, economics and business. Enhance your skills during practical industry placements or internships accessing UQ's local and global networks. **Majors:** Applied mathematics; data analytics and operations research; mathematical physics; pure mathematics; statistics.

Career opportunities: Demand for quantitatively trained graduates is at an all-time high and you will find employment in industry sectors including finance, economics, meteorology, information technology, data science and teaching (with additional studies), government agencies and research organisations. **Dual degrees:** Refer to entries for: B Engineering (Hons)/B Mathematics; B Mathematics/B Arts; B Mathematics/B Business Management; B Mathematics/B Commerce; B Mathematics/B Computer Science; B Mathematics/B Economics; B Mathematics/B Education (Secondary); B Mathematics/B Science.

Bachelor of Mathematics/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714501 St Lucia	4F or 8P	91.45	93.45	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine the versatility and breadth of an arts degree with in-depth knowledge of mathematics to broaden your skills and employment options. Tailor your arts studies with a choice of more than 45 options in humanities, social sciences, languages, world cultures, politics and much more. Develop your comprehensive, specialised knowledge and sophisticated

application of mathematics with a choice from over 60 mathematics and statistics courses. You'll graduate with advanced quantitative and analytic skills for a career in industry sectors which rely on the physical and biological sciences, engineering, information technology, economics, business and other emerging fields. **Majors:** Refer to Bachelor of Mathematics and Bachelor of Arts. You cannot complete the mathematics major in the Bachelor of Arts.

Career opportunities: You will find employment in roles such as operations researcher, data analyst, statistician, financial planner, risk manager, teacher (with further study), marketing professional, or a technical salesperson.

Bachelor of Mathematics/Bachelor of Business Management

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714711 St Lucia	4F or 8P	❖	❖	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Open doors to rewarding career opportunities by combining your passion for analytics and mathematics with a grounding in the principles of business management and leadership. You'll develop your comprehensive, specialised knowledge and sophisticated application of mathematics. In your business studies, select specialist areas of study including leadership and management science, innovation and entrepreneurship, business economics, business information systems, human resources, international business and marketing. Apply these skills during practical industry placements or internships accessing UQ's local and global networks. **Majors:** Applied mathematics, business economics, business information systems, data analytics and operations research, human resources; innovation and entrepreneurship, international business, leadership and management science, marketing, mathematical physics, pure mathematics, statistics

Career opportunities: Demand for quantitatively trained graduates is at an all-time high and you will find employment in industry sectors including finance, economics, information technology, data science and teaching, government agencies and research organisations.

❖ *Refer to minimum selection thresholds in Course Search at qtac.edu.au.*

Bachelor of Mathematics/Bachelor of Commerce

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714601 St Lucia	4F or 8P	91.65	93.65	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine a focused background in commerce with an in-depth knowledge of mathematics for a career in general management, banking, financial management, accounting and information systems or in scientific organisations. You'll develop your comprehensive, specialised knowledge and sophisticated application of mathematics with over 60 courses available in mathematics and statistics. In your commerce studies you'll gain a solid foundation of business skills with majors in accounting, business analytics, business information systems and finance. Apply these skills during practical industry placements or internships accessing UQ's local and global networks. **Majors:** Accounting; applied mathematics, business analytics, business information systems, data analytics and operations research, finance, mathematical physics, pure mathematics, statistics

Career opportunities: Demand for quantitatively trained graduates is at an all-time high and you will find employment in industry sectors including finance, economics, information technology, data science and teaching, government agencies and research organisations.

Bachelor of Mathematics/Bachelor of Computer Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714421 St Lucia	4F or 8P	91.30	93.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Prepare yourself to research and develop the next big breakthroughs in technology and science. Combine your theoretical studies of algorithms and data structures in computer science with a comprehensive specialised knowledge and sophisticated application of mathematics. Select your mathematics specialisation from over 60 courses in mathematics and statistics. Learn to solve problems in the physical and biological sciences, engineering, information technology, economics and business. Develop your high-level quantitative and analytic skills to play a key role in cyber security, data science, machine learning, programming languages and scientific computing which support the global finance, energy, transport, health and communications industries. **Note:** Specialist Mathematics is recommended for this program. Students without Specialist Mathematics or equivalent may be required to undertake preparatory courses which may not enable the program to be completed in the minimum time frame without overloading or undertaking summer study. **Majors:** Applied mathematics, cyber security, data analytics and operations research, data science, machine learning, mathematical physics, programming languages, pure mathematics, scientific computing or statistics.

Career opportunities: Demand for quantitatively trained graduates is at an all-time high and you will find employment in industry sectors including finance, economics, information technology, data science, teaching and emerging fields at the integration of science and technology.

Bachelor of Mathematics/Bachelor of Economics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714701 St Lucia	4F or 8P	92.90	95.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C).

Course outline: Combine your interest in economic theories and principles with the in-depth knowledge of mathematics. In your mathematics component you'll develop a comprehensive specialised knowledge and sophisticated application of mathematics. Select your specialisation from over 60 mathematics and statistics courses. Your economics studies will focus on business, environmental and resource economics, economic policy, econometrics, financial markets, labour and health economics, international trade and development, macroeconomics and microeconomics. You'll develop your quantitative, problem solving and critical thinking skills within an international business context and apply these during practical industry placements or internships accessing UQ's local and global networks. **Majors:** Applied mathematics, data analytics and operations research, economics and public policy, economics of strategy and behaviour, international and financial economics, mathematical physics, pure mathematics, quantitative analysis and statistics.

Career opportunities: Your high-level quantitative and analytic skills, augmented with comprehensive economics training, will be in demand in fields from engineering and the physical sciences to economics, information technology, molecular biology, accounting, business information systems and finance.

Bachelor of Mathematics/Bachelor of Education (Secondary)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714801 St Lucia	4F or 8P	91.30	93.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); Teaching Personal Statement. **Additional entry information:** For information regarding the Teaching Personal Statement, refer to qtac.edu.au/teacher-entry.

Course outline: Combine your passion for mathematics with the skills, knowledge and practical experiences required for teacher registration and employment. You'll receive a thorough preparation for your teaching areas through your professional studies in education. Study essential and specialised topics in mathematics, including calculus, linear algebra and differential equations and recent applications in coding and cryptology, mathematical physics and biology, bioinformatics and finance. Secondary teaching is a rewarding career with specialist mathematics and science teachers in demand worldwide and throughout Australia. **Majors:** Applied mathematics, data analytics and operations research, mathematical physics, pure mathematics, statistics. **Other requirements:** A Blue Card is required; refer to institution. Students undertaking an Initial Teacher Education (ITE) program are required to successfully complete the Literacy and Numeracy Test for Initial Teacher Education (LANTITE) in order to graduate, and must pass the Graduate Teacher Performance Assessment (GTPA).

Career opportunities: Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, you can work as a secondary school teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, or a guidance or career officer or head of department. Other career opportunities outside schooling include trainer, operations researcher, data analyst, statistician, financial planner, risk manager.

Bachelor of Mathematics/Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
714901 St Lucia	4F or 8P	89.50	93.10	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English

as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Apply your scientific and mathematical expertise to solve organisational challenges or address global issues across the sciences, engineering, information technology, economics and the business world. Combine the flexibility and breadth of a science degree with an in-depth knowledge of mathematics. You'll develop a comprehensive specialised knowledge and sophisticated application of mathematics. In your science studies, choose from a broad range of majors to follow your scientific passion. Apply your critical thinking and problem solving skills with practical industry projects, placements, research projects, internships or international study opportunities through UQ's local and global networks. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; data analytics and operations research, earth science, ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematical physics; microbiology; microbiology, infection and immunity, physics; plant science; psychology; public health; pure mathematics, statistics; zoology. You cannot complete the mathematics major in the Bachelor of Science or complete the same field of study in both degrees (eg statistics).

Career opportunities: Your interdisciplinary scientific knowledge and practical skills will open career opportunities in the sciences, engineering, information technology, economics and the business world. Roles may include operations researcher, data analyst, statistician, financial planner, risk manager, teacher (with further study).

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731001 St Lucia	3F or 6P	76.95	80.05	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023 +

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Use this flexible program to combine many aspects of science while developing your critical thinking, technical and communication skills. Study general science and non-science courses before specialising in your second and third years. UQ has one of the broadest selections of science disciplines in Australia and over 2200 teaching and research spaces. Choose from 24 majors, 32 minors or 16 extended majors to focus your program towards your areas of interest or career goals. Apply your knowledge during fieldwork, internships or international study options. **Note:** The Bachelor of Science is popular both as a pathway to medicine, or as a way to improve your entry rank for programs like engineering, veterinary science or pharmacy. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematics; microbiology; microbiology, infection and immunity; physics; plant science; psychology; public health; statistics; zoology. 32 minors and 16 extended majors also available.

Career opportunities: Find careers in research organisations, government, industry, environmental organisations, hospitals, science teaching (with further study), in any sector which requires good problem solving, quantitative and analytical skills. **Dual degrees:** Refer to entries for: B Biomedical Science/B Science; B Business Management/B Science; B Commerce/B Science; B Computer Science/B Science; B Economics/B Science; B Engineering (Hons)/B Science; B Information Technology/B Science; B Mathematics/B Science; B Music (Hons)/B Science; B Science/B Arts; B Science/B Education (Secondary); B Science/B Journalism; B Science/B Laws (Hons).

+ Regular offers will be made.

Bachelor of Science/Bachelor of Arts

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731501 St Lucia	4F or 8P	79.30	80.30	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Equip yourself for success in a rapidly changing world by choosing your own portfolio of arts and science specialisations. Expand your employment options, combine diverse interests or follow specific career goals. You can structure your program within each degree component to include majors in your area of interest and a range of electives. Choose from more than 80 study areas across the sciences, arts, humanities, languages and more. These help to develop your skills in written communication, creativity, problem-solving and critical thinking. The skills and knowledge you gain are valuable assets in the changing world of work. **Majors:** Aboriginal and Torres Strait Islander Studies; ancient Greek; ancient history; ancient history/history; anthropology; applied mathematics; archaeological science; archaeology; art history; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; Chinese; Chinese translation and interpreting; coastal and ocean science; computer science; criminology; drama; earth science; ecology and conservation biology; economics; English; English as an international language; English literature; film and television studies; food science and nutrition; food technology; French; French advanced; genetics; geographical science; geography; German; history; Indonesian; International relations; Italian; Japanese; Japanese advanced; journalism and mass communication; Korean; Latin; legal education studies; linguistics; marine biology; mathematics; media and digital cultures; microbiology; microbiology, infection and immunity; music; peace and conflict studies; philosophy; physics; plant science; political science; popular music and technology; professional writing and communication; psychology; public health; sociology; Spanish; sports studies; statistics; studies in religion; writing; zoology. You cannot complete the same major in both degrees (eg mathematics).

Career opportunities: Your interdisciplinary skills open careers in government, industry, community and research organisations across many sectors.

Bachelor of Science/Bachelor of Journalism

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
731602 St Lucia	4F or 8P	92.35	92.35	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: English, Literature, English and Literature Extension or English as an Additional Language (Units 3 and 4, C); Mathematical Methods (Units 3 and 4, C); One of Chemistry, Biology, Physics or Earth and Environmental Science (Units 3 and 4, C).

Course outline: Combine the flexibility of a science degree with a professional journalism qualification and become uniquely equipped for a rapidly evolving careers market. The science component provides broad scientific knowledge plus a specialisation in one scientific discipline. Choose from 366 different science study plans through a combination of majors, minors and extended majors. In your journalism component, you will study reporting, investigation, editing, and communication and media contexts of journalism. You'll learn to be an independent and reflective practitioner who is a creative problem-solver. You'll gain well developed skills in language, the analytical rigor of scientific training and a good understanding of science and the media. **Majors:** Applied mathematics; archaeological science; biochemistry and molecular biology; bioinformatics; biomedical science; cell biology; chemistry; coastal and ocean science; computer science; earth science, ecology and conservation biology; food science and nutrition; food technology; genetics; geographical science; marine biology; mathematics; microbiology; microbiology, infection and immunity, physics; plant science; psychology; public health; statistics; zoology. Minors and extended majors also available.

Career opportunities: You will find journalistic roles as an environmental and science communicator, a correspondent/journalist; a digital content producer; a foreign media correspondent or as a specialist content writer. You may qualify for other scientific roles depending on your scientific specialisation.

UNIVERSITY OF NEW ENGLAND

une University of New England

Bachelor of Biomedical Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626991 Armidale	3F or 6P	67.95	67.95	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** Mathematical Methods.

Course outline: This degree is focused towards the medical, paramedical and forensic fields. Areas of study include basic science (biology, chemistry and mathematics) followed by human physiology, genetics, nutrition, biochemistry, microbiology, and the integration and applications of disciplines such as biochemistry, biophysics, chemistry, genetics, microbiology, pharmacology and human physiology into biomedical science. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies.

Career opportunities: Biomedical biotechnology or pharmaceutical industries such as pathology laboratories, hospitals, medical and scientific supply companies, research and development laboratories in universities, hospitals and industry.

Bachelor of GeoScience

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626101 Armidale	3F or 6P	69.40	69.40	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; depending on major – Mathematical Methods or Specialist Mathematics; Chemistry.

Course outline: With a strong practical focus on earth science, geology and GIS, this course equips graduates with the fundamentals of the geoscience disciplines, with practical and fieldwork skills that are in demand, as well as essential theoretical knowledge. Upon completion, graduates will be ready for industry or government based employment, as well as higher degree studies. Students will expand their knowledge of our planet's composition, structure and natural geological system, with- topics including resource geology, environmental geology (including aspects associated with resource extraction), environmental and exploration geochemistry, petrology, sedimentology, field mapping, structural and metamorphic geology, GIS, applied geophysics and palaeontology. For students without the recommended background knowledge, the Faculty offers foundation units in chemistry, mathematics and physics. For external study, contact the UNE Future Students Team. **Majors:** Geology; Palaeontology.

Minors: archaeology, chemistry, data science and modelling, earth surface processes, ecology, environmental management and rehabilitation, museum studies, palaeontology, science communication, spatial science.

Career opportunities: Geoscientist, geologist, palaeontologist, mineral and fossil fuels industry, energy resources and exploration, scientific organisations, government agencies, geological or environmental consultancies, academia, museums, primary and secondary school teaching.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626031 Armidale	3F or 6P	67.95	67.95	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** Mathematical Methods; depending on major – Chemistry and/or Physics.

Course outline: The course provides students with the skills and techniques necessary for solving problems associated with a broad range of issues. The extensive range of majors available in established and emerging generalist and specialist sciences are all underpinned by cutting-edge research. In first year, students are encouraged to establish a broad science base that allows for flexibility in choosing an appropriate major, majors or a major and a minor. It is recommended that students who have not completed the assumed knowledge or recommended study consider including the Bachelor of Scientific Studies in their preferences. Refer to separate entry for Bachelor of Scientific Studies. **Majors:** Animal science and veterinary studies; applied physics; archaeology; biochemistry/biotechnology; biodiversity; botany; chemistry; computational science; forensic science; genetics; geography; geoscience; mathematics; medicinal chemistry; microbiology; neuroscience; palaeobiology; physiology; psychology; zoology. *Minors:* business; communications; statistics.

Career opportunities: Business, primary industries, resource management, water and land resources, environmental protection authorities, analytical and/or forensic laboratories, medical and pharmaceutical research or supply industries. Research and postgraduate study, Masters or PhD are other common pathways for graduates, particularly after the completion of a fourth year of study in Bachelor of Science (Honours).

Combined degrees: Refer to entries for: B Arts/B Science; B Science/B Laws.

Bachelor of Science/Bachelor of Laws

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626691 Armidale	5F or 10P	✦	✦	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; Mathematical Methods. **Additional entry information:** Applicants from a non-English speaking background including Australian citizens are advised that this course has a higher English language requirement than many UNE courses. Refer to une.edu.au/study/international/eligibility/english-language-requirements for information on how to meet these requirements.

Course outline: This double degree provides flexibility to pursue law or a career in science that draws on legal skills. The law component includes fundamental units such as legal systems and methods, criminal law, contracts, torts, property law, equity, and constitutional law. For external study, contact the UNE Future Students Team. **Majors:** Refer to B Science (excluding animal science and veterinary studies; archaeology; geography; palaeobiology; psychology).

Career opportunities: Private legal practice, legal aid agencies, government bodies, private sector companies, consultancy.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Scientific Studies

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626061 Armidale	3F or 6P	58.05	58.05	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English.

Course outline: This course is suitable for students who do not have an educational background in sciences. First year provides academic foundation knowledge, skills and achievement at introductory level. Students can exit with a Diploma in Science on completion of first year and may articulate into other science-based bachelor degrees. Graduates have a broad scientific background to assist with future employment or to pursue further study. Successful completion of first year allows students to transfer into a more specialised degree program, based on their desired field of study.

Career opportunities: Graduates have the broad scientific background and skills for further study, or employment in a range of areas requiring knowledge of the basic sciences.

Bachelor of Zoology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
626731 Armidale	3F or 6P	67.70	67.70	Feb 2023 Jun 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years. **Assumed knowledge:** English; depending on major – Mathematical Methods or Specialist Mathematics; Chemistry.

Course outline: As the only zoology-specific degree in Australia, this course offers a unique opportunity for students to learn all aspects of the biology of animals including structure, function, anatomy, physiology, ecology, behaviour,natural history and evolution. The course has a strong focus on field and laboratory-based hands-on practical training, with our Zoology in Practice core program helping students to forge connections in all aspects of their academic journey. Our majors are designed with future employability in mind, ensuring that graduates understand major zoological concepts and are aware of how these are connected with the biological, environmental, rural, and physical sciences. Students also learn to solve problems, collect and analyse scientific data and communicate scientific information to experts and the wider public. Students develop field and laboratory techniques and learn to evaluate social and ethical issues related to zoology and animal interactions with their environment and with people. **Majors:** Animal Ecology, Applied Zoology, Natural History, Palaeobiology.

Minors: Animal Ecology, Applied Zoology, Natural History, Palaeobiology, Science Communication, Museum Studies, Water Science, Botany, Spatial Science, Zoological Methods.

Career opportunities: Zoologist in research institutions, government agencies, museums, national parks, marine parks, zoological gardens, aquaculture and biotechnology, animal breeding, teacher (with further study).

UNIVERSITY OF SOUTHERN QUEENSLAND

Bachelor of Agricultural Technology and Management (External)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907445 External	3F or 6P	66.20	66.20	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907231 Toowoomba	3F or 6P	73.70	73.70	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Pioneering in the agriculture sector, USQ's dedicated degree in Agricultural Technology and Management allows you to discover and use innovative technology within ag systems and agricultural science (plant and animal science) to create effective business solutions and improvements for farmers. Benefit from work-integrated learning, where you can put into practice the agricultural technology and management skills you've learned and connect with industry partners. From automation and robotics to connected livestock, graduates will be ready to lead the next generation of sustainable farming.

Career opportunities: Graduates will be ready for employment by consultancy firms, farming enterprises (corporate and family), agricultural technology supply companies, agribusiness firms, government, and technology development companies.

Graduates will have the expertise and practical skills to apply and develop new and emerging agricultural technologies in both crop and animal production settings, and deliver outcomes that are safe, effective and financially and environmentally sustainable to address industry needs.

Bachelor of Environmental Science (External)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907375 Toowoomba	3F or 6P	66.65	66.65	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906441 Toowoomba	3F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English.

Course outline: Be skilled and ready to play your part in a more sustainable future, with USQ's Bachelor of Environmental Science. Choose the major that interests you most, selecting from Climate Science, Ecology and Conservation, Water Science and Wildlife and Pest Management. Expand your knowledge and learn about environmental science, ecology, climate, biodiversity conservation, wildlife management and practical aspects of natural resource management, ensuring you've got the necessary skills to make a difference. Participate in field studies of vegetation and freshwater ecosystems, wildlife survey and monitoring, and site visits to water resource and renewable energy facilities. **Note:** This program has a highly recommended residential school. **Majors:** Climate science; ecology and conservation; water science; wildlife and pest management.

Career opportunities: Graduates will be ready for employment in resources/mining industries, government departments and agencies, local councils, consultancy, national parks, universities, defence organisations, CSIRO, Australia Bureau of Meteorology and other organisations contributing to sustainable utilisation and management of our natural resources.

Depending on their chosen major, graduates may find employment within careers such as climate scientist, climate policy consultant, a climatologist, climate policy analyst, environmental officer, conservation biologist, biosecurity officer, environmental consultant, ranger, pest control officer, wildlife ecologist, wildlife scientist, hydrologist, water scientists, water modeller, or choose to work as Science Teachers (with further study) or Science Journalists.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Science - Wildlife Management (External)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
907435 External	3F or 6P	76.80	76.80	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
907431 Toowoomba	3F or 6P	62.90	68.90	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Preserve and protect our wildlife with hands-on courses in Wildlife Management within USQ's Bachelor of Science. Learn to identify, handle and trap wildlife from experts in our team of industry-leading lecturers. Develop field safety, transport and survival skills, how to use trapping equipment, and learn survey techniques to record, analyse and present field data. Gain diverse practical skills during a field trip in your first year, wildlife industry placements, and a third-year research project undertaken in an overseas location (COVID permitting) or within Australia, ensuring practical learning takes place alongside theoretical understanding. **Note:** This program has a highly recommended residential school.

Career opportunities: Career opportunities in wildlife management are growing in Australia and internationally as climate change impacts wildlife conservation. Graduates of this degree will have qualifications to manage wildlife in a sanctuary or zoo, or as a protected area ranger. Various positions may include as a biosecurity officer, ranger, zookeeper, fauna spotter catcher, pest control officer, ecotourism guide, conservation officer, vertebrate pest manager, wildlife ecologist, wildlife scientist, and game management officer.

Bachelor of Science – Animal Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906771 Toowoomba	3F or 6P	68.00	68.00	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023
906775 External	3F or 6P	68.00	68.00	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Study key aspects of livestock health, product quality, farm safety, and animal welfare and husbandry to ensure humane and sustainable food production. You will examine emerging technologies in animal breeding programs, and learn to apply cognitive and technical skills in the area of genetics. Combine with a second major, such as Biology, Plant Agricultural Science, or Environment and Sustainability, to create a well-rounded agriculture degree and broaden your employment potential. USQ has strategic partnerships with multi-national agribusinesses including John Deere, and the Department of Environment and Science.

Career opportunities: For graduates with an Animal Science major, careers might include research scientist (government, private or university), animal nutritionist, animal health specialist, rural banking professional, agribusiness employee, farmer, and consultant.

Bachelor of Science – Astronomical and Space Sciences (external)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Learn about the universe and understand more about the science and physics at work in the world around us. This course combines the fascination of astronomy with the opportunity to develop in-demand expertise in physics, mathematics, statistics, computing and data science. Learn from internationally recognised stellar astronomy and planetary systems experts and access USQ's advanced research facilities, including Mount Kent Observatory, scientific computing software and support, and overseas telescopes available through USQ's international collaborations in astrophysics. **Note:** Students will need to attend residential schools.

Career opportunities: Apply core scientific skills and related studies in maths and computing to a range of careers within education, government or the private sector.

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Bachelor of Science – Biology

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C).

Course outline: Students gain knowledge in biology, chemistry and communications and develop a strong foundation for a range of science-related careers. There is also the option to develop more detailed knowledge in areas including biochemistry, genetics, microbiology and physiology. Students benefit from study in laboratories with world-class facilities including gel documentation facility, seed store and fungal pathology laboratory. **Note:** This offering has a highly recommended residential school.

Career opportunities: Research officer, technical officer (labs), agricultural scientist, technical/sales representative in pharmaceutical, medical and biotechnological industries, molecular biologist, microbiologist.

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Bachelor of Science – Environment and Sustainability

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906261 Toowoomba	3F or 6P	65.85	65.85	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: With a focus on climatology, ecology and conservation, this career-orientated program gives students an understanding of environmental science, biodiversity conservation, practical aspects of climate change mitigation and adaptation, and natural resource management for a more sustainable future. Students acquire knowledge of the major environmental

issues and the social, political and environmental implications of human impact to position them for a career in the emerging 'green' profession.

Career opportunities: Climatology, ecotourism, conservation and biodiversity management, environmental scientist, natural resource management, national parks, science journalism, teaching (with further study).

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Bachelor of Science – Food Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906981 Toowoomba	3F or 6P	✦	✦	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023
906985 Online	3F or 6P	✦	✦	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Students can be part of Australia's largest manufacturing industry by studying this course and discover the science behind the development of new food products. They learn about food chemistry and analysis, food processing and product development, and food safety. Students also develop an understanding of the effects of food components on human nutrition and health.

Career opportunities: Food product development, food safety, quality assurance.

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Prerequisites: Mathematical Methods (Units 3 and 4, C).

Course outline: This program prepares students to play leading roles in science, education, industry and society. Combining the rigour and logic of a scientific approach with the specifics of a professional area, this mathematics program is for students interested in finding patterns in numbers, space and abstractions. Students can develop their skills and knowledge through courses in algebra and calculus, high performance numerical computing and foundation mathematics. Students benefit from the use of online technologies that improve the learning experience.

Career opportunities: Mathematician, financial analyst, systems analyst, business systems analyst, data mining researcher, teacher (with further study).

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Science – Mathematics and Statistics

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Physics reveals the natural laws at work in our everyday world and across the cosmos, and teaches us the fundamental principles underpinning modern science and technology. This program broadens and deepens students' scientific knowledge and skills. Courses will survey classical and modern physics, delving into optics, photonics, modern physics and quantum mechanics, astronomical and space sciences, and students will graduate with widely useful scientific, numerical and critical analysis skills **Note:** Students will need to attend residential schools.

Career opportunities: Science teacher (with further study), scientist or research officer (universities, defence, CSIRO, government), technical officer.

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Science – Plant Agricultural Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: This course explores topics in plant physiology, agronomy, plant microbe interactions, soil science, genetics, and post-harvest technologies. Students learn about the impacts of agricultural practices on soil, water and other species to enable them to contribute to the sustainability of the broader agricultural environment. **Note:** This program has a highly recommended residential school.

Career opportunities: Agriculture and horticulture producer, agricultural scientist, agribusiness, research, teaching (with further study).

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

Bachelor of Science – Statistics

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
936201 Ipswich	3F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906201 Toowoomba	3F or 6P	✦	✦	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906205 External	3F or 6P	✦	✦	Nov 2022 Feb 2023 Jul 2023	6 Oct 2022 12 Jan 2023 8 Jun 2023

Prerequisites: Mathematical Methods (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: Gain quantitative and problem-solving skills to increase your competitiveness in the job market with the only university in Queensland to offer a statistics major completely via online study. Examine the fundamentals of theoretical and applied statistics, mathematical modelling and operations research, as well as practical methods for undertaking analysis, modelling and decision-making. Graduates of this degree have

found work with organisations such as the Australian Bureau of Statistics, the Department of Agriculture and Fisheries and Queensland Institute of Medical Research.

Career opportunities: There is currently a shortage of professional statisticians and graduates with strong quantitative knowledge and skills across a range of industries in Australia. You may find work as a Financial Analyst, Systems Analyst, Risk or Focus Analyst, Business Systems Analyst, Biostatistician, Statistical Analyst, Data Analyst, Psychological Statistician, Finance Consultant, Business Analyst or Psychometrician.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Bachelor of Science – Wine Science (External)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906115 External	3F or 6P	✦	✦	Feb 2023	12 Jan 2023

Prerequisites: General Mathematics, Mathematical Methods or Specialist Mathematics (Units 3 and 4, C). **Assumed knowledge:** English (Units 3 and 4, C).

Course outline: This program prepares students for careers in the wine industry, including grape growing and wine making, management and marketing of a wine business or research into grape or wine production methods. Students are equipped with broad knowledge of the underlying scientific principles and practices of viticulture production and wine sensory analysis, combined with intensive, real-world practical experience gained on commercial premises. **Note:** The wine science major is not available fully on-campus or fully by external study. To complete the program, students need to undertake courses in a mix of external and on-campus modes.

Career opportunities: Vineyard or winery operation, production management, quality control or research and development in the wine, brewing and food processing industries.

Double degrees: Refer to entries for: Bachelor of Arts and Bachelor of Science; Bachelor of Business and Bachelor of Science.

✦ *Less than 5 ATAR-based offers were made. Refer to minimum selection thresholds.*

Diploma of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906271 Toowoomba	1F or 2P	68.00	68.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
906275 Online	1F or 2P	61.65	61.65	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Students acquire the knowledge of fundamental concepts in their chosen science major. The diploma is a qualification in its own right but can also be an admission pathway to a bachelor's degree. **Majors:** Biology; computing/ IT; environment and sustainability; general science; mathematics; physical sciences; wildlife management.

Career opportunities: There are a range of employment opportunities suitable for graduates including laboratory assistant/technician/support, sales and marketing, service desk consultant, IT support, software development, data scientist.

Diploma of Wine (External)

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
906445 Toowoomba or Queensland College of Wine Tourism	1F or 2P	64.00	64.00	Feb 2023	12 Jan 2023

Prerequisites: Assumed knowledge: English (Units 3 and 4, C); General Mathematics (Units 3 and 4, C).

Course outline: Examine the fundamental concepts of wine science with USQ's Diploma of Wine, the only undergraduate Diploma of its kind currently offered in Australia. In addition to the core courses you can broaden your skills with a minor in Grape Growing, Wine Making or Wine Business Management. Gain valuable industry experience during the residential school courses at the Queensland College of Wine Tourism in Stanthorpe, Queensland, where you will also have the opportunity to achieve internationally recognised certification from the Wine and Spirit Education Trust. **Note:** Students must attend three, week-long residential schools at the Queensland College of Wine Tourism during the program.

Career opportunities: Graduates will be qualified to work in vineyards, wineries or in a business managerial role. Career areas may include viticulturist and vineyard management, grower liaison, agronomy, plant and soil health, wine making, cellar management, laboratory management, wine sales and cellar door management, wine marketing, distribution, imports and exports, wine warehousing, vineyard and winery supply sales, wine journalism and more.

UNIVERSITY OF THE SUNSHINE COAST

USC

Bachelor of Animal Ecology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013201 Sunshine Coast	3F or 6P	49.05	50.00	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014271 Moreton Bay	3F or 6P	46.50	50.50	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: This program prepares graduates to contribute to the study, conservation and management of terrestrial or marine animals in the wild or in captivity. Study focuses on animals, their interactions with each other and environmental features and tools to manage animals to ensure sustainability. The emphasis on fieldwork means graduates can blend concepts from global literature with personal experience of diverse regional habitats and fauna. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Private environmental consulting, wildlife management and conservation, environmental monitoring and management, research, wildlife biology, museums.

Bachelor of Science

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013001 Sunshine Coast	3F or 6P	50.05	53.25	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014801 Moreton Bay	3F or 6P	49.45	54.25	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Students gain a foundation in science and can design a degree to suit specific interests. They select a major and minor from a range of science and other discipline options. First-year courses include cell biology, chemistry, biodiversity and ecology, and science research methods. In years 2 and 3, studies can include advanced-level courses from a wide range of science areas. The program is a strong base for employment, postgraduate research, or further studies in education, law or honours. **Majors:** Biology; biotechnology; chemistry; ecology; mathematics. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Depending on major chosen: research and education, waste and pollution control, biotechnology, environmental protection.

Combined degrees: Refer to entries for: B Arts/B Science; B Business/B Science; B Education (Secondary)/B Science.

Associate Degree in Science

Diploma in Animal Ecology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
019601 Fraser Coast	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
016611 Moreton Bay	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
013202 Sunshine Coast	1F or 2P	☆	☆	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years.

Course outline: Learn about animals and turn your love of nature into a meaningful career. In this one-year diploma, you'll study animals in their natural habitats to better understand how we can protect their future. You will learn about biodiversity, conservation, human-animal interactions, and the impacts of a changing environment and study a wide range of marine and terrestrial wildlife, including sharks, snakes, birds, turtles and whales. Develop your skills and knowledge to work in ecotourism, in entry-level roles within Government and non-government wildlife management and conservation organisations, or as an environmental educator. On successful completion of the Diploma in Animal Ecology, and subject to meeting all other entry criteria, you may receive up to 96 units of credit towards USC's Bachelor of Animal Ecology. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

Career opportunities: Ecotourism, entry-level roles within Government and non-government wildlife management and conservation organisations, or as an environmental educator.

Diploma in Science and Technology

QTAC Code and Location	Duration	Lowest ATAR/Rank offered semester 1 2022		Start Month	Offer Round
		Unadjusted	Adjusted		
013181 Sunshine Coast	1F or 2P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023
014171 Moreton Bay	1F or 2P	New Course	New Course	Feb 2023 Jul 2023	12 Jan 2023 8 Jun 2023

Prerequisites: Completion of Year 12 or attained age 17 years; No prior study.
Additional entry information: Applicants who have already completed a higher education qualification (AQF Level 5 or above or equivalent), excluding VET sector diplomas, are not eligible for entry into this program.

Course outline: Students explore the role of science and technology in the world around us. They learn how to think about scientific problems, and how data can be used to solve real-world challenges. The program includes foundation studies in core scientific fields, including biology, chemistry and ecology. During lab and field activities, students explore their skills of investigation, presenting data and critical analysis and apply these across disciplines through 'Big Idea' modules that introduce them to the cutting edge of science, research and technology. **Note:** This diploma is an identified pathway into the following USC degree programs: Bachelor of Animal Ecology, Bachelor of Environmental Science, and Bachelor of Science. On successful completion of the diploma, students are eligible for entry into, and may receive 96 units of credit towards, their selected pathway degree. **Other requirements:** The Inherent Academic Requirements of a program are those fundamental skills, capabilities and knowledge that students must be able to demonstrate in order to achieve the essential learning outcomes of the program, while maintaining the academic integrity of that program. For information, visit usc.edu.au/iar.

/bonduniversity

Bond University administers its own admission for all programs except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) (the Bond Medical Program); admission to this course is managed by QTAC. Students can apply direct to Bond through a free online application form for all other programs.

Bond University offers a personalised academic environment that enables graduates from all over the world to stand out in their careers and industries. As an independent not-for-profit institution, all tuition fees are reinvested into the University to further develop learning facilities and enhance the student experience. Bond has also been rated Australia's number one for student experience in the Good Universities Guide.

Bond challenges students to be leaders and thinkers, combining globally focused course content with industry experience to develop initiative, enterprise and ambition that prepares graduates for rapid career progression.

Bond's three-semesters-per-year structure enables students to accelerate their studies, completing a six-semester bachelor's degree in two years instead of three, providing graduates with a valuable head start in the competitive careers market. Students thrive in smaller study groups where renowned professors and industry-experienced lecturers know them by name.

Degrees and programs: Bond University offers a range of diploma, undergraduate and postgraduate programs in business, commerce, data analytics, actuarial science, hotel and tourism management, health sciences and medicine, physiotherapy, nutrition and dietetics, humanities and social sciences, communication and media, film and television, built environment and architecture.

How to apply: Applications for all programs, except the Bond Medical Program, must be lodged directly with Bond University. Applicants must follow the University's application processes, including any timelines where applicable. For more information, visit bond.edu.au/apply. For the Bond Medical Program, refer to Courses section under Health.

Admissions criteria: Bond University applies a range of criteria when assessing the eligibility of applicants.

If you are completing Year 12 and want an early offer, Bond will consider your full Year 11 results, Year 12 semester 1 results, and your school recommendation (if provided). Early offers are issued from between October and December. If you qualify, you will receive a conditional offer from Bond. This means that you will be admitted to the offered program when you achieve the minimum score as stated on your offer letter.

If you have completed Year 12 and have not studied since completing high school, Bond will use your senior secondary academic results and/or rank (if any) to assess you for admission. You may need to provide a resume if you have completed Year 12 more than a year ago.

Bond also recognises a range of other post-secondary qualifications for admission, such as an AQF Certificate IV or higher from a recognised provider, or the successful completion of a full-time semester of a bachelor's degree. Documented vocational or professional experience and STAT results will also be considered for admission.

If you do not meet the criteria for entry into your preferred program, Bond will assess you for an admission pathway. The pathway will give you an opportunity to meet the criteria of your chosen program.

Bond may also apply adjustment factors at its discretion for students who may not otherwise get into their program. These adjustment factors, such as subject adjustment, rural consideration, leadership or community engagement, are only considered if you do not meet the criteria for entry into your preferred undergraduate program.

International students: Bond University is a CRICOS registered provider (00017B) and welcomes international applications for all CRICOS-registered programs except the Bond Medical Program, which is only available to international students via the Bachelor of Biomedical Science pathway.

Scholarships: Bond University offers several full-fee and part-fee scholarships and bursaries. For more information on how to apply and application closing dates, please visit bond.edu.au/scholarships.

Program fees: Refer to the program entries on QTAC's website for approximate tuition costs. Fees are subject to change on an annual basis. In addition to the Student Activities Fee, books and study materials, your chosen program may also require payment of additional compulsory costs such as uniforms, excursions or placement fees. More information on tuition fees and other costs is available from bond.edu.au/fees.

FEE-HELP: FEE-HELP is an interest-free loan from the Australian Government that helps eligible domestic fee-paying students pay their tuition fees and can be used for undergraduate, postgraduate coursework and research study. To access FEE-HELP, you must meet residency and other criteria. More information is available from bond.edu.au/fee-help.

Offers: Offers for programs in this section are made directly by Bond University according to their admission timelines. Applicants who have also applied for Bond University's medical program listed in the Courses section of this guide may also receive an offer through QTAC.

Built Environment and Design

Course	Location	Fee	Duration	Start Month
Bachelor of Architectural Studies	Gold Coast	fee^	2 F	Jan 2023

About Australian Catholic University (ACU)

An **ACU** education builds on the Catholic understanding of faith and reason working together in pursuit of knowledge and promotion of human dignity and the common good.

An ACU education seeks to transform lives and communities. Students are challenged to look beyond the classroom, solve real-world problems, develop their own search for meaning, and cultivate strong professional ethics. They are invited to stand up for people in need and causes that matter.

ACU is open to all. As is common with great Catholic institutions the world over, the university is inclusive and supportive of everyone, every day – regardless of their faith or tradition.

ACU is a young university making a serious impact. Ranked in the top two per cent of universities worldwide* and in the top 10 Catholic universities **, ACU is also first in Australia for graduate employment***.
The university has seven campuses around Australia and a campus in Rome, Italy.

Opportunities for personal and professional growth are critical to ACU. This is a university of service – so much so that it is built into the curricula. All ACU courses offer work placements, internships, or volunteering opportunities.

The Brisbane Campus

The Brisbane Campus offers programs in arts and social sciences, biomedical science, business and commerce, creative arts, global studies, law and criminology, midwifery, nursing, occupational therapy, paramedicine, philosophy, physiotherapy, social work, speech pathology, sport and exercise science, teaching and education, and theology.

Transport

Located 12 kilometres from the city centre, it's easy to travel to our Brisbane Campus. Trains and buses stop nearby, and a free ACU shuttle bus connects the campus with Toombul and Chermside. There is also free car parking, and bike racks for cyclists.

Student facilities

Whether you want to get involved in campus life, create a professional network, or just find a quiet place to study, our Brisbane Campus has you covered. Set on 40 hectares of parklands, the campus has ample parking, state-of-the-art learning facilities, and places to hang out, like cafés and a swimming pool. Other on-campus facilities include health and computer labs, an art gallery, library, bookshop, moot court, student lounge, multipurpose sports facility, health clinic, chapel, and ovals and playing fields.

Campus life and support services

We've worked hard to create campus spaces that are relaxed, inviting, and fun. And with clubs and societies for everything from photography, to French, to skiing, we're bound to have a group that's right for you.
We also offer a range of support services, including academic skills and career development, counselling, equity and disability advisers, campus ministry, and accommodation services. Visit acu.edu.au/support for information.

For Aboriginal and Torres Strait Islander students, the on-campus Indigenous Higher Education Unit offers cultural, personal and academic support. Flexible undergraduate courses are also available for students through the Away from Base program, which involves studying via online learning combined with intensive residential blocks twice a semester. Visit acu.edu.au/indigenoussupport for more information.

Study abroad

Want to study health sciences in Italy? Global studies in Mexico? Theology in Israel? Learning abroad programs can count towards your degree, and with more than 200 partner institutions, you can choose from a huge range of international opportunities.
Around 20 per cent of our domestic undergraduate students travel overseas during their studies. You can join a study tour, complete an internship, do a semester or short exchange, participate in community engagement, or take our unique international Core Curriculum program.
Learning abroad programs can be as short as two weeks or as long as a year, and there are generous travel grants available. Visit acu.edu.au/study_overseas for more information.

Scholarships

We know that balancing the cost of living and study can be tricky. That's why we offer nearly 500 scholarship opportunities that recognise academic achievement, community participation, and help out students from a range of backgrounds.

We offer equity, merit, and accommodation scholarships – which can help with costs like fees, textbooks and rent. To provide even more opportunities for our students, we've also developed the Creating Opportunity Fund scholarships. These are designed to support you to achieve your goals, no matter what difficult circumstances you may be facing. And unlike many equity scholarships, our eligibility criteria are flexible, so we can provide support where it's needed most.
Visit acu.edu.au/scholarships for more information.

There's more than one way into ACU

There's no right or wrong way to get into university, so if you don't get the ATAR you need, don't panic. That's why we have pathways. These provide alternative options if you don't get a high enough score, haven't completed the prerequisites, or don't meet some other requirement. Visit acu.edu.au/pathways for more information.

* Times Higher Education World University Rankings 2022. Percentage calculated as ACU's world rank as a proportion of the total number of universities in the world: International Handbook of Universities 2019, Palgrave MacMillan.

** International Federation of Catholic Universities members ranked on Times Higher Education World University Rankings 2022

*** Graduate Outcomes Survey – Longitudinal 2021, medium-term outcomes, full-time employment for domestic undergraduate students

Bond University offers a personalised academic environment that produces globally minded, work-ready graduates who stand out in their chosen careers and industries. Ranked #1 in Australia for student experience for 16 consecutive years according to the Good Universities Guide, our students are at the heart of everything we do – reflected by our small class sizes, focus on individual attention, and close-knit cohort of 'Bondies'.

As an independent, not-for-profit institution, all tuition fees are reinvested back into the University to build world-class facilities, support innovative degrees, and ensure that every student who passes through our doors has an unforgettable university experience.

Accelerated programs

At Bond, we operate on a three-semester-per-year timetable that allows students to accelerate their studies, completing the average six-semester bachelor's degree in just two years. This gives Bond graduates a valuable head start in the competitive careers market – permitting them to enter industry and start enacting change sooner.
We offer a range of diploma, undergraduate and postgraduate programs spanning the study areas of actuarial science and data analytics; architecture; business, commerce and entrepreneurship; communication, film and creative media; construction, property and planning; health, biomedical and sports sciences; international relations, politics and arts; law; medicine; project management and innovation; and psychology, criminology and social sciences.
Explore our latest program and faculty guides at bond.edu.au/view-our-brochures.

The Core curriculum

Embedded in every undergraduate degree at Bond, our Core curriculum is designed to prepare students not just for a successful career, but to be socially responsible, compassionate and independent leaders.
The Core curriculum consists of four compulsory subjects across critical thinking, collaboration, responsibility and integrity, and Beyond Bond, a professional development program that helps students transition seamlessly from university to the workplace.

Our international community

Bond students come from over 90 countries, and after graduation, may decide to return home, live abroad, or continue to enjoy life in Australia. We are a CRICOS registered provider (00017B) and welcome international applications for all CRICOS registered programs, with the exception of the Bond Medical Program, which is only accessible to international students via pathway from Bond's Bachelor of Biomedical Science.

Applying to Bond

We administer our own admission for all programs except the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD) [the Bond Medical Program]. Admission to this course is administered by QTAC.
For all other programs, students can apply directly to Bond through our free, quick-to-complete online application form and receive an offer direct from us if successful. Visit bond.edu.au/apply for more information and to begin your application, or learn more about the Medical Program in the Direct Entry Institutiions section of this guide.

A range of criteria may be applied when assessing applicant eligibility for admission to Bond. Our early offer system means that applicants still completing Year 12 can receive conditional entry based on their Year 11 results and first-semester results from Year 12. You can enrol in your program of choice when you receive the minimum required score (as stated in your offer letter) upon completing Year 12. We also recognise a range of other post-secondary qualifications for admission, including the AQF Certificate IV or the successful completion of a semester of a bachelor's degree. If you do not meet the criteria for entry into your preferred program, pathway opportunities may be available. Get in touch with us via bond.edu.au/contact for more information and to speak to someone about your circumstances.

If you are an international student, visit bond.edu.au/bond-international for more information on the international application process.

FEE-HELP

FEE-HELP is an interest-free loan from the Australian Government that helps eligible domestic fee-paying students pay their tuition fees, and can be used for undergraduate studies, postgraduate coursework and research. To access FEE-HELP, you must meet a range of criteria including citizenship and residency requirements. More information is available at bond.edu.au/fee-help.

Program fees

Refer to the program entries on QTAC's website for approximate tuition costs.
Fees are subject to change on an annual basis. In addition to the Student Activities Fee, textbooks, and study materials, your chosen program may also have additional compulsory costs such as uniforms, excursions, or placement fees.
More information on tuition fees and other costs is available at bond.edu.au/fees.

Scholarships

Bond University offers a generous range of full-fee and part-fee scholarships and bursaries to successful applicants. For more information on how to apply for a scholarship and application closing dates, please visit bond.edu.au/scholarships.

Supporting student success

To ensure every student has the adequate resources to thrive throughout their university studies, we offer a range of support services delivered both on campus and remotely.
The Academic Skills Centre offers free consultations and guidance for any student seeking to improve their quality of work and our Career Development supports students and alumni with finding work placements, internships, and professional employment.

Bond University is also committed to providing a culturally safe and supportive learning environment for all students, including Indigenous students. The Nyombil Centre is a hub for First Nations Bondies on campus, providing academic support, guidance, and connection opportunities. These efforts also include a number of scholarships specifically for Indigenous applicants.

CHRISTIAN HERITAGE COLLEGE

@chcuni

Christian Heritage College (CHC) is located in Brisbane's south-east in the leafy suburb of Carindale, just 10 kilometres from the Brisbane CBD. CHC is a boutique institute of higher education that offers academic excellence from a Christian perspective. t boasts amongst the highest graduate employment rates and student satisfaction rates in Queensland and ranks highly in teaching quality and student support (QILT).

At CHC, we believe that degrees do more than just inform, they transform.
Our undergraduate and postgraduate courses in business, education, the liberal arts, ministries, human services and counselling are underpinned by a Christian worldview, offering an integration of faith and career studies that give strength and purpose to the notion of mission and vocation.
Small class sizes, individualised programs and quality one-on-one advice from lecturers both support and encourage students to achieve their best. The atmosphere of inclusion and shared aspirations makes life at CHC a rewarding experience, with many students continuing their association with the CHC community long after they graduate.

CHC forms part of the 92-acre campus of one of Australia's largest Christian churches, Citipointe Church, with Christian schooling and associated childcare centres onsite. CHC offers plenty of free parking, with public transport available within walking distance, and bicycle and walking paths link the campus to surrounding suburbs.

Application for all undergraduate courses and Master of Teaching courses is made through QTAC. Application for all other courses is made directly to CHC. Entry to undergraduate courses normally requires the completion of Year 12 (or equivalent) and the achievement of a minimum ATAR, but non-ATAR students may be eligible for admission if they achieve a minimum QTAC Selection Rank based on other studies, such as vocational courses. Some courses have additional admission requirements; for example, some counselling and ministry courses require referees, a personal statement and, in some cases, an interview. All admission requirements and entry criteria can be found on the relevant course pages of the CHC website.

Commonwealth support and assistance

CHC has Commonwealth supported places available in its undergraduate and postgraduate initial teacher education courses. If you are an Australian citizen, an eligible New Zealand citizen who is an SCV holder or are the holder or former holder of a Permanent Humanitarian visa, you can access HECS-HELP for your Commonwealth supported place. For all other courses, FEE-HELP is available to Australian citizens, eligible New Zealand citizens who are SCV holders, and holders and former holders of Permanent Humanitarian visas.

Library +

The CHC Library + building is the hub of the CHC community. It holds a significant collection of research materials and is equipped with individual and group study areas, such as seminar rooms and open research spaces, to encourage and support student learning.

Student facilities

Computers and free wireless internet are available for student use, and individual Office 365 accounts provide easy access to emails and documents both on and off campus.
With Rivers Café onsite and peaceful bushland surroundings, there are some great places to study, catch up with friends or just chill for a while. In addition, the air-conditioned Student Common Room is a place to relax, with a kitchen with tea and coffee facilities, microwave ovens, fridges and vending machines, and a pool table and large-screen TV.

Student accommodation

CHC does not have on-campus accommodation but can assist students to secure accommodation close to campus.
For more information, email studentservices@chc.edu.au

Student support services

CHC offers support and activities that foster the community dynamic and nurture the growth of the individual academically, socially and spiritually. The Student Services team provides links to on-campus and community services, including professional counselling and academic support services.
For further information, email studentservices@chc.edu.au.

More information

Information about CHC and its courses is available at chc.edu.au or in the CHC Course Guide.

At **CQUniversity Australia**, we believe higher education should be for everyone — no matter your postcode or educational background. That's why we offer a wide range of up-to-date, industry-aligned courses, from TAFE certificates right through to research degrees, online and across our many locations nationally.

Real-world opportunities

We've designed our qualifications alongside industry to prepare you with up-to-date, real-world skills—and we've been ranked in the top two per cent of universities globally for graduate employability*.
Our award-winning teaching professionals are widely experienced with a practical approach and dedication to continual
course improvements.

250+ course options

You can choose from a wide variety of courses from areas including:

- allied health
- business and accounting
- creative, performing and visual arts
- digital media, communication and arts
- education, teaching and childcare
- engineering, built environment and aviation
- English and study pathways
- information systems and technology
- law, criminology and justice
- nursing, paramedicine and health
- psychology, social work and community services
- safety sciences
- science, environment and agriculture
- service industries
- trades.

Excellent graduate outcomes

Providing positive graduate outcomes is our core focus. As one of Australia's leading work-integrated learning institutions, with many outbound mobility programs and close partnerships with industry, our graduates are some of the most sought after in Australia. In fact, we're rated five stars for undergraduate full-time employment and ranked in the top five Australian unis for undergraduate starting salaries by Good Universities Guide 2022.

Changemaker campus

We aspire to be the most engaged and connected university in Australia, and have a strong focus on social innovation, empowering our students, staff and communities to make a difference through developing novel solutions to social programs. CQUniversity is recognised as Australia's first and only Changemaker Campus by global social innovation group Ashoka U.

Study local at CQUniversity

At CQUniversity, we're truly focused on our students' needs, and that means responding to what, how and where they want to study. It's why we have locations throughout every mainland Australian state and are pioneers in distance education – now with 40 years of experience providing high quality online learning experiences. So, whether you prefer to learn face-to-face, on campus by attending lectures, tutorials and workshops, or like to study when it suits you, with access to the latest in online learning techniques, CQUniversity has you covered.

Campuses

CQUniversity has campuses in Adelaide, Brisbane, Bundaberg, Cairns, Emerald, Gladstone, Mackay, Melbourne, Rockhampton, Sydney, and Townsville. CQUniversity also partners with Regional University Centres in many locations across Australia to provide more study options to regional students. Visit cqu.edu.au/locations.

Student accommodation

We offer on-campus accommodation options at CQUniversity Mackay and Rockhampton.

Mackay student residences: Canefield College
Boasting modern residential facilities, you can choose between several room options.
All rooms are individually keyed, air conditioned and cleaned weekly. Internet access is available in each room and laundry facilities are available in each block. Common rooms are furnished with a television and DVD player, fridge, microwave and stove.
We have dedicated staff on site 24 hours a day, seven days a week, ready to support you.

CQUniversity Rockhampton student residences: Capricornia College
The student residential facilities at CQUniversity Rockhampton provide accommodation and meals for 320 students. Set in park-like surrounds, the College is an easy walk to all University facilities, including the library and gym.
Meals are provided and the facilities are fully maintained and cleaned weekly. All rooms are individually keyed, and the residence has an onsite manager and 24-hour live-in staff. Visit cqu.edu.au/accommodation.

Student support services

Our commitment to ensuring that a quality education is accessible to everyone sees us welcome students from diverse cultural backgrounds, geographic locations and socio economic contexts and offer dedicated Indigenous student support, study support and student life activities. Visit cqu.edu.au/student-life.

Entry pathways

At CQUniversity, our enabling and entry pathway options can help you gain entry into your preferred course. If you've studied a certificate III, IV or diploma, you may meet specified entry score requirements for many of CQUniversity's degrees. Applicants who do not meet the entry requirements for their course can apply to study Skills for Tertiary Education Preparatory Studies (STEPS), a free enabling course that provides a pathway to gain entry into and succeed at university. Visit cqu.edu.au/pathways.

Federation University Australia is a modern, progressive university committed to providing high-quality education across a national and international network of campuses. We aim to make a real difference in the life of every student as well as the communities we help build.

Why choose Federation University Australia?

#1 in Australia for teaching quality, eight years in a row.*
#1 in Australia for graduate employability, technical and adaptive skills.^

Federation University has been a provider of higher education for 150 years and offers several hundred programs across many fields of study and hosts a number of world-class research centres. It is ranked among the top 150 universities in the world for its sports science programs. As a modern, progressive university offering different levels of study we have the perfect learning environment to make you feel right at home.

We understand that you need real world experience along with your degree to achieve your goals. Federation University integrates real-world industry experiences into its programs, connecting students to leading Australian businesses. We partner with a range of organisations, such as River City Labs (RCL), to ensure you have access to real life business challenges as part of your study program. As part of the RCL partnership, you are involved in troubleshooting real-world technical problems for startup businesses. This experiential learning component connects you with industry, supporting you to develop job-ready skills such as digital literacy, effective communication, project management, and more.

We recognise that coming to university is one of the biggest decisions you'll ever make. That's why we ensure we have the best support services in place. We pride ourselves on being an inclusive university with a focus on sustainability.
Our priority is to support you from the moment you arrive through to graduation and beyond.

Some of our support programs include:

- FedReady to help prepare students for university
- Student Mentors who will help welcome you to the campus in your first weeks of starting
- Peer Assisted Study Sessions: Study sessions with students who have achieved high marks in subjects
- Disability support
- Aboriginal Education Centre.

Federation University understands that accommodation plays an important part in building a solid foundation to academic success for students. This is why we have partnered with Student One. Student One is Brisbane's premium student living experience, offering spacious, fully furnished and airconditioned studios and apartments within a prime city centre location. It is less than 300 metres from campus and close to public transport.

Admission and selection

At Federation University we believe in lifelong learning, so whatever your background or experience may be, we encourage you to apply. Students may wish to apply using:

- higher education background, if they have studied previously
- work and life experience
- recent secondary school education
- ATAR, or
- previous study at a certificate III level or higher.

For more information on applying, including our new Early Offer Program, we recommend contacting QTAC or our Future Students team.

Study options

Federation University's Brisbane campus welcomes new students throughout the year in March, July and November. Each degree is carefully curated with links to industry and multiple hands-on learning experiences that give our students a competitive edge when searching for employment. Our flagship programs for 2022 include:

Bachelor of Cognitive Enterprise
Designed in collaboration with IBM, students will learn how disruptive technologies such as Blockchain and Artificial Intelligence (AI) contribute to the digital transformation of organisations.

Bachelor of Information Technology
Develop strong communication, academic and problem-solving skills – critical attributes for success in the IT sector.

Alongside our flagship programs, we also offer a variety of short courses designed for online study which allow students the ability to upskill, anytime, anywhere.

Scholarships

Our scholarships and grants support people from all walks of life – helping build the communities we're proud to be part of. Thanks to generous government and donor funding, coupled with our strong industry ties, chances are you'll find an opportunity that's right for you.

Student and campus services

Life at university is exciting, but it involves change with a challenge or two along the way. To help meet these challenges, and to succeed, we have a range of student-focused programs, social activities and services that will help achieve the right work/life balance during your time with us.

Campuses

Federation University's Brisbane Campus is located in the heart of the city, with easy access to public transport. It's only a three-minute walk to Central Station. Our other campuses are located in Ballarat (Mt Helen), Gippsland and Berwick. We also offer programs online.

@GCollegeAUS
@griffithcollegeaus
/GriffithCollegeAUS

Established 25 years ago, **Griffith College** has always been geared to delivering on the needs of our students. We offer an alternative option for studying your first year at Griffith University. Complete a two or three-trimester diploma, and then enter seamlessly into the second year of a selection of bachelor degrees at Griffith University*. We are very proud of the over 25,000 students who have successfully passed through our doors and onto their degree of choice – now alumni of Griffith College.

We offer rapid progress, in a relaxed and supportive environment. Importantly, the speed of progress that our students achieve doesn't mean they ever feel rushed or pressured. We know that the best way to give students a head start is to provide a supportive, confidence-building learning environment.

Our smaller class sizes and tailored support services mean that every student receives the individual attention and guidance they need to tackle all tasks with confidence.

Diploma to degree at Griffith University

Our university-designed, one-year diplomas are structured to provide the same amount of credit points as first year degree study at Griffith University. A three-year degree requires students to earn 240 credit points. Our diplomas are worth up to 80 credit points towards this total**.
That means most Griffith College students are able to progress directly to the second year of their degree at Griffith University. Preference the diploma to bachelor pathway in your application and receive one offer to move directly to university on successful completion of your diploma (and meeting any specific conditions).

As a Griffith College student, you are welcomed as part of the Griffith University community and enjoy access to university facilities and services, including clubs, societies, and world-class sporting facilities.

No ATAR needed/entry requirements

Year 12 graduates are admitted regardless of their ATAR results and their ATAR eligibility (i.e., those not on an ATAR pathway can be eligible). Applicants with recent secondary education (in the last five years) receive

entry when they have obtained a Queensland Certificate of Education (QCE), or equivalent from another state/territory or a certificate III or higher. Maximise your preferences by including a diploma to bachelor option to ensure your entry to university.

Fast facts

- Guaranteed entry to Griffith University* with one packaged offer that covers your diploma and bachelor study.
- Different entry requirements to allow you to reach your study goals in a supportive learning environment for successful further study.
- Small class sizes and extra contact time with teaching staff.
- Additional math support for STEM programs.
- Full access to Griffith University services and facilities.
- A flexible trimester calendar with courses beginning in March, June and October every year.
- Two campus options—Mt Gravatt, Brisbane or Southport, Gold Coast.

Study areas

We offer 11 diploma programs that provide pathways into over 50 different bachelor and double bachelor degrees at Griffith University:

- Business/commerce
- Criminology and criminal justice
- Design
- Educational studies
- Engineering
- Health care/nursing
- Health sciences
- International tourism and hotel management
- Information technology
- Science
- Social and psychological science.

Academic support

Our comprehensive learning support framework gives you the best opportunity to succeed.

- Lecturer consultation
- Math support with embedded modules "Core Math Skills"
- Study skills and time management workshops
- Assignment help
- Peer-assisted learning
- Flexible leaning with both face-to-face classes and livestreaming options

FEE-HELP

FEE-HELP and payment plans are available to eligible students for Griffith College diploma and associate degree programs. Contact Griffith College for more information or visit studyassist.gov.au.

Looking for more information?

Detailed information on programs, subjects, support services, accommodation, fees and enrolment procedures can be found at griffithcollege.edu.au.

*On successful completion of a Griffith College diploma program and meeting Griffith GPA (grade-point average) entry requirements.

**Credit into Griffith University will depend on the degree and major chosen. Visit griffithcollege.edu.au for full progression outlines.

When you choose **Griffith University**, you're choosing a world-class education, built on strong values, that will prepare you to thrive professionally and personally long after you graduate. Ranked in the top two per cent of universities worldwide, Griffith delivers forward-thinking degrees that are developed in consultation with industry, based on cutting-edge research, and taught by Australia's most awarded teachers.

Industry experience

You'll get inside access to industry, with many Griffith degrees offering work placements, field trips and industry projects for real clients. Our industry connections provide practical experience that helps to make sense of the knowledge you're gaining in the classroom, while also enhancing your job-ready skills.

Flexible study options

We're committed to giving our students as much flexibility as possible in how they participate in their studies. Depending on your degree, you'll have the choice to study in person at one of our five campuses in South East Queensland, online—or using a combination of both— either part-time or full-time over two or three trimesters.

Scholarships

We offer more than 600 scholarships, and you may be surprised to find you're eligible for one or more based on your background, chosen study area, hardships you've experienced, or your achievements at school or work. You can submit just one application to apply for multiple scholarships. Visit griffith.edu.au/scholarships.

Guaranteed Admission Scheme

To provide certainty about future study options and more opportunities for students from a range of backgrounds, our ATAR Guarantee and VET Guarantee offer applicants with an ATAR 80+/IB 28+, ATAR 90+/IB 33+ or completed VET certificate III or above, a guarantee of admission for a range of selected programs. The Year 12 Early Offer Guarantee also offers Year 12s admission to 60+ Griffith degrees based on their secondary results or in combination with VET qualifications (AQF certificate III, IV).
Visit griffith.edu.au/guaranteed-admission.

VET pathways

Griffith recognises vocational education and training (VET) as a highly effective pathway to our university. We accept standalone VET qualifications completed at high school, private providers and TAFE Institutes for admission. Visit griffith.edu.au/vet.

Adjustment factors

Our adjustment factors, including the Year 12 Subject Adjustment, Gold Coast and Logan Priority Access Pathway, the Nathan, Mt Gravatt and South Bank Community Engagement Scheme, Educational Access Scheme (EAS), and Elite Athlete Adjustment Factors can improve your chances of getting into your preferred degree. Visit griffith.edu.au/adjustment-factors.

Griffith Sports College

Griffith has one of the highest numbers of elite athlete students in the country. Through the Griffith Sports College, you can access support to help balance the high demands of elite sport with your university studies. Visit griffith.edu.au/griffith-sports-college.

Griffith Honours College

If you're a high-achieving student and keen to enhance your university experience through mentoring, leadership roles, volunteering, research and community engagement activities, the Griffith Honours College can help you reach your full potential. Visit griffith.edu.au/griffith-honours-college.

GUMURRII Student Support Unit

With dedicated centres on each campus, GUMURRII offers safe and culturally appropriate learning environs for all First Peoples students throughout their university journeys, including online students. Visit griffith.edu.au/gumurrii-student-support-unit.

Campuses

Gold Coast campus
Centrally located in Southport and just minutes from world-famous beaches, the Gold Coast campus is Griffith's largest. It is home to world-class teaching and research in almost all study areas and state-of-the-art facilities including the Griffith Health Centre, aquatic centre and athletics track.

Nathan and Mt Gravatt
Nathan and Mt Gravatt campuses offer a range of exceptional sporting facilities (including aquatic and tennis centres at Mt Gravatt). Sporting teams and social clubs are available at both campuses.

South Bank campus
Located within Brisbane's cultural heart, the prestigious South Bank campus encompasses the Queensland College of Art, one of Australia's oldest and most advanced fine art and design colleges; the Griffith Film School—Australia's largest; and the Queensland Conservatorium, one of Australia's leading music schools.

Logan campus
Nestled between Brisbane and the Gold Coast, Logan campus has strong connections with the local community, hosting numerous sporting and cultural events throughout the year.

Student accommodation

On-campus student accommodation is available at the Gold Coast, Nathan and Mt Gravatt campuses. We can also help you find a place to call home through our preferred accommodation partners. Visit griffith.edu.au/accommodation.

Student support

You'll be supported in every aspect of your studies. Whether you need learning, personal or financial support, we're here to help make your time at university a more manageable and memorable experience. Customised support is available for students from diverse backgrounds, and for students with disabilities.
Visit griffith.edu.au/student-services.

International students should visit griffith.edu.au/international for information on applying to study at Griffith.

James Cook University creates a brighter future for life in the Tropics worldwide through graduates and discoveries that make a difference. As a JCU student, you'll be equipped with the knowledge, skills and experience to make a positive impact in urban, regional, rural and remote communities.

More than 21,000 students, including 6,600 international students, are enrolled in a variety of programs. JCU courses have a strong focus on producing career-ready graduates. Throughout your degree, you'll develop professional skills and gain in-depth knowledge through a wide range of practical, hands-on learning experiences. Small class sizes provide access to world-class lecturers and researchers, giving you the support to succeed.

Study areas

JCU's comprehensive range of courses spans a diverse set of study areas at both undergraduate and postgraduate levels.
Our study areas include:

- arts and social sciences
- biomedicine
- business
- dentistry
- education
- engineering
- environmental management
- health studies
- information technology
- law
- marine science
- medicine
- nursing and midwifery
- occupational therapy
- pharmacy
- physiotherapy
- planning
- psychology
- public health and tropical medicine
- science, including marine biology
- social work
- speech pathology
- sport and exercise science
- tourism
- veterinary and animal science.

Courses in tropical health and medicine encourage the development of skills in serving regional and remote communities across Australia and the world. Courses in tropical environments and societies equip graduates to develop stronger economies and to pioneer innovation for a range of communities.

There's a place for you at JCU

JCU offers a range of flexible study options available across main campuses in Brisbane, Cairns, Singapore and Townsville. Options are also available to study at our campuses in Mackay, Mount Isa, Rockhampton and Thursday Island.

JCU Cairns, Nguma-bada campus, Smithfield and JCU Townsville, Bebegu Yumba campus, Douglas offer access to spectacular natural wonders, including the Great Barrier Reef, Daintree Rainforest and the Outback. You'll get to dive into hands-on learning, placements and projects in some of the most fascinating locations on Earth. You could travel to remote communities in a light aircraft, learn in our Classroom on the Reef or conduct research in the rainforest with the richest biodiversity in Australia.
With a picturesque river precinct and an array of cultural and entertainment options, Brisbane is regarded as one of the most liveable cities in the world. JCU Brisbane students receive a world-class education in Australia's fastest growing capital city for employment.

A constantly evolving city, Singapore is at the forefront of global health, technology and economic advancement. JCU Singapore boasts cutting edge facilities, collaborative learning spaces and internationally renowned lecturers to help you succeed every step of the way.

Why JCU?

A five-star experience
We are independently rated five stars for full-time employment outcomes, learner engagement, social equity, and starting salary for undergraduate and postgraduate students*. Receive support to succeed in your studies and future career from academics and staff committed to student success. The careers team at JCU provide knowledge and support for your dream career, from seeking out positions to helping with your resume and applications throughout your studies.

This is Uni… but not as you know it
Field trips, clinical placements, practicums, and internships — no matter what you study, JCU provides opportunities to build your knowledge. Gain hands-on experience in outback cattle stations, remote health clinics, the heart of the Daintree Rainforest, and the depths of the Great Barrier Reef.

Ready today, for tomorrow
Kickstart your career through study incorporated with real-world practice. JCU prioritises practical experience and our academics maintain strong industry links that you'll benefit from in the form of extensive placement opportunities. You'll gain valuable work experience and build a network with leading industry professionals in your field. Transition into the workplace with the practical skills and knowledge you need to succeed.

Student accommodation

You can choose from a variety of on-campus and off-campus housing. JCU Townsville offers five on-campus accommodation options for up to 1,200 students. The John Grey Hall provides Cairns students with accommodation that has spaces dedicated to both study and recreational activities. Visit jcu.edu.au/accommodation.

Support to succeed

You don't have to face your fees alone. Explore the range of financial support available to JCU students. Scholarships, bursaries, and grants are offered to assist financially, and we have a variety of options for students starting their first degree at JCU. Find out more at jcu.edu.au/scholarships.

Indigenous Education and Research Centre

The team at the Indigenous Education and Research Centre (IERC) are here to support you from the time you start thinking about studying right through to graduation and beyond. The IERC offer a range of services and facilities in encouraging environments to empower you to achieve success. From academic coaching and free tutoring to informal gatherings and community events, the staff and Indigenous Student Support Advisors at the IERC offer help that you can rely on.

@qutrealworld

QUT sets you up for a bright future with the skills, knowledge and connections to help you find your version of success.

Real-world courses

Study a course that gives you real experience alongside the theory so you can face the future with confidence. Use industry-standard equipment in labs and clinics. Work on real projects. Undertake work experience. Make connections with employers. Bring your ideas to life by developing your entrepreneurial mindset and practice.

We offer more than 220 degrees in architecture and built environment, business, creative industries, education, engineering, health, information technology, justice, law, mathematics and science. You can study on campus or choose an online course. Double degrees provide a real competitive advantage and give you greater variety in your study and career. If you're looking for a pathway option, QUT College diplomas offer direct entry to several of our degrees.

Your QUT qualification will be well regarded in Australia and around the globe. We are ranked third in Australia and 21st in the world's best young universities (Times Higher Education Young Universities Rankings 2022).

Two inner-city campuses

Our Gardens Point and Kelvin Grove campuses offer you high-quality facilities in a central Brisbane location with easy access to public transport.

Inspiring learning spaces include the dedicated Science and Engineering Centre, Creative Industries Precinct and Education Precinct. Experience state-of-the-art labs for everything from biomechanics and immunology to biofuels and supermolecular chemistry. Depending on your study area, you'll have access to the QUT Law Moot Court, the Economics and Finance Bloomberg Lab, and the QUT Health Clinics where our students work with real patients under the supervision of health professionals.

Your student experience

Study in a culturally diverse and inclusive environment with opportunities to build lifelong connections. Choose from more than 150 clubs and societies or get involved in events such as TEDxQUT and the Dragon Boat Regatta. Participate in competitive or social sport, including QUT esports. Gain skills for the future through volunteering, leadership and project opportunities.

Scholarship opportunities

We offer many scholarships for students who are academic or creative high achievers, elite athletes, budding entrepreneurs, from a low-income background, identify as Aboriginal or Torres Strait Islander or are studying a particular course.
Visit qut.edu. au/scholarships.

Student accommodation

Our central location means there are many accommodation options available near campus. QUT's accommodation service can help with advice and an accommodation database. Visit qut.edu.au/study/brisbane.

QUT Offer Guarantee

Our offer guarantee can give you peace of mind about your study choices. If you receive an ATAR or selection rank equal to or higher than the offer guarantee for your course, you are guaranteed a place in the course regardless of the threshold.

Indigenous Australian pathways

The Oodgeroo Unit offers the Centralised Assessment and Selection Program, a culturally supportive admissions pathway for Australian Aboriginal and Torres Strait Islander people. We also provide tutoring and cultural support.
Visit qut.edu. au/about/oodgeroo.

Match My Skills quiz

We've taken the stress out of finding a course that suits you. Take the Match My Skills quiz and we'll deliver a personalised list of careers and courses that are perfect for you, plus some ideas on future proofing your career.
Visit qut.edu.au/match-my-skills.

Join us for Open Day

We can't wait to show you around:
Sunday 31 July, Gardens Point campus.
Visit qut.edu.au/open-day.

/SAEInstituteAUS
@sae_institute_australia

SAE Creative Media Institute is the leading global specialist in creative media education with courses in animation, audio, design, film, games, music and creative technologies.

Established in 1976, SAE now has campuses worldwide. In Australia, SAE has campuses in Brisbane, Byron Bay, Sydney, Melbourne, Adelaide and Perth. SAE offers government-accredited courses including certificates, diplomas, associate degrees, bachelor degrees and postgraduate programs.

From day one at SAE, students start creating in world-class facilities, on the latest software and equipment, under the guidance of expert lecturers.

SAE offers fast-tracked degrees, with options to complete your bachelor's degree in two years (studying full-time). The extensive knowledge of the teaching staff, who are accomplished professionals in their fields, and the rigorous curriculum, gives students a competitive edge after graduation. Small class sizes, one-on-one and tailored learning, and interdisciplinary collaboration enable students to gain a range of skills and experience in creative media.

Students graduate industry ready, after thorough training and hands-on experience, they are ready to enter the creative industries work force. SAE's specialised courses are responsive to the dynamic and evolving nature of these industries. During their studies, students can undertake professional placements, internships and work experience relevant to their chosen fields, and showcase their work to industry and the general public at various exhibitions.

Facilities

Located in Brisbane's creative hub in West End, the campus facilities include:

- Seven large digital and analogue recording studios
- Four live recording rooms
- Premium industry consoles including the Neve Custom Series 75 and Avid S6
- Industry standard Cyclorama film studio
- Large multi-purpose soundstage
- 5.1 Surround Post-production editing suite with attached vocal booth
- After-hours computer labs with the latest creative media software
- Film theatrette with cinema seating
- Oculus Rift, Quests and HTC Vive virtual reality headsets
- Professional standard cinema camera equipment and accessories
- Library with attached study spaces
- Industry standard animation and design equipment including DSLR Cameras & Wacom graphics tablets
- On-campus cafe

Visit sae.edu.au/campuses/brisbane for more information about the facilities.

Student support services

SAE has a range of services to support students during their studies. The Student Services team assists with learning support, administration support and student wellbeing, as well as supporting students with disabilities.

The Strong Foundations Program is a learning support program for any Stage 1 student who has support needs. (Stage 1 is the first two trimesters of the first year.) This program is run concurrently and in addition to studies, at no additional charge to students.
Visit sae.edu.au/life-at-sae/student-services/ to find out more about student support programs.

Payment options

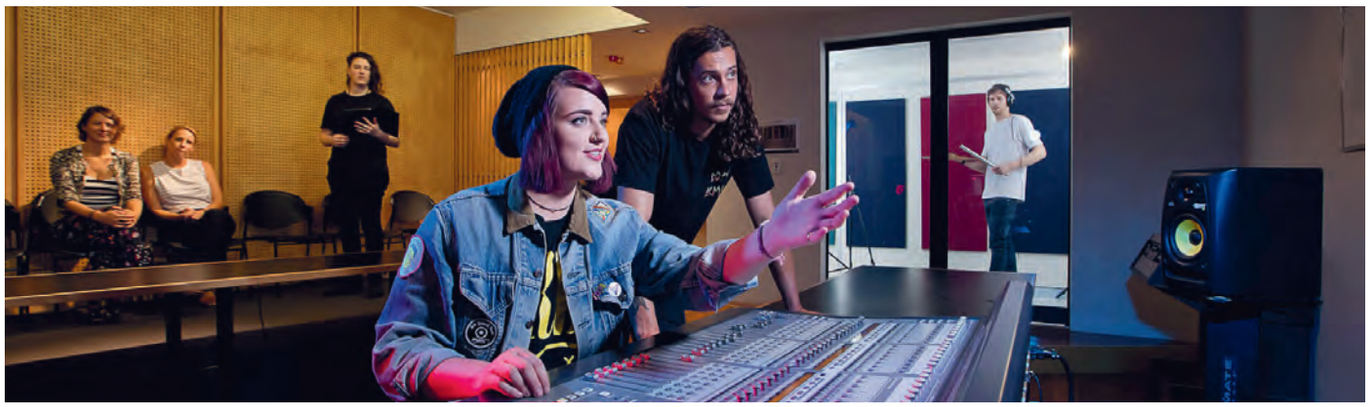
SAE offers flexible payment options, including payment plans, as well as access to FEE-HELP or VET Student Loans, scholarships and study grants.

Early entry program

SAE offers an early entry program, Launchpad, that allows Year 12 students to apply for their tertiary studies with SAE before the final school results are released.

More information

Visit sae.edu.au to investigate SAE course offerings, view videos and photos of the campuses, explore the outstanding facilities and student services.



SOUTHERN CROSS UNIVERSITY

POST Future Students, Southern Cross University

ENQUIRE futurestudent@scu.edu.au
WEB scu.edu.au

/southerncrossuniversity
@SCUonline
/UniSCU
@southerncrossuniversity

Southern Cross University is powered by passion. We are surrounded by ambitious and dedicated students and colleagues, and environments of stunning natural beauty. We pride ourselves on an innovative academic model that is driving student success at university and beyond.
Southern Cross University is deeply grounded in its regional communities and demonstrates that world-class research, teaching and learning thrives outside capital cities. We create and apply knowledge in partnership with our communities in fields that are regionally relevant and globally significant. The latest Excellence in Research for Australia report has ranked Southern Cross as 'at world standard or above' in 23 key research areas.

The University has three main campuses along the east coast of Australia and operates The Hotel School Sydney, Melbourne, Brisbane and Hayman Island in partnership with Mulpha Australia. We have a thriving online campus and most degrees have an optional online study mode.

Gold Coast campus
Our Gold Coast campus is located at Coolangatta, just 400 metres from North Kirra Beach. Many vantage points from the campus buildings offer stunning views of the Pacific Ocean. The campus is spread across three multi-level buildings that house innovative learning spaces, health science laboratories, computer labs, student lounges, the University's Digital Enterprise Lab and an on-campus Health Clinic.

Lismore – Northern Rivers campus
Lismore is the original Southern Cross campus, located in the heart of the Northern Rivers on acres of lush rainforest that is home to abundant native wildlife and a koala hospital. The campus is within easy reach of beautiful national parks with beaches close by at Byron Bay, Lennox Head and Ballina.

The campus has state-of-the-art creative studios, engineering and environmental science facilities, specialist health labs and simulated hospital wards, the Enterprise Lab, a Learning Centre and library complex, on-campus accommodation, a gym, heated pool and an on-campus Health Clinic.

Coffs Harbour campus
Our Coffs Harbour campus is part of an innovation hub in this coastal city, within easy reach of the ocean, international sporting facilities and a regional airport.
An advanced Health Sciences Building features a biomechanics running track and high-tech simulation teaching laboratories, surrounded by extensive green spaces and sporting fields.
The campus has on-campus accommodation and a gym, library and student lounges.

The University's National Marine Science Centre is also located in Coffs Harbour, adjacent to the Solitary Islands Marine Park, and is one of Australia's leading facilities for marine science teaching and research.

Key dates

Orientation: February 2023
Teaching starts: March 2023
Open Days: 5-7 August 2022
For more information on key dates, visit scu.edu.au/teachingcalendar.

Courses with special entry procedures/ tertiary prerequisites

All Southern Cross University undergraduate education courses require applicants to complete a non-academic requirements statement as part of their application; visit qtac.edu.au/teacher-entry.

The Bachelor of Art and Design, Bachelor of Contemporary Music, and Bachelor of Midwifery have additional or alternative selection criteria (interview/portfolio/ audition). Students wishing to study the Bachelor of Business in Hotel Management are selected on individual merit and interview.

Online study

Southern Cross offers many courses online through direct application.
Visit scu.edu.au/online

Aboriginal and Torres Strait Islander applicants
Indigenous Australian applicants who believe they may not meet the usual admission requirements are invited to a testing and assessment program for consideration for admission to their preferred course. For information, contact Indigenous Australian Student Services (IASS) by email at iass@scu.edu.au or phone 1800 626 481.

Recognition of prior learning

There are a variety of reasons prospective students could gain credit towards their study, including recognition of prior learning and industry experience. Southern Cross University recognises qualifications from TAFE institutes and other educational providers in formal agreements that grant advanced standing towards a number of courses. Visit scu.edu.au/advancedstanding.

Facilities

Discipline-specific facilities vary at each campus. General student facilities also vary at each campus but may include food outlets, bookshops, gymnasium and sporting facilities, swimming pool, health clinic, and banking facilities. Visit scu.edu.au/campuses.

Student accommodation

All the University's campuses provide a list of off-campus accommodation available in their area. Visit scu.edu.au/accommodation. For accommodation in colleges at both Lismore and Coffs Harbour campuses, go to scuvillage.com.au.

Student support services

Academic support is available to all students. The UniMentor program connects new students with an experienced student mentor studying in the same discipline. The University has a free counselling service for all students. Students with a disability have access to a range of support services. Southern Cross University is an inclusive and culturally safe work and study environment. For a full list of student support services, visit scu.edu.au/ studentsupportservices.

TAFE QUEENSLAND

POST TAFE Queensland
PO Box 1910, Carindale, Qld 4152 Australia
RTO No. 0275
PRV: 13003
PHONE 1300 308 233
WEB tafeqld.edu.au

/TAFEQueensland
@tafeqld
/TAFEQueensland
@tafeqld

TAFE Queensland is the state's largest and most experienced training provider, delivering practical, industry-relevant courses to more than 120,000 students each year.

Our courses are taught by highly-qualified teachers who have experience in their fields and are passionate about sharing their industry knowledge with the next generation.

Our flexible study options mean you can choose to study a course at one of our 50 locations across the state, online, or through your workplace.
Courses

TAFE Queensland offers more than 500 courses ranging from short courses, certificates and diplomas through to advanced diplomas, associate degrees and even bachelor degrees. Our courses focus on giving you the practical skills and knowledge you need to succeed in your chosen industry.

We offer courses across a comprehensive range of study areas including agriculture and horticulture, animal care, automotive, beauty and hairdressing, building and construction, business, child care, community services, creative industries, electrotechnology and utilities, general education and training, hospitality and cookery, nursing and health, resources and mining, sports and fitness, information technology, tourism and events, and transport, logistics and aviation.

As the state's most experienced provider of trade courses, TAFE Queensland delivers apprenticeship and traineeship training in all major trades as well as engineering and building design diplomas for students wanting to build a career in the construction industry.

Pathways to university

We have partnerships with a number of leading Australian universities who share the common goal of providing degrees that combine strong practical skills development with rigorous academic learning. This makes TAFE Queensland a great pathway to university, no matter what your career goals.
With our diploma to degree pathways you can earn up to 12 months credit transfer towards a university degree, as well as improve your QTAC selection rank.

You can take advantage of this pathway and guarantee your place in a TAFE Queensland diploma and your preferred university degree with just one QTAC application by applying for one of our dual award courses. This allows you to complete a diploma at TAFE Queensland and then transfer directly to university to complete your bachelor's degree, giving you the best of both worlds.

Degree options

Collaborating with The University of Canberra, Southern Cross University, and Federation University, TAFE Queensland delivers degrees in creative industries, design, IT and business on its purpose-built campuses in Brisbane and the Gold Coast.
Our degree programs allow students to graduate with a university degree as well as the hands-on skills of a vocational qualification.
Full details of our degree options can be found in the Courses section of this guide.

Entry requirements

Applicants must have completed Year 12 or attained Year 12 leaving age to apply for the majority of TAFE Queensland courses through QTAC. Entry requirements for TAFE Queensland courses not offered through QTAC are available by contacting TAFE Queensland.

Most art, music, and performing arts diplomas, advanced diplomas and degrees require portfolio, audition, or music demonstration submission for entry. These entry requirements are outlined in the course entries in this guide. The final date for applying and changing preferences is 2 December 2022 for semester 1, 2023 and 15 May 2023 for semester 2, 2023.

Student facilities and services

The training facilities at TAFE Queensland are second to none. As a TAFE Queensland student you'll study in the same facilities used in industry including photography studios, automotive workshops, commercial kitchens, dental clinics, engineering workshops, recording studios, simulated nursing wards, art studios, beauty salons, and open-to-the-public gyms. In addition, our partnerships with local employers give students valuable opportunities to combine their studies with practical work experience in actual workplaces.

TAFE Queensland provides a range of dedicated services to support our students with their study, employment and personal needs. Services include career guidance, counselling services, learning support, library services, as well as specialised support for Aboriginal and Torres Strait Islander students, and students with a disability.

At **The University of Queensland (UQ)**, you'll get an education – not just a qualification. We have a strong focus on teaching excellence, having won more national teaching awards than any other university in Australia. Ranked in the world's top 50 universities, we are one of Australia's leading research and teaching institutions. Our passionate, engaging lecturers are experts in their field, and our groundbreaking learning and research spaces enable our students to embrace their curiosity to transform the world around them.

We know the future is unpredictable. We'll give you the practical skills, research and knowledge to navigate it with confidence. This is what makes UQ graduates the most employable in the state. At UQ, you'll go further, know more and own the unknown.

Join more than 55,000 current students, including international students from 142 different countries, who contribute to the diverse, inclusive community across UQ's three beautiful campuses. Connect with like-minded students through clubs and societies, and build relationships with friends, teachers and industry leaders who will help elevate your career well into the future.

High-quality programs

Our range of undergraduate and postgraduate programs is one of the most comprehensive in Australia. We provide choices to give you flexibility to meet your learning and career goals. Many of our programs offer practical experiences to boost your skills and enhance employability. We engage with industry to provide mentorship opportunities and inform curriculum development. We also expand UQ's reach to learners around the globe through the UQx massive open online courses (MOOCs), with more than 1.7 million participants to date.

Great experiences

We offer a range of experiences so you can make the most of your time at university. Study overseas for up to a year through UQ's Study Abroad program while gaining credit towards your UQ degree. Some UQ programs also include overseas placements or field trips as a core study component, enabling you to discover new cultures in a short space of time. Closer to home, there are hundreds of clubs and societies to join, Summer and Winter Research Programs and our intensive language-training programs.

Our campuses

St Lucia campus
Just seven kilometres from Brisbane's city centre, UQ St Lucia is renowned as one of Australia's most beautiful university campuses. Bound by the Brisbane River on three sides, the 114-hectare site provides a perfect study, research and living environment. It's a vibrant mix of sandstone buildings, modern architecture, parklands and lakes.

Gatton campus
UQ Gatton combines its Queensland Agricultural College heritage with modern research and teaching facilities in agriculture, agribusiness and veterinary science. Just over an hour's drive west of Brisbane, the 1068-hectare rural campus offers a relaxed, friendly atmosphere and world-class facilities including the Queensland Animal Science Precinct, the UQ Veterinary Medical Centre, Gatton Research Dairy, nursery and glasshouse facilities, horticultural fields and post-harvest facilities.

Herston campus
Just three kilometres from the Brisbane city centre, Herston is our specialist campus for health and medical teaching and research. Sharing premises with the Royal Brisbane and Women's Hospital and QIMR Berghofer Medical Research Institute, UQ Herston houses a vibrant clinical and research community delivering innovative and contemporary research and education programs. Major research institutes on campus include the UQ Centre for Clinical Research, the Oral Health Centre and the purpose-built Herston Imaging Research Facility.

Student support

As a UQ student, you'll have access to a wide range of services to support you while you study, including careers advice and guidance, disability support, accommodation assistance and counselling services. Our learning advisers can help you develop the core academic skills to achieve the best possible outcomes at university. Our Student Enrichment and Employability Development unit provides you with opportunities and support to help you reach your goals, become a leader in your chosen field and make a positive impact on society.

Student accommodation

From on-campus residential colleges to off-campus student housing or privately rented houses and units, you're sure to find accommodation that suits you and your lifestyle. You can also access help with living and life skills, share housing, conflict resolution, accommodation concerns and tenancy advice.

/torrensuniversity

As the country's fastest-growing university, Torrens University Australia brings a fresh approach to higher education, with employability at the centre of everything we do. A progressive university that fosters passion, we take a strengths-based approach to teaching. Recognising individuality and potential as better indicators of future success than exam scores, we no longer consider ATAR our primary entry requirement*. Our focus on transferable soft skills means everyone has the chance to achieve their academic and career goals.

Built on the strong foundations of our distinguished schools and colleges, such as Billy Blue College of Design and Blue Mountains International Hotel Management School, Torrens University offers undergraduate and postgraduate courses designed with and for industry.

Our future-focused courses in Business, Design and Creative Technology, Health and Hospitality are taught by leading experts and delivered on campus, online and as a blend of both. With locations in Sydney, Melbourne, Brisbane and Adelaide, our national campus network and flexible study options allow students to tailor their learning journey.

Academic staff and industry partners help students bridge the gap between study and work. Our small lecture sizes and personalised approach to teaching ensures students develop strong, relevant skills and thrive in their chosen field. We offer partnerships with industry, allowing students to complete practical experience with some of the most influential brands on the planet.

Accessing cutting-edge facilities and technology while gaining genuine insights in situations that reflect their future workplaces, students develop the competitive edge to help land their dream career. Many of our graduates secure employment at companies they've collaborated with or through connections they've made during their time with us. From enrolment through to graduation, students are supported every step of the way by a passionate network of Success Coaches. Offering guidance and encouragement, our coaches help students excel in their studies and create the right trajectory for their chosen career.

At Torrens University, we give students the tools they need to create their own success. Call 1300 575 803 or email futurestudents@torrens.edu.au if you would like one of our Course and Careers Advisors to visit your school.

Scholarships

At Torrens University Australia, we believe in the transformative power of education. It's our belief that everyone deserves an education – and that's why we support students' studies from start to success. Investing in them means investing in our future: the next generation of leaders and change-makers. Visit torrens.edu.au/studying-with-us/fees-scholarships/scholarships for the full range of scholarships.

Student support services

At Torrens University Australia, we take the needs of all our students seriously and provide support from the start of their course, all the way through to graduation. We offer a range of student support services, including counselling, academic assistance, career advice and workplace preparation. Our team of advisors and Success Coaches assist domestic and international students. Visit torrens.edu.au/studying-with-us/student-services-support for more information.

Open days

Fortitude Valley:
Saturday, 6 August 2022
Virtual Open Day:
Tuesday 16 August 2022
Visit torrens.edu.au/whats-on/open-day for further details.

Campuses

Located throughout Australia, our dynamic, purpose-built campuses set Torrens University apart. Students may choose to start their studies in Sydney, transfer to Melbourne and complete some or all of their final-year subjects online. Visit torrens.edu.au/campuses

Entry pathways

At Torrens University Australia, we know everyone's different. Our job is to help students explore their strengths and kickstart their careers. Since we value passionate humans, not perfect performance, we've removed ATAR as our primary entry requirement – because we know it's passion that unlocks potential. Reach out to one of our Course and Careers Advisors to discuss pathway options.

Career quiz

This five-minute quiz matches students' strengths to compatible course and career options. Visit torrens.edu.au/career-crush.

*Exceptions may apply to some courses.

Orientation: Monday, 21 February–Friday, 25 February 2022

Trimester 2
Monday, 27 June–Friday, 14 October 2022
Orientation: Friday, 24 June 2022

Trimester 3
Monday, 24 October 2022–Friday, 24 February 2023
Orientation: Friday, 21 October 2022

Studying at UNE

On campus
At the University of New England (UNE), you get more than a degree, you get a complete university experience: a vibrant, supportive community, small classes, and easy access to your expert lecturers. This means that you get every opportunity to reach your potential and get the very best start (plus some great memories along the way).

UNE remains one of the few universities to provide the complete on-campus experience, combining affordability, student support and community, as well as extensive sporting facilities. Study with UNE and see why we get the maximum five-star rating from graduates for Overall Satisfaction and Teaching Quality in The Good Universities Guide year after year.*

Online
Future Fit your life
At UNE we know it takes more than being online to be a great online university. It takes time, and a lifetime's experience. We pioneered distance education for working adults back in the 1950s. And we've been perfecting it ever since. Our mission is to help ordinary people Future Fit their life in response to the rapidly changing world in which we live.

We now have more than 18,000 online students studying over 170 online courses.
We provide 24/7 tutor support and even our exams are online. We have three teaching periods (trimesters), commencing in March, June and October, giving students greater choice about when and how much they study each year.

Pathways

If it's been a while since you last studied or if you don't have entry qualifications, UNE offers a range of pathways to help get you on your way, including the Pathways Enabling Course, Science Pathways and TRACKS Tertiary Preparation for Aboriginal and Torres Strait Islander students.

The Pathways Enabling Course is studied fully online, has no tuition fees and will give you entry and credit to most undergraduate degrees at UNE. Visit une.edu.au/pathways for more information.

Aboriginal and Torres Strait Islander applicants

UNE's Oorala Aboriginal Centre provides coordinated academic services and study facilities for Aboriginal and Torres Strait Islander students.

Oorala also offers dedicated pathways to Aboriginal and Torres Strait Islander applicants seeking admission to UNE. The Internal Selection Program is a one-day testing and assessment program which focuses on each participant's study skills and career goals.

Following an interview, participants are recommended for admission to either mainstream UNE courses or the TRACKS Tertiary Preparation Program and advised on suitable alternatives for study in their chosen field.

The TRACKS Tertiary Preparation Program is a flexible, on-campus or online university preparation course. The program provides Aboriginal and Torres Strait Islander students with the opportunity to access and explore tertiary education, while also developing the skills required for undergraduate study. Successful completion of TRACKS will provide entry into an undergraduate degree program.
To find out more, visit une.edu.au/oorala.

Selection rank adjustments

UNE will increase your selection rank by a maximum of five points across the following categories:

Equity adjustments – for students who have experienced long-term educational disadvantage. Submit an EAS application through QTAC. Visit qtac.edu.au/educational-access-scheme for more information.

Location adjustments – for students who live in regional, rural and remote locations. Adjustments are applied automatically to a QTAC application. Adjustments are not applied to applications for B Laws (3 years), the Joint Medical Program and B Music. For details, and a link to an eligible postcode look-up tool, search for 'adjustment factors' at une.edu.au.

*The Good Universities Guide Ratings 2007–21. The Good Universities Guide provides the only independent performance ratings of Australian undergraduate courses and their providers.

The **University of Southern Queensland (USQ)** has been delivering flexible study options for over 40 years. We know what we're doing and how to help you best. You'll experience world-class lecturers and small class sizes at a uni where the little things count as much as the big results we deliver.

Be prepared for your future career with USQ, #1 in Australia for graduate starting salary (Good Universities Guide, 2022). Choose from more than 140 degrees available on campus and online, and live life while you study.

Study from anywhere with our flexible study options, or join our students on campus at Toowoomba, Springfield or Ipswich. You could also choose to fast-track most degrees by studying over summer.

Scholarships

At USQ, we want every student to have a chance to reach their potential – a scholarship could help you get there with a little more ease. We offer scholarships to outstanding students who have demonstrated academic excellence, leadership and contributed to the wider community. Scholarships are also available to students whose ability to experience a university education is affected by financial hardship.

The best part? You can apply for more than one, so be sure to apply for all that you are eligible for. Find your scholarship at usq.edu.au/scholarships.

Start your path to uni with support

We understand that everyone's path to university is different. If you didn't study for an ATAR, your goals have changed, or if it's been some time since you studied, our pathway programs can get you your place at university.

At USQ, your pathway to uni is tailored to your skills, experience and the degree you want to study. We have various entry pathways to reach your dream degree, whether you don't meet entry requirements, are studying later in life, or are from a non-English-speaking background. Find your pathway to uni at usq.edu.au/pathways.

Student life

There's more to uni than study. Get involved, build your skills, and connect with your fellow students with over 200 student-focused events each year. There are over 35 clubs and societies to join, or create your own based on your interest area. Learn more at usq.edu.au/life.

Student accommodation

Enjoy the full on-campus experience with Residential College accommodation at our Toowoomba campus. Choose from three different colleges, each with different living arrangements, such as meals provided, or shared kitchen facilities. USQ's Residential Colleges provide convenient and affordable accommodation for both long and short stay periods.

Greater Springfield's Education City Residential Village provides student accommodation close to USQ's Springfield campus.

Staff at our Ipswich campus can assist students in finding a place to live nearby, with a range of off-campus accommodation options readily available. For more information, visit usq.edu.au/accommodation.

Online study

At USQ, we believe you can fit study into life – from wherever you are. As the experts in delivering over 130 online university degrees, our high-quality education and learning opportunities have supported thousands of students for over 40 years. You won't be alone in your online learning journey – over 75% of USQ students study online. Tailored support is right at your fingertips with iconnect support staff, USQ's Student Advice line, free online Library learning services and our online student peer-support community.

Your subject enrolment can also be adjusted to meet your needs. Take one subject at a time, study over summer, or take extra subjects when your life allows it. Discover more about online learning at usq.edu.au/online.

USC is ranked by students as one of Australia's best universities for teaching quality and overall student experience. As a USC student, you'll be part of a community that drives innovation and helps to build better lives.

We offer flexible online and on-campus study options at a network of teaching locations between Moreton Bay and the Fraser Coast.

Our programs include a strong focus on the core skills you'll need in the future workplace: no matter what you study, you'll learn to communicate well, solve problems and think creatively. All programs include hands-on training, practical experience and internships.

USC is home to some of the most advanced learning facilities in Australia, including simulated nursing and paramedic labs, a high-performance sport precinct, advanced engineering technologies, and a state-of-the-art CAVE2TM 3D visualisation studio.

At USC, we are working to create a better future for our communities. From climate change adaption to environmental conservation, regional healthcare to improving mental health and wellbeing, our students and researchers tackle problems that directly impact our regions.

WHY CHOOSE USC?

A five-star student experience
Every student matters to us, which is why we're rated one of Australia's best universities for overall student experience. USC students come from diverse backgrounds but share a similar goal: to make the most of the opportunities that USC provides.

Career-focused learning

No matter what kind of future you're looking for, you can find it at USC. Our programs offer the choice and flexibility you need to get started on your career goal, whatever it may be. Our approach to learning is hands-on, with lots of opportunities to engage with your lecturers and fellow students on campus.

World-ready graduates

Employers consider USC graduates to be some of the most employable university graduates in Australia. Eight out of 10 graduates are employed within four months of finishing their degree, and our graduates are currently using their skills and expertise to drive change in more than 5,000 communities worldwide.

A high-performance culture

We are committed to unlocking innovation and helping every student reach their full potential. Alongside their studies, our students excel in sport, music, entrepreneurship, performing arts, social change, and more.

We encourage and support high achievers through initiatives such as the USC High Performance Sport Program, which helps athletes achieve sporting and academic excellence.

Flexible study options

No matter how you prefer to learn, there's a USC experience for you. We offer flexible online and on-campus study options at a network of locations across South East Queensland – from Moreton Bay to the Fraser Coast.

Our campuses are lively, vibrant spaces where students, staff and communities members can come together to learn, socialize, collaborate and share.

Overseas study

You can apply for up to two semesters of study at a variety of partner institutions around the world, and earn credit towards your degree through USC's Study Overseas program. Scholarships are available for eligible students. Visit usc.edu.au/studyoverseas.

Student support services

Students can access a range of support services including academic and study support, mentoring programs, careers and employment services, counselling, financial support services, sexuality and gender support, disability services, and health, wellbeing and welfare services. The USC Student Guild provides social events, a second-hand textbook hub, accommodation register, and funding for clubs and societies. USC's Indigenous Services offers support programs and facilities tailored specifically to Aboriginal and Torres Strait Islander students.

For information about student support, visit usc.edu.au/studentsupport.

Student accommodation

USC provides information, resources, advice and referrals for accommodation and tenancy matters. Students can also access a free off-campus accommodation vacancy register.

USC Sunshine Coast has three privately owned and operated student accommodation villages offering fully self-contained share accommodation just a short walk from campus, public transport and the local shopping centre.

More information

Visit usc.edu.au or contact Student Central by phone on (07) 5430 2890 or email at information@usc.edu.au.

GLOSSARY

Admission pathway: any option available to prospective higher education students that will enable them to meet the entry requirements of their chosen courses

Adjustment factors: often referred to previously as bonus points, these are additional points that may be used in combination with an applicant's ATAR or other rank to derive their adjusted selection rank. Adjustments only change ATARs or ranks for a particular course or courses

Advanced standing: a form of credit for any previous learning. Refer also to Recognition of prior learning (RPL)

AMEB: Australian Music Examinations Board

Associate degree: a qualification, usually involving two years of study, that gives students the basic technical and academic knowledge and skills needed for employment or further study in their chosen field

Assumed knowledge: the minimum level of achievement in Senior subjects considered necessary for successful first year tertiary study

ATAR: Australian Tertiary Admission Rank. The standard measure of a Year 12 student's overall academic achievement in relation to that of other students, expressed as a number on a 2000-point scale from 99.95 down to 0.00.

Bachelor's degree: a qualification usually requiring three or four years' fulltime or the equivalent part-time study

Bridging course: a course designed to cover subject knowledge, which helps students gain knowledge in specialist areas that are a core component of a course. If a course requires a prerequisite in an area that students have not studied, a bridging course will help students bridge the gap in that knowledge and gain admission

Campus: the grounds of a university or other higher education institution

Combined, double or dual degree: a degree combining two fields of study, resulting in the award of two degrees or one degree encompassing two fields of study

Competitive: having an ATAR or selection rank equal to or better than that required for entry

Course: a series of subjects required for and leading to the award of a qualification

Course duration: the length of time in months and years in which a course should be completed if studied on a full-time or part-time basis

CSP: Commonwealth supported place

Deferment: a process that allows you to delay the commencement of your studies

Direct application: an application made directly to a higher education provider rather than through a tertiary admissions centre

Distance education: study taken by students who are not physically present in a traditional setting such as a classroom. Refer also to External

EAS: Educational Access Scheme

Enabling course: a course designed to provide students with skills needed for success in further study, to assist in the transition to tertiary education; for example, study techniques or English language skills. Successful completion helps prepare a person to be admitted to a course that leads to a higher education award

Entry requirements: the requirements an applicant must meet to be considered for entry

External: a mode of study taken off campus. Refer also to Distance education

Gap year: a period, typically a year, taken by a student as a break between school and tertiary study

GPA: Grade Point Average

HELP: Higher Education Loan Program (formerly HECS)

Honours: advanced or specialised study, usually one year in duration, that students can take as part of or after a bachelor's degree if they have outstanding academic results

Institution: an educational organisation e.g. a university, college or TAFE

Location: the place a course is offered

Major: an area of specialisation that focuses on a particular field of study e.g. history

Merit: the two measures of merit are the ATAR and selection rank

Mixed mode learning: a mode of study in which students learn through a combination of classroom-based and self-directed online learning, and workplace activity

Offer round: a date on which offers of higher education places are issued to applicants, whether through a tertiary admissions centre or directly by a higher education provider

Postgraduate course: a course studied after an undergraduate degree

Prerequisite: an entry requirement, such as a subject, portfolio, audition or interview, that an applicant must meet before they are considered for entry

Professional award: healthcare qualifications, creative arts qualifications or membership of professional associations that may be awarded a selection rank

Program: refer to Course

QCAA: Queensland Curriculum and Assessment Authority

QCE: Queensland Certificate of Education

Quota: the estimated number of places available in a course

Recommended study: non-compulsory subjects that institutions suggest students take while at school to give them a better understanding of course content

Recognition of prior learning (RPL): a process used to assess an individual's relevant prior learning (including formal, informal and non-formal learning) to determine the credit that may be granted towards completion of a qualification. Also known as credit transfer

Selection rank: a numerical score between 99.95 (highest) and 0.00 (lowest) used to compare applicants for the purpose of tertiary entry

Specialisation: refer to Major

Student contribution: the amount a student must pay towards a Commonwealth supported place

Transcript: an official record of a student's academic performance issued by an institution

UCAT: University Clinical Aptitude Test

Undergraduate degree: a course such as an associate or bachelor's degree, usually undertaken by a student who has not previously graduated from university

VET: Vocational Education and Training

NOTES

Your 6 Preferences

With QTAC, more preferences mean more opportunities to choose your future. When you are selecting your preferences, remember the first three times you click the 'save' button are free, but each time after this, you will be charged a Change of Preference Fee.

Check if any of your preferences have Fixed Closing Dates - if some of your courses close earlier than others, put the earlier ones higher on your list.

You can change your preference both before and after an offer. Find out everything about preferences at qtac.edu.au/preferences

Different ways to achieve your Dreams

While ATAR is the standard pathway into tertiary study, its not the only way.

Tertiary pathways are a personalised plan or guide, which can be tailored to an individual's needs. Just like the individual, the journey can be very different and unique.

Meet Zoe - Graduating Year 12 in 2020, Zoe was one of almost 2000 students who left secondary school without an ATAR. Passionate about the arts and always seen with her sketch book on hand, Zoe knew she wanted to pursue something fulfilling when she left school.

Describing herself as creative, organic and gifted, a younger Zoe would have said she wanted to be a fashion designer when she grew up. While at school, Zoe attended a careers expo where she learnt she could complete a Certificate III in Design Fundamentals during year 11 and 12. This meant she was able to study something she enjoyed and was good at, while still completing her Queensland Certificate of Education.

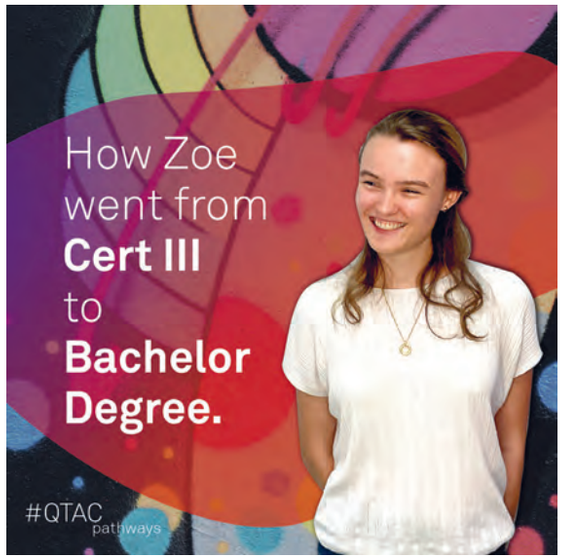
Knowing she would gain a minimum selection rank of 68 (from having completed her certificate III), Zoe was confident of her next steps toward tertiary study. This also meant Zoe was able to spend more time doing the things she loves, including playing video games, painting, reading and creating poster artwork.

"I felt very chill in Year 12, as I had a clear pathway" said Zoe.

Completing her Certificate III prepared Zoe a smooth transition into a Diploma of Graphic Design. A year has passed since she left high school, Zoe has completed her Diploma and is looking forward to commencing a Bachelor degree in 2022.

"I feel happy and alive since leaving school as I am doing something I really enjoy", she said.

Once completing her bachelor degree, Zoe plans on chasing her dream of becoming an Illustrator.

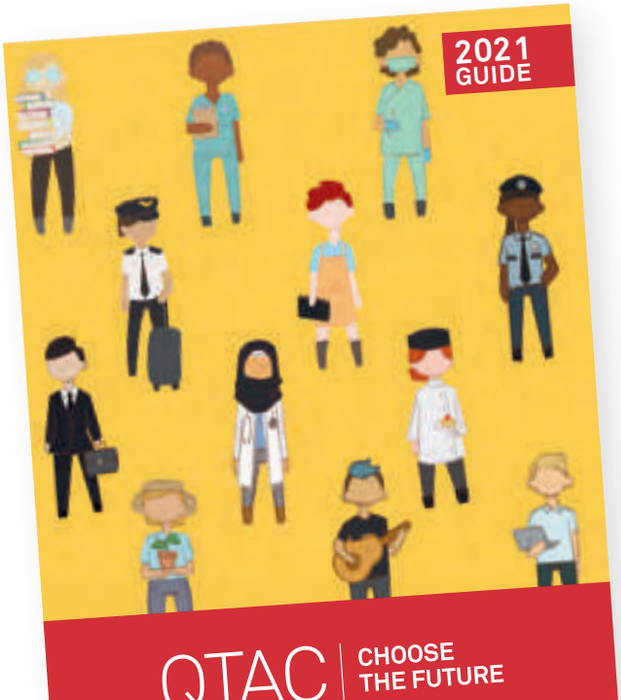


Zoe's top 3 tips for the Class of 2022:

1. Look for other pathway options.
2. Do something everyday that pushes you out of your comfort zone and scares you.
3. Relax – take a break.

"Anyone can get where they want to be if they work hard enough. Just follow your passion"

Zoe



Whilst in her final year of school, Zoe decided to put herself out there and enter the QTAC Yearly Artwork Competition.

Zoe's artwork (featured here on the the left), won, and was printed in the 2021 Guide with over 50,000 copies distributed to students across Queensland.
